3 Lists of articles in slop chest.
3 Private Property. Declaration of the Crew.
3 Manifests.
3 Bills of Lading.
To be handed to Agents:
Ship's Register.
Load Line Certificate.
Safety Equipment Certificate.
Safety Radio Certificate.
Last Port Bill of Health.
Last Port Clearance.
PILOTAGE: No pilot station, being open roadstead port. Vessels not piloted to anchorage.
ANCHORAGE: Vessels anchor according draft and prevailing weather conditions. In fine weather, good anchorage in depths of 3¾ to 6 fathoms with lighthouse bearing 281° to 255°. Holding ground, sand and mud, good. Agents, in consultation with Port Authorities, signal Master on arrival of vessel, anchorage position for guidance.
MAX. SIZE: No restrictions. Vessels choose anchorage according to draft.
HEALTH: On arrival Master to signal local signal station, addressed Port Health Officer stating vessel arrived and no sick person on board. Agents then obtain free pratique from Port Health Authorities. In event any person having chicken-pox or smallpox on board, advisable that Master informs Agents sufficiently in advance to enable them make necessary arrangements for Port Health Officer to board vessel on arrival and obtain free pratique after Port Health Officer is satisfied that isolation arrangement on board adequate.
RADIO: Madras Radio or Colombo Radio. No radio station locally.
TUGS: None.
BERTHING: Open roadstead port. No berths.
STEVEDORES: Port usually handles fertiliser imported on Government of India account and rate of discharge per day about 750 to 1,200 tons. Advisable that ETA of vessel is passed to Agents at least two days in advance to enable them to advise receivers to arrange necessary gangs.
MEDICAL: No advance notice required unless sickness of serious nature when Medical Officer boards vessel on arrival. In case of sickness to officers or crew, Medical Officer boards vessel or if in condition to go ashore, necessary arrangements made to take sick crew to Doctor. District Headquarter's Hospital with all medical facilities available. Special wards available for sick members of crew. Vaccination, inoculation against yellow fever, cholera, plague, etc., can be arranged.
DENSITY: 1025.
FRESH WATER: Available in limited quantities and dependent upon port getting continuous supply from municipality. Two tanks of 14½ tons capacity placed in lighter are sent alongside vessel and a petrol-driven pump is used to pump up water from tanks into vessel.
FUEL: Not available.
GANGWAY/DECK WATCHMEN: In the interest of vessel, two gangway and deck watchmen day time and at night to be employed to avoid pilferage.
OPENING/CLOSING HATCHES: Opening and closing of hatches on arrival of vessel before commencement of discharge and on completion carried out by stevedores. Time used for opening and closing of hatches not counted.
CUSTOMS ALLOWANCES: Tobacco, One carton per week per crew member. Wine and Spirit, Whisky or brandy one quart each member for a week. No restriction for beer as the issue is based on weather, etc. This rule relaxed if necessary.
IDENTIFICATION CARDS: Needed.
CONSULS: None.
REPAIRS: Minor repairs in engine room and on deck can be effected. Chipping and painting can also be arranged.
DRY DOCKS: None.
REPATRIATION: Facilities available for affecting crew changes and arrangements can be made for repatriation.
AIRPORT: Nearest airport Madras, served by regular airlines.
TIME: GMT plus 5½ hours.
HOLIDAYS: Observed as declared by Authorities. Vessels work on Charter Party and Government holidays but time not counted. No closed holidays but overtime charged for any work done on Government holidays and on Sundays.
POLICE/AMBULANCE/FIRE: Police 267; Ambulance 299; Fire 299.
GENERAL: No regular launch service between ship and shore. Agents hire out private launch and obtain permission from port office to ply launch between ship and shore, to facilitate officers and crew to go ashore and for Doctor, Agent and Port Health Officer. Port Authorities do not permit plying of launch after 1800 hours. Three trips arranged for launch to go to vessel and back from 0600 to 1800 hours every day weather permitting.
SERVICES: Hatch cleaning after discharge of cargo can be carried out.
SHORE LEAVE: Officers and members of crew allowed to go ashore and necessary passes obtained by Agents.
DELAYS: Usually no delay in anchoring vessels and generally all formalities including survey carried out on vessel's arrival. If vessel arrives between 0600 and 1400 hours, she commences discharge same day.
AGENTS: J. M. Baxi & Company, Steamship Agents and Stevedores, First Line Beach, Nagapattinam. Telegram "Baxico", Nagapattinam. Tel. 445 (Office).

NAVLAKHI: 22.57 N. 70.27 E.

DOCUMENTS: Arrival:
Last Port Clearance.
Bill of Health/Maritime Declaration of Health.
Customs Arrival Report.
Port Arrival Report.
Agent's Arrival Report.
List of Same Bottom Cargo.
Crew List (6 copies).
Import General Manifest.
Lighthouse Dues Receipt (in case the last port of call being Indian port).
Store List & Private Property List (8 copies each).
Misc. Declaration.
Departure:
Port Clearance (handed over by Customs).
Bill of Health.
Port Departure Report.
Agent's Departure Report.
Income Tax Clearance Certificate (in case of export cargo).
PILOTAGE: Not compulsory. If required an experienced local guide provided by Port Authorities. In such cases Pilot meets vessel at Tuna Buoy pilot station about 19½ miles from port.
ANCHORAGE: Open roadstead port. Vessels work in stream. Two vessels can be brought to inner anchorage and work conveniently. In case a third vessel arrives, it has to anchor at Buoy No. 5 until one of the vessels sails from inner anchorage. During non-monsoon times vessels can be moored at Buoy (Navlakhi) No. 5.
RESTRICTIONS: Night navigation risky. Generally vessels' movements during daytime high water period. Vessels should arrive Tuna Buoy 3 hours before high water in daytime.
HEALTH: No Port Health Officer available. Customary for Port Health Officer Kandla to board vessel at Tunabuoy and grant free pratique (in case vessel within 30 days called any other restricted ports). Otherwise Customs Officer grants free pratique after vessel's arrival in port limits.
RADIO: Radio messages intended for this port should be addressed either through Kandla or Bombay Radio Stations.
TUGS: No tugs – anchorage port.
STEVEDORES: At least 24 hours notice to arrange gangs. Rate of loading and discharging for grain and fertiliser about 900 tons a day if one ship working; in case two vessels working simultaneously, average of about 600 tons can be maintained in fair weather days.
MEDICAL: No facilities available. Small dispensary under control of Medical Practitioner who undertakes emergency cases. Good medical facilities available at Morvi which is 30 miles away, or Rajkot about 60 miles. Generally doctor called from Morvi to attend vessels.
DENSITY: 1025.
FRESH WATER: Supplied only in small quantities. One barge (port owned) with carrying capacity of about 35 tons a trip. Due very low pressure pipe lines, minimum 20 hours to fill barge.
FUEL: None available.
DEVELOPMENTS: No specific programme so far announced.
GANGWAY/DECK WATCHMEN: Necessary to appoint watchmen on board to avoid possible thefts.
OPENING/CLOSING HATCHES: Depends upon terms of working. Local stevedores generally attend to this operation but charge to vessel (Owners) in case these operations are vessel's account.
CERTIFICATES:
Load Line Certificate.
Safety Equipment Certificate.
Safety Radio Certificate.

Ship's Register.
Derating Certificate.

IDENTIFICATION CARDS: Customs examine and issue pass to land. But if crew go to suburbs (beyond Morvi which 30 miles away), identity cards should be carried.
CONSULS: None.
REPAIRS: Workshop for repairs to port equipment and urgent repairs of minor nature can be carried out.
DRY DOCKS: None.
REPATRIATION: Crew being repatriated from this port would be sent to Kandla (after Customs examination) where facilities are available.
AIRPORT: Navlakhi not connected by air. In case of emergency, Kandla or Rajkot nearest airports.
TIME: GMT plus 5½ hours.
HOLIDAYS: The port holidays are taken as Charter Party Holidays. Except for some restricted holidays, work will be carried on payment of overtime.
POLICE/AMBULANCE/FIRE: Checkpost Police Station without telephone.
TELEPHONES: Few important offices are connected with telephones, and no telephone service can be provided on board vessel.
SHORE LEAVE: The crew members are allowed ashore. See "Identification Cards".
AGENT: J. M. Baxi & Company, Steamship Agents and Stevedores, Opp. Railway Station, Navlakhi Port. Telegrams "Baxico" Navlakhi. Tel. 32 (Office and Residential).

OKHA: 22.27 N. 69.05 E.

DOCUMENTS: Five copies each of Import Manifest, Crew List. Passenger List, Ship's Stores Manifest, Crew Property List.
PILOTAGE: Compulsory. Pilot Station Lat. 22° 30.5′ N.; Long 69°. 04.36′ E.; 1·35 miles North-west of Samiani Light Tower.
ANCHORAGE: Roadstead anchorage near Pilot Station.
MAX. SIZE: 525 ft. OA length during North-east monsoon and 540 ft. OA length during South-west monsoon with comparable breadth. Max. draft 26 ft.
PRATIQUE: The Master should cable the Port Health Officer (Quarantine Okha") in International Health Code, requesting free pratique. If radio pratique is not effected, then Masters should present Maritime Declaration to the Customs Boarding Officer who is authorised to grant free pratique. If the vessel is arriving from yellow-fever area, the mosquito control team is arranged from Kandla, where the cable address of the Port Health Officer is "Sangrodh Kandla".
RADIO: Port Department Wireless station call sign VUK 9 can be contacted from 0930 to 1130, 1330 to 1530 and 1730 to 1930 IST for transmitting any messages; advisable transmit message to local Agents as they maintain account with port.
TUGS: Port-owned tugs join vessel while entering port channel and/or vacating it at time of berthing and/or unberthing.
BERTHING: Only daylight hours. Vessels should be ready in all respects to move to berth 1½ hours before high water at Pilot Station.
BRIDGES: None.
STEVEDORES: Firm ETA including requirements order avoid delay. (*a*) *Exports:* Mainly cement, bauxite and chemicals and general merchandise, rate 100/125 tons per shift per hook. (*b*) *Imports:* Mineral oils average rate about 200 to 300 tons per hour according to ships pumping capacity; general cargo same rate as export.
MEDICAL: Port Health Officer always available. Well-equipped hospital at Mithapur under Tata Chemicals at a distance of about 12 miles from port. Medical aid available throughout day and night.
TANKERS: All dry cargo vessels regulations apply for tankers, particularly size, etc. One berth, draft 26 ft. No slop facilities.
DENSITY: 1025.
FRESH WATER: Limited and uncertain. Port supplying water by barge and shore pipe line; maximum quantity 25 tons only in cases of emergency.
FUEL: Available but arrangement should be made through oil companies head offices at Bombay.
FIRE PRECAUTIONS: Port Department maintains a small fire station.
DEVELOPMENTS: In addition to existing concrete jetty a new concrete jetty has been constructed, presently accepting vesels up to 350 ft. length, 23 ft. draft.
GANGWAY/DECK WATCHMAN: Vessel to provide own gangway watchmen. Shore-watchman available for employment on shift basis (8 hour shifts).
OPENING/CLOSING HATCHES: To be attended to by ship's crew if not contracted with stevedores which may cost extra.
CERTIFICATES: Ship's Register, Load Line Certificate, Safety Equipment, Safety Gear, Radio.
CUSTOMS ALLOWANCES: At Customs Preventive Squad's discretion.
CARGO GEAR: Normal gear supplied by stevedores for hire.
IDENTIFICATION CARDS: Necessary.
CONSULS: None.
REPAIRS: Only minor repairs.
DRY DOCKS/CONSULS: None.
REPATRIATION: Necessary formalities to be completed at District Headquarters situated at Jamnagar, a distance of about 110 miles: such as Police, Health, (whereas Customs formality can be completed locally).
AIRPORT: Nearest airport Jamnagar about 110 miles connected with Okha by rail and road. Only local service to Bombay daily operated;
TIME: GMT plus 5½ hours.
HOLIDAYS: As declared by Port Authorities, cargo work can be arranged by paying usual scheduled overtime but labour's observed holidays (about five to six days in a year) completely closed.
TELEPHONES: Only for tankers by respective oil installations.
GENERAL: Port governed by Gujarat State and all rules and regulations laid down by them in addition to Central Government rules applicable to this port. Port connected with hinterland by rail, motor transport, 300 miles by sea from Bombay, two tides in 24 hours, mean high water spring rise about 11·5 ft. and mean low water neap rise 9·5 ft.; current in neap tide is 2 to 3½ knots. Wind force/direction during April/September South-west 3/5 and in October/March North-west to North-east from 2/4.
SERVICE: Tank cleaning by manual labour.
SHORE LEAVE: Crews allowed ashore with Customs permission.
DELAYS: Delay only encountered if berth or moorings are occupied.
AGENT: J. M. Baxi and Company, Shipping Agents and Stevedores, Okha (Saurashtra). Cable address "Baxico", Okha. Tel. (Office) 22 (round the clock).

PANAMBUR:

The development of an all-weather 40 ft. draft port is in progress at Panambur, 5 miles to the North of Mangalore River entrance. Completion expected 1974.

PARADIP: 20.14 N. 86.42 E.

DOCUMENTS:
"No opium" Certificate.
Deck Cargo Certificate.
Arrival and departure reports.
Anchorage Certificate.
Six copies of Crew Lists.
Required certificates to be produced for signature of Master by Agents on arrival.
PILOTAGE: Pilotage during day time only. Last pilotage 1630 hours. Give ETA to Agents at least 24 hours in advance. Agents book pilot and arrange for inward pilotage after arrival. Vessel can anchor depending on draught four cables from Fairway Buoy, positioned Lat. 20° 14.51′ N. and Long. 86° 42.19′ E. After vessel anchored, Pilot boards during day time with help of pilot launch. For safety, Masters to arrive with maximum ballast on board for entering.
ANCHORAGE: See "Pilotage". Anchorage particulars given in chart published as "Paradip Anchorage".
RESTRICTIONS: Vessels not berthed/sailed during night-time after 1630 hours. Vessels to have maximum ballast for entering.
MAX. SIZE: LOA 700 ft. and maximum draft 38 ft.
HEALTH: Send usual quarantine message to "Quarantine Paradip-port" 24 hours before arrival for radio pratique. Pilot gives free pratique on boarding vessel subject no sick person on board. In case of suspected disease or fever on board, Port Medical Officer visits ship at anchorage/berth and cases of contagious disease, isolated and sent to nursing home.
RADIO: VHF radio installed at signal station in the Harbour Office. Calling Channel 16. Working Channel 9.

Working Hours: every even hour for 10 minutes from 0600 hours to 2200 hours and when ships are making or leaving the port.

Vessels are requested to establish contact with the control station when within VHF range (approx. 40 to 60 miles) and before entering, moving in or sailing from the port.

When within VHF range, ships are requested to give the following information:

(1) Name of ship
(2) Ports of departure, call and destination
(3) ETA
(4) Vessels gross tonnage, length, breadth, draft and speed
(5) Number of cases of dangerous contagious diseases on board
(6) Type and quantity of cargo
(7) Name of Agents and requirements.

TUGS: Tugs join vessel just inside approach channel. Ship's lines only used.
BERTHING: One berth only.
BULK HANDLING FACILITIES: One iron ore berth with mechanical loading plants of capacity 2,500 tons per hour. Suitable for vessels up to 40,000 dwt. with max. draft up to 38 ft.

Work in hand widening turning circle and further dredging to accommodate vessels up to 60,000 dwt. with draft of 39 ft.
STEVEDORES: On account of mechanical loading, stevedores not required. If required, one week's notice.
MEDICAL: After arrival Doctor can board vessel to attend to any urgent case. No hospital facilities. Sick crew sent to Cuttack/Bhubaneshwar about 90/100 miles from Paradip.
DENSITY: Varies from 1018 to 1024 with average of 1021.
FRESH WATER: Water supplied at Iron Ore Berth and also roads during fair season by 2 barges total capacity 150 tons. At berth water supplied at average of about 100/150 tons a day.
FUEL: HSD and furnace oil supplied by port on 15 days notice or procured from Cuttack/Vizag and transported to Paradip by lorry (tanks).
FIRE PRECAUTIONS: No special precautions.
DEVELOPMENTS: Turning basin enlarged to 520 m.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Undertaken by crew only.
CERTIFICATES:
Ship's Register.
Load Line Certificate.

Safety Radio Certificate.
Safety Equipment Certificate.
Last Port of Clearance.
Deratisation Certificate.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes per head per week. Wine and/or Spirit: One bottle of 24 ounces per head per week.
CARGO GEAR: Valid cargo gear certificate required.
IDENTIFICATION CARD: Authorities issue landing pass.
CONSULS: Nil.
REPAIRS: None.
DRY DOCKS: Nil. Only a slipway under construction.
REPATRIATION: Crew taken to Cuttack and Calcutta as Chief Immigration Officer stationed at Cuttack.
AIRPORT: Nearest airport Bhubaneshwar 102 miles. Only local flights available to Calcutta and Visakhapatnam. Flight timings to Visakhapatnam 1100 hours and Calcutta at 1500 hours daily.
TIME: Local time GMT plus 5½ hours.
HOLIDAYS: Charter Party holidays. Normally work carried out on all days.
POLICE/AMBULANCE/FIRE: Police 27; Ambulance 41. No fire service station.
TELEPHONE: No facilities for telephones on board.
GENERAL: Masters to arrive with maximum ballast during monsoon period.
SERVICES: None available.
SHORE LEAVE: Port Immigration issue shore passes to all foreign nationals excepting Chinese and Pakistanis and with shore passes crew allowed ashore.
DELAYS: Since only one berth available ore loaders get berth on "First Come First Served" basis.
AUTHORITY: Deputy Conservator, Paradip Port Trust. Tel. 46.
AGENT: J. M. Baxi & Company, Steamship Agents and Stevedores, Flat No. 2/3, Sectional Officers' Block No. 11, Sector 21, Paradip Port (Dist. Cuttack – State Orissa). Cable "Baxico" Paradip. Tel. 13.

PONDICHERRY: 11.56 N. 79.50 E.

DOCUMENTS:
Ship's Register.
Load Line Certificate.
Safety Equipment Certificate.
Safety Radio Certificate.
Last Port Bill of Health.
Last Port Clearance.
Store List with Private Property Declaration in Triplicate.
Crew List (8 copies).
Light Dues Receipt.
Manifest (import or Export).
Bill of Lading.

PILOTAGE: Not necessary as open roadstead anchorage.
ANCHORAGES: Proper anchorage in line with New Pier. Two chimneys in line (276°) will provide good transit in day time and at night green/red light in transit with red pier light can be taken.
MAX. SIZE: Anchorage is 7 fathoms within one mile from New Pier. Above 7 fathoms outside one mile.
HEALTH: Free pratique obtained on arrival and Master expected to address message to Port Health Officer, advising that all are well on board. Free pratique automatic for vessels calling from any Indian ports.
RADIO: Cables routed through Madras Radio (call sign VWM).
TUGS: Tug kept ready at New Pier. Joins vessel 1 mile from New Pier.
BERTHING: No berths.
STEVEDORES: 24 hours notice prior to arrival. Rate of discharge of bagged cargo 1,000 to 1,500 tons per day.
MEDICAL: No advance notice necessary. General Hospital and Jipmer Hospital available.
TANKERS: Transfer operations are carried out at anchorage 1½ miles off shore.
DENSITY: 1025.
FRESH WATER: Can be supplied by barge.
FUEL: Not available.
DEVELOPMENT: Proposals finalised for construction of new lighthouse near New Pier.
GANGWAY/DECK WATCHMEN: Services not compulsory, but recommended to avoid pilferage. 3 watchmen day/night.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes permitted for each crew member to be held out of bond. Wine and/or Spirit, One open quart bottle per crew member permitted to be held out of bond.
IDENTIFICATION CARDS: Not needed if furnished with Crew List.
CONSULS: Only French Consulate General. Tel. 58.
REPAIRS: Deck and Engine repairs not attended. Special arrangements can be made from Madras. Minor repairs carried out privately.
DRY DOCKS: None.
REPATRIATION: Facilities exist for effecting crew changes and arranging necessary repatriation.
AIRPORT: Nearest airport is Meenambakam Airport, Madras, distant 100 miles.
TIME: GMT plus 5½ hours.
HOLIDAYS: Observed as declared by Authorities but cargo work arranged on all holidays on payment of overtime, except on Republic day, Gandhi's Birthday, May Day, Independence Day, and Deepavali.
POLICE/AMBULANCE/FIRE: Police 64; Fire 99; Ambulance arranged through hospital doctor on duty, tel. 198.
TELEPHONES: No facilities to place on board.
GENERAL: For purposes of crew going ashore, launches arranged between 6 a.m. and 6 p.m. weather permitting, hired from private parties. Laundry facilities, supply of fresh vegetables and provisions arranged.
SERVICES: None.
SHORE LEAVE: Crew members permitted ashore but have to remain within town limit.
DELAYS: Delays occur only under unavoidable circumstances such as Surf Declaration, Cyclone, etc. Vessels arriving at night, commence discharge operations next morning.
AUTHORITY: Port Officer, Pondicherry.
AGENT: J. M. Baxi & Company, Steamship Agents and Stevedores, 52 Beach Road, Pondicherry – 1. Telegraphic Address: "Baxico", Pondicherry. Tel. 841.

PORBANDAR: 21.38 N. 69.36 E.

DOCUMENTS:
Crew Lists (6 copies).
Passenger Lists (6 copies).
Customs Documents to be prepared by Agents and signed by Master (4 copies).
Arms and Ammunition Certificate 4 copies duly signed by Master.
Health Documents: all yellow fever, cholera and smallpox books should be valid on arrival as well as on departure, if they are not valid on departure Port Health Officer should visit ship and give required injection to persons for completing health books before obtaining Bill of Health.
Same Bottom Cargo List (4 copies).
Port Clearance: Port Clearance of last port to be submitted to Boarding Officer of Customs.
Private Property List (6 copies duly signed by Master).
Store List (4 copies duly prepared by ship's officer).
Currency Declaration (4 copies).
Bills of Lading: Bills of Lading for export cargo generally to be prepared and signed by Agents.

PILOTAGE: Not necessary as anchorage is in stream in open sea.
ANCHORAGE: Anchor in stream about 1½ miles off shore. 6 fathoms at low water, with good holding ground.
Outer anchorage is with Raja's Old Palace, about 1½ miles South-eastward of lighthouse, bearing 85° and lighthouse bearing 26°, 4½ to 5 fathoms sand and rock (or further out as required).
MAX. SIZE: Any size vessel.
HEALTH: If arriving from yellow fever area within 30 days a grant of free pratique is necessary. Mosquito Party to be deputed from Kandla, which can only be arranged by prior intimation failing which vessel would have to proceed to either Kandla or Bombay for free pratique.
RADIO: Via Bombay Radio.
TUGS: Not necessary as vessel anchors without Pilot in stream.
BERTHING: No berths.
STEVEDORES: 24 hrs. notice of ETA to Agents order arrange gangs.
Rate of loading and discharging: Three ships work simultaneously. During one ship's stay average rate about 800/900 tons per day, during two ships' stay average rate about 600/700 tons, during three ships' stay average rate about 500/550 tons.
MEDICAL: Hospital facilities available.
TANKERS: No facility for discharging oil.
FRESH WATER: Supplied to ship 50 tons per day, provided water barge is in commission.
FUEL: Nil.
DEVELOPMENTS: Work started to convert port into all-weather port. Breakwater wall under construction, expected completed 5–6 years.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Charter Party terms.
CERTIFICATES: (*a*) Load Line Certificate. (*b*) Safety Equipment. Certificate. (c) Safety Radio Certificate, all certificates must be valid before departure of vessel.
CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes permitted for use of each crew from bonded stores of ship. Wine and/or Spirit: Customs Officer remains on board from arrival till departure and issues required quantity of wine and spirit from bonded stores.
CARGO GEAR: Tested cargo gear should be used for loading and discharging operations.
IDENTIFICATION CARDS: Necessary.
CONSULS/REPAIRS/DRY DOCKS: None.
REPATRIATION: Can be arranged.
AIRPORT: 3 miles from town, daily flight to Bombay.
TIME: GMT plus 5½ hours.
HOLIDAYS: Observed as declared by Government of Gujarat and can be worked on payment of overtime charges, but work on Indian Republic Day, Holi (2nd Day), Ramnavami, Muhurram, Gokulashthami, Dussera, Diwali (New Year) and Ramzan-Id not possible.
POLICE/AMBULANCE/FIRE: Police Station 114; Ambulance/Fire Brigade 244.
SHORE LEAVE: Police, Port and Customs permission required before landing.
AGENT: J. M. Baxi & Company, Steamship Agents and Stevedores, Sisodia Mansion, Gopnath Plot, Porbandar (Saurashtra). Cables "Baxico", Porbandar. Tel. Office 733.

PORT REDI: 15.44 N. 73.39 E.

DOCUMENTS: Arrival:
Maritime Declaration of Health Form (in duplicate).
Port Clearance from last port of call.
Ship's Stores List (in triplicate).
Crew Private Property List (in triplicate), containing full details of every article such as: cameras, radios/transistors, record players, records, watches, all types of currency, other valuable articles, souvenirs, spirits, etc.
Crew Lists (6 copies).
Ship's Currency List (in triplicate).
Arms and Ammunition Declaration.
Passenger List – if any.
Through Cargo Manifests.
Departure:
Medical Inspection or Examination Certificate (Bill of Health).
Port Clearance.
Consumed stores list in duplicate (a list of stores consumed during the stay of the vessel at port).

PILOTAGE: Compulsory. Port Officer acts as Pilot. Cable via Bombay Radio to Port Officer, Redi, Cable Address: Port Officer Redi (Ratnagiri), ETA of vessel 48 hours prior arrival (cable should reach Port Officer before 24 hours prior arrival). Anchor off Rairi Point – West of Rairi Point – about 1 to 1½ miles where Port Officer boards ship to pilot to proper loading anchorage. Pilotage restricted to daylight hours only. Shifting without Pilot not permitted.

On arrival keep gangway or complete pilot ladder with man-ropes and step-down, ready for Pilot.

No fixed anchorage marked at pilot station; however, vessel should not proceed beyond one mile from Rairi Point (for safety of vessel). Keep engine ready till Pilot boards. If vessel arrives during night hours be ready for shifting next morning.

ANCHORAGE: Anchorage Rairi Point or Redi Point (Lat 15° 44′ N. Long. 73° 39′ E.) is a flat rocky projection, Western extremity of which is 50 ft. (15m2) high. Foul ground and shoal water extend about three-quarters of a mile South-south-westward and about half a mile Westward of this point; at Southern side of foul area is Rairi (Redi) Rock which is 36 ft. (11m) high and steep. Vessel should not proceed into depths of less than 6 fathoms or within one mile Westward in vicinity of this point without Pilot.

Loading anchorages are on both sides of Rairi Point (known as Jetty One anchorage and Jetty Two anchorage).

MAX. SIZE: No restrictions on size. This is a minor port exporting only iron ore, and vessels up to 34 ft. draft load at safe anchorage.

HEALTH: On arrival, Customs Authorities board and grant free pratique to ships arriving under normal conditions and on completion of Maritime Declaration of Health Form. Medical Officer, Candy Dispensary, Vengurla, acts as Port Health Officer (Quarantine Officer) for this port, and boards vessel at his convenience before sailing to conduct Medical Examination and grants Medical Examination Certificate (Bill of Health) on day of sailing. Certificate to be collected from Vengurla Office. No facilities for radio pratique.

If coming from yellow fever or jigger infected regions within 30 days Port Health Officer grants pratique after boarding vessel with mosquito party deputed from Bombay at Owners' cost. Mosquito Party can only be arranged on advance information failing which vessel would have to proceed either Bombay and/or Mormugao for free pratique. Master and/or Owners to give Agents prior notice to avoid delay in arranging pratique. Vessels transitting through above infected areas for bunkers or water only do not require mosquito party for obtaining pratique.

Advisable inform Agents prior to arrival of last port of call, crew, and nationality, and if arriving from yellow fever and/or jigger infected regions, whether called only for bunkers or water, or purpose of call and vessel's health condition.

RADIO: Bombay Radio.

BERTHING: No berths. Open roadstead port.

LOADING: Port only exporting iron ore in bulk and suppliers. The Minerals & Metals Trading Corporation of India Ltd., make own arrangements to load cargo on FOBT terms. Rate up to 700 tons per day.

MEDICAL: Preliminary medical aid available at Port Redi/Shiroda. Well-equipped hospitals situated at Savantwadi and Vengurla about 25 and 45 miles away respectively by road. Cholera inoculations and smallpox vaccination done through Port Health Officer and if required this information may be passed on to agents for arranging with Port Health Officer.

DENSITY: Average 1025.

FRESH WATER/FUEL: None.

GANGWAY/DECK WATCHMAN: Not necessary.

OPENING/CLOSING HATCHES: As per Charter Party. However, opening done by stevedores to save their time and commence loading earliest during free time.

CERTIFICATES: All certificates, particularly Cargo-gear Certificate to be in order and valid.

CUSTOMS ALLOWANCES: 200 cigarettes per week of 7 day per crew. Wine and/or Spirit, one bottle each per crew of spirit or beer as required.

IDENTIFICATION CARDS: Necessary.

CONSULS: None.

REPAIRS/DRY DOCKS: None.

REPATRIATION: Facilities for crew changes. 4 days advance notice required with full particulars of crew.

AIRPORT: Belgaum and/or Vascodagama 90 miles distant.

TIME: Indian Standard Time GMT plus 5½ hours.

HOLIDAYS: Cargo work can be arranged on overtime on all holidays except 26th January, Republic Day; 2nd October, Mahatma Gandhi Birthday; 15th August, Independence Day. On these holidays work not permitted even on overtime.

GENERAL: Regular Post and Telegraph Office about 2½ miles from jetty.

Vessels on arrival and at departure thoroughly examined by Customs, and Masters therefore requested to ensure that crew private property list is correctly presented to Customs Authorities and its accuracy maintained throughout stay of vessel.

Ship's wireless station not to be used for despatching cables during the vessel's stay.

Discharge of bilge water and/or dirty waste oil or cargo prohibited.

Fresh vegetables, etc., supplied in limited quantity from 90 miles distance.

SHORE LEAVE: Crew of Chinese and Pakistani nationality not allowed land on shore. Other crew permitted land only after obtaining requisite permission from Police Authorities from Ratnagiri, distant about 160 miles and thereafter from Customs Authorities. On arrival, crew list and guarantee duly signed by Master, are furnished to Police Authorities at port and telegram sent to Ratnagiri requesting landing permission from District Superintendent of Police.

Obtaining landing permission takes 3 days; and therefore, Masters requested not to allow crew members to land on shore unless written landing permission sent on board. Crew members not allowed beyond Port Redi limits, without permission obtained from Police Authorities, Ratnagiri.

PORT REGULATIONS: Port Officer conducts Final Draft Survey on completion of loading in consultation with Master. Master's refusal to allow shifting creates complications. Master should not shift vessel without Pilot on board or permission from Port Officer; this does not apply in case of emergency.

DELAYS: Only two vessels (i.e. one at each jetty) can work at a time on a first come first served basis. Overlapping vessels have to wait turn. Waiting time about 4/5 days.

AGENT: J. M. Baxi & Company, Steamship Agents and Stevedores, Port Redi, PO Redi, District: Ratnagiri. Cable "Baxico", Redi (Ratnagiri). Tel. 22.

TUTICORIN: 08.48 N. 78.10 E.

DOCUMENTS: Required on arrival:
4 Manifests.
2 Bills of Lading.
5 Crew Lists.
5 Passenger Lists.
4 Crew Personal Property Declaration.
4 Crew Currency Declaration.
4 Import Manifest of Store List.
2 Health Report Form.

PILOTAGE: No pilot service.

ANCHORAGE: Anchorage in roadstead with Pandyan Tivu Lighthouse, bearing between 260° and 292°, distant 2 to 2½ miles, in depths 27 to 33 ft. (8m2 to 10ml); holding ground good, mainly sand, mud and shingle.

In North-east monsoon, vessels should have a good length of cable and second anchor always ready, as sea breeze blows on reef Eastward of Pandian Tivu. In South-west monsoon, middle May to middle August, wind though violent, is invariably off shore, West to South-west, and water fairly smooth.

HEALTH: Free pratique granted to vessels carrying food grains or fertilisers on Government of India a/c. Master required wireless Port Health Officer, Tuticorin, requesting grant of free pratique. On receipt of message Port Health Officer grants pratique and message passed by radio to steamer. This applicable only in cases where steamers have no infection, epidemic or disease. Otherwise Port Health Officer boards vessel on arrival and grants pratique after inspection.

RADIO: When vessels within 24 hours distance Tuticorin Radio could be used and call sign VWT. Otherwise according to route followed, steamers use Madras or Bombay Radio.

VHF service available between ship and shore.

TUGS: Tugs available but if services required special arrangements have to be made. Ships usually anchor in open roads and enter and sail without tug assistance.

BERTHING: No berths.

STEVEDORES: Agents require 48 hours notice of ETA for arranging gangs, and receivers for lighters. General cargo, average rate load or discharge about 1,000/1,200 tons per weather working day.

MEDICAL: For doctor's visit on board early advice helps to arrange for tug or launch to take doctor from shore. In cases of emergency, medical attention can be arranged but there may be some delay. Hospital facilities available. Personnel should have valid inoculation and vaccination certificates. If certificates expired arrangements made for revaccination/re-inoculation and renewal of certificates.

TANKERS: No facilities.

FRESH WATER: Available. Barge-capacity 100 tons. Delivery in units of 100 tons only. During summer, usually shortage of water. In other seasons water available but as only one barge, delivery of water arranged by turn depending upon numbers of steamers in port.

FUEL: None.

DEVELOPMENTS: New harbour under construction which will include 4 berths with ancillary facilities. Two berths expected to be commissioned in 1973.

GANGWAY/DECK WATCHMEN: Engaging watchmen always done at the discretion of Masters. In case required could be engaged.
OPENING/CLOSING OF HATCHES: By ship's crew. If done by stevedores charged extra.
CERTIFICATES:
Ship's Register.
Safety Construction Certificate.
Load Line Certificate.
Safety Equipment Certificate.
Safety Radio & Telegraphy Certificate.
Deratisation Certificate.
Cargo-gear Stability Certificate.
IDENTIFICATION CARDS: Identification cards or seamen's passbook required to be presented to Police and immigration authorities while coming on shore.
CONSULS: None.
REPAIRS: No maritime workshops. Only minor repairs.
DRY DOCKS: None.
REPATRIATION: Could be arranged via Madras.
AIRPORT: Nearest airport is Madurai, distant 100 miles, which could connect Madras.
TIME: GMT plus 5½ hours.
HOLIDAYS: Observed as declared by authorities but boatmen do not work on following holidays as these are days of obligation and festivals: New Year's Day, Republic Day, Maundy Thursday, Good Friday, Tamil New Year Day, May Day, Ascension Day, Corpus Christi, Our Lady of Snows Feast, Assumption Day and Christmas.
POLICE/AMBULANCE/FIRE: As steamers are in open roads about 5/6 miles from shore all emergency to be passed to Port Authorities through signal station and to respective Agents.
SHORE LEAVE: Crew allowed shore leave but movements limited to municipal limits. Must obtain shore permits from police.
PORT REGULATIONS: Usual regulations. All crew members coming into shore and returning to ship must report to Customs and Port Police on every trip.
AUTHORITY: Port Conservator, Tuticorin Port Authority.
AGENT: J. M. Baxi & Company, Steamship Agents and Stevedores, LIC Building, 58 Beach Road, Tuticorin – 1. Telegrams "Baxico", Tuticorin. Tel. Office 1047; Residence 1087.

VERAVAL: 20.54 N. 70.22 E.

DOCUMENTS:
Last Port Clearance.
Ship's Stores Manifest (3 copies).
Crew List (5 copies).
Private Property List of Crew (3 copies).
Same Bottom Cargo (3 copies).
Ship and Crew Currency List (3 copies).
Indian Coast Light Dues Receipt (if vessel arriving from Indian port).
Maritime Declaration of Health.
Customs Arrival Report.
Customs Declaration for arms ammunition, etc.
Port Arrival Report.
PILOTAGE: Not required. Vessels anchor midstream.
ANCHORAGES: Veraval light exhibited on coast near Political Residency (occ. 15 sec. 110 ft.). Known as New Lighthouse. Breakwater near harbour under 3 fathoms (5m5). No perceptible tide streams in roadstead. During night/neap tide with low water ships suffer cargo feeding for about five hours, four to five days in month.
Anchorage depth 48 to 60 ft. opposite Phiriya Temple. Good anchorage obtained with Veraval Lighthouse Bearing 317°, breakwater end, True Bearing 336·5°, Bhiria Beacon 27°.
RESTRICTIONS: None, day or night anchorage possible.
MAX. SIZE: No restriction.
HEALTH: Vessels having called yellow fever area and taken on board passengers or crew (other than bunkers or water) granted free pratique by mosquito party deputed from Kandla Port which only arranged by prior notice failing which vessel would have to proceed either Kandla or Bombay for free pratique. Vessels other than above granted pratique by Boarding Officer of Customs upon presenting Maritime Declaration of Health. Radio pratique not available.
RADIO: Messages via Bombay Radio. No VHF.
TUGS: Not required.
BERTHING: No berths.
STEVEDORING: Particulars of ETA and labour gangs required well in advance. Average loading/discharging:

Loading bagged cargo oilcake, etc.	225/250 Ts. per hook per day
Loading GN oil in drums	150/175 Ts. per hook per day
Discharging fertiliser (bagged)	150/200 Ts. per hook per day
General cargo loading/discharging	150/200 Ts. per hook per day

MEDICAL: Qualified doctors and hospital facilities.
TANKERS: No tanker berths.
FRESH WATER: Supplied at anchorage in stream by prior arrangements with Port Department and Local Municipality. Rate 20 tons a day subject sufficient force available in water tap connection on shore.
FUEL: None available.
GANGWAY/DECK WATCHMEN: Not necessary unless required. Can be arranged through agents.
OPENING/CLOSING HATCHES: Carried out by stevedores. Ships' derricks worked by crew.
CERTIFICATES:
Safety Equipment Certificate.
Load Line Certificate.
Safety Radio-Telegraphy Certificate.
Deratisation Certificate.
Ship's Registration Certificate.
CONSULS/REPAIRS: None.
REPATRIATION: Can be arranged.
AIRPORT: Nearest airport Keshod, 30 miles from Veraval, but motor transport not easily available and advance arrangements have to be made.
TIME: Local Time GMT plus 5½ hours.
HOLIDAYS: On which work not allowed for loading/discharging: Indian Republic Day, Holi (Second Day), Ramnavami. Mohurram (Ashura or 10th day), Gokulashtami, Dussera, Diwali (New Year's Day), Ramzan-Id (Id-ul-Fitr).
POLICE/AMBULANCE/FIRE: Police 3; Ambulance 5; Fire 5.
TELEPHONES: No arrangements for placing telephones on board the ship.
GENERAL: Closed for traffic between 15th May to 15th September every year due to monsoon season.
SHORE LEAVE: Crews permitted ashore with permission from Customs and Port Authorities. While coming ashore and returning to ship crew should pass through Customs.
DELAYS: Three ships can work and fourth vessel arriving waits turn. Therefore some delays possible.
AGENT: J. M. Baxi & Co., Steamship Agents and Stevedores, Veraval (Saurashtra), India. Tel. 11 and 254 (24 hours). Telegraphic address: "Baxico" Veraval.

VISAKHAPATNAM: 170.41 N. 83.20 E.

PORT LIMITS: Ten fathoms line of soundings may be taken as the seaward boundary of the port within which a vessel is considered to be an "arrived vessel".
DOCUMENTS:
12 copies of Crew List.
3 copies of Store List.
3 copies of Private Property List.
3 copies of Currency Declaration.
3 copies of watch lists, giving details of make and value, etc.
The vessel must possess following valid certificates:
Ship's Register.
Load Line Certificate.
Safety Equipment Certificate.
Safety Radio Telegraphy Certificate.
Cargo Gear Test Certificate.
Deratisation Certificate.
Last Port Clearance.
Pilot on boarding vessel before bringing her in gives a copy of Maritime Declaration form which should be filled in and signed by Master.
PILOTAGE: Vessels generally anchor at roadstead where Pilots board. Signal station contacts all vessels arriving and advises all information about Pilot's arrival, etc. A minimum notice of 48 hours of vessel's ETA required.
ANCHORAGE: Anchorage position is about 1·7 miles on a bearing of 080° from the "Dolphin's Nose" Lighthouse. This position is slightly Westward of 10 fathoms line.
RESTRICTIONS: Round-the-clock pilotage, subject to following restrictions:
Ore carriers of 640 ft. overall length can enter the port between 0600 and 1800 hours. Ore carriers of 640 ft. length, 100 ft. beam, and 33 ft. 6 in. draft can sail on high water on a minimum rising tide of 3 ft. 6 in.
Vessels of 630 ft. overall length, 33 ft. draft and 100 ft. beam can enter the port between 0600 and 1800 hours on high water on a minimum rising tide of 3 ft. Such vessels can sail from the port at high water on a minimum rising tide of 3 ft.
Vessels of 560 ft. overall length or less and draft 30 ft. or less can enter and sail from the port at all hours.
MAX. SIZE: Maximum permissible length 640 ft. overall. Maximum permissible breadth 100 ft. Maximum permissible draft 33 ft. 6 in.
PRATIQUE: A separate radio free pratique message adressed "Quarantine Visakhapatnam" must be transmitted by all vessels arriving from foreign port not less than 4 hours and not more than 12 hours prior ETA. On information furnished therein Port Health Officer grants free pratique. Pilot boarding ship for taking her in has superseding power to cancel radio free pratique already granted. However, based on information contained in maritime declaration Pilot also grants free pratique. In case of doubt or in case of inspection if necessary quarantine officer boards ship at roads for granting clearance. No necessity for any vessel to obtain free pratique when she arrives directly from any Indian port.
RADIO: Radio station call sign VWV. Working round clock. Range about 600 miles during daytime and 1,000 miles during night. Better to use Madras Radio station for all communications in respect of vessels arriving from Madras side. Vessels coming from Calcutta side, use Calcutta Radio. Generally Visakhapatnam Radio station used for vessels anchored at roadstead. VHF Channel 16.
TUGS: For ships entering the port, the tugs wait in the lee of the breakwater. Ship's lines and/or tug's lines are used, depending upon the mode of making fast.
SPECIALISED CARGO HANDLING FACILITIES: WOB–1 and WOB–2 Berths – for the export of iron ore through a mechanical ore-handling plant capable of loading at the rate of 3,200 tph.
Fertiliser Berth – for the import of fertiliser, raw materials, viz. sulphur and rock phosphate, by grab unloading.
OR–1 and OR–2 Berths – for the import and export of P.O.L.

Q–1 and Q–2 Berths – for the export of manganese ore and other ores by semi-mechanical means.

BERTHING: No specific requirements of arrival times for berthing.

STEVEDORES: Agents must give proper notice of vessel's arrival to the stevedores not less than 48 hours to make necessary arrangements for working vessel and also to order sufficient gangs, etc.

MEDICAL: All crew and officers must possess individual international vaccination certificates against smallpox and cholera before leaving this port for any foreign port. Smallpox vaccination and cholera inoculation facilities available within 24 hours notice. Well-equipped hospital facilities available round the clock.

TANKERS: Two berths OR I and OR II for discharging and loading oil A/c Caltex Oil Refining (India) Ltd., maximum permissible draft at these berths 33 ft.

DENSITY: Fluctuates from day to day between 1020 and 1023.

FRESH WATER: Normal quantities available and delivery made by Port Trust both from shore and barges.

FUEL: Esso, Indian Oil Corporation and Caltex, Bombay, to be contacted for particulars of stocks, etc., as local offices controlled by them.

DEVELOPMENTS: Proposals for a second channel with a depth of 38 ft. under active consideration.

Three jetties to be made into quay berths.

An Outer Harbour under construction, to handle iron-ore exports, including a berth suitable for vessels of 100,000 dwt. initially, and 200,000 dwt. ultimately. Ore-loading plants to be provided with loading rate of 8,000 tons per hour. Outer harbour to be completed in 1974.

GANGWAY/DECK WATCHMEN: Necessary according to demands of local labour unions.

OPENING/CLOSING HATCHES: Stevedores.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes per head per week. Wine and/or Spirit: Asian Crew 2/5 units per 3 days. Non-Asian crew 4/5 units per 3 days. Bottle of liquor equals unit.

CARGO GEAR: Valid cargo gear test certificate must be on board for all vessels using ships' gear for loading or discharging.

IDENTIFICATION CARDS: Not needed if have valid seaman's books.

CONSULS: None.

REPAIRS: All types of deck and engine repairs possible.

DRY DOCKS: Two. One owned by Hindustan Shipyard Limited, 800 ft.×125 ft.×26·5 ft. (maximum length of vessel 780 ft.). Second owned by Port Trust – 450 ft.×60 ft.×18·5 ft. (maximum length of vessel 400 ft.).

REPATRIATION: Facilities exist to foreign countries via Madras, Calcutta or Bombay. About 3 days delay to obtain travel permit.

AIRPORT: Distant 6½ miles. Regular daily flights to Calcutta and Hyderabad by Indian Airlines Corporation.

TIME: Indian Standard Time is local time, and no alterations made to clocks during the year. GMT plus 5½ hours.

HOLIDAYS: Observed as declared by authorities but port's closed holidays are: Pongal, Kanumu, Mukkanumu, Republic Day, Kotha-Amavasya, Independence Day, Gandjihi's Birthday, Vijayadasami and Nagulachaviti, when work not possible even on payment of overtime.

POLICE/AMBULANCE/FIRE: Police Station 2140; Fire Station 2271, Extension 39; Ambulance 2271 (Port Dispensary).

TELEPHONES: No arrangements exist for placing telephone on board.

SERVICES: Tank cleaning facilities available at Caltex berths.

SHORE LEAVE: Crew members allowed ashore after receiving immigration permits.

DELAYS: Normal delays such as waiting for Pilot, waiting for tugs, etc., since this port can handle only one movement at a time. Other delays such as no power to shore cranes, bad weather, shed congestion, etc., expected.

AUTHORITY: Viskhapatnam Port Trust.

AGENT: J. M. Baxi & Company, Shipping Agents and Stevedores, Harbour Approach Road, Visakhapatnam – 1. Telegraphic address "Baxico", Visakhapatnam. Tel. 3919 (Office), 3898 (Residence). Telex 049–232.

Indonesia

AMBON: 03.41 S. 128.10 E.

DOCUMENTS:

14 Passenger Lists.
7 Crew Lists.
2 Customs Documents.
2 Health Documents.
7 Cargo Manifests.
7 Bills of Lading.
5 Ship's Papers.
Sailing Permit.

PILOTAGE: No pilot station. Apply for pilot boat by calling Ambon Coast Station (Ambon Radio) or fly "G" Flag. Pilot boat located at Ambon Bay. Entrance in all seasons and weathers. All parts of Ambon bay suitable for anchorage to await Pilot.

ANCHORAGE: Areas of anchorage can take all sizes of vessel.

RESTRICTIONS: Open 24 hours. Tides do not affect entry. But when entering at night ship must anchor and await orders.

MAX. SIZE: Joos Soedarso Pier: length 187 metres, breadth 35 metres, draft 12 metres. Wainitu Pier: length 100 metres, breadth 20 metres, draft 8 metres.

HEALTH: Port Health officer boards vessel together with Pilot.

RADIO: Ambon Coast Radio, call sign PKE. Operating 24 hours. Frequencies 500–470 kc/s., 8472 and 8799 kc/s. VHF all channels used.

TUGS: Normally tugs do not join vessel but when necessary to use tugs call PT "Dock Waijame".

STEVEDORES: Agent arranges. Three stevedore companies: PT. "Gotong Rojong", PT. "Mastra" and PN. "Varuna Tirta Prakarsa".

MEDICAL: Hospital facilities available. No advance notice required.

TANKERS: Berth at Wainitu Pier. Type of pipe, 6 in. and 8 in. Discharging capacity, 125 tons per hour.

FRESH WATER: Available only at Joos Soedarso Pier. Loaded by pipe-line with 25 tons/hour capacity.

FUEL: Only diesel and marine fuel.

DEVELOPMENTS: Plans for future developments dependent on Government expenditure.

GANGWAY/DECK WATCHMEN: Deck watchmen needed, particularly for tankers.

OPENING/CLOSING HATCHES: Carried out by stevedores.

CUSTOMS ALLOWANCES: Cannot be held out of bond.

IDENTIFICATION CARDS: Needed by Immigration (landing permit).

CONSULS: No consuls available locally.

REPAIRS: Deck and engine repairs available. Floating dock, lifting capacity for 2,000 dwt.

REPATRIATION: Possible. Dealt with by Immigration through Djakarta.

AIRPORT: Distance from airport about 7 miles. Regular airline "Garuda Indonesian Airways" (GIA). Four flights per week from Ambon to Djakarta.

TIME: Local time GMT plus 10 hours.

HOLIDAYS: Port open for 24 hours even in holidays.

POLICE/AMBULANCE/FIRE: Police and Port Health at Port. But when necessary to use fire brigade call by connecting to "Burgomaster".

TELEPHONES: Can place telephones on board.

SHORE LEAVE: All crew members allowed ashore with permission of Immigration.

AUTHORITY: Ambon Port Administration, tel. 2457, Ambon, Indonesia.

ARDJUNA: 05.54 S. 107.57 E.

LOCATION: Ardjuna Terminal is located offshore North-west Java about 20 miles from the nearest point on the coast of Java.

The exact position of the Single Buoy Mooring system is Lat. 5° 54′ 01″ South, and Long. 107° 56′ 49″ East. The port is about 88 miles East–North-east of Djakarta.

DOCUMENTS: Crude oil loading documents will be prepared by the Ardjuna Documentation clerks prior to and during loading operations, to expedite their final completion. When the tanker has been loaded, the documents shall be completed and final clearance formalities will be carried out aboard the vessel, either alongside the storage barge or in the anchorage area, as circumstances dictate.

PILOTAGE: Tankers to be moored, anchored or manoeuvred at Ardjuna Terminal will be boarded by the Mooring Master in the close vicinity of the suggested anchorage area.

The Mooring Master will advise the ship's Master on approaches to the berth, mooring, unmooring, tug and mooring launch handling, in all operations within the anchorage or mooring area. All such manoeuvring of ships shall be done only in accordance with the advice of the Mooring Master, subject to the understanding that in all cases and circumstances the Master of the ship being manoeuvred shall remain solely responsible on behalf of his vessel's owners for the safety and proper manoeuvring of his vessel. The ship's Master, or one of his designated and qualified deck officers, must be on the navigating bridge at all times while the vessel is being manoeuvred. Ships are requested to have a pilot ladder safely and securely rigged and ready for immediate use, and long enough to reach the mooring launch. A combination of pilot ladder and ship's accommodation ladder so arranged that personnel can first use pilot ladder until part way up the vessel's side, and then transfer to the accommodation ladder is recommended, especially on very large ships. A light line should be ready to take aboard the Mooring Master's equipment. There should be adequate lighting at night. Vessel will provide a lee for the Mooring Master, both when boarding and leaving.

ANCHORAGE: If requested to anchor, the recommended anchorage area is 3 miles North of the SBM in position Lat. 5° 51′ 25″ South, and Long. 107° 56′ 49″ East. Under no circumstances should the export tanker enter the restricted area around the structures without a Mooring Master aboard.

The attention of Masters is drawn to the existence of underwater pipe-lines in the restricted area.

NAVIGATION AIDS: A production platform known as platform EA, is located about 100 ft. North of the flow station in Lat. 5° 54′ 42″ South, and Long. 107° 55′ 28″ East. Flare towers extend about 600 ft. West of the flow station. An additional production platform known as platform EB is located South of the flow station and a submarine pipe-line of about 7,800 ft. connects the flow station and platform EB. The co-ordinates of this platform are Lat. 5° 55′ 59″ South, and Long. 107° 55′ 26″ East. The flow station is located in Lat. 5° 54′ 51″ South, and Long. 107° 55′ 44″ East. These flare towers will be visible at all times, except during poor visibility, assuming there is no interruption in production.

As a possible navigation aid during poor visibility, an aeronautical radio-beacon operating continuously on 199 kHz with an identification code of SE is located on the flow station which is slightly less than 2 miles South-west of the terminal in Lat. 5° 54′ 51″ South, and Long. 107° 55′ 44″ East. Signals from this radio-beacon may be received within a radius of about 40 statute miles

One flashing white obstruction light is located on each of the four outer corners of the flow station which will operate during night-time and in times of poor visibility.

One flashing white obstruction light is located on each of the four outer corners of the production platforms EA and EB which will operate during night-time and in times of poor visibility.

One flashing white obstruction light is located in the middle of the flare bridge which bridge extends outward some 600 ft. from the flow station. This light will also operate during the night and in times of poor visibility.

A flashing white obstruction light is mounted on the rotating deck of the SBM.

MAX. SIZE: Design criteria for this system permits safe mooring of the storage barge with an export tanker of an optimum size of approximately 40,000 dwt.; assuming the following: wind velocity, 40 knots; wave height, 12 ft.; tide, 3·9 ft.; current negligible.

RADIO: It is most import that incoming tankers advise Ardjuna Marine Terminal 72 hours before estimated time of arrival. Cable address: ARDJAK, Djakarta. Telex number: 011–4379 Djakarta.

The following information should be included in the message:

1. Name of tanker and radio call sign;
2. Cargo requirements;
3. De-ballast time;
4. Maximum loading rate;
5. If there is any sickness aboard;
6. Tanker draft, ETA;
7. Last port of call;
8. Clean bill of health;
9. If cholera inoculation or smallpox vaccination required;
10. Distance in feet from amidships of tanker's loading manifold.

Confirm ETA 24 hours before arrival. Masters are recommended to use VHF system when they come within radio range of Ardjuna Marine Terminal, particularly when approaching the port. Ardjuna Marine Terminal is equipped with two VHF/FM radio-telephone sets with output power of 26 watts and continuous watch is maintained on Channel 16 (156·800 mHz) and frequency 157·700 mHz, radio call sign 8GJJ298. Tankers approaching the Ardjuna Marine Terminal should make initial contact on Channel 16 and will switch to frequency 157·725 mHz upon request by Terminal. Frequency 157·725 mHz, radio call sign 8GJ 212, will be reserved by the oil tanker and Terminal for inter-ship communications in mooring and while loading; this frequency will not be used for general purpose unless clearance is obtained from the Terminal; this is required because of safety.

High Frequency: Single Sideband Radio Telephone (2nd choice). A voice message from incoming tankers may be relayed by HF/SSB. Atlantic Richfield Indonesia, Inc., located in Djakarta, Indonesia, is inter-connected to the Ardjuna Marine Terminal via local communications system and maintains a continuous watch on HF frequency 7,320 kHz, call sign 8GJ9.

PRATIQUE: International quarantine signals must be displayed by all vessels approaching Ardjuna. These signals shall be displayed continuously until pratique is granted. Indonesian Customs, Police, Harbour and Immigration officials will board the vessel as soon as possible after arrival to grant clearance and pratique.

MOORING: Under normal conditions 14 lines are used to moor a vessel as follows:

Forward: 3 headlines, 2 breast lines and 2 springs;

Aft: 3 stern lines, 2 breast lines and 2 springs.

Three-inch circumference messenger lines, 240 ft. in length, are available for hauling lines to the stoage barge.

Delays to vessels using Ardjuna Marine Terminal due to the port being closed because of bad weather conditions shall not be computed as used lay time when compiling vessel's turn around time.

LOADING: Ardjuna Crude Oil of approximately 37·0 degrees API at 60° F. is available at the storage barge. After a vessel has berthed and pratique has been granted, a Terminal official will board to discuss loading arrangements. Before any crude is loaded, all ship's scuppers on main decks must be plugged and cemented oil tight. Approved mechanical means of closing scuppers may be accepted. The vessel's cargo tanks are inspected by Ardjuna officials and, when satisfactory, a dry certificate will be issued before loading operations commence.

An average loading rate of 12,500 to a maximum of 15,000 barrels per hour can be achieved at the storage barge. Raising, lowering, connecting, tending and disconnecting of oil loading hoses will be performed by the ship's crew, directed by a responsible officer as required by the storage barge cargo supervisor. Loading of export tankers is through two 10-in. hoses. The weight of each hose is approximately 2 tons. All ships using Ardjuna Marine Terminal must be able to connect their manifold to the 10-in. hoses. Masters are reminded it is the ship's responsibility to provide such reducers as may be required to make the connection.

Request for the Terminal to stop the flow of oil cargo at a predetermined tonnage must be made in writing. The request must include the statement by the ship's Master that the Company will not be held responsible for any error and that in case of the vessel being overloaded the excess cargo cannot be pumped back to the storage barge. Ship's Master will also be held responsible for any oil spills caused by this request.

TUGS: One tug to assist berthing and unberthing. A mooring launch will be available to pass line to the storage tanker on berthing.

BERTH DESCRIPTION: The Ardjuna Marine Terminal offices are located on board a 55,000 dwt. storage barge of Liberian registry. The storage barge is 790′ 0″ LOA and has a breadth of 94′ 0″.

Ardjuna Marine Terminal utilises a single buoy mooring system. The storage barge is permanently moored to the buoy. Necessary fenders are provided on the starboard side of the storage barge which is the mooring side.

The SBM has multiple anchor legs and is designed to permit a 360° rotation of the storage barge and export tanker about the SBM while handling cargo both from the flow station to the storage barge and/or from the storage barge to the export tanker. Water depth is approximately 145 ft. below mean sea level.

EQUIPMENT: A vessel must have both bower anchors in good working condition and in such sizes and amounts as to meet either "Lloyds" or "A.B.S." standards, although they may be in fact classified by other societies. It is strongly recommended that anchors have proper anchor buoys attached to each anchor.

All vessels must carry suitable stoppers for all Manila or synthetic lines for mooring use.

Vessels to have suitable winches or capstans in good operating condition. Constant tension type winches may not be used except when they can be solidly locked and the constant tension feature not used.

To assist in vessel's turn around, tanker should have all necessary booms and cargo gear rigged and ready before ship is boarded by Mooring Master. Vessels which may consider the lifting capacity of their gear to be marginal should strengthen their gear accordingly. A common way to do so is to rig a second topping lift on the boom.

BALLAST: No facilities are available for disposal of dirty ballast. It is the responsibility of the Ship's Master to see that no oil of any kind is pumped or spilled overboard from his ship.

As soon as practical after arrival, all tankers will be inspected by an Ardjuna Marine Terminal official for dirty ballast. During discharge of ballast similar inspections will continue.

If evidence of oil appears at any of these inspections, the ship will be rejected and will not be accepted again until satisfactory evidence is produced that such ballast was disposed of in a proper manner. If, during inspection, or during progress of loading, it is revealed that ship's tanks are not tight, or that oil is leaking from the ship, the ship may be rejected or refused further loading.

A tanker must have sufficient ballast for safe handling having due regard to existing weather and sea conditions. Through a careful watch of the weather and sea conditions, frequent exchange of information between ship and Terminal, and by a knowledge of the behaviour of his own ship, a ship's Master may come to the Terminal with a minimum ballast and thus lessen any possibility of infringement of sea pollution regulations.

In addition to the lights usually displayed, vessels in the moorings discharging ballast or loading cargo during darkness will brilliantly illuminate the sea around the ship, so that any pollution will be noticeable.

Tankers equipped with a separate system of ballast tanks will be allowed to discharge ballast, and load oil simultaneously, providing approval is first obtained from the company Marine Superintendent.

FRESH WATER: No fresh water is available.

FUEL: No bunkers are availalbe.

MEDICAL: No clinic is available.

CONSULS: There are no consulates available at Ardjuna Terminal. However, there are many embassies and consulates represented in Djakarta about 80 miles South-west of the Terminal.

CUSTOMS ALLOWANCES: Cigarettes, cigars, tobacco, matches, spirits, wines, beers, perfume, arms, ammunition and possibly other items have to be locked up under Customs' seal from time of arrival of ship in port until time of leaving territorial waters. Each person is allowed to bring in 200 cigarettes or the equivalent in grams of tobacco or cigars.

Special allowances are made for the Master under special circumstances.

REPATRIATION: No crew changes. If emergency conditions prevail, for humanitarian reasons exceptions to the foregoing may be permitted. All expenses incurred will be for ship's account.

TIME: Ardjuna time is GMT plus 7 hours throughout the year.

SHORE LEAVE: Not allowed.

FIRE-FIGHTING EQUIPMENT: Fire-fighting equipment such as salt water hoses, fire hoses, on a reel and fire extinguishers will be available on the storage barge.

REGULATIONS: The ship's Master is responsible to ensure that no communications by radio is allowed within the terminal area. Unauthorised radio communications will be cause for cessation of all operations, except clearing of the berth, and vessel's Notice of Readiness will be immediately nullified. No repairs are to be made while berthing or unberthing, or alongside the storage barge. The Indonesian Flag must be flown throughout the vessel's stay in port.

AUTHORITY: P. M. Pertamina, Djalan Permina No. 2, Djakarta, Indonesia. P. N. Pertamina, the Indonesian State Oil Company, handles all agency matters for tankers

TERMINAL OPERATOR: Atlantic Richfield Indonesia, Inc., 47 Djalan Sriwidjaja Raya, PO Box 63/DKT, Djakarta, Indonesia.

BALIKPAPAN: 01.13 S. 117.00 E.

DOCUMENTS: Upon arrival vessels have to produce the following Certificates and Documents, which will remain in the Harbourmaster's custody until cleared:

Nationality (Registry) Certificate.

Seaworthiness Certificate.

Measurement (Tonnage) Certificate.
Deratisation (Exemption) Certificate.
International Loading Line Certificate.
Safety Certificate (passenger ships).
Safety Equipment Certificate (cargo ships).
Safety Radio and Radiotelephony Certificate (cargo ships).
Certificate of Approval (ship's radio station).
Health Book or Bill of Health.
Last Port Clearance.
Subscription of Light and Harbour Dues and wharfage if any.
10 Crew Lists and Passenger's Lists.
Ship's Articles.
2 Stores Lists.

PILOTAGE: Compulsory pilotage. Application for Pilots can be made via Radio Station or the Signal Station on Tokong Hill Vessels arriving by night should anchor off the outer buoy and give their call sign to the Signal Station. Pilot boards in position 1° 19′ 30″ S. 116° 54′ 30″ E. Vessels leaving should order a Pilot at least 6 hours prior to departure and when leaving between 06.00–12.00 application should be made before 20.00 the preceding day. If vessel's draft exceeds 70 dm. same should be mentioned in the pilot's cable application.

APPROACH: The surrounding land is in general low with few conspicuous hill rows as background. Only the high spit on which Balikpapan is built can be used as a landmark with the regular cone-shaped hill Tokong.

RESTRICTIONS: Mooring and unmooring is restricted to daylight hours only.

MAX. SIZE: Tankers: Shell normally permit maximum LOA of 750 ft. Drafts are restricted by the bar where the depth below chart datum is 25 ft. 3 in. Minimum keel clearance required is 1 ft. 3 in. Sailing drafts depending on rise of tide up to a maximum of 33 ft. salt water.

HEALTH: Vessels arriving from abroad have to apply well in advance from the Department of Health (Quarantine Section) for provisional free pratique, as said pratique has to be cabled to the port concerned. The provisional free pratique is only valid for the port concerned, the next port of call must be a First Class Port as no further provisional free pratique will be issued, unless the vessel sails directly abroad.

TUGS: One small tug is available.

BERTHING: Dry-cargo jetty 1: berth length: 240 metres with depths alongside 75 dm at LWS. Combination dry cargo and oil: berth length: 300 metres depth 75 dm at LWS

TANKERS: Jetties 3, 4, 5, 6, 7, and 8 are oil berths. When alongside vessels should keep two wires ready over the water-side that vessels can be towed away in case of emergency.

STEVEDORES: Working hours: 07.00–20.00 Monday–Friday. 07.00–15.00 Saturdays. 07.00–15.00 overtime if required.

FRESH WATER: Available in limited quantity.

FUEL: Available at the berth 200 tons/hour. Coal not available.

PORT SECURITY: Maintained by members of the Indonesian Armed Services, usually, police, Navy or Marine and Army. Crew-members should be in possession of a shore-pass issued by the Port Authority, accompanied by an identification card when leaving or entering the guarded gates of the Port Area. Shore passes can be obtained via the Agencies.

CUSTOMS: It is strictly prohibited to take undeclared foreign currency ashore. Crew members are not allowed to take more than Rp. 50.– (fifty Rupiahs only) ashore. It is recommended that Masters consult the Agents with the local prevailing Customs with regard to currency, cigarettes, spirits, etc., to prevent unnecessary difficulties and eventually fines.

AUTHORITY: Department of Sea Communications.

BANJUWANGI: 08.13 S. 114.23 E.

DOCUMENTS: Customs and Harbour Master requires:
Crew List.
Passenger List.
Customs Documents.
Health Certificate.
Port Clearance.
Harbour Report.
Derat. Certificate.
Radio Certificate.
Certificate of Registry.

PILOTAGE: Not necessary because anchorage open.

ANCHORAGE: Position: Lat. 8° 12′ 8″ S. Long. 114° 23′ 16″ E. Depth 25–30 metres.

MAX. SIZE: No restrictions, vessels must be anchored outside harbour.

HEALTH: All vessels boarded by Harbour Quarantine on arrival.

RADIO: Name: Department of Sea Communication. Call Sign: 8 AD 5 with freq. 8110 kc/s. Shore radio station only used for district contact (used by Department of Sea Communication).

TUG BOATS: Two tug boats belongs to P.N. Djakarta Lloyd Banjuwangi Branch.

BERTHING: Distance 500 to 750 metres from lighthouse. Anchorage berths only.

STEVEDORES: 6 gangs available. P.N. Djakarta Lloyd Banjuwangi Branch. One gang consists of 13 labourers, 1 mandor, 1 tallyman, 2 winch drivers, 1 commander.

MEDICAL: Arranged by Department of Health.

FRESH WATER: Available; delivery by barge. 200 tons p/day. After work hours 50% extra. At night 100% extra. On Sundays and holidays 200% extra.

FUEL: None available.

GANGWAY/DECK WATCHMEN: None available from shore.

OPENING/CLOSING HATCHES: Arranged by stevedores.

DEVELOPMENTS: A new harbour under construction about 8 km. North of Banjuwangi harbour with alongside-berths. Expected completion 1974.

CUSTOMS ALLOWANCES: 50 cigarettes each crew member. Packs or tins of tobacco must be open before going ashore. Wine and/or spirits: Enough for own use, if more required must pay import duties.

CARGO GEAR: Ship's gear used. Cargo loading on board by lighters.

IDENTIFICATION CARDS: Required.

CONSULS: No local representation.

REPAIRS: No facilities.

REPATRIATION: Not possible.

TIME: GMT plus 7 hours.

HOLIDAYS: On Sundays and holidays no work available, but if necessary, work can be arranged. No work when raining.

POLICE/FIRE/AMBULANCE: Police and ambulance available. No fire brigade.

TELEPHONES: No facilities for placing telephones on board.

SHORE LEAVE: Allowed.

DELAYS: Possible. During loading if it rains.

AUTHORITY: Penguasa Pelabuhan, Djalan Pelabuhan Banjuwangi. Tel. Bwi. 201.

AGENT: P. N. Djakarta Lloyd. Djl. Pelabuhan 32, P.O.B. 7. Port Banjuwangi.

BELAWAN: 03.48 N. 98.43 E.

DOCUMENTS: Upon arrival ships have to fill in the following Forms:
Harbour Report obtainable from the boarding Pilot, or from the Harbour-master.
Pilot's Certificate.

Upon arrival vessels have to produce the following Certificates and Documents, which will remain in the Harbourmaster's custody until cleared:
Nationality (Registry) Certificate.
Seaworthiness Certificate.
Measurement (Tonnage) Certificate.
Deratisation (Exemption) Certificate.
International Load Line Certificate.
Safety Certificate (passenger ships).
Safety Equipment Certificate (cargo ships).
Safety Radio and Radiotelephony Certificate (cargo ships).
Certificate of Approval (ship's radio station).
Health Book or Bill of Health.
Last Port Clearance.
Subscription of Light and Harbour Dues and wharfage if any.
Crew Lists and Passenger's Lists.
Ship's Articles.
Other certificates and documents as required.
2 Stores Lists.

RESTRICTIONS: Bar is excessively silting and continuous dredging is necessary to keep the shallowest part at 8 metres at LWS. Narrowest part of channel is 50 metres wide.

Outer roads about 600 metres square marked by light buoy. No pilot light vessel. This roadstead is approx. 600 m. wide, the centre of which is the range-line of the swept channel. This channel is provided with buoys and beacons.

PILOTAGE: Compulsory pilotage for vessels over 500 M3 gross, consisting of sea and harbour (docking) pilotage; working hours 06.00–17.00 W.I.T. Pilots must be ordered by the respective Agents at least six hours in advance of the time their service is required. Vessels will not be taken alongside wharf unless the vessel can be berthed before 16.00. Incoming sea pilot embarking at anchorage when berth has been alloted. Harbour pilot boarding on passing harbour limits. Outward harbour & sea pilot will board vessel alongside wharf, while harbour-pilots will disembark at harbour limits and sea pilot at the anchorage in outer roads.

TUGS: Two tug-boats, "Laut Timor" and "Asta", both of 650 h.p., owned and operated by P.N. Tunda Bara (State owned), assist in mooring and unmooring, towing of lighters, supply steam, etc. The "Brahmayuda" of 350 h.p. is owned and operated by the Harbour Board and used in cases of emergency only.

RADIO: Coastal Radio Station: Call sign PKT; Class A1, Frequency 8714, A2, Frequency 8754.4.

BERTHING: *Ocean Quay:* Depth alongside 8.0 to 8.50 metres. *Old Belawan:* Depth alongside 6.0 metres.

Mooring buoys: There are two sets of moorings laid in the river i.e. in Old Belawan, but mooring is subject to the following conditions: approval of Harbourmaster who views each case separately from the point vessel's draft and the tide in the river.

If granted, the following ropes must be used both fore and aft: 2 good manilla ropes, 1 strong steel wire with shackle complete, 1 slip wire.

STEVEDORES: Working hours: Monday–Thursday 08.00–12.00, 13.00–16.00. Friday 08.00–11.00, 13.00–16.00. Saturday 08.00–12.00, 13.00–15.00. Overtime to be applied with authorities concerned is usually granted: on working-days during meal-hours, from 16.00–20.00 and occasionally till 22.00 hours; on Sundays and holidays, except Independence Day, 1st Ramadhan, Christmas and 1st January.

FRESH WATER: Handled by the Harbour Board. Artesian wells all along the Ocean quay with a loading capacity of about 10 tons

per hour. The water is regularly laboratory checked and declared drinkable but boiling before use remains recommended.
FUEL: Coal not available. Oil, at 5 points on the quay alongside go down 18 and 19 for Stanvac diesel and marine fuel oil, applications for which must be made 2 weeks in advance. Pumping capacity about 60 tons per hour.
REPAIRS: Slipways available for small craft only. Machine-shops available for minor repairs. Radio repairs available, viz. the Post Telegraph and Telephone Office. Electronic repairs not available.
PORT SECURITY: Maintained by members of the Indonesian Armed Services, usually, police, Navy or Marine and Army. Crew members should be in possession of a shore pass issued by the Port Authority, accompanied by an identification card when leaving or entering the guarded gates of the Port Area. Shore passes can be obtained via the Agencies.
CUSTOMS: It is strictly prohibited take undeclared foreign currency ashore. Crew members are not allowed to take more than Rp. 50.– (fifty Rupiahs only) ashore. It is recommended that Masters consult the Agents with the local prevailing Customs Regulations with regard to currency, cigarettes, spirits, etc., to prevent unnecessary difficulties and eventually fines.
AUTHORITY: Departmeen Perjubungan, Direktorat Djendral Perhubungan Laut.

AGENT: P. N. Djakarta Lloyd, Medan Branch Office, Djl. Kesenian No. 4, Port Medan/Belawan.

BIMA: 08.25 S. 118.42 E.

DOCUMENTS:
6 Crew Lists.
6 Vaccination Lists.
6 Stores Lists.
6 Passenger Lists.
PILOTAGE: None available.
ANCHORAGE: 300 metres off the quay in depths of 16 metres.
RESTRICTIONS: None, vessel may enter harbour day or night.
MAX. SIZE: Not limited at anchorage.
RADIO: Coastal Radio Station, cable address Pelni Bima by Post Office.
TUGS: No tug-boat available.
BERTHING: Entering and sailing allowed after dark. No berthing facilities except for very small ships.
STEVEDORES: Ordered by Agent. No work allowed on Muslim holidays, New Year and 17th August.
MEDICAL: One government hospital available.
FRESH WATER: None available.
FUEL: None available.
GANGWAY/DECK WATCHMEN: None available, police and Customs officers posted on board.
OPENING/CLOSING HATCHES: Carried out by stevedores.
AIRPORT: Flights from Bima to Sumbawa, Ampenan, Bali. By AOA Zamrud (Dakota) every Sunday, Tuesday, Thursday and Saturday. Aviation Corporation.
TIME: GMT plus 8 hours.
HOLIDAYS: Muslim holidays, New Year, 17th August.
TELEPHONES: No phone connections between ship and shore available.
SHORE LEAVE: Crew members are allowed to go ashore and arranged by Agents.
DELAYS: One motor-boat, four lighters each of 15 tons and one lighter of 25 tons. Loading general cargo live buffaloes and fodder. For heavy cargo max. 7 tons each lift can be handled through lighters.
AGENT: Pelni Bima. Nusatenggara Barat Indonesia. Cable address: Pelni Bima. Tel. Office No. 46. Residence: No. 7.

BITUNG: 01.26 N. 125.12 E.

PORT LIMITS: The area between limits:
125° 10′ E. 125° 13.5′ E.
01° 25′ N. 125° 10′ E. to coastline of Lembeh Isalnd.
01° 27′ N. 125° 13.5′ E. to coastline of Sulawesi.
Coastline of Lembeh Island between lat. 01° 25′ N. 125° 13.5′ E.
Coastline of Sulawesi between 125° 10′ E. and lat. 01° 27′ N.
DOCUMENTS:
4 Crew Lists.
4 Lists Passengers in Transit.
4 Lists Passengers Disembarking.
3 Cargo Lists.
3 Provisions Lists.
1 List of Articles new and Customs-barred in possession each crew member – cameras, binoculars, radios, cigarettes, tobacco, etc.
Ship's Register.
International Vaccination Certificate for Crew and Passengers.
Health Book/Maritime Declaration of Health.
Deratting Exemption Certificate.
PILOTAGE: Contact Coastal Radio Station Bitung (call sign PKM), telegram address: Port Administration Bitung; advance notice of ETA 24 hours. Pilot boat: motor launch, light grey. Requiring a Pilot: flag, sound and Morse Signal: "G" anchorage for vessel awaiting a Pilot: the area between: 01° 26.3′ N., 125° 10′ E.; 01° 25′ N. 125° 10.8′ E. and 01° 24.1′ N., 125° 07.1′W.; 01° 24.1′ N., 125° 09.9′ E.
ANCHORAGE: The area between coast of Lembeh Island and coast of Sulawesi: 01° 27′ N., 125° 12.3′ E.; 01° 26.2′ N. ,125° 13.5′ E. and 01° 26.3 N., 125° 10′ E.; 01° 25 N., 125° 10.8 E. Depths: 42 ft. to 114 ft.
RESTRICTIONS: No restrictions night entry.
MAX. SIZE: Draft alongside pier, maximum 32 ft.
HEALTH: Vessels coming direct from other countries or coming from infected port: "Q" flag to be flown. Pratique procedure and action necessary to obtain pratique according to the Int. Sanitary Regulations.
RADIO: Bitung Radio/PKM for vessels to route ETA cables to Agents, receivers, etc.
TUGS: None available.
BERTHING: Depth alongside pier 18 to 34 ft. dependent location.
STEVEDORES: Arranged by handling Agent.
MEDICAL: Masters to advise by radio prior arrival if medical attendance required aboard. Vaccination/fever certificates required, 3 copies.
TANKERS: One oil jetty for domestic tankers.
DENSITY: About 1030.
FRESH WATER: Available from hose connections on the pier, at a rate of 100 tons per hour, or by barge.
FUEL: Not all grades fuel available. Diesel and marine lubricants can be supplied. 48 hours notice required.
DEVELOPMENTS: Extension of pier to total length of 1,821 ft. to be completed 1975/1976.
REPAIRS: Some deck and minor engine repairs are possible at Bitung dockyard. Radar and electronic repair available, but not for big repairs.
GANGWAY/DECK WATCHMEN: Not needed.
OPENING/CLOSING HATCHES: Normally by crew/stevedores, otherwise according charter party.
SHIP CERTIFICATES: Registered Tonnage Certificate and all certificates normally required to be on board.
CUSTOMS ALLOWANCE: 100 cigarettes or 20 cigars or 100 gram. tobacco each crew member; 1 bottle wine or spirits for each crew member.
CARGO GEAR: Loading and discharging by ship's own derricks, Shore cranes capacity 15 and 35 tons.
IDENTIFICATION CARDS: Shore pass issued by the Immigration Office for crew members at Agent's request.
CONSULS: Philippines only.
REPATRIATION: Facilities available.
AIRPORT: About 50 km. from port of Bitung. Regular airlines: "Garuda" seven flights a week, "Mandala" two flights a week and "Zamrud" three flights a week.
TIME: Local time GMT plus 8 hours, permanent.
HOLIDAYS: New Year's Day; Idul Adha; 1st Muharam; Ascension Day; Birthday of Prophet Mohammad; Good Friday; Proclamation Day (August 17); Ascension Day of Prophet Mohammad; Idul Fitri and Christmas Day.
POLICE/AMBULANCE/FIRE: Police 107; Ambulance 24; Fire 111.
SHORE LEAVE: Crew members are allowed ashore with a shore pass issued by the Immigration Office.
AUTHORITY: Port Administrator, Port Administration Bitung/Manado, Bitung. Tel. Bitung 60.

CINTA TERMINAL: 5.30 S. 106.14 E.

DOCUMENTS: The following documents are required for immediate inspection by the Terminal Officials:
Maritime International Declaration of Health.
Valid Deratisation or Exemption Certificate.
Crew Lists.
Passenger List, if any.
Smallpox Vaccination Certificates for all crew members or passengers within three years.
Certificates of Inoculation against any communicable diseases.
Valid Passports and/or Seaman's Certificates for all crew members or passengers.
Notice of Readiness.
Indonesian Consular Clearance.
1 Crew Declaration of Personal Belongings.
1 Ship's Stores Inventory.
6 copies of Cargo Manifest for Cinta Terminal loading.
1 Copy of Cargo Manifest for Transit Cargo with a Summary.
1 Copy of Passenger Manifest.

Clearance from the last port of call will be required by the Government Authorities. Crew Lists and Crew Declaration of Personal Belongings must be on the approved Indonesian documents. Vessels are advised on their initial visit to the port to obtain sufficient forms for future visits.

In the normal course of events, Cinta Terminal acts as tanker agent and prepares all crude oil documents. No charges are made for these services. A tanker will be considered clear to depart Cinta Terminal when the crude oil loading documents and his outward clearance certificate have been delivered to the Master of the vessel.
RESTRICTIONS: Weather permitting, Cinta Terminal will operate on 24 hours per day, 7 days per week. Tankers will be berthed during daylight hours only and unmoored on 24 hours basis provided the berth is not occupied and/or storage is not critical.
EQUIPMENT: A vessel must have both bower anchors and ground tackle in good working condition and in such sizes and amounts as to meet either "Lloyds" or "A.B.S." standards, although they may be in fact classified by other societies. It is strongly recommended that anchors have proper anchor buoys attached to each anchor.

All vessels must carry suitable stoppers for all Manila or synthetic lines for mooring use.

Vessels to have suitable winches or capstans in good operating condition on the forecastle deck. Constant tension-type winches may not be used except when they can be solidly locked and the constant tension feature not used.

PILOTAGE: Pilotage is compulsory within the Terminal limits. Vessels to be moored at Cinta Terminal will be boarded by Cinta Terminal Mooring Master in the anchorage area. The Mooring Master will advise the ship's Master on approaches to the SBM, mooring, unmooring, connection and disconnecting hoses, and all other operations within the Terminal area. Vessels are requested to have a pilot's ladder, safely and securely rigged, ready for immediate use and long enough to meet the Mooring Master's launch. Vessels will provide a lee for the Mooring Master, both when boarding and leaving. Also a light line should be ready to take aboard the Mooring Master's portable radio.

ANCHORAGE: Position 5° 29′ 50″ South, 106° 14′ 30″ East, represents the centre of a circle with a radius of approximately 1 mile which must be used by vessels required to wait at anchor. Anchoring within the Terminal area is prohibited. Mooring Masters will board arriving tankers in the anchorage area.

The anchorage area is South-west of the SBM with water depth of 18 to 20 fathoms. Holding ground is fairly good. Area is large enough for sufficient manoeuvring and swinging room for several vessels.

NAVIGATION AIDS: The SBM is fitted with a 5 nautical mile white flashing light; flashing at a rate of 60 flashes per minute. The SBM is located in Lat. 5° 28′ 16″ South and Long. 106° 14′ 08″ East and bears 318° True, approximately 51 nautical miles from the Port of Djakarta. The SBM is also equipped with a foghorn having a 2 second on and 18 second off sequence.

A 528 ft. long tanker *Wabasha* is used for storage of crude oil and for accommodation and headquarters of Cinta Terminal personnel. It lies permanently anchored at 5° 27′ 39″ South, and 106° 14′ 44″ East on a line bearing approximately 45° East of North and 5,300 ft. from the SBM. The vessel shows lights and shapes as prescribed in the International Regulations for Preventing Collisions at sea for vessels engaged in underwater operations. The vessel is also equipped with a foghorn with 2 seconds on and 18 seconds off sequences.

Two permanently fixed oil producing structures are located at 45° East of North line. Platform "B" rises approximately 65 ft. above water and located at 5° 27′ 01″ South and 106° 15′ 22″ East and 5,300 ft. from the storage tanker. Platform "A" is an identical structure but equipped with a heliport and is located approximately 4,000 ft. further along said 45° East of North line from the foregoing at 5° 26′ 23″ South by 106° 15′ 50″ East. The above structures are equipped with one 60 flash per minute white light on each corner and a continuously sounding fog horn operating 2 seconds on and 18 seconds off.

RADIO: Direct communication by radio telephony between Cinta Terminal (call sign 6ZUD) and incoming vessels will be by single side-band simplex operation in the 4–6–8–12 mHz bands, Maritime Mobile Service in the 2 mHz bands and by International Marine VHF Channel 14 (156·7 mHz). Radio station operates 24 hours daily.

All communications between ships and Cinta Terminal will be by way of this Station, except should a vessel be unable to contact them she should send messages to Radio Singapore. It is most important that ships establish communications with the Terminal not less than 72 hours prior to arrival at the Terminal, giving estimated time of arrival. Further ETA information should be sent when the vessel is 24 hours, 12 hours and 4 hours distance or any time a change of one hour in original ETA occurs. These messages should specifically state whether ETA is given in GMT or local time.

PRATIQUE: In accordance with international practice, quarantine signals must be displayed by all vessels approaching Cinta Terminal area. These signals shall be displayed continuously until Pratique is granted. By day the flag of Indonesia should be flown throughout the vessel's stay in port. The boarding officials will attend the incoming vessel from the Cinta Terminal launch.

NOTICE OF READINESS: After arrival in the anchorage area and when the tanker is in every respect ready to load, the Master may tender his Notice of Readiness. Notice of Readiness will not be accepted during periods when the Terminal is closed. The Terminal is "closed" when the weather is such that it is too rough for incoming tankers to berth. The decision regarding the opening and closing of the Terminal will rest with the Terminal Superintendent. Tenders by vessels to load crude oil cargo will be normally accepted and berth assigned to vessels in chronological order of arrival provided such vessels have current nomination for cargo valid at the time of tender, carry clean ballast (if any), and have cargo tanks in fit condition to receive cargo. Also they must be in all respects properly equipped and ready to moor. Should berthing be delayed on account of bad weather, vessels will keep their position in line.

TUGS: Tugs and/or launches may assist in berthing vessels. These are under the direct supervision and control of the Mooring Master.

BERTH DESCRIPTION: The single point mooring buoy berth (SBM) is 11 metres in diameter and designed to handle tankers in the 50,000 dwt. class, or larger, during reasonable weather. The buoy is equipped with dual 12-in. floating hose with ASA 15-lb. flanged connections. Both strings must be taken aboard. Loading rates will be in the 15,000 barrel per hour range. The SBM is also provided with two permanently attached 12-in. circumference synthetic fibre floating mooring lines. These lines should be held under tension by the vessel at all times.

The Terminal and Production Administrative Offices are located on board the 42,000 dwt. crude vessel *Wabasha* permanently moored approx. 5,300 ft. from the SBM. The nearest port with facilities is Djakarta, approximately 51 nautical miles South-east.

MOORING: Tankers are requested to have ready on the forecastle head the following:

(*a*) Messenger lines on the forecastle head for bringing 2 mooring lines aboard from the SBM (minimum 6-in. circumference).
(*b*) Mooring winches on forecastle head for handling two 12-in. circumference synthetic fibre floating mooring lines from the SBM.
(*c*) Adequate chafing gear to prevent damage to mooring lines
(*d*) Derrick rigged and ready to pick up from launch, mooring shackles, nylon stops and hose connection gear on the port side midships.

On the near approach to the buoy a launch will attach a ship's line to one of the Terminal's floating mooring lines. This will be hove aboard and secured to the towing brackets, if the ship is so fitted, or otherwise secured by a ship's mooring wire and nylon stop previously passed aboard. The same operation will be repeated with the second mooring line.

The Mooring Master may require the vessel to unmoor at any time he deems it necessary for the safety of the vessel or mooring buoy or both, or infringement of the Terminal regulations.

HOSES: The Mooring Master along with a ship's officer will direct the ship's crew in the raising, lowering, connecting and disconnecting the oil loading hoses as well as all other labour pertaining to the loading of crude. The Terminal will not provide any labour for work done aboard the vessel.

Vessels must be adequately equipped with boom, blocks, tackle, wire runners and sundry equipment on the port side to hoist the floating hoses from the sea to the loading position. (5 tons minimum hoist size required.) Vessel's loading manifolds should be prepared for two 12-in. ASA 150-lb. flanged hose connections prior to vessel's arrival at Terminal. Where no crossover valves exist on loading manifolds it is recommended that loops between loading lines on the starboard side of these manifolds be fitted. 8-in. hose connections to be removed; also, if necessary, "Y" pieces removed so that maximum flow through the 12-in. cargo hoses will not be reduced. To assist in vessel's turnaround, tankers should have all necessary booms and cargo gear rigged and ready before ship is boarded by Mooring Master.

Vessels which may consider the lifting capacity of their gear to be marginal should strengthen their gear accordingly. A common way to do so is to rig a second topping lift on the boom.

LOADING: The maximum rate will be 15,000 barrels per hour (2,030 long tons per hour). Loading will commence with one pump; when the vessel advises that the cargo is flowing into the tanks the loading rate will be increased until the desired rate has been reached. Vessels shall not close down against the incoming oil flow. Vessels will be held liable for damages resulting from failure to observe this precuation. The vessel must give 30 minutes notice to *Wabasha* before starting to "Top-off" and shall advise if a decrease in loading rate is desired. The vessel must give 15 minutes notice to *Wabasha* prior to the completion of loading, at which time *Wabasha* may reduce to one pump.

All cargo tank openings and pressure vacuum relief valves must be closed immediately after ullages and samples have been taken.

BALLAST: It is the responsibility of the ship's Master to see that no oil (crude, bunkers, diesel or bilge) or dirty ballast is pumped or spilled overboard from his ship while in the area. Drip pans should be used, especially when disconnecting hoses, in order to prevent spillage overboard.

Before loading commences all overside scuppers shall be made oiltight. At Cinta Terminal there are no slop tanks or facilities for receiving dirty ballast. Tankers must arrive with clean ballast. In the event a tanker does have dirty ballast it will not be allowed to be pumped overboard.

A vessel must have sufficient ballast for safe handling, having due regard to existing weather and sea conditions. Through careful watch of the weather and sea conditions, frequent exchange of information between ship and Terminal, and by a knowledge of the behaviour of his own vessel, the ship's Master may come to the Terminal with a minimum of ballast and thus lessen any possibility of infringement of sea pollution regulations.

Vessels equipped with a separate system of ballast tanks will be allowed to discharge ballast and load oil simultaneously, provided approval is first obtained from the Company Mooring Master and provided Government Petroleum Inspector agrees to do so.

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS: No repairs are to be made while berthing or unberthing, or in the berth. All engines to be on 30 minutes standby and steam on deck at all times.

MEDICAL: At Cinta Terminal, medical and dental services are not available. In emergencies requiring hospitalisation, the patient will have to be flown by helicopter to Djakarta. All expenses will be charged to the ship owner.

CUSTOMS ALLOWANCES: Cigarettes, cigars, tobacco, matches, spirits, wines, beer, perfume, arms, ammunition and possibly other items will be locked up under customs' seal from time of arrival of ship at the Terminal until the time of leaving territorial waters.

Each person is allowed 200 cigarettes or the equivalent in tobacco or cigars. Each man is allowed one litre of beer or half litre of wine per day. Special allowances are made for the Master under special circumstances.

IDENTIFICATION CARDS: Visitors must obtain a Special Pass from Indonesian Government Officials located in the Terminal and from the Company's Mooring Masters. It is recommended that visitors be restricted to a minimum due to hazards involved.

TIME: Indonesian local time is GMT plus 7 hours.
SHORE LEAVE: Shore liberty will not be granted except in cases of extreme emergency. Crew members cannot pay off or leave vessel at Terminal.
GENERAL: Safety rules and regulations are strictly enforced. The safety requirements are based upon the provisions of the Code of Safe Practices currently accepted by the Oil and Tanker Industries.

Provisions, spare parts or stores of any sort shall not be loaded from or discharged into any craft while the tanker is in or near the berth.

When a Mooring Master and his launch crew are assigned to a ship on business, it is expected that the ship will supply them with meals at the same time and in the same manner as comparable with personnel of the ship. No special meals or special foods will be required. The Terminal will keep this item to a basic minimum. The ship should also provide shelter and smoking facilities in the same manner as meals. All communications between Terminal personnel assigned to a ship and ship's personnel should be through the Mooring Master.
AUTHORITY: Independent Indonesian American Petroleum Company, PO Box 2759, Djakarta, Indonesia. Cables: IIAPCO Djakarta.

DJAKARTA (Tandjong Priok): 06.10 S. 106.50 E.

DOCUMENTS: Upon arrival vessels have to produce the following Certificates and Documents, which will remain in the Harbour-master's custody until cleared:
Nationality (Registry) Certificate.
Seaworthiness Certificate.
Measurement (Tonnage) Certificate.
Deratisation (Exemption) Certificate.
International Load Line Certificate.
Safety Certificate (passenger ships).
Safety Equipment Certificate (cargo ships).
Safety Radio and Radiotelephony Certificate (cargo ships).
Certificate of Approval (ship's radio station).
Health Book or Bill of Health.
Last Port Clearance.
Subscription of Light and Harbour Dues and wharfage if any.
Crew Lists and Passenger's Lists.
Ship's Articles.
Other certificates and documents as required.
IMMIGRATION: Vessels arriving from abroad with passengers must hoist the N Flag. Masters have to supply the boarding Immigration Officer with Passenger's List of: (*a*) disembarking. (*b*) transhipping. (*c*) through passengers.

No persons are allowed on board until the vessel has been examined and the N Flag taken down. Passengers must be in possession of a valid visa: visitor's, entry or a transit visa. Those not having a visa may at the discretion of the Immigration Officer, obtain a landing permit. Members of the crew including the Master must appear in the Articles, in order to get shore permits.
PILOTAGE: Compulsory. Pilots will board the vessel at the Outer Anchorage, from 08.00–18.00. Application for Pilots should be made before 16.00 hrs. via the Harbour-master. Vessels could order a Pilot via the above radio station c/o Harbour-master Tg. Priok also mentioning particulars as tug-boat assistance, quarantine, Immigration etc., and the Harbour-master will notify the respective services.
BOARDING AREA: Harbour Pilots, Quarantine Officer and Immigration will board the vessel at the Outer roads.
RADIO: Coastal Radio Station Call sign PKI Class A1, A2, A3; call sign PKZ Class A3.
TUGS: Tugs are operated by the State-owned P.N. Tunda Bara, Cable address: "Coaltug", which also handle the mooring facilities.
BERTHING:
Outer Harbour: 7 berths (mooring buoys) for ocean going vessels. Coaster Harbour only for coasters.
1st Inner Harbour only for ships for the Interinsular Trade.
2nd Inner Harbour (West side), Berth length 1,000 metres with depths of 87 dm. at LWS.
2nd Inner Harbour (East side), berth length 760 metres with depths alongside of 87 dm. at LWS.
North End Coal wharf Tunda Bara berth length 300 metres for loading/discharging of coal, equipped with 4 transporters with rippers.
North strip between 2nd and 3rd Inner Harbour: Shell operated Tanker Terminal with depths of 73 dm. at LWS.
3rd Inner Harbour (West Side), berth Length: 530 metres with depths of 87 dm. at LWS.
North of Godown 304 is the Passengers Terminal "Samudera Pura". The Southern and Eastern sides of the 3rd Inner Harbour are the terminals of the Indonesian Navy.
LIGHTERAGE: A fleet of 78 lighters owned by Messrs. Tri Daya having a capacity of 8,000 tons including flat-tops 2 of 350 and 2 of 150 tons.
STEVEDORES: *Working hours:* Monday–Thursday 08.00–12.00 hours, 13.00–16.00 hours. Friday 08.00–12.00 hours, 13.30–16.00 hours. Saturday 08.00–12.00 hours, 12.30–14.00 hours. Overtime allowed 14 hours per week.

Speed per gang per hour: 15 to 20 tons for general cargo.
FRESH WATER: Water supply is handled by the Harbour Board. Water can be obtained via pipelines to the wharves. Daytime speed is very low due to low pressure. At night a speed of 15 tons/hour can be achieved and by water barges a speed of 25 tons/hour.
FUEL: Fuel can be obtained to all berths of the 2nd and 3rd Inner Harbour Shell pipelines. Bunkering by means of oil-barges can also be arranged.
REPAIRS: Dry-docking/Repairs: Dry-docking and repairs are carried out by the State-owned P.N. Dok. There are 2 floating docks of 6,000 tons each and 1 concrete floating dry-dock of 800 tons and a slipway for coasters.

Electronic Repair Shop: Repair of electronic navigational aids and radio can be carried out by experts.

Repair and Testing of Navigational Instruments: Carried out by experts of the Hidral (Hydrography of the Indonesian Navy) and those of the P.N. Pelni workshop. Compass can be adjusted by an expert of the above-mentioned Hidral. Testing and issuing of certificates for navigational lamps by the Pelni workshop.
PORT SECURITY: Maintained by members of the Indonesian Armed Services, usually police, Navy or Marine and Army. Crew members should be in possession of a shore pass issued by the Port Authority, accompanied by an identification card when leaving or entering the guarded gates of the Port Area. Shore passes can be obtained via the Agencies.
CUSTOMS: It is strictly prohibited to take undeclared foreign currency ashore. Crew members are not allowed to take more than Rp. 50.– (fifty Rupiahs only) ashore. It is recommended that Masters consult the Agents with the local prevailing Customs Regulations with regard to currency, cigarettes, spirits, etc., to prevent unnecessary difficulties and eventually fines.
AGENT: Head Office: P.N. DJAKARTA LLOYD, Djl. Hadji Agus Salim 28, Djakarta.

P.N. DJAKARTA LLOYD, Tandjung Priok Branch Office, Djl. Ambon 1, Port Tandjung Priok.

DUMAI: 01.41 N. 101.27 E.

DOCUMENTS:
Maritime International Declaration of Health.
Valid Deratisation or Deratisation Exemption Certificate.
12 Crew Lists.
12 Passenger Lists (if passengers carried).
Smallpox Vaccination Certificates for all crew members and passengers.
Certificates of Inoculation against any communicable diseases.
Valid Passports and/or Seamen's Certificates for all crew members and passengers.
Quarantine Certificates if expired, can be renewed.
PILOTAGE: The Dumai crude oil loading installations can be reached by deep draft vessels by proceeding from Malacca Strait into Bengkalis Strait and following a buoyed channel on a Southerly course for a distance of 22 miles to the junction of the Rupat Strait. Vessel must make a turn of approximately 180 degrees to enter the Rupat Strait and thence Westerly for a distance of 33 miles to Dumai. The Bengkalis and Rupat Strait fairways have been wire-dragged clear to a depth of 16 metres (52·5 ft.) LWS. Approach channels marked by lighted radar reflecting beacons and buoys. Channel Pilots are not provided. However, vessels above 225 cubic metres (gross) are subject to pilot fees. Mooring Masters moor, unmoor and supervise the movements of all vessels in the vicinity of the wharves.
ANCHORAGE: The Dumai general anchorage area is North and West of oil wharves. Minimum depth of water in this area 43 ft. 35 ft. shoal spot to East of general anchorage should be noticed. Holding ground in anchorages considered good, bottom clay. Area large with sufficient manoeuvring and swinging room for several vessels of size to be accommodated at oil wharves.
MAX. SIZE: Length: 1,000 ft., draft 54 ft.
ETA ADVICES:
1. Proceeding direct from ports other than Palembang and not stopping at Singapore en route:
   (*a*) Radio 96 hour ETA to "Calpaking Dumai" (include operational data).
   (*b*) If any time this estimated arrival time changes by 2 hours, send an amended ETA message immediately.
   (*c*) 24 hours before arrival, *confirm* or *amend* the ETA message regardless of any change from the last advice.
2. Proceeding from Singapore:
   (*a*) Prior to arrival at Singapore, radio 96 hour ETA Dumai (include words ("From Singapore") to "Calpaking Dumai" predicted on estimated time of stay at Singapore.
   (*b*) At Singapore, when departure time from Singapore is known, confirm or amend the ETA to "Calpaking Dumai" through your Singapore ship's Agent.
   (*c*) Immediately upon departure from Singapore, and when able to use the vessel's radio legally, again *confirm* or *amend* the ETA to "Calpaking Dumai".

RESTRICTIONS: All vessels inbound to Dumai from the time abreast Raleigh Bank light buoy until anchored off Dumai Terminal must display the following recognition signals.

By day: The International Code Flag hoist "CAL" flown from a single hoist from the signal yard.

By night: A red light 6 ft. above a white light both visible all around the horizon at a distance of not less than 2 miles.

Vessels should be prepared to answer identification queries from Indonesian naval patrol crafts. The foregoing is subject to change.
RADIO: There is a Government coastal radio station at Dumai. Any message for Dumai Terminal should be sent through this radio station which operates as follows: Name: Dumai Radio. Call Letters: "PKP".

A CPI operated VHF station is maintained 24 hours a day, and is

available for information concerning vessels' port activities. Channel 12 is utllised only. Frequencies: 156·6.

HEALTH: In accordance with international practice, quarantine signals must be displayed by all vessels approaching Dumai. These signals shall be displayed continuously until pratique is granted. These signals are: Sunrise to Sunset, Quarantine flag "Q". Sunset to Sunrise, Signal lights (red over white). The boarding officials attend the vessels alongside the wharf and normally do not board vessels at the anchorage.

TUGS: Mooring and unmooring assistance is provided by two 1,500 h.p. diesel electric tugs which stationed in the immediate vicinity of the wharves. While rendering assistance the tug-boats are under orders of the mooring master on duty.

BERTHING: At Dumai there are four wharves. Three wharves are utilised for loading of crude oil only and referred to as Oil Wharf No. 1, Oil Wharf No. 2 and the T–2 Wharf respectively. The fourth wharf is utilised to handle general cargo. However, this wharf is also equipped to handle crude oil as well as refined products.

(*a*) Oil Wharf No. 1 is located in approximate position latitude 1° 41′ 14″ N., longitude 101° 27′ 1″ E. The basic design is for 84,000 dwt. vessels but it is capable of receiving 100,000 dwt. vessels under favourable weather and sea conditions. In terms of vessel's size this would be a LOA of approximately 940 ft. and a draft of 48 ft. The least depth at the face of the wharf is 51 ft. (MLWS). The overall length of the wharf is 1,170 ft. between dolphins.

(*b*) Oil Wharf No. 2 is located in approximate position latitude 1° 41′ 14″ N., longitude 101° 28′ 7″ E. The basic design is for 150,000 dwt. vessels. In terms of vessel's size and design this would be a LOA of approximately 1,008 ft. and a draft of 54 ft. The least depth at the face of the wharf is 57 ft. (MLWS). The overall length of the wharf is 1,210 ft. between dolphins.

(*c*) The third oil wharf, referred to as the T–2 Wharf, is located between Oil Wharf No. 1 and the Cargo Wharf. The T–2 Wharf is utilised mostly for handling crude oil to inter-insular vessels. The basic design of the T–2 Wharf is for 16,500 dwt. vessels, but it is capable of receiving 28,000 dwt. vessels. In terms of vessels' size this would be a LOA of approximately 625 ft. and a draft of approximately 34 ft. The least depth of the wharf is 36 ft. (MLWS). The overall length of the wharf is 680 ft. between mooring dolphins.

(*d*) The Cargo Wharf is located in approximate position latitude 1° 41′ 14″ N., longitude 101° 27′ 4″ E. The basic design of this wharf is for 16,500 dwt. vessels; however, under favourable weather and sea conditions this wharf will be capable of receiving vessels up to 23,000 dwt. In terms of vessels' size this would be a LOA of approximately 600 ft. and a draft of 33 ft. The least depth of the wharf is 34 ft. (MLWS). The overall length of the wharf is 750 ft. between dolphins.

There are Chicksan units on the Oil Wharves Nos. 1 and 2 for use in loading tankers. These units are equipped with four 12-in. aluminium pipe loading arms which are U.S. Standard flanged, faced and drilled. Loading, including topping off, is under pressure from pumps ashore. The maximum average loading rate is approximately 50,000 barrels per hour. There are two 10-in. cargo hoses for use in loading tankers at the T–2 Wharf. The hoses are U.S. Standard flanged, faced and drilled. The hoses are swung on board by the wharf's derricks and by assistance of the vessel's derrick. The maximum average loading rate is approximately 18,000 barrels per hour. On the Cargo Wharf, if required, on short notice there are two 10-in cargo hoses for use in loading tankers. Both are U.S. Standard flanged, faced and drilled. Hoses are swung on board by ship's gear and with the assistance of a mobile crane on the wharf. Loading, including topping off, is under pressure from pump house ashore. The maximum average loading rate at this wharf is approximately 18,000 barrels per hour.

Hose handling and Mooring Lines

Wharf crews and launch crews are on duty to handle loading arms and/or oil hoses and mooring lines on the wharf. Mooring lines on board vessels will not be handled by CPI personnel. Rat guards must be rigged on all mooring lines.

BALLAST: There are no shore facilities at Dumai for disposal of dirty ballast water. Vessels should arrive with sufficient clean ballast water to enable safe manoeuvring under prevailing weather conditions. All ballast water must be pumped overboard after arrival at berth, and prior to loading, unless "load on top" procedures apply. If, after arriving alongside, a vessel is found to have oily ballast water on board, such vessel will be sent to sea to accomplish the necessary tank cleaning. A new Notice of Readiness to load must then be tendered.

FRESH WATER: Available in limited quantities at all wharves.

FUEL: Not available.

MEDICAL: The port health doctor has only limited facilities for medical treatment. If the services of more complete and/or specialised medical assistance are needed or emergency cases arise on board tankers calling at Dumai, the port health doctor might refer such cases to CPI hospital facilities. However, Masters of all vessels bound for Dumai are requested, if possible, to call at Singapore for medical assistance.

REPAIRS: No repairs shall be carried out to the main propulsion machinery and/or essential auxiliaries while alongside. The vessels' main propulsion machinery shall be in readiness for instantaneous use on short notice.

CUSTOMS: Ships' bonded stores will be sealed by the Indonesian Customs officials on arrival and will remain sealed until the vessels leave Indonesian waters.

WATCHMEN: Strongly suggest that all Masters of tankers calling at Dumai maintain a close security watch while at anchor as well as when alongside the wharves. It is further recommended that on board the tankers unoccupied rooms should be securely locked and port holes closed before vacated.

TIME: GMT plus 7 hours all year round.

REPATRIATION: Due to stringent Indonesia Government regulations, normally no passengers and/or crew members from any vessel are allowed to disembark for repatriation purposes.

SHORE LEAVE: Shore liberty may normally be granted to ship's officers and crew after clearance of the vessel by harbour authorities, except between 2200 hours and 0600 hours. Recreational facilities are not available for seagoing personnel at present and few facilities exist in the village of Dumai. Personnel proceeding on shore liberty should be provided with ship's pass and advised that the CPI compound is out of bounds with the exception of the road from the wharves to the village road.

GENERAL: While alongside, vessels must have the eye of towing (fire) wires lowered to the water's edge from offshore bow and quarter for emergency use. The eye of the wire should be painted white.

AUTHORITY: Caltex Pacific Indonesia (CPI).

KIDJANG: 00.53 N. 104.37 E.

DOCUMENTS: Upon arrival ships have to fill in the following Forms:

Harbour Report obtainable from the boarding Pilot, or from the Harbourmaster.
Pilot's Certificate.

Upon arrival vessels have to produce the following Certificates and Documents, which will remain in the Harbourmaster's custody until cleared:

Nationality (Registry) Certificate.
Seaworthiness Certificate.
Measurement (Tonnage) Certificate.
Deratisation (Exemption) Certificate.
International Load Line Certificate.
Safety Equipment Certificate (cargo ships).
Safety Radio and Radiotelephony Certificate (cargo ships).
Certificate of Approval (ship's radio station).
Health Book or Bill of Health.
Last Port Clearance.
Subscription of Light and Harbour Dues and wharfage if any.
Crew Lists and Passenger's Lists.
Ship's Articles.
Stores List.

RESTRICTIONS: Vessels with destination Kidjang should call at Tg. Pinang first for a Pilot or at Tg. Tilli at about 00° 48′ 12″ North and 104° 35′ 30″ East, slightly South of Tg. Pinang Roads. Fairway East of Tg. Tilli 5.6 metres and Kelong Strait 7.4 metres at LWS.

PILOTAGE: Compulsory pilotage. Pilot stations are in Tg. Pinang Roads or off Tg. Tilli. Vessels should arrive at Tg. Pinang preferably between 06.00 and 12.00. Application should be made 48 hours prior to ship's arrival via radio station addressed to the Agency, mentioning ship's ETA pilot station and draft.

MAX. SIZE: Vessel: Length maximum 160 metres and draft maximum 32 ft.

RADIO: Coastal Radio Station: Refer to Tg. Uban Radio, cables for Tg. Pinang can be sent via Tg. Uban Radio call sign PKI.

HEALTH: A 3rd Class port and can only be called at after obtaining a free pratique at one of the 1st Class Ports.

Vessels arriving from abroad have to fly the Q Flag (Yellow Flag) until boarded and released by the Quarantine Officer. Masters have to fill in the Quarantine Form and signed by him and the Ship's Surgeon, if any, and produce the following:

Health Book or Bill of Health.
Deratisation (Exemption) Certificate.
Valid International Vaccination Certificates of Crewmembers and Passengers.
Crew and Passenger's Lists showing the validity dates of above Certificates.

During the time that the Q Flag is flying no one is allowed to board or leave the vessel except with the permission of the boarding Quarantine Officer.

TUGS: Tug assistance not available.

BERTHING: Vessels are moored alongside 2 jetties on dolphins, with 4 good manilla fore and 4 ft. At springtide a Hercules wire is available. Shifting only during slack tide.

STEVEDORES: Working hours: Loading to be effected with customary quick dispatch on clear working days, whereby Sundays, Holidays, governmental, local holidays and Saturdays between noon and midnight and Mondays between zero a.m. and 8 a.m. are always excepted.

Overtime. At Master's request, work on Sunday, holidays, governmental, local holidays and Saturday between noon and midnight and Mondays between zero a.m. and 8 a.m. can usually be arranged.

Working capacity: Loading capacity by conveyor belt, 200–350 tons/hour.

FRESH WATER: Not available.

FUEL: Not available.

SHORELEAVE: Crew members are not allowed to leave Kidjang and have to report back aboard at 23.00 hours. Identification cards must be carried along. It is prohibited to lower the boats with the purpose of visiting the other islands, fishing, etc.

CUSTOMS: It is strictly prohibited to take undeclared foreign currency ashore. Crew members are not allowed to take more than

Rp. 50.– (fifty Rupiahs only) ashore. It is recommended that Masters consult the Agents about the local prevailing Customs Regulations with regard to currency, cigarettes, spirits, etc., to prevent unnecessary difficulties and eventually fines.
AUTHORITY: Dept. of Sea Communications.

LABUANTRING BAY: 08.44 S. 116.04 E.
AMPENAN: 08.34 S. 116.04 E.

DOCUMENTS:
Health Certificate.
1 Vaccinations List (Smallpox and Yellow Fever, Cholera/Typhus).
9 Crew Lists.
7 Passenger Lists (landing/transit).
4 Lists of Personal Effects.
7 Ship's Store Lists.
2 Cargo Manifests (discharge/transit).
4 Dangerous Cargo Lists.
1 Stowage Plan; all to be signed by Ship's Master and/or Chief Officer.
PILOTAGE: Normally not provided. When Pilot required, vessel must request via Agent or via Ampenan Radio at least 24 hours before arrival. Pilot service will then be given by Harbour Master from Ampenan to Labuantring Bay.
ANCHORAGE: Overseas vessels not familiar enter Labuantring Bay, normally calling Ampenan awaiting particular information and/or Pilot to enter Labuantring Bay (outer buoy). Good holding ground in about 16 metres. Vessels with a draft of more than 6 metres must keep clear from channel to inner harbour. Navigating in channel without Pilot may cause difficulties; channel equipped with buoys, depth approx. 7 metres.
APPROACHES: When approaching Ampenan, harbour is marked by light tower. Excellent holding ground in about 16 metres.
RESTRICTIONS: Vessel may enter Ampenan and Labuantring Bay (outer buoy) day and night. Vessel not visited by port authorities between 18.00 hours to 07.00 hours (local time), exceptional cases allowed. Vessels are not allowed enter into inner harbour (Labuantring Bay) after sunset.
BERTHING: Length of quay at Labuantring Bay approx. 40 metres. Vessels with a length of less than 100 metres and a draft of less than 6 metres may berth safely. Berthing at Ampenan (anchorage) for all sizes of vessel.
WEATHER: November till April rainy season. Quite heavy winds and rain can affect cargo work.
HEALTH: Pratique granted by port doctor after boarding vessel. Vessels from an infected port have to hoist "Q" flag. If any suspected disease or fever on board, necessary inform Agent by cable or via radio station. Treatment of crew members for illnesses other than quarantinable diseases arranged by Government's practitioners through ship's Agent.
TUGS: One tugboat of 125 h.p. Two motor launches only, for cargo handling purposes.
RADIO: Ampenan Radio. Call sign PKD 9. Freq. 500 kc/s. and 430 kc/s. Qtu: 0000z–0100, 0500z–0600; except Friday and Saturday: 0000z–0100z, 0900z–1000z. Sunday and holiday closed.
MEDICAL: Cable or radio before arrival if medical assistance necessary on entry. Government's hospital facilities available. Some specialised surgery is not. Smallpox vaccination and Yellow Fever Certificates inspected on arrival.
TANKERS: Berthing at Ampenan.
FRESH WATER: Not available.
FUEL: Not available.
SHIP'S CERTIFICATES: Registered Tonnage Certificate, Load-Line Certificate, Safety Radio Certificate, Safety Equipment Certificate, Light dues Receipt, Deratisation Certificate, Clearance from previous port, all to be shown on arrival.
IDENTIFICATION CARDS: All crew's passports must be certificated by Immigration Officer on arrival, whereafter to be used as shore passes.
WATCHMEN: Usually employed during loading and discharging operations.
CARGO GEAR: Wire and rope-slings, nets and net-slings, lighters all supplied by stevedores except rain-tents. No shore cranes available. Loading and discharging usings ship's derricks.
STEVEDORES: Ordered by Agent. To enable Agent ordering necessary gangs, vessel must give accurate ETA at least 24 hours in advance. Working on Sunday and holidays allowed by agreement in exceptional cases.
OPENING/CLOSING HATCHES: Normally carried out by stevedores; ship's crew may if required by vessel to do so.
CUSTOMS ALLOWANCES: No restrictions. Custom's Officer supervises opening and resealing of bond.
CONSULS: None available locally.
AIRPORT: Served by regular airlines to Bali and Java.
TIME: GMT plus 8 hours.
HOLIDAYS: 1st January; Independence Day (17th August); Christian, Islamic and Balinese holidays as appointed by the Indonesian Government.
GENERAL: Vessels should not use ship's radio station. Harbour Police and Customs' guards on board during ship's stay in harbour.
SHORE LEAVE: Crew allowed ashore; passports required whilst ashore.
DELAYS: Normally minimal.
AGENTS: P.N. "Pelajaran Nasional Indonesia" (PELNI), 192 Djalan Pabean, Ampenan, Nusa Tenggara Barat, Indonesia. Tel. Ampenan 94–101–160. Cable: Pelni Ampenan.

MACASSAR: 5.05 S. 119.24 E.

DOCUMENTS:
Certificate of Registry.
Crew List.
Log Book.
Certificate of Seaworthiness.
Certificate of Plimsoll Mark.
Radio Certificate.
Health Certificate.
Equipment Certificate.
Shipping documents as follows:
Manifest of Cargo.
Bills of Loading.
Charter Party (if necessary).
PILOTAGE: Compulsory for all vessels, who have to use Port Administration's tug-boat. To order Pilot contact Makassar Radio, call sign PKF. Besides, Agent contacts the Harbour Master (Inspektur Keselamatan Pelajaran). Pilot boards vessel at anchorage, about 1 mile off shore. Exact area where vessel waits for Pilot or anchorage is between Lae-Lae Island and Samalona Isalnd. Depth of anchorage is 3 fathoms.
RESTRICTIONS: Every ship needs commission from Dit. Dken. Perhubungan Laut (General Directorate of Sea Communication) to enter Makassar Harbour. When ship has no permission, Agent must apply to Port Authority and give details of ship, i.e. name of vessel, nationality, name of shipping enterprise, ETA, ETD, last port of call, next port of call, loading or discharging and aim of entry. No entry after 18.00 hours.
MAX. SIZE: No limit on length or breadth. The port consists of two bases; (1) Soekarno Base 1,360 metres long. (2) Hatta Base, 550 metres long. Draft at Soekarno Base 8.0 metres. Draft at Hatta Base 9.0 metres. Besides these bases there is a special pier for oil carriers outside main port area not far from Soekarno base.
HEALTH: Every vessel must have a certificate of health on board. When vessel enters a member of Port Health Authority boards. If there is any disease on board the vessel must go to quarantine area.
RADIO: Macassar Radio with call sign PKF.
TUGS: One tug "Anggada VII". Used for vessels of 5,000 dwt. or over, and four tugs of smaller size.
STEVEDORES: Stevedoring by shipping enterprise or shipping enterprise agent. Capacity for discharging about 20 tons every gang/hour. No heavy cranes.
MEDICAL: Doctor and clinic available.
FRESH WATER: Ground-pipe with 10 ton/hour capacity. Barge with machinery pump 25 ton/hour capacity.
FUEL: Fuel capacity in a day 400 tons.
DEVELOPMENTS: In near future, Macassar to have bonded warehouse.
GANGWAY/DECK WATCHMEN: There are no special deck watchmen services but can be arranged through Agent.
OPENING/CLOSING HATCHES: Work carried out by stevedores.
CUSTOMS ALLOWANCES: Tobacco – only sufficient for personal use. Wine and/or spirits – none permitted out of bond.
CARGO GEAR: Local regulations comply with Bureau of Classification with which vessel registered.
IDENTIFICATION CARDS: Identification cards needed by Immigration Office.
CONSULS: None available locally.
REPAIRS: Minor deck or engine repairs possible.
AIRPORT: Macassar Airport, called "Mandai Airport". Distance from town about 23 km. Services (1) Macassar – Kendari and (2) Djakarta – Surabaja – Macassar – Manado three times a week.
TIME: Middle Indonesian Time. GMT plus 8 hours.
HOLIDAYS: Every Sunday; New Year (1st January); Idul Adha (27th February); 1st Muharam 1389 H. (19th March); Isa Almasih (15th May); Maulud Muhammad (29th May); Sancta Maria (15th August); Proclamation Day (17th August); Mikradj Muhammad (9th October); Idul Firit (11th and 12th December); Christmas Day (25th December). Work can be arranged at overtime rate.
POLICE/FIRE/AMBULANCE: Police, Fire 4306; Ambulance 7227.
TELEPHONES: No arrangements exist for placing telephones on board.
SHORE LEAVE: Crew members are allowed ashore.
DELAYS: Caused by rain; no mechanical equipment for cargo handling.
AUTHORITY: Departemen Perhubungan, Direktorat Djenderal Perhubungan Laut, Port Administrator Macassar. Address: Pangkalan Soekarno Macassar. Tel. 6988, 6966.
AGENT: P. N. Djakarta Lloyd, Djl. Pankalan Bung Karno, Port Makassar.

Safety Radio and Radiotelephony Certificate (cargo ships).
Certificate of Approval (ship's radio station).
Health Book or Bill of Health.
Last Port Clearance.
Subscription of Light and Harbour Dues and wharfage if any.
10 copies Crew List.
6 copies Passenger List.
2 copies Ship's Articles.
2 copies Store List.
Maritime declaration to be completed by Master upon arrival, obtainable from boarding Quarantine officer, or via Agency.

PILOTAGE: Compulsory, consisting of Outer (River) and Harbour Pilot. Applications should be cabled to pilot vessel via Palembang Radio Station. Pilot vessel located at station position 02° 11′ 08″ S. 104° 57.03″ E.

Vessels arriving in afternoon and unwilling to navigate the river in darkness should not hoist the pilot signal. The signal station is at the aforementioned pilot vessel, which answers the pilot signal as follows:
By night:
A flare-up light slightly over the railing, or waving with a white light means: Pilot will soon board the vessel. One red light vertical over a white light means: No pilot available, vessel allowed to proceed until Pilot is met.
By day:
1. The international flag signal KYS from the International Code of Signal meaning: Pilot unable to attend due to motor defect or heavy seas. The Pilot can be picked up by ship's motor-boat.
2. The flag signal KKO meaning: No pilot available, vessel allowed to proceed until Pilot is met.

Use of Harbour Pilot in Palembang is compulsory.

ANCHORAGE: *Musi Bar:* anchorage position 2° 08′ 30″ S. 104° 58′ 30″ E., in depth of 9 fathoms, used for topping up ocean tankers from river craft.

RESTRICTIONS: Palembang is 54 miles upstream. The main entrance is the river arm between Tg. Tjarat and Tg. Gedeh.

Depths from sea to Palembang:

Outer Bar	43 DM at mean level
For incoming vessels Channel East of Pajung	50 DM ,, ,, ,,
for outgoing vessels Channel West of Pajung	50 DM ,, ,, ,,
Channel South of the light-buoy South of Pajung	53 DM ,, ,, ,,
Bar of Kupang	50 DM ,, ,, ,,
Bar downstream of Kampung-Peradjen (9 miles from Palembang)	50 DM ,, ,, ,,
Bar downstream of S. Lais (opposite Kundur)	50 DM ,, ,, ,,

DELAYS: Due shortage of lighter space.

AGENT: PN. Djakarta Lloyd, Pangkalpinang Branch.

PULAU SAMBU: 01.09 N. 103.54 E.

DOCUMENTS: Upon arrival ships have to fill in the following forms:
Harbour Report (obtainable from the Boarding Pilot).
Pilot Certificate.
Also required from the Masters are:
Six copies of Crew List.
One copy Stores List.
One copy Personal Effects List.
PILOTAGE: Pilots are in Government Service. Pilot signals according the International Code of Signals. Pilots can be ordered direct

by cable to the Harbourmaster or via the ship's Agent. Pilot boards in position 1° 10′ 38″ N., 103° 52′ 12″ E.

RADIO: Vessels calling at Pulau Sambu for bunkers should communicate with PKC 2 Pladju Radio or Tunasix Singapore, or direct with Sambu Radio PKJ 51 (A3 Radio Telephone) and VHF Channel 19.

HEALTH: Vessels arriving from aboard have to fly the Q Flag (yellow flag) until boarded and released by the Quarantine Officer. Masters have to fill in the Quarantine Form and signed by him and the ship's surgeon, if any, and produce the following:

Health Book or Bill of Health.
Deratization (Exemption) Certificate.
Valid International Vaccination Certificates of Crew members and Passengers.
Crew and Passenger's Lists showing the validity dates of above Certificates.

During the time that the Q Flag is flying no one is allowed to board or leave the vessel except with the permission of the boarding Quarantine Officer.

TUGS: Available.

BERTHING: Pulau Sambu has an excellent location 8 miles South of Singapore and approximately 3 miles from the International waterway. It has two deep water jetties with a maximum depth of 36 ft., a maximum length of 440 ft., and the length of the navigable channel is 1,500 ft.

FUEL: Ideally, it is necessary to advise suppliers of bunkers required at least fifteen days before the ETA of the vessel. The authorities at Pulau Sambu also require the vessel to contact them twenty four hours prior to their ETA.

Bunkers available: Fuel Oil, 1000 seconds, and MDO.

CUSTOMS: Masters have to declare all local currency on board. It is strictly prohibited to take local currency ashore. No limitation for foreign currency.

Master should consult the Agent about prevailing Customs regulations with regard to currency, cigarettes, spirits, etc., to prevent unnecessary difficulties and fines.

AUTHORITY: Department of Sea Communications.

SABANG: 05.50 N. 95.20 E.

DOCUMENTS: Upon arrival vessels have to produce the following Certificates and Documents, which will remain in the Harbourmaster's custody until cleared:

Nationality (Registry) Certificate.
Seaworthiness Certificate.
Measurement (Tonnage) Certificate.
Deratization (Exemption) Certificate.
International Load Line Certificate.
Safety Equipment Certificate (cargo ships).
Safety Radio and Radiotelephony Certificate (cargo ships).
Certificate of Approval (ship's radio station).
Health Book or Bill of Health.
Last Port Clearance.
Subscription of Light and Harbour Dues and wharfage if any.
Crew Lists and Passenger's Lists.
Ship's Articles.
Stores List.

PILOTAGE: *Approach:*

Vessel should steer on the light of Klah Islet and keep at least one mile offshore, especially of Udjung Masam owing to an inward drift, until the bay is well open. When entering the bay, the light-buoy South of Udjung Lho Me should be kept on port side.

The Signal Station at Peunimpun reports day and night the arrival of ships, by night an unofficial white light, showing all around is shown, visible at a distance of 12 miles. Signals by day with flags according the International Code of Signals and by night by signal lamp.

HEALTH: Vessels arriving from abroad direct have to apply well in advance from the Department of Health (Quarantine Section) for a provisional free pratique, as said pratique has to be cabled to the Port. The provisional free pratique is only valid for this Port, the next port of call must be a First Class Port as no further provisional free pratique will be issued, unless the vessel sails directly abroad.

TUGS: A small tug available for mooring assistance, subject advance notice.

BERTHING: The usual anchorage in the inner roads is the North side of the bay, vessels can approach shore until in 32 and 29 metres depth. There is good holding ground. During S.W. or S.S.W. squalls in the West monsoon vessels have to be kept free from the quays by means of the mooring buoys moored off the berths.

Western coal Wharf, usable berth length 140 m. with depths alongside of 7 metres at LWS.

Eastern coal wharf: usuable berth length 150 m. depths 6·8 metres at LWS.

Commercial wharf, usable berth length 100 m. depths 7·5 metres at LWS (length: 220).

At the head of the oil jetty there is a depth of 10 m. at LWS.

FRESH WATER: The water position here is excellent with pipes to all berths with an average loading speed of 25 tons/hour per hose.

FUEL: Available from Pertamina.

REPAIRS: Minor repairs can be carried out at the West end of the Coal Wharf at the repair shop and electrical power station.

CUSTOMS: It is recommended that Masters consult the Agents about the local prevailing Customs Regulations with regard to currency, cigarettes, spirits, etc., to prevent unnecessary difficulties and eventually fines.

AUTHORITY: Department of Sea Communications.

SEMARANG: 07.01 S. 110.27 E.

DOCUMENTS:

Crew Lists.
Passenger Lists (if any passengers to be disembarked).
Customs Documents.
Health Clearance from last port of call.
Harbour Report forms supplied by Harbour Master.

PILOTAGE: Ships with deadweight of more than 900 tons and with draft of more than 3·5 metres must anchor in roads. To enter the Harbour, Pilot required. Pilot can be applied for by raising "G" flag while ship is anchoring/arriving.

ANCHORAGE: Anchorage 3 nautical miles from coast, where depth 9 metres. For smaller ships safe anchorages 1,900 metres from pier, where depth 5–7 metres.

HEALTH: Vessels arriving must hoist "Q" flag. Work can only begin after inspection of security team boarding vessel upon arrival during working hours.

RADIO: Name, Semarang Radio. Call sign, PKR.

TUGS: Normally tugs join vessel in roads.

BERTHING: Ships anchoring in roads can anchor any time of day. For berthing alongside quays ships with a draft maximum 3·6 metres require Pilot. Entering port guided by a pilot vessel.

STEVEDORES: Necessary to inform Agent exact time of arrival. Labour gangs to be arranged one day before. Also details of cargo to be discharged needed to arrange stevedoring materials, especially for ships anchoring in roads.

MEDICAL: Medical assistance can be given upon ship's arrival. First aid can be given by harbour doctor in harbour area. Serious cases taken to hospitals in town. Four hospitals available. Port Health Officer can issue vaccination/fever Certificates if required.

FRESH WATER: Can be supplied by 100 ton barge once every 2 days. Suggest take on water in Djakarta or Sourabaja.

GANGWAY/DECK WATCHMEN: No gangway/deck watchmen needed.

OPENING/CLOSING HATCHES: Opening and closing hatches done by stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes or equivalent in tobacco permitted for each crew member to hold out of bond. Wine and/or spirits, maximum value of U.S. $10.

IDENTIFICATION CARDS: Needed.

CONSULS: No local representation.

REPAIRS: Minor repairs only. Small dock only for repairing vessels no longer than 36 metres.

REPATRIATION: Repatriation of crew members arranged by Agents by contacting Immigration Officer for permits concerned.

AIRPORT: 5 mins. drive from harbour. Domestic flights only.

TIME: GMT plus 8 hours

HOLIDAYS: New Year. (1st January); Independence Day (17th August); Id el Fitr; Christmas Day (25th December).

POLICE/AMBULANCE: Semarang 245 or 726.

TELEPHONES: No facilities for placing telephones on board.

SHORE LEAVE: Crew members allowed ashore.

DELAYS: Normally the speed of loading of bulk cargo is 20–25 tons one gang/hours. Delays by bad weather during December, January and February, where it is impossible to come out of the inner port to ships anchoring on the roads.

AUTHORITY: Administrator Pelabuhan Semarang, Djl. Tambaksari No. 8, tel. Sm. 245–726.

AGENT: P. N. Djakarta Lloyd, Djl. Mpu Tantular No. 23, Port Semarang.

SOURABAJA (Tandjong Perak): 07.12 S. 112.44 E.

DOCUMENTS: Upon arrival vessels have to produce the following Certificates and Documents, which will remain in the Harbourmaster's custody until cleared:

Nationality (Registry) Certificate.
Seaworthiness Certificate.
Measurement (Tonnage) Certificate.
Deratization (Exemption) Certificate.
International Load Line Certificate.
Safety Certificate (passenger ships).
Safety Equipment Certificate (cargo ships).
Safety Radio and Radiotelephony Certificate (cargo ships).
Certificate of Approval (ship's radio station).
Health Book or Bill of Health.
Last Port Clearance.
Subscription of Light and Harbour Dues and wharfage if any.
Crew Lists and Passenger's List.
Ship's Articles.
2 Stores Lists.

PILOTAGE: Pilots are in Government service. Pilot signals according to International Code of Signals. Pilots have to be ordered through Agent or can be obtained through Harbour Master.

Compulsory Pilotage, consisting of sea and harbour pilotage.

Western Channel: The sea Pilot will board the vessel at the entrance of the Western Channel from pilot launch stationed at Karang Djamuang position 06° 55′ 40″ S. 112° 43′ 40″ E. Application for Pilots can be cabled via above radio station and must be received at least 24 hours prior to the ship's arrival at the boarding area, by the Harbour Master of Tg. Perak. Upon arrival at the pilot station by day,

ships should hoist the International Code Flag G and the Ship's International Call Sign. The following local signals regarding Pilots should be observed if shown by the Pilot vessel:

(*a*) By night: a flare-up light (white) or waving a white light above the railing means: pilot will soon board your vessel.

(*b*) By day: the First Substitute over the Code Flag S means: no Pilot available, vessel allowed to proceed until she meets the Pilot. By night: a red light over a white light.

(*c*) By day: 2 black cones one vertical over the other points downwards or by night: 2 green lights one over the other means: no pilots are available for ships of less than 10,000 m^3 gross. If this signal is made by the Pilot, vessels do not have to show the pilot signals.

(*d*) By day: the International Signal GFM or by night: a green light over a white light means: Pilot will board your vessel by row-boat as no motor-boat is available.

Eastern Channel: No pilot vessels. Pilots will board the vessel at the entrance by means of a pilot barge dispatched from Tg. Perak pilot station at the Harbour Master's office.

Sea Pilot will take the vessel up to the Inner Roads, where the Harbour Pilot takes over.

RESTRICTIONS: There are two entrances: Western and Eastern Channels.

Western Channel: used for deep-drawing vessels with least depths mid-channel of 72 dm. at LWS. Distance to Tg. Perak about 23 miles.

Eastern Channel: least bar depths through this channel is 34 dm. at LWS. Distance to Tg. Perak is about 24 miles. Least depths of Jansens Channel is 39 dm. at LWS.

Boarding Area: Harbour Pilots, Quarantine Officer and Immigration will board the vessel at the Inner Roads (anchorage).

IMMIGRATION: (Department of Defence and National Security). Vessels arriving from abroad with passengers must hoist the N Flag. Masters have to supply the boarding Immigration Officer with Passenger's List of: (*a*) disembarking. (*b*) transhipping. (*c*) through passengers.

No persons are allowed on board until the vessel has been examined and the N Flag taken down. Passengers must be in possession of a valid visa: visitor's, entry or a transit visa. Those not having a visa may at the discretion of the Immigration Officer, obtain a landing permit. Members of the crew including the Master must appear in the Articles, in order to get shore permits.

RADIO: Coastal Radio Station call sign PKD. Classes: A1 Frequency 430, 550, 8730, A2 Frequency 430, 500, A3 Frequency 8754, 4.

Pilot station Karang Djamuang is also reachable through radio call sign PKW: frequency 500 kHz. This station can also be contacted by VHF Channels 12, 16.

TUGS: For poor steering vessels and those with deep drafts, tugs assistance is indispensable from light buoy no. 5 till light buoy no. 4 is passed.

Tug-boat assistance is handled by Port Administrator's tugs, consisting of 3 tugs, 2 of 800 h.p. each and 1 of 1,000 h.p.

BERTHING: Anchorage opposite Djamrud Utara, where ships can load and discharge by lighters.

Quays: Djembatan Djamrud Utara	Depths at LWS	5 metres offshore	42 dm.
Djembatan Djamrud Barat		,,	46 dm.
Djembatan Djamrud Selatan		,,	63 dm.
Djembatan Perak		,,	62 dm.
Djembatan Dok Utara		,,	62 dm.
Djembatan Dok Selatan		,,	62 dm.
Djembatan Mirah		,,	18 dm.
Djembatan Intan		,,	32 dm.
Djembatan Berlian Timur		,,	62 dm.
Djembatan Berlian Utara		,,	46 dm.
Djembatan Berlian Barat		,,	65 dm.
Djembatan Nilam		,,	63 dm.

Total berth length of above berths is 5459 metres.

Tanker Terminal:

Government Petroleum Pier	Depth alongside at LWS is	90 dm.
Semampir East	,,	120 dm.
Semampir West	,,	100 dm.

Coal Wharf: Situated at the Southern end of Tambatan Nilam, equipped with 1 transporter and 2 bunker barges with steam operated grippers, owned by P.N. Tunda Bara.

STEVEDORES: Working hours: Monday–Thursday 0700–1200; 1300–1500 hrs. Friday 0700–1100; 1300–1500 hrs. Saturday 0700–1200 hrs. Overtime: Monday–Friday 1500–1700 hrs. Sundays, holidays 0700–1200; 1300–1500 hrs. Night work allowed after permission from the Port Authority.

Speed for gang per hour: 15 tons for general cargo.

FRESH WATER: Supply is handled by the Harbour Board to the berths and by 2 water barges. Present capacity about 400 tons per day for the whole harbour. Priority is for Passengers vessels and application required 48 hours prior to ship's arrival.

FUEL: Fuel can be obtained via pipelines to all berths, capacity up to 300 tons/hour, coal see coal wharf.

REPAIRS: Dry-docking and all sorts of repairs are carried out by the State-owned P.N. Dock. There are floating docks, capable of lifting 15,500, 3,500 and 4,000 tons. There are several slipways for coasters.

Electronic Repair Shop: All sorts of electronic repairs such as radar, echo-sounder, etc., can be repaired by private contractors.

PORT SECURITY: Maintained by members of the Indonesian Armed Services, usually, police, Navy or Marine and Army. Crew members should be in possession of a shore pass issued by the Port Authority, accompanied by an identification card when leaving or entering the guarded gates of the Port Area. Shore passes can be obtained via the Agencies.

CUSTOMS: It is strictly prohibited to take undeclared foreign currency ashore. Crew members are not allowed to take more than Rp.50.– (fifty Rupiahs only) ashore. It is recommended that Masters consult the Agents about the local prevailing Customs Regulations with regard to currency, cigarettes, spirits, etc., to prevent unnecessary difficulties and eventually fines.

AUTHORITY: Port Administration, P.O. Box 103, Tandjong Perak.

11 Crew Lists.
Harbour Report (form to be supplied by the Agent).
Maritime Declaration.
Vaccination List.
2 Stores Lists.
2 Bonded Stores Lists.
2 Personal Effects Lists.

PILOTAGE: Agent requests Pilot upon arrival of vessel. 72 hours advance notice of ETA required. Pilot boards vessel in harbour area.

ANCHORAGES: ½–¾ mile opposite oil jetties.

MAX. SIZE:

	Dock no. 2	no. 4	no. 5
Length	800 ft.	650 ft.	650 ft.
Breadth	any	any	any
Draft	34 ft.	33 ft.	32 ft.

HEALTH: Health Officer will board vessel after berthing. No pratique granted, even for vessel after calling at another port in same country.

RADIO: Tandjung Uban Radio – call sign PKJ.

TUGS: No tugs available.

BERTHING: Agent arranges berthing vessel. Dimension of oil hoses used: 6 in. and 8 in. Very limited slop facilities, depending on available ullage.

MEDICAL: Very limited facilities. Only a clinic with experienced wound dresser available. Valid smallpox and cholera certificates for crew members required.

DENSITY: 1.0254.

FRESH WATER: Available ex-pipe-line – 5 tons/hour.

FUEL: Medium fuel oil, viscosity Redwood I, 600–900 seconds; heavy fuel oil, viscosity SSF, 30–40. Prior approval from PT Stanvac Indonesia, Djakarta, required for obtaining bunker fuels.

GANGWAY/DECK WATCHMEN: Port authority provides one safety guard during vessel's stay in port.

CUSTOMS ALLOWANCES: Reasonable quantity allowed to be used during vessel's stay in port.

IDENTIFICATION CARDS: Possession of a valid Seaman's Book sufficient.

REPATRIATION: No facilities available.

AIRPORT: Distance to airport, 60 miles. Served by Garuda Indonesian Airline 3 times a week (Mondays, Thursdays and Saturdays) to Djakarta only.

TIME: GMT plus 7 hours.

POLICE/AMBULANCE/FIRE: Police, tel. 55; Clinic, 37 and 58; Fire, 44 and 13.

TELEPHONES: Agents place telephone on board at no cost.

AUTHORITY: Penguasa Pelabuhan (Port Authority), tel. 53 (office) 57 (home).

TARAKAN: 03.20 N. 117.45 E.

DOCUMENTS: See Djakarta.

PILOTAGE: Compulsory pilotage consisting of sea and harbour pilots. Ships requiring pilot service should notify the harbourmaster at least 24 hours before arriving at outerbuoy. Tide: semi diurnal.

HEALTH: Vessels arriving from abroad direct in one of the 2nd Class Ports have to apply well in advance from the Department of Health (Quarantine Section) for a provisional free pratique, as said pratique has to be cabled to the port concerned. The provisional free pratique is only valid for the port concerned, the next port of call must be a First Class Port as no further provisional free pratique will be issued, unless the vessel sails directly abroad from the 2nd Class Port concerned.

RADIO: Call sign: PKO Class A1.

TUGS: Owned by Shell Oil; difficult to arrange for commercial purposes.

BERTHING: Anchorage: two.

Wharf no. 1 – Shell oil jetty; depth LWS 31 ft., length 442 m. not strong. For bunkering oil and water only.

Wharf no. 2 – Shell (commercial) jetty; depth LWS 13 ft., length 454 m.

STEVEDORES: Working hours: 7 hours on normal working days. Overtime can be arranged.

FRESH WATER: Available in very limited quantity. Maximum water supply to vessels per call: 25 tons drinking water, 150 tons boiler water.

FUEL: Only fuel oils and lubricants available. Capacity fuel oil bunkering up to 500 tons per hour.

GENERAL: Port doctor available.

Carrying a camera ashore or even on deck of a ship for photography is strictly prohibited.

PORT SECURITY: Maintained by members of the Indonesian

Armed Services, usually, police, Navy or Marine and Army. Crew members should be in possession of a shore pass issued by the Port Authority, accompanied by an identification card when leaving or entering the guarded gates of the Port Area. Shore passes can be obtained via the Agencies.

AGENT: P. N. Djakarta Lloyd, Tarakan Branch Office, Djl. Djendral Sudirman 1/16, Port Tarakan.

TEGAL, Java: 06.55 S. 109.10 E.

DOCUMENTS: Upon arrival, vessels have to produce the following Certificates and Documents, which will remain in the Harbour Master's custody until cleared:
Nationality (Registry) Certificates.
Seaworthiness Certificate.
Tonnage Certificate.
Deratisation (Exemption) Certificate.
International Loadline.
Safety Equipment Certificate.
Safety Constructions Certificate.
Safety Radio-telegraphy Certificate.
Vaccination List.
5 Crew Lists.
2 Stores Lists.
2 Crew Baggage's Declaration.
Last Port Clearance.
Health Book.
Custom Clearance and Custom Documents.
Cargo Manifest and Bills of Lading.
When vessels arrive direct from foreign port, Customs and Harbour Police officials board for search.
PILOTAGE: None.
ANCHORAGES: Tegal roads. Safe anchorages: Lat. 06° 49′ 00″ S. Long. 109° 08′ 07″ E. Lighthouse 210°. Distance 2·5 miles off.
RESTRICTIONS: No restriction night entry, but work is done next day (after 18.00 hours).
MAX. SIZE: Length and breadth no restriction. If draft above 25 ft. will be 2·5 or 3 miles off shore (anchorage on roads).
HEALTH: Maritime Declaration of Health needed from Master, if vessels coming direct from abroad. If vessel comes from other Indonesian ports, automatic free pratique.
RADIO: Coast-to-coast (radio station. Call sign Tegal Radio (fixed station) 8.AC.2. Wavelength 5316 kc/s., 8080 kc/s. VHF: None.
TUGS: Only used for towing lighters to vessels on the roads.
BERTHING: None. Anchorage only.
STEVEDORES: Ordered by Agent. If possible before arrival of vessel, some information mainly concerned with requirements of the Shipmaster advises Agents to arrange gangs and available space for Tegal cargo.
MEDICAL: Normally medical attention for crew to be arranged by Agent at order of Master.
FRESH WATER: Nil.
FUEL: Nil.
GANGWAY/DECK WATCHMEN: Services of watchmen if necessary to be ordered by Master.
OPENING/CLOSING HATCHES: Is carried out by crew – sometimes by stevedores.
CUSTOMS ALLOWANCES: Tobacco, wine and/or spirits not allowed to be taken ashore.
IDENTIFICATION CARDS: Necessary.
CONSULS: None available locally.
REPAIRS: None.
REPATRIATION: Agents arrange necessary repatriation of crew.
TIME: Indonesian Western Time = GMT plus 7 hours.
HOLIDAYS: Only Moslem holidays: Id el Fitr. For 2 days no cargo work can be arranged.
POLICE/AMBULANCE/FIRE: Accident, Police, tel. 10; First Aid for Ambulance (Texin Hospital), tel. 387; Fire Departments (Texin), tel. 17.
TELEPHONES: No facilities for placing telephones on board.
SHORE LEAVE: Crew members allowed ashore from 08.00 up to 21.00 hours every day. Not allowed to spend night on shore.
PORT REGULATIONS: Crew members not allowed to bring cameras, foreign money, on shore leave.
AUTHORITY: Sjahbander, Djl. Martadinata 4. Tegal.

AGENT: P.N. Djakarta Lloyd Tegal Branch Office. Office address: Djl. Laksamana R.E. Martadinata No. 5, Tegal, Indonesia. Telegraphic address: "Djakartalloyd Tegal". Telephone Office: Branch Director: Tegal 86. Terminal Manager: Utara 850. Shipping Manager: Tegal 539.

TELUK BAJUR: 02.10 N. 117.25 E.

DOCUMENTS: See "Djakarta".
PILOTAGE: Compulsory harbour pilotage. Ships have to wait for Pilot inside the roads limits, anchoring as near the breakwater as possible. Pilot is available each day from 05.00–18.00.
HEALTH: Vessels arriving from abroad direct have to apply well in advance from the Department of Health (Quarantine Section) for a provisional free pratique, as said pratique has to be cabled to the port. The provisional free pratique is only valid for the port and the next port of call must be a First Class Port as no further provisional free pratique will be issued, unless the vessel sails directly abroad.
TUGS: One tug-boat (SAMP 8) of 250 h.p. is stationed at Teluk Bajur, the use of which is compulsory for incoming and outgoing ocean-going ships.
BERTHING: A dynamite jetty amidst the breakwater inside the harbour (repairs in progress) No. VII, intended for vessels carrying explosive loads, such as petrol in bulk, etc. Only quay no. II is suitable for ocean-going vessels. Godown No. II-B was destroyed and hasn't been rebuilt yet. Total length of quay no. II is 326 m., with a minimum depth of 78 dm. LWS. Alongside the Harbourmaster's office, forming a right-angle with quay No. II is quay No. III with a length of 96 m. and a minimum of 89 dm LWS. Ships can also berth alongside the coal jetty on the NE side of the harbour, which has a length of 30 m. and a minimum depth of 66 dm LWS.
STEVEDORES: Working hours: 08.00–11.00/12.00; 13.00–16.00/17.00 (in normal times 18.00). Overtime till 21.00.
Gang's capacity: average 13 ton/hour.
FRESH WATER: Available at wharf, officially at a rate of 8 m_3 per hour, unlimited quantity during the wet season (September-April). During the dry season with a maximum of 150 m_3 and a capacity of 4–6 m_3 per hour. Water should be boiled or chemically treated before consumption.
FUEL: Coal not available. Fuel not available.
REPAIRS: Dry dock available for ships up to 150 tons. Machine-workshops for minor repairs available.
MEDICAL: Teluk Bajur has harbour clinic for emergency cases. Hospitals at Padang.
AUTHORITY: Department of Sea Communications.

TJILITJAP: 07.41 S. 109.05 E.

DOCUMENTS: Upon arrival vessels have to produce the following Certificates and Documents, which will remain in the Harbourmaster's custody until cleared:
Nationality (Registry) Certificate.
Seaworthiness Certificate.
Measurement (Tonnage) Certificate.
Deratization (Exemption) Certificate.
International Load Line Certificate.
Safety Certificate (passenger ships).
Safety Equipment Certificate (cargo ships).
Safety Radio and Radiotelephony Certificate (cargo ships).
Certificate of Approval (ship's radio station).
Health Book or Bill of Health.
Last Port Clearance.
Subscription of Light and Harbour Dues and wharfage if any.
Crew Lists and Passenger's Lists.
Ship's Articles.
Other certificates and documents as required.
Ship's Stores List.
RESTRICTIONS: Least depths at the bar and in the channel are 70 dm at LWS.
Current: semi-diurnal. By the influence of the Donan River, especially during the rainy season, is the duration of the outgoing current longer than that of the ingoing. In the rainy season the outgoing current can reach 5 knots.
PILOTAGE: Compulsory. The pilot station is in Tjilitjap. Outbound vessels, application for Pilots must be made 2 hours before departure, provided that ships sailing before 08.00, must apply before 18.00 of the preceding day. Ships arriving by night must hoist the pilot signals at daybreak. Pilot signals as in the International Code of Signals until the Pilot boards the vessel or till a central signal is made at the signal yard of the Coastal Light "Gunung Tjimiring", where Tjilitjap will be phoned about approaching ships. The Lighthousekeeper can make the following contra signals:
(*a*) The Indonesian Flag at the signal yard meaning the Pilot is coming out.
(*b*) One black ball over two black cones pointing upwards meaning wait for the next message.
(*c*) Double cones meaning no Pilot available permission granted to enter without.
(*d*) Black ball over a black cone pointing upwards meaning Pilot is not coming out, permission to enter without Pilot until you meet one.
Pilotage by night is not available except in very extraordinary cases. It takes the Pilot one hour from Tjilitjap to sea. If a ship can't enter on the same day 2 black cones pointing upwards will be shown with a black ball in between.
HEALTH: Vessels arriving from abroad direct have to apply well in advance from the Department of Health (Quarantine Section) for a provisional free pratique, as said pratique has to be cabled to the port concerned. The provisional free pratique is only valid for the port concerned, the next port of call must be a First Class Port as no further provisional free pratique will be issued, unless the vessel sails directly abroad.
TUGS: Not available.
BERTHING: Outer roads while waiting for the Pilot during the West monsoon a safe anchorage in 12 m. water. During the S.E. monsoon not a safe anchorage.
Inner roads, under all circumstances a safe Anchorage in 9 m. water in the vicinity of Nusa Kambangan opposite the quays for small crafts and East of Tg. Sodong. Vessels over 80 metres length have to moor due to limited swinging space, current and winds.
Berth length:
Berth I 120 metre depth alongside 70 dm at LWS.
Berth II 146 ,, ,,
Berth III 142,5 ,, ,,
Berth IV 130 ,, ,,
TANKERS: Shell Tanker Terminal: Petroleum jetty with dolphins where tankers of 85 metres length can berth.

STEVEDORES: Working hours Monday–Thursday 07.30–12.00 and 13.00–15.30 and Saturday. Overtime Friday 07.30–11.30 and 13.00–15.30; Sunday–holidays 07.30–12.00 and 13.00–15.30; Night shift 17.00–23.00. Gang's capacity: Loading manganese ore average 15 tons/hour; loading scrap iron average 6 tons/hour; loading copra cake average 10 tons/hour.
FRESH WATER: Water is supplied through pipelines to the wharves, capacity 7 tons/hour.
FUEL: Not available.
PORT SECURITY: Maintained by members of the Indonesian Armed Services, usually, police, Navy or Marine and Army. Crew members should be in possession of a shore pass issued by the Port Authority, accompanied by an identification card when leaving or entering the guarded gates of the Port Area. Shore passes can be obtained via the Agencies.
CUSTOMS: It is strictly prohibited to take undeclared foreign currency ashore. Crew members are not allowed to take more than Rp.50.– (fifty Rupiahs only) ashore. It is recommended that Masters consult the Agents about the local prevailing Customs Regulations with regard to currency, cigarettes, spirits, etc., to prevent unnecessary difficulties and eventually fines.
Ship's Inspection Team: Consisting of members of the Port Authority. This team will search the vessel, after the ship is cleared by the Port Medical Officer. Prior to mentioned search no Cargo handling is allowed. This Team will search the Store Rooms and Cargo Hatches, and subsequently seals the Bonded Stores and Radio Transmitter. Careful attention should be given in making up the Store Lists, as any difference found in the items declared and discovered during the search may lead to difficulties.
SHORE LEAVE: Leaving and entering the Custom's Area the crew is checked on the basis of the Crew's List and Identification cards and searched.
AGENT: See "Semarang."

TJIREBON: 06.41 S. 108.33 E.

DOCUMENTS:
Crew List.
Passenger List.
Customs Documents.
Manifest.
Bills of Lading.
Ship's Papers/Certificates.
Health Documents.
PILOTAGE: Not compulsory. Applications made through Agent or to Port Administrator via coast station Tjirebon radio.
ANCHORAGE: Boundaries of port area are coast line, meridian 108° 35′ 30″ E. and the parallels of 06° 42′ 15″ S. and 06° 43′ 41′ 40″ S.
A light buoy on the position of 06° 42′ 10″ S. and 108° 36′ 20″ E. is placed on the guidance line to the entrance of the harbour.
RESTRICTIONS: Tjirebon roads only accessible for ships of 8 m. max. draft, by taking the Tandkung Sanggarong light buoy at port hand. Only ships with 4 m. max. draft can enter Inner Harbour and moor alongside wharves.
All other ships anchor at outer roads. The harbour is open for 24 hours. For vessels entering the harbour, a signal is given from signal station.
HEALTH: Usual international procedures.
TUGS: Tug services available. Order through Agents.
RADIO: Call sign PKZ2. Working freq. 6491·5 kc/s. and 8799·5 kc/s., watching freq. 6265–6285 kc/s. and 8204–8249 kc/s. Working time 0030–0130 and 0600–0700 GMT.
STEVEDORES: Arranged by Agent.
MEDICAL: Normal hospital facilities available. Agent will arrange for medical attention. Advance notice required.
TANKERS: Berthing for only 300 dwt. tankers at special oil jetty.
DENSITY: 1.025.
FRESH WATER: Delivered by water lighter. One delivery 75 tons, discharged within 6 hours. For quick delivery 2 days advance notice to Agents required.
FUEL: None available.
DEVELOPMENTS: Surveys being made for extension and development of port with 10 m. deep basins, container facilities and a 10 m. deep channel for accommodation of 10,000 dwt. ships and future shipping.
GANGWAY/DECK WATCHMEN: Recommended. Arrange with Agent.
OPENING/CLOSING HATCHES: Usually done by stevedores. Appreciated if done by crew.
CERTIFICATES: Port clearance last port of call. Certificates as required by vessel's country of registry and by SOLAS 1960.
CUSTOMS ALLOWANCES: 200 cigarettes per person. Wine/spirits: One bottle per person. Bottle opened.
IDENTIFICATION CARDS: Preferably passports, seamens ID cards (issued by maritime authorities; vessel's country).
CONSULS: At Djakarta, 280 kilometres from Tjirebon.
REPAIRS: Light repairs only by local dockyard.
DRY DOCK: Graving dock of 600 dwt. capacity.
REPATRIATION: Can be arranged by Agents.
AIRPORT: Kemajoran International Airport 257 km. from Tjirebon. Domestic Airport 40 km. from Tjirebon.
TIME: Local time (Western Indonesia Time) is GMT plus 8 hrs.
HOLIDAYS: New Year (1st January); Ascension of Christ (15th May); Santa Maria (15th August); Independence Day (17th August); Maulud, Mir'adj and Idul Firti determined by Moslem calendar and differ from year to year by International calendar. For definite dates consult Port Administrator. Cargo work on Idul Fitri (2 days) not guaranteed due to labour shortage.
POLICE/AMBULANCE/FIRE: Harbour Police 3897; City Police 4466; Ambulance 118; Fire brigade 113.
SHORE LEAVE: Allowed after satisfactory fulfilment of immigration requirements and in possession of crew's Harbour Card.
DELAYS: Bad weather (mostly rain).
AUTHORITY: Port Administrator. Residence: Djl. Kesambu–52, Tjirebon, Phone: 2890, 2087 and 3733. Office: Djl. Pernigaan 4–6, Tjirebon. Phone: 4241 and 3688.
AGENT: P. N. Djakarta Lloyd, Djl. Pasuketan No. 5, PO Box 44, Port Tjirebon.

Iran

ABADAN: 30.20 N. 48.16 E.

Port of Abadan situated on right bank of the Shatt, about forty miles up river from Rooka Buoy.
OPERATORS: Iranian Oil Refinery Co.
DOCUMENTS/PILOTAGE: See "Khorramshahr".
ANCHORAGES: On arrival of pilot boat vessel can anchor with no depth restriction. On entering the Shatt-el-Arab River the following are the recognized anchorages: Kasba Anchorage position about 2 miles above Fao with a maximum depth of 35 ft. in fresh water. Bawarda Anchorage position about 2 miles above Abadan with a maximum depth of 31 ft. in fresh water. Vessels which are too deep to pass out of the river on one tide will be required to anchor at Kasba.
RESTRICTIONS: The port is open for day and night navigation with arrivals and sailings being controlled by the tide. Vessels normally enter the river at two hours after high water at the bar, and leave Abadan, for sea, from six to four hours before high water at the bar.
MAX. SIZE: Max. draft at jetties 29 ft. fresh. Max. length 600 ft.
HEALTH: Inward clearance is affected on board after receiving free pratique. Also see "Khorramshahr" – "Documents".
RADIO: The Iranian Oil Operating Companies Coastal Radio Station call sign EQZ. The station listens for various calls on the normal International Marine Calling frequencies. When close to may be contacted on 500 kHz transferring to 428 kHz for exchange of traffic. Traffic list sent at 5 minutes past odd hours.
TUGS: Not available.
BERTHING: While no changes have actually occurred in the production capacity of the Abadan Refinery, the number of jetties on the Abadan riverside have been reduced to six. Nos. 3, 4, 7, 9, 11, and 26 have been maintained and are used for bunkering purposes and dry cargo operations.
Ships pass day and night so it is necessary that mooring lines be kept taut at all times to prevent surging on the jetties thereby breaking lines and causing damage to Company property.
MEDICAL: Emergency cases: an ambulance will be dispatched on demand by calling telephone number 5555.
In ordinary cases of sickness or dental treatment: Agents will arrange transportation of patients, and advise Masters regarding necessary medical attention forms. If patient does not speak English he should be accompanied by an interpreter. Only in exceptional cases will a medical officer visit a patient on board.
TANKERS: Deliveries of the refined oil products of Abadan Refinery are effected to ocean-going tankers at Bandar Mahshahr since the inauguration of the products terminal of the Iranian Oil Refining Company at that port, therefore such shipments are not taking place from Abadan any more.
DENSITY: Fresh.
FRESH WATER: Available at all jetties.
FUEL: Ships' bunkers are available; however not all types are available at all jetties, therefore, ships' Master should advise by radio the exact quantity and kind of bunkers required. Bunkers are delivered concurrent with loading unless otherwise requested by Master. Due to heavy bunkering commitments it is mandatory that vessels take their bunkers when convenient for the terminal, any delay incurred by a vessel taking bunkers after loading is the responsibility of the Master.
GENERAL: All other items, see "Khorramshahr."
AUTHORITY: Iranian Oil Refining Co. Abadan.
AGENT: See "Khorramshahr."

BANDAR ABBAS: 27.15 N. 56.19 E.

DOCUMENTS:
Quarantine officer
Crew List (1 copy, also all crew vaccination cards for inspection).
Customs Officer
Crew List (2 copies).
Stores List (2 copies).
Port Authority
Crew List (1 copy).
Agents
Crew List (2 copies).
Order avoid any delay in entering and discharging, the following documents must be sent by all loading port Agents to Bandar Abbas. Agents as far in advance of vessel's arrival as possible:
Cargo Manifest (6 copies).
Freight Manifest (2 copies).
B/L Copies (2 copies each).

All cargo shown on Manifest must be landed at the port, and it is therefore essential that short-shipments, cancellations, diversions, etc. (if any) be reported earliest possible and manifest should be corrected before submission to Port Authorities to avoid payment of fines. Stowage plans and hatch lists should also be sent ahead, giving ample time to be studied by Cargo Supervisor for unloading arrangements.

PILOTAGE: Application for Pilot to be made well in advance through Bandar Abbas Port Radio EQI. Agents may also arrange Pilotage but should be advised of ETA well in advance.

ANCHORAGE: Approx. position 27° 04′ N. 56° 04′ E. Depth 36 ft.

RESTRICTIONS: Entry or departure day or night. Depth of water alongside jetty, minimum 34 ft. and depth in channel approx 32 ft. at LW. Height of tide at HW about 3 metres.

MAX. SIZE: For berthing alongside, max. length 570 ft., draft 30 ft.

RADIO: Bandar Abbas Port Radio EQI – 500 kc/s.

Port telecommunications working from 0600 hrs to 2400 hrs every day.

VHF: Channels 13, 16, 18 and 25. HF call-sign EQI available. Also see "Radio".

TUGS: Two tugs 550 h.p. each, for harbour services, as well as for towage, in case of necessity.

BERTHING: Vessel can be berthed and unberthed during darkness at the rate of Rls 4000.00 being paid as overtime to pilots and tug workers.

Quay of 1,050 metres length and 35 metres wide, for accommodating six vessels each of 175 metres L.O.A. Two transit warehouses with capacity of 4,000 square metres each, and one general cargo warehouse of 6,000 square metres.

Ore handling installation. The ore is loaded by conveyor belt and the average daily loading rate is 1500 tons per day running from 0630 hrs to 2200 hrs daily.

One floating crane with lifting capacity of 60 tons, as well as two mobile cranes of 25 ton and 7 ton capacity. 23 fork-lift and pallets, 2 and 3 ton capacity. Six tractors of 10 ton capacity. 30 trailers, 2·5, 5 and 10 ton capacity. 500 pallets. 50 of hand carts.

Grain discharged at rate of 700 to 800 tons per day. No silos.

STEVEDORES: No organised stevedoring company, and the cargo is discharged and loaded by ordinary labourers engaged by vessels, Agents on shift basis.

MEDICAL: 24 hours notice of medical requirements to be passed to agents. Doctor available for vaccinations and inoculations.

FRESH WATER: Available at berths ex-pipelines.

FUEL: Available. Bunker stems should be arranged through National Iranian Oil Co. Tehran. Cables "Naftmellie" Tehran.

CUSTOMS: Customs Officer will seal the store-room. All liquor and cigarette stocks will be placed under bond and reasonable ship's requirements should be taken from store before sealing.

IDENTIFICATION CARDS: According to regulations in force seamen should hold shore pass issued by respective Agents and signed by the Port Health, Port Police and local town Police Authorities. All shore passes should bear a photo of the holder, in order to facilitate checking at exit of port area. It is therefore necessary for Officers and crew to have a photo ready on arrival at the port to facilitate obtaining shore passes.

CONSULS: None.

REPAIRS: Minor repairs available at private workshops.

AIRPORT: About 15 km. distant. Local domestic flights only at present.

TIME: GMT plus 3½ hours.

TELEPHONES: May be placed on board.

SERVICES: Survey, repairs, crew changes at sea or launch service to vessels off the port can be arranged by BASCO Limited. Contact through Agent.

SHORE LEAVE: Provided Security Dept. approves, crew allowed to go ashore by surrendering their seamen's books to port police guard.

AUTHORITY: Port Director.

AGENT: See "Khorramshahr".

BANDAR MAHSHAHR: 30.27 N. 49.20 E.

Refined Products Loading Terminal of the Iranian Oil Refining Company.

Iranian Flag: All vessels required fly Iranian flag from foremast during daylight hours, while in port.

DOCUMENTS:

8 Crew Lists.
2 Bonded Store Lists.
International Health Form.
If cargo aboard, Manifest certified by Iranian Consulate.
Clearance from Last Port.

GENERAL: Khor Musa is deep tidal inlet at head of Gulf. Consists of triangular-shaped entrance 35 miles wide and 22 miles long followed by a channel, approximately 14 miles long with average width about 1,000 ft., ending at Port of Bandar Mahshahr. Khor Musa is entered by deep water approach channel 25 miles long and 0·8 miles wide, commencing at Khor Musa light float, located in position 29° 36′ 32″ N. 49° 34′ 47″ E. At end of approaches channel, near buoy no. 12, restricted depths and channel widths extend for distance of 8 miles, in vicinity of Khor Musa Bar. A deep water channel then exists up to commercial port of Bandar Shahpour, and to oil port of Bandar Mahshahr, a total distance of 37 miles from end of Bar Channel. Refined products delivered to Bandar Mahshahr Terminal from Oil Company's Refinery at Abadan.

TERRITORIAL WATERS: The 12 mile limit of Iranian territorial waters crosses approaches channel in vicinity of Khor Musa Approaches Buoy no. 8, which is approximately 20 miles from Khor Musa light float.

KHOR MUSA APPROACHES:

Navigational Dangers. Numerous shoals and sand banks in Khor Musa with low-lying shore lines and few conspicuous marks. However, shipping channels well marked with light beacons and buoys and present no navigational difficulties in clear weather. A small unlit tide gauge platform located on edge of shoal West of shipping channel in 29° 42′ 30″ N., 49° 03′ 48″ E., approximately 1·75 miles West of Khor Musa Approaches Buoy no. 4, and shown on Admiralty Chart.

Outer Khor Musa Channel. Approaching vessels should steer for Khor Musa light float, in position 29° 36′ 32″ N., 49° 34′ 47″ E., and from there a course should be set along marked channel for buoy no. 12 in position 29° 56′ 03″ N., 49° 06′ 47″ E., bearing 308° 45′ from Khor Musa light float.

Note: Buoys South of and including buoy no. 12 above are referred to as Khor Musa Approaches Buoys. Buoys North of no. 12 above are referred to as Inner Khor Musa Buoys.

PILOTAGE: Compulsory. Service operated by Bandar Shahpour Port Authorities up to Bandar Shahpour, and by Oil Company between Bandar Shahpour and Bandar Mahshahr. Pilot vessel maintains station approximately 1 mile, 135° from Khor Musa Approaches buoy no. 12. Vessels requiring Pilot should approach within 2·5 cables of pilot vessel. During adverse weather conditions Pilot may proceed above bar for shelter; in such cases vessels should not attempt to proceed inward without Pilot. Essential that ETA Bandar Shahpour is transmitted to Coastal Radio Station EQZ as soon as possible after Pilot has embarked at pilot station. If for any reason a vessel is required to wait at any time at Bandar Shahpour, it will be advised through EQZ. Marine Operation Section, Bandar Mahshahr Terminal, on receipt of ETA Bandar Shahpour, will arrange for Berthing Master to board vessel at Bandar Shahpour anchorage and allocate jetty berth at Bandar Mahshahr.

BANDAR MAHSHAHR APPROACHES:

Navigational Dangers. Khor Musa channel well marked with buoys and beacons, but attention is drawn to following:

(*a*) *Outer Khor Musa Bar.* 29° 59′ N., 49° 04′ E. and inner Khor Musa bar 30° 02′ N., 49° 01′ E., where restricted channel widths and depths exist and minimum depth 30 ft. Buoyed channel over bar is 600 ft. wide, but declared minimum depth of 30 ft. only applicable to central half of channel. Towards edges of channel, shallower depths exist.

(*b*) *Qassar bin Siswan.* A rocky shoal, in 30° 12′ N., 48° 58′ E. approximately 10 miles North of inner Khor Musa bar, marked by buoy no. 9 with minimum depth 6 ft.

(*c*) *Khor Wastah to Beacon* 18. Near sharp bend to East in channel, where tidal streams reach rate of over 4 knots at ebb.

Khor Musa Bar. Reached approximately 5 miles North-west from pilot vessel, and normally does not restrict passage of inward vessels.

Khor Musa Channel. After leaving bar, channel is followed up Khor Musa for about 32 miles to anchorage at Government Bandar Shahpour.

Bandar Shahpour. All inward bound ships required to anchor on arrival off Bandar Shahpour, where Pilot disembarks and a Government Medical Officer comes on board to grant pratique. For this purpose an accommodation ladder should be rigged and ready before arrival.

Bandar Mahshahr Roadstead. Shortly after leaving Bandar Shahpour, channel to Bandar Mahshahr entered between two beacons: port hand, no. 2, flashing red and starboard hand, no. 1, flashing white. Channel well marked by light beacons to entrance of Bandar Mahshahr, at beacon no. 4. All port hand lights flash red and all starboard hand lights flash white. Distance from Bandar Shahpour Anchorage to Bandar Mahshahr about 7 miles. Before arriving at Bandar Mahshahr, the accommodation ladder must be taken in and the ship's side cleared for tugs and berthing.

ANCHORAGE: No anchorages in Bandar Mahshahr or Bandar Mahshahr roadstead. Inward bound vessels must anchor on Northern side of Khor Musa channel, West of Bandar Shahpour, and await arrival of Oil Company Berthing Master.

WIND AND TIDE:

Khor Musa Bar. Classified as Standard Port in Admiralty Tide Tables, Volume II. Tidal predictions considerably affected by strong winds. Variations up to 3 hours in time, and 3·5 ft. in height have been recorded. North-westerly winds tend to lower level and retard predicted times of high and low waters; South-easterly winds have opposite effect. At Khor Musa bar, Mean Higher High Water has rise of 11·6 ft. and Mean Lower High Water has rise of 9·6 f.. above chart datum. Rise of tide at bar is also given by automatic tide indicator established near inner Khor Musa buoy no. 8. Masters may obtain expected depth of water on Khor Musa bar at any time by telephone to Marine Operations Office, Mahshahr, 4264.

Khor Musa. Tidal range increases between bar and Mahshahr. Maximum tidal velocities in Khor Musa about 3·5 knots on flood and 4·5 knots on ebb, at bend near inner Khor Musa beacon no. 18.

At Ports of Shahpur and Mahshahr. Average time high water is 1 hour 35 minutes later, and low water 16 minutes later than on Bar. Mean High High water has rise of 17·0 ft., and Mean Lower High Water rise of 14·6 ft. above Mahshahr chart datum.

Mahshahr Terminal. North-west prevailing winds blow across jetties, from shore. On average, 60% of prevailing winds from North-west, 30% from South-east, and 10% variable. North-west and South-east winds frequently reach Force 8, but winds from other directions normally do not exceed Force 4. Maximum tidal range 18·9 ft. At springs, flood tide has velocity of 2 knots and ebb tide velocity 3 knots.

MAX. SIZE: Maximum LOA 780 ft. Maximum permissible draft at Khor Musa Bar is 40 ft. Depths in tanker berths vary from 37 ft. at berth no. 4 up to 43·5 ft. at berth no. 6.

HEALTH: Owners should check with Agent respecting any recent imposition of anti-epidemic regulations and requirements for additional injections for crew members. Medical officer boards at Shahpur Anchorage. Subject no infectious diseases reported on board during voyage, Medical Officer will grant pratique.

RADIO: Oil company has coastal radio station near Abadan, call sign EQZ. Station handles messages to and from oil ports of Mahshahr, Abadan, Kharg Island and Cyrus Terminal.

Nomination and Loading Orders: Signalled by Iranmash on receipt of vessel's first ETA. Vessels should signal tentative ETA Khor Musa Bar, 72 hrs. in advance, confirming ETA not less than 48 hrs. before arrival Khor Musa pilot vessel station.

Radio Watches: Continuous watch on 500 kHz to be maintained at all times while navigating Khor Musa waterway, and ordinary listening watches maintained when at anchor.

VHF: Mahshahr Terminal equipped with International Maritime VHF/FM Radio Telephone Service, using standard international frequencies. Masters recommended use this facility when within range of Mahshahr Terminal. Channels available on continuous watch basis:

No. 16 Safety and Calling.
No. 12 Port use, tankers and tugs.
No. 20 Port use, telephone extension.
No. 26 Port use, telephone extension.

Initial contact should be made on Channel 16 and then transfer to Channel 12 for port operations, or Channel 20 or 26 for telephone extension.

TUGS: Three tugs at terminal, all of 1,500 b.h.p., all fully equipped for fire fighting. Incoming ships are met by tugs in channel about 1 mile below port limits. Two tugs always used berthing, and one or two unberthing, according to state of tide and direction of ship's head. Vessels take tug's ropes.

BERTHING: Vessels arriving on flood tide berthed starboard side to jetty, vessels arriving on ebb tide berth port side to jetty. Six bulk loading jetties, each fitted with Woodfield loading unit. 10-in. loading arms, 6-in. bunker arms. Minimum number mooring ropes or wires required is 14, as follows: (Forward) – 4 head ropes, 2 breast ropes, 1 back spring. (Aft) – 4 stern ropes, 2 breast ropes, 1 back spring. For additional security one extra breast line forward and aft should be used. Unless breasts of adequate strength are used, there is every possibility of vessel when in light condition being blown off jetty by North-west wind and damaging loading equipment.

Maximum loading rates are:

Liquid propane/butane	1,500	tons	per hour
Aviation gasolines	1,000	,,	,,
White spirits (solvent)	450	,,	,,
Motor gasolines	2,000	,,	,,
Naphthas	2,000	,,	,,
Turbine fuels	2,000	,,	,,
Kerosines	1,500	,,	,,
Gas oils	2,000	,,	,,
Marine diesels	1,250	,,	,,
Fuel oils	5,000	,,	,,

LPG LOADING: Propane and butane gas is loaded at No. 6 jetty at a rate of 1,500 tons per hour. Propane and butane cannot be loaded simultaneously.

As 16-in. fixed Chicksan liquid and vapour return arms are used for loading, certain ships are limited to one-side berthing only. To avoid delay of vessels, it is advisable to have vapour return connections on both sides of liquid connection on board.

Terminal has available a series of ASA Standard reducers and adapters.

Loading temperature of propane is about minus 48° F., and butane is about minus 23° F.

BALLAST: Tankers may discharge ballast ashore at Jetties no. 1, 2, 5 and 6. Ballast received at rate of 2,000 tons per hour. Slops and residues at rate of 200 tons per hour.

MEDICAL: No medical facilities at terminal. Agents may arrange medical attention through Oil Company clinic in Abadan. In event hospital treatment required, patient would be taken Abadan.

FRESH WATER: Limited supply potable water available all jetties, but supply very limited during months June to October.

FUEL: Fuel and diesel oil available each jetty. 10-in. loading arms connected to 6-in. flexible hoses. Loading rates, fuel max. 1,000 tons/hour, diesel max. 500 tons/hour. 48 hours notice required.

FIRE PRECAUTIONS: On arrival Shahpur Anchorage Master is given six copies of Fire and Safety Regulations. Fire Station and Emergency tel. 4111.

CUSTOMS ALLOWANCES: Reasonable quantity spirits and tobacco for consumption in port may be issued prior sealing store rooms. Strict supervision imposed by Customs and prohibited items, particularly tobacco and cigarettes, should not be taken ashore in excess of 50 cigarettes, or cigars, or 1 oz. tobacco.

CONSULS: Consulates situated in Khorramshahr.

REPAIRS: No repair facilities at Mahshahr or Shahpur. In emergency, the Oil Company may be able to undertake minor repairs. No main engine repairs whilst alongside loading jetties without permission from Terminal Superintendent.

TIME: GMT plus 3·5 hours.

TELEPHONES: Available at each jetty. If requested, telephone may be placed aboard.

SHORE LEAVE: Restricted to foreshore area only. Recreation centre opposite No. 2 jetty.

CURRENCY: The unit of currency is the Iranian rial. It is illegal to use any other than Iranian currency ashore and heavy fines have been imposed for infringement of this regulation. Masters are requested to bring this matter to the individual notice of their officers and crew. Currency denominations are:

Notes: 5,000, 1,000, 500, 200, 100, 50, 20 rials.
Coins: 10, 5, 2, 1 and ½ rials.

AUTHORITY: Iranian Oil Refining Co. Bandar Mahshahr.

AGENT: Gulf Agency Co. (Iran) Ltd., Bandar Mahshahr. Cables "Confidence". Iranian Head-office: Gulf Agency Co. (Iran) Ltd., POB 110, Khorramshahr, Iran. Tel. 2280, 4755; Cables "Confidence", Khorramshahr. Telex: 4033 (answer back: "Confidence Kor").

Due difficulty reaching Khorramshahr with international telex messages, communicate via Tehran office, telex No. 2507 Tehran, (answer back: "Confidence" Tehran), stating "For Khorramshahr".

Ships' mail and spare parts for vessels calling at Bandar Mahshahr to be routed by flights arriving directly to Abadan Airport without transshipment at Tehran, and addressed to: Gulf Agency Co. (Iran) Ltd., POB 62, Abadan, Iran.

Cables from vessels should be sent via Khorramshahr Port Radio to "Confidence", Khorramshahr, as well as to "Confidence" Bandar Mahshahr.

BANDAR SHAHPOUR: 30.27 N. 49.05 E.

DOCUMENTS:

Quarantine Officer
Crew List (1 copy, also all crew vaccination cards for inspection).
Customs officer
Crew List (2 copies).
Stores List (2 copies).
Port Authority
Crew List (1 copy).
Agents
Crew List (2 copies).

Order avoid any delay in entering and discharging, the following documents must be sent by all loading port Agents to Bandar Shahpour Agents as far in advance of vessel's arrival as possible:

Cargo Manifest (6 copies).
Freight Manifest (2 copies).
B/L Copies (2 copies).

All cargo shown on manifest must be landed at the port, and it is therefore essential that short-shipments, cancellations, diversions, etc. (if any) be reported earliest possible and manifest should be corrected before submission to Port Authorities to avoid payment of fines. Stowage plans and hatch lists should also be sent ahead, giving ample time to be studied by Cargo Supervisor for unloading arrangements.

PILOTAGE: Application for Pilot to be made well in advance through Bandar Shahpour Port Radio – EQN – 500 kc/s. If Agents required to arrange Pilot they should be informed well in advance.

Pilotage operated by Shahpour Authorities up to Shahpour. Pilot vessel approximately one mile, 135° from Khor Musa approaches Buoy No. 12. Approach within 2·5 cables of Pilot vessel. During adverse weather pilot vessel may proceed above Bar, in such cases, do not attempt proceed inward without Pilot.

APPROACHES: Shipping channels well marked with lightbeacons and buoys and present no navigational difficulties in clear weather.

Small unlit tide gauge platform located on edge of the shoal West of shipping channel in lat. 29° 42′ 30″ N., long 49° 03′ 48″ E., approximately 1,75 miles West of Khor Musa Approaches Buoy No. 4, and shown on Admiralty Chart.

Approaching vessels should steer for Khor Musa light float, in position lat. 29° 36′ 32″ N., long 49° 34′ 47″ E., and from there a course should be set along marked channel for Buoy No. 12 in position lat. 29° 56′ 03″ N., long. 49° 06′ 47″ E., bearing 308° 45′ from Khor Musa light float.

MAX. SIZE: Vessels of 29 ft. draft may enter port at any time. Higher drafts depending on state of tide. Normal rise of tide about 11 ft. Entry permitted day or night.

HEALTH: Medical Officer boards at Shahpour. Subject no infectious diseases reported on board during voyage, Medical Officer will grant pratique.

RADIO: Bandar Shahpour Port Radio EQN 500 kc/s.

Continuous watch on 500 kc/s. is to be maintained at all times while navigating in Khor Musa Waterway,

VHF: Channels 13, 16, 18 and 25. Twenty four hours service.

TUGS: Normally not required, but available if necessary due to bad weather.

BERTHING: Berth No. 1 – 31 ft. depth alongside
Berth No. 2 – 29 ft. depth alongside
Berth No. 3 – 29 ft. depth alongside
Berth No. 4 – 33 ft. depth alongside
Berth No. 5 – 34 ft. depth alongside
Berth No. 6 – 34 ft. depth alongside.

BULK HANDLING FACILITIES: Iron Ore Installation, loading capacity about 2,000 tons per day. The loading installation consists of two powerful moving cranes with a capacity of 100 tons per hour on each unit, two funnel-shaped containers with a capacity of 30 tons each and a 600-metre-long conveyor belt with a capacity of 175 tons per hour.

Sulphur: The shiploader travels the length of the vessel and has a loading rate of 400 tons per hour.

All derricks to be swung away from the shore giving the loader maximum clearance. Radio aerials, and fore and back stays to be removed.

Due to high temperatures, every precaution must be taken to combat risk of fire.

Grain: All berths are available for grain discharge. Grain is bagged in holds and discharged in slings using ship's gear. At only one berth is discharge possible by vacuvators. All discharges into railway wagons and/or trucks supplied by receivers.

All vessels discharging general cargo or grain should be prepared to handle discharge with own gear.

MEDICAL: 24 hours advance notice of requirements to be sent to Agent.

FRESH WATER: There is water supply on every jetty, and Masters are requested to inform their Agents 24 hours in advance of their requirements, allowing Agents to pay for the water and take turn for supplying water to the vessel.

Fresh water can also be arranged at anchorage by barge, and Agents will need 48 hours advance notice in order to obtain barge. Agents will have the barge loaded with water from jetty and deliver to anchorage.

As there is only one barge available, when this is out of commission, Agents cannot provide water at the anchorage, and vessels have to wait until they are docked alongside.

FUEL: Not available. In case of absolute need can be arranged at Bandar Mahshahr but jetty fees extremely high.

HATCHES: Opening and closing by ship's crew.

CUSTOMS ALLOWANCES: Reasonable quantity spirits and tobacco for consumption in port may be issued prior sealing store rooms. Strict supervision imposed by Customs and prohibited items, particularly tobacco and cigarettes, should not be taken ashore in excess of 50 cigarettes, or cigars, or 1 oz. tobacco.

IDENTIFICATION CARDS: According to regulations in force seamen should hold shore pass issued by respective Agents and signed by the Port Health, Port Police and local town Police Authorities. All shore passes should bear a photo of the holder, in order to facilitate checking at exit of port area. It is therefore necessary for officers and crew to have a photo ready on arrival at the port to facilitate obtaining shore passes.

CONSULS: See "Khorramshahr."

REPAIRS: Radio and radar repairs can be arranged from Khorramshahr. At B. Shahpour minor technical and mechanical repairs possible by private workshops. Repair shop and slip of 1,500 tons capacity in process of construction.

AIRPORT: Distant 110 km. Regular flights.

TIME: GMT plus 3½ hours.

AUTHORITY: Port Director.

AGENT: See "Khorramshahr."

BUSHIRE: 29.00 N. 50.45 E.

DOCUMENTS:

Quarantine Officer

Crew List (1 copy, also all crew vaccination cards for inspection).

Customs Officer

Crew List (2 copies).

Stores List (2 copies).

Port Authority

Crew List (1 copy).

Agents

Crew List (2 copies).

Order avoid any delay in entering and discharging, the following documents must be sent by all loading port Agents to Bushire Agents as far in advance of vessel's arrival as possible:

Cargo Manifest (6 copies).

Freight Manifest (2 copies).

B/L Copies (2 copies each).

All cargo shown on manifest must be landed at the port, and it is therefore essential that short-shipments, cancellations, diversions, etc. (if any) be reported earliest possible and manifest should be corrected before submission to Port Authorities to avoid payment of fines. Stowage plans and hatch lists should also be sent ahead, giving ample time to be studied by Cargo Supervisor for unloading arrangements.

PILOTAGE: Application for Pilot to be made well in advance through Bushire Port Radio EQM, 500 kc/s. Agents may also arrange pilotage but should be advised of ETA well in advance.

ANCHORAGE: In outer port in (approx.) position 28° 58′ 30″ N. 50° 44′ 50″ E.

RESTRICTIONS: Entry and departure day or night. Depth in inner channel 16 ft. LLW.

MAX. SIZE: Draft not to exceed 16 ft. to enter channel for berthing.

RADIO: Bushire Port Radio EQM, 500 kc/s.

VHF: VHF radio, operating on International VHF Marine Channels 13, 16 and 25. MF call sign EQM available at following zone times: 0500 to 0800 and 1200 to 1500.

TUGS: Normally not used. In event of bad weather tug will assist berthing.

BERTHING: Jetty 360 m. long, depth alongside 27 ft.

MEDICAL: 24 hours advance notice of medical requirements to be passed to Agents. Doctor available for vaccinations and inoculations.

FRESH WATER: Available at berths ex-pipeline.

FUEL: Not available.

DEVELOPMENTS: Channel widening and dredging in progress to facilitate entry of larger vessels.

HATCHES: To be opened and closed by ships crew.

CUSTOMS: Customs Officer will seal the store room. All liquor and cigarette stocks will be placed under bond and reasonable ship's requirements should be taken from store before sealing.

CARGO GEAR: Discharge by ship's gear. Heavy-lift crane capacity 15 tons available. There are also some private cranes available, but these cranes are stationed in Bushire for limited periods only. The lifting capacity of these cranes varies from 35 to 100 tons.

IDENTIFICATION CARDS: According to regulations in force seamen should hold shore pass issued by respective Agents and signed by the Port Health, Port Police and local town Police authorities. All shore passes should bear a photograph of the holder, in order to facilitate checking at exit of port area. It is therefore necessary for officers and crew to have a photograph ready on arrival at the port to facilitate obtaining shore passes.

CONSULS: None.

REPAIRS: Minor repairs possible by local workshops.

AIRPORT: 7 km. from port. Regular flights.

TIME: GMT plus 3½ hours.

TELEPHONES: May be connected on board.

SHORE LEAVE: Permitted.

DELAYS: Occasional delays awaiting berth turn.

AUTHORITY: Port Director.

AGENT: See "Khorramshahr."

CYRUS TERMINAL: 29.01 N. 48.29 E.

Oil loading terminal of the Iran Pan American Oil Company.

LOCATION: Open, unsheltered submarine export mooring, Lat. 29° 01′ 27″ N. Long. 49° 28′ 51″ E. Storage vessel (S.S. "Pazargad"). Lat. 29° 01′ 57″ N. Long. 49° 29′ 30″ E.

APPROACHES:

Obstructions. In addition to submarine export mooring and storage vessel "Pazargad", various oil wells and production structures located in immediate vicinity, which constitute hazard to navigation, as follows:

	Lat.	*Long.*
Well C–2A and the Production Stations	29° 03′ 07″ N.	49° 29′ 57″ E.
C–3	29° 02′ 38·7″ N.	49° 27′ 23·1 ″ E.
C–4	29° 00′ 15″ N.	49° 32′ 00″ E.
C–5	29° 02′ 52″ N.	49° 31′ 34″ E.
C–6	29° 03′ 57″ N.	49° 29′ 57″ E.
C–7	29° 03′ 31·2″ N.	49° 29′ 05·6″ E.
C–8	29° 03′ 31·2″ N.	49° 30′ 48″ E.
C–9	29° 02′ 15″ N.	49° 29′ 57″ E.
C–10	29° 03′ 33″ N.	49° 27′ 22·5″ E.
C–11	29° 04′ 51″ N.	49° 26′ 31″ E.
C–12	29° 03′ 33″ N.	49° 23′ 56·5″ E.
C–13	29° 02′ 41″ N.	49° 25′ 39·5″ E.

Safest and most desirable direction of approach to Cyrus Terminal is from South-east. Due to numerous obstructions noted above any approach should be made with extreme caution.

Navigation Aids. All structures located within Cyrus Terminal area display interrupted quick flashing white lights and sound a fog horn. The storage tanker "Pazargad" displays, as required, those day and night signals as prescribed by articles 4 (b) and 11 (c) of International Rules. The six mooring buoys for the Cyrus Terminal are not lighted.

DOCUMENTS:

Bill of Health.

Health Declaration (International Health Form to be filled out by Master on arrival).

Manifest (if with cargo certified by Iranian Consulate. If vessel is in ballast, no legalisation dues).

Clearance (from last port).

Register.

5 Crew Lists.

Passenger Manifest (if any passengers are on board).

5 Store Lists.

Bonded Store List.

PILOTAGE: Vessels will be boarded by Mooring Master of IPAC within 2 miles, approximately 180 degrees true from "Pazargad". Mooring Master will advise Master on approaches to berth, mooring and unmooring, connecting and disconnecting submarine hose and all other operations within berthing area. All manoeuvring within loading berth area shall be done only in accordance with advice of an IPAC Mooring Master, subject to understanding that Master shall remain solely responsible for safety and proper manoeuvring. Master or qualified deck officer must be on bridge at all times while ship manoeuvring.

Vessels requested to have pilot ladder safely and securely rigged, ready for immediate use, and long enough to reach Mooring Master's launch. If at night, adequate lighting must be rigged overside for Mooring Master to approach side of ship and climb ladder safely. Adequate searchlights should also be rigged on both wings of bridge when mooring at night, to assist in running lines to buoys.

ANCHORAGE: Area bound by: 28° 59′ 00″ N. to 29° 01′ 00″ N. between meridians 49° 28′ 00″ E. to 49° 31′ 00″ E. Depth of water 24 fathoms.

Masters cautioned not to anchor North of Lat. 29° 01′ 00″ and East of Long. 49° 31′ 00″ as there are numerous flow lines on sea bed connecting various structures, storage tanker and submarine terminal. During winter months, November through March, severe South-easterly storms often encountered with little or no indication of impending storm. Vessels at anchor, and loading in submarine terminal, must have engines ready with full power for immediate use. Masters cautioned to use adequate scope of chain while anchored awaiting berth.

RESTRICTIONS: None. Terminal operates 24 hours per day, 7 days a week. Ships moored, loaded and unmoored at any hour,

weather and other circumstances permitting. Terminal will never be closed due to religious holidays.

MAX. SIZE: Ship loaded by means of submarine pipe-line and one hose at one loading berth, located in approximately 140 ft. of water. Mooring buoys numbered 1, 2, 3, 4, 5 and 6. Starting with no. 1 East of mooring and numbered consecutively in clockwise direction. Max. capacity 70,000 dwt., max. length 950 ft.

HEALTH: The rules governing quarantine are the same as found in other ports of the world. Owners should check with Agent respecting any recent imposition of anti-epidemic regulations and requirements for additional injections for crew members.

RADIO: *Advice of Arrival:* Incoming tankers must send incoming ETA at least 3 days before arrival. The IOE and PC main radio station at Abadan will handle IPAC's radio traffic, pre-arrival messages, etc., for vessels calling Cyrus Terminal. The station call sign is EQZ. Messages for IPAC should be prefixed "Cyrusiran IPAC" with copy to Agent. Further ETA messages should be sent when vessels 24 and 12 hours distant from Cyrus Terminal and at any other time any appreciable change occurs in original ETA or those subsequent thereto. The 12 hours ETA should include a positive statement regarding "ship's readiness to load" on arrival and the number of hours that will be required to discharge clean ballast after ship is berthed in mooring.

Radio Watches: While at the anchorage off Cyrus Terminal, vessels should maintain normal listening watches on both HF and WT.

VHF: Cyrus Terminal base ("Pazargad") is not equipped with VHF radio telephone and does not maintain a radio watch. Vessels arriving at Cyrus Terminal may communicate with the "Pazargad" via blinker light.

TUGS: A charge for each tug movement will be made in accordance with rates established by IPAC. When tug/tugs are standing-by vessel mooring/unmooring, for use if required, the full fee will be charged. IPAC maintains launches to assist in mooring and unmooring.

BERTHING: (Also see "Max. Size".) Tankers to have ready: (*a*) Windlass and deck winches fore and aft. (*b*) Ten good manila or synthetic mooring lines, each not less than 120 fathoms in length, with efficient stoppers for each line. (*c*) On port or starboard side as directed, opposite ship's manifold, equipment capable of lifting submarine hose safely and expeditiously. Weight of lift 5·5 tons. (*d*) One bower anchor ready for immediate use, with minimum of 120 fathoms of chain. Anchors, chains and anchor windlass must be in good condition. (*e*) Equipped to fit flanges on submarine hoses, which are of ASA standards.

Permanent moorings in the berth consist of six steel cylindrical buoys each fitted with a quick release hook to which ship's mooring lines attached by mooring launches. The berth is laid out on a two heading basis, using ten mooring ropes (two bow, four beam, and two quarter and doubled on windward bow and quarter).

LOADING: Maximum crude oil loading rates for a tanker using one 12-in. deck hose and 20 p.s.i. at ship's rail is approximately 12,000 b.p.h. Requested that ships receive oil as fast as it can be delivered, with due regard for safety, also that any fittings on manifold such as "Y's", strainers, or mud boxes, which tend to restrict flow of crude oil into the ships, be removed before arrival at terminal. Preferable that connections be provided so that a 12-in. deck hose can be used.

MEDICAL: Neither medical nor hospital facilities provided by IPAC. Private doctors and hospital facilities available at Tehran or Abadan. Emergency hospital cases only can be handled on Kharg Island, approximately 53 miles from Cyrus Terminal.

DENSITY: Salinity approximately 20% more than normal sea water.

TIDE/CURRENT: Tidal range between 6 and 8 ft. Currents generally on axis of ship berthed in mooring; however, rotary currents can be expected.

FRESH WATER: No fresh water available.

FUEL: No bunkers or lubricants available.

FIRE PRECAUTIONS: A continuous and efficient fire watch must be kept on deck and in engine room. In event of fire breaking out in any part of a vessel, however minor it may be, fire alarm must be given immediately. This will consist of a succession of long blasts on ship's whistle, together with a rapid continuous ringing of ship's bell.

CUSTOMS ALLOWANCES: Present regulations allow each seaman to retain a maximum of 50 cigarettes or 1 oz. of tobacco or 5 cigars. The balance of all smoking items must be collected and carefully listed prior to arrival. This list will be checked by Customs before sealing locker. If any discrepancies, vessel is subject to a fine.

CONSULS: No consulates at Cyrus Terminal; consular or diplomatic representatives for most nations maintain offices in Tehran.

REPAIRS/STORES: Port is considered an "open roadstead", and under no circumstances may engines be shut down for repairs while ships are moored in submarine berth. No facilities for making vessel repairs. No spare parts, stores or supplies should be sent to Cyrus Terminal for delivery to a ship.

REPATRIATION: No facilities.

TIME: GMT plus 3½ hours.

SHORE LEAVE: There is no shore leave permitted due to lack of facilities. No visitors permitted on tankers loading.

INSPECTION SERVICE AND MARINE SURVEYS:

Petroleum inspection services available at Cyrus Terminal from Saybolt. IPAC also inspects cargoes on specific request of off-taker companies.

Classification agencies: Lloyds Register of Shipping (maintain office with Surveyor in Khorramshahr). American Bureau of Shipping (to be arranged from Bahrain where nearest ABS office available, with at least 5 days advance notice. A non-exclusive Surveyor available in Tehran). Bureau Veritas (Agents and Surveyor in Khorramshahr). Norske Veritas (Agents in Khorramshahr). German Lloyd (Agents and Surveyor in Khorramshahr).

AUTHORITY: Iran Pan American Oil Co.

AGENT: Gulf Agency Co. (Iran) Ltd., POB 110, Khorramshahr, Iran. Tel. 2278, 2280. Cables "Confidence", Khorramshahr. Telex 4033 (answer back: "Confidence Kor").

Due difficulty reaching Khorramshahr with international telex, communicate via Tehran office, telex no. 2107 Tehran (answer back "Confidence" Tehran), stating "For Khorramshahr".

Ships' mail for vessels calling Cyrus Terminal to be addressed to: Gulf Agency Co. (Iran) Ltd., POB 62, Abadan, Iran.

KHARG ISLAND: 29.14 N. 50.19 E.

A. DARIUS TERMINAL. Oil-loading terminal of the Iran Pan American Oil Company.

B. KHARG TERMINAL. Oil-loading terminal of the Iranian Oil Exploration and Producing Company. Including Sea Island Terminal.

C. KHEMCO TERMINAL. Loading terminal of Kharg Chemical Co.

GENERAL: (Items common to all Terminals): There are no ballast disposal facilities at Kharg and it is of the utmost importance that all vessels arriving at the anchorage should ensure that all water ballast and pipe-lines are completely clean.

FLAG: All vessels required to fly Iranian Ensign on foremast during daylight hours in Iranian waters. Iranian territorial waters extend 12 miles seaward from mainland and adjacent islands. Iranian flags may be obtained from Agent.

DOCUMENTS:

Bill of Health (certified by Iranian Consulate port of origin or port of call. If no Iranian Consul available, the legalisation fees are payable at Kharg Island).
Health Declaration (International Health Form to be filled out by Master on arrival).
Manifest (if with cargo certified by Iranian Consul (see "Bill of Health" above). If vessel is in ballast, no legalisation fees due).
Clearance (from last port).
Register.
Crew List.
Passenger Manifest (if any passengers are on board).
Store List.
Bonded Store List.

APPROACHES: Vessels approaching Kharg from South, should keep at least 2 miles to East of Island. Vessels approaching Kharg from North should keep to West of Island, as Khargu Island to the North is very low lying and difficult to see at night until dangerously close-to.

Landfall. 3 high gas flare towers, 2 in the South and 1 to the North of the Island, make a most conspicuous landfall. At night, from a distance, the light from these flares tends to obliterate the various navigation lights. At night the glow from the 3 gas flares is visible from great distance, far beyond the range of any navigation lights. However on occasions, one or more or all of the flares may not be burning, making the main navigation lights more readily visible.

Navigational Dangers. Eastern coast is open and free from navigational dangers, except for coral reef, which extends for about ¼ mile seawards along whole coast line. To South-west of Island, numerous oil platforms in positions up to 5 miles offshore.

Kharg South Beacon. 29° 12′ 46″ N., 50° 19′ 15″ E. At Southern end of Island, rotating white light, on steel tower, 295 ft. above MHHW, 2 flashes every 12 seconds, visibility 24 miles. Obscured by high ground and oil tanks between 151° and 160° from seaward. Light beam partly diverged upwards for aircraft. This is the main navigation light for Kharg area.

Kharg North Beacon. 20° 15′ 02″ N., 50° 18′ 18″ E. At Northern end of Island, white light on steel tower, 261 ft. above MHHW, 2 flashes every 6 seconds, visibility 12 miles. Obscured by high ground and oil installations between 330° and 352° from seaward.

Khargu Beacon. 29° 20′ 20″ N., 50° 21′ 18″ E. At Northern end of Khargu Island, on a steel tower 59 ft. above MHHW, a white light with 10° red sectors towards Ganaveh and Kharg Island to indicate general directions of submarine pipe-lines, 3 flashes every 8 seconds, visibility, 10 miles red sector, 15 miles white sector. Obscured between 011° and 041° from seaward by Kharg Island. Radar reflectors fitted to North and East sides of tower top.

Ganaveh Beacon. 29° 35′ 20″ N., 50° 29′ 50″ E. On mainland, at start of submarine pipe-lines to Island, 2 miles North-west of Ganaveh village, on steel tower, white light with 10° red sector along general direction of submarine pipe-lines, one flash every 5 seconds, visibility 10 miles red sector, 15 miles white sector. Light beam partly diverged upwards for aircraft.

South-east Buoy. 29° 12′ 22″ N., 50° 20′ 02″ E. Red can buoy, white light, one flash every 2 seconds. Near edge of reef, South-east Kharg Island.

North East Buoy. 29° 14′ 54″ N., 50° 20′ 18″ E. Red conical buoy, white light, one flash every 6 seconds. On Northern boundary of port limits.

Channel Buoy. 29° 16′ 42″ N., 50° 20′ 30″ E. Red conical buoy, white light, one flash every 3 seconds. In Eastern end of channel between Kharg and Khargu Island.

Radio Masts. At South end of Kharg Island a high radio mast painted red and white positioned at 29° 12′ 47″ N., 50° 19′ 15″ E., approximate elevation 510 ft. Fitted with fixed red lights. Another radio mast, also painted red and white, positioned at 29° 14′ 10″ N., 50° 18′ 26″ E., approximate elevation 367 ft., fitted with fixed red light.

Dideban Tomb. On highest point of Kharg Island, 29° 14′ 57″ N., 50° 18′ 29″ E., a small domed building located, elevation 290 ft.

Mir Muhammad Tomb. On North-eastern part of Kharg Island at 29° 15′ 10″ N., 50° 18′ 46″ E., conical shaped tower surmounted by small dome, elevation 165 ft.

Khargu Trees. On Khargu Island, at 29° 18′ 45″ N., 50° 20′ 30″ E., a small group of trees, only ones on island, visible from long distances.

Notice Boards. On North South-east coast and South-west of Kharg Island and along coasts of Khargu Island, large white notice boards indicating prohibited anchorages surrounding submarine pipe-lines.

Port Area. The area within:

29° 12′ 23″ N.	29° 14′ 53″ N.
50° 18′ 36″ E.	50° 21′ 17″ E.
29° 12′ 21″ N.	29° 14′ 53″ N.
50° 21′ 40″ E.	50° 20′ 20″ E.

offshore from Kharg Island has been proclaimed a port area. Port area used by vessels manoeuvring to and from oil-loading terminals. The whole of area within port limits declared a Prohibited Anchorage, and, a Restricted Manoeuvring Area. Vessels must not enter within port limits unless Berthing Master is on Board.

PILOTAGE: Vessels should proceed to Eastern Anchorage, outside port limits (Prohibited Anchorage and Manoeuvring Area) approximately 1½ miles East of Terminals, and await arrival of Berthing/Mooring Master.

ANCHORAGE: The approved Anchorage Area is to East of Eastern boundary of Port Limits, where holding ground is good. All vessels on arrival at Kharg must proceed to anchorage area and await instructions.

Prohibited Anchorages. Three Prohibited Anchorages in the Kharg Area:

(*a*) Submarine Pipe-lines. Anchorage prohibited in vicinity of submarine oil pipe-lines laid between North coast of Kharg Island and mainland near Ganaveh.

(*b*) Offshore Oil Platforms. Anchorage prohibited to South-west of Kharg Island in vicinity of numerous oil wells and drilling platforms extending 5 miles or more out to sea.

(*c*) Port Area. Area within 1½ to 1¾ miles offshore from East coast of Kharg Island generally, has been proclaimed a Port Area. Anchorage within Port Area prohibited.

Cautions. (*a*) Unlit mooring buoys at south east of Kharg Island (see Darius Terminal). (*b*) Oil Platforms to South-west of Kharg Island. (*c*) Aircraft approach lane South-east of a point mid-way between Naval Boat Harbour and Kharg North Buoy, in North-west corner of Port Area.

RADIO: IOE and PC main radio station at Abadan will handle radio traffic. Call sign EQZ. Vessels bound for Kharg Terminal should prefix messages with "Khargiran", and vessels bound Darius terminal should prefix with "Khargiran IPAC", in both cases with copy to Agents.

Radio Watches: While at anchor off Kharg Island, vessels should maintain normal listening watches on station EQZ on WT, and Kharg Terminal on VHF. Use of the ship's radio station and/or battery-charging equipment prohibited during cargo transfer operations.

VHF: Kharg Terminal equipped with VHF radio telephone, using international frequencies. Continuous watch kept on international calling and emergency Channel 16, frequency 156·80 Mc/s. Other channels, available after contact has been established are: No. 12 (first choice, Simplex), No. 20 (second choice, Duplex). Masters recommended use this facility when within range, particularly when approaching port. In poor visibility, when vessel's approach may not be observed from shore, VHF communication may be the means of avoiding delay in mooring/berthing.

HEALTH: Tankers calling at Kharg Island and requiring radio pratique should cable Agents 48 hrs. prior to arrival advising the following details:

(*a*) Number of persons on board, including Master and passengers.
(*b*) last port of call.
(*c*) Ports of call during the voyage.
(*d*) Duration of voyage.
(*e*) If any person on board requires vaccination against smallpox or cholera.
(*f*) If there has been any case of illness of contagious nature.

If approved, the Master will be notified and the vessel will be allowed to enter port without yellow flag or night quarantine signal.

MEDICAL: Small hospital with clinic on Kharg operated by National Iranian Oil Company for minor medical treatment. More serious cases may have to be sent by air to Abadan Hospital. Any medical services required should be brought to attention of Medical Officer when he boards vessel to grant pratique.

DENSITY/TIDE WINDS: Salinity of sea approximately 20% more than normal sea water. Surface temperature of sea ranges from 63° to 97° F depending on season. The extreme tidal range between 7 and 8 feet with maximum rate of about 1½ knots. Wind directions and velocity subject rapid change without warning and precautions necessary to avoid difficulties. Heaviest seas and swells while in port are from North-east through South-east.

FRESH WATER: Not available.

STORES: Commissary supplies, as well as steward's stores, in limited quantities, can be arranged through Agent with at least 5 days advance notice.

LAUNDRY: No laundry services available.

IDENTIFICATION CARDS: Each seaman will be issued with a pass which will be punched when crossing the jetty limits going out and in, and may be used once only. In addition to this pass, seamen should carry an Identification Card or Vaccination Certificate, bearing the owner's photograph.

CUSTOMS ALLOWANCES: Present regulations allow each seaman to retain maximum 50 cigarettes or 1 ounce of tobacco or 5 cigars. The balance of all smoking items must be collected and carefully listed prior to arrival. This list will be checked by Customs before sealing locker. If any discrepancies, vessel subject to fine.

CONSULS: No consulates at Kharg Island; however, consular or diplomatic representatives for most nations maintain offices in Tehran, and some in Khorramshahr.

REPAIRS: Masters of vessels loading or discharging at Darius Terminal are advised that this port is considered an "open roadstead" and, under no circumstances may engines be shut down for repairs while ships are moored in submarine berth. No facilities at Darius Terminal for making vessels repairs, and it is emphasised that all vessels in submarine moorings must be in condition to clear immediately on instructions to do so. No repairs allowed alongside the Oil Loading Jetty at Kharg Terminal. Ship's main engines must be available at all times while alongside jetty.

REPATRIATION: Crew members joining ships at Kharg Island should always be routed via Abadan and not via Shiraz. Crew change accommodation (for 10) at Recreation Centre.

AIRPORT: Small airport used by Oil Company aircraft and Iranair flights to and from Abadan. Due security arrangements movement of crew must be programmed through Agent.

TIME: GMT plus 3½ hours.

A. DARIUS TERMINAL (Additional requirements and details).

Terminal operates 24 hours per day, seven days a week. Ships moored, loaded and unmoored at any hour, weather and other circumstances permitting. Terminal will never be closed due to religious holidays.

LOCATION: A submarine terminal at South-east corner off Kharg Island 29° 12′ 40″ N. 50° 20′ 40″ E.

MOORING: Vessel requested to have pilot ladder safely and securely rigged, ready for immediate use, and long enough to reach Mooring Master's launch. Adequate searchlights should be rigged on both wings of bridge, when mooring at night, to assist in running lines to buoys.

Raising, connecting, disconnecting and lowering of submarine hoses will be performed by IPAC line handling crew as advised by Mooring Master, who will remain on board while ship in moorings. A capable winchman to be provided by ship.

Mooring buoys for Darius Terminal not lighted. Permanent moorings in berth consist of 5 steel cylindrical buoys each fitted with quick release hook, to which ship's mooring lines are attached by IPAC's mooring launches. The berth is laid out on the one heading basis, using both ship's bower anchors with seven mooring ropes (four beam, two quarter, and one stern). Mooring buoys numbered 1, 2, 3, 4, and 5. Starting with no. 1 East of the mooring and numbers running consecutively in a clockwise direction.

Tankers to have ready: (*a*) Windlass and both bower anchors, each with not less than 120 fathoms of chain. (*b*) Seven good manila or synthetic mooring lines, each not less than 120 fathoms in length, with efficient stoppers for each line. (*c*) On port side opposite ship's manifold, equipment capable of lifting submarine hose safely and expeditiously. Weight of lift 5 tons.

LOADING: Ship loaded by means of submarine pipe-line and two hoses at 1 loading berth, located approximately one mile offshore in over 65 ft. of water. Crude oil loading hoses lifted on port side. Maximum crude oil loading rate for tanker using two 12-in. deck hoses and 20 p.s.i. at ship's rail is approximately 5,000 tons per hour.

Order save ship time as well as to make berth available for others, requested that ships receive oil as fast as it can be delivered, with due regard for safety. Also requested that any fittings on ship's manifold such as "Y's", strainers, or mud boxes, which tend to restrict flow of crude oil into ship, be removed before arrival at terminal. It is preferable that connections be provided so that a 12-in. deck hose can be used. Vessels must be equipped to fit flanges on submarine hoses, which are of ASA standards.

FIRE PRECAUTIONS AND SAFETY: Full instructions will be given by Mooring Master but, vessel's personnel responsible for safety of vessel and must take all necessary precautions, whether or not so advised by Mooring Master.

During time vessel moored in Darius Terminal, a continuous and efficient fire watch must be kept on deck and in the engine room. in the event of fire breaking out in any part of vessel, however minor it may be, fire alarm must be given immediately. This will consist of a succession of long blasts on ship's whistle, together with a rapid and continuous ringing of ship's bell.

COMMUNICATION: Ship-to-shore communications, while ships in moorings, will be by portable VHF radiotelephone units. Mooring Master will advise Masters and Officers regarding emergency whistle signals set up for use in event VHF radiotelephone units become inoperative.

EMERGENCY MEDICAL ASSISTANCE: Vessels requiring emergency medical assistance should hoist international code flag "W" in daylight, and at night send "W" (·––) on blinker light. To attract immediate attention, the same signal "W" (·––) should be given on ship's whistle in either day or night hours. The signal should be repeated until acknowledged visually by either another ship in the moorings, or from IPAC launch. As soon as signal is received, Terminal officials will advise Agent as soon as possible of the emergency medical aid required.

FUEL: No bunkers available at submarine mooring. Bunkers may be loaded at I.O.E. and P.C. main jetty having obtained nomination through Iranian Oil participants in London. Tankers loading crude oil at I.O.E. and P.C. jetties have at all times priority for berth, over the vessels lifting bunkers only. Marine lubricants not available,

except through marketing representatives by arrangement through Agent.

CURRENTS: Generally on the axis of the ship berthed in the mooring; however, rotary currents can be expected.

SHORE LEAVE: For personnel of vessels loading or unloading at the Terminal is arranged between Agent and Iranian Security Officer aboard vessel. Ship's personnel (other than medical or emergency cases) not allowed to disembark or embark at Terminal. All personnel going ashore must land at I.P.A.C. Small Boat Harbour. Sufficient personnel must be aboard at all times for letting go lines and clearing moorings immediately.

B. KHARG TERMINAL (Additional requirements and details)

OIL LOADING JETTY: "Tee" head with overall length of 6,038 ft. between fender faces. The fender to fender width is 138 ft., for the section South of trestle approach, and 124 ft. for North section. Jetty face is aligned in direction 172° 35′–352° 35′. Deck level 22·0 ft. above chart datum. The jetty, being on eastern side of Island, is sheltered from prevailing North-west winds, but exposed to South-east, when during winter storms, waves of 8 to 10 ft. often occur. A maximum wave height of 15 ft. has been recorded at Southern end of jetty, under such conditions.

Berth	*Least depth water* (in feet)	*Maximum capacity* DWT*	*Loading and bunker arms*†	*Height limits ship's manifold in feet above chart datum*
1	64	200,000	3×16 in. 2×12 in.	11 to 73
2	65	38,000	4×12 in.	11 to 62
3	66	200,000	3×16 in. 2×12 in.	11 to 73
4	66	65,000	5×12 in.	11 to 62
5	70	200,000	3×16 in. 2×12 in.	16 to 78
6	67	85,000	3×16 in. 2×12 in.	11 to 73
7	62	200,000	5×12 in.	11 to 73
8	63	45,000	5×12 in.	11 to 62
9	57	200,000	3×16 in. 2×12 in.	11 to 73
10	58	76,000	5×12 in.	11 to 62

* Subject to weather, tidal conditions and lengths of vessels at adjacent berths.

† 12 in. Bunker arms at all berths. All Chiksan arm flanges are series 150 API.

Outer Berths: 9, 7, 1, 3, 5. Inner Berths: 10, 8, 2, 4, 6. Berths Nos. 7, 8, 9 and 10 located North of trestle approach.

SEA ISLAND TERMINAL: Located 4,500 ft. off West coast of Kharg Island.

Loading capacity at both deep berths: 30,000 tons/hour. Berth No. 11, depth 105 ft., capacity 500,000 dwt. Berth No. 12, depth 96 ft., capacity 300,000 dwt.

No regular launch service is provided to Sea Island berths. No shore leave or crew changes allowed while the vessel is at the berth.

TUGS: Vessel normally berthed with assistance of two tugs which, together with Berthing Master, meet vessel at port limits. The tugs will come alongside, normally one to the bow and one to the stern, as far forward and aft as is safe and practical. Tugs' towing equipment will be used on all occasions.

BERTHING: Approaching berth, two fibre-rope headlines should be lowered to mooring launch, for transfer to jetty. Two stern lines are then handled, preferably one at a time, to avoid possible fouling of vessel's propeller. Positioning of vessel's loading manifold in relation to Chiksan loading arms on jetty has to be carried out to a close tolerance, as directed by Berthing Master, to requirements of jetty operator. On inner berths, particularly nos. 2, 4 and 8, vessels are berthed head outwards, i.e. stern to trestle. In these cases, vessels are towed stern first by after tug's hook wire, with forward tug either alongside or on towing hook, depending on tidal and weather conditions.

Mooring System. Under normal conditions, 12 lines are used to moor a vessel as follows: Forward: 3 headlines, 2 breast lines and 1 spring. Aft.: 3 stern lines, 2 breast lines and 1 spring.

During winter South-easterly storm period, it is usual to use one each additional headline and breast line, at each end making a total of 16 mooring lines. Breast lines and springs of wire rope are acceptable.

Berthing Limitations. Various combinations of wind, sea and tidal conditions, also size, length, ballasted trim and handling qualities of a vessel and available berth space, can effect decision to berth a vessel at Kharg. All these factors have to be evaluated before a final berthing decision is made.

Manfold Position. No berthing where manifold of vessel cannot be positioned, within horizontal limits of Chiksan loading unit arms, due to adjacent occupied berths.

Note: On outside berths, very large vessels of light free board in excess of 70 ft., may be required to retain sufficient ballast, to ensure that their manifolds remain within the vertical range of the "Chiksan" loading arms, until sufficient cargo is loaded.

LOADING: Both Iranian light and heavy crude oils available at all jetty berths. Crude oil is delivered to jetty from Tank Farm, situated on central plateau of Island, by gravity flow through four 48-in. diameter pipe-lines. Loading rates of up to 11,500 tons per hour to one berth can be achieved at Kharg Terminal. Up to 45,000 tons per hour can be delivered to all 10 berths simultaneously.

FUEL: Bunkering facilities at each berth. Two grades available, Marine fuel oil and marine diesel oil. Bunkers may be loaded up to a maximum rate of 1,000 tons per hour, and bunkering will normally commence before loading cargo. Only fuel oil available at Sea Island berths.

FIRE PRECAUTIONS: A copy of the "Fire and Safety Regulations" notice is given to Master of every vessel by Berthing Master, at Anchorage. Five additional copies are passed aboard vessel when it arrives alongside jetty. These extra copies must be posted in conspicuous places throughout the vessel. While a vessel is within Port Area a continuous and efficient Fire Watch shall be maintained on deck and in the engine room. In event of fire, however minor it may be, the Fire Alarm shall be given immediately as follows:

On Board Vessel: Rapid and continuous ringing of ship's bell, together with a succession of long blasts on the ship's whistle or siren.

On Jetty or elsewhere in Port Area: Rapid and continuous ringing of the gongs on the jetty. A push-button alarm system is provided at each berth.

SHORE LEAVE: Fully air-conditioned Recreation Centre operated by United Seamen's Services, situated close to shore end of the trestle to the Oil Loading Jetty. Facilities include: cinema, film exchange, restaurant, dining-room and bar, library and waiting-room, PX gift shop, 2 billiards and snooker tables, 2 table tennis tables, darts, chess, etc., official money exchange.

Note: Shore leave restricted to grounds and buildings of Recreaion Centre only.

C. KHEMCO TERMINAL: (Additional requirements and details)

LOCATION: Khemco Terminal dolphin jetty is located at the South-east corner of Kharg Island 29° 12′ 45″ N. 50° 20′ 05″ E.

APPROACHES: Vessels entering Kharg Island road must not approach or anchor West of long. 50° 21′ 30″ East (being approximately one mile East of Khemco Terminal), unless a company's Berthing Master is on board.

PILOTAGE: Company has own Berthing Masters, who will board vessels outside the port area and will pilot and berth the vessel alongside Khemco jetty. Berthing Masters will also carry out the duties of safety officer.

Vessels with the Berthing Master on board shall display the international flag "H" in a prominent position while manoeuvring under his advice. This flag will be in addition to the "Q" flag, being already hoisted for quarantine purposes.

Vessels are requested to have a clean pilot ladder safely secured at the leeside of the ship for the Berthing Master. The pilot ladder should be long enough to reach the pilot tug or launch. At night adequate lighting for the pilot ladder shall be installed.

Pilotage, berthing, mooring and sailing of vessels will be carried out in accordance with instructions of the Mooring Masters, subject to the understanding that in all circumstances the Master of the vessel being manoeuvred shall remain solely responsible for the safety, proper navigation and manoeuvring of his vessel. The Master or a qualified ship's deck officer must be on the bridge at all times while the vessel is underway or unmoored.

NOTICE OF READINESS: Notice of readiness will not be accepted at the time of arrival unless the vessel is in all respects ready to load. Arrival time will be considered as the time the berthing Master boards the vessel or the time that the vessel anchors, whichever occurs first.

RESTRICTIONS: Vessels can be berthed day or night in two directions using ship's moorings. Occasionally bow anchor will be used during berthing operation.

MAX. SIZE: Length of pier is 1180 ft. with maximum of 42 ft. water alongside at MLLW.

RADIO: The IOE and PC main radio station at Abadan will handle Khemco's radio traffic. The station call sign is EQZ. Messages for Khemco should be prefixed with "Khargiran Khemco", with copy to Agent.

Advice of Arrival. It is important that ships establish radio contact with Khemco, when three days distance from Kharg Island, and maintain this contact until just prior to arrival at the terminal. All ships should send a 72 hours ETA message to Khemco, giving the best estimate of the ship's arrival time at Kharg anchorage. The first ETA message should also include a definite statement of the details of manifold dimensions, cargo requirement, agent and any other necessary information. Further ETA messages should be sent to Khemco when the vessel is 24 hours and 12 hours distant from Kharg Island and at any other time if any appreciable change occurs in the original ETA or those subsequent thereto. The 12 hour ETA should include a positive statement regarding ship's readiness to load on arrival, and the number of hours required to discharge clean ballast after ship has berthed.

TUGS: Two 2,000 h.p. and one 1,000 h.p. diesel tugs are provided by the Company. Normally two tugs are used for berthing and one for unberthing, depending on the Berthing Master's discretion. Tugs moorings are provided by the company and vessels are requested to have good heaving lines handy on the deck for picking up the tug lines. All tugs are equipped with fire-fighting equipment, including a foam system, which can be used when required.

MOORING: If, in the opinion of the Berthing Master, the vessel is not equipped with adequate mooring facilities, lines or gear, he will so inform vessel's Master, and in such event shall not be brought into berth until such facilities, lines or gear are deemed satisfactory.

Mooring Launches. Four powerful mooring launches are provided by the Company and normally one is used during berthing and unberthing operations.

Mooring Lines. Under normal weather conditions the following mooring lines are required: forward: 3 head lines, 2 breast lines, 1 spring; aft.: 3 stern lines, 2 breast lines, 1 spring.

All lines to be of 120 fathoms, with the exception of the breast lines, being of shorter length. No wire lines are to be used at Khemco jetty.

During abnormal conditions, especially during winter periods, some additional four lines are required for extra moorings.

In most cases it might be necessary to pass all forward lines from the bow and all stern lines from the poop.

Dolphins. The jetty consists of one main and eight smaller dolphins. Four on either side of the main dolphin are for ships mooring. The main dolphin is connected to the shore via a trestle and causeway. Head and stern lines are passed to the dolphins by means of line handling launches and others by heaving lines. All mooring dolphins are fitted with quick-release hooks.

BERTHING: A. Berthing Masters. Vessels to be berthed at Khemco jetty will be boarded by a company's Berthing Master at Kharg anchorage and after advising the ship's Master of all port formalities, will normally take two tugs (one to the bow and one to the stern) alongside while proceeding to the jetty.

B. Berth Turn. Vessels to load at Khemco jetty will normally be accepted and the berth will be assigned to the vessel in order of arrival and nomination. In the event the berthing is delayed by weather or other reasons, vessels will keep their positions in line. Vessels leaving the port area on account of weather or other reasons should keep in contact with the terminal in order that they will be available when weather moderates. Khemco reserves the right to load vessels out of turn following the return of good weather, to the extent that such loading out of turn does not materially delay the loading of other vessels in line. For example, in the event that weather or other reasons make it necessary for vessels awaiting berth to leave the terminal and put to sea, Khemco may load another vessel after the port opens, but before the return of the vessels waiting in line ahead of it. And further, Khemco reserves the right to decline to berth a specific vessel if its condition or facilities are unsafe for berthing or loading, but berths other vessels "out of turn".

C. Gangway. When alongside the jetty, vessels shall provide an efficient gangway with a net rigged underneath. During the hours of darkness, they shall install adequate safe lighting for the gangway. These lights are in additions to those used for the deck illumination.

D. Sailing. All lines are dropped by means of quick-release hooks, fitted on all dolphins and under normal conditions one tug is used on the hook at the bow of the vessel in order to clear her off the berth. Usually the documents are signed before departure, unless the berth is needed for another ship.

BALLAST: A. Rules and Regulations. Vessels arriving at Kharg should maintain a reasonable draft fore and aft for safe manoeuvring and berthing. When conditions permit, the Berthing Master will advise the Master to commence discharging ballast. It is the Master's responsibility to see that dirty ballast, whatsoever, is not pumped or spilled over board. Only clean ballast or bilge water may be discharged within 50 miles of the coast-line. In the event of contaminated ballast or bilge water, the vessel will be required to divert this material to a ship's slop tank. Otherwise, the vessel may be unberthed and returned to a point not less than 50 miles from the coast line to discharge contaminated ballast.

There are no ballast disposal facilities at Kharg Island.

Masters are requested to arrive at Kharg with clean tanks, pipelines, sea suctions, strainers and pumps. Ships will not be accepted for loading if evidence of any dirty ballast is observed.

Any vessel returned to a position at least 50 miles off-shore to discharge dirty ballast, or for any similar reason, automatically nullifies any "Notice of Readiness" already tendered and loses any priority held for loading. The vessel will be entered for loading at the time of second arrival when a new "Notice of Readiness" will be tendered.

B. Loading and Deballasting Simultaneously. Vessels are permitted to load cargo and discharge clean ballast at the same time provided all safety and other aspects are observed.

C. Tank Cleaning. Ship-tank cleaning will not be allowed at the pier. Ships will be allowed to draw sea water ballast while alongside.

LOADING: A. Ship's Gear. Although the jetty is equipped with a boom to handle loading hoses, ships are requested to rig jetty side boom in a proper and safe manner for possible use. Masters will be responsible for ensuring that the ships gear or fittings are in good working order and will not in any way interfere with or hamper the working of the facilities.

B. Inspection. After the vessel has been berthed and all formalities carried out the vessel will be boarded by the loading Master. A joint inspection will be made by an authorised ship's officer and the loading Master after the exchange of information and documents. If the ship's tanks, piping or equipment are in such condition that a potential hazard exists, the ship will be refused permission to load until such hazards are corrected. In any case, the owners or charterers of the ship will be notified of any delay or refusal to load because of hazardous conditions and any expense due to such delay or refusal to load will be borne by owners.

If the ship does not arrive with tanks and/or piping sufficiently cooled to permit loading, the time required to cool down shall not be counted as lay time. Any expenses, including LPG furnished by company, demurrage, etc., involved with the cool-down period and operation shall be borne by the owners or charterers of the vessel.

Should the vessel arrive at the loading terminal with inert gas in its tanks, after purging from a previous cargo of ammonia or other gas to prevent contamination of shore lines and facilities, the inert gas should be vented if possible before ship is moored. If the ship's tanks to be loaded previously contained a product different from what is to be loaded, the Master shall verify that the tanks are clean and ready to receive Kharg Chemical cargo.

C. Loading Propane and/or Butane. 1. General Information. No loading will begin until the ship is safely moored with fibre mooring lines, gangway lowered and secured, the ship grounded and ground tested, ship's and shore emergency fire hose pressurised and ready for use, fire wire in place, and ship/shore communications tested and in good working order.

All loading personnel will wear fibreglass hard hats, leather-palmed gloves, cotton long-sleeved shirts, long cotton trousers, cotton socks, and sandals or shoes that do not have spark-generating material, such as steel nails, cleats, toe or heel plates. Non-sparking tools will be used in making hose and ground connections. Silk clothing or headgear will not be permitted due to its affinity for collecting static electricity. Ship's grounds will be tested for continuity to shore before product or vapours pass through hoses.

Since the LPG may not contain an odorant, particular care shall be taken that the atmosphere does not become explosive. If there is no air movement, explosimeter readings will be taken hourly, and if an explosive atmosphere exists, loading shall stop until conditions change. Prior to loading the main cargo a small quantity of propane and/or butane will be loaded or circulated initially for cooling down purposes. The amount set aside for cooling down will depend on whether the cool down is for the ship's lines or ship's tanks. Generally, the ship's lines will be cooled down before loading each parcel.

Although a small amount of refrigerated LPG is normally retained in the bottoms of the ship's cargo tank during the trip to Kharg Island, the tank vapour space and tank walls are warmer. For a period of about an hour while low temperature circulation of the shore lines continues, a small amount of propane may be taken by the ship from cargo holds and sprayed into ship's tanks. This method cools the upper parts of the ship's tanks and vapour spaces. If propane is taken from shore lines, this is replaced from shore tankage as the circulating pump suction is "floating" on the shore tank outlet line.

The enclosed spaces around ship cargo tanks and double bulkheads should be frequently monitored by ship's personnel for cargo leakage.

The measures for dealing with any leakage to prevent the temperature of the hull structure from falling below a safe level depends upon the ship's design. The Master shall have standing orders for dealing with any leakage observed on the ship and shall so inform the Loading Master.

2. Loading Master and Jetty Operator. Once the vessel has been berthed, berth will be manned at all times by an operator, who will be stationed in the immediate vicinity of the berth loading bay. All information and forms will be passed by the Loading Master prior to commencement of loading.

3. Alarms. All alarm systems on vessel and communications between the jetty and control room shall be checked before loading is begun. Masters are requested to make the Loading Master fully familiar with the vessel's alarm systems. Otherwise, confusion may occur between loading alarms and fire alarms.

4. Connecting Loading Hoses. The loading and vapour-return hoses will be well supported and laid along the pier. Each hose and hose valve will be supported by jacks on ship's deck. Hoses will be protected by rope mesh. Once the loading hoses are connected they will be adjusted during loading operations. The shore and ship personnel shall be careful not to kink, stretch or damage hoses. Hoses not used will be blanked. Hose flanges will be completely bolted and shrouded.

Size of Hoses: propane 8 in. (with 8 in. ASA 150 flanges); butane 8 in. (with 8 in. ASA 150 flanges); vapour 6 in. (6 in. ASA flanges).

5. Air. It is most important that no air is allowed to enter either the ship or shore loading lines. All hoses and spools must be purged free of air after being connected.

Provision is made on shore for purging air from LPG and vent hoses on completion of hose connection to ship and for purging LPG vapour from hoses before disconnecting when loading is finished. Provision is made to supply inert gas for this purpose. Provision is also made for disposal of remaining liquid in hoses safely and effectively from shore connection of hoses before disconnecting and gas purging of hoses when loading is finished. Valves and connections are provided for this purpose on the shore end. All ice must be removed from around hose insulating gasket prior to hose disconnection. Cargo hoses shall be blanked and be removed from ship. Ground wires will remain connected until ship's gangway is removed and ship is ready to depart.

6. Loading Pressure. Loading pressure should not exceed 50 psi at any time.

7. Ship's Compressor. During loading, the ship may pump vapours ashore via the ship's compressor. The Loading Master should be advised before the compressor is started or stopped.

8. Loading Rates. Maximum loading rates for LPG products are as follows:

Propane (two lines)	10,900	barrels	per	hour
Butane (two lines)	7,800	,,	,,	,,
Propane (one line, pumping)	7,000	,,	,,	,,
Butane (one line gravitating)	3,900	,,	,,	,,

It is more important that the Loading Master be informed before any changes are made by the ship in the vapour compression operation. He then will inform the shore loading area. Starting and stopping compressors on the ship affect the shore tank pressures and can result in damage to tanks and pumps. Ship's valves should under no circumstances be partially or completely closed against LPG flow without first informing the Loading Master. Pumping rates will normally be adjusted from the shore loading area.

The ship's Master is responsible for his ship at all times. The company Loading Master will advise the Master in respect to loading pressures and hazards, but will not direct the loading except as may be necessary to protect their terminal's facilities or to prevent any

hazards. Manipulation of ship's valves is the direct responsibility of ship's personnel.

LPG loading will be done on a 24-hours basis; hence the Master of the vessel, while alongside the LPG loading pier, will be responsible for the provision of adequate explosion proof lights, fittings and switches in all parts of the vessel where work is being carried out in any way connected with loading of LPG.

The ship's pipelines/vent system and/or liquification system shall be manifolded so that only those pipelines connected to the ship's tank being loaded will be open. All other pipelines' lines shall be closed and outlets blinded.

All doorways, vents, ports, air-conditioner intakes and other openings into which gaseous vapours could enter shall be closed.

During loading, there shall be no smoking, no open lights and no galley fire on the ship or in the vicinity of the pier.

Package goods, bunkers, water, freight and ship stores shall not be loaded or discharged during loading. Visitors will not be permitted on the ship during loading.

Loading of LPG shall be stopped whenever weather or sea conditions are hazardous to the ship, dolphins, LPG hose and manifold, adjacent vessels or personnel. The Senior Terminal Representative and authorised Ship's Officer shall jointly judge if such conditions exist. In case of dispute, the Senior Terminal Representative's judgement shall be followed.

During severe thunder storms, sand storms and electrical storms in the vicinity of the ship, loading shall cease until the storm subsides.

9. Strainer Boxes. It is important that no ice, pipe scale, etc., be allowed into the vessels' tanks. The ship should have strainers placed immediately upstream of the manifold valves. A careful watch must be kept on the pressure to prevent the strainers being blocked and periodically the strainers should be cleaned by using the built-in wiper, which should be turned clockwise only. In case of an absolute blockage loading will have to be suspended and the strainer cleaned, if necessary by removal. If one of the vessel's strainers is blocked, it may be possible to continue on the other hose.

10. Completion of Loading. A reduction in loading rate before topping of the final tank or tanks may be arranged through the Loading Master by the ship's officer in charge. When the vessel asks for a slow rate, the loading pump will be shut-down and valves re-aligned for circulation. The vessel should then complete loading at its own controlled rate off the circulation flow. The terminal might ask for a suspension of loading while realigning the circulation pump. When required to stop completely, the Loading Master should be advised.

11. Hose Disconnection. When disconnecting hoses in order to change or clean a strainer at the time of completion of loading, the following points must be remembered:

(*a*) All ice must be removed from around the hose insulating gaskets prior to disconnecting.
(*b*) The hoses and hose valves must be secured to the vessel to avoid slipping or twisting. This is best done with rope and/or pulleys.
(*c*) The hose valves and ship's manifold valves must be shut.
(*d*) The vessel's vent valves must be open either to the atmosphere or to the vapour return hoses.
(*e*) The ship's strainer and all pipes and flanges between the hose and manifold valves must be de-iced.
(*f*) The hose can then be disconnected, but the ship's manifold valves, vapour return valves and hose valves must be shut.

D. Loading of Bulk Sulphur. All rules and regulations concerning LPG loading also apply to sulphur.

1. Inspection. The joint inspection of the ship and the ship's holds to be loaded with sulphur will be made by the Loading Master and authorised ship's officer. If the condition of the ship's holds presents a potential hazard to personnel, sea or shore facilities, the ship will be refused permission to load until conditions are corrected. The Master shall bear the responsibility for notifying the owners or charterers of the ship of any delay or refusal to load because of hazardous conditions and any expenses due to such delay or refusal to load shall be borne by them. The company reserves the right to refuse loading and their decision is final.

If the ship's cargo holds are not clean or are so hot and/or contains residue (such as excessive rust, sand-scrap iron, minerals, or mineral dust) that alone or in combination with sulphur or sulphur dust would contaminate sulphur being loaded, oxidise with sulphur, or cause a fire or explosion of the sulphur cargo, permission to load sulphur will be withheld until this condition is corrected.

2. General Information. Bulk Sulphur is loaded at 500 tons per hour via a conveyor. The conveyor extends from the shore storage area along the causeway, trestle and finally to the main dolphin close to the ship's holds.

No loading will begin until the ship is safely grounded, moored with fibre lines, fire hoses pressurised, ship-to-shore communications operable and the chute grounded.

In order to minimise movement of fine sulphur dust, cowl ventilators serving hold into which sulphur is being loaded shall be blanked off to prevent circulation of air. Package goods, bunkers, water, freight, ship stores shall not be loaded or discharged during or after sulphur loading.

When sulphur is loaded in a deep hold with general cargo in the tween deck hold above the sulphur, the ship's Master will be responsible for installing a dust proof wooden bulk head enclosure in the hatchways from the over deck of the lower hold to the weather deck forming a tight enclosure to prevent sulphur dust from entering the tween decks during loading. Ceilings shall be tight to prevent sulphur dust from entering bilges. Any chinking at tank tops or bilge will be of non-combustible material.

Masters to maintain sufficient personnel to adjust and maintain chute position, gangways and keep mooring lines taut as ship is loaded.

If sulphur is loaded into a hatch already containing sulphur, representative samples may be requested by the terminal to determine quality.

Since the sulphur loading facility at the pier is fixed the ship will be warped and moored so that various ships holds that will receive sulphur can be loaded.

After each warping the ship will be moored and grounded and chute grounded. The hold to be loaded will be checked with an explosimeter to be certain that the hold is not in the explosive range. Personnel entering cargo holds for inspection must be equipped with life-lines and belts with non-sparking hardware, goggles with green tinted lenses, and self-contained breathing apparatus with a mask covering eyes and nose. The life-lines shall be of sufficient length and strength that one line could be used to pull a man out of a hatch. For each man working in the hold one man on deck must attend his life-lines. Personnel in the hold must wear gauntlet gloves, high-top shoes, long cotton socks, a fibre glass hard hat with a cotton cap ear flaps covering the head and ears, pants fastened at the cuff and long-sleeve shirts buttoned at the neck and wrists. Silk clothing or headgear will not be permitted due to its affinity for collecting static. Cotton clothing material is preferred.

Only the hatch being loaded with sulphur will be open. All other ship hold hatches must be closed. All doorways, vents, ports, air scoops, air conditioner intakes and other openings into which sulphur dust could enter should be closed during loading. After loading and trimming a hold, the hold hatch cover shall be closed and the next hatch to receive sulphur will be opened. The pier sulphur loading tower can be raised and lowered as well as rotated in order that the cargo hold being loaded can be evenly trimmed with little or no manual trimming. Each time the tower is moved the chute shall be grounded. No hand cargo load trimming will be allowed while the pier loading sulphur tower is in operation. The tower downspout drop distance will be adjusted to minimise sulphur dusting.

The loading-tower operator will be advised by authorised ship's personnel on the deck by use of agreed hand signals of any hazards such as deck cargo, life boats, aerial guy wires, etc., that can do damage to loading tower. Personnel will work upwind as much as possible to minimise sulphur dust inhalation or sulphur on skin. Eye baths and showers are located at the dock and will be ready for use if needed.

No loading will be done until all personnel are out of ship's cargo holds. The ship's authorised officer shall assign personnel to sweep sulphur dust into cargo holds to minimise pollution of the adjacent sea water. If shovels or scoops are used the shovels must be of a non-sparking material such as monel. Personnel working cargo holds or on deck shall not be permitted to wear shoes with steel nails, or metal heels or toe plates that could cause sparking.

Loading of sulphur will be stopped whenever weather or sea conditions are hazardous to the ship, pier, dolphins, sulphur loading tower, pier equipment, adjacent vessels or personnel.

Sulphur dust, like most poor electrical conductors rapidly acquires a static charge under dry atmospheric conditions. To minimize this hazard the loading tower is equipped with water spray nozzles to humidify the sulphur and reduce dusting. Conveyor hoppers are also equipped with sprays.

During severe weather conditions loading will cease and cargo hold hatches shall be closed until the storm or seas subside.

Sulphur loading will be done on a 24-hour basis. The Master of the vessel while alongside the sulphur loading pier will be responsible for the provision of adequate explosion proof lights, fittings and switches in all parts of the vessel where work is being carried out in any way connected with loading. The Master of the vessel will assign authorised ship's officers and men as deemed necessary for the safe loading of the ship and to adjust mooring lines and keep sulphur dusting to a minimum.

FUEL: Presently no bunker facilities are available at Khemco jetty. However, two grades (marine fuel oil and marine diesel oil) are available at IOE & PC main jetty. This is supplied to vessels having made previous arrangements and obtained nomination.

WEATHER: A. Climate. The climate along the coast of Kharg Island is generally mild. The days in mid-summer are extremely warm and humid with the temperature reaching 117° F. (47° C.) and a relative humidity ranging from 10% to 98%. The winter months, from November to March, are pleasant with a minimum temperature of about 39° F. (4° C.). Freezing weather is uncommon.

B. Weather Data and Summary.

Average annual rainfall	8 in.
Mean maximum temperature	87° F.
Mean minimum temperature	66° F.
Extreme maximum temperature	117° F.
Extreme minimum temperature	39° F.
Average relative humidity	59%

C. Winds. Wind directions and velocity are subject to rapid change without warning and precautions are necessary to avoid difficulties. The heaviest seas and swells are from the North-east through South-east. The prevailing wind for most of the year is from the North-west, but during the winter period strong South-easterly storms occur with very little warning. The Khemco jetty is sheltered from the North-west winds.

D. Tides. The tidal range is between 7 and 8 ft., with a maximum rate of about one and a half knots. The tidal streams run approximately parallel to the line of the jetty, with occasional cross currents.

E. Sea Temperatures. The surface temperature of the sea ranges from 63° F. to 97° F., depending on the season.

SAFETY: Masters of vessels are responsible for the safety of their vessels including, but not limited to compliance with official precautions, and must take all necessary precautions while the vessels are alongside the Khemco jetty. While the vessels are alongside the jetty, all personnel must comply with all ports' safety rules and regulations.

GENERAL: (*a*) Shore Leave. Shore leave at the terminal must be arranged between Master and ship's agent. Sufficient personnel must be on board at all times for emergencies.

(*b*) Visitors. Due to hazards involved, no visitors are allowed while the vessel is alongside the Khemco jetty.

(*c*) Light Dues. A charge of half a rial per gross registered ton is levied on each vessel for light dues by the Iranian Government. This is in addition to light dues for Middle East navigation. The company shall have no responsibility in respect of any taxes, dues, or other charges levied by the Iranian Government or any of its departments or agencies.

(*d*) Painting and Scaling. Painting, chipping, scaling and any repairs on deck or overside is strictly prohibited while vessel is alongside the Khemco jetty.

(*e*) Garbage. Dumping of garbage and refuse strictly prohibited in port area.

(*f*) Repairs. No workshops or other facilities for repairs at Kharg Island.

(*g*) Customs. There are customs and other official offices on the Island. Vessel will normally be boarded by a custom director, immigration officer and director of Ports and Shipping.

(*h*) Consulates. No consulates on Kharg Island. Nearest consulates or diplomatic representatives are at Khorramshahr.

(*i*) Marine Surveyor. No marine surveyor on the Island, but can be available in 48 hours notice through ship's agent.

(*j*) Recreation Centre. Use of Seamen's Club will be cleared through NIOC and Consortium. If used, transportation to and from Club will be provided by the Agent.

(*k*) Supplies. No provision of any kind is available at Kharg Island. No fresh water is available for delivery to the ships. No laundry services are available at Kharg Island.

(*l*) Mail. Regular plane services between Kharg Island and the mainland and mail receiving and dispatching can be arranged through ship's Agent.

AGENTS: Gulf Agency Co. (Iran) Ltd., POB 110, Khorramshahr, Iran. Tel. 2280, 2278, 4755/58. Cables: "Confidence", Khoramshahr. Telex. 4033 (answerback: "Confidence Kor").

Due to the difficulty in reaching Khorramshahr with international telex messages recommend you to communicate via our Tehran office, Telex No. 2507 Tehran, (answerback: "Confid Tn"), stating in your message "For Khorramshahr".

Recommend that all urgent communications be sent by Cable directly to Khorramshahr.

Ships' mail and spare-parts for vessels calling at Khemco Terminal are to be routed by flights arriving directly to Abadan Airport without transhipment at Tehran, and addressed to: Gulf Agency Co. (Iran) Ltd., POB 62, Abadan, Iran.

KHORRAMSHAHR: 30.26 N. 48.10 E.

Khorramshahr is in Province of Khuzistan. Town is the seat of a Governor and a base for Imperial Iranian Navy with an admiral permanently stationed in command.

Khorramshahr lies at confluence of Karoon and Shatt-al-Arab Rivers and is principal commercial port of Iran. Khorramshahr is terminus for Imperial Iranian Railway system and regular train service to rest of country is available. Good asphalt road connecting Khorramshahr to other major cities in country.

DOCUMENTS:

(*a*) *Iraqi Quarantine Officer.* Vessels arriving Outer Bar (Shatt-al-Arab pilot station) will be boarded by Iraqi Quarantine Officer who will check all crew vaccination cards. Masters requested notify Fao Quarantine Office at least 18 hours prior vessel's arrival Outer Bar giving exact arrival time Outer Bar enabling Quarantine personnel board vessel immediately. Upon arrival Outer Bar, Master should have ready a copy of crew List and crew vaccination certificates for presentation to Quarantine Officer.

(*b*) *Iranian Quarantine Officer.* Upon arrival Khorramshahr anchorage and prior berthing, the Iranian Quarantine Officer will board vessel. He requires one copy Crew List, and all vaccination cards should be available for inspection.

(*c*) *Customs Officer.* Customs officer boards ship at anchorage or alongside Khorramshahr jetty (in case of immediate berthing) and requires following documents:

Crew List (2 copies).
Stores List (2 copies).

(*d*) *Port Authorities.*

Crew List plus (1 copy).

Arrival information form of the port Administration will be supplied to the Master in duplicate upon arrival, by a port representative.
This form should be filled and returned to the port Berthing Master.

(*e*) *Agents.*

Crew List (2 copies, for arranging shore passes).

Order avoid any delay in entering and discharging, the following documents must be sent by all loading port Agents to Khorramshahr Agents as far in advance of vessel's arrival as possible:

Cargo Manifest (6 copies).
Freight Manifest (2 copies).
B/L Copies (2 copies each).

All cargo shown on manifest must be landed at the port, and it is therefore essential that short-shipments, cancellations, diversions etc. (if any) be reported earliest possible and manifest should be corrected before submission to Port Authorities to avoid payment of fines. Stowage plans and Hatch Lists should also be sent ahead, giving ample time to be studied by Cargo Supervisor for unloading arrangements.

PILOTAGE: With exception of ships of Government of Iran or Iraq and sailing craft, pilotage compulsory for all vessels entering, leaving or navigating in the Shatt-al-Arab. Pilotage in river outside harbour limits of Khorramshahr conducted by river pilot; within limits of Port by Harbour Master.

Vessels entering Shatt-al-Arab boarded by river pilot from pilot vessel situated in proximity of Rooka Buoy (29° 49′ N. and 48° 47′ E.), showing a white flash every six seconds and equipped with Radar Reflector.

Vessels bound for Khorramshahr are conducted by river pilot as far as Khorramshahr Anchorage, from where a Harbour Master (Iranian) will board vessel and berth her as necessary.

Pilotage, dredging and other navigational dues are collected by Basrah Port Authorities and must be settled directly with Iraqi Maritime Transport Co. Ltd., Basrah, Iraq.

N.B. Owners having vessels bound for Khorramshahr or Abadan should contact Iraqi Maritime Transport Co. Ltd., Basrah, cables "Bawakhir", Basrah, about arranging of Shatt-al-Arab pilotage. Owners should also put Messrs. Iraqi Maritime Transport Co. Ltd. in funds by remittance well in time before vessel reaches the Outer Bar of Shatt-al-Arab in order to cover port tonnage dues, pilotage and dredging dues for sailing from Outer Bar to Abadan or Khorramshahr and return.

ANCHORAGES: On arrival off the pilot boat vessel can anchor with no depth restriction. On entering the Shatt-el-Arab River the following are the recognised anchorages:

Kasba Anchorage, position about 2 miles above Fao with a maximum depth of 35 ft. in fresh water.

Bawarda Anchorage, position about 2 miles above Abadan with a maximum depth of 31 ft. in fresh water.

Hartha Point, position about 20 miles above Abadan and 15 miles below Khorramshahr with a maximum depth of 35 ft. in fresh water. Hartha Point is the anchorage to enable vessel's to lighten to 29 ft. in fresh water to enable them to cross the Karun Bar.

Abu Flus, position about 16 miles above Hartha Point and about 14 miles below Basrah (Khora Anchorage) with a maximum depth of 29 ft. in fresh water.

MAX. SIZE: Maximum permissible length for vessels calling Khorramshahr is 525 ft. Maximum draft for crossing Karun Bar and also at Khorramshahr (Failieth) anchorage is 29 ft. fresh water. The depth alongside Berth Nos. 1 to 3 is 27 ft., Berth Nos. 4 to 7 is 26 ft., and Berth Nos 8 and 9 is 29 ft.

SPEED RESTRICTIONS: Engine speed must be reduced well in advance so that the vessel's speed when passing jetties at Khorramshahr and Abadan will not exceed 3½ knots for vessels with more than 20 ft. draft, and 5 knots for all other vessels of over 100 gross registered tons.

The same speed restrictions will apply in the Arband Rud when passing ships at anchor with barges or other vessels moored alongside, tugs with barges or other vessels in tow, and vessels engaged in dredging or other salvage work.

SHIPS' REGISTRATION:

(1) *Conditions of Registration*

(*a*) This registration scheme to apply at all times whether jetties or anchorages are conjested or not.

(*b*) Registration for berthing turn at Khorramshahr can only be effected provided all Khorramshahr cargo is available and vessel in all respects ready to discharge. Availability of cargo must be proven by submission of the respective stowage plan if a vessel is required to discharge at Abadan and/or Basrah whilst awaiting berthing turn.

(*Note:* A vessel arriving in the river with a draft exceeding 27 ft. may register and reduce her draft to 27 ft. while awaiting turn. Should the turn be lost the vessel may re-register turn as at the date and time her allotted berth became vacant.)

(2) *Times of Registration*

(*a*) Vessels arriving from sea will register on arrival at Shatt-al-Arab Outer Bar (when anchor has been dropped according to ship's log book) plus six hours. Vessels to despatch a telegram to their respective Agent and to Port Director via "EQK" indicating exact time of arrival at the Outer Bar in GMT as a basis for registration.

(*b*) Vessels proceeding from Abadan to Khorramshar will register at the time of unberthing at Abadan (or if at anchorage at the time of weighing anchor) plus two hours.

(*c*) Vessels having to anchor at Abu Flus when proceeding from Basrah to Khorramshahr can register from time of arrival there plus one hour. Time of arrival as per log book should be confirmed by telegram as per (2*a*). Vessels proceeding direct from Basrah to Khorramshahr without anchoring at Abu Flus will register on arrival at Khorramshahr. If such vessel should proceed to Abadan she will register when passing Khorramshahr.

(3) *Method of Registration*

(*a*) On receipt of each vessel's registration time the Port Officer Khorramshahr will determine the date on which her turn is due at Khorramshahr.

(*b*) To enable the Port Officer to assess the berthing delay Agents will indicate in their arrival lists (which are to be submitted to the Port Administration daily before 9 a.m.) the estimated number of days their vessel(s) will occupy the jetty. It is thereby understood that the number of days thus declared is not binding upon the Agents concerned but merely used as a basis of calculation to

assess berthing turns. To avoid possible abuse of the registration scheme no alteration may be made in the number of days declared during the last 48 hours preceding each vessel's arrival.

(c) Once the berthing turn has been established the vessel concerned will not lose her turn provided she arrives at Khorramshahr or Abu Flus (depending space available at the anchorage) not later than 12 noon on the preceding day. Vessels have the option to arrive later if their Agents have been able to ascertain that their berthing turn has been delayed but they do so entirely at their own risk. In this case any subsequent delay in arrival – even in case of force majeure – will automatically result in the loss of turn, if the vessel is not in all respects available to occupy her berth immediately it is vacant.

(d) If the ship reported back in time the following three contingencies may arise:

(a) If the estimate proved to be accurate the vessel will berth straight away.

(b) If the berthing delay is greater than the estimate made on registration the vessel will retain its original turn in the queue and berth accordingly.

(c) If the estimate proved pessimistic and the ship's berth became vacant before its return date the berth will immediately be given to the next available vessel in turn of registration. If in such cases the ship indeed returns at 12 noon on the date preceding the day on which its turn was originally due as fixed by the Port Authorities, it will take the first place in in the queue and obtain the first berth becoming vacant thereafter.

(4) *Loss of Turn*

Any vessel having lost her turn will be required to re-register as indicated above unless her delay was due to one or more of the following cases of *force majeure:*

Bad weather.

Unavailability of Pilots at the Outer Bar.

Delay in supply of pilot at Abadan, Basrah or Abu Flus, for which a satisfactory *written* explanation must be given to the Co-ordinator.

Note: For the purpose of calculating whether a vessel could have arrived in time to occupy her berth at Khorramshahr, had the Pilot boarded her as scheduled, it is hereby established that, counted from time Pilot boards it takes a vessel two hours from Abadan, three hours from Basrah, and one hour from Abu Flus to arrive at Khorramshahr.

Delay due to awaiting the next high water during daylight at Karun Bar.

Quarantine regulations: Any vessel placed under quarantine will be permitted to register and be allowed to retain her berthing turn if the quarantine has not been lifted when its allocated berth becomes vacant. The vessel will then take the first available berth after the quarantine has been lifted. The date and time quarantine expires must be mentioned in the daily port position list for publication by the Port Authorities.

(5) In case of dispute arising over the interpretation of the above rules or of situations not properly covered by them the Secretary of KSAA will appoint three arbitrators, preferably not involved in the issue, to work out a solution. Any decision thus arrived at to be accepted by all parties and to be communicated to the Ship's Movement Controller by the Secretary in writing or in case of extreme urgency verbally, written confirmation to follow. A decision once taken cannot be reversed.

(6) In taking advantage of this permissive system it is clearly understood that the estimated berthing delay originally established by the Port Administration will on no account be binding on them.

HEALTH: See "Documents". Inward clearance is effected on board after receiving free pratique.

RADIO: Khorramshahr Port Radio, call sign EQK, 500 Khz, 1282 mhz. Khorramshahr Harbour Master can be contacted on VHF Channels 13 and 16, 18, and 25.

TUGS: The Port Organisation of Khorramshahr owns two tug-boats which are used for assisting berthing and unberthing whenever necessary. No tug boats which could be used for long-distance towage. Employment of tug-boats is not compulsory.

BERTHING: See "Ship's Registration". Berthing and unberthing performed by Iranian Harbour Masters supplied by Iranian Port Administration, Khorramshahr. Berthing turn, allocation of berth and anchorage space is under the control of Iranian Port Administration, Khorramshahr.

The Port consists of 3,199 ft. long jetty constructed with wooden piles (Berths 1 to 7) plus the new extension covering 1,000 ft., built by steel/concrete piles (Berths 8 and 9) running parallel with river bank. Jetty can receive nine ocean going vessels at a time.

CARGO HANDLING: (*a*) *Jetty*. All cargo handling/operations on shore, under control of Khorramshahr Port Administration. General cargo discharged from ships alongside jetty is received on domestic railway wagons and trailers controlled by Port Administration, and transported to Port Warehouses or open yards. Port Warehouse/Store keepers will later deliver cargo to consignees against clearance papers issued by Customs. There are no shore cranes and no floating cranes available for the purpose of discharging cargo. All cargo must be discharged by ship's own gear, and vessels calling at Khorramshahr should not accept cargo beyond their gear capacity to discharge.

(*b*) *Barges*. (i) General Cargo: Vessels carrying less than 500 tons cargo are permitted to discharge their cargo into barges, in which case all extra expenses and costs of barging, discharging ex barges, etc., are to be borne by the carriers and such operation is entirely at the risk and responsibility of the respective carrier.

(ii) Structural Iron/Steel: Structural iron/steel is always to be discharged in barges for unloading at Failieh Creek. Barges must be arranged by vessel's Agents, who also have to arrange labour for discharging the cargo ex barge at Failieh, sorting of the iron, and delivery to consignees. Agents should also emply watchmen for protecting the cargo while awaiting delivery to consignees, also tally clerk for supervising sorting and delivery of iron to the respective consignees. Against these services Agents are presently collecting Rials 110 per ton of 1,000 kilos as a landing charge from the consignees. This rate has been agreed upon between the Agents and the Chamber of Commerce of Khorramshahr.

(*c*) *Cranes*. For use in loading/unloading cargo *in the storage areas,* cranes are all used in the port yard *for unloading cargo ex rail wagons* and loading on to merchants' trucks.

(*d*) *Storage*. 19 warehouses (goods sheds), plus an open yard between the warehouses used for storing iron goods, as well as cargoes which can be stored in the open.

(*e*) *Wagons/Trailers*. For receiving cargo ex-vessels alongside jetty the Authorities have 160 rail wagons and 77 trailers with average capacity of 10 tons, but number of wagons/trailers provided to each vessel not sufficient to last 24 hours work at jetty. Although 24-hours working alongside jetty is compulsory, due to shortage of wagons hardly 12/18 hours work can be accomplished efficiently. A stand-by of 6/7 hours in summer and of 9/11 hours in winter is unavoidable.

(*f*) *Delivery of cargo discharged at jetty*. Port Authorities considered as direct receivers of the cargo discharged, who in turn deliver same to ultimate consignees against presentation of the carrier's agents' Delivery Order.

Carrier's responsibility for cargoes discharged in good condition cease under tackle; slings are opened by labourers provided on wagons alongside each vessel. Broken packages are not permitted (by Customs) to be discharged on the wagons, and are therefore collected on board. Once daily under full control of ship's officer, port supervisor and carrier's supervisor, the broken packages are delivered to Port Authorities and an official Process-verbal will be drawn by respective warehouse-keeper corresponding to remarks noted at the time. This arrangement is to prevent any delay to operations of the vessel.

(*g*) *Overtime Costs*. Wages of port staff on board for official hours are borne by port Authorities but overtime and food allowance are paid by carriers.

(*h*) *Port Working Hours* (*Ordinary*). Summer 0600 to 1400; 1700 to 0100. Winter 0700 to 1500; 1700 to 0100. (Overtime) 0100 to 0500.

24 hour discharging at jetty is compulsory. The only stoppages are for lunch and dinner, one hour each. In summer season, however, due to heat, discharging at jetty is stopped from 1400 to 1700.

FREIGHT TAX: As tax on freight has to be settled without delay after vessel's departure it is suggested that the respective freight amount be sent to Agents according to terms and conditions of Charter-Party, otherwise heavy fines will be applicable to those who do not comply with this regulation.

MEDICAL: Private doctors and hospitals located in the town for medical and dental treatment and hospitalisation. Arrangements for patients' visits to the doctors, dentists and hospital will be made by Agents upon request. In case of emergency special medical attendance on board can also be arranged. X-Rays, radiographies, blood and urine tests can also be conducted by equipped hospitals existing in Khorramshahr and Abadan.

DENSITY: Fresh.

FRESH WATER: Fresh water supply alongside berth available by pipelines and at anchorage is delivered by barges, capacity 100 tons.

FUEL: Bunkers are not available at Khorramshahr Jetty, and cannot be supplied by barge. All classes of bunkers are supplied at Abadan jetties only. Bunkers could be obtained from Abadan provided arrangement for supply has been made beforehand with Iranian Oil Participants, London (Iranop London).

DEVELOPMENT: Intention to extend use of trailers and tractors and to eliminate use of railway wagons.

CUSTOMS ALLOWANCES: After receipt of documents, the Customs Officer will seal the store room. All liquor and cigarette stocks will be sealed and reasonable ship's requirements while in port should be taken from store before sealing. This amount recommended to be assessed and be ready for removal from the stores prior to the vessel's arrival in port. During the stay at the port, and upon request and giving prior notice to the Agents' supervisor on board, arrangements may be made to have the Customs officials open the stores to issue further quantities of stores for crew consumption.

IDENTIFICATION CARDS: According to regulations in force seamen should hold shore pass issued by respective Agents and signed by the Port Health, Port Police and local town Police Authorities. All shore passes should bear a photo of the holder, in order to facilitate checking at exit of port area. It is therefore necessary for officers and crew to have a photograph ready on arrival at the port to facilitate obtaining shore passes.

All officers and crew of ships lying at jetties or anchorage of the Port of Khorramshahr to carry their Seamen's Books with them when going ashore. At the gate, the Seamen's books will be checked by the Police against the shore pass of each crew member, the Seamen's Book will then be kept by the Police and will be returned to the holder when returning through the gate.

CONSULS:

Denmark	Tel. 2203	Norway	Tel. 2616
France	,, 3656	Sweden	,, 2280
India	,, 3056	U.S.A.	,, 2196
Netherlands	3628		

REPAIRS: Minor repairs can be carried out to a limited extent by

private workshops existing at Khorramshahr. However due to lack of skilled workers the workshops in question do not undertake any responsibility or guarantee for the jobs performed, and charges are high.

For radar, wireless, echo-sounders, etc., as well as refrigerator and air condition service there are few engineering groups at Khorramshahr as well as Abadan, and technicians of these groups will attend to the repairs on board both at Khorramshahr and Abadan jetties or at anchorage, upon request.

Ships moored to the jetty are not permitted to disable main power-plants for repairs without prior approval of Marine Department. A port tug will be assigned to stand by alongside ship with tow line attached during entire period while plant is disabled.

DRY DOCKS: None.

SURVEYORS: Lloyd's Register; Det Norsk Veritas; Bureau Veritas. Surveyors for ordinary damage to cargo and/or ship as well as for on-hire/off-hire survey can be arranged by Agents.

AIRPORT: Abadan International Airport about ten minutes by car.

TIME: GMT plus 3½ hours.

TELEPHONES: May be placed on board.

DELAYS: The port of Khorramshahr is generally congested, with a waiting time of about 2/5 days. Port Administration sometimes orders vessels to discharge their Khorramshahr manifested cargo in Bandar Shahpour to ease the congestion at Khorramshahr.

PROVISIONS: Fresh provisions in limited quantity can be obtained, but large quantities of provisions sometimes may not be possible to arrange due to the fact that the Municipality is controlling the market and sometimes may prohibit the supply of the items which are in short supply. Due to certain formalities involved in supplying provisions to vessels, it is requested that 24-hour notice be given to the shipchandler.

STORES: Local commodities only available. Bonded stores not available.

LAUNDRY: Laundryman can be arranged upon request.

AUTHORITY: Ports and Shipping Organisation, Koutcheh Simorgh No. 24 Tehran, Iran.

Khorramshahr Port Director. Ministry of Finance – Ports and Shipping Organisation Port Administration of Khorramshahr.

AGENTS: Gulf Agency Co. (Iran) Ltd., serving: Khorramshahr, Abadan, Bandar Shahpour, Bandar Mahshahr, Ras Bahregan, Kharg Island (Kharg, Darius and Cyprus Terminals), Bushire, Lavan Island and Bandar Abbas. Freight Booking Office: Tehran.

Head Office: Khorramshahr: Gulf Agency Co. (Iran) Ltd., POB 110, Khorramshahr, Iran. Cables: "Confidence", Khorramshahr. Tel. 2280, 2278, 4755/58; after office hours: 2670, 2950, 3193. Telex: 4033 (answerback "Confidence Kor").

Due to the few available Telex lines to Khorramshahr we recommend messages from abroad to Khorramshahr to be sent to our Tehran office, Telex 2507 (answerback: "Confid Tn"). Thereby, please state: "*For Khorramshahr*".

Branch Offices: Abadan, Bandar Shahpour, Bandar Mahshahr, Kharg Island, Bushire, Lavan Island Bandar Abbas. Cable address to all Gulf Agency Company branches: "Confidence".

LAVAN ISLAND: 26.47 N. 53.20 E.

Terminal: Lavan Island Loading Terminal. 26° 47′ 10″ N. 53° 20′ 30″ E.
Operators: Lavan Petroleum Co. ("LAPCO").

PORT LIMITS: Limits of port extend approximately one mile Westward from East coast of Lavan Island, from Terminal Sea Buoy to half a mile Westward from Sassan Submarine Pipe-line Buoy.

Vessels must not enter the Port Limits unless a LAPCO Mooring Master is on board.

DOCUMENTS:

5 Crew and Passenger Lists.
4 Stores Lists.
4 Bonded Stores Lists.
Clear Bill of Health from last port.
4 Bills of Lading.
6 Manifests.

In Iran, an additional copy of the Bill of Lading is required for all exports from the country. This must be signed by the Master and forwarded to the Customs Authorities, Lavan Island by the ship's agent.

APPROACHES: Vessels approaching Lavan Island from due South will have a clear approach.

(*a*) *Landfall.* There are five gas flare towers and one ground flare. The most conspicuous flare is in position lat. 26° 47′ 34″ North, long. 53° 20′ 39″ East situated in the vicinity of Port Area. This flare onshore, when burning, makes a conspicuous landfall for Lavan Island, but at night from a distance tends to obliterate the various navigational lights.

All tanks in the LAPCO Terminal Tank Farm are painted white and numbered in black from 1 to 6. Tanks No. 1 and 2 have the word LAPCO painted in black on the South side. Tank No. 2 is in position lat. 26° 47′ 57″ North, long. 53° 20′ 24″ East.

(*b*) *Navigational Dangers.* South side of Island is open and free from dangers, but care should be exercised approaching from seaward as soundings shallow rapidly near coast with depths of 200 ft. only 4,500 ft. off shore.

PILOTAGE: Pilotage compulsory for vessels berthing on, or departing from Oil Jetty, and when manoeuvring in restricted area. Cargo vessels and men-of-war do not require Pilots as they are accommodated in cargo anchorage. Pilots provided automatically on arrival for tankers if berth available. If no berth available due to bad weather or other causes, vessels will be instructed accordingly. The normal international pilot signals are to be used.

Channel 16 VHF is to be used to call Radio Room. Pilots will normally board vessels one mile S.E. of Oil Loading Jetty. ETA is to be signalled 72 hours before arrival and confirmed, correcting ETA, if necessary 24 hours before arrival.

Ships requested to have pilot ladder safely and securely rigged, and ready for immediate use, and long enough to reach Mooring Master's launch. A combination of pilot ladder and ship's accommodation ladder, so arranged that personnel can first use pilot ladder, until part way up the vessel's side, and then transfer to the accommodation ladder is recommended, especially on very large ships. A light line should be ready to take aboard Mooring Master's equipment. There should be adequate lighting at night. Vessels will provide a lee for Mooring Master both when boarding and leaving.

NAVIGATIONAL AIDS: *Note:* Masters are cautioned to consult their latest Notices to Mariners and Light Lists for most recent information regarding navigation aids.

Lavan Island Terminal Beacon. Lat. 26° 48′ 04″ North, long. 53° 21′ 20″ East. Located in front of the Main LAPCO Administration Building on the South-eastern end of the Island, a rotating white light on a steel lattice tower, painted maroon, 172 ft. above MLWIS exhibiting three flashes every 12 seconds, with a visibility of 18 miles.

Pipe-line Lavan Island Rear Beacon. 26° 48′ 04″ N., 53° 20′ 12″ E. is located to West of Tank Farm on a steel lattice tower. This light displays a fixed red range light over a 10 degree sector beamed to seawards and centred along submarine pipe-line coming to Island from Sassan Oilfield. The light is 192 ft. above MLWIS, range 17 miles in clear weather.

Pipe-line Lavan Island Front Beacon. Lat. 26° 47′ 34″ North, long. 53° 20′ 08″ East and is located in a position 2,800 ft. bearing 176 degree from the rear beacon fixed on a steel lattice tower. This light displays a fixed red range light over a 10 degree sector beamed to seaward and centred along submarine pipe-line coming to Lavan Island from the Sassan Oil Field.

The light is 115 ft. above MLWIS and has a range of 17 miles in clear weather. The beacons when in transit from seaward, will indicate that the observer is over the submarine pipe-line and therefore should not anchor in the proximity of this line of bearing.

Sassan Oil Field Radio Beacon. Located in position 25° 32′ 16″ N., 53° 09′ East. Station identification signal is LA transmitting on 397 kc/s sec., primarily meant as an aircraft beacon but can be received clearly by ships.

Terminal Radio Beacon. Located in position lat. 26° 47′ 40″ North, long. 53° 23′ 04″ East. Station identification signal is LD, transmitting 310 kc/s (kHz/sec) from a tower on the above location. This is primarily meant as an aircraft beacon, but can be received clearly by ships.

ANCHORAGES: Vessels must not enter port limits (which enclose a Prohibited Anchorage Area and Manoeuvring Area). They should proceed to vicinity of suggested Anchorage Area East of Oil Loading Dock and East of longitude 53° 22′ 00″ E., and in suitable depths of water wait for LAPCO Mooring Master. Sea bottom generally hard and reported to be poor holding ground. Depth about 26 fathoms.

Prohibited Anchorages. Anchorage is prohibited in the vicinity of the Sassan and Rostam submarine pipe-lines and for a distance of 2,000 ft., on both East and West sides of pipelines and parallel to same. The Sassan 22 in. pipe-line runs 188 degrees seawards from a position lat. 26° 47′ 32″ North, long. 53° 20′ 05″ East, and the Rostam 18 in. pipe-line runs 205 degrees seawards from a position Lat. 26° 47′ 32″ North, long. 53° 19′ 58″ East.

Terminal Port Area. Area bounded by a line joining positions
Lat. 26° 47′ 31″ North, long. 53° 22′ 00″ East.
Lat. 26° 46′ 21″ North, long. 53° 22′ 00″ East.
Lat. 26° 47′ 26″ North, long. 53° 19′ 22″ East.
Lat. 26° 46′ 49″ North, long. 53° 19′ 22″ East.

Anchorage within Port Area prohibited. Port Area used by vessels manoeuvring to and from oil loading jetty, and no vessel permitted enter Port Area until Company Mooring Master on board.

C. *Offshore Oil Platform.* Anchorage prohibited in area of Sassan Oilfield, some 76 miles South of Lavan Island Marine Terminal, due to existence of numerous submarine oil pipe-lines connecting oil wells and production platform.

RESTRICTIONS: 24-hour service. No restrictions for vessels up to 206,000 dwt as regards time of arrival. Tankers in ballast required to have on board at least 33% of their dwt. in ballast (including permanent ballast). The state of the tide does not effect entry.

MAX. SIZE: Berth designed for up to 206,000 dwt. Vessels of larger dimensions must seek prior approval from LAPCO.

No restrictions applied to size of cargo vessels using cargo anchorage, but then their proximity to the shore will be governed by their draft.

CLEARANCE: (*Arrival*): After Mooring Master has boarded vessel at Port Limits, and before vessel allowed proceed, Master will be required to sign following forms. (*a*) Condition of use of Port of Lavan Island, (*b*) Tug Requisition.

Master will also be provided with copies of Fire and Safety Regulations and a Safety Inspection Form. After berthing has been completed, Master will be required to complete and sign "Mooring Master Time Sheet" before Mooring Master disembarks. After pratique granted, Customs inspection carried out. Master will be required to furnish particulars of vessel including bonded stores, cargo, bunkers, and other information. Five copies of the crew list and stores remaining on board will be required before clearance is granted. *Customs surveillance is strict.* On completion of loading, documentation and final clearance formalities will be carried out aboard vessel, either alongside jetty, or in Anchorage Area, as circumstances dictate.

HEALTH: Owners should check with Agent respecting any recent

imposition of anti-epidemic regulations and requirements for additional injections for crew members. In the case of tankers, doctor will board when ship berthed at Loading Dock and for cargo vessels after ship has anchored. Should vessel, in either case, arrive from another Iranian port and carry a Clear Bill of Health, doctor will not normally board, and pratique automatically granted.

Signals to be exhibited for vessels entering from foreign port: by day: "Q" Flag flown at masthead; by night: red all-round light, over white all-round light. If suspected that ship has disease or fever on board, ship will report details by VHF Channel 12 to Lavan Island.

There are occasional outbreaks of cholera. International Certificates of Inoculation/Vaccination are essential.

RADIO: Call "LAPCO Lavan Island" on VHF Channels 16, 12, or 7. Tugs keep constant watch on Channel 12 VHF and call at intervals on 2182 kc/s. when vessel believed to be approaching, or scheduled call at Lavan Island. This applies to Tankers only.

Khorramshahr Radio Station normally passes on a ship's ETA to the Agent resident on Lavan Island, through Abadan. There is a radio-telephone link from Abadan to Lavan Island.

Nomination and Loading Orders. Ship's Masters should signal their ETA Lavan Island Loading Terminal 72 hours before arrival, and confirm (correcting ETA if necessary) 24 hours before arrival. This message should include amount of cargo to be loaded by vessel, destination as per charter, hours required to de-ballast, number and size of ship's manifold connections, maximum loading rate and whether any sickness on board. This message should be addressed to LAPCO, Tehran Office, Cable address "LAPCO, Tehran", Telex address LAPCO, Tehran, No. 2420, and routed through nearest coastal radio station handling such messages.

Radio Station. There is no CW radio station on Lavan Island.

VHF Radio-Telephone. Lavan Island Loading Terminal equipped with International Maritime VHF/FM radio telephone service using standard international frequencies. Masters recommended use this facility when within range of Lavan Island Loading Terminal, particularly when approaching port. In poor visibility, when vessel's approach may not be observed from shore, VHF communication may be means of avoiding delay in berthing. The following VHF Channels available on a continuous watch basis:

No. 16 (156·8 Mc/s.) (Safety and Calling Channel).

No. 12 (156·6 Mc/s.) (Port Operations, First Choice, Simplex).

No. 7 (156·35 Mc/s.) (Port Operations, Second Choice, Simplex).

Initial contact should be made on Channel no. 16 and then transfer to Channel no. 12 for Port Operations.

High Frequency Radio. HF frequencies used by LAPCO office at Lavan Island for voice communication as follows: High Frequency Single Side Band System.

Channels	*Frequencies*
1	4133 kc/s.
2	5233 kc/s.
3	6840 kc/s.
4	7383 kc/s.
5	9208 kc/s.
6	9153·5 kc/s.

LAPCO normally stands by on Channel no. 5, Upper Side Band.

Marine Frequencies. The tugs presently equipped for voice communication with Marine Frequencies as follows:

1	2182 kc/s.
2	2570 kc/s.
3	2628 kc/s.
4	2738 kc/s.
5	4133 kc/s.

Additional frequencies will be added at a later date.

Radio Telephone Frequencies. LAPCO Tugs fitted with VHF radio telephones covering all international maritime VHF radio telephone frequencies (156–162 Mc/s.).

Radio Watches. LAPCO Radio Station on Lavan Island keeps a 24-hour watch.

TUGS: 2 diesel powered tugs. Both tugs are twin screw, 3,400 b.h.p. Kort Nozzle types with a static bollard pull of 40 long tons. Normally, two tugs used to handle a vessel.

For each tug employed berthing, 3 copies of Towage Certificate to be signed by Master and delivered to LAPCO Mooring Master. For each tug employed unberthing, 3 copies of Towage Certificate to be signed by Master and delivered to LAPCO Mooring Master.

The LAPCO tugs and mooring launches assist in mooring and unmooring vessels. These are under the direct supervision and control of the LAPCO Mooring Master. Service and facilities provided by the company including the services of the LAPCO Mooring Masters, tugs, mooring launches, or berthing equipment, are at the vessel's risk.

Note: On occasions when tugs are employed standing by vessels whilst in the berth for use, if required, the full tug charge will be charged.

BERTHING: The Oil Loading Dock is located on the South Coast approximately 2½ miles from the East end of the Island. The loading platform is 2,030 ft. from the shore, located in position lat. 26° 47′ 06″ North, long. 53° 20′ 30″ East.

Deck level is 32 ft. above sea level Mean Low Water Indian Springs. Under normal conditions, 12 lines used to moor a vessel as follows: Forward: 3 headlines, 2 breast lines and 1 spring. Aft: 3 stern lines, 2 breast lines and 1 spring.

During winter South-easterly storm periods, usual to use one each additional headline and breast line at each end, making total of 16 mooring lines. Breast lines and springs of wire rope acceptable, and normally secured to jetty bollards or patent quick-release hooks, where fitted. Three-inch circumference messenger lines, 240 ft. in length, available eachb erth for hauling lines from mooring launches up vertical face of jetty fendering and along jetty deck, with assistance of electrically operated capstans sited at intervals along jetty.

Berth No.	*Least depth water (in ft.) above chart datum MLWIS‡*	*Maximum capacity* dwt*	*Loading and bunker arms†*
1	69	200,000	4–16 in. 1–8 in. (future bunker)
2	65	65,000 LOA 800′	2–16 in. 1–8 in.

Distance from ship side to manifold flange, ft.	*Maximum elevation of manifold above chart datum, feet-inches*
10	76–6
12	75–9
14	75–0
16	74–0
18	72–9

* Subject to weather, tidal conditions.

† Bunker arm at Berth No. 2 only. All Chiksan Loading Arms are fitted with series 150 Flanges.

‡ Chart Datum is Mean Low Water Indian Springs and maximum range of tide is 7 ft.

Tankers to have ready: Fore and aft winches ready for use, and minimum of 16 good mooring lines, 120 fathoms each, with adequate stoppers.

The Terminal accepts tension wires or ropes, only with proper supervision on the brake. Derricks, hose-lifting winches and gear must be rigged on port and starboard sides, topped over the manifold.

Ship's crews perform all operations of mooring, connecting hoses, and unmooring, on board ships.

LOADING: If possible, ships should arrive with 16-in. spool adaptors fitted to loading manifold ready for use.

Sassan Crude Oil of approximately 34·0 degrees API gravity is available from the LAPCO 3,000,000 barrel Tank Farm. Delivery of oil to the loading dock is by gravity flow, through two 36-in. diameter pipe-lines.

Rostam Crude Oil of approximately 37·0 degrees API gravity is available from the IMINOCO 1,500,000 barrel Tank Farm, immediately West of the LAPCO tanks. Delivery of oil to the loading dock is by gravity flow through two 36-in. diameter pipe-lines.

After the vessel has berthed, the Mooring Master, who acts as a loading master, will discuss arrangements, inspect tanks, sign the tanker dry certificate, and finally check cargo figures with ship's personnel. Before loading commences, all items on the "LAPCO Safety Check List" will be complied with, and an inspection made by the Chief Officer and the Mooring Master.

Loading rates of up to 50,000 bbls/hr. (6,700 t/hr.) to berth No. 1, and 30,000 bbls/hr. (4,000 t/hr.) to berth No. 2 can be achieved at Lavan Island.

Up to 40,000 bbls/hr. (5,300 t/hr.) to Berth No. 1, and 25,000 bbls/hr. (3,300 t/hr.) to Berth No. 2 can be achieved when loading two ships simultaneously.

Do not close valves against crude oil flow.

Emergency Flow Stop Signal if all communications fail will be a continuous sounding of the ship's whistle.

BALLAST:

(*a*) Masters are warned that no dirty ballast, or bilge water should be disposed of in sea within 50 miles of coast of Iran. When so disposing of ballast all pipe-lines, sea suctions, strainers, and pumps that are later to be used to discharge clean ballast, must be flushed clean, so that there will be no chance of even a small amount of sea pollution when the clean ballast is pumped out.

(*b*) As soon as practical after arrival, all vessels' tanks will be inspected for oil in ballast. During discharge of ballast similar inspections will continue.

(*c*) Should ship's tanks be found leaking it will not be later accepted for loading, unless satisfactory evidence duly certified by "Lloyds" or "ABS" Surveyors, or other recognised surveyors of repair is submitted.

(*d*) Any vessel rejected because of dirty ballast or sea pollution will automatically nullify "Notice of Readiness" and will lose any priority of position for loading. On return from sea, Masters should tender new Notice of Readiness to LAPCO. If this accepted by LAPCO the vessel will be entered for loading as of new time of acceptance. Vessels will be rejected for dirty ballast at all times.

(*e*) Vessels equipped with separate system of ballast tanks will be allowed to discharge ballast and load oil simultaneously,providing approval is first obtained from the LAPCO Terminal Superintendent and provided NIOC Petroleum Inspector agrees.

DENSITY: Average 1026.

TIDE: The tide is mainly diurnal with a mean range of 3 ft. 0 in., and extreme range of 5 ft. 6 in., and an extreme height of 7 ft. 0 in. above chart datum, which is MLWIS.

The tidal stream varies according to the state of the tide, with a maximum rate of about 1 knot.

Tide boards are fitted to the two berthing dolphins adjacent to the loading platform.

WEATHER: In summer time from May to September temperature reaching 50°C (122°F) and humidity ranging from 10 per cent to 100 per cent. The winter (November to March) mild and pleasant with minimum temperature approximately 6°C (43°F). The wind for most of year from North-west, but sometimes particularly during

winter strong South-easterly storms likely to occur lasting for several days. Oil Loading Pier partly sheltered from North-west winds, but exposed to winds from South.

STEVEDORES: For cargo vessels the Agent requires four days Notice of Arrival in order to transport labour from Bandar Abbas. Agent provides labour for working cargo "to the rail" and receiver provides lighterage and labour thereon.

MEDICAL: LAPCO maintains small clinic on Lavan for minor medical treatment of LAPCO staff. No medical services available except in emergency and subject to availability of doctor.

FRESH WATER: None available.

FUEL: Bunkering facilities installed at each jetty berth, but bunkers are not available at this time. Diesel oil tank (used primarily to store fuel for LAPCO facilities operations) has a capacity of 20,000 bbls.

CARGO GEAR: Ship's discharging dry cargo to barges in the cargo ship anchorage use ship's gear.

FIRE PRECAUTIONS: Vessel receives full detailed instructions from Mooring Master. Vessels must have fire-wires and engines not to be immobilised.

CONSULS: No consular representation on Lavan Island. Nearest consulates at Khorramshahr near Abadan.

REPAIRS: No repairs allowed alongside oil loading jetty. No workshop or repair facilities available. Ships' main engines must be available at all times while alongside jetty.

MARINE SURVEYS: Loyd's Surveyor based at Khorramshahr and can usually be called through vessel's Agent at 72 hours notice.

AIRPORT: No scheduled or regular air flights to Lavan Island. All aircraft required for transportation of goods or passengers must be made by charter. Airport is used by Oil Company Charter planes only and no other passengers are carried except in an emergency situation.

TIME: Iranian Standard Time which is GMT plus 3 hours 30 minutes.

POLICE/AMBULANCE/FIRE: There is a Government Gendarmerie Station on the Island. There are no telephones established for these services. Emergencies will be handled by LAPCO staff in case of tankers.

SHORE LEAVE: Ship's crew not allowed to go ashore.

CREW CHANGES: Not permitted.

REGULATIONS (miscellaneous): Painting and scaling. Painting, chipping, scaling or spray painting on deck or overside *strictly prohibited* while vessel at any jetty berth.

FLAG: All vessels are required to fly the Iranian Flag (green uppermost) in Iranian territorial waters.

Garbage. Dumping overside of garbage and refuse prohibited in Port Area.

Sanitation. Government Health Regulations require suitable covers to be fitted over all lavatory discharge outlets, etc., to prevent fouling of jetty or craft alongside.

Damage to Port Facilities. If a Master has reason to suppose that any damage has been caused by his vessel to any Port Facilities, he must agree, in writing, with LAPCO Mooring Master as to nature and extent of such damage, and this must be confirmed by LAPCO Port Captain.

Rat Guards. All ships berthed alongside must provide Rat Guards for Ship's Moorings.

No Visitors. No visitors allowed on terminal dock, or on board vessels alongside dock, unless by written permission of Terminal Superintendent. Only persons having authorised work will be given access to port limits, dock or vessels.

AUTHORITY: LAPCO Administrative Offices, LAPCO has offices at the following addresses: Head Office: PO Box 3243, Tehran, Iran. Terminal Office: Lavan Island, Persian Gulf.

AGENT: Gulf Agency Co., Lavan Island.

Head Office: Khorramshahr. Gulf Agency Co. (Iran) Ltd., POB 110, Khorramshahr, Iran. Cables "Confidence", Khorramshahr. Tel. 2280, 2278, 4755–58. After office hours 2670, 2950, 3193. Telex 4033 (answer back "Confidence Kor").

Due to the few available Telex lines to Khorramshahr, messages from abroad to Khorramshahr to be sent to Tehran office, Telex 2507 (answer back "Confid TN") stating: "For Khorramshahr".

Air-freighted spare parts and ships' mail should be addressed: Gulf Agency Co. (Iran) Ltd., POB 62, Abadan, Iran, and sent to the Abadan International Airport marked "In Transit for M/S. . . ."

Air-freight consignments should be routed by flights arriving *directly* to Abadan Airport without trans-shipment at Tehran. Cable advise "Confidence", Abadan, of flight details and airway bill number.

RAS BAHREGAN: 29.43 N. 50.10 E.

Nowruz Loading Terminal:

DOCUMENTS:

5 Crew and Passenger Lists.
4 Stores Lists.
4 Bonded Stores Lists.
Clear Bill of Health from last port.
4 Bills of Lading.
6 Manifests.

PILOTAGE: Vessels to be moored at Bahrgan Terminal will be boarded by a Mooring Master of the Company within 2 miles of the SBM. The Mooring Master will advise the ship's Master on approaches to the berth, mooring and unmooring, connecting and disconnecting the floating hose, and in all other operations within the berthing area.

Vessels are requested to have a pilot ladder safely and securely rigged, ready for immediate use, and long enough to reach the Mooring Master's launch. If at night, adequate lighting must be rigged overside for the Mooring Master to approach the side of the ship and climb the ladder safely. Adequate searchlights should also be rigged when mooring at night.

The Mooring Master will be in direct charge of the portable VHF ship-to-shore radio-telephone communications.

ANCHORAGE: The SBM is in the open sea with no surface obstructions in the vicinity. However, anchorage is prohibited in the following areas:

(*a*) Immediate vicinity of the SBM – within a one to two mile radius of the SBM.
(*b*) One mile on either side of 36-in. submarine pipe-line from SBM to Bahregan Oil Centre.

RESTRICTIONS: The Bahregan SBM Terminal operates 24 hours per day, seven days a week. However, mooring or unmooring is only carried out if fair or moderate weather conditions are prevailing.

In the event that berthing is delayed on account of weather, vessels will keep their position in line. Vessels required to leave the terminal area on account of weather (terminal closed) should keep in contact with the terminal via radio in order to be available when weather moderates.

FLAG: All vessels are required to fly the Iranian flag on the foremast during daylight hours. Iranian territorial waters extend 12 miles seaward from the mainland and adjacent islands.

ADVICE OF ARRIVAL: It is important that ships establish radio contact with SIRIP when 3 days distant from Bahregan Terminal and maintain this contact until just previous to arrival at the Terminal. All ships should send a 72 hour ETA message to SIRIP giving the best estimate of ship's arrival time at the Terminal.

Further ETA messages should be sent to SIRIP when the vessel is 24 hours and 12 hours distant from Bahregan Terminal and at any other time any appreciable change occurs in the original ETA or those subsequent thereto. The 12-hour ETA should include a positive statement regarding ships readiness to load on arrival and the number of hours that will be required to discharge clean ballast after ship is berthed in mooring, as well as details of the flange size of the manifold.

MAX. SIZE: SBM terminal designed for tankers up to 250,000 dwt.

COMMUNICATION: Radio contact ship/shore on 2477 kc/s from 0530Z–0630Z and 8230 kc/s from 1130Z to 1230Z. ETA notices to be sent to the Oil Company: cable address "Sirip Khorramshahr" via Khorramshahr port radio call sign: EQK – 500 kc/s.

RADIO: Bahregan Oil Centre Radio Telephone Station maintains a daily watch on the following frequencies at the times stated.

GMT: 0530–0630 on 2477 kc, 1130–1230 on 8230 kc.

In addition, once a tanker has advised its 72 hours ETA, the Bahregan Oil Centre maintains a watch on VHF Channel 11. The call sign for Bahregan Oil Centre is "BOC". Contact can be made on other frequencies if requested.

Communications during mooring and loading: Portable VHF radio-telephone units are brought on board by the Mooring Master.

NOTICE OF READINESS: Tenders to load crude oil cargo will normally be accepted and the berth will be assigned to vessels in order of arrival, provided vessels have nominations for cargo valid at time, carry clean ballast and are in all respects equipped and ready to moor.

Tankers to have ready:

(*a*) Windlass and deck winches foreward, maindeck and aft.
(*b*) Six good nylon or synthetic mooring lines, each not less than 120 fathoms in length, with efficient stoppers for each line.
(*c*) On port side, opposite ship's manifold, equipment capable of lifting floating hose safely and expeditiously. Weight lift of 5·5 tons.

Ship's crew performs all operations on ship.

SBM: The single buoy mooring is 13·5 metres in diameter and 3.65 metres high at its highest point. It is equipped with the following navigational aids:

Signal light: White colour, flashing morse code "U" every 15 seconds. Range 5 miles.
Fog horn: Morse code "U" every 45 seconds.
Radar reflector fitted. The whole SBM is painted a bright orange colour.

TUGS: Available and required.

SINGLE BUOY MOORING: The Monobuoy is situated about 15 kilometres from the shore in position 29° 43′ 02″ N., 50° 09′ 46″ E. Depth of water in vicinity of buoy mooring is 30 to 31 metres. Buoy is served by a 36-in. loading line with a capacity of 700 cubic metres per hour.

MOORING: The optimum approach to the single buoy mooring is into the wind and sea. Sometimes, however, this will not be possible because of tides at variance with strong wind conditions. Accordingly, it is incumbent upon the Master to exercise careful judgement when approaching the Terminal, particularly during the hours of darkness and in poor visibility. It should be noted that the incoming tides flow towards the N.W. (approx. 310°) and outgoing tides towards the S.E. (approx. 130°). The company Mooring Master will give all necessary advice to the ship's Master.

Particular attention must be paid to the location of two strings of floating loading hose. Normally the position of the floating hoses will be controlled by the tidal currents rather than by wind effect. During daylight hours the hose string is highly visible by virtue of their covering of orange plastic floats.

When approaching the SBM at night or during poor visibility the radar is an excellent means of ascertaining the exact distance to the Terminal. The floating hose strings normally stand out very clearly on the lower radar range scales.

Once the optimum approach route has been selected, the tanker should proceed towards the SBM at a suitable speed dependent

upon conditions at that time. At approximately 3,000 ft. from the SBM the tanker should have only sufficient way on for steerage. The floating hoses should be on the port side, and it is recommended that the tanker make the final approach with the SBM on the port bow, rather than dead ahead. This permits the Master on the bridge to observe the SBM at all times and in the event of any misjudgement of the approach speed there is no danger of over-running the Terminal. (The tanker should adjust her engines such that all way is off the vessel between 150–50 ft. from the SBM).

At a suitable distance from the SBM the service launch which will have maintained station during the approach, will take two lines from the ship and secure them to the mooring bitts on the SBM. The launch will then bring the two large SBM float ropes to the ship, which should have a messenger line ready to raise them. Once these float ropes (each of which has a breaking strain in excess of 305 tons) are secured the ship may, if so desired, recover its own lines which are used only to provide a safeguard during pick up of the SBM float lines.

In the event that the floatrope mooring lines provided by the Company are not used or not available, the Ship is secured using 6 lines from the tanker all on port side.

HOSES: Two flexible floating hoses connect the ship's manifold with the Terminal's cargo manifold, and separate hoses connect the underside of the SBM to the submarine pipe-line end manifold (PLEM) on the seabed. A submerged peripheral fender extending outward from the hull is provided to prevent damage to the floating hoses and SBM, should the tanker ride up against it.

After the vessel is securely moored the service launch will tow the end of the floating hoses to a point on the port side of the tanker immediately below the tanker's cargo manifolds. The tanker's derrick runner should be ready to lift the hoses which will secured by the attached chains in such a manner as to allow the ends of the hoses to reach the ship's manifold. The weight of the hose to be lifted is approximately 5½ tons.

The hoses are fitted with 16-in. flanges, and the Company will provide reduction pieces to 14 in. or 12 in.; other sizes (as well as gaskets) as required to make connections to ship's manifold. The hose connection is normally performed by SIRIP's loading crew under the supervision of the Mooring Master. However, a ship's deck officer must be present, and must direct the ship's crew as required.

LOADING: The ship's officer responsible for loading should give SIRIP's mooring Master at least half an hour's notice of readiness to commence loading. In any event, the ship should advise SIRIP during its last radio contact prior to arrival of the estimated time required to discharge ballast, so that an approximate time for commencement of loading can be established. It is also helpful if the ship advises the size and type of flange and also the distance of the manifold from the ship's side during radio connection.

The initial loading rate is normally about 1,500 long tons per hour while the recently coupled flanges are inspected for leakage and the Mooring Master and ship's officer satisfy themselves that all is in order with the SBM and the ship's facilities. As soon as this is done, the loading rate is increased to the maximum of 5,500 long tons per hour.

Caution: The incoming oil stream is controlled from the shore and it is extremely dangerous to close a ship's valve against the pressure, which may damage hose, ship's piping, or shore facilities. Vessels will be held liable for damages resulting from failure to observe this precaution.

The ship's officer in charge of loading should advise the Mooring Master half an hour before he estimates loading will be completed.

On advice from the ship a minimum of 4 minutes is required to stop the flow of crude oil, however, a reduction in loading rate before topping up the final tanks may be arranged on request to Mooring Master.

During loading or unloading the International Code Flag "B" shall be displayed from a topmast signal halyard during daylight hours. During hours of darkness a red light shall be displayed. This light should be of a character such as to be visible at a distance of at least 1 mile, and show an unbroken light all round the horizon.

CARGO: Bahregan Sar Crude, API from 20 to 32, Temperature 85°F.

BALLAST: The waters of the Persian Gulf must not be polluted, and only clean, oil-free ballast (and/or bilge water) may be discharged.

As soon as practicable after arrival, all vessel's tanks will be inspected for evidence of oil ballast and during discharge of ballast, similar inspection will continue. If evidence of oil appears at either of these inspections, the ship must leave mooring and proceed at once to a point not less than 50 miles from any coast or island and there completely discharge all oily or dirty ballast.

Vessels equipped with a separate system of ballast and cargo tanks will be allowed to discharge clean ballast and load oil simultaneously, providing approval is obtained.

Note: When loading is carried out under rough weather conditions the tanker should not be allowed to get into a light condition, and therefore deballasting should not be completed until a reasonable amount of the cargo has been loaded.

MEDICAL: Depending on the availability of the Company doctor, medical assistance can be provided, although there is no hospital available. In cases of extreme emergency, SIRIP will arrange transport to Abadan at the ship's expense and responsibility.

DENSITY: Salinity is approximately 20% more than normal sea water.

BUNKERS: Not available.

WATER: Not available.

STORES: Not available.

SERVICES: No facilities for crew change, etc., or any other vessel's requirements, as the terminal is situated off-shore in the Persian Gulf and there are no transportation facilities other than Oil Company's flights from Abadan which are meant for their own personnel.

REPAIRS: Masters of vessels loading at Bahregan Terminal are advised that this port is considered an "open roadstead" and under no circumstances may engines be shut down for repairs while their ships are moored. There are no facilities at Bahregan Terminal for making vessel repairs.

CONSULS: There are no consulates at the Bahregan Terminal; however, consular or diplomatic representatives for most nations maintain offices in Tehran and some in Khorramshahr.

SHORE LEAVE: There is no shore leave permitted due to lack of facilities.

TERMINAL OPERATORS: Societe Irano Italiene des Petroles (SIRIP).

AGENTS: See "Khorramshahr". (Actual handling is effected by Oil Company SIRIP, but Khorramshahr Agents are in a position to handle ETA messages, etc., addressed to them via Khorramshahr Port Radio EQK, also to communicate messages to and from SIRIP Khorramshahr and shipowners. Agents can also pass arrival and sailing details to principals, and despatch copies of loading cargo documents as required by Owners. Forwarding ship's mail to Bahregan and despatching official and crew mail received from ship, can be arranged by Agents. Such services are not undertaken by the Oil Company, and it is advisable to appoint an Agent at Khorramshahr.)

Iraq

BASRAH (Maqal and Umm Qasr): 30.31 N. 47.50 E.

DOCUMENTS: On arrival at pilot station vessel requires following: Ship's Register, letter from Owner confirming that vessel has not called at Israel port, all Health Certificates of Crew must be valid against cholera and smallpox, 2 copies Crew List, 2 copies Provision List, 2 copies Manifest, Freight manifest for Baghdad Rail cargo, Breakdown list and Stowage Plan, Dangerous cargo and heavy lift list (if any).

PILOTAGE: Owners having vessels bound for Basrah should contact Iraqi Maritime Transport Co. Ltd., Basrah, cables "Bawakhir Basrah" to arrange Shatt-al-Arab Pilotage. Owners should also put Iraqi Maritime Transport in funds by remittance well in advance of vessel reaching Outer Bar of Shatt-al-Arab in order to cover port tonnage dues, pilotage and dredging dues, for sailing from Outer Bar to Basrah and return.

The Pilot Boat is located usually in position 29° 46′ 45″ N. 49° 48′ 37″ E. and on arrival vessel should contact pilot boat immediately for instructions. Pilots are available for vessels proceeding to Abadan and Khorramshahr (in Iran) and Basrah (Maqal and Umm Qasr). Providing Master has given Agent 48 hours notice of vessel's ETA Pilot will board immediately providing tide is suitable to allow vessel to continue to destination. Master should use call sign YIR on 500 kc/s for Basrah Radio in order to pass messages to Agent. Vessel should listen for messages on 440 kc/s from YIR or use VHF on Channels 14 and 12. On boarding the river Pilot will hand Master various forms for completion in respect of Light Dues and River Pilotage. Master to Hoist the Iraqi National Flag.

The Pilot boat is called "Al-Rasheed" and on both sides amidships the word "Pilot" is painted in white.

The Navigation of the Shatt-al-Arab River is under the jurisdiction of the Iraqi Ports Administration which takes in the approaches to Abadan and Khorramshahr in Iran.

ANCHORAGES: On arrival off the pilot boat vessel can anchor with no depth restriction. On entering the Shatt-el-Arab River the following are the recognized anchorages:

Kasba Anchorage, position about 2 miles above Fao with a maximum depth of 35 ft. in fresh water.

Bawarda Anchorage, position about 2 miles below Abadan with a maximum depth of 31ft. in fresh water.

Hartha Point, position about 6 miles above Abadan with a maximum depth of 35 ft. in fresh water. Hartha Point is the anchorage to enable vessels to lighten to 29 ft. in fresh water to enable them to cross the Karun Bar.

Abu Flus, position about 12 miles above Hartha Point with a maximum depth of 29 ft. in fresh water.

Khora Anchorage, position about 3 miles from Basrah Wharves (Maqal) with a maximum depth of 29 ft. in fresh water.

Jubailah Anchorage, position at Basrah Silo about half-mile below Basrah Wharves (Maqal) with a maximum depth of 29 ft. in fresh water.

The maximum length between perpendiculars permitted by the Iraqi Ports Administration for vessels in the Shatt-el-Arab river is 560 ft.

RESTRICTIONS: The Iraqi Ports Administration issue a booklet on Tide Tables each year and the movements of vessels in and out of the Shatt-el-Arab River are restricted to the high water tables for vessels using Basrah and Khorramshahr. Movements to and from these ports are only permitted in the hours of daylight. The maximum draft for a vessel proceeding to Basrah is 29 ft. in fresh water. If vessel's draft exceeds this lightening takes place at Hartha Point Anchorage below the Karun Bar. Although the draft obtainable alongside the wharves is 31 ft. the maximum draft for moving in the river is 29 ft. on account of the restriction at the Karun Bar.

MAX. SIZE: For vessels proceeding to Basrah the maximum length between perpendiculars allowed by the Iraqi Ports Administration is

560 ft. There is no restriction on the breadth. The maximum draft in fresh water for vessels to and from Basrah is 29 ft.

HEALTH: Masters are requested to call the Chief Medical Officer at Fao on 500 kc/s. call sign "YIS" requesting free pratique between 8 and 12 hours before vessel's arrival. All crew vaccination certificates should be valid and available for the Medical Officer's arrival on board. He will also expect to find a valid Deratisation Certificate on board. Anyone boarding the vessel ahead of the Medical Officer whilst the Q Flag is still hoisted is liable to a fine. Special precautions are taken in the case of a vessel arriving direct from an epidemic area and even if the crew are holding valid inoculation certificates the vessel may be delayed at the pilot station. The Iraq Government is very sensitive about the spread of cholera and smallpox.

RADIO: When a vessel is three days away from Basrah, radio contact can be established with Basrah Radio, call sign YIR on high frequencies 4, 6, 8, 12 and 16 kHz bands. When the vessel is within three days of arrival, Basrah Control Radio (YIR) can be used (transmitting on 500 kHz and receiving on 461·5 ot 440 kHz).

List of Coast Stations (*Iraq*). Summary of Procedures:

I. Whilst inside Iraq territorial waters, ships under way will maintain watch on channel 16 (156·80 MHz) and/or 461·5KHz to ensure immediate reception of instructions issued by the controlling authorities.

(a) Khor Al-Amaya Radio maintains listening watch on channel 16 (156·80 MHz).
(b) Pilot Station (Al-Rasheed Radio YIBE) maintains listening watch on channel 16 (156·80 MHz) and 500 KHz.
(c) Fao Radio (YIS) maintains listening watch on channel 16 (156·80 MHz) and 500 KHz.
(d) Al-Wasiliyah Radio (YIT) maintains listening watch on channel 16 (156·80 MHz) and 461·5 KHz).
(e) Basrah Control Radio (YIR) maintains listening watch on channel 16 (156·80 MHz) and 500 KHz.
(f) Umm Qasr Radio (YIU) maintains listening watch on channel 16 (156·80 MHz) and 500 KHz.

II. Special Instructions:

(a) Navigational Warnings are transmitted on 500 KHz by Basrah Control Radio (YIR).
(b) North Arabian Gulf Weather Forecast is transmitted by:
1. Basrah Control Radio on:
440 KHz at 0530, 1330 GMT and on request. 6493·25 KHz at 0530 GMT and on request. 8668 KHz at 1330 GMT and on request.
2. Khor Al-Amaya Radio on channel 16 (156·80 MHz) at 0530, 1330 GMT and on request.
(c) Traffic Control Signals on channel 16 (156·80 MHz) and 500 KHz by Basrah Control Radio (YIR).
(d) Traffic Control Signals on channel 16 (156·80 MHz) and 461·5 by Al-Wasiliyah Radio (YIT).
(e) Traffic Control Signals on channel 16 (156·80 MHz) and 500 KHz by Fao Radio (YIS).
(f) Traffic Control Signals on channel 16 (156·80 MHz) and 500 KHz by Umm-Qasr Radio (YIU).
(g) Traffic Control Signals on channel 16 (156·80 MHz) by Khor Al-Amaya Radio.

III. Commercial and public correspondence: Call Basrah Radio (YIR) on channel 16 (156·80 MHz), 500 KHz, 4, 6, 8, 12 and 16 MHz bands and after initial contact has been established change to one of the working frequencies as instructed to pass messages.

Basrah Radio follows the following time-table:

Hours	*Listen on*	*Answer on*	*Traffic Lists*
H24	500	440 461.5	–
0400–0600	6265·5–6280·5	6493·25	0505
0600–0800	16708–16748	16968	0705
0800–1000	8354– 8374	8668	0905
1000–1200	16708–16748	16968	1105
1200–1400	8554– 8374	8668	1305
1400–1600	12531–12561	12986·5	1505
1600–1800	4177–4187	4356·5	1705

TUGS: River-and sea-going tugs are available. Tug-boat services are offered as and when deemed necessary by port Pilot or Harbour Master, and are available at all times during day and night.

BERTHING: See "Restrictions". All berthing of vessels at Basrah is done during daylight hours only and according to suitable tide. The Harbour Master joins vessel on her arrival at Khora Anchorage which lies about 2 miles from the Maqal Wharves. In the case of Umm Qasr the Harbour Master joins vessel on arrival off the wharves.

Height of pier (quay) at berthing places above mean low water:

(*a*) Maqal – Plus 12·5 ft. above zero port datum. Port datum is 3·96 ft. above mean zero level at Fao.
(*b*) Umm Qasr – 24·65 f . above lowest water of spring tide which is referred to as Umm Qasr Port datum.

Difference between high and low water:

(*a*) Maqal: A daily variation of 5 ft. between tides and max. of 8 ft.
(*b*) Umm Qasr: An average of 12 ft. between tides, and maximum of 17 ft.

Maqal (*Ma'gal*). Wharves vary in length from 155 to 170 metres, depth alongside 8·84 metres.

Umm Qasr. The wharves are of reinforced concrete with a continuous frontage of 2,100 ft. with a depth of 33 ft. alongside, and capable of accommodating three cargo ships at one time. Each berth is 600 ft. long. The wharves are provided with a total of 8 electric gantry shore cranes from 3 tons to 15 tons capacity. A floating-crane of 150 tons capacity is in operation.

BRIDGES: There are no bridges across the river from the entrance to Basrah Wharves (a distance of about 80 miles).

STEVEDORING: Information on the numbers of gangs required on board on vessel's arrival should be passed to the Agent together with vessel's ETA through Basrah Radio. The average rate of discharge of general cargo at Basrah (Maqal and Umm Qasr) is 6 tons per ganghour per 16 hour day. Contractors will place labour on board to discharge or load cargo but at the risk of the vessel as a Contractor will not accept any responsibility for damage done by labour.

Unloading of vessels basically carried out from vessels to wharves by Port cranes or ships derricks. Heavy lifts and some dangerous cargoes are discharged overside into barges. Loading from jetty is by crane directly into ships. Loading at midstream is by lighters.

VHF: Port radar service. VHF can be used to call the Iraqi Port Administration at Basrah on Channel 16.

MEDICAL: For a vessel in to Basrah (Maqal and Um Qasr) no advance notice is required, in order to obtain medical attention. Hospital facilties available at the new port hospital and other local hospitals.

For arrival at Basrah it is necessary to hold valid cholera and smallpox certificates.

TANKERS: See "Khor-al-Amaya".

FRESH WATER: Fresh water is available at the wharves at Maqal and Umm Qasr but where a vessel is moored in midstream and requests water there is the additional charge for the hire of the water tanker.

FUEL: Only one grade of fuel oil available from the Basrah Refinery, a fuel oil viscosity 200 to 210 Red. No. 1, SG ·920.

Gas and diesel oils also available.

Fuelling is direct if taken alongside Muftiyah Refinery jetties, otherwise by barge. No coal bunkers available.

GANGWAY/DECK WATCHMEN: It is recommended that vessels moored or anchored in the river employ Gangway/Deck Watchmen.

OPENING/CLOSING HATCHES: This work is normally done by crew, but if the labour on board are asked to do it they should be supervised by an Officer.

CUSTOMS ALLOWANCES: (Tobacco) The Ship's Bond is sealed on arrival but prior to the sealing each member of the crew can have 200 cigarettes. The Bond will be opened by the Customs on the request of the Master at any time during vessel's stay in Basrah.

(Wine and/or Spirit) Each crew member is permitted to have 1 litre out of Bond. On sailing from Basrah the Master is required to wait till vessel has cleared the Shatt-el-Arab River before opening the Bond. This does not apply when vessel calls at Khorramshahr or Abadan on the way down river.

IDENTIFICATION CARDS: All crew members are required to carry with them some form of identification when going on shore.

CONSULS:

Belgium	Tel. 3666	Pakistan	Tel. 3598
Denmark	,, 3205	Sweden	,, 3511
Norway	,, 3511	U.S.A.	,, 4231
Saudi Arabia	,, 3219	India	,, 4824
United Kingdom	,, 4251	Portugal	,, 4469
Greece	,, 3601	U.S.S.R.	,, 5410
Kuwait	,, 2235		

REPAIRS: All types of repairs except major engine repairs can be carried out.

DRY DOCKS: There is no dry dock available for cargo vessels. The present dry dock called "Ajnadeen" built in Japan in 1965 has a displacement of about 4,220 and lifting capacity of 4,000 tons and has following measurements l × b × d – 105·35 × 29·20 × 10·95 m.

REPATRIATION: No difficulties in arranging the repatriation of crews from Basrah. Emergency visas are easily obtained for joining and departing crews.

AIRPORT: The Basrah Airport formerly an International Airport is now used only as a domestic airport and is situated about 2 miles from the Maqal Wharves but 50 miles from Umm Qasr. There is a daily flight to Baghdad to connect with International flights, also 3 flights per week to Kuwait to connect with international flights.

TIME: Iraq time is 3 hours ahead of Greenwich Mean Time and there are no alterations made to clocks during the year.

HOLIDAYS: The official holiday of the week in Iraq is Friday. The other official holidays in Iraq are: Id-el-Fitr; Army Day; 14th Ramadan Revolution; Id-el-Adha; Hijra; Ashura; Labour Day; Birth of Prophet Mohamed; Republic Day; "18th November" Revolution; Id-el-Fitr. These holidays are advanced 12 days each year.

POLICE/AMBULANCE/FIRE: A call to 7601 or 7606 will connect to the department required.

TELEPHONES: Telephone is placed on board a vessel as soon as secured alongside wharf.

GENERAL: The rain season in Basrah is between November and April and during the summer months from May to October the temperature can be as high as 55°C. It is important that crew members keep the backs of their necks covered whilst working on deck during the heat of the summer. The use of salt tablets are recommended during the heat of the summer.

SPECIAL SERVICES: There is a laundry service available.

SHORE LEAVE: There is no restriction on crew members going on shore but it is important that they carry a form of identification.

REGULATIONS: The Port Authority have requested that no photography takes place from the ship whilst passing naval or military installations.

DELAYS: As the port of Basrah is considered very well equipped, cargo vessels usually receive a very quick despatch and it is very seldom that a vessel experiences waiting time for a berth for discharging, loading or bunkering. All discharge takes place at the

wharves and all loading takes place in midstream at mooring buoys. Where a vessel can load whilst discharging, this is permitted.
AUTHORITY: Iraqi Ports Administration, Basrah.

AGENTS: The business of Shipping Agencies relating to all ships calling at Iraqi ports is entrusted solely and exclusively to Iraqi Maritime Transport Co. Ltd. The addresses of Iraqi Maritime Transport Co. Ltd. are the following:
Main office: Iraqi Maritime Transport Co. Ltd., POB 3052, Baghdad/Iraq. Cable address: "Bawakhir", Baghdad.
Basrah Branch: Iraqi Maritime Transport Co. Ltd. POB No. 3, Basrah/Iraq. Cable address: "Bawakhir", Basrah.

FAO: 29.58 N. 48.29 E.

DOCUMENTS: On arrival at pilot station, vessel requires the following:
Ship's Register.
Letter from Owner confirming that vessel has not called at Israeli Port.
Health Certificates of Crew must be valid against cholera and smallpox.
2 copies Crew List.
2 copies Provision List.
2 copies Manifest.
Dangerous Cargo List, if any.
PILOTAGE: The pilot boat is located in position 29° 46′ 45″ N. 49° 48′ 37″ E., and on arrival vessel should contact pilot boat immediately for instruction. VHF Channels 14 and 12. Provided Master has given Agent 48 hours' notice of vessel's ETA, Pilot will board immediately. The pilot boat is called *Al Rasheed* and on both sides amidships the word "Pilot" is painted in white.
ANCHORAGE: On arrival off the pilot boat vessel can anchor with no depth restriction.
MAX. SIZE: *Tankers* – 650 ft. LOA. 35 ft. draft.
HEALTH: Masters are requested to call the Port Medical Officer at Fao on 500 kc/s, call sign "YIS4", requesting free pratique between 8 and 12 hours before vessel's arrival. All crew vaccination certificates should be valid and available for the medical officer's arrival on board. He will also expect to find a valid Deratisation Exemption Certificate on board. Anyone boarding the vessel ahead of the Medical Officer whilst the (Q) Flag is still hoisted is liable to a fine.
Special precautions are taken in the case of a vessel arriving from an epidemic area and even if the crew are holding valid Vaccination Certificates the vessel may be delayed at the pilot station. The Republic of Iraq is very sensitive about the spread of cholera and smallpox.
RADIO: Basrah Radio, call sign YIR on high frequencies 4, 6, 8, 12, and 16 bands. Fao Radio, call sign YIS, traffic control signals on Channel 16, and 500 kHz. Also see Khor al Amaya.
MEDICAL: No advance notice is required in order to obtain medical attention. Medical units are present at Fao, Um Qasr and Maqal. A modern hospital containing all the essential units is found at Maqal. Crew in need of special attention or admission may be referred to it by the medical units.
DEVELOPMENTS: Plans to build a deep-sea terminal including oil storage facilities and an under-sea pipeline, about 30 miles off the Fao port, capable of accommodating giant tankers of up to 300,000 tons. The work is expected to be completed by 1978.
TIME: Three hours ahead of GMT.
AUTHORITY: Iraqi Ports Administration, Basrah.
AGENT: Iraqi Maritime Transport Co. Cables: Bawakhir Fao.

KHOR-AL-AMAYA: 29.46.45 N. 48.48.37 E.

OPERATORS: Basrah Petroleum Company Limited.
LOCATION: Island Terminal about 20 miles out in the Gulf from the mouth of the Shatt-al-Arab River.
ADMINISTRATION: All waters of the Shatt-al-Arab and of the approaches to Khor-al-Amaya are controlled by the Iraqi Ports Administration.
APPROACHES: (a) *Lights.* One white all-round navigation light has been fitted to the top of the radio mast on the centre piled structure at a height of 153 ft. above MHWS. Character: flashing every 5 seconds, visible for 18 miles; candlepower 7,400.
Red lights are fitted at the four extreme corners of the structure which is 1,300 ft. long. Character: fixed red visible 2 miles.
Additionally there are several aircraft warning lights (red) on various parts of the structure marking the upper extremities of towers and other erections including the central radio tower.
(b) *Tides.* High water at the Terminal may be expected to occur about 20 minutes before high water at the Shatt-al-Arab, Outer Bar. This may vary due to local meteorological and spate conditions. Tidal streams in the vicinity are rotatory and are not likely to exceed 2 knots. The maximum streams are generally along the berthing faces of the Terminal, but at certain states of the tide, cross sets, at right angles to the berthing faces, may be experienced. These are unlikely to exceed ¾ knot.
DOCUMENTS:
Crew List (5 copies).
Store List (2 copies).
PILOTAGE: Masters of vessels bound for Khor-al-Amaya Terminal should contact the pilot vessel which cruises in an area about 2 miles South-east of the Terminal. They will receive instructions as to whether to lie off, anchor or proceed towards the Harbour Master's launch.
HEALTH: Quarantine Officer boards after berthing. Vaccination Certificates required.
RADIO: Procedure for contacting Basrah Petroleum Company. Vessels are requested to establish contact with Basrah Petroleum Company Limited, Basrah, 48 hours prior to arrival, and to re-establish contact for 48 hours after departure. Telegraphic Address: (Baspetco Basrah), (Baspetco Fao). Position: Lat. 30° 35′ 36″ N. Long. 47° 48′ 32″ E. Call sign "HNT" (FC). (a) Transmission 8,582 kHz. (b) Reception, tankers call on 8,356–8,374 and work on 8,374–8,457.5 kHz. Periods 0400–0430, 0800–0830, 1200–1230, 1600–1630. All times GMT. Services: CV. Class of Operation: C.W. Class of Emission: A1.
Vessels should indicate their date and time of arrival, quantity of cargo required and whether in a state to receive cargo. In the event of vessels being unable to establish direct wireless contact with Basrah Petroleum Company Radio Station, messages should be passed through the Iraqi Ports Administration.
Procedure for contacting Iraqi Ports Coast Stations
1. Summary of Procedure. Whilst inside Iraqi territorial waters, ships under way will maintain watch on Channel 16 (156·80 MHz) and or 461·5 kHz to ensure immediate reception of instructions issued by the controlling authorities.
(*a*) Khor al-Amaya Radio maintains listening watch on Channel 16 (156·80 MHz).
(*b*) Pilot Station (Al-Rasheed Radio YIBE) maintains listening watch on Channel 16 (156·80 MHz) and 500 kHz.
(*c*) Fao Radio (YIS) maintains listening watch on Channel 16 (156·80 MHz) and 500 kHz.
(*d*) Al-Wasiliyah Radio (YIT) maintains listening watch on Channel 16 (156·80 MHz) and 461·5 kHz..
(*e*) Basrah Control Radio (YIR) maintains listening watch on Channel 16 (156·80 MHz) and 500 kHz.
(*f*) Umm-Qasr Radio (YIU) maintains listening watch on Channel 16 (156·80MHz) and 500 kHz.
II. Special Instructions.
(*a*) Navigational warnings are transmitted on 500 kHz by Basrah Control Radio (YIR).
(*b*) North Arabian Gulf weather forecast is transmitted by: 1. Basrah Control Radio on: 440 kHz at 0530, 1330 GMT and on request. 6493·25 kHz at 0530, GMT and on request. 8668 kHz at 1330, GMT and on request. 2. Khor al-Amaya Radio on Channel 16 (156·80 MHz) at 0530. 1330 GMT and on request.
(*c*) Traffic Control Signals on Channel 16 (156·80 MHz and on 500 kHz by Basrah Control Radio (YIR).
(*d*) Traffic Control Signals on Channel 16 (156·80 MHz) and 461·5 kHz by Al-Wasiliyah Radio (YIT).
(*e*) Traffic Control Signals on Channel 16 (156·80 MHz) and 500 kHz by Fao Radio (YIS).
(*f*) Traffic Control Signals on Channel 16 (156·80 MHz) and 500 kHz by Umm-Qasr Radio (YIU).
(*g*) Traffic Control Signals on Channel 16 (156·80 MHz) by Khor al-Amaya Radio.
III. Commercial and Public Correspondence. Call Basrah Radio (YIR) on Channel 16 (156·80 MHz), 500 kHz, 4, 6, 8, 12 and 16 MHz bands, and after initial contact has been established change to one of the working frequencies as instructed to pass messages.
Note. All messages are chargeable except those concerning navigational aids, distress, pratique and medical advice messages.
TUGS: I.P.A. tugs (of 2,000 b.h.p.) are available to assist in berthing and unberthing.
BERTHING: The Terminal consists of a piled structure, in 12 fathoms of water, having one tanker berth on each side with suitable mooring dolphins and platforms ahead and astern which are connected by catwalks. The orientation is 320°/140°. There are two berths. The maximum loading rate, with only one berth in use, is 9,000 tons per hour. With both berths in use the maximum loading rate at each is 4,500 tons per hour. Fire-fighting towers are provided, also helicopter platform. Loading is by "Woodfield" flow booms offering 2 or 4, 12 in. hoses. Vessels of the order of 120,000 dwt can be accepted at either berth.
The S.G. and A.P.I. and temperature of the crude oil will be supplied to the Master on radio request.
MEDICAL: An Iraqi Ports Administration Medical Dresser will always be available to attend to quarantine matters, deratisation certificates, etc. A doctor can be made available, through vessel's Agent, upon prior request, but necessary to give 24 hours notice to arrange.
FUEL: Not available ex-wharf.
CUSTOMS ALLOWANCES: During vessel's stay at Terminal, one carton of cigarettes only allowed to each crew member.
SAFETY REGULATIONS: Safety regulations and fire fighting procedures will be discussed with the Master on arrival.
GANGWAYS: Ships must supply their own gangways when alongside. Accommodation ladders and other ship side ladders are not suitable.
FRESH WATER: Can be supplied by water tankers if requested 24 hr. in advance at least.
REPAIRS: Basrah Petroleum Company has no facilities to undertake ship repair work of any description.
AGENCY: All Agency work is carried out by the Iraqi State Maritime Transport Company. Cable address: Bawakhir Basrah, or Bawakhir Fao. Masters of tankers should contact the Agent through Basrah Radio Station prior to arrival. Agent's representatives are not housed on the island. Ship's documents for port clearance purposes are passed by them to the Agent for action. Stores and provisions will be sent out by the Agent, given sufficient prior notice.

Israel

ASHDOD: inc. Ashkelon. 31.49 N. 34.39 E.

DOCUMENTS:
3 Crew Lists, and Crew Passports or Seamen's Books.
1 Provisions List.
1 List of Articles in possession each crew member – cameras, binoculars, radios, cigarettes, tobacco, etc.
Master to declare firearms and rounds of ammunition.
4 Passenger Lists.
Stowage Plan and Manifest to be mailed in advance, preferable Master to cable 72 and 78 hours before arrival holds workable and gangs required also draft foreward and aft on arrival.

PILOTAGE: ETA through Haifa Radio 4XO addressed to Agent at least 12 hours before arrival. Pilot station and boat equipped VHF Channel 14 contact above channel for instructions. Pilot boards about ½ mile off port entrance between W. to N.W. from breakwater head (green light).

In bad weather, when boarding impossible, vessel is guided into harbour by VHF or tugboat waiting at entrance, at Master's consent.

Pilot ladder as per Safety of Life at Sea. Vessel should head about 4 points into weather. Recommended two life lines running along ladder, one each side, ropes 2½"–3" cir.

ANCHORAGE: All area open sea, no recommended safe anchorage, but vessel should avoid anchorage near fairway and too close to oil installation buoys.

RESTRICTIONS: Pilotage available 24 hours. Enter according arrival time or berths available. Vessels at anchorage awaiting berth keeps watch Channel 14 VHF.

MAX. SIZE: Draft limitations at Bulk Pier: Summer, 11 metres. Winter, 10·5 metres. Draft limitations other piers: 9·8 metres. No limits length or breadth. Tankers see below.

HEALTH: Free pratique by radio is granted on request by the International Quarantine Message to the Quarantine Station round the clock.

RADIO: Haifa Radio 4XO.

TUGS: 1 of 1,500 h.p., 2 of 1,000 h.p. Each charge included in pilotage charge for normal berthing attendance. Tugs await at port entrance and act on Pilot's instructions. Vessel's lines are requested.

TANKERS: Terminal situated at Ashkelon where tankers load crude oil by under water pipe-lines. Size of vessel is unlimited due to the depth of water. The loading rate is about 30,000 tons in 12 hours. All services such as supply of bunkers, provisions, water, crew changes, must be carried out at Ashdod roadstead where health and immigration officials board. Vessels not requiring any services at Ashdod may call directly at Ashkelon, only paying light dues and anchorage dues.

FRESHWATER: Fresh water supplied by taps at 220 tons per hour or by barge. Minimum supply is 30 T.

FUEL: Supplied by trucks, or supplied by special barges. 24 hours advance notice required.

CONSULS: All Consulates in Tel-Aviv approx. 40 km. Available by telephone.

REPAIRS: No dock, but minor repairs effected.

GANGWAY/DECK WATCHMEN: Not compulsory. Port guard keeps gangway watch.

OPENING/CLOSING HATCHES: Performed by stevedores. Mechanical hatch covers operated by crew.

CUSTOMS ALLOWANCES: 200 cigarettes, one open bottle of spirits per person.

IDENTITY CARDS: Issued by port police on arrival.

TIME: Local standard time is two hours ahead of Greenwich Mean Time.

AIRPORT: Lod, served by regular air lines, distance 35 km.

HOLIDAYS: Port business is suspended on the following holidays: Saturdays; The two days of the Jewish New Year (Rosh Hashana); The Day of Atonement (Yom Kippur); The first and the last day of the Feast of Tabernacles (Sucot); The first and the last day of Passover (Pesah); Pentecost (Shvuot); Independence Day. The first of May is observed by the port workers as Labour Holiday and therefore no work is done in the port on that day.

POLICE/AMBULANCE/FIRE: Police, Ambulance, Fire Services, telephone 22222.

AUTHORITY: Israel Ports Authority – Port of Ashdod, POB 16, Ashdod. Tel. No. 055–32121. Telex No. 69622, Cables: Ashnam.

AGENT: M. Dizengoff and Co. Ltd., PO Box 4001, Ashdod, Israel. Tel. 21581/7. Telex 03–814, 03–836.

EILAT (Elath): 29.32 N. 34.57 E.

DOCUMENTS:
For Customs:
Customs Questionnaire, Crew Customs Declaration, Stores List, Crew List Passengers List, Foreign Currency List, Narcotics List, Arms List, Import Cargo Manifest, Transit Cargo Manifest.
For Quarantine:
Maritime Declaration of Health, Valid Vaccination Certificate for smallpox all crew and passengers Deratisation (exemption) Certificate.
For Border Control:
1 Police Questionaire, 2 Crew Lists, 2 Passenger Lists, Seamen Books and travelling documents of passengers.

PILOTAGE: Compulsory, ordered through Agent. When unable to contact Agent, pilot can be ordered by contacting Harbour Master by Eilat Radio, or by VHF Channel 14. Vessel due to berth awaits opposite oil installations located approximately 2½ cables S. of the main jetty. Vessels requesting Pilot for anchoring stop opposite the main end of the North jetty. Tankers waiting Pilot for oil installations to stop ½ mile South of oil installations. Pilot motor launch, red hull, grey superstructure amidships stationed at north end of main jetty. Pilot ladder complying with all safety regulations and properly lighted during dark hours is necessary. Vessels awaiting pilot should anchor only in designated area.

ANCHORAGES: Boundaries of area marked by lines connecting following positions:
(A) 29° 32′ 51″ N. 34° 57′ 19″ E.
(B) 29° 32′ 26″ N. 34° 58′ 34″ E.
(C) 29° 31′ 40″ N. 34° 58′ 27″ E.
(D) 29° 32′ 31″ N. 34° 57′ 06″ E.
Average depth 25 fathoms. If arriving at port for first time, do not try anchoring anywhere outside anchorage area.

MAX. SIZE: For berthing alongside main cargo jetty, length 528 metres, max. draft up to 39 ft.

Additional cargo jetty length 70 metres, max. draft up to 19 ft.

North Oil Jetty accommodates tankers up to 125,000 dwt. with draft of 56 ft.

South Oil Jetty can accommodate tankers up to 500,000 dwt. Depth of water alongside 94 ft.

HEALTH: Free pratique may be requested by cable via Haifa or via Eilat Radio from Quarantine Authorities. If suspected disease or fever on board immediately advise Quarantine Eilat with all details.

RADIO: Call sign Eilat Radio 4XA. Full details working hours and frequencies found in Admiralty List Radio Signals and similar publications. Good radio connection with Eilat can be obtained also via Haifa Radio, call sign 4XO, operating continuously.

TUGS: Tugs meet vessel off quay. Lines not usually used as tugs usually push. When needed, ship's lines used.

BERTHING: No difficulty except at times of strong Southerly winds when small vessels may have to leave quay and proceed to anchorage or sea, due to strong swell.

STEVEDORES: Booked by ship's Agent. All details of cargo distribution and storage to be cabled in advance to Agent.

MEDICAL: Hospital facilities available. Crew member or passenger must have valid international cert. for smallpox.

DENSITY: 1030.

FRESH WATER: Available in unlimited quantities and supplied at all jetties. No facilities for supplying fresh water at anchorage.

FUEL: All grades supplied in small quantities by road tanker.

BULK HANDLING FACILITIES: Two heavy lift cranes for container handling installed on main cargo jetty. Capacity 25 tone each.

DEVELOPMENTS: Installing Syncrolift with lifting capacity of 1,200 tons. Construction of General Cargo quay, depth alongside 22 ft.

OPENING/CLOSING HATCHES: Normally by stevedores.

CUSTOMS ALLOWANCES: Every crew member is permitted to keep 200 cigarettes or the equivalent amount of other tobacco, out of bond. Every crew member is permitted to keep one bottle of spirits and one bottle of wine, out of bond.

IDENTIFICATION CARDS: Every crew member going ashore should have a shore leave pass. Shore leave passes will be received from the border control officer after the vessel is cleared.

CONSULS: There are no consulates in Eilat. All consulates are in Jerusalem or in Tel-Aviv.

REPAIRS: All afloat deck and engine repairs can be performed by local workshops.

REPATRIATION: There are all facilities for arranging repatriations or crew changes.

AIRPORT: Eilat Airport is used at present for internal traffic only. There are 8 flights daily from Eilat to Tel-Aviv except on Saturdays. From Tel-Aviv there is good transportation to Lod International Airport.

TIME: Local time is GMT plus 2 hours; no summer time is kept.

HOLIDAYS: No cargo work is usually performed during official holidays or Saturdays. The official holidays are: Passover (2 days during April); Independence Day (1 day end April/beginning May); First Harvest Day (1 day end May/beginning June); Jewish New Year (2 days, September); Day of Atonement (1 day end September); Feast of Tabernacles (2 days, October). No cargo work is usually performed during 1st of May although it is not an official holiday.

TELEPHONES: At present there are no facilities to arrange telephones on board ships.

SHORE LEAVE: Crew members are granted shore leave.

DELAYS: Normally vessels arriving after midnight are berthed only at daybreak, before the beginning of the morning shift.

AUTHORITY: Israel Port Authorities, Eilat Port Management, PO Box No. 37. Phone: 2191–8. Telex: Local only 621.

AGENT: M. Dizengoff and Co. Ltd., POB 11, Eilat. Tel. 2146–7. Telex No. 0529.

HAIFA: 32.49 N. 35.00 E.

DOCUMENTS:
3 Crew Lists, and Crew Passports or Seamen's Books.
1 Provisions List.
1 List of Articles in possession each crew member – cameras, binoculars, radios, cigarettes, tobacco, etc.
Master to declare firearms and rounds of ammunition.
4 Passenger Lists.
Stowage Plan and Manifest to be mailed in advance, preferable

Master to cable 78 hours before arrival holds workable and gangs required, also draft foreward and aft on arrival.

PILOTAGE: Compulsory for all merchant and foreign naval vessels. Pilotage service is rendered round the clock. Vessels are boarded by Pilot seaward of the main breakwater.

ANCHORAGE: Vessels shall not anchor within the prohibited areas and must keep clear of the fairways of the main harbour and Kishon Zone.

MAX. SIZE: The width of the entrance channel to the main port, between the main and lee breakwaters, is 183 m. The depth of the entrance is 12 m. The width of the entrance to the Kishon Harbour is 70 m., with a minimum depth of 8·50 m. Vessels of maximum draft 35 ft. can be safely accommodated in the main port: in the Kishon harbour accommodation is limited to vessels of 24 ft. draft. Depth in both harbours are maintained by dredging at regular intervals.

Tankers: Up to 50 ft. draft at buoy moorings.

RADIO: Radio-telephone service from ship-to-shore and vice versa via Haifa Radio, call sign 4XO. Ships in port may also be connected to the Israeli telephone system.

The port has a signal station equipped with a modern 60 kw R/T installation, working on the frequencies 156·60 Mc/s, Channel 12, and 156·70 Mc/s, Channel 14. The station is licensed for port operation only and is in continuous service. For all other ship-to-shore communication contact Haifa Radio, call sign 4XO.

The Israeli Meteorological Service broadcasts twice daily the weather forecast in English for East Mediterranean area over Haifa Radio.

HEALTH: Free pratique by radio is granted on request by the International Quarantine Message to the Quarantine Station round the clock (including holidays) via Haifa Radio, call sign 4XO on 500 kc/s.

Medical advice by radio for all ships may be obtained through Haifa Radio 4XO free of charge. Call "Medico Haifa".

There is no special quarantine anchorage.

Vaccination against smallpox is required from arrivals, except those who were resident in a European country, in Canada or in the U.S.A. for more than 14 days before disembarkation in Israel, provided those countries are free from smallpox.

TUGS: Vessels obtain tug assistance, if required, for entering or leaving the harbour and for shifting.

BERTHING: Ships moor normally to wharves and jetties, and to a lesser extent stern to the main breakwater.

Main Harbour

The main harbour is situated on the Southern shore of Haifa Bay at lat. 72° 48″ N., long. 35° 01″ E. It is protected by two breakwaters: the main breakwater, 2,210 m. long, in the North, and the lee breakwater, 745 m. long, in the East.

The harbour basin covers an area of 1,050,000 m² (about 260 acres). The main port's land area amounts to 630,000 m² (about 155 acres).

Kishon Auxiliary Harbour

To the East of the main port, around the lower reaches of the Kishon rivulet, lies the Kishon Auxiliary Harbour. It consists of an outer harbour basin that is protected by two breakwaters of 600 m. and 350 metres length respectively, and a main channel of 1,045 m. length, of which the first stretch of 700 m., measured from the entrance to the outer harbour basin, has a depth of 8 m. while the second stretch of 345 m. has a depth of 6·50 m. A side channel, 213 m. long and 4 m. deep, which branches off the main channel toward the East, serves as a fishing dock. Another side channel 350 m. long and 8 m. deep serves as holding basin of the shipyard.

Wharves

Main Port	*Length metres*	*Depth metres*
Main Wharf	171	9·4
	400	9·4
	442	11·0
	270	11·5
	40	11·5
	170	9·0
	48	9·0
Cargo Jetty	205	9·0
	85	9·0
Oil Jetty	350	10·7
	330	9·8
East Lighter Wharf	110	4·4
West Lighter Warf	220	3·0
Kishon Zone		
Cargo Wharf	355	6·5
	285	8·0
Fishing Dock	213	4·0

BULK HANDLING FACILITIES: *Coal:* Coal imports are usually handled by grabs fixed to shore cranes.

Grain: Two mobile elevators on main wharf with combined unloading capacity of 465 tons per hour.

Chemicals: Chemicals in liquid bulk unloaded and loaded at chemical tank farm in Kishon Zone. Terminal jetty suitable for tankers up to 20,000 dwt. with draft 22 ft. 6 in.

Containers – presently containers are discharged and loaded in the Western area of the port, having all facilities to handle 20 ft. and 40 ft. containers. A container terminal is in the process of being established in the Eastern part annexed to the Oil Dock Breakwater. Operational by mid-1973.

TANKERS: Up to four oil tankers can be accommodated at one time at the Oil Jetty, two on each side (draft 28 ft.–33 ft.).

In the Roadstead

There are three submarine oil loading and unloading berths, each connected to a submerged pipe-line, two to 12 in. dia. pipe-lines and one to a 32 in. dia. pipe-line.

Berth No.	*Situation in relation to harb. entrance*	*Diameter*	*Extension from shore*	*Direction*	*Depth under water*
1	1¾ m. N.E.	12″	4,200′	307°	52′ *
2	1¼ m. N.E.	12″	4,500′	290°	52′ *
3	½ m. N.E.	32″	10,000′	319°	58′ **

The signal station ashore opposite berth No. 3 has two signal masts. Vessels moor with their own two anchors ahead and mooring lines to two buoys astern. The Oil Company's mooring master acts as a pilot until the vessel is moored and supervises the connecting and loading or discharging, remaining aboard until sailing time.

Throughput Rates

Vessels load or unload up to 1,000 tons per hour through 10 in./12 in. pipe-lines on the Oil Jetty and up to 700 tons per hour at the 12 in. pipe-line submarine berths. The 32 in. pipe-line berth is destined for loading or unloading supertankers at the rate of up to 2,000 tons per hour.

MEDICAL: Hospital facilities available. Agent will board vessel with Company doctor if so required by the Master.

FRESH WATER: Drinking water is plentiful and of satisfactory quality; no treatment is needed as water is frequently examined and chlorinated when required. The water is supplied by hydrants from shore or by water-barge at a delivery rate of 30–50 ton per hour. Boiler water not available.

FUEL: The following grades of oil are available for supply as bunkers:

Heavy Fuel Oil	1,500 secs. Red. 1 at 100°F.
Light Fuel Oil	450 secs. Red. 1 at 100°F.
Marine Diesel Oil	Standard Grade
Gas Oil	Standard Grade

The oil is supplied direct from Oil Dock or from barges. Bunkers are normally supplied between 7.00 a.m. and 15.15 p.m. on working days; at any other time by special arrangement. Delivery rate from Oil Dock is up to 500 tons (3,500 bbls.) per hour and from barges up to 150 ton (1,000 bbls.) per hour.

REPAIRS: Israel Shipyards Ltd. run a modern shipyard, situated in the Kishon Zone, capable of building ships of up to 10,000 ton deadweight and to handle hull repairs, conversions, engine repairs and repairs of electric equipment.

The yard operates 2 floating docks with a lifting capacity of 7,500 and 1,100 tons respectively.

Vessels which need no dry docking can be repaired at the shipyard's quay, totalling 400 m. length with 7–8 m. depth. Ogen Ltd. also undertake ship repairs.

STEVEDORES: Enable Agent order gangs, important obtain 48 hours advance accurate ETA from vessel. Failure give precise ETA may result in ship losing 12/24 hours, also cost gang waiting time. No work on official holidays.

Working Hours

Work is usually carried on in two shifts: the first shift is from 06.30 to 15.30 hrs., with one hour's break as noon on ordinary working days, or from 06.30 to 13.30 with no break at noon, on the eve of Saturdays and holidays. The second shift is from 16.30 to 23.30 hrs. on ordinary working days and from 14.30 to 21.30 hrs. on the eve of Saturdays and holidays. Occasionally, in order to complete work on a ship or for special cargoes, a third shift is worked from 24.00 to 06.00 hrs. on ordinary working days and from 22.00 to 04.00 hrs. on the eve of Saturdays and holidays.

GANGWAY/DECK WATCHMEN: Not compulsory. Port guard keeps gangway watch.

OPENING/CLOSING HATCHES: Performed by Stevedores. Mechanical hatch covers operated by crew.

CUSTOMS ALLOWANCES: 200 cigarettes, and one open bottle of spirits per person.

IDENTITY CARDS: Issued by port police on arrival.

TIME: Local standard time is two hours ahead of Greenwich Mean Time.

AIRPORT: International air connection from Lod Airport, 105 km. from Haifa.

CONSULS:

Austrian	Liberian
Belgian	Norwegian
Ivory Coast	Spanish
Guatemala	Finnish
Danish	Panamanian
Holland	French
Yugoslavian	Swedish
Greek	

HOLIDAYS: Port business is suspended on the following holidays: Saturdays; the two days of the Jewish New Year (Rosh Hashana); the Day of Atonement (Yom Kippur); the first and the last day of the Feast of Tabernacles (Sucot); the first and the last day of Passover (Pesah); Pentecost (Shvuot); Independence Day. The first of May is observed by the port workers as Labour Holiday and therefore no work is done in the port on that day.

GENERAL:

Persons Boarding Vessels

No person shall be allowed on board any vessel unless he is in possession of a boarding pass which must be shown on demand to the police officer at the gangway.

Passes for boarding cargo vessels on business are issued by the Port Management; passes for boarding cargo vessels for any other purpose and passes for boarding passenger vessels are issued by the Frontier Control Section of the Port Police.

Swimming
Swimming in Haifa Harbour is strictly forbidden and Masters should instruct their crews accordingly.
Use of Ship's Boats
The use of ship's boats is forbidden in Haifa Port. A public motor-launch service is available for the convenience of ship's personnel. The signal to call the motor-launch is as follows:
By day: The international Code of Signals Flag "N" hoisted at the yard.
By night: Repeated flashing light signalling of the International Morse Signal "N".
Photographing
Photographing in the port area is strictly forbidden without a written permit issued by the Commander of the Port Guard.
SHORE LEAVE: Shore leave passes are obtainable at the Frontier Control Section of the Port Police Station. Applications for the passes shall be filed with the Boarding Officer, Port Police. All shore leave passes must be surrendered to the Boarding Officer before departure of the vessel.
AUTHORITY: Israel Ports Authority, POB 539, Haifa. Cable address: Malhof. Tel. 66561, 41161.

AGENT: Messrs. M. Dizengoff and Co Ltd., POB 300, Haifa. Telegrams: Dishipping, Haifa. Telephone No. 43371. Inland Telex No. 044827. International Telex No., Haifa 044814/044815 (two lines).

Italy

ANCONA: 43.37 N. 13.32 E.

DOCUMENTS:
4 copies Crew Lists.
1 copy Provisions List.
1 copy B/L every set.
1 copy General Cargo Manifest.
3 copies Crew Dutiable Articles (slop-goods).
5 copies Passenger List (in transit or not).
PILOTAGE: Pilot usually boards vessel range 1–2 miles from harbour's entrance (red light) in fine weather conditions. Pilot house situated near the "red light" – pilot boat of international type. If bad weather Pilot boards vessel at harbour's entrance. Compulsory for vessels over 500 GRT.
ANCHORAGES: In Ancona roads at Master's discretion (Pilot available for anchorage).
RESTRICTIONS: Tankers berthed in daytime only.
MAX. SIZE: Falconara Oil Terminal: up to 44 ft. draft.
Ferruzzi Silos: up to 30 ft. draft.
General Cargo Berths: up to 28 ft. 6 in. draft.
HEALTH: Sanitary pratique obtainable by radio according International Rules by cabling "Sanimare Ancona" between 12 to 6 hours before arrival.
RADIO: Ancona Radio "ICA" – frequency 500 kc/s. – working frequency 489 kc/s. By radio telephone: Ancona Radio PT "IPA", kc/s 2182. (Service for VHF to be installed within a short period of time.)
TUGS: Usually join vessel at harbour entrance – ship's lines used, compulsory for vessels of over 3,500 GRT.
STEVEDORES: ETA usually tendered to Agent 72/48/24 hrs. prior arrival in order arrange gangs.
MEDICAL: Assistance available if required.
BULK HANDLING FACILITIES: *Grain:* Silos operated by Ferruzzi and ICIC. Discharging rate 2,500 metric tons per 16 hours.
Ore: Discharging rate 1,200 metric tons each shift of 8 hours.
TANKERS: *Falconara Oil Terminal.* Owned by Anonima Petroli Italiana S.P.A. 1 hose of 16 in., 1 hose of 12 in., 2 hoses of 14 in., 1 hose of 8 in. (for bunker), 1 hose of 4 in. (for water), 1 flying hose for fresh water about 70 mm., 1 flying hose for bunker of 100 mm.
Permitted draft up to 42 ft.
Sea Buoy Berth. Situated 600 metres N.W. of the terminal, for discharging crude oil. Seven pipe-lines with the following size: 1 for fresh water (3 in)., 1 for crude oil (300 mm.), 1 for fuel oil (200 mm.), 1 for gas oil and diesel marine (200 mm)., 1 for gasoline (200 mm.), 1 for gasoline (300 mm.).
Permitted draft is about 44 ft.
Jetty: A tanker berth is situated at 300 metres from the end of the jetty, used for vessels with draft not over 19–20 ft.; one pipe-line of 200 mm. for gasoline. A further berth at the pier is being constructed to take vessels with draft not over 26 ft.
FRESH WATER: Available from quay. Straight time plus increase for overtime and holidays.
FUEL: All grades available. (Note: marine diesel obtainable not distilled but mixed fuel/gas oil.) Delivered by pipe-line or barge.
GANGWAY/DECK WATCHMEN: Not compulsory but recommended.
OPENING/CLOSING HATCHES: Optional crew or stevedores.
CERTIFICATES:
Radio Telegraphy.
Load Line.
Tonnage.
Class.
Registry Safety Equipment.
Deratting, etc.
Italian Anchorage Dues Bill, if already paid.
CUSTOMS ALLOWANCES: Tobacco. 50 cigarettes for each man during vessel's stay at Ancona – British/U.S.A. flag vessels may obtain after a certain period of stay another ration of 50 cigarettes per man. Seals cannot be opened. Wines/vermouths/beer no restrictions. Spirits ¾ bottle depending on the number of crew.
IDENTIFICATION CARDS: Passport or seaman's book required.
CONSULS:
Swedish Consul, tel. 23252
French Consular Attache, tel. 22879
REPAIRS: Minor engine/electrical, carpentry repairs can be effected.
DRY DOCKS: One for up to 500 dwt.
REPATRIATION: From April to October weekly regular lines to Greece/Yugoslavia/Cyprus/Israel every fourth night.
AIRPORT: Falconara – 14 km. from Ancona. Direct flight to Rome/Milano, connection for international flights.
TIME: In winter plus 1 hour to GMT. In summer 2 hours to GMT.
HOLIDAYS: National and local holidays: 1st January, 6th January, 19th March, 25th April, 1st May, 4th May (local), Easter and day after Easter, Ascension Day, Corpus Christi, 2nd June, 29th June, 15th August, 1st November, 4th November, 8th December, 25th–26th December. Work can be arranged if required in time and subject to Harbour Master agreement.
POLICE/AMBULANCE/FIRE: Port Police, tel. 31030; Fire Station, Port, tel. 31715; Red Cross, tel. 23332; Yellow Cross, tel. 22680.
TELEPHONES: No facilities for connecting to vessels.
GENERAL: All tankers proceeding to Falconara must approach Ancona roadstead for Pilot and pratique.
AUTHORITY: Il Comandante, Colonello di Porto, Ancona.

AUGUSTA: (including Priolo): 37.13 N. 15.14 E.

DOCUMENTS:
Certificate of Registry.
Certificate of Freeboard.
Cargo and Gear Safety Certificates.
Radio Safety Certificate.
Safety Construction Certificate.
Derat. Certificate or Exemption.
Crew Lists (at least 6 copies).
Passenger Lists (at least 6 copies).
Customs Manifest.
Maritime Declaration of Health.
Bills of Lading.
Vaccination Certificates.
PILOTAGE: Compulsory for vessels over 500 tons. Pilot available day and night. Vessels requiring a Pilot should display appropriate International Code Signals, should approach and anchor if necessary about 1 mile from the principal entrance. Pilot boat is black with a white band, letter "P" is painted in amber on each side of the bow. Pilot boards about 1 mile from main entrance. In bad weather the launch will wait inside the breakwater by the main entrance. Pilot station telegraphic address is Augusta Piloti. ETA should be given 12 hours in advance. Vessels with VHF can contact Augusta Piloti on Channel 12.
ANCHORAGE: Within breakwater. Max. draft 25 ft.
MAX. SIZE: Depending on berth depth. Max. draft for port entrance is 55 ft. Tidal effect is negligible.
HEALTH: Pratique may be allowed by radio, request to Sanimare Augusta between 12 to 6 hours prior arrival, advising vessel's name, nationality, last port, number of passengers and crew, and state of health on board. If not requested by radio, pratique is given on arrival. Pratique is automatic for vessels coming from an Italian port.
RADIO: Roma Radio or Augusta Radio. Vessels with VHF may contact Augusta Radio on Channel 16 between 0800 and 2200 hours.
TUGS: Available, join vessel inside breakwater entrance.
BERTHING: Vessels may berth at all hours, except at Shell and Sincat installations where berthing is only in daylight hours. At Esso berths 10 and 11, vessels may use wire ropes only if the eyes are made of manila or nylon. Permitted draft at each berth is as follows:

No. 1 14 ft.	No. 10 43 ft.	No. 19 38 ft.	No. 28 18 ft.
No. 2 28 ft.	No. 11 52 ft.	No. 20 55 ft.	No. 29 29 ft.
No. 3 14 ft.	No. 12 28 ft.	No. 21 55 ft.	No. 30 30 ft.

BULK HANDLING FACILITIES: Phosphates, chemicals, fertilisers handled at Sincat Berths, equipped with conveyor belts handling capacity 2,000 tons per day.
Cement shipped at Pier No. 13 equipped with conveyor belt loader, capacity 300 tons per day.
MEDICAL: Medical and hospital facilities available. Vaccinations done ashore. Advance notice preferred for assistance required on arrival.
TANKERS: Slop disposal facilities available. Loading/discharging lines are from 6–12 in. diameter.
DENSITY: 1024 to 1026.
FRESH WATER: Available by barge.
FUEL: All grades available by pipe-line or barge; suppliers Esso, Shell, B.P., Agip, Mory, Mobil, Gulf. Forty-eight hours notice required.
DEVELOPMENTS: Planned to dredge port entrance and principle berths to a depth of 22 m.

GANGWAY/DECK WATCHMEN: Employment of shore watchmen advisable.
OPENING/CLOSING HATCHES: Normally by ship's crew.
CUSTOMS ALLOWANCES: 40 cigarettes and one opened bottle wine/spirits per man.
IDENTIFICATION CARDS: Shore passes given by local police.
CONSULS:
Liberia tel. 75341.
Panama ,, 75061 and 75373.
Norway ,, 75182.
REPAIRS: No repairs permitted while alongside tanker berths. May be done in the anchorage subject permission of port authorities.
REPATRIATION: No difficulties.
AIRPORT: Nearest at Catania, can be reached in 40 minutes by car. Daily flights to Rome and Milan for international connections.
TIME: GMT plus one hour. Summer time, May to September, GMT plus 2 hours.
HOLIDAYS: Tankers not effected. 1st January; 6th January; 19th March; Easter Monday; 25th April; Ascension Day; Corpus Domini; 1st May; 2nd June; 15th August; 4th November; 8th December; 25th December.
POLICE/FIRE/AMBULANCE: Police, tel. 75555; Ambulance, 75000; Fire, 74777.
TELEPHONES: Situated at all berths. No direct connection to vessels.
SHORE LEAVE: Allowed at all times.
AUTHORITY: Ufficio Circondoriale Marittimo, Riva Darsena. Tel. 74001.

BAGNOLI: 40.48 N. 14.10 E.

DOCUMENTS: An arrival report is required wherein are indicated main particulars of vessels entering. All vessels coming from abroad and or from another Italian port must have ready before arrival following documents:
5 Crew Lists.
5 Passenger Lists.
Store List in duplicate.
International Health Declaration.
Cargo Manifest.
PILOTAGE: Pilot is available any time of day. Usually boards vessels three miles out of port. Vessels requesting pilot service to use flag, sound and morse signal "G". No VHF available. Pilotage is compulsory for anchorage. Full pilotage fee is due even if anchored without Pilot. On departure 30 minutes will be sufficient notice for having Pilot and tugs ready. In case of bad weather (Bagnoli area is exposed to South-south-western winds) vessels to shift out of piers or change anchorage into Baia roads (sheltered natural bay three miles from Bagnoli in direction W.).
ANCHORAGE: Depths ranging from 11 to 15 metres. Sandy bottom.
RESTRICTIONS: Vessels can enter port at any time of day. No restriction for night departures.
MAXIMUM SIZE: Draft 40 ft., largest vessel allowed is 80,000 tons DW.
HEALTH: Free pratique can be requested via radio cabling to Health Officer of Naples. Cable address: Sanimar, Naples.
RADIO: Naples Radio.
TUGS: One tug available, if more required they come from Naples. Time taken approximately 2 hours.
BERTHING: One pier length 357 m. Max. depth 41 ft. 3 in.
STEVEDORES: Available. Rate of discharge 1,500/1,700 tons per hour.
FRESH WATER: Available from pier. Rate of delivery 20 tons per hour, or by barge.
FUEL: All types available always delivered by barge, 48 hours notice required.
GANGWAY/DECK WATCHMEN: Recommended.
OPENING/CLOSING HATCHES: Carried out by crew.
CUSTOMS ALLOWANCE: Tobacco, 50 cigarettes per crew member. Wine/spirit, 1 bottle opened.
IDENTIFICATION CARDS: Required.
CONSULS: None.
REPAIRS: Small repairs undertaken.
TIME: GMT plus 1 hour winter. GMT plus 2 hours summer.
HOLIDAYS: See "Naples".
POLICE/AMBULANCE/FIRE: Police 602553; Ambulance 520696; Fire 330210; Port Office 602564.
SHORE LEAVE: Allowed.
AUTHORITY: Ente Autonomo del Porto di Napoli.

BARI: 41.08 N. 16. 52 E.

DOCUMENTS: On arrival:
5 Crew Lists.
3 Provision Lists.
3 Lists of Articles in possession each crew member.
Customs Documents.
Cargo Manifests.
Bills of Lading.
Ship's Papers.
PILOTAGE: Pilot boards vessels on arrival by motor-boat near harbour entry, outer buoy. Pilotage compulsory for vessel over 500 GRT inward or outward, shifting vessels from one point to another in or out of port.
Pilot call: Letter "G" of International Code. Pilot attending day and night. For services from 17.00 hrs. to sunset, or from sunrise to 08.00 hrs. the dues are increased.
ANCHORAGE: Good anchorage in all weathers, but precautions should be taken against winds from North. Rocky bottom covered by mud. Bad holding ground. Strong range in the port when bad weather. Not allowed to anchor in fairway except in case of emergency. Anchorage usually allowed East side of Nuovo Molo Foraneo at a distance of about 1 mile from shore.
RESTRICTIONS: Maximum depth at harbour entrance 40 ft., width 793 ft. Depth of water at berths from 33 ft. to 40 ft.
MAX. SIZE: Maximum permissible length 800 ft. for oil carriers proceeding to oil pier. Max. draft 39 ft.
HEALTH: Masters can request free pratique by radio applying to "Sanimare-Bari". Free pratique automatic for vessels coming direct from other italian port, and "Q" flag not to be flown on entering. In event of any suspected disease or fever on board, Master should inform Sanimare Bari, not permitting anybody to board the vessel before doctor's inspection.
RADIO: Radio Roma, call sign IAR.
TUGS: Tugs normally join vessel outside harbour entrance. Towage service is carried out by following tug-boats belonging to "Rimorchiatori Napoletani": *Camaldoli* of 674 I.H.P.; *Città di Trieste* of 812 I.H.P.; *Mastino* of 1,105 I.H.P. Basic tariff is increased by 20% when the towage rope is given by tug-boat.
BERTHING: When specific side alongside berth is required by stevedores, Agents radio Master prior arrival and advise Pilot. Otherwise side alongside at Master's option after conferring with Pilot. Depth at piers 20/38 ft. dependent location. No shore fenders alongside quays.
BULK HANDLING FACILITIES: Grain discharge by two suction pipes at rate of 90 to 100 metric tons per hour each.
STEVEDORES: Important to give ETA in good time. Normal working hours: Winter time (weekdays), 08.00–12.00, 13.00–17.00. Saturdays, 08.00–13.00. Summer time (weekdays), 08.00–12.00, 14.00–18.00. Saturdays 06.30–13.00.
Overtime: From 06.00 to 08.00 the tariff to be increased 25%; 12.00 to 13.00, 50%; 17.00 to 20.00, 25%; 20.00 to 06.00, 70%.
For handling pieces over 1,000 kilos, increase of 50% on the tariff. For unhealthy work, increase of 30% on the tariff.
Sunday. From 00.00 to 08.00 the tariff to be increased 100%; 08.00 to 12.00, 50%; 14.00 to 18.00, 50%; 12.00 to 14.00, 100%; 18.00 to 24.00, 100%.
MEDICAL: Not necessary for Agents to receive advance notice of required medical attention. Hospital facilities available.
TANKERS: Not allowed to do any degassing of tanks or any kind of repairs to vessel without Harbour Office permission.
Cleaning and degassing of tanks not allowed in port. Inspection of tankers and gas-free certificate can be obtained. Only clean ballast can be discharged in port.
Diameter of load-discharge pipelines at oil berth are:
20 in., 16 in. and 12 in. pipe-line for crude oil; 12 in and 18 in. pipe-line for fuel oil; 8 in. pipe-line for gasoil; 8 in. pipe-line for gasoline.
Crude oil discharged to Stanic refinery from Berths No. 31 and No. 4 (Molo Foraneo) suitable for tankers up to 39 ft. draft.
Fuel and other refined products discharged at Berth Nos. 31, 32, 33 and 34.
DENSITY: Salinity 36%.
FRESH WATER: Available at all berths served with hydrants. Good drinking water supplied by Ente Acquedotto Pugliese. No barge available to carry water in the harbour and in the roads. Tugs may be used for this purpose.
FUEL: Available. 3 days advance notice required.
DEVELOPMENTS: Expected draft increases in the near future for berthing tankers up to 80,000 tons.
GANGWAY/DECK WATCHMEN: Service of watchmen is recommended: shift of 10 hrs.
OPENING/CLOSING HATCHES: Normally carried out by stevedores. Opening or closing of hatches charged for work carried out during usual working hours.
CUSTOMS ALLOWANCES: 50 cigarettes only are given to each crew member out of bond on vessel's arrival. Wine is permitted to be held out of bond but no spirits allowance permitted.
IDENTIFICATION CARDS: Shore leave pass is compulsory.
CONSULS:

Great Britain	Holland
France	Spain
Belgium	Germany
Portugal	Norway
Liberia	Turkey
Sweden	Monaco
Denmark	Ethiopia
Switzerland	Bolivia
Greece	Austria

REPAIRS: Workshops and shipyards are capable to carry out repairs to hull and engines.
DRY DOCKS: No dry docks are available at Bari. Nearest dry docks are at Taranto.
REPATRIATION: Many facilities for effecting crew changes and possibilities for arranging any necessary repatriations.
AIRPORT: Airport is located about 10 km. North of city. Served by regular airlines with flights for all countries daily.
TIME: Local time one hour ahead of GMT. Alterations to clocks are made from spring to beginning of autumn, giving 2 hrs. advance on GMT.
HOLIDAYS: New Year's Day (1st January); Epiphany (6th January) St. Joseph (19th March); Liberation Day (25th April); Labour's Day

(1st May); Easter Monday; Ascension Day; Corpus Domini; St. Nicholas (9th May); St. Nicholas, Patron of the Town (10th May); Proclamation Day (2nd June); St. Peter and St. Paul (29th June); Assumption B. V. Maria (15th August); All Saints' Day (1st November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); Boxing Day (26th December).

Cargo work can be arranged on above days, and the stevedoring tariff increased as follows:
From 00.00 to 08.00, increase 100%; 08.00 to 12.00, 50%; 14.00 to 18.00, 50%; 12.00 to 14.00, 100%; 18.00 to 24.00, 100%.

POLICE/AMBULANCE/FIRE: Police, 214116; Ambulance, 246552, 341217; Fire, 212518.

TELEPHONES: No arrangements exist for placing telephone on board.

SHORE LEAVE: Allowed.

AUTHORITY: Capitaneria di Porto. Tel. 216860, 211726.

BRINDISI: 40.39 N. 17.56 E.

DOCUMENTS:
3 Crew Lists.
3 Lists of Passengers Disembarking.
3 Lists of Passengers in Transit.
Manifests of Cargo carried, with specification of port of origin and whether for local discharge or in transit. If stowed on deck or below deck.
List of Articles in possession of each crew member, such as cameras, binoculars, portable radios, cigarettes, tobacco or any kind of cheap-priced goods.
Other Certificates required to be on board:
Certificate of Ship's tonnage.
Load Line Certificate.
Deratisation Certificate.
RT Certificate.
Safety Certificate.
Anchorage Dues Receipt (if previously paid).

PILOTAGE: Vessel approaching port should apply for Pilot by hoisting the "G" flag, if by day-time. By night-time, letter "G" will have to be signalled by Morse, to port semaphore (Signal Station) which is located under shore lighthouse showing white flashes.

Telegraphic address of Pilot Station is "Piloti Porto, Brindisi". No ETA required for Pilots as station not equipped with wireless apparatus. Characteristics of pilot boat: gross tonnage, 9·4; power, 65 HP; speed, 8 Knots.

Area where Pilot boards vessel:
In good weather: One mile from harbour entrance.
In bad weather: (*a*) If vessel is heading for inner harbour and is of small tonnage (up to 3,000 tons) pilot boat will steer in a direct line, bows pointing towards vessel, up to entrance to "outer" harbour, where Pilot will board vessel. If vessel is of higher tonnage, she will have to take a "crosswise" position so as to form a sheltered area for Pilot, about one mile from harbour entrance. (*b*) If vessel (tanker) is bound for outer off-shore terminal (Montedison Installation) for discharge of crude-oil, pilot boat will endeavour to approach vessel to communicate impossibility of immediate mooring. Anchorage roads, pending possibility for Pilot to board vessel, are 0.8 miles East/North/East of "Punta Penne" (Capo Gallo).

ANCHORAGES: Besides anchorage point described above, there exists safe anchorages in bay for vessels having a draft of 9 m. (29 ft. 6 in.) and in external harbour for vessels of less than 3,000 tons (gross).

RESTRICTIONS: Tankers of over 1,500 tons gross may berth only from sunrise till sunset. Port berths are inaccessible in unfavourable winds. Passenger or cargo vessels no restrictions.

MAX. SIZE: *Inner Harbour:* Draft not to exceed 9·4 metres (30 ft. 10 in). *Outside Main Port area:* For discharging crude oil at off-shore terminal, maximum draft allowed 11·50 m. (37 ft. 8 in.). For discharging or loading of other refined products of Montedison Installations, depth of berths varies from 4 to 9 m. (from 13 ft. 1 in. to 29 ft. 6 in.).

HEALTH: Apply to "Sanimare, Brindisi" by radio, 12 hours before arrival, and not later than 4 hours before arrival, according to provisions of Health Regulations, notifying in message state of health of crew and port of origin of vessel. Procedure not required if vessel entering after calling at another port in same country.

RADIO: Vessel can communicate ETA messages to Agents through Bari Radio (nearest station) or through Rome Radio which can pick up messages from vessels at sea almost in any part of the world.

TUGS: Tug service is generally effected from Punta Riso–Faro Della Pedagne junction, up to inner harbour. It is customary to use tugs' lines for mooring and unmooring of tankers at terminals outside main port area, in view of the peculiarity of mooring operations and the area where tugs are to operate (subject to surf, choppy seas, winds). Charge for use of tugs' lines is 20% extra on normal towing rates.

TANKERS: Crude oil discharged at offshore buoy mooring for vessels up to 37 ft. 8 in. draft.

Other tanker berths at Inner Harbour for refined products, suitable for tankers up to 28 ft. draft.

STEVEDORES: Always advisable to notify in ETA messages to Agents number of hatches vessel intends working simultaneously to arrange gangs. Normal working hours: From 7 a.m. to 12 p.m. and 2 p.m. to 5 p.m. Overtime: Week-days, 70% increase on normal tariffs. Sundays and holidays: Work performed during normal hours, 50% increase. On overtime, 100% increase.

MEDICAL: Hospital facilities available. For any kind of medical attendance or hospitalisation, if needed, it will be helpful to have port Agents advised by radio in advance.

FRESH WATER: Almost all mooring points alongside wharves are fitted with fresh water distributing hydrants. At off-shore terminals, supply is effected by tugs.

FUEL: Types of fuel available: Bunker "C", viscosity Engler at 50° (centigrade), 16/20; specific weight, ·950/960. Gasoil, viscosity Engler at 20° (centigrade), 1.4; specific weight, ·830. 48 hours advance notice for any supplies required.

FIRE PRECAUTIONS: Firemen always in attendance during loading/unloading operations by oil carriers.

DEVELOPMENTS: Under construction: one pier in outer harbour, which is scheduled to be 200 m. in length (219 yards) with a depth of 12 m. (39 ft. 4 in.).

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CERTIFICATES: For vessels over 500 tons effecting international voyages:
(*a*) Passenger vessels:
Safety Certificate.
Radio and Radiophone Certificates (latter if included in vessel's equipment).
(*b*) Freighters:
Safety Construction Certificate.
Safety Equipment Certificate.
Radio and Radiophone Certificates.

CUSTOMS ALLOWANCES: 50 cigarettes a day for each crew member, if vessel's stay in port exceeds 24 hours. No allowance if stay is shorter than 24 hours. ⅓ of a bottle of liqueurs only.

IDENTIFICATION CARDS: Not particularly needed besides regular seaman's books.

CONSULS: Vice-Consulate of Denmark, Portugal and Holland, all having the same telephone number: 21123. Vice-Consulate of Spain: telephone: 21039.

REPAIRS: Only minor deck and engine repairs can be carried out locally.

REPATRIATION: Adequate facilities exist for effecting crew changes and repatriations as necessary.

AIRPORT: Distance from local airport 5 kilometres (3 miles). Airport regularly served by Alitalia Airline, ensuring 2 daily flights to Rome, and one daily flight to other Italian cities, including, among others; Naples, Catania, Palermo, Cagliari, and other destinations via Rome. Direct international flights not scheduled from Brindisi.

TIME: Local time one hour ahead of GMT (generally from early June to end September), 2 hours ahead of GMT (summer time).

HOLIDAYS: Officially recognised. Both national and religious holidays include: Sundays; New Year's Day; Epiphany (6th Jan.); St. Joseph's Name Day (19th March); Easter (Easter Monday); Anniversary of Liberation (25th April); Labour Day (1st May); Ascension, Corpus Domini (oscillating dates); Proclamation of the Italian Republic (2nd June); the Saints Peter and Paul Name Day (29th June); Assumption (15th August); All Saints' Day (1st Nov.); National Unity (4th Nov.); the Virgin Immaculate Conception (8th Dec.); Christmas, Boxing Day.

POLICE/AMBULANCE/FIRE: Police, 25555; Ambulance, 21310; Fire, 21222.

TELEPHONES: No current arrangements existing for placing telephones on board.

SHORE LEAVE: Allowed.

AUTHORITY: Comandante del Porto di Brindisi. Cables: Compamare Brindisi. Tel. 21022.

CAGLIARI Sardinia, (including Sarroch) 39.05 N. 09.01 E.

DOCUMENTS:
6 Crew Lists.
6 Passenger Lists.
2 Provisions Manifests.
2 Manifests of crew personal effects.
Cargo Manifest.
Bills of Lading.
2 Arrival Reports, completed on arrival.
Maritime Declaration of Health, completed on arrival.
Ship's Certificates including Italian anchorage dues.
Vaccination Certificates for sighting.

PILOTAGE: Compulsory for vessels over 500 tons. Requested by ship's Agents. Vessels should wait in the roads for Pilot to board. International Code signals used for calling Pilot. Pilot Station telephone number: 52929. Pilot boards tankers about 2 miles east of oil terminal.

Sarroch. Compulsory for all tankers. Vessels should wait in roads as follows:
G1 – (for tankers of more than 42 ft. draft) Lat. 35° 05′ N. Long. 09° 05′ E.
G2 – (for tankers of less than 42 ft. draft) Lat. 39° 04′ 27″ N. Long. 09° 03′ 15″ E.
G3 – (for tankers of less than 5000 grt.) Lat. 39° 05′ 48″ N. Long. 09° 02′ 00″ E.
Pilot station tel. no. 929057. VHF Channel 16.

ANCHORAGE: All of the roads is available for anchorage except where prohibited zones indicated on charts.

MAX. SIZE: Cagliari port. Max. draft 28 ft. Sarroch, SARAS Terminal, tankers up to 100,000 dwt. Max. draft 57ft.
HEALTH: Free pratique may be requested by radio to Sanimare Cagliari between 12 to 6 hours prior arrival advising vessel's name, nationality, last port, number of passengers and crew and state of health on board. Pratique is automatic for vessels coming from ports in Italy, U.K., France, Belgium, Holland, W. Germany and Greece.
RADIO: Cagliari Radio operating continuously on 2182 Khz., and on 156.8 Mhz.
VHF: *Cagliari.* Harbour Master's Office, Channel 16.
Sarroch. Harbour Master's Office, Channel 16. Pilot Station, Channel 16. Mooring Station, Channel 6. Boat Service Station, Channel 8.
TUGS: Six available, of up to 2,000 h.p.
Cagliari. Normally join vessels at the port entrance.
Sarroch. Normally join tankers at anchorage points and assist berthing at Saras Jetties Terminal.
BERTHING: *Cagliari*
Berth No. 1: Length 68 metres; draft 14 ft.
Berth No. 2: Length 128 metres; draft 24 ft.
Berth No. 3: Length 227 metres; draft 23 ft.
Berth No. 4: Length 123·7 metres; draft 19 ft. 6 in.
Berth No. 5: Length 60·3 metres; draft 20 ft.
Berth No. 6: Length 116·8 metres.
Berth No. 7: Length 92·6 metres; draft 16 ft. 6 in.
Berth No. 8: Length 278·6 metres; draft 25 ft.
Berth No. 9: Length 325·8 metres; draft 27 ft.
Berth No. 10: Length 328 metres; draft 27 ft.
Berth No. 11: Length 203·2 metres; draft 20 ft.

P.9: ,, ,, ,,
P.10: ,, ,, ,,
Platform Island No. 1 (for crude oil discharging only) draft 57 ft.
Platform Island No. 2 (for crude oil discharging only) draft 57 ft.
MEDICAL: All facilities available at Cagliari.
DENSITY: 1025.
FRESH WATER: Available by pipe-line at all berths. No water barges, although bunker barges may be able supply small quantity fresh water in emergency only.
FUEL: All grades available ex-wharf at tanker berths. Barges supply vessels at anchor and vessels calling for bunkers only.
Vessels calling at Sarroch for bunkers by barge are required to keep Agents closely advised of their ETA and bunker requirements. Messages confirming the vessel's ETA should be sent to Agents 72,48 and 24 hours before vessel's arrival. Masters should note that customs regulations do not permit the return of bunkers to the refinery after the barge is loaded, therefore an accurate figure of bunkers required must be given in the first ETA message to Agents.
CUSTOMS ALLOWANCES: 40 cigarettes and one opened bottle wine/spirits per man, usually allowed for consumption on board while vessel in port.
IDENTIFICATION CARDS: Shore passes issued by local police.
CONSULS:

Belgium	Great Britain
Denmark	Netherlands
France	Norway
Sweden	

REPAIRS: Minor repairs can be handled at Cagliari. Slipway for vessels up to 400 tons.
REPATRIATION: No difficulties.
AIRPORT: Elmas Airport situated 12 km. from Cagliari.
TIME: GMT plus one hour. Summertime June to September: GMT plus 2 hours.
HOLIDAYS: Not applicable to tankers. New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Easter and Day after Easter; Ascension Day; Corpus Domini; Proclamation Day (2nd June); St. Peter & St. Paul (29th June); Assumption B.V.Maria (15th August); All Saints' Day (1st November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); Boxing Day (26th December).
POLICE/FIRE/AMBULANCE: *Cagliari:* Police 58956; Fire 52222; Ambulance 56979.
Sarroch: Police 929063; Fire 52222; Ambulance 929024.
TELEPHONES: No telephone connection on board.
SHORE LEAVE: Allowed.
AUTHORITY: Capitaneria di Porto di Cagliari. Tel. 55733, 53937, 58897. No Telex. Sarroch; tel. 929057.

AGENT: Enrico Pernis, 5, Piazza Deffenu, PO Box 273. Cables: "Pernis". Telex: 79036. Tel.: 54754.

CATANIA, Sicily: 37.29 N. 15.06 E.

DOCUMENTS: Arrival report requested by Harbour Authorities. Also see "Augusta".
PILOTAGE: Master cannot communicate with Pilot. Pilot boards at sight on harbour entry. International Code signals used to call Pilot.
ANCHORAGE: Vessel must remain on roads awaiting Pilot.
RESTRICTIONS: No restrictions on entry at night, except for tankers (either loaded or empty, as per harbour regulation). The tide at Catania is no more than 30 centimetres. Bar at entrance 30 ft. 6 in.
MAX. SIZE: No limitation on the length and breadth but only on draft of vessel, provided same can be contained within the size of piers of Catania Harbour. See "Berthing" below.
HEALTH: The usual sanitary pratique as per all Italian ports is requested. Free pratique obtainable by radio prior arrival sending cable to "Sanimare Catania".
RADIO: The quickest way is to address messages to "Romaradio", better if adding to the telegraphic address the telex number of Agency, so that after very short time from reception at Romaradio the message is in Agents hands.
TUGS: When Pilots are on board, they can call tugs by small radio-calling station. Very frequently the tug's Company, when seeing a big ship, join vessel at same time as Pilot. Tugs using ship's lines.
BERTHING:
Berths Nos.

22 ,, ,, ,, 60 ,, ,, 16 to 20 ft.
STEVEDORES: As per actual Port Labour Regulations, in order to book gangs, stowage details must reach Agency not later than 11 o'clock of the day before ship's arrival, except for work to be done on Saturdays, Sundays and Mondays when application for gangs must be made on Friday.
The official load/discharge rate for general cargo is 50 tons per hatch per day (8 hours), but real output is higher. Increase for overtime, continuous shifts (0700–1330; 1330–2000; 2000–0230). Night work, Sundays, national holidays, etc.
MEDICAL: Hospital facilities easily available. No advance notice required unless for emergency cases and for cases to be urgently treated during night and holidays.
TANKERS: Two tanker berths are situated in line at Southern breakwater, called "Molo Mezzogiorno". There are three pipelines, diameters of 8 in., 6 in., 4 in. No discharge facilities for tank washing.
SALINITY: Average salinity of water inside the port is the same as the average salinity of Mediterranean.
FRESH WATER: Available at nearly all quays including bunker piers
FUEL: Bunkers available and supplied only by pipe connection at Bunker pier (Molo Mezzogiorno). Max. rate 400 tons per hour.
CUSTOMS ALLOWANCES: Tobacco, for foreign ships not in coastal service in Italian Ports: 50 cigarettes per each crew member, for the first 24 hours of the ship's stay in port. Other cigarettes can be obtained for which an application to the Customs House is required. Spirits: 2 or 3 bottles per day (provided minimum 20 crew members).
CONSULS:

Austria	France	Netherlands
Belgium	Germany	Portugal
Denmark	Greece	Spain
Finland	Nicaragua	Sweden
	Norway	

REPAIRS/DRY DOCK: Small repairs can be carried out at Catania. No dry docks available.
AIRPORT: Very near important airport with regular international flights.
TIME: GMT plus 1 hour. In summer time GMT plus 2 hours.
HOLIDAYS: Normally, during all holidays it is possible to work with extra payment.
TELEPHONES: Numbers of emergency services: Police 226741; Fire Brigade 225760; Sanitary Office 279194; Harbour Master 225202.
AUTHORITY: Capitaneira di Porto.

CIVITAVECCHIA: 42.05 N. 11.47 E.

DOCUMENTS: On arrival:
4 Crew Lists.
4 Lists Passengers in Transit.
4 Lists Passengers Disembarking.
2 Provisions Lists.
2 Lists of Crew Articles, including Tobacco, Cigarettes, Spirits, Radio, etc.
Manifest(s) and Bill(s) of Lading n/n covering all cargo on board.
It is recommended that particular care be exercised in giving the exact weight and number of tobacco, cigarettes, spirits, paper for

cigarettes, cigars, cigarillos, coffee, sugar, salt, pepper, spices, cocoa and chocolate, etc., on board, as well as bunker quantities and lub. oil, thus avoiding fines in case the Customs guards in searching vessel subsequently should find any concealed.

PILOTAGE: Pilots are advised of vessel's arrival by port authorities and by Agents. Therefore accurate advance notice of ETA should be addressed by Master to Agents. Pilot usually boards vessel within 2 miles of port. Pilot station in port area.

ANCHORAGES: Any vacant place assigned by port authorities, taking into account vessel's draft. If port is congested vessels anchor at roads. Pilot assistance is recommended.

RESTRICTIONS: No restrictions are imposed upon entry. With the exceptions of particular individual cases to be submitted for perusal to harbour authorities, vessels may berth and sail at any time, weather permitting.

MAX. SIZE: Maximum permissible draft: 29 ft.

HEALTH: Clearance is granted by radio; Master to cable Sanimare Civitavecchia 24 hours prior to vessel's arrival. Quarantine requirements are those prevailing in all other Italian ports.

RADIO: Communications to and from vessels are sent and received from Civitavecchia Radio.

TUGS: Tugs wait for vessel at port entrance. Tug assistance is necessary although not compulsory. Ship's lines have to be used.

BERTHING: Shore fenders keep vessel off the quay. Berths:

No. 2 for vessels up to 180 m. length, 28 ft. 6 in. draft.
No. 7 ,, ,, ,, ,, 160 m. ,, 25 ft. ,,
No. 8 ,, ,, ,, ,, 240 m. ,, 29 ft. ,,
No. 9 ,, ,, ,, ,, 130 m. ,, 23 ft. 6 in. ,,
No. 10 ,, ,, ,, ,, 220 m. ,, 29 ft. ,,
No. 11 ,, ,, ,, ,, 220 m. ,, 29 ft. ,,
Grain Silo located at berth No. 8.

SPECIALISED CARGO HANDLING FACILITIES: Berth No. 8: grain silo of 35/40,000 tons capacity is available; this berth is equipped with two rail-suckers, four movable suckers and one elevator. Ore, coal, fertilisers, sulphur, etc. can be handled at quays Nos. 2/7/9/10 and 11. Structures for containers not available here, nevertheless small traffic might be practicable. Roll-on/roll-off traffic practicable. Liquid chemicals practicable. No facilities exist for LPG carriers.

STEVEDORES: To enable Agent to order gangs it is very important to obtain accurate ETA in good time.

From 0800 hrs. to 1200 hrs. and from 1300 hrs. to 1700 hrs., or from 0600 hrs. to 1230 hrs., from 1230 hrs. to 1900 hrs. and from 1900 hrs. to 0030 hrs. against payment of 32,50% extra.

Saturday: From 0600 hrs. to 1230 hrs. against payment of 32,50% extra; from 1230 hrs. to 1900 hrs. and from 1900 hrs. to 0030 hrs. against payment of a further increase of 25%.

Sunday: Work can be performed at overtime rates plus 50% extra from 0600 hrs. to 1230 hrs., from 1230 hrs. to 1900 hrs and from 1900 hrs. to 0030 hrs.

Holidays: Work can be performed at overtime rates plus 150% extra from 0600 hrs. to 1230 hrs., from 1230 hrs. to 1900 hrs. and from 1900 hrs. to 0030 hrs.

MEDICAL: Not necessary to receive advance note of required medical attention. Hospital and clinical surgery available. Master to advise in advance of particular inoculations required.

TANKERS: Maximum draft allowed 28 ft. 6 in. Maximum length 180 metres. Tankers are not permitted to enter port before sunrise and after sunset. Diameter of discharge lines 8–10 in.

FRESH WATER: Drinking water and water for boilers is supplied from pier with fire hoses. Average pumping rate 8–10 tons/hour.

FUEL: Bunkering can be effected by means of barges and/or tank-lorries at all quays. Grades available: fuel oil and gas oil.

DEVELOPMENTS: Availability of quay no. 0 dredging to 30 ft., length 180 m., equipped with two cranes of max. lifting capacity of 35 tons each. Extension of outer breakwater and deepening of the basin.

GANGWAY/DECK WATCHMEN: Watchmen services recommended.

OPENING/CLOSING HATCHES: First opening and last closing normally carried out by crew.

CERTIFICATES: Requirements are those prevailing in all other Italian ports, e.g. Tonnage Certificate, Safety Equipment, Load Line, Deratting Certificate, etc.

CUSTOMS ALLOWANCES: Tobacco. Quantity permitted to each crew member: 50 grams to be smoked within first 48 hours. Wine and/or Spirits. One open bottle of spirits.

IDENTIFICATION CARDS: Required. Passes issued by local police.

CONSULS: There are no Consulates, but only Consular Agencies or Honorary Representatives for the following countries:

France Tel. 23044 — Spain Tel. 24304
Sweden ,, 23109 — Norway ,, 25207
Finland ,, 23134 — Portugal ,, 23048
Nearest British Consulate is in Rome.

REPAIRS: Repairs of limited extent and importance may be carried out by 2 local workshops.

REPATRIATION: Facilities exist to effect crew changes and to arrange repatriations.

AIRPORT: Distance from Airport Leonardo da Vinci (Rome) 70 kilometres.

TIME: One hour in advance in relation to GMT. Clock will be advanced one hour in summertime, giving 2 hours advance of GMT.

HOLIDAYS: All Sundays, 1st and 6th January, 19th March, 25th and 28th April, 1st May, 2nd and 29th June, 15th August, 1st and 4th November, 8th, 25th and 26th December, Easter Monday, Ascension Day, Corpus Domini. Holiday work is subject to the authorisation of port authorities.

POLICE/AMBULANCE/FIRE: Police, 23729; Ambulance, 23382; Fire, 23333.

TELEPHONES: Can be connected on board vessels at quays no. 7 and 10.

AUTHORITY: Capitaneria di Porto, Tel. numbers: 20250, 23015, 22338.

AGENT: GASTALDI & C. S.p.A., c/o Ant. Bellettieri & Co. S.p.A. 3, Lungoporto Gramsci – P.O. Box 70 – 0005 3 CIVITAVECCHIA· Cables: "Dick". Tel. 23289/23625; A.O. 23289/20348. Telex 62432 "for Dick".

FIUMICINO: 41.46 N. 12.13 E.

DOCUMENTS:
3 copies of Crew List.
Store Manifest.
List of Personal Effects.
Manifest of Cargo.

PILOTAGE: Vessel should await Pilot about ½ mile off the tanker loading platforms which are situated in the following positions:
Platform R1: Latitude 41° 45′ 06″ N. Longitude 12° 09′ 15″ E.
Platform R2: Latitude 41° 44′ 37″ N. Longitude 12° 10′ 04″ E.

ANCHORAGE: Vessels waiting to berth should anchor to the South of Platform R2, not less than 1 mile from the platform. The anchorage is not recommended during strong South or South-Westerly winds, and in unfavourable weather conditions it is advisable for vessels to remain underway.

It is forbidden to use anchors in the near vicinity of the tanker berths, due to the presence of underwater pipe-lines. When approaching the moorings, anchors must be firmly secured in the hawse.

RESTRICTIONS: Pilotage and mooring is not carried out during hours of darkness.

MAX. SIZE: Ships of any length can be moored.
At R1 platform, water depth 23 metres, max. draft 54 ft.
At R2 platform, water depth 19·50 metres, max. draft 46 ft.
From time to time it may be possible to allow greater drafts subject to Pilot's advice.

HEALTH: Sanitary pratique can be granted by radio cabling "Medipro" Rome 36 hours (48 hours in case of arrival a day after holiday) before arrival stating: last port, number of crew and good health of same, ship's flag – using international code.

RADIO: Advise Refinery of vessel's ETA 72 hours before arrival via Roma Radio. Confirm ETA 24 hours before arrival.

Vessels arriving for the first time at Fiumicino should also advise dimensions of vessel's manifold flange connections.

During cargo operations, the tanker will communicate by radio-telephone with the pumping station and the refinery.

VHF: No VHF service, but vessel, when moored, can contact agent through Refinery radio-telephone.

TUGS: Not required for mooring.

MEDICAL: Local doctor and hospitals available in Rome.

TANKER BERTHS: Two offshore mooring platforms, R1 and R2, connected to sea-lines of 20 in., 28 in. and 36 in. diameters. Loading rates 600 to 1,200 cubic metres per hour. Rate of discharge 2,500 to 4,000 cubic metres per hour.

Raffineria di Roma can accept dirty ballast or tank washings up to a maximum of 15,000 tons.

MOORING: Vessel to have ready on arrival: port derrick rigged for hose handling; boat-rope and pilot ladder on the port side; three good mooring lines at the bow, each not less than 150 metres length.

Vessel is moored by the bow about 30 to 50 metres distant from the mooring platform. All ship's ropes are led back and secured on board to facilitate unmooring.

HOSES: Connecting and disconnecting hoses performed by refinery personnel, vessel to supply winchman and man the derrick. Derrick capacity to be at least 3 tons. Each platform is equipped with two floating hoses, about 200 metres long, which drift fully extended when berth is not occupied.

BALLAST: Raffineria di Roma can accept dirty ballast or tank washings up to a maximum of 15,000 tons. Recommended advise before arrival the quantity of ballast to be discharged. Ballast should be reduced to a safe minimum to save time at the mooring berth.

SALINITY: 25–28 grams per litre.

FRESH WATER: Supply by barge 100 tons per trip.

FUEL: Bunkers not available, only luboil in drums can be supplied.

CUSTOMS ALLOWANCES: 40 cigarettes per day for three days for each crew member.

CONSULS: All Consulates and Embassies in Rome.

REPAIRS: Small repairs can be effected but no dry dock.

AIRPORT: International airport "Leonardo da Vinci" at Fiumicino

TIME: GMT plus 1 hour.

REGULATIONS: Raffineria di Roma will hold vessel responsbile for consequences of any pollution caused by oil leaking or discharged from the ship. Strictest precautions to be observed.

Engine to be kept ready to leave the berth in the shortest possible time.

Propeller movements are forbidden while vessel in berth, due to presence of floating pipe-lines.

TERMINAL OPERATOR: Raffineria di Roma S.p.A., POB 9075, Aurelio 00100, Roma.

AUTHORITY: Il Comandante del Porto, 00054 Fiumicino.

GAETA: 41.13 N. 13.35 E.

DOCUMENTS:
6 Crew Lists.
6 Passenger Lists.
Provisions Manifest.
Manifest of Crew Personal Effects.
Cargo Manifest.
Arrival Report – completed on arrival.
Maritime Declaration of Health Certificate – completed on arrival.
Ship's Certificates, including Italian Authority dues.
Vaccination Certificates for sighting.

PILOTAGE: Compulsory for entering road, docking and undocking. Pilots meet vessels about 2 miles off Punta Stendardo.

MAX. SIZE: Pontile Petrole – North side: Max. length 265 metres, draft 48 ft. South side: Max. length 190 metres, draft 39 ft.

HEALTH: Free pratique may be requested by radio to Sanimare before arrival advising vessel's name, nationality, last port, number of passengers and crew and state of health on board. Pratique is automatic for vessels coming from ports in Italy, U.K., France, Belgium, Holland, W. Germany and Greece. Otherwise, free pratique granted by local Health Officer who boards ships on arrival together with harbour officers, between 7 a.m. and sunset with possible exceptions. In order to facilitate boarding by Officers at anchorage or berth, it is requested that vessels have a convenient accommodation ladder/gangway ready.

TUGS: Tug-boat assistance compulsory for docking and undocking; also stand-by tug during loading/discharge, from connection to disconnection of cargo hose.

BERTHING: Docking and undocking – normally performed in daylight only, but with favourable weather conditions exceptions have been and will be granted. Undocking normally until midnight.

TANKERS: The oil terminal is situated at Punta Molino and is represented by a finger jetty with 2 berths alongside; North for tankers up to 65,000 TDW with a depth dragged to 15·50 metres (51 ft.); South for 18,000–25,000 TDW, with a depth of 12·50 metres (41 ft.) and one separate stern berth with 10·20 metres depth available. The latter is generally used for small ships and loading refined products. At the two berths on the jetty discharge and loading is performed through up to 4 articulated 8-in. steel pipe connections. All berths are equipped for loading or discharge of full range of liquid petroleum cargoes. The distance between the connections of the hoses at midship and the stern of the ship must not be more than 133 metres.

BALLAST: Ballast is to be discharged exclusively ashore into tanks of the refinery plant; discharge is performed through 8 in. connections and a 1600 metre long 10 in. pipeline at a rate of 350/400 tons per hour. It is therefore advisable that vessels nominated to load products at Gaeta arrive with as little ballast as possible. Heavy fines are put on Masters if ballast is discharged overboard.

DRY CARGO FACILITIES:

Banchina Caboto: 106 metres long quay, with max. draft allowed of 20 ft. Vessels 130 metres long have been accommodated at this draft. No shore installations for loading or discharge, which should be performed with ship's gear. Ample room for lorries.

Genepexca Pier: about 50 metres long with 2 berths on a depth of about 4.20 to 4.30 metres (14–15 ft.). No shore cranes, possibility of cold storage (up to 1,000 cubic metres) scale for weighing trucks available. Normal shift of stevedoring work 0800–1200 1300–1700. Rates and official regulations on request. Cargo handled: frozen commodities (in and out), general cargo, newsprint.

MEDICAL: Physician, dentist, eye and other specialists available. Hospital and nursing homes in Formia about 7 km. from Gaeta. Inoculation against smallpox, typhoid fever, etc., international certificates released. Extension of deratisation certificates granted, but no fumigation performed.

FRESH WATER: Of excellent quality, is supplied from city main at all berths. The supply to ships at the jetty cannot be assured during summer season, owing to lack of water in city mains.

FUEL: Supplies of Bunker C and gas-oil, can be arranged ex installation for ships at oil berths. A minimum quantity of 350–400 T is required for fuel and 100 T for gas-oil. At dry-cargo berths bunkers can be supplied by road tankers only.

REPAIRS: There are 2 machine shops for current requirements including welding work.

CUSTOMS ALLOWANCES: 40 cigarettes and 1 opened bottle wine/spirits per man.

IDENTIFICATION CARDS: Shore passes given by local police.

TIME: GMT plus 1 hour. Summer-time: May to September, GMT plus 2 hours.

AIRPORT: Nearest Rome, Fiumicino, Leonardo da Vinci Airport.

DEVELOPMENTS: Increase of about 2 metres draft expected in the near future.

AUTHORITY: Gaeta Industrie Petroli S.p.A.

GELA: 37.04 N. 14.15 E.

DOCUMENTS:
For Maritime Authority:
Arrival Report.
Crew List.
Passenger List.
Ship's Certificates, for sighting.
For Port Health:
Maritime Declaration of Health (2 copies).
Vaccination Certificates, for sighting.
For Customs:
List of supplies and engine stores.
Cargo Manifest enclosing Bills of Lading.
For Police:
Passenger List (2 copies).
Crew List (2 copies).
Shore Passes for all Passengers and Crew.

PILOTAGE: Pilots are requested by International Code signals. (Flag or whistle acoustic signal, two long and one short blast). Telegraphic address: Piloti del Porto Gela. ETA required at least 2 hours before arrival. No VHF.

The pilot boat has black hull, white cabin with letter "P" painted in black on both sides. The pilot boat stationed near port island, pilot boards about 1 mile off the port.

ANCHORAGE: Anchorage for vessels waiting Pilot about 1 mile West of the head of the Western breakwater, South of the 10-metre depth line. Small vessels may anchor to the West or East of the pier not less than 0·2 miles from the pier and in such a position as not to obstruct vessels berthing or leaving from the dock or the pier.

LIMITATIONS: Entry only between sunrise and sunset.

MAX. SIZE: Dry Cargo vessels: 180 m. length, 30 ft. 6 in. draft. Tankers berthing at the Mole: 250 m. length 31 ft. draft. Sea Line Tanker terminal: 250 m. length, 44 ft. draft.

HEALTH: No radio pratique. Free pratique can be given on board on request.

RADIO: Roma Radio, or Augusta Radio. Messages are forwarded quicker through Rome Radio.

TUGS: One stationed to West or East of the pier, depending on weather and tide. Use of tug lines is optional.

BERTHING: The Anic Pier has berths on both sides in depths of 30 to 31 ft.

TANKERS: Anic Sea Line Terminal: situated about 1 mile off the breakwater, a crude oil discharge berth in depth of 15 metres served by 34-in. sea-line terminating in two 12-in. flexible hoses. No slop discharge facilities. At the breakwater, Berth Nos. 1 to 6 for loading refined products and LPG can accommodate vessels up to 34,000 tons with maximum draft 31 ft.

STEVEDORES: Should be ordered 12 hours in advance.

MEDICAL: All assistance can be arranged at two hours notice to Agents. Hospital and private clinic available. Vaccinations and inoculations with relative certificates can be arranged.

DENSITY: 1024.

FRESH WATER: Available at all berths.

FUEL: Usually available without notice.

DEVELOPMENTS: Two new piers for tankers planned.

OPENING/CLOSING HATCHES: Optional to employ shore personnel.

CUSTOMS ALLOWANCES: As for other Italian Ports.

IDENTIFICATION CARDS: Required.

CONSULS: No local representation.

REPAIRS: Only minor repairs possible.

AIRPORT: Catania, 104 km. away, eight flights a day to Rome.

TIME: GMT plus one hour. Summertime: GMT plus 2 hours.

HOLIDAYS: New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Easter Monday Ascension Day; Corpus Domini; Proclamation Day (2nd June); St Peter and St. Paul (29th June); Assumption B.V. Maria (15th August); Patron Saint (8th September) All Saints' Day (1st November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); Boxing Day (26th December).

POLICE/AMBULANCE/FIRE: Police, tel. 30091; Ambulance, 37058; Fire, 30222.

SHORE LEAVE: Allowed.

AUTHORITY: Ufficia Locale Maritimo, Via More 104. tel. 30390.

GENOA: 44.24 N. 08.54 E.

DOCUMENTS:

Ship's Certificates including Italian Authority Dues.
Vaccination Certificates for sighting.

PILOTAGE: Pilots advised of vessel arrival by port authority and the latter by vessel's Agent. Therefore accurate ETA recommended. Pilotage compulsory for vessels over 500 GRT. To contact Pilots and pilot boats, VHF Channel 12. Time of working 8.0 a.m. to 5.0 p.m. Pilots board vessel at about 1 mile off port entrance.

ANCHORAGES: In case of port congestion or awaiting Pilot, vessel may anchor outside port entrance, East of the fairway.

RESTRICTIONS: Tankers not usually berthed during night time.

MAX. SIZE: Tankers: up to 46 ft. draft. Other vessels: 31 to 40 ft. draft.

HEALTH: Free pratique may be requested by radio to Sanimare, Genoa, between 12 to 6 hours before arrival, advising vessel's name, nationality, last port, number of passengers and crew and state of health on board. Pratique is automatic for vessels coming from ports in Italy, U.K., France, Belgium, Holland, W. Germany and Greece.

RADIO: Genoa Radio, call sign ICB. Agent uses same station when cabling to vessels.

TUGS: Tugs join vessel at port entrance. Ship's line used.

BERTHING: Pilot advises Master which side to berth. Shore fenders keep vessel off quay.

Calata Betolo: 1432 ft. berthing length, 29 ft. permitted draft; Ponte Rubattino: 1863 ft. berthing length, 31 ft. permitted draft; Ponte S. Giorgio: 2050 f. berthing length, 30 ft. permitted draft; Italsider Pier: 1700 ft. berthing length, 40 ft. permitted draft; Silos Granario: 555 ft. berthing length, 30 ft. permitted draft; Silos Granario: 490 ft. berthing length, 27 ft. permitted draft.

TANKERS: Berths in Genoa Harbour suitable for tankers up to 750 ft. length, 34 ft. draft. Tankers discharging at Calata Sanita and Calata Olii Minerali are berthed stern to quay.

Multedo Harbour situated West of main harbour has the following jetties:

Multedo Pier – for vessels up to 588 ft. length, 31 ft. draft.
Pier "A" – for vessels up to 580 ft. length, 36 ft. draft.
Pier "B" – for vessels up to 850 ft. length, 43 ft. draft.
Pier "C" – for vessels up to 850 ft. length, 46 ft. draft.
Pier "D" – Presently accommodating tankers up to 46 ft. draft.
Buoy Terminal – to be developed for vessels up to 100,000 dwt.

BULK HANDLING FACILITIES: Coal, ore, steel waste, etc., discharged at Italsider Pier, length 518 metres, depth alongside up to 13·70 metres.

STEVEDORES: Working hours: General cargo, 0800–1200 and 1330–1730; coal, 0700–1300 and 1400–2000; ore grain, 0800–1200 and 1330–1930; Saturdays, 0800–1300; grain silos, 0700–1200 and 1330–1630, 0700–1200 on Saturdays. Italsider Pier: 24 hours daily in three shifts.

MEDICAL: All medical assistance available. Advance notice required for urgent cases only.

DENSITY: Varying from 1,0253 to 1,0263.

FRESH WATER: Available direct from quay at almost all berths. Supply by lighter, minimum 20 cu. m.

FUEL: All grades available. Delivered by barge. 48 hours notice desirable.

DEVELOPMENTS: Construction of new port at Voltri.

GANGWAY/DECK WATCHMEN: Recommended.

OPENING/CLOSING HATCHES: First opening and last closing normally carried out by crew.

CUSTOMS ALLOWANCES: Tobacco. Customs allow a maximum of 50 cigarettes or 10 cigars, or 50 grams tobacco per person, as long as vessel stays in port. All cigarettes, cigars, etc. must be ready on arrival in a locker in order to be checked and sealed by Customs guards. Wine and/or spirits. Wine allowed any reasonable amounts. Spirits allowed one bottle for every two crew members.

CARGO GEAR: Certificates must be in order, otherwise authorities may prevent vessel perform commercial operations, especially if using derricks.

IDENTIFICATION CARDS: Required. Shore passes issued by local police.

Greece	Venezuela

REPAIRS: All types of repairs available. Preferable have advance notice of requirements.

DRY DOCKS: One floating dry dock, lifting capacity up to 15,000 tons; 7 dry docks (largest dimensions 280 × 40 × 12·50 metres).

REPATRIATION: All facilities available.

AIRPORT: Located at about 5 kilometres from town. Served by regular lines, international services.

TIME: Local time in relation to GMT one hour ahead. Summer time further one hour ahead from May to September.

HOLIDAYS: New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Easter and day after Easter; Ascension Day; Corpus Domini; Proclamation Day (2nd June); Patron Saint's Day (24th June); St. Peter and St. Paul (29th June); Assumption B.V. Maria (15th August); All Saints' Day (1st November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); holiday (26th December).

Holiday work is available at overtime rates. Generally workers not available on 1st January, 1st May and 25th December. Saturday: work performed after 1200 hrs. is at overtime rates.

POLICE/AMBULANCE/FIRE: Police, tel. 55.555, 61.395; Ambulance, tel. 469659, 480171; Fire, tel. 22.222, 466666, 62.222.

TELEPHONES: Telephones can be placed on board at approx. cost of lire 6.500 for installation, lire 2.250 rent per apparatus for the first day, lire 850 for each succeeding day.

AUTHORITY: Consorzio Autonomo Del Porto.

LA SPEZIA: 44.06 N. 09.49E.

DOCUMENTS:

3 Crew Lists.
3 Passenger Lists.
1 Provisions List.
1 List of Parcels.
1 Cargo Manifest.
1 Bill of Lading.
All Ship's Certificates including Italian Anchorage Dues.

PILOTAGE: Compulsory. Pilot Station situated on breakwater at entrance to Gulf. One hours notice to Pilots required for shifting, sailing vessel, Pilot boards incoming vessels at Torre Scuola.

ANCHORAGE: Safe areas available in depths 25 to 34 ft. Mud bottom, no tide. Tankers: if waiting berth required to anchor in Safety Zone immediately behind the breakwater. If this anchorage is occupied by two vessels later arrivals must anchor outside the Gulf.

RESTRICTIONS: Western entrance to Gulf is 400 m. wide with depth of 42 ft. 6 in. The dredged channel to the port is 42 ft. deep. Eastern entrance is 200 m. wide used by smaller vessels only.

MAX. SIZE: Limited only by draft; 33 ft. for the Mercantile Port and grain silos. For vessels proceeding to coal berth max. draft 30 ft. 4 in. For vessels proceeding to Enel Pier max. draft 35 ft.

Tankers up to 40 ft. draft accommodated.

HEALTH: Radio pratique may be requested to Sanimare-Laspezia before arrival. Pratique is automatic for vessels from Ports in U.K., France, Belgium, Holland, W. Germany, Greece and Italy.

RADIO: Genoa Radio – ICB or Marina Militare ICS. Radio telephone station at Leghorn, transmitting 2591 Khz., receiving 2182 Khz.

TUGS: Seven tugs available up to 1,500 h.p. For large tankers, four tugs usually used.

BERTHING:

Garibaldi Quay: length 510 metres, with three berths for ships up to 29 ft. draft.
Malaspina: length 200 metres, depth alongside 21 ft.
Paita Dock: length 535 metres, three berths for vessels up to 30 ft. draft. At Berth No. 7 depth increased to 33 ft.
Italia Quay: length 368 metres, depth alongside 19 ft. 6 in.
Dock No. 8: length 80 metres, depth alongside 18 ft.
ENEL Quay: length 200 metres, depth alongside up to 35 ft.

TANKERS: Shell Pier, length 177 metres, with four berths up to 39 ft. 6 in. depth.

SPI Buoy Terminal, situated 650 metres from San Bartolomeo shore. Vessels moor stern towards the shore. A crude oil discharge berth in depth of 11,50 metres, suitable for tankers up to 36 ft. draft. Other oil berths at ENEL Quay, depth 35 ft.

Safety regulations are handed to Master on arrival and must be strictly observed. No shore steam or electricity available. At Shell pier, no goods may be loaded from shore.

Slop discharge facilities available only at the Shell pier.

BULK HANDLING FACILITIES: Ferruzzi Grain Silos at Paita Dock. Discharge by two mechanical conveyors, capacity 2,000 tons per 8 hour shift.

At Garibaldi Quay grain discharged by four vaccuum-operated intake pipes, capacity 400 tons per hour.

Coal conveyor system at Paita Dock, capacity 450 tons per hour.

CONTAINER TERMINAL: Situated on the Eastern side of the Commercial Port. Owned by Contship of Cadenazzo. Crane for discharging and handling containers up to 40 ft. max. draft. 18 ft.

STEVEDORES: Gangs to be ordered by 0700 for morning shift, and by 1300 for afternoon shift every normal day from Monday to Friday. For mechanised work the same routine is to be followed. Saturdays, morning is considered as overtime work (tariff plus 27·50%). On the afternoon of Saturday, time is considered as holidays and so are Sundays. Saturdays and Sundays shift to be ordered on Friday afternoon within 15.30 hours.

MEDICAL: All facilities available. Vaccination/inoculation can be arranged. Prior notice should be given if urgent attention required on arrival.

FRESH WATER: Available at most berths, or by barge.

FUEL: Can be taken concurrent discharge at Shell Pier. Supplied by barge at other berths. S.P.I. terminal expected fit bunker lines shortly.

IDENTIFICATION CARDS: Shore passes issued to crew.

CONSULS: Following countries represented at Spezia: Denmark, France, Finland, Holland, Norway, Portugal, Sweden.

REPAIRS: Naval and civil repair yards can undertake all types of work.

DRY DOCKS: Available only when not used for naval vessels: No. 5, 209·65 m. by 27·60 m.; No. 6, 210·20 m. by 23·10 m. Floating dock for 80,000 dwt. under construction.

TIME: GMT plus one hour.

HOLIDAYS: New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Easter and Day after Easter; Ascension Day; Corpus Domini; Proclamation Day (2nd June); St. Peter and St. Paul (29th June); Assumption B.V. Maria (15th August); All Saints' Day (1st November); Victoria Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); Boxing Day (26th December).

SHORE LEAVE: Allowed.

AUTHORITY: Capitaneria di Porto, La Spezia.

AGENT: Gastaldi & C. S.p.A., 39–A/4, Via F. Crispi, PO Box 371. Cables: "Dick". Telex: 27482. Tel.: 32040 and 32041.

LIVORNO (Leghorn): 43.33 N. 10.20 E.

DOCUMENTS: Complete set of Manifests and B/Ls relative to cargo destined for this port. Complete set of Manifests of all cargo in transit. 3 Crew Lists. 3 Passenger Lists. All ship's documents.
ANCHORAGE: Anywhere between 1–1½ miles from breakwater.
PILOTAGE: Sound signals for calling Pilot, 3 long blasts, or international signal "G". Pilot boards vessels 1 mile from breakwater.
RESTRICTIONS: No night berthing for tankers; no restrictions for tankers on sailing, when empty and up to 15,000 gross tonnage according to weather conditions.
MAX. SIZE: Maximum draft for commercial port 34 ft. 6 in.; for oil carriers: 37 ft. 6 in. for tankers up to the length of 215 metres, or 34 ft. 6 in. for tankers from 215 to 240 metres length.
HEALTH: To obtain free pratique by radio cable to "Sanimare", Livorno, advising all health particulars at least 12 hours before arrival.
RADIO: Roma Radio generally used for communications.
TUGS: Tugs normally join vessel at entrance of the port. Ship's lines used.
BERTHING: Alto Fondale, depth alongside 34 ft. 6 in.
Calata Orlando, depth alongside 28 ft. 6 in.
Calata Carrata, depth alongside 28 ft.
Calata Pisa, depth alongside 26 ft.
Calata Depositi Franco, depth 29 ft.
Calata Sgarallino, depth 28 ft. 6 in.
BULK HANDLING FACILITIES: Grain: discharging rate 1,000 to 1,500 metric tons per day.
Ore and coal bulk: discharged by shore elevators at Calata Orlando, discharging rate 1500 to 2000 tons per day.
TANKERS: Two berths at Darsena Petroli for tankers up to 240 metres length, draft 39 ft. 6 in.
Four other tanker berths, for vessels up to 30 ft. draft.
Loaded tankers berth only in daylight hours, tankers may sail up to midnight.
No slop facilities available.
STEVEDORES: ETA required by Agent in order to arrange matters with stevedores at least 48 hours before arrival.
MEDICAL: It is advisable to give details of assistance required together with ETA cable. Hospital facilities available.
FRESH WATER: Available, by pipe-line. On other quays delivery by barge.
FUEL: All grades available from berth. Advance notice required 48 hours; supply subject to Owners' stem.
OPENING/CLOSING HATCHES: Normally carried out by stevedores.
CERTIFICATES: All ship's certificates required.
CUSTOMS ALLOWANCES: Tobacco. 50 cigarettes, or 50 grams tobacco per man for the first 24 hours. Wine and/or Spirits. Only in consignment of the Master.
IDENTIFICATION CARDS: Issued by local police authorities.
CONSULS:

Denmark	Norway
Finland	Netherlands
France	Peru
West Germany	Panama
Greece	Portugal
Haiti	Spain
Liberia	Sweden
Monaco	Switzerland

REPAIRS: All types of deck and engine repairs are possible.
DRY DOCKS: Dry docks suitable to accommodate a Liberty type ship. A small floating dry dock for vessels up to maximum of 1,500 tons.
REPATRIATION: All necessary repatriations possible.
AIRPORT: Nearest at Pisa, distance about 20 km.; served by Alitalia.
TIME: Local time is one hour ahead of GMT, and summer time 2 hours ahead.
HOLIDAYS: 1st January, 6th January, 19th March, Easter Monday, 25th April, 1st May, 23rd May, 2nd June, 13th June, 29th June, 15th August, 1st November, 4th November, 8th December, 25th December, 26th December. On these days work can be arranged with an increase of 150%.
TELEPHONES: Only at some quays is it possible to place telephones on board.
AUTHORITY: Camera di Comercio Industria e Agricultura, Livorno.

MESSINA: 38.11 N. 15.34 E.

DOCUMENTS: If vessel comes from foreign port, whenever possible, at least one copy of Crew List and Passenger List to be sent some days before her arrival, so that they can be delivered to police in advance. Required on arrival:
3 Crew Lists.
1 Provisions List.
3 Lists Passengers in Transit.
3 Lists Passengers Disembarking.
1 List of Articles – new and Customs-barred in possession each crew member – cameras, binoculars, radios, cigarettes, tobacco, new articles, etc. If on inspection articles or quantities not in conformity or in excess, Master responsible; articles removed and heavy fine imposed.
Copies of Cargo Manifest also to be prepared on arrival.
If Anchorage Dues already paid and still in force, the relative receipt to be shown to the Harbour Authorities, together with other ship's papers and report of arrival to be delivered to them.
PILOTAGE: Pilot meets vessel at about 1 mile from port's entrance. On request he can meet vessel at a greater distance, but additional tariff to be paid. Pilotage through Messina Straights is available but not compulsory.
MAX. SIZE: Maximum draft allowed: 33 ft. at passenger quay: Other berths 27 ft.
Max. length 200–300 metres.
Tankers: Length 100 metres, draft 27 ft.
ANCHORAGES: Allowed outside harbour; at Paradiso's bay, sufficient depths for safe anchorage existing. Advisable to request Pilot's assistance for indication of best anchorages.
RESTRICTIONS: For entering harbour during night time ETA to be given in advance.
HEALTH: Free pratique automatic for vessels coming from other Italian ports and quarantine flag not to be flown on entering. From other countries usual procedure applies.
RADIO: Contact through Rome Radio, Naples Radio, Augusta Radio, or Messina Radio.
TUGS: Not compulsory. Tugs join vessels at about ½ mile from entrance of harbour. If tug's lines used increase of 10% on tariff.
STEVEDORES: Enable Agent order gangs important obtain accurate ETA. Latest time to order gangs: normal shift 07.30 for work in the morning; 12.00 for work in afternoon; night shift 16.00 same day – Saturday noon or Sunday at 12.00 on Saturday.
Failure to give ETA results in cost of waiting gangs, charged to vessel.
Tonnage: Per gang in 8 hours: General cargo 50 ton – cereals 80 ton.
HOLIDAYS: Work can be arranged, provided timely notice is given, in following official holidays, paying the respective increase on normal tariff:
New Year's Day (January 1st); Epiphany (January 6th); March 19th; Easter Monday; 25th April; 1st May; Ascension Day; June 2nd; June 3rd; local religious holiday; Corpus Domini; 29th June; 15th August; 1st November; 4th November; 25th December; 26th December.
MEDICAL: Doctor can attend sick crew members or for vaccinations. Hospitals available.
TANKERS: There is an Esso bunkering station only. Small tankers from time to time discharge fuel oil, gasoline, etc.
FRESH WATER: All quays have water pipe-line connections and water may be supplied day and night (provided ETA given) directly from ashore by hoses; during summer time water may be supplied from 07.00 to 11.00 only.
GANGWAY/DECK WATCHMEN: Recommended.
OPENING/CLOSING HATCHES: May be carried out by the crew or stevedores.
CERTIFICATES:
Safety Certificate.
Wireless Safety Certificate.
Freeboard Certificate.
Deratisation Certificate.
Anchorage Duties Voucher.
Crew List.
Passenger List.
Construction Certificate.
CUSTOMS ALLOWANCES: 50 grms. tobacco for each seaman. Spirits: ¾ bottle for all crew.
IDENTIFICATION CARDS: Required.
CONSULS:

Argentina	Peru
England	Germany
Norway	Panama
Sweden	Denmark
Colombia	Finland
Holland	Guatemala

REPAIRS: Almost all types of deck and engine repairs can be carried out.
DRY DOCK: Dry dock belonging to Italian Navy. If it is not engaged for warships it can be hired. Therefore application must be granted by the Marina Militare. Dimensions are as follows: 492 ft. × 52 ft. 7 in. (bottom), 81 ft. 6 in. × 24 ft. 8 in. (top).
Smaller floating dry dock available, but also belongs to Italian Navy. Under construction a big dry dock to receive tankers.
REPATRIATION; No particular facilities existing; but necessary repatriation can normally be arranged.
AIRPORT: Reggio Calabria Airport – distance about 10 km. From Messina, Reggio Calabria can be reached in 15 minutes by hydrofoil boats, which run every half hour (about). Flights from Reggio Airport in winter, one per day; in summer, 2 per day.
TIME: In relation to GMT local time is an hour ahead. During summer, from June to September, clocks are put one hour forward.
POLICE/AMBULANCE/FIRE: Police, 46830; Ambulance, 45070; Fire, 30222.
TELEPHONES: No arrangements exist.
SHORE LEAVE: Allowed.
AUTHORITY: Il Comandante Colonello di Porto, Messina.

MILAZZO (Sicily): 38.13 N. 15.16 E.

DOCUMENTS:
6 Crew Lists.
6 Passenger Lists.
Provisions Manifest.
Manifest of Crew Personal Effects.
Cargo Manifest.
Arrival Report – completed on arrival.
Maritime Declaration of Health Certificate – completed on arrival.
Ship's Certificates, including Italian Authority dues.
Vaccination Certificates for sighting.

PILOTAGE: Pilot boards 1½ miles off the berths. International Code signals used. Pilot can be contacted on VHF channel 12.

ANCHORAGE: There are 6 anchorages for tankers over 3,000 GRT.
nr. 1 to 600 metres off the harbour green light – Bearing 034°;
nr. 2 „ 920 „ „ „ „ „ „ – „ 091°;
nr. 3 „ 3.870 „ „ „ „ „ „ – „ 097°;
nr. 4 „ 3.050 „ „ „ „ „ „ – „ 101°;
nr. 5 „ 1.200 „ „ „ „ „ „ – „ 036°;
nr. 6 „ 1,600 „ „ „ „ „ „ – „ 065°.
Anchoring prohibited within 1 mile of Refinery Wharves.

RESTRICTIONS: Large tankers are berthed in daylight hours only, medium and small tankers all hours. Unberthing all hours.

MAX. SIZE: Tankers up to 326,000 DWT.

HEALTH: Free pratique may be requested by radio to Sanimare between 12 to 6 hours before arrival advising vessel's name, nationality, last port, number of passengers and crew, and state of health on board. Pratique is automatic for vessels coming from ports in Italy, U.K., France, Belgium, Holland, W. Germany and Greece.

TUGS: Five available (most powerful 1,000 h.p.). Meet vessel ¾ mile off berths. Ship's lines used.

DRY CARGO FACILITIES: Ludovico Mazzullo Jetty, length 340 metres, depth 22 ft.; Pennello Eolie Jetty, length 65 metres, depth 23 ft.

MEDITERRANEAN REFINERY FACILITIES: One wharf 500 metres long and with a depth of 62 ft. allows the simultaneous loading or discharging of 2 ships (max. size 150,000 DWT) and 1 ship of small tonnage. Vessels berth head out. One anchor is used in mooring, but is not obligatory. Lines run to buoys ahead and astern.

One wharf 650 metres long and with a depth of 89 ft. on West side and 72 ft. on East side allows the simultaneous loading or discharging of 2 big ships (up to 326,000 DWT on West side and up to 250,000 on East side) and 1 ship of medium tonnage by the stern. Vessels berth head out. One anchor is used in mooring, but is not obligatory. Lines run to mooring dolphin ahead and astern.

Crude oil: loading arms 12 in. and 16 in.; fuel oil, ballast and other grades: arms 12 in.

Ballast line: 1×20 in.

FRESH WATER: Boiler and drinking water supplied from the jetty. At anchorage by barge. Max. pumping rate 50 tons per hour.

FUEL: All grades available subject to prior notice.

BALLAST: Ballast facilities available. Reception 700/800 tons per hour. No restrictions in capacity.

IDENTIFICATION CARDS: Shore passes given by local police.

TIME: GMT plus 1 hour. Summer-time: May to September GMT plus 2 hours.

CUSTOMS ALLOWANCES: 50 cigarettes are allowed per man per day for the first two days.

CONSULS: No Consul in Milazzo. The nearest are in Messina for the following countries: Peru, Great Britain, Argentine, Norway, Uruguay, Chile, Denmark, Germany, Australia.

AIRPORT: The nearest is at Reggio Calabria where there are three regular flights per day. Reggio Calabria can be reached by car and by hydrofoil in about two hours.

TELEPHONE: No connection possible.

SHORE LEAVE: Allowed but transit through the refinery area not permitted except in emergency. Boats are available for hire from wharves and anchorage to the landing pier in the port of Milazzo. Shore passes given by local police.

BULK HANDLING FACILITIES: Grain: discharged at Calata Villa Popolo and Pontile Silos berths, discharging rate 400 tons per hour.
Containers: discharged at Calata Granili,
Coal: discharged at Bausan West and Bausan Testata.

TANKERS: The Petroleum port is located at the far East area of the port of Naples and consists of the Vigliena Pier, Progresso Pier and "Diga Foranea". The Petroleum pier is exclusively used for handling petroleum products at its 7 berths, and several pipe-lines connect these berths with the Naples Refinery of Mobil Oil Italiana, Shell Italiana and State Railway Organisation which are all located in industrial area of Naples adjoining the petroleum port at a distance not exceeding 3 miles. The "Diga Foranea" is used exclusively by Mobil Oil Italiana for crude oil unloading and fuel oil loading. The imported crude oil is then pumped to the Naples Refinery. A new plant, owned by Mobilchimica Italiana, is now operating in the Industrial area and loads its petrochemical products into Vigliena Pier. New petroleum basin located at the Eastern side of port can berth two supertankers simultaneously up to 40 ft. draft.

FRESH WATER: Water pipelines are connected to all wharves and piers in Port. Water barges available.

FUEL: All grades available. Delivered by barge subject to advance notice given.

REPAIRS: All types of ship repairs can be carried out by the ship-

yards of Soc. Esercizio Bacini Napoletani and Soc. Cantieri Pellegrino, at Pontile Vigliena.

DRY DOCKS: Three graving docks with dimensions as follows:

Length	206	metres	width	21	metres		
,,	115	,,	,,	16	,,		
,,	335	,,	,,	40	,,		

In addition two floating docks:

Length	100	metres	width	17	metres	lifting capacity		1,400	tons
,,	233	,,	,,	37	,,	,,	,,	28,000	tons

CONSULS: The following countries are represented in Naples:

Argentina	Great Britain	Spain
Belgium	Greece	Sweden
Brazil	Indonesia	Switzerland
Denmark	Liberia	Turkey
Finland	Netherlands	U.A.R.
France	Norway	U.S.A.
Germany	Panama	Uruguay
	Portugal	

CUSTOMS ALLOWANCES: 40 cigarettes and 1 opened bottle wine/spirits per man.

IDENTIFICATION CARDS: Shore passes given by local police.

AIRPORT: Capodichino Airport, situated 8 km. from city. Full international services.

POLICE/FIRE/AMBULANCE: Police tel. 315032; Fire 330210; Ambulance 351450.

TELEPHONES: Telephone system permits the connecting up of the ships in all berths with the city network.

TIME: GMT plus 1 hour. Summer-time: May to September GMT plus 2 hours.

HOLIDAYS: Local and national holidays: New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Easter and day after Easter; Ascension Day; Corpus Domini; Proclamation Day (2nd June); St. Peter and St. Paul (29th June); Assumption B.V. Maria (15th August); Local Saints' Day (19th September); All Saints' Day (1st November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); and 26th December.

AUTHORITY: Ente Autonomo del Porto di Napoli.

OLBIA (Terranova) Sardinia: 40.45 N. 09.31 E.

DOCUMENTS:

For Maritime Authority:
- Arrival Report.
- Crew List.
- Passenger List.
- Ship's Certificates, for sighting.

For Port Health:
- Maritime Declaration of Health (2 copies).
- Vaccination Certificates, for sighting.

For Customs:
- List of Supplies and Engine Stores.
- Cargo Manifest, enclosing Bills of Lading.

For Police:
- Passenger List (2 copies).
- Crew List (2 copies).
- Shore Passes for all passengers and crew.

PILOTAGE: Pilots are requested by International Code Signals Telegraphic address, Pilot-Olbia. At least 2 hours notice of arrival required. No VHF. Pilots have portable radios with range 10 miles operating on 27112 and 27085 kHz. Pilot launch is wooden motor boat of 65 h.p., speed 9 knots. Pilot boards 1 mile from Lighthouse Isola Bocca. Vessels may anchor temporarily in this location to await Pilot.

ANCHORAGE: In the roads of Golfo Aranci.

RESTRICTIONS: Between 05.30 and 06.30; 22.30 and 23.30, channel kept free for entrance and exit of liners.

MAX. SIZE: Isola Bianca, max. draft 22 ft. Inner port, max. draft 18 ft.

HEALTH: Before arrival vessel to advise Agents if free pratique required, indicating state of health on board.

TUGS: One available, service is optional, tug normally meets vessel in vicinity of Isola Bianca.

STEVEDORES: Agents require ETA 24 hours before arrival in order to arrange gangs.

MEDICAL: Hospital facilities available. Vaccinations and inoculations can be done, except for yellow fever which must be done in Cagliari.

FRESH WATER: Available in inner port and Isola Bianca.

FUEL: Available only by barge, subject 2 to 3 days notice.

DEVELOPMENTS: Planned to dredge entrance to 10 m. depth. The channel to the inner port is being dredged to 7·50 m.

GANGWAY/DECK WATCHMEN: Service is optional.

OPENING/CLOSING HATCHES: Work is exclusively done by stevedores.

CUSTOMS ALLOWANCES: For first 48 hours, 50 grammes tobacco per person and 20 gm. for each successive day. Not permitted to take tobacco out of the docks. Reasonable amount wine/spirits allowed for normal consumption on board.

IDENTIFICATION CARDS: Shore passes required.

CONSULS: No local representatives.

AIRPORT: Olbia Airport is Vena Fiorita, 10 km. away. Regular services.

TIME: GMT plus one hour. Summertime GMT plus two hours from June to September.

HOLIDAYS: New Year's Day (1st January); Epiphany (6th January) St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Easter Monday, Ascension Day, Corpus Domini (variable date); Proclamation Day (2nd June); St. Peter and St. Paul (29th June); Assumption B. V. Maria (15th August); All Saints' Day (1st November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); Boxing Day (26th December).

Sundays – tariff plus 50%. Holidays – tariff plus 150%.

POLICE/AMBULANCE/FIRE: Police, 22081; Ambulance, 22394; Fire, 22222.

SHORE LEAVE: Allowed.

AUTHORITY: Capitaneria di Porto.

PALERMO, Sicily: 38.07 N. 13.20 E.

DOCUMENTS:
- 6 Crew Lists.
- 6 Passenger Lists.
- Provisions Manifest.
- Manifest of Crew Personal Effects.
- Cargo Manifest.
- Arrival Report, completed on arrival.
- Maritime Declaration of Health Certificate, completed on arrival.
- Ship's Certificates including Italian Authority Dues.
- Vaccination Certificates for sighting.

PILOTAGE: Compulsory for vessels over 499 gross tons. Pilot joins vessel 1 mile off port entrance. Pilot can be requested by International Code Signals. Pilot station and every Pilot equipped with walkie-talkie VHF set. In case of rough weather pilot boat will be in the bay and will lead ships through port entrance where pilot will be able to board.

ANCHORAGE: It is advisable to use Pilot for anchoring in Palermo Bay.

RESTRICTIONS: No entry restrictions, but there is a daily mail boat service to and from Naples arriving about 0800 hrs. and sailing at 19.15 hrs. No vessel is allowed to leave or enter the port half an hour before arrival or sailing of this vessel.

MAX. SIZE: Draft maximum is 23 ft. to 32 ft. according to the quay. Tankers up to 15 m. draft.

HEALTH: Free pratique may be requested by radio to "Sanimare", Palermo, between 12 to 6 hours before arrival advising vessel's name, nationality, last port, number of passengers and crew, and state of health on board. Pratique is automatic for vessels coming from ports in Italy, U.K., France, Belgium, Holland, W. Germany and Greece.

RADIO: Naples Radio, call sign IQH, Roma Radio, call sign IAI, Cagliari Radio, call sign IDC.

TUGS: 6 to 8 tugs are available with up to 800 horse power. Tugs normally join vessel in the Bay. Ship's lines are used.

BERTHING: *Grain in bulk.* One private silo (22,000 tons) owned by Silos Granaria Sicilia, S.p.A. available. Maximum depth 33 ft., length 326 m.; largest fully loaded grain vessel berthed up to now about 25,000 tdw., with 33 ft. 6 in. draft. Three berths are also available for grain discharged on wagons or trucks. Discharge can be made by shore crabs or by vessel's gears. Discharging rate 300 tons per day per hatch. Draft normally maximum 32 ft., length 326 metres.

The quay Puntone has been completed recently with about 12,000 sq. metres available to discharge containers, general cargo, cars, etc.

STEVEDORES: Gangs arranged through agent. To be ordered before 8 a.m. to start work in the morning, and not later than 11 a.m. to start work at 1 p.m.

MEDICAL: Assistance will be given upon request. English-speaking doctors available.

TANKERS:

Oil Products and Crude Oil: Agip. Max. length 185 m., draft 32 ft., 25,000 dwt. Tankers drop anchors and are tied up at 2 buoys astern. Discharge rate 200–400 tons per hour.

Islom. Max. length 260 m., draft 40 ft., 96,000 dwt. Vessels are berthed alongside. North breakwater is used for loading and discharging fuel oil at discharging rate of 400 tons per hour.

Esso. Max. draft 15 m., no limitation for length. Vessel drops anchor and ties up at 2 buoys by stern. Discharging rate 600–700 tons per hour.

DENSITY: 1025.

FRESH WATER: Available at any quay by hoses or barges. By hose at 25 tons per hour, by barge 45 tons per hour.

FUEL: Available.

GANGWAY/DECK WATCHMEN: Not compulsory; usually number of watchmen required depends upon the Master.

OPENING/CLOSING HATCHES: Crew usually carry out this operation.

CUSTOMS ALLOWANCES: 40 cigarettes and one opened bottle wine/spirits per man.

IDENTIFICATION CARDS: Shore passes given by local police.

TIME: GMT plus one hour. Summertime: May to September, GMT plus 2 hours.

CONSULS: Belgium, Holland, France, Germany, Norway, Panama, Portugal, Spain, U.K., United States.

REPAIRS: Any type of repairs undertaken.

DRY DOCKS: One graving dock and two floating graving docks. 172 m. length, 24 m. width, 1st floating dock. 193 m. length, 24 m. width, lifting power 10,000 tons, 2nd floating dock. 254 m. length, 46 m. width, 40,000 lifting power.

AIRPORT: Distance from Punta Raise Airport is about 20 km. Airport served by regular services.
REPATRIATION: Good facilities exist.
HOLIDAYS: New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Easter Monday; Ascension Day; Corpus Domini; Proclamation Day (2nd June); St. Peter and St. Paul (29th June); Assumption B.V. Maria (15th August); All Saints' Day (1st November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); Holiday (26th December).
Cargo work can be arranged on the above days.
POLICE/AMBULANCE/FIRE: Police, 233333; Ambulance, 231166; Fire, 212222.

PORT LIMITS: Within one mile of Breakwater light.
PILOTAGE: ETA to Agent in local time (GMT plus one hour). Summer-time May to September (GMT plus two hours).
Pilots embark E.S.E from breakwater light, distance one mile or less according to weather conditions Pilotage usually available at greater distance on request of ship or Agent Being an open road, care should be given to provide shelter to Pilot embarking/disembarking facilities, especially in Southerly winds or a swell.
Pilot ladder according to Convention Safety of Life at Sea, and EMPA recommendations.
Southerly gales may prevent Pilot from embarking or even from approaching the ship; in this case pilot boat may guide limited size vessels to sheltered water and then embark Pilot (signals by lamp or flags UF).
Pilots VHF will be activated in near future.
ANCHORAGE: Outside the harbour leaving entrance of dredged channel clear and ample sea room to intense traffic of car ferries to and from Island of Elba.
Pilot not compulsory, but available day and night on request of ship or Agent.
RESTRICTIONS: Berthing of ships over 35,000 dwt unadvisable in darkness. Berthing may be restricted by Southerly gales also for smaller vessels. No restrictions on sailing but may be necessary to disembark Pilot at Portoferraio (Island of Elba). Considerable swell in the harbour during gales.
MAX. SIZE: Maximum draft 39 ft., length 260 metres, no breadth restriction. Can accommodate vessels up to 50,000 dwt.
HEALTH: Free pratique automatic for vessels coming from Continent, "Q" flag not to be flown on entering. From other countries, including Spain and Portugal, usual procedure applies. Not coming from Continent it is possible to request free pratique by radio to "Sanimare", Piombino, between 12 to 6 hours before arrival.
RADIO: Civitavecchia or Leghorn Radio.
BERTHING: "Acciaierie di Piombino" (ex-Italsider) pier equipped for quick discharging of ore, coal, scrap, etc.—Berth No. 4 depth 39 ft. Berth No. 3 depth 35 ft. 6 in Other commercial berths, max. depth 29 ft., equipped with mobile crane 10 tons. One berth (21 ft.) with roll-on/roll-off facilities.
STEVEDORES: To enable Agent to order gangs, it is important to radio accurate ETA. Latest time to order gangs: shift 0600–1400, 1700 hrs. day before, shift 2200–0600, 1700 hrs. same day, shift 1400–2200, 1100 same day. Failure to give precise ETA may result in ship losing 12–24 hours, and the cost of the gang not employed, about lit. 70.000.
MEDICAL: Doctor and dentist can attend sick crew, For yellow fever and smallpox vaccination doctor comes from Leghorn.
FRESH WATER: Available at any pier, by pipe-line.
FUEL: Available by barge from Livorno.
OPENING/CLOSING HATCHES: Normally carried out by crew (if stevedores, extra charge).
CERTIFICATES:
Certificate of Registry.
Load Line.
Safety Equipment.
Radio Certificate.
Deratisation Certificate.
CONSULS: No Consuls.
REPAIRS: Small repairs only undertaken.
REPATRIATION: It is possible to arrange repatriation.
HOLIDAYS: Cargo work can be arranged on all official holidays.
POLICE/AMBULANCE/FIRE: Police 31111 or 32222; Ambulance 36022; Fire 33333; Emergency call (all services) 113.
SHORE LEAVE: Allowed.
AUTHORITY: Il Comandante, Capitano di Porto.

PORTO TORRES (Sassari): 40.51 N. 08.24 E.

DOCUMENTS:
1 Crew List.
1 Passenger List.
1 Maritime Health Declaration.
1 Arrival Report.
PILOTAGE: International Code Signals are used to call Pilot. Pilot station telegraphic address, Corpo Piloti Porto Torres, tel. P. Torres 54936. No VHF connection at present. The pilot boats carry international pilot signals. The Pilot normally boards about 1 mile from port entrance. On request, vessel can be boarded 3 miles off port entrance.
RESTRICTIONS: The oil terminal is exposed to winds and swell from N.W. to N.E. Heavy N.E. swell may delay berthing of larger vessels. Vessels should be ready to leave the berth if necessary due to adverse weather conditions.
ANCHORAGE: About 1 mile from the green light on head of West Mole in depths of 25 m.
MAX. SIZE: Inner port: length 120 m., draft 7 m.; Outer port: length 150 m., draft 8 m.; West Mole: length 150 m., draft 8–10 m.
S.I.R. Terminal: Pier A, length no limit, draft 9 m.; Pier B, length no limit, draft 12 m.; Pier C, length no limit, draft 15 m.; Pier E, length no limit, draft 8 m.
S.B.M. mooring: up to 300,000 tons.
HEALTH: Pratique is given by the Port Medical Officer who boards all vessels coming from foreign ports. No Radio pratique at present.
RADIO: Coastal radio station, Porto Torres Radio P.T., call sign IZN, operating on 2182 kHz. A continuous service.
TUGS: Join vessel about ½ mile from port or from S.I.R. Piers. Ship's lines normally used. Four tugs available.
TANKERS: Largest tankers afloat can moor at single Buoy mooring located 1·7 miles N.N.W. of S.I.R. terminal.
BERTHING: While dry cargo vessels may enter port at any time, tankers are only allowed to berth between sunrise and sunset; sailing is permitted at any time.
STEVEDORES: There are two ordering times each day. The first at 08.00 and the second at 13.30. It is possible to order gangs outside normal working hours through ship's Agents.
MEDICAL: All facilities available. Nearest hospital located at Sassari, 18 km. away.
DENSITY: Salt water.
FRESH WATER: Can be supplied in limited quantities to vessels in port and in the roads.
FUEL: All grades available by pipeline at S.I.R. piers. Elsewhere, can be supplied by barge, subject advance notice of 12 hours.
GANGWAY/DECK WATCHMEN: Authorised shore service available.
OPENING/CLOSING HATCHES: Normally done by crew, can be done by stevedores on request.
CUSTOMS ALLOWANCES: 40 grammes tobacco per man. Normal daily consumption wine/spirits allowed.
IDENTIFICATION CARDS: Not required.
CONSULS: No local consular representation.
REPAIRS: Only minor repairs can be effected locally.
REPATRIATION: can be arranged through Agents.
AIRPORT: Nearest at Alghero-Fertilia, 34 km. away. Daily flights to main Italian cities.
TIME: GMT plus one hour. Summer-time, clocks advanced 1 hour between 24th May and 21st October.
HOLIDAYS: New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Patron Saint (22nd May); Easter Day, Ascension Day, Corpus Domini (variable date); Proclamation Day (2nd June); St. Peter and St. Paul (29th June); Assumption B. V. Maria (15th August); All Saints' Day (1st November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day 25th December); Boxing Day (26th December).
POLICE/FIRE/AMBULANCE: Police tel. 54888; Fire, 31421; Ambulance, 54973.
SHORE LEAVE: Allowed.
AUTHORITY: Capitaneria di porto di Porto Torres. Cables: Compamare Portotorres. Tel. 54884 and 54396.

RAVENNA: 44.25 N. 12.12 E.

DOCUMENTS:
For Maritime Authority:
Ship Safety Certificates.
3 Crew Lists.
3 Passenger Lists.
For Customs:

De-rat. Certificate or Exemption.
Maritime Health Declaration.
For Police:
1 Crew List.
1 Passenger List.

PILOTAGE: Ordered by Agent in advance. Contact by radio telephone: Nos. 430453 and 430204 during office hours. Cables to Piloti del Porto, Marina di Ravenna. Pilot station and both pilot boats equipped with VHF, Channels 16, 9, 6 and 12. Pilot is embarked not less than 1 mile from head of breakwater. Vessel awaiting Pilot may anchor 1·5 miles from breakwater head. This anchorage is not secure in bad weather. Vessels bound for SAROM installation, embark Pilot at least ½ mile from the berths. Pilot launches have black hull with white band, white superstructure, 10 or 14 m. in length.
ANCHORAGE: Anchorage prohibited in vicinity of submarine pipe-lines and cables. Vessels waiting for a berth may anchor at a distance more than 1·5 miles. from the outer breakwater head according to their draft and subject to weather conditions.
RESTRICTIONS: Berthing in daylight only. The channel to the inner port is navigable one way only. Traffic signals are displayed to indicate when channel closed to incoming vessels.
MAX SIZE: *Inner Port*, draft limited from 17 ft. to 17 ft. 6 in. depending on vessel's beam.
San Vitale, max. draft 28 ft. allowed from port entrance to San Vitale Basin.
Sarom (Oil Platform), length not limited, max. draft 36 ft.
Sarom (Oil Berth), length not limited, max. draft 36 ft.
SBM Terminal, length not limited, max. draft 44 ft.
HEALTH: Pratique given by radio, on request to Sanimare Ravenna. Pratique is automatic for vessels coming from ports in Italy, United Kingdom, France, Belgium, Netherlands, Germany and Greece.
RADIO: Messages via Ancona Radio, Venezia Radio, or Trieste Radio. Ravenna VHF Radio Station operates on Channels 16, 25, 26, and 27.
TUGS: Available, join vessel in outer port. Ship's lines are used.
STEVEDORES: To be ordered before 1030 hours for afternoon work, and before 1630 hours for following morning.
MEDICAL: All facilities available.
TANKERS: No slop discharge facilities available. Dirty ballast may not be discharged within 20 miles of the port.
S.B.M. TERMINAL:
No. 3 Terminal (Ocean Berth) lies in position Lat. 44° 29′ N., Long. 12° 25′ E. It can accommodate vessels of any length but there is a maximum draft of 44 feet.
Discharging by 10-in. flexible hoses connected to the ship's port manifold.
Vessel lies stern to buoy heading Northward, using both anchors. These are backed up with a shore wire on each bow. At the stern shore wires are used and there are two breast lines on either side.
If the vessel has to anchor, this should be to the North of the buoy and not less than 3·5 miles from the coast. This gives good holding in mud and clay if plenty of cable is used, as there is occasionally a 2·5 to 3·0 knot Southerly current. Vessels should not anchor South of the buoy due to the presence of telegraphic cables and pipe-lines
DENSITY: 1024.
FRESH WATER: Only available ex-wharf at San Vitale and at inner port piers. Barge available for deliveries to the Silos Piers and tanker terminals.
FUEL: Available by barge.
FIRE PRECAUTIONS: Tankers are given copy of port fire regulations on arrival. No repairs or gasfreeing to be carried out without permission of Port Authorities.
DEVELOPMENTS: Construction of a new tanker terminal in depth of 20 m.
GANGWAY/DECK WATCHMEN: Optional, can be employed from shore if required.
OPENING/CLOSING HATCHES: Can be performed by ship's crew, or by the stevedores.
CUSTOMS ALLOWANCES: 50 cigarettes per man for first day in port. Wine/spirits, allowance is made for normal daily consumption on board.
IDENTIFICATION CARDS: Shore passes given by police.
CONSULS:

Norway	tel. 24.5.47
Sweden	,, 22.6.39
Spain	,, 24.0.14

REPAIRS: Minor engine repairs can be effected. Floating dry-dock available for up to 1,000 tons displacement.
REPATRIATION: Can be arranged.
AIRPORT: Forli Airport situated 25 km. away, with daily flights to Rome and Milan.
TIME: GMT plus one hour. From May to September, GMT plus 2 hours.
POLICE/FIRE/AMBULANCE: Police, tel. 22.4.66; Ambulance, 22.3.11; Fire, 22.2.22.
TELEPHONES: Cannot be installed on board.
SHORE LEAVES: Allowed. Launch service available for vessels in the roads.
AUTHORITY: Capitaneria di Porto Ravenna, Via Antico Squero 9, tel. 22 100, 24 1 24.

AGENT: Gastaldi and Co. S.p.A., 23 Via Carducci, P.O. Box 391, Cables "Dick Ravenna". Tel. 23505. Telex 55183.

SALERNO: 40.40 N. 14.45 E.

DOCUMENTS: As for all Italian ports, i.e. all ship's documents in valid condition and Arrival Reports, to be filled upon arrival with the Port Authority's representative.
PILOTAGE: Master may communicate with Pilot in the normal way. Either by hoisting "G" flag, or by calling him on "ALDIS" if night time.
ANCHORAGE: Position of anchorage, about 1·8 miles S.W. of the intermittent red light. Depth of water 12 metres.
RESTRICTIONS: Vessel cannot enter or sail from the harbour between 2100 and 0500 hours.
MAX. SIZE: Vessel allowed to enter port should not exceed 150 metres in length or 23 ft. draft.
HEALTH: Free pratique not obtainable by radio. Usual formalities on berthing.
RADIO: All cables should be sent via "NAPOLI RADIO" call sign IQH.
No VHF Station exists.
TUGS: Lines must be supplied by the ship. Tugs position is near the intermittent light (red).
BERTHING: Five berths with depths from 19 ft. to 23 ft.
STEVEDORES: Stevedores are to be informed 24 hours prior to vessel's arrival.
MEDICAL: Medical Service should be requested in advance. Hospital facilities are obtainable.
DENSITY: Average salinity is 1025 inside port.
FRESH WATER: Fresh water available at all berths.
FUEL: Bunkers may be supplied from Naples by truck or barge. If large quantities are requested supply will be effected by barge from Naples.
DEVELOPMENTS: Presently some works are in progress in order to obtain a further berth with deeper draft.
CUSTOMS ALLOWANCES: Only 40 cigarettes on vessel's arrival. This applies to officers and crew. The remaining stock will be sealed in vessel's bonded store.
CONSULS: No consular representatives exist in Salerno. Nearest at Naples.
REPAIRS/DRY DOCKS: No dry dock exists. Only small workshops attending minor repairs.
AIRPORT: The nearest airport is at Naples. Distance 70 km.
TIME: One hour ahead of GMT.
HOLIDAYS: Other than the national festivities, 21st September, a local holiday, being the Name Day of the town's Patron Saint.
TELEPHONES: Emergency phone number is: 113.

SAVONA (including Vado Ligure): 44.18 N. 08.29 E.

DOCUMENTS:
Arrival Report for Port Authority.
Cargo Manifest.
Provisions and Crew Personal Effects Manifest.
8 Crew Lists.
Safety Certificates.
PILOTAGE: Ordered through Agent. Telegraphic address: Piloti Porto di Savona. Pilot launch is black with white band. To call pilot, use flag or light signals according to International Code. For vessels bound for Savona or Vado Ligure, pilot boards about ½ to 1 mile SE of the red light at Savona port entrance.
ANCHORAGE: Depths of 25 metres. Important limit: it is forbidden to anchor North of bearing 270° from red light between 1st October and 14th May. It is forbidden to anchor East of bearing 360° from the white light between 15th May and 30th September.
RESTRICTIONS: Night entrance is considered for each case depending on type of mooring and vessel's draft. At Savona berths, vessels on maximum draft berth in daylight at high tide. No restrictions on un-berthing.
MAX. SIZE: Savona inner port, max. draft 9 m.; Savona Silos, max. draft 10·50 m.; Vado Ligure Roads, depending on berth depth.
HEALTH: Request free pratique by radio from Sanimare Savona prior arrival.
RADIO: Genova Radio or Roma Radio. VHF at Harbour Master's Office (tel. 22464).
TUGS: Available, join vessel in vicinity of Savona port entrance or at Vado Ligure just off the berth. Ship's line usually used. If tug line used, tariff plus 20% is charged.
BERTHING:
Savona: Funivie (S. Giuseppe), 32 ft. depth; Savona Silos S.p.A., 30 ft. depth.
Vado Ligure: Fornicoke Pier, 38 ft. depth; Esso berth, 32 ft. depth; Vadoil berth, 39 ft. depth; Shell berth, 31 ft. depth; SARPOM buoy berth, in 60 ft. water serving Quiliano/Trecate pipe-line; SARPOM buoy berth, in 55 ft. water serving Savona/Trecate pipe-line; Chevron berth, 31 ft. depth.
BULK HANDLING FACILITIES: Grain: discharged at berth No. 17, rate 500 tons per hour.
Coal: discharged at Funivie, discharging rates ranging between 7,500 and 16,000 tons per day, depending on suitability of vessel for discharging facilities.
TANKERS: SARPOM Sealine Terminal: vessel moored at five buoys in 60 ft. of water, suitable for tankers up to 49 ft. draft, and 285 metres length.
At Chevron, Shell and Vadoil berths, tankers are moored stern to quay.
No slop discharge facilities available.
STEVEDORES: Ordered by ship's Agent, no separate ETA required.
MEDICAL: All facilities available.
DENSITY: 1025.
FRESH WATER: Obtainable at berths by pipe-line. Barge available for quantities in excess of 60 tons.

FUEL: All grades available by barge.
FIRE PRECAUTIONS: Watchmen on board tankers or vessels handling dangerous cargo.
OPENING/CLOSING HATCHES: Can be handled by ship's crew or stevedores.
CUSTOMS ALLOWANCES: Bond Sealed. Small quantity cigarettes and spirits permitted for consumption while in port.
IDENTIFICATION CARDS: Shore passes given by local police.
CONSULS:

Finland	Norway
France	Spain
Netherlands	Sweden

REPAIRS: All types of repairs possible.
HOLIDAYS: 1st January; 6th January; 19th March; 25th April; Easter Monday; 1st May; 7th May; 28th May; 2nd June; 29th June; 15th August; 1st November; 4th November; 8th December; 25th and 26th December.
POLICE/FIRE/AMBULANCE: Police, tel. 28868; Ambulance, 20125; Fire, 21000.
TELEPHONES: Can be connected on board.
SHORE LEAVE: Allowed.
AUTHORITY: Capitaneria di Porto, tel. Savona 20940.

TARANTO: 40.29 N. 17.15 E.

DOCUMENTS:
6 Crew Lists.
6 Passenger Lists.
Provisions Manifest.
Manifest of Crew Personal Effects.
Cargo Manifest.
Arrival Report, completed on arrival.
Maritime Declaration of Health Certificate, completed on arrival.
Ship's Certificates including Italian Anchorage Dues.
Vaccination Certificates for sighting.
PILOTAGE: Piloting in Port of Taranto is compulsory to all vessels over 500 GRT. Vessels are taken 1 mile off S. Vito Cape Lighthouse. Also for shifting from berth to berth Pilot assistance is compulsory.
RESTRICTIONS: Entry allowed day and night.
MAX. SIZE: Tankers up to 72 ft. draft may berth at buoy mooring. Bulk carriers up to 50 ft. draft may berth at Italsider Pier.
HEALTH: Free pratique is automatic for vessels coming from Italy, France, Great Britain, Ireland, Germany, Belgium, Holland and Greece. From other countries it may be obtained via radio, by applying to "Sanimare Taranto" between 12 and 6 hours before arrival.

Smallpox vaccinations available. Yellow fever vaccinations could be arranged by calling Bari port doctor to Taranto with two days notice.
TUGS: Towage service is not compulsory and is supplied by one tug of 1,350 h.p., 2 tugs of 1,000 h.p., and one of 1,035 h.p. belonging to Rimorchiatori Napoletani. It is expected that the service will be improved in the future with a further tug of 1,920 h.p.
BERTHING: *Outer Harbour:* Quays No. 1/2, combined length, 1,050 ft. (32 m.); maximum draft, 26 ft. 3 in. (8 m.); Quay No. 3, length, 820 ft. (250 m.); maximum draft, 27 ft. 10 in. (8·50 m.).

Italsider Pier: *Eastern side* (for discharge of ore, coal, steel scrap): length, 4,456 ft. (444 metres); depth alongside 52 ft. 6 in.; max. draft allowed 50 ft.

Western side (for discharge and loading of finished goods): length, 1,566 ft. (477 metres); depth alongside 33 ft

Safety. During winter time, berths are subjected to heavy swell which may force vessels to leave same, as the breakwater effectively protects only the Eastern side. However, work is now in progress to lay new breakwater, which should also render safe the Western side.

Head of the Pier: Width, 448 ft. (136·55 m.); maximum length of vessel, 459 ft. (140 m.) or up to 525 ft. (160 m.), subject to vessels laying at Western and Eastern sides being berthed at not less than 164 ft. (50 m.) from head of pier; depth alongside, 32 ft. 8 in. (10 m.).

Cement Pier: Maximum depth is 8·50 m.; suggested maximum draft 8·20 m. (26 ft. 10 in.); maximum vessel length acceptable, 120 m.; rate of loading (in bulk): up to 280 m./ton per hour; (in bag): up to 35 m./ton per hour.
TANKERS: *Aviation Gasoline Oil Jetty.* Tankers moor with two anchors and with stern made fast to four buoys. Connection by stern. Vessel lifting up hoses (9 in.) from the jetty (breadth 9 ft., length 1,476 ft.). Length of pipe-line from ½ to 1½ miles.

Access to vessel by boat. No water or bunkers available. Maximum draft 25 ft. Night crossing of Mar Piccolo up to and from jetty is not allowed.

Navy Oil Jetty: Pier, terminating in two quays, which may accommodate two vessels each. Max. draft 33 ft., hoses 300 mm. Night movements allowed.

Petroleum Pier: Exclusively used for handling petroleum products at its four berths and is connected by several pipe-lines with Shell Italiana Refinery, as well as with the bulk plants belonging to Agip, and Industrie Chimiche De Gaeta, which are all located in the industrial area of Taranto adjoining to the petroleum port. Access to the pier is through a dock 350 m. long and 33 m. wide. The pier itself is 560 m. long.

Berth No. 1 and 2 (aft berths), maximum length of vessel, 175 m. (557 ft. 3 in.); maximum draft, 9·50 m. (31 ft. 2 in.). Maximum depth, 10 m. (32 ft. 9 in.). Bunkers from line, (8 in. hose, 10 in. pipe-line). Water, by barge. Loading arms, 2 of 10 in., 3 of 8 in.

Berth No. 3 and 4 (fore berths), maximum length of vessel, 208 m. (682 ft. 5 in.); maximum draft, 10·50 m. (34 ft. 5 in.); maximum depth, 11·00 m. (36 ft. 1 in.). Bunkers and water, as per berths 1 and 2. Loading arms, 6 of 10 in.

Pier is fitted with one line for each product to be loaded (14 lines) and a 20 ft. line for ballast discharge. Any quantity of ballast may be received by the pier. Access to the pier for provisions only via boats.

Shell CBM. Shell terminal for discharge of crude oil is situated in Mar Grande North-east of St. Paul's Island. Distance 3,000 metres, and bearing 048° from light at the head of St. Paul Breakwater. Vessels moor at five buoys with port anchor down. Buoys are equipped with intermittent red lights and quick-release hooks.

The hoses (two of 12-in.) are signalled by marker floats and have to be lifted by vessel with derrick capacity at least 8 tons. The terminal is connected with the refinery by a 34-in. pipe-line, 5 kilometres long. Maximum length acceptable 330 metres, maximum draft 72 ft., maximum dwt. 200,000 tons.

Two tugs recommended for berthing with good weather and without North-westerly winds. Night mooring and unmooring allowed.

Agip/Anic Terminal: Vessels moor with two anchors and with stern made fast to four mooring buoys.

Maximum draft 26 ft. 3 in. (8 m.). Under rough weather conditions vessels may have to leave the terminal, position being exposed. No mooring at night allowed, while unmooring is permitted. Supplies, bunkers, water, and connections with vessel by barge.

For methanol, tank inspection is usually carried out in the road, before berthing.

Pozzi Ferrandina SPA Terminal: Three sea lines, the hoses of which must be lifted from the sea bottom by ship's gears. One sea line (6 in.) is used to load methanol and one (6 in.) to load soda. Third (3 in.) sealine is for water. Port side hose connection. Pipe-line length ¼ mile.

Vessels moor with starboard anchor and made fast to three buoys astern and one port. Night movements are not allowed. Maximum draft 22 ft. Maximum length 85 m.

Industrie Chimiche Di Gaeta, G.I.D. Terminal: Situated further West of Pozzi Terminal, it has three sea lines with hoses of 6 in. and 10 in., which have to be lifted from sea bottom.

Vessels moor with port anchor and make fast to three buoys astern and one buoy forward starboard. Maximum draft 22 ft. Night movements not allowed.
BRIDGES: One bridge in inner harbour. Opening times: 00.20–04.20, 08.30, 15.10, 21.10. Opening on Agent's request to Harbour Master (24 hours notice requested for day opening time). Maximum speed in the canal, 6 knots.
STEVEDORES: Available. Normal working hours are from 07.00 to 15.00. For work performed in overtime/and/or holiday, the "Tariffs to the Workers" are increased as follows:

Day	*Shift*	*Increase*
Weekday	15.00–23.00 hrs.	40%
	23.00–07.00 hrs.	80%
Saturday	11.00–15.00 hrs.	40%
	15.00–23.00 hrs.	40%
	23.00–07.00 hrs.	80%
Sunday	07.00–15.00 hrs.	50%
	15.00–23.00 hrs.	80%
	23.00–07.00 hrs.	100%

DENSITY: 1029 and 1031. Tides negligible. Maximum variation 1 ft.
FRESH WATER: Available at all quays from 0700 to 1700 hours. also available by barge of up to 190 tons capacity.
FUEL: Available by barges from Agip; Shell and Sincat. 48 hours notice requested, aside from usual stemming.

Lubricating Oil. Available from Shell, Mobil and Esso.
FIRE PRECAUTIONS: Performed by fire brigade and compulsory to all tankers undergoing repairs/dry docking. It is requested and paid for by the shipyard, which afterwards charge same directly to the Owners.
WATCHMEN SERVICE: Available. Hourly cost, lire 450 per watchman used (lire 500 on Sunday and holiday).
OPENING/CLOSING HATCHES: Usually carried out by crew, but stevedores also carry out this operation at 1,202 lire per hatch.
CUSTOMS ALLOWANCES: 40 cigarettes and one opened bottle wine/spirits per man.
IDENTIFICATION CARDS: Required. Shore passes issued by local police.
CONSULS: Spain, France, Panama and Norway.
REPAIRS: All major repairs undertaken.
DRY DOCKS: Two floating docks owned by Stabilimenti Navali with dimensions as follows:

	Dock No 1	*Dock No. 2*
Length at support level	699 ft. 8 in.	808 ft. 4 in.
Length overall	765 ft. 4 in.	869 ft. 4 in.
Breadth at support level	121 ft. 3 in.	137 ft. 1 in.
Depth	29 ft. 8 in.	27 ft. 9 in.
Lifting capacities	28,000 tons	40,000 tons

Maximum draft acceptable in channel leading to the shipyard is 33 ft.
REPATRIATION: Good facilities exist.
AIRPORT: Located at Grottaglio, 20 minutes by car from the city. It is served by four daily connections with Rome, and one to Naples.
TIME: GMT plus 1 hr. winter. GMT plus 2 hrs. summer.
HOLIDAYS: New Year's Day (1st January); Epiphany Day (6th January); Saint Joseph's Day (19th March); Liberation Anniversary (25th April); Easter Monday; Ascension Day (19th May); Corpus Domini Day (9th June); Labour Day (1st May); Republic Foundation's Day (2nd June); Saint Peter and Paulus Day (29th June); Assumption Day (15th August); All Saints' Day (1st November);

National Unity Day (4th November); Immaculate Conception Day (8th December); Christmas Day (25th December); Saint Stephen's Day (26th December); Town Saint Patron's Day (10th May, at Taranto).
SERVICES: Compass adjusting, etc. available.
SHORE LEAVE: Allowed.
AUTHORITY: Il Comandante Colonello di Porto. Ministero della Marina Mercantile.

TORRE ANNUNZIATA: 40.45 N. 14.27 E.

DOCUMENTS and all General Information – refer to "Naples".
RESTRICTIONS: Mainly a fishing port with few facilities for larger vessels. Reported not to be suitable for larger vessels during winter months due to frequent high winds and heavy swell within the harbour.
MAX. SIZE: Length 472 ft., draft 30 ft.

TRIESTE: 45.39 N. 13.45 E.

PORT LIMITS: From Barcola (4 km. East of Capo Miramare) to Zaule, in the Muggia Bay. The roastead is 18/24 metres deep. The lay-days begin from 1.00 p.m., if the Captain declares the "readiness" of the ship within 12.00 a.m., and from 8.00 a.m. of the following day if the declaration of "readiness" has been made within 5.00 p.m. The declaration of "readiness" is made when the ship docks at the operative pier or when the ship anchors in the roadstead.

For Port Health:
Maritime Declaration of Health.
PILOTAGE: Is compulsory for vessels over 499 GRT. Location of pilot station for large tankers is in approximate position 45° 37′ N., 13° 43′ E.
For smaller vessels Pilot boards in approximate position 45° 39′ N., 13° 44′ E.
ANCHORAGE: No pilot required to anchor in roads.
MAX. SIZE: Tankers up to 52 ft. draft, length 350 metres.
HEALTH: Free pratique is granted by the local Health Officers who board the vessels on arrival together with Port Authorities. The pratique can also be requested by cable, addressed to "Sanimare – Trieste" and stating the port of origin, the number of crew and general health condition on board.
RADIO: Trieste radio, call sign IQX, operating continuously. Radio Telephony and/or telegraphy can be used. RTF Channels 8, 12, 16, and 500.
TUGS: Ten tugs available up to 2,500 h.p. Tugs normally join vessel at pilot boarding station. Ship's lines usually used. If tug's lines used the tariff is increased by 10%. Tug assistance is compulsory for tankers.
BERTHING: Maximum draft allowed at berths as follows:
Punto Franco, Vecchio, ore pier, 28 ft.; Other berths, 21 ft. Punto Franco, Nuovo, ore pier, 30 ft. silos, 31 ft. 5 in.; general cargo, 31 ft. Punto Franco, Scalo Legnami, 24 ft. Molo Martello, 30 ft., max. length of ship, 171 m. Italsider, berths, 45 ft. Siot, terminal, 55 ft. Pontile Aquila, oil pier, 38 ft. Italcementi, berths, 30 ft. Vetrobel, berth, 30 ft. A.F.A., berth, 21 ft.
Mole No. 7 (Container Terminal), max. draft 45 ft.
SPECIALISED CARGO HANDLING FACILITIES: Wheat storage-bin for cereals and oil-seeds, capacity 30,000 tons, with 4 pneumatic unloaders. Auxiliary set, capacity 16,000 tons, with 3 pneumatic dockers.
Coals and minerals plant, Molo VI North, with 7 cranes and 2 bridge cranes.
Coals and minerals plant, Italsider pier with two 25-ton unloaders.
Unloading, loading, alcohol and other liquid stowage plant, capacity 5,340 cubic meters.
Maturity, conservation and disinfestation fruits and vegetables plant.
Refrigerant, capacity 3,700 tons.
Roll on/roll off: 2 berths.
STEVEDORES: Working hours 0800–1200 and 1300–1700; Monday to Friday. Gangs to be ordered by 1500 to commence at 0720 following morning; by 1100 to commence at 1300.
MEDICAL: All facilities available. Preferable order in advance if required on holidays.
TANKERS: No slop discharge facilities; no repairs allowed to tankers at loading/discharge berths; no trucks or lorries allowed at Aquila Oil Pier which can only be approached by motor boats.
Transalpine Pipeline Terminal. The TAL tanker terminal provides the following facilities: Main pier, 1,870 ft. long; Mooring pier No. 1, 1,558 ft. long; Mooring pier No. 2, 1,607 ft. long; draft allowed, 52 ft.
Piping layout – one crude oil line 42 in. diam, for each mooring pier; one main manifold of 42 in. diam.; one 42 in. line from main manifold to tank farm; two lines for bunkering purposes, 42 in. diam. for fuel oil service, 10 in diam. for diesel oil service; one 8 in. line for fresh water service.
DENSITY: 1025.
FRESH WATER: Available by pipe-line at all berths. No barges available.
FUEL: All grades available, loading rate about 250 tons per hour. 48 hours notice required.
DEVELOPMENTS: New dry dock 350 metres length under construction.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: Optional, but stevedores usually perform this operation for convenience.
CUSTOMS ALLOWANCES: 50 cigarettes for each man and one bottle wine/spirits between 5 men. Only one allowance given while vessel in port.
IDENTIFICATION CARDS: Shore passes are issued by local police.
CONSULS:

REPAIRS: All kinds of hull, deck and engine repairs can be carried out by Arsenale San Marco, Cantieri Alto Adriatico and other yards.
DRY DOCKS: Four dry docks available, the largest of which is 206·96 m. long; 30·0 m. wide, 27·60 m. depth and 8·25 m. sill depth.
REPATRIATION: No facilities.
AIRPORTS: 30 miles distant. Two flights daily to Venice/Milan and Rome for international connections.
TIME: GMT plus one hour. Summertime: GMT plus 2 hours.
HOLIDAYS: New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day; (25th April); Labour Day (1st May); Good Friday, Easter Monday, Ascension Day, Corpus Domini (variable dates); Proclamation Day (2nd June); St. Peter and St. Paul (29th June); Assumption B.V. Maria (15th August); All Saints' Day (1st November); St. Giusto (3rd November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); Boxing Day (26th December); Cargo work can be arranged on the above days.
POLICE/FIRE/AMBULANCE: Police, tel. 113; Fire, 2222; Ambulance, 68888.
TELEPHONES: Can be installed on board.
SHORE LEAVE: Allowed.
AUTHORITY: Ente Autonome del Porto di Trieste. C.P. 569 Trieste.

VENICE: 45.26 N. 12.20 E.

DOCUMENTS: Minimum number of ship's papers required upon arrival:
By Port Health
2 copies Passenger List.
2 copies Crew List.
By Police
2 copies Passenger List.
2 copies Crew List.
By Ship's Agents
2 copies Passenger List.
2 copies Crew List.
2 copies Cargo Manifest.
By Customs
2 copies Cargo Manifest.
2 copies Provisions and Stores List.
PILOTAGE: Pilot boards 2 miles from breakwater. Master can contact Pilot by radiotelephone, VHF Channel 114.
ANCHORAGE: In position 45° 26′ N., 12° 20′ E. No restrictions, ample depths of water.
RESTRICTIONS: Advisable to enter during day-time and with favourable tide. Vessel up to 29 to 30 ft. draft can enter at high water. Vessel of this size can berth alongside with use of a pontoon. Tankers; normally restricted to 31 ft. draft.
HEALTH: Health Officer Boards as soon as vessel is berthed. Pratique can be obtained by radio prior arrival. Radio request to Sanimare Venice through Trieste Radio.
TUGS: Tugs are available in plenty and will join vessel at breakwater and/or off Lido when proceeding to S. Nicolo. Ship's lines have to be used.
BERTHING: Banchina Piave have a total quayage of 2,760 ft. long with a depth of water varying from 25 to 26 ft. at low water.
Banchina Tagliamento have a total quayage of 2,500 ft. long with a depth of water varying from 26 to 29 ft. at low water.
Testata Marmi have a total quayage of 720 ft. long and 26 ft. depth of water.
Banchina Palazzo have a total quayage of 525 ft. long and a depth of water of 26 ft.
Banchina Isonzo have a total quayage of 2,360 ft. long with depth varying from 24 to 30 ft. at low water.

Testata Silos have a total quayage of 330 ft. long with a depth of water 21 ft. at low water.

Banchina S. Marte e Magazzini Generali Punto Franco (Free Port) have a total quayage of 2,950 ft. long with a depth of water varying from 21 to 23 ft. at low water.

Porto Marghera:

Leghe Leggere with a depth of water 27 ft. at low water.

Radice Molo "A" with a depth of water 27 ft. at low water.

Banchina Veneto with a depth of water varying from 22–25 ft. at low water.

Banchina Lombardia with a depth of water 28 ft. at low water.

Banchina Piemonte with a depth of 30 ft. at low water.

STEVEDORES: The Provveditorato al Porto Venice are exclusively entitled to manage all the commercial traffic and to provide by their own means the commercial work in the harbour including stevedores. Vessel should en route ETA cable to Agent at least 48 hours prior vessels arrival to arrange gangs.

MEDICAL: Hospital facilities always available. No notice required in advance.

TANKERS: Tank washings cannot be disposed of inside port. Diameter of loading discharge lines 8 to 12 in.

One berth for tankers at San Leonardo can accommodate vessels up to 85,000 dwt.

Discharging berths for tankers at Porto Marghera:

Darsena IROM, length 570 metres, depth 30 ft. Tankers over 31 ft. draft require special approval.

Esso Pier: depth alongside 30 ft.

Shell Pier: depth alongside 30 ft.

Agip Pier: depth alongside 23 ft.

Port entrance of Malamocco, at point of the island of Lido, has been reopened where a canal 12 metres deep leads to Port of Marghera. This canal allows large tankers to proceed to coastal storage tanks without passing through urban centre of Venice.

BULK HANDLING FACILITIES: Bauxite discharging at Montecatini and Molo Commerciale in Porto Marghera.

Discharge by crane grabs at rate of 2,000 tons per day at Montecatini, and 1,500 tons per day at Molo Commerciale. Vessels up to 28 ft. draft can be accommodated.

SALINITY: Average salinity of water inside port 1020.

FRESH WATER: Plenty available.

BUNKERS: All grades available and delivered by barge.

CUSTOMS ALLOWANCES: The Customs require from the ship a complete list in duplicate of Provisions and Stores. It is particularly important that the quantities of items such as tobacco, cigarettes, spirits, coffee, matches, pepper, salt, spices, cars, chocolate, should be given accurately. Customs Officers will supervise the issue while ship is in port. Amount of tobacco allowed out of Bond: 50 cigarettes per man for all foreign vessels except British and U.S.A. flags. 20 cigarettes per day per man on British and American flag vessels.

CONSULS: Following are Consulates maintaining their offices at Venice:

Argentine	Germany	Panama
Austria	Greece	Peru
Belgium	Guatemala	Portugal
Denmark	Lebanon	Spain
Finland	Liberia	Sweden
France	Norway	Switzerland
Great Britain	Holland	Uruguay

REPAIRS/DRY DOCKS: There are ample facilities for repairs. Following are particulars of Venice dry docks:

Minore	*Maggiore*	*Principe*
298·8 ft.	526·3 ft.	820·3 ft. extreme length
58·4 ft.	79·8 ft.	117·8 ft. breadth of entrance
1·0 ft.	1·0 ft.	3·1 ft. height of sill above bottom dock
19·7 ft.	29·6 ft.	36·0 ft. depth on sill at high water.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

AIRPORT: International Airport Marco Polo about 10 km. from Porto Marghera. Served by regular airlines.

TIME: GMT plus 1 hour. Summer Time from June to September.

HOLIDAYS: The public and port holidays are the following: 1st January; 6th January; 19th March; 25th April; Monday after Easter Day; 1st May; Ascension Day; Corpus Christi Day; 2nd June; 29th June; 15th August; 1st November; 4th November; 21st November; 8th December; 25th December; 26th December.

TELEPHONES: Telephones will be placed aboard the ship.

AUTHORITY: Il Comandante di Porto.

AGENT: Bassani S.p.A., Venice – Via 22 Marzo, 2414, PO Box 484. Tel. 20340 – 22771. Telex 41066. (Subagents of Gastaldi & Co) Cables: Dick Venice.

Ivory Coast

ABIDJAN: 05.18 N. 04.00 E.

DOCUMENTS:

7 Crew Lists.
6 Lists of Previous Ports of Call.
2 Lists of Ship's Stores.
2 Lists of Crew Personal Effects.
Maritime Declaration of Health.

PILOTAGE: About one hour before arrival ships equipped with VHF shall confirm to the pilot station their correct hour of arrival off the roads; then the boarding time for Pilot shall be communicated. It is essential that these times are clearly understood both by ship and pilot station.

Ships shall stay in a position so they keep across the swell and the wind which both generally come from the South and they shall put the pilot ladder at the lee, i.e. Port if steering Eastward, Starboard if steering Westward.

Pilotage is compulsory, except for shifting alongside quays. For ships leaving harbour or shifting within harbour limits, request for a Pilot should be made at the Harbour Master's Office 3 hours at least before sailing or shifting. For a night sailing or shifting, request must be made before 5 p.m.

Warning: when embarking Pilot, keep well clear of sandbank extending from entrance to Vridi Canal.

RESTRICTIONS: Ships may leave or enter Abidjan only between certain time limits. These limits are transmitted by Abidjan-Radio: on 500 kc/s on request; on short wave, at the beginning of each watch period.

MAX. SIZE: Maximum draft 32 ft., maximum length 200 metres.

HEALTH: Request for free pratique is given by the Agent to port Health Authority, who will board vessel on arrival.

RADIO: Captains should radio their ETA and draft to "Comport-Abidjan". When at anchorage off Vridi canal, they should watch for signals from Vridi signal station, which keeps continuous watch, and advise them regarding the time the pilot will board their ship. Port Captain's office and Vridi signal station keep a permanent watch on 156·6 Mc/s and 156·8 Mc/s. Agents may be obtained through Abidjan-Radio on 2182 Khz. Abidjan-Radio answers on 1813 Khz.

VHF: 16 and 12 Channels are used: 16 for security and 12 for general traffic. It is strongly advised to use Channel 12. This channel is strictly reserved for the harbour traffic and ships wishing to talk to each other should do so on a ship to ship channel (6 or 8).

PORT RADAR: Is installed in the Harbour Master's Office. Vessels can contact port radar by VHF calling Comport Abidjan on Channels 16, 12 and 11, or through Abidjan Radio, which keeps watch on Channel 16.

TUGS: Tugs join vessel at the port entrance. Towing lines are provided by the tug.

BERTHING: At the Tanker berth in the Vridi channel, berthing is effected at slack water and unberthing is effected at the end of flood tide. Mooring at the sea line buoys at Port Bouet is only made at certain stages of the tide determined by the Pilot.

STEVEDORES: Gangs must be ordered before 17.00 on the previous day.

MEDICAL: All medical services and hospitalisation can be arranged without difficulty. Crew members are obliged to have valid certificates against smallpox and yellow fever.

DENSITY: Varies from 1025 in January to 1000 in November.

FRESH WATER: Supplied from the quay at the rate of 40 tons per hour per hydrant. Can be supplied by barge.

FUEL: 1500 secs. fuel available from Abidjan Refinery. Advance notice required.

WATCHMEN: Services of shore watchmen are recommended.

HATCHES: Normally opened and closed by stevedores.

CUSTOMS ALLOWANCES: Each man allowed to retain 200 cigarettes and 1 bottle of alcohol.

IDENTIFICATION CARDS: Should be carried by crew going ashore.

CONSULS: The following countries are represented locally:

Algeria	Japan
Belgium	Korea
Brazil	Lebanon
Colombia	Liberia
Congo	Mauretania
Denmark	Morocco
Ethiopa	Netherlands
Finland	Nigeria
France	Norway
Gabon	Sweden
Germany	South Vietnam
Ghana	Tunisia
Great Britain	U.A.R.
Italy	U.S.A.
Israel	U.S.S.R.

REPAIRS: All types of repairs can be effected. There is a floating dock with lifting capacity 2,000 tons.

REPATRIATION: Can be arranged.

AIRPORT: Local international airport with connections to all parts of the world.

TIME: GMT. No alterations during the year.

HOLIDAYS: 1st May and 8th August no work can be carried out. Other holidays which may be worked at overtime rates are: 1st January, Easter Monday, Whit Monday, Ascension Day, 1st November, Christmas.

POLICE/FIRE/AMBULANCE: Police, tel. 557/57; Fire, tel. 238/82; Ambulance, tel. 238/82.

TELEPHONES: Can be connected on board if requested for vessels moored at quays No. 1, 2, 4 and 5.

SHORE LEAVE: Allowed without restriction.

AUTHORITY: Direction du Port D'Abidjan, BP 1360 Abidjan, Commandant du Port, BP 1382 A. Telephone 238–82 or 272–53. Telex 674. Cables Comport Abidjan.

AGENT: Socopao Cote D'Ivoire, B.P. 1297. Tel. 220 81 87. Telex 745. Cables: "Freight Abidjan".

Jamaica

KINGSTON: 76.52 W. 18.00 N.

DOCUMENTS:

For Customs Port Royal

2 Health Certificates (obtainable from Customs Port Royal).
2 Crew Lists.
2 copies Passenger Lists.
2 Dangerous Cargo Lists.
1 Ship's Register.
2 Crew Declaration (obtainable from Customs Port Royal).
2 Stores List.
International Certificates of Vaccination for each crew member.

For Immigration

2 Crew Lists.
2 Passenger Lists.

For Agent

Bills of Lading covering all cargo on board.
2 Crew lists.
2 Stores Lists.
5 Manifests.
Ship's Register, Safety Certificate and Load Line Certificate.

For Quarantine

1 Derat. Certificate.
International Certificates of Vaccination for crew members.

PILOTAGE: Forty-eight hours advance notice to Agents required. Pilot boards vessel about 2 miles S.E. of Plumb Point Lighthouse. Vessels required to anchor at Port Royal whilst Customs board to grant pratique and seal stores. Contact pilot station VHF Channel 11. Several small pilot boats in use at present which come out from Kingston as required.

ANCHORAGES: Depth of ship channel 35 ft. recommended. Four specified anchorages, namely A, B, C, D – these having to be reserved in advance. Also unlimited anchorage space towards Eastern end of harbour. Positions of these four specified anchorages as follows:

Anchorage A 221° distant from R.C. Cathedral Dome 14·4 cables.
Anchorage B 180° distant from R.C. Cathedral Dome 11·0 cables.
Anchorage C 168° distant from R.C. Cathedral Dome 10·7 cables.
Anchorage D 155° distant from R.C. Cathedral Dome 11·0 cables.

RESTRICTIONS: Entry – day or night. Rise and fall of tide, average range 10 in., occasionally 16 in. Strength of current in harbour 1½ knots in some places. Main direction and average speed of prevailing winds E.S.E. 20 m.p.h. Months of maximum rainfall (i) April/May, (ii) Sept., Oct. and Nov. Hurricane period June 15–November 15.

MAX. SIZE: Recommended maximum draft into Port Royal 48 ft. for vessels of unlimited size. Main ship channel has recommended draft of 35 ft. and is 800 ft. wide. Newport West has recommended draft of 32 ft. 6 in. with a turning basin of 1,500 ft. Esso Terminals has recommended maximum draft of 34 ft. 6 in. Maximum recommended draft of 32 ft. 6 in. to proceed Eastwards, from Esso Terminals, in harbour to anchorage or berths. Newport East has maximum recommended draft of 27 ft. 6 in.

HEALTH: See "Documents".

Pratique Procedure: The Customs Officer who boards vessel will indicate to Master when pratique granted, after he has checked all documents and placed under bond all excess tobacco and liquor on board. In respect of vessels arriving from restricted areas (e.g. Texas, U.S.A.) vessel will not be granted pratique at Port Royal but at berth after being sprayed (at berth) by Quarantine Officer. A vessel with suspected fever or disease on board should inform agent before arrival. The agent will advise Customs at Port Royal and Quarantine. The Quarantine Officer will tell Master whether to proceed to Quarantine Anchorage or to berth direct.

If a vessel obtains pratique at Kingston, automatic pratique granted to proceed to any other port in Jamaica.

RADIO: Cable agents giving ETA, Draft, Passengers (if any), cash required. Call sign "KNRDO 6YI".

VHF: VHF Channel 16 – Kingston Radio. VHF Channel 11 – Pilotage.

TUGS: Tugs optional. Tug joins incoming vessel near berth. In case of emergency tug joins vessel wherever requested by Master. Usually ship's lines used, but if tug's lines used there is no extra cost.

BERTHING: No specific requirements for berthing. If explosives on board a special permit is required from Harbourmaster and Customs. Extract from Gunpowder and Firearms Law:

"Twelve hours' notice shall be given by agent of ship to Harbour Master or Principal Officer of Customs, as case may require, of intended arrival of a ship with Gunpowder and/or Dangerous Explosives on board, and such ship shall not be permitted to come alongside a wharf or any ship in Harbour or to break bulk until Harbour Master or Chief Officer of Customs, as case may be, is satisfied that Gunpowder and/or Dangerous Explosives are of such character and are so stowed, or are in opinion of Harbour Master or Collector of Customs, in such trifling quantity as not to be an element of danger, when proper Officer shall certify –

(*a*) that in consideration of character, method of stowage, or quantity of such Gunpowder and/or Explosives it is safe for such ship to berth and proceed to discharge cargo without special precaution, or

(*b*) that having regard to considerations aforesaid such ship should discharge such Gunpowder and/or Explosives into lighters or at place appointed under rules for special landing before being allowed to berth or break bulk in connection with landing or shipping of other cargo."

Kingston has a new port development in harbour West of the city. There are nine berths (numbers 1–9) operated by two private wharf companies. All berths equipped for Ro/Ro traffic. Maximum depth of water in channel approaching and alongside berths is 35 ft. Recommended draft is 32 ft. 6 in. Bunkering facilities available at all new berths.

STEVEDORES: To enable agent order gangs important to obtain accurate ETA from vessels. Time: 12 noon the working day before vessel arrives. Shifts: 0700–1400, 1400–2100 Mondays to Fridays; 0700–1200 Saturdays. Sundays – full overtime.

Stevedores normally rig and open, but crew open McGregor hatches. All necessary gear supplied by stevedores except rain tents and special lifts requiring special gears, which vessel must supply. Average unloading rate 10/15 tons per gang hour for general cargo.

CARGO HANDLING: Wherry Wharf (a Sufferance Wharf) maintains a pier at Newport East for unloading lumber, corn and animal feed ingredients. The wharf is 200 ft. long with a depth of 29 ft. and an apron of 200 × 60 ft.

However, there are no specialised berths on the public wharves for handling bulk cargoes. Although sulphur salt, caustic soda and grains have been discharged, consignees make their own discharging and storage arrangements.

Grains for the flour mill and feed factory are discharged at Shell Oil Pier and conveyed by the plant's own system into the factories. Berths 1 to 9 in Newport West are equipped for roll-on/roll-off traffic and containers. There is a mobile crane stationed on the docks capable of lifting 140 tons max. Liquid chemicals and LPG are handled by the oil companies at their private docks.

MEDICAL: Agents to be advised before arrival of vessel if emergency medical attention required. Hospital facilities available. If inoculation required Master to advise Agents prior arrival of vessel.

TANKERS: No specific requirements applicable to oil carriers. Reducers available to fit 12 in.–4 in. load/discharge lines. Slop (residue) discharge facilities available taking maximum 500 gallons. Five tanker berths. Drafts at these berths vary from 28 ft. to 34 ft. (approximately). Gas free certificate required for tankers laying alongside Public Wharves in Kingston.

DENSITY: Average density 1026. No tide.

FRESH WATER: Fresh water available at berth. Average rate of delivery 20 tons per hour.

FUEL: All grades (viscosities) available. At least two days advance notice required.

FIRE PRECAUTIONS: Fire boat available equipped for fighting harbour fires 24 hours per day. Also equipped fire engines situated within easy reach of docks available 24 hours a day.

GANGWAY/DECK WATCHMEN: Services of watchmen are recommended.

OPENING/CLOSING HATCHES: Hatches covered by Pantoon and Hatch Boards opened and closed by stevedores. McGregor hatches handled by crew.

CERTIFICATES:

Safety Certificate.
Ship's Register.
Load Line Certificate.
Test Certificates for derricks and cargo handling gear.

CUSTOMS ALLOWANCES: Tobacco, 2 oz. tobacco in any form (2 oz. pipe tobacco or 40 cigarettes) per day. Wine and/or Spirits, 6 oz. or ½ reputed pint of spirit per day. 1 pint wine allowed Master and Officers only or as stated in the Articles under flag they fly.

CARGO GEAR: The usual certificates covering testing and inspection of all gear and equipment as required under Docks Regulation 1934 of Great Britain or by International Labour Organisation, will be acceptable.

IDENTIFICATION CARDS: No Identification Cards required.

CONSULS: Consuls not available on Saturdays and Sundays, except by special request.

REPAIRS: Minor deck and engine repairs possible by two firms. Pre-advice of three days recommended.
DRY DOCKS: No dry dock facilities available.
REPATRIATION: Facilities available for effecting crew changes.
AIRPORT: 10 miles from port and is served by regular airlines.
TIME: Local time is GMT minus 5 hours.
HOLIDAYS: Days when work is performed only on overtime rate: New Year's Day; Ash Wednesday; Easter Monday; National Heroes Day (third Monday in October); Boxing Day. Days when ports closed, no work performed: Good Friday; National Labour Day (Mary 23rd); Independence (flrst Monday in August); Christmas Day.
POLICE/AMBULANCE/FIRE: Emergency tel. numbers: Police 116; Ambulance 110; Fire 110. Commission of Police 79853–0. Radio Control Room 81261–2. Fire Brigade 22121. Fire Boat Station 27018.
TELEPHONES: Arrangements exist for placing telephones on board. The Jamaica Telephone Company to be advised by Agents 2/3 days before vessel arrives.
GENERAL: Bunkering Facilities: Bunkers are supplied by three firms: The Shell Oil Co. (West Indies) Ltd. Texaco Caribbean Inc. Esso Standard Oil S.A.

Ship's Chandlers: Three ship's chandlers available.

Communications: Regular air services daily to London, New York and other European and American cities, and is therefore in excellent position to offer emergency facilities to vessels requiring urgent spares, crew replacements, etc. Vessels can anchor at Port Royal close by airport.

Customs: Vessels are searched thoroughly by Customs for *fire-arms* and contraband. Masters are held responsible by Customs for security of bonded stores, etc. Masters are therefore alerted to check security arrangements and to keep watch on bond whilst in port.
SERVICES: Compass adjusting services available. Although routine repairs to radar, radios and other electrical equipment are possible, technical services generally limited.
SHORE LEAVE: Crew members allowed on shore after vessel cleared by Immigration. Vessels arriving from some countries require special Government approval before shore leave permitted, but no restrictions are normally placed on vessels arriving from Western European, American or African countries.
PORT REGULATIONS: Dogs are not permitted to land unless they have undergone quarantine or are imported from United Kingdom.
DELAYS: Normally there are no delays to vessels calling at the port.
AUTHORITY: The Harbour Master, Kingston.

AGENT: Sprostons (Jamaica) Ltd., Shipping Department, 7th Floor, Life of Jamaica Building, 72–76 Harbour Street, Kingston, Jamaica. P.O. Box 139, Kingston, Jamaica. Tel. 25767–9 and 25254 Telex: "2135 Alprojam." Cables: "Shipspros Kingston, Jamaica."

MONTEGO BAY: 18.30 N. 77.56 W.

DOCUMENTS, PILOTAGE and all general information: refer to "Kingston".
ANCHORAGE: There is one anchorage in Montego Bay which must be booked through the Harbour Master in Kingston. Depth 5 to 6 fathoms.
RESTRICTIONS: Entry – day and night. Rise and fall of tide, average range 10 in. No current in harbour. Main direction and speed of prevailing wind, N.E., 10 m.p.h. Subject in January–February to occasional 2–3 day spells of squalls with driving rain known as Northers which makes lying at the anchorage uncomfortable, but there is virtually no swell alongside the berths.
MAX. SIZE: Unlimited water at anchorage. The 1,500-ft.-long 400-ft.-wide straight channel has a minimum depth of 34 ft. MSL, as does the 1,600 ft. diameter turning basin.
CLEARANCE: Customs, Health, Immigration offices are maintained at the port.
TUGS: A 250-h.p. tug is stationed at Montego Freeport.
BERTHING: Berthing facilities are available on the Western side of Montego Bay, beside reclaimed area, formerly Bogue Islands, known as Montego Freeport. The berths are:

Berth 2: 600 ft. (approved for ships up to 625 ft. length).
34 ft. minimum depth below MSL at 5 ft. from berth.
Berth 3: 588 ft.
25 ft. minimum depth below MSL.
Berth 4: 387 ft.
25 ft. minimum depth below MSL.

Back wall between berths 3 and 4: 388 ft. long. Berths 3 and 4 are specifically suitable for roll-on/roll-off shipping.

There are no berthing charges for cargo ships. Cruise ships are presently charged 60c per linear foot per 24-hour period. Stevedoring charges for cargo vessels include berthing charges.
TANKERS: No specific requirements applicable to oil carriers. Reducers available to fit 12 in.–4 in. load/discharge lines. Slop (residue) discharge facilities available taking maximum 500 gallons. One tanker berth, berth No. 2 minimum depth alongside 34 ft. MSL. Gas-free certificate required for tankers laying alongside.
DENSITY: Average density 1026. No tide.
FUEL: All grades (viscosities) available. At least four days notice required.
FRESH WATER: Can be supplied from the dock. 30 tons per hour.
MEDICAL: All facilities at St. James's Hospital.
SECURITY: Under the jurisdiction of the Montego Bay Police and also 24-hour patrols in the port area by private security guards.
CONSULS: No consular offices in Montego Bay. See "Kingston".
STEVEDORES: Stevedoring 24 hours per day if required. Basic shift hours are as follows:

Monday–Friday, 1st shift 0700–1100 hours, 1130–1400 hours.
2nd shift 1400–1700 hours 1730–2100 hours.
Saturday morning, 0900–1200 hours.
Sunday (as required). Same shifts as Monday–Friday.

Note: If requested, men will agree to extend first shift at 1700 at single time.

FIRE PRECAUTIONS: Equipped fire engines situated within easy reach of docks 24 hours per day.
IDENTIFICATION CARDS: Recommended for crew.
REPAIRS: There are no dry dock facilities, but minor repairs can be effected alongside.
AIRPORT: 5 miles from port. Sangster's International Airport served by regular airlines.
POLICE/AMBULANCE/FIRE: Police, tel. 119; Ambulance, tel. 110; Fire, tel. 110.
AUTHORITY: Montego Freeport Limited, POB 303, Montego Bay. Tel. 952–5540.

OCHO RIOS: 18.25 N. 77.072 W.

GENERAL: Reynolds Jamaica Mines must act as Agents for all vessels using the pier at Ocho Rios. (*a*) Tel. Ocho Rios 603. (*b*) Cable address is "Mines" Ocho Rios, Jamaica. (*c*) 72 hour and 24 hour ETA requested. (*d*) Radio telephone 2738 Kc open when calls expected at 0700, 1100, and 1500 local zone time.
PILOTAGE: Compulsory. Pilot meets vessel 1 mile North-east of sea-buoy. On rare occasions when a local pilot is not available expenses and detention must be paid for an outside Pilot.
FRESH WATER: 50 c. per ton supplied from pipe-lines on the pier.
FUEL: Bunker "C" Fuel Oil – daily prevailing rate Kingston Harbour. Diesel Fuel Oil – per oil company suppliers Kingston.
TUGS: 45 ft. diesel-powered tug.
REGULATIONS: (1) If any captain of any vessel or any other person shall throw or deposit, or permit to be thrown or deposited (*a*) any rubbish, earth, mud, stone, sand, ballast or other similar matter; or (*b*) any oil or mixture containing oil or oil residues, in any channel leading into or out of any harbour, or in any place within the limits of any harbour other than such place therein as shall be set apart for such purpose he shall be liable to a penalty not exceeding one thousand pounds. (2) No siren or steam whistle shall be sounded on any vessel in any harbour except for the purpose of making signals as laid down in the regulations for preventing collisions at sea, provided that any vessel may sound one warning blast of not more than five seconds duration before sailing. Any person committing a breach of the rules is liable for a penalty not exceeding Twenty Pounds.
CARGOES: The Reynolds Jamaica Mines Pier is occupied about twice each week by ore carriers for 8 to 12 hours and about twice a month by sugar ships for indefinite periods.
TOURIST VESSELS: Tourist ships are accepted at Ocho Rios without Ministry of Finance approval in accordance with verbal instructions of the Collector at St. Ann's Bay, 19th September 1966, subject to the availability of berth at Reynold's option and: (*a*) Any guarantee to be only for Monday through Friday and for the hours 0700 to 1800. (*b*) Ocho Rios must be the first port of call in Jamaica of the ship on any particular voyage. (*c*) Signature of release form.
PASSENGERS: (*a*) Passengers disembark via shore gangways (2 if requested) direct to wharf situated in fence enclosed compound with guarded gate. Where lighterage is required a landing is available at the back of the wharf sufficiently large to be used by a 45 ft. tug. (*b*) Entry and clearance by Customs and Immigration are made at the pier. (*c*) Taxis are kept outside the gate. (*d*) Normally the Ocho Rios Chamber of Commerce set up a table on the wharf for the purpose of providing information and distributing literature on local musical groups to spend some time playing on the wharf for the benefit of the passengers.
AGENCY: (*a*) Normally Reynolds Jamaica Mines acts as sub-agent in Jamaica for vessels calling at Ocho Rios and bills for disbursements are directed to the Island agent for payment. (*b*) In cases where Reynolds Jamaica Mines acts as sole agent for a vessel, a sum of money adequate to cover vessel's disbursements is requested from the owner or charterer to be deposited to Reynolds Jamaica Mines' account in advance.

PORT ESQUIVEL: 17.53 N. 77.08 W.

DOCUMENTS:
6 Crew Lists.
6 Passenger Lists.

Customs Documents:
4 Stores Lists.
Crew's Manifest or Declaration outside of Personal Effects.
4 Load Line Certificates.
4 Small Parcels Lists.
4 Customs Clearance from last port of call.
Health Documents:
International Certificate of Vaccination of all crew members.
Maritime Declaration of Health.
Crew's Declaration of Health.
6 Manifests.
4 Bills of Lading
Ship's Documents:
3 Stowage Plan of Cargo.
2 Deadweight Survey (Bulk carriers only).
Charter Party and any other specific documents of instructions relating to the loading or discharging of cargo.

PILOTAGE: Pilotage compulsory. Compulsory pilotage limit two miles to seaward of line drawn from Polink Point to Bare Bush Cay to Portland Cay to Portland Point. Cable advice 48 and 24 hours ahead of vessels ETA at pilot station must be sent to vessel's agent at Kingston, Jamaica.

One pilot boat "Silver Spray", launch equipped with ship-to-shore radio communication: (*a*) One Marconi VHF – FM 30-watt output multi-channel set. (*b*) One Marlin HF – AM 75 output multi-channel set.

VHF shore set manned 24 hours per day. Contact with Port or launch can be made on three international channels – 16, 2 and 6.

ANCHORAGES: A. Seaward to East of pilot station, depth in excess of 36 ft. B. Leeward of Pigeon Island – depth 36 ft. min. C. Eastward of entrance of main channel – depth 36 ft. min.

RESTRICTIONS: Restriction of permissible draft to maximum of 35 ft.

MAX. SIZE: Maximum permissible length 650 ft. and draft 35 ft.

HEALTH: Pratique procedure requires presentation of undermentioned health documents: (*a*) International Certificate of Vaccination of all crew members. (*b*) Maritime Declaration of Health. (*c*) Crew's Declaration of Health. In event any suspected communicable disease or fever on board, Master required to advise Agents in advance.

RADIO: "KNRDO 6YI".

TUGS: Pilot boat will be on standby during berthing operations of all vessels to assist in placing ship's lines on to pier.

BERTHING: Facilities for two berths – Eastern side and Western side fo pier. Alumina bulk loading facilities on Western berth. Bulk alumina vessels given priority on Western berth and it is used otherwise for vessels handling general cargo, loading or discharging fuel oil, caustic liquor, etc. Length of pier, East Side, 550 ft. West Side,600 ft

Also work in progress on additional berth, 250 ft. long, South-Western shoreline, with maximum permissible draft of 17 ft. for this berth only.

SPECIALISED CARGO HANDLING FACILITIES: Eastern and Western berths equipped to handle receival of bulk cargoes, e.g. grain, fertilisers, sulphur, etc., by using shore crane with grabs, vessel discharging by grabs or conveyor system. Bulk liquid chemicals handled as shown under "Tankers". Additional berth on South Western shoreline now being used to handle containerised cargo and can be utilised for handling of roll-on/roll-off traffic.

STEVEDORES: Cable advice to Agents in Kingston, Jamaica, 48 and 24 hours ahead of vessel's ETA at pilot station for arrangements to provide stevedore and dock labour.

MEDICAL: Agents to be advised 48 hours ahead of vessel's ETA pilot station of medical attention required, details of inoculations, vaccination/fever certificates, etc. Free ambulance service provided. Nearest hospital approximately 15 miles.

TANKERS: Both sides of pier equipped to handle receival and delivery of Bunker C oil, caustic liquor, sulphuric acid and molasses. Diameters of the load/discharge lines are:

Bunker C Oil	10 in.
Caustic liquor	10 ,,
Sulphuric acid	4 ,,
Molasses	12 ,,
Water	4 ,,

Maximum permissible draft 35 ft.

DENSITY: 1025 subject to slight variation during heavy rainfall.

FRESH WATER: Maximum of 300 L. tons available. Delivery made from storage tank at a rate of 40 to 50 L/T per hour.

FUEL: Bunker C fuel oil is available from dock. Application to be made to Esso (W.I.) Ltd. through ship's Agent for supply of bunkers. Pumping rate approx. 130 L/T per hour. Specification – Group 0 or group 1 – Viscosity SSF at 122° F; 160–180 Flash P – M °F 200 plus. Arrangements to supply other grades of fuel oil can be made on request of local Agents to Esso.

FIRE PRECAUTIONS: Strategically located fire hydrants throughout port and on pier. No special precautions apart from "No smoking" rule.

GANGWAY/DECK WATCHMEN: Service of watchman optional but not necessary. During time vessel is in port there is Customs guard on pier and strict security measures are carried out by port Security Force on personnel entering or leaving port compound which is surrounded by a chain-link security fence.

OPENING/CLOSING HATCHES: For bulk alumina vessels, opening and closing of hatches is done by crew members. For general cargo vessels, opening and closing of hatches may be done by crew members or on request to Agents, by stevedores.

SHIP CERTIFICATES:
Load Line Certificate,
Registration Certificate.

CUSTOMS ALLOWANCES: Tobacco: Each crew member including ship's officers, normally allowed by local customs authority 2 oz. of tobacco or 2 pk. of 20 or 25 cigarettes per day released from bond. Wine and/or Spirit: No limitations to use of wine on board. For spirits each crew member is allowed a part bottle per man.

CARGO GEAR: Local Agents provide necessary cargo gear. These are tested every six months in accordance with Factory Law and certificates issued for respective maximum lifting capacities.

IDENTIFICATION CARDS: Not necessary as the Passport will serve this purpose.

CONSULS: No consuls are available. Consular offices are located in Kingston approximately 30 miles away.

REPAIRS: Limited repairs may be undertaken.

DRY DOCKS: None.

REPATRIATION: Upon request, local Agents arrange crew changes and any necessary repatriation.

AIRPORT: Palisadoes International Airport approximately 40 miles.

TIME: GMT minus 5.

HOLIDAYS: New Year's Day (1 January); Ash Wednesday (in accordance with calendar); Good Friday (in accordance with calendar); Easter Monday (in accordance with calendar); Labour Day (23 May); Independence Day (first Monday in August); National Heroes Day (third Monday in October); Christmas Day (25 December); Boxing Day (26 December). These holidays are sometimes subjected to change in accordance with Government Proclamations but work on vessels loading bulk alumina is usually carried out on these holidays. For general cargo vessels, work is optional on Public Holidays and only carried out on Master's request or in accordance with terms of Charter Party.

POLICE/AMBULANCE/FIRE: Old Harbour Constabulary tel. 983–2255; Old Harbour Fire Brigade tel. 983–2235. An ambulance service is available for any crew member requiring medical attention. Several qualified doctors within a 12-mile radius of port. There is also a fire station.

TELEPHONES: Facilities do not exist for placing of telephones on board ship other than Magneto telephones. International telephone services available and scale of rates is as per schedule listed in Jamaica Telephone Company's Directory.

GENERAL: Port normal working days Mondays–Fridays 7.30 a.m. to 4.30 p.m. Overtime in excess of 8 hours per day or 40 hours per week, Monday–Friday at time and a half normal rate; Saturday between midnight and midnight time and a half normal rate, double time for hours worked on Sundays and two and one half times for hours worked on public holidays, between midnight and midnight. Rail facilities exist on Western side of the pier. Ship chandlering or any other requirements may be acquired through local Agents.

SERVICES: Special services are limited. Arrangements can be made through vessel's agents for the port or local contractors to undertake these jobs.

SHORE LEAVE: Crew members usually granted shore leave by Immigration Authority for period vessel remains in port. Immigration Authority can, however, withdraw permission of shore leave to any individual crew member who, in their opinion, may be a security risk.

PORT REGULATIONS: No unusual regulations.

DELAYS: The normal delays in berthing, loading or discharging or bunkering can be expected where the two berths are occupied.

AUTHORITY: (*a*) Alcan Jamaica Limited, Port Esquivel, PO Box 2, Old Harbour, Jamaica, West Indies. Tel. OH 289.

(*b*) The Port Authority, 51 Duke Street, Kingston, Jamaica, West Indies. Tel. 24212.

AGENT: See Kingston.

PORT KAISER: 17.52 N. 77.37 W.

DOCUMENTS:
6 Crew Lists.
4 Stores Lists.
Declaration of Crew Personal Effects.
Customs Clearance from Last Port.
Maritime Declaration of Health.
Vaccination Certificates for all crew members.
Cargo Documents.

PILOTAGE: Compulsory. Pilot boards about 1 mile seaward of the jetty. International code Pilot signals used.

ANCHORAGE: Recommended 1½ to 2 miles off end of finger pier from South to South-west.

MAX. SIZE: Tankers up to 40 ft. draft.

HEALTH: Pratique granted by customs officers who board on arrival, after Master has completed Maritime Declaration of Health, and Crew's Declaration of Health. All crew members require valid vaccination Certificates. In event of suspected disease or fever on board, Agent should be advised full particulars by radio before arrival.

RADIO: KNRDO 6Y1.

TUGS: None available.

BERTHING: Tanker berth at the end of a finger pier. Pier head is adequately fendered and a holding off buoy is utilised if necessary because of swell. Vessels berth portside to the jetty. Both anchors used.

Finger pier is 610 ft. long. The berth is being dredged to 50 ft. depth.

TANKERS: Fuel and gas oil discharged, 8 in. hoses. No slop facilities.

DENSITY: 1025.

FRESH WATER: Not available.
FUEL: Not available.
CUSTOMS ALLOWANCES: 25 cigarettes and part bottle spirits per day per man.
CONSULS: Nearest at Kingston.
TIME: GMT minus 5 hours. No changes.
SHORE LEAVE: Allowed.
AUTHORITY: Port Authority, Kingston.

PORT RHOADES, Discovery Bay: 18.29 N. 77.25 W.

DOCUMENTS:
5 Crew Lists.
2 Stores Lists.
1 Customs Clearance from last port.
2 Declaration of Crew Personal Effects.
1 Maritime Declaration of Health (available on arrival).
Vaccination Certificates for all crew members.
1 Copy of each cargo document.
PILOTAGE: Compulstory. ETA's should be cabled to "KAISBAUX Discovery Bay", 48, 24, and 12 hours before arrival.
Pilot will board vessel on arrival 2 miles outside channel, if berth is available
ANCHORAGES: No designated anchorage. If berth is occupied, vessels will remain within a 3-mile area of the channel until berth is available.
RESTRICTIONS: Entry may be at any time of day or night throughout the year.
MAX: SIZE: Maximum permissible length, 660 ft.
Maximum permissible breadth, 90 ft.
Maximum permissible draft, 37 ft.
PRATIQUE: Pratique inspection and clearance given on berthing. Notify "KAISBAUX, Discovery Bay" as soon as possible before arrival full details of any suspected disease or fever on board.
There is no radio pratique.
RADIO: Route all ETA's and calbes via Kingston Radio or nearest radio station.
TUGS: None available. Pilot launch will assist in taking ship's lines during docking if required.
BERTHING: One finger pier, adequate fenders, used by bauxite ships and tankers alike.
Ships loading bauxite must dock with the top of the hatch covering of the first hold to be loaded not more than 35 ft. above sea level.
Bauxite loading rate 4,000 tons per hour.
All loading hatches to be opened for inspection if weather permits.
Gangway to be rigged ready for lowering immediately on berthing.
STEVEDORES: All arrangements are made by Kaiser Bauxite Company for unloading/loading any general cargo.
MEDICAL: Medical facilities and hospital availalbe in the vicinity.
TANKERS: Two fuel lines, hose 8 in. (pipe-line 12 in.) diameter. Back pressure 150 lb. One gas oil line, hose 8 in. (pipe-lines 6 in.) diameter. Back pressure 150 lb.
Tankers use same berth as bauxite vessels. It may be necessary at times for tankers to wait on bauxite vessels loading, or arriving, and tankers may have to vacate the berth before completion of discharging to make way for bauxite vessels which have absolute priority.
DENSITY: 1025
FRESH WATER: Not available.
FUEL: Not available.
FIRE PRECUTIONS: Usual non-smoking precautions with respect to tankers. Portable fire extinguisher available on pier.
GANWAY/DECK WATCHMEN: To be provided by vessel.
OPENING/CLOSING HATCHES: To be done by ship's crew.
CERTIFICATES REQUIRED:
Load Line Certificate.
Registration Certificate.
Deratting Exemption Certificate.
CUSTOMS ALLOWANCES: Tobacco: Each crew member, including officers, normal allowance 2 oz. tobacco or 2 pks. of 20 cigarettes per day released from bond. Wine: No limitation on use of wine on board. Spirits: Officers only are allowed part bottle.
IDENTIFICATION CARDS: Not required.
CONSULS: Nearest Consuls are in Kingston, 80 miles distant.
DRY DOCKS: No facilities in Jamaica for other than the smaller types of vessel (e.g. tug).
REPATRIATION: Can be arranged through ship's Agent.
AIRPORT: Montego Bay, 40 miles away; Kingston, 90 miles away.
Both are international airports, with several scheduled flights per day to U.S.A. and Europe.
TIME: GMT minus 5 hours.
TELEPHONES: No arrangement for ship-board connections.
AUTHORITY: Kaiser Bauxite Company, Discovery Bay, Jamaica. Cables: "KAISBAUX." Tel. 973–221–4.

SALT RIVER: 17.50 N. 77.10 W.

DOCUMENTS: Health Certificate. Crew List. Manifest. Bills of Lading and other ship's papers for cargo shipped, prepared by Wisco Wharves Limited, a subsidiary of The West Indies Sugar Company Limited.
PILOTAGE: Latest 24 hours prior arrival off pilot station. Cable "Monymusk Lioneltown" giving name of vessel, ETA, date of arrival. Pilotage – optional, Barebush Cay; Compulsory, Pigeon Island; pilot boat at Salt River.
ANCHORAGE: 77° 8.40′ West; 17° 49.58′ North.
RESTRICTIONS: No restrictions.
MAX. SIZE: Draft 30 ft.
HEALTH: Customs grant pratique.
RADIO: Cable agents via Kingston Radio/6YI.
TUGS: Not applicable.
BERTHING: No berthing facilities.
STEVEDORES: 48 hours prior arrival of vessel. Commodity bulk sugar. Loading rate approximately 1,800 tons per day.
MEDICAL: No advance notice required.
FRESH WATER: Can be arranged if given sufficient notice.
FUEL: None available at port but can be arranged.
GANGWAY/DECK WATCHMEN: Customs guards.
OPENING/CLOSING HATCHES: Normally done by crew.
SHIP CERTIFICATES: Registered tonnage certificate on first call. Master's and Chief Engineer's certificates of Competency, also Loading Line Certificate.
CUSTOMS ALLOWANCES: Tobacco, determined by Customs. Wine and/or Spirit, determined by Customs.
IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: Not possible.
REPATRIATION: Can be arranged.
AIRPORT: Palisadoes International approximately 50 miles away and served by regular airlines.
TIME: GMT minus 5 hours.
HOLIDAYS: New Year's Day; Ash Wednesday; Good Friday; Easter Monday; Labour Day (23rd May); National Heroes Day; Independence Day; Christmas Day (25th December); Boxing Day. Work can be arranged on all public holidays except Good Friday and Christmas Day.
POLICE/AMBULANCE/FIRE: Police Vere 233; Ambulance Vere 337; No port fire brigade.
TELEPHONES: Radio communication ship to wharf can be arranged.
SHORE LEAVE: Crew members are allowed ashore.
DELAYS: Delays can be expected.
AUTHORITY: The West Indies Sugar Co. Ltd.

AGENT: The West Indies Sugar Company Limited, 5 Trevennion Park Road, PO Box 174, Kingston 5, Jamaica, W.I. Tel. 65927–8. Telex 13. Cable address: Head Office: "Wisco Kingstonja". Home Office: "Monymusk Lioneltown".

SAVANNA LA MAR: 18.12 N. 78.09 W.

DOCUMENTS: Declaration of Health Certificate forms obtainable from Supercargo. 4 copies Crew List, Stores List. Manifest, Bills of Lading and other ship's papers for cargo shipped prepared by Sugar Shipping Limited, a subsidiary of The West Indies Sugar Company Limited.
PILOTAGE: Latest 24 hours prior arrival off pilot station. Cable "Wicaroo Frome" giving name of vessel, ETA, date of arrival, cash required. Diesel powered 88 hp launch painted black hull, red deck, white wheelhouse. District – Compulsory and Optional.
ANCHORAGE: 78° 8.20′ West; 18° 11.27′ North.
ENTRY RESTRICTIONS: No night entry or sailing.
MAX. SIZE: Draft 19 ft.
HEALTH: Maritime Declaration of Health prepared by Master and lodged with Customs. MOH is notified of any suspected illness and action taken. Pratique automatic.
RADIO: Cable Agents via Kingston Radio 6YI.
TUGS: Not applicable.
STEVEDORES: No particular ETA advice required. Commodity, bulk sugar. Average loading rate 1,500 tons per day.
MEDICAL: No advance notice required. Hospital facilities available. Smallpox vaccination by MOH and certificate issued.
FRESH WATER: No facilities.
FUEL: No port facilities, but can be arranged.
GANGWAY/DECK WATCHMEN: Customs guards.
OPENING/CLOSING HATCHES: Normally done by crew.
SHIP CERTIFICATES: Registered tonnage certificate on first call. Master's and Chief Engineer's Certificates of Competency, also Loading Line Certificate.
CUSTOMS ALLOWANCES: Tobacco, determined by Customs. Wine and/or Spirit, determined by customs.
CARGO GEAR: No additional requirements. In use, grabs operated by ship's winches.
IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: Not possible.
REPATRIATION: Can be arranged.
AIRPORT: Montego Bay International approximately 32 miles away and served by regular airlines.
TIME: GMT minus 5 hours.
HOLIDAYS: See "Kingston".

TELEPHONES: Radio communication ship to wharf can be arrange during day only.
SHORE LEAVE: Crew members are allowed ashore.
DELAYS: Delays can be expected.
AUTHORITY: The West Indies Sugar Co. Ltd.

AGENT: The West Indies Sugar Company Limited, 5 Trevennion Park Road, PO Box 174, Kingston 5, Jamaica, W.I. Tel. 65927–8. Telex 13. Cable address: Head Office: "Wisco Kingstonja". Home Office: "Wicaroo Frome".

Japan

AIOI: 34.46 N. 134.28 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist watch, radio, firearms/swords, etc., (only at first port of call in Japan).

Ship's Agents will prepare: Inward/Outward Declaration. 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all inland sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as Harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34.38N.; 135.11E. Telegraphic address: "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel.) Position 33.13N.; 131.54E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33.56.24N.; 131.03.12E.

Aioi Dock Master not licensed to pilot vessels from outer harbour and boards at anchorage.

ANCHORAGES: Inside Aioi Bay. Maximum 18 ft. draft.
A. True bearing 250° from Kabeshima post, distance 350 m.
B. True bearing 217° from Kabeshima post, distance 730 m.
C. True bearing 313° from Kasamatsu Iwa bench mark, distance 620 m.

RESTRICTIONS: Vessels may anchor any time day or night. Draft to be adjusted to enter dry dock per dockyard recommendation as follows:

Name of Dock	*Trim Recommendation*
No. 1 & 2 Dry dock	$\frac{\text{Vessel's L.O.A. (mm.)}}{200}$ plus 500 mm.
No. 3 Dry dock	$\frac{\text{Vessel's L.O.A. (mm.)}}{300}$ plus 500 mm.

MAX. SIZE: Max. size of ships to be accommodated as follows:

DOCK	*LOA*	*LBP*	*Breadth*	*Draft*	*DWT (L/T)*
No. 1 dock	238 m.	230 m.	33 m.	5·5 m.	73,000
	780′9″	754′7″	108′3″	18′	
No. 2 dock	156·1 m.	145 m.	19·5 m.	5·5 m.	14,000
	512′1″	475′8″	63′11″	18′	
No. 3 dock	341 m.	328 m.	54 m.	6·0 m.	300,000
	1118′9″	1076′1″	177′1″	19′8″	

HEALTH: Pratique to be obtained at another Port prior arrival Aioi.

At first port of call in Japan, vessel must obtain free pratique. Quarantine officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards. Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agents prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agents through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West-bound vessel to Choshi and North-bound to Nagasaki Radio respectively.

TUGS: Normally join vessel at anchorage inside Aioi Bay. Tug's lines always used without charge.

TANKERS: Must be fully gas-freed before arrival. No facilities for tank cleaning or gas freeing.

DENSITY: Average 1025/1026 winter, and 1018/1020 summer.

FRESH WATER: Available from jetty/dock. Cost Y120 per ton (approx.).

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore, but no spirits.

CONSULS: None.

REPAIRS: Dockyard port. All repairs available. Specialist technicians obtainable from Kobe/Osaka area.

AIRPORT: Osaka (Itanii).

TIME: GMT plus 9 hours. Permanent.

POLICE/AMBULANCE/FIRE: Police 07912 or Aioi 2-0740; Ambulance/Fire 119 or Aioi 2-7128.

TELEPHONES: Placed aboard at IHI shipyard.

SERVICES: No special services at Aioi, but available from Kobe/Osaka.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Kamigori Doboku (Public Works) Office.

AGENTS: Shikama Kaiun K.K., Minatomachi, Shikama-Ku, Himeji. Tel. Himeji (0792) 35–0912. Telegraphic, Shikamakaiun Himeji.

AKITA: 39.45 N. 140.03 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
5 Crew Lists including Passport Nos.
5 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist watch, radio, firearms/swords (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Ships agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory but recommended, available daylight only. Boards off Akita one mile 280° from Akita lighthouse or off Funakawa one mile 140° from breakwater end light if required. 2 Pilots board if ship's gross tonnage exceeds 18,000. Cost 180% of pilotage.

ANCHORAGE: Off Akita, 2 miles 280° from Akita Lighthouse. Depth exceeds 20 metres. Bottom – soft clay with mud. No buoys.

RESTRICTIONS: Pilot available daylight only.

MAX. SIZE: Max. draft available 9·6 metres in fairway. Size at berths, see "Berthing". Minimum depth at extreme low water – In fairway – 10·0 m. At Anchorage – 20·0 m.

HEALTH: Officer stationed at Funakawa. Quarantine anchorage 39° 51′ N. 139° 53′ E. When impossible to inspect at Funakawa, i.e. during bad weather, attends off Akita.

RADIO: Niigata Radio when ship coming from South. Sapporo Radio when ship coming from East/North. Choshi Radio if long distance.

VHF: VHF Channel 16–156·8 megacycles. VHF Channel 12–121·5 megacycles. Operated by Regional Maritime Safety Headquarters – Harbour Master.

TUGS: Two tugs available 800 h.p. and 2000 h.p. owned by local government, 4 small tugs 150–180 h.p. privately owned.

BERTHING:

Wharf	*Length*	*Depth*	*Berthing capacity*	*Discharging*
Nakajima No. 1	160 m.	9·0 m.	10000 G/T.	Phosphate, Grain, logs
Nakajima No. 2	185 m.	10·0 m.	15000 G/T.	Logs, zinc concentrate
North Pier	227 m.	7·5 m.	5000 G/T.	Coal, logs.
South Pier	227 m.	5·5 m.	3000 G/T.	Ore, logs.

(*a*) New berth. 1,400 m. long, 10 m. deep, for one 30,000 d.w or two 15,000 dw near port entrance.

(*b*) One private, one public berth, each for 30,000 dw at other side of present berth.

STEVEDORES: Working time 08.30–16.30 every day.

Phosphate rock in bulk: 200–270 tons per hour by shore crane, 50–70 tons per hour by ship's gear.

Grain in bulk: 150–170 tons per hour by shore crane, 40–60 tons per hour by ship's gear.

Logs/lumbers: 200,000 BM per gang per day (Nanyozai), 80,000–100,000 per gang per day (Beizai).

Potash in bulk: 150–180 tons per hour by shore crane, 50–60 tons per hour by ship's gear.

Fertiliser in bag: 250–300 tons per day per gang.

Zinc concentrate in bulk: 140–160 tons per hour by shore crane. 40–60 tons per hour by Ship's gear.

MEDICAL: Hospital and treatment available.

DENSITY: 1.020–1.021. Tidal range 20/30 cm.

FRESH WATER: Available at every wharf. Rate 30 tons per hour.

FUEL: Domestic bunkers available. If bonded bunkers required, brought from Niigata, Hakodate.

GANGWAY/DECK WATCHMEN: Not compulsory, but available if required.

OPENING/CLOSING HATCHES: Stevedores open and close hatches. Cost per hour depending on cargo. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete before berthing.

CERTIFICATES: Ship's register to show Customs Inspector, ship's registered Gross and Nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance seems poor.

CUSTOMS ALLOWANCES: Only 50 cigarettes to take ashore. No spirits.

CONSULS: No Consuls, but two notary public offices.

REPAIRS: Minor repairs only.

REPATRIATION: Possible.

AIRPORT: Flights to Tokyo 2 or 3 times per day. 12 kilometres from port.

TIME: GMT plus 9 hours. No alterations during year.

HOLIDAYS: Local holidays January 2nd, 3rd; July 13th (p,m.) 14th, 21st; Dec. 31st. Other Sundays/holidays/non-working days see "Tokyo".

POLICE/AMBULANCE/FIRE: Contact through Agents.
GENERAL: *Harbour Protection* – Breakwaters, South and North.
Weather Conditions past two years

	Spring	*Summer*	*Autumn*	*Winter*
Temp. on average	8·5°C	21·7°C	13·0°C	—0·5°C

Warehouse/Silo – 31 Warehouses/silos, area 28,450m² including fumigating warehouse/silos.
Stock Yards – 7 yards 82,520 m² for coal, ore, etc. 100,000 m² for lumber/timber.
Services-Provisions – Available. Hold Cleaning – Available. Surveyor – from Funakawa/Niigata.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension if ship stays longer.
AUTHORITY: Akita-Kencho, Akita City.
AGENT: Sub-Agents of Dodwell & Co. Tokyo. Akita Kairiku Unso K.K., 44, 10–ban, Nishi 1–chome, Tsuchizaki–ko, Akita. Tel. Akita (0188) 45–0185/9. Telegraphic – "Akita Kairiku Akita".

AMAGASAKI: 34.42 N. 135.24 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage i.e. tobacco, wine/spirits, camera, wrist watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agents should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Usual for Pilot to embark at Kobe (Wada Point); however, if Master does not require a Pilot between Wada Point and Amagasaki, Pilot embarks off Amagasaki.

Cables: "Hanshinpilot Osaka" and "Hanshinpilot Kobe". One day's notice ETA required. Telephone through VHF. 3 Pilot boats at Osaka and 6 boats at Kobe with wireless communication with Pilot Station. Pilot boards Kobe, Wada Point (Kobe quarantine anchorage). Amagasaki, 2·5–3 miles off Amagasaki. In case bad weather unable to take Pilot. Safe pilot ladder required. Vessel waits for Pilot at anchorage as above.
ANCHORAGE: No quarantine anchorage; quarantine inspection only available at Kobe (Wada Point). Safe anchorage (approx.) position 34° 39′ 30″ N., 135° 20′ 18″ E. Draft 12·80 metres.
MAX. SIZE:

	Kobe Steel Works (Ohgimachi Wharf)	*Kobe Steel Works (Ohama Wharf)*
Maximum LOA	200·0 m.	176·81 m.
Maximum breadth	No limitation	No limitation
Maximum draft	11·70 m.	10·40 m.
	Public Wharf	
Maximum LOA	180·21 m.	
Maximum breadth	No limitation	
Maximum draft	9·60 m.	

Daikyo Oil Jetty. Maximum LOA 200 metres, beam no restrictions, max. draft 10·6 metres.
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Chosi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Tug usually joins vessel at anchorage off Amagasaki. Tug's line used for operation free of charge.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
DENSITY:

Summer	1022·0–1025·0	1013–1025	1017–1025

FRESH WATER: Available at any time.

	Kobe Steel Works Wharfs	*Public Wharf*
Methods	Shore line	Shore line
Sunday, Holiday	Daytime 40% up	40% up
	Before midnight 50% up	50% up
	After midnight 100% up	50% up

Daikyo Oil Jetty. Only available by barge from Kobe.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

Bunkering at Oil Jetty prohibited.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

Compulsory for tankers working cargo at oil jetty.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. It any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: No consulate in Amagasaki area.
REPAIRS: No dockyard. Minor repairs can be carried out on vessel alongside wharf.
REPATRIATION: Possible.
AIRPORT: International airport Osaka, 15 miles from Amagasaki.
TIME: GMT plus 9. No alterations made to clocks during year.
HOLIDAYS: Kobe Steel (Ore/Coal) Nil. Public Wharf (Scrap) 20th July.
POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119.
TELEPHONE: No telephone installation service on board.
SERVICES: Compass adjustment can be carried out at anchorage.
SHORE LEAVE: Local Immigration Officers issue shore pass valid for only 3 days, but 3 days extensions possible if ship stays longer.
AUTHORITY: Port Administration Office.
AGENTS: Dodwell Tramp Agencies, Osaka. (see "Osaka".)

ANAN (Tachibana): 33.52 N. 134.40 E.

DOCUMENTS: and all general information, refer to "Shimotsu".
PILOTAGE: Not compulsory. Pilot can be arranged through Agent if required.
MAX. SIZE: Max. draft 10·50 metres, limited by channel depth.
PRATIQUE: Closed port. If arriving directly from abroad, vessel should proceed to Shimotsu for health clearance. Immigration authorities attend from Komatsushima if required.
TUGS: One tug of 2,000 h.p. available.
BERTHING: Nippon Denko Wharf, 12 metres depth alongside. Unloading capacity 500 tons per hour.
FRESH WATER: Available from shore hydrants only.
FUEL: By barge from Hanshin area only.
AUTHORITY: Port and Harbour Department.

AOMORI: 40.52 N. 140.45 E.

DOCUMENTS: and all general information, refer to "Hachinohe".
TUGS: Two tugs available, up to 500 h.p.
BERTHING: No. 2 Wharf depth 9·0 metres
,, 7·5 ,,
,, 8·5 ,,
Tsutsumi Wharf ,, 8·0 ,,
FUEL: Can be supplied by barge from nearest stock port.
FRESH WATER: Available ex-wharf.
AUTHORITY: Port Administration Office.
AGENTS: Abeki Shokai, c/o Azuma Ryokan, 2–13, 2-chome, Tsutsumi-cho. Cables: "Abe Aomori". Tel. (01772) 4–5481.

ATSUMI: 34.40 N. 137.04 E.

DOCUMENTS, and all general information: refer to 'Yokkaichi'.
PILOTAGE: Not compulsory but Atsumi Berthing Master may board vessel at Yokkaichi Quarantine Anchorage.
RESTRICTIONS: *Dolphin Pier:* 70,000 Dwt, LOA 240 metres, Max. draft 10.00 metres.
SBM: 20,000 Dwt, Max. draft 16.00 metres.
CLEARANCE: *Quarantine:* Quarantine Office opened at Atsumi.
Immigration: Immigration Officials attending from Gamagori.
TUGS: Minimum two tugs required for mooring/unmooring due to strong current.
BERTHING: *Dolphin Pier:* Lat 34° 38′ 36″ N. Lat 137° 04′ 54″ E. 2.5 Km from installation.
SBM: Lat 34° 39′ 47″ N. Long 137° 03′ 56″ E. 2 Km from installation.
FRESH WATER: At Dolphin Pier ex pipeline (boiler water only). At SBM by barge.
FUEL: Bunkering permissible only at anchorage by barge.
DENSITY: 1.025 at both berths.
AGENT: See 'YOKKAICHI'.

CHIBA (including Yahata): 35.36 N. 140.07 E.

DOCUMENTS:
Ship's Register. Last Port Clearance. 3 Crew Lists including Passport Nos. 3 Passenger Lists. 1 Stores List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist watch, radio, firearms/swords, etc., (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: See "Tokyo".

ANCHORAGES: Quarantine anchorage on Northern part of Tokyo wan. Chart No. 1061. published by Maritime Safety Agency.

RESTRICTIONS: Following signals exhibited at Chiba Lt. and Chiba Signal Station.

	By Night	*Remark*
Chiba Route	W. flash 2 secs.	Over 500 GT outwards — STOP.
	R. flash 2 secs.	Over 500 GT entering — STOP.
	R. and W. flash 3 secs.	Over 10,000 GT entering or outwards — STOP.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agents to arrange stevedores. Vessel must constantly keep her Agents advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage) 2100–0500 hours next morning (130% additional) Sundays/holidays (60% additional).

MEDICAL: No advance notice required unless urgent.

TANKERS: Ten tanker berths and max. permitted draft 20 metres. 200,000 dwt. at Keiyo Sea Berth.

FRESH WATER: Available by barge.

FUEL: All grades available.

GANGWAY/DECK WATCHMEN: Recommended.

OPENING/CLOSING HATCHES: Carried out by stevedores.

SHIP CERTIFICATES: See "Tokyo".

CUSTOMS ALLOWANCES: Tobacco – 200 cigarettes. Wine and/or spirits – one bottle.

CONSULS: None.

REPAIRS: All major repairs possible.

DRY DOCK: Mitsui Ship Building Yard 500,000 d/w and 300,000 d/w dry docks.

REPATRIATION: Available.

AIRPORT: About 70 km. to Tokyo Airport.

TIME: Japan Standard Time (135° E) = GMT plus 9. Permanent.

HOLIDAYS: New Year's Day (January 1st); Attaining the Age of Maturity Day (January 15th); State Foundation Day (February 11th); Vernal Equinox Day (March 21st); Birthday of Emperor (April 29th); Constitution (May 3rd); Children's Day (May 5th); Respect Day for the aged (September 15th); Autumnal Equinox Day (September 24th); Gymnastic Day (October 10th); Civilisation Day (November 3rd); Labour Thanksgiving Day (November 23rd). Cargo work can be arranged at 50 – 100% extra on basic costs.

POLICE/AMBULANCE/FIRE: Police tel. 110, Fire and Ambulance 119.

TELEPHONE: Facilities for placing telephones on board only at Chuo Pier.

SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but 3 days extensions possible if ship stays longer.

AUTHORITY: Chiba Port Control Office, Chuoke Chiba Japan. Tel. Chiba (42)–6201–4.

AGENT: Sub-Agent of Dodwell & Co. Tokyo. Chiba Kaiun Sangyo Co. Ltd., 1–20, 3-Chome, Suehiro, Chiba. Cable Chibamarine, Chiba. Tel. Chiba (0472) 61–3361.

FUKUYAMA: 34.29 N. 133.21 E.

Located on central northern coast of Setonaikai (Inland Sea) and on border of Hiroshima Prefecture and Okayama Prefecture.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot-stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot-stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed shelter as near as possible having due regard to safety, to Sekisaki pilot-station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 14″ N. 131° 03′ 12″ E.

APPROACHES: Approach channel: length: (from quarantine anchorage to "A" berth) 7,000 metres; depth: 16 metres below low water; width: 350 metres.

Branch channel: (leading to NKK loading berths) depth: 11 metres below low water; width: 200–300 metres.

ANCHORAGES: Quarantine anchorage position: 34° 22·5′ N. and 133° 26·3′ E., an area of 750 metres radius.

MAX. SIZE:

NKK's Private Berths.

Berth	*Length and depth (in meters)*	*Max. vessels acceptable (in dwt)*	*Unloaders*	*Cargoes handled*
Raw Materials Berth				
"A"	300 17	150,000	4 gantry cranes each with 1,500 tons per hour discharging capacity	Iron ore and coal
"B"	280 16	100,000		
"E"		90,000		
"F"	180 11	20,000	2 level-luffing cranes each with 300 tons per hour discharging capacity	Coal and other raw materials except iron ore
Mooring buoy	— 11	25,000	Ship's gear	Pig iron and scrap
Scrap berth	180 13	35,000	2 level-luffing cranes each with 20 tons lifting capacity	Pig iron and scrap
Export Berths				
Berth 1	234 11	30,000	2 level-luffing cranes each with 30 tons lifting capacity	Steel coil and plate
Berth 2	230 13	35,000	1 level-luffing crane with 30 tons lifting capacity and 1 gantry crane with 20 tons lifting capacity	Steel coil and plate
Pipe berth	200 13	35,000	1 level-luffing crane with 20 tons lifting capacity	Steel pipe

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards. Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Chosi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Chosi and North bound to Nagasaki Radio respectively.

TUGS: "Nikko Maru" and "Kofuku Maru" (both 3,000 h.p.) are available in the Fukuyama Harbour. Additional tugs are available from other Inland Sea terminals.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the agents, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: Summer 1·016–1·022. Winter 1·025. The density not much affected by tide, which is maximum 3·84 metres.

FRESH WATER: Available at any berth. Supply capacity 50 tons per hour. However, for a vessel moored to a buoy or at anchorage, water barge comes from Onomichi.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. Bunkering barge comes usually from Mizushima (31 miles East of Fukuyama) or from Kobe (97 miles East of Fukuyama). Therefore, an advance order is required.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Only minor repairs.

DRY DOCK: None. Available at Innoshima or Mukaijima.

REPATRIATION: Possible.

AIRPORT: Okayama airport 70 kilometres from Fukuyama which takes about 2 hours by car. 2 flights daily.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Report to Guardmen's office located at West Gate of Nippon Kokan.

TELEPHONES: No arrangements for placing telephone on board. Private telephones connecting with offices in the compound of the Fukuyama Works are placed at each of the raw material berths.

For vessels alongside export berths, private telephone available at foremen's office located on berth.

GENERAL: Fukuyama is a local and new port, developed along with the expansion of Nippon Kokan, Fukuyama Steel Works.

Ship repairs (except small ones) for machinery, radio, radar, etc., are all arranged by firms located in Tokyo, Osaka and Kobe.

SERVICES: Hold cleaning. Labour comes from Mizushima.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Portland Harbour Dept.

AGENTS: Subagents of Dodwell & Co. Ltd., Tokyo. Nissan Shipping Co. Ltd., NKK Kaiji Bldg., 1, Kokan-machi, Fukuyama. Tel. Fukuyama (0849) 41–0535, 3210. Telegraphic Address "Sunsenpaku Fukuyama".

FUSHIKI: 36.49 N. 137.03 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
6 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's agents will prepare Inward/Outward Declaration, 2 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Pilot available any time during daylight. Not compulsory. No telegraphic address of pilot station, therefore, direct advice to local Agent always required. Pilot meets vessels 209 degrees 2 miles off leading light, thence takes vessel to Quarantine Anchorage ground. Due to many fish-nets on both sides of fairway if requiring to come into Quarantine Anchorage without taking Pilot, necessary to advise Agent in advance. In case of bad weather and need to await outside port, recommend cruising in Toyama Bay until sea abates. Bay area too deep to anchor and also danger of fish-nets. When approaching position for Pilot, give exact ETA to Agent by using Niigataradio and/or VHF to Fushiki Harbour Master. Small wooden pilot boat painted yellow. No particular light or sound signals required.

ANCHORAGE: Safe at all seasons with depth from 8 to 11 metres. Sand and clay bottom. Room at anchorage for at least six vessels over 5,000 gross tons.

RESTRICTIONS: Pilot not available during darkness. No restrictions on tide, because small tide in all seasons. If draft over port limitation, vessel enters port after making adjustment by lightening in Outer Harbour.

MAX. SIZE: Length 180 metres, draft 31 ft. in summer and 30 ft. in winter. However, depth of port not always definite, being a river port, and dredging operations always carried out to keep depth all year round. Tidal range is maximum 0·45 metres.

PRATIQUE: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health conditions on board. When free pratique is granted

by radio, vessel will be required to submit the following documents to Quarantine Officer on arrival:
Maritime Declaration of Health.
Crew List.
Passenger List.
The following vessels will not be able to get radio pratique.
A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.
If a vessel has on board any case, or any suspected case, of infectious disease within 15 days of arrival.
If crew or passengers on board do not possess valid Smallpox Vaccination Certificates.
If a vessel does not possess a valid Derat or Derat Exemption Certificate.

RADIO: (also see "Pilotage".) Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Chosi and North bound to Nagasaki Radio respectively.

TUGS: Tugs normally join vessel at port entrance, but sometimes in Outer Harbour for large vessels. Narita-Maru (2,060 h.p.) and Nihonkai-Maru (1,800 h.p.) provide lines, free of charge and Raicho-Maru (760 h.p.) uses ship's line. Used only when pilot on board.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agents mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agents, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: Average density between 1015 and 1019 in all seasons.

FRESH WATER: Available, from left wharf No. 1 and 2, average 45 tons per hour. In other berths, to be supplied by barge, average 50 tons per hour.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker ports at maximum 7 days prior notice.

DEVELOPMENTS: Right No. 4 wharf reconstructed, now 175 metres long, 10 meters deep, also Right No. 5 wharf, 130 metres long, 7 metres deep. Left No. 1 pier under reconstruction, when completed will be 185 metres length, 10 metres depth. Left No. 2 pier to be reconstructed and completed to same size as Left No. 1.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Minor repairs only.

DRY DOCKS: No dry docks. Nearest available in Toyama.

REPATRIATION: Possible.

AIRPORT: Toyama Airport about 35 kilometres distance. Two regular services a day. ANA only.

TIME: GMT plus 9. No alterations made to clocks during year.

HOLIDAYS: 1st May and New Years Day.

POLICE/AMBULANCE/FIRE: Police, Fushiki Police Station, Takaoka (0766) 44–1500; Ambulance, Fushiki Fire Station, Takaoka (0766) 44–1122; or 119; Fire, Fushiki Fire Station, Takaoka (0766) 44–1122.

TELEPHONES: No facilities for placing telephones on board.

SERVICES: Hold cleaning available.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port and Harbour Dept.

AGENTS: Subagents of Dodwell & Co. Ltd., Toyko. Fushiki Kairiku Unso K.K, 6–6, Fushiki-Minatomachi, Takaoka-shi. Tel. Takaoka (0766) 44–1300. Telegraphic address "Fushikikairiku Fushiki".

HACHINOHE (Hachinoe): 40.32 N. 141.33 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Pilot not compulsory, but arrangeable at Master's request. Pilot always arranged by Agent if Master requires, and vessel required radio Agent ETA 24 hours before arrival. Pilot boat has no facility to communicate with ship, but flies pilot flag ("H"). Pilot boards at Quarantine Anchorage (lat. 40° 32′ N. long. 141° 32′ E.).

ANCHORAGE: Open sea anchorage. Depth of water: 10–15 metres.

RESTRICTIONS: Pilot arrangeable only in daytime for entry.

MAX. SIZE: Draft: 9·00 m. (29 ft 8 in.). LOA: 160 metres (524 ft. 10 in.) Breadth: no restriction.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards. Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agents prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUG: Tug joins vessel inside breakwater.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

PRATIQUE: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health conditions on board. When free pratique is granted by radio, vessel will be required to submit the following documents to Quarantine Officer on arrival:
Maritime Declaration of Health.
Crew List.
Passenger List.

The following vessels will not be able to get radio pratique:

A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or any suspected case of infectious disease, within 15 days of arrival.

If crew or passengers on board do not possess Valid Smallpox Vaccination Certificates.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Two tug-boats available for big ships: m.s. "Hakodate Maru" 107 g.t. 800 h.p. (Hakodate Municipal); m.s. "Soryu Maru" 150 g.t. 1,100 h.p. (Kyodo-Office) Ferry Boat Co. Tug-boat waits and joins vessel near the appointed berth. Tug line generally used.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's agents mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional. Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

SINGLE-BUOY MOORING: Asia Oil Company, sea berth suitable for up to 72,000 dwt. at Imodco Buoy.

Position: 41° 48′ 08″ N. 140° 40′ 57″ E.

Soundings: At site 15·5 metres. In approaches to site, more than 15·5 metres. The approach to terminal is free from obstructions.

There is one 20-in. crude line running 2,000 metres from shore to the buoy, and about 500 metres from shore line to the storage tanks.

Mooring: There is no night mooring. Unmooring is carried out from 0600 till 2400 hours, and may be done by the Master of the ship without a Pilot.

A mooring/unmooring gang is provided for by Agent. Two launches and one tug are in attendance at the mooring. One launch will keep the hose clear while the other handles the lines. The tug is standing by and only pushes against bow or near the stern to keep the head of the vessel in position whilst mooring.

At least six good mooring lines are required, preferably each line to its own bollard. The lines are run single to the buoy. The position of the ship's bow from the buoy is about 40 metres, when the distance from the buoy to ship's manifold is about 360 ft.

When mooring, it is requested that the propeller is completely stopped or otherwise turned astern.

Both bow anchors are to be hove well up in the hawse pipe and properly secured before reaching the buoy. Anchors are never to be used while on the buoy. They may foul the buoy's mooring cables and pipe-line on the bottom if released.

Floating Hose: There is one set of 12-in. floating hose for the

discharge of crude only. The floating hose is about 600 ft. long from the buoy's manifold. The last two lengths are floating in doughnut-shaped plastic floats. The end is marked with an unlit marker buoy.

The hose connections are always made to the port manifold and are lifted with ship's gear. The hose when full of cargo and equipment weighs over one and a half tons. Information is required of the distance from ship's bow to ship's manifold, and the distance from ship's side to ship's manifold prior to arrival.

Standard flanges are used on the hose. OD 19 in. diameter of bolt-circle 17 in. with 12 bolt-holes size $\frac{7}{8}$ in.

Discharging: The discharging should be arranged in such a way as to be able to take sufficient ballast into ship's tanks, when about half way during discharge; to be able to get the ship's head down to prevent the vessel from veering too widely, and run over the hose near the buoy, in case of unfavourable conditions.

Maximum allowed backpressure by shore is about 10 kg·cm². During the discharge the main engine must not be immobilised as it may be used to keep the vessel clear of the buoy.

Stand by Men: While on the buoy, the vessel will be required to provide sleeping quarters for four men, this includes the foreman who will remain on board throughout the entire operation. It is requested that the discharge officer be provided with meals. The other men are supplied with food from shore.

DENSITY: Average 1025.

FRESH WATER: Available at piers ex-hydrants and by barge at anchorage. Supplier, Hakodate Municipal Office.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

Fuel supplies for Hakodate are generally lightered from Tokyo Bay area and delays can be caused by weather conditions.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs inspector ship's registered Gross and Nett Tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Hakodate Dockyard Co., undertakes hull and engine repairs.

DRY DOCKS: No. 1. Capacity 15,000 g.t., length 180 m., breadth 22·45 m. depth 6 m. No. 2. Capacity 9,000 g.t., length 140 m., breadth 8 m., depth 6 m.

AIRPORT: Distant 20 min. by car.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119.

TELEPHONES: Arrangeable on board.

SHORE LEAVE: Local Immigration officers issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port Administration Office.

AGENT: Sub-Agents of Dodwell & Co., Tokyo. Narasaki Sangyo Co. Ltd., c/o Hakodate Kowan Sangyo Co. Ltd., Attn. Ship's Agency Section, 27–7, Toyokawa-cho, Hakodate. Cables. "Narasaki Hakodate". Tel. Hakodate (0138) 22–4101.

HIMEJI (including Hirohata, Shikama, Mega and Aboshi): 34.47 N. 134.41 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: See "Kobe". Vessels take Inland sea Pilot off Wada, Hesaki or Sekisaki; or from ports of Inland sea. No exact pilot station and no checking point at port of Himeji (Nega, Shikama, Hirohata and Aboshi) but Agents arrange pilot when vessel approaches upon receiving cable giving 24 hours advance notice. Pilot boarding positions as follows: Mega 34° 44′ N. 134° 42′ 15″ E. Shikama 34° 45′ N. 134° 39′ E. Hirohata 34° 44′ N. 134° 37′ E. Aboshi 34° 44′ N. 134° 34′ 10″ E.

No strict location of anchorage for vessel awaiting a Pilot in Himeji area, but should be as close as possible to port according to draft and communication.

ANCHORAGE: No strict boundary areas for anchorages. Anchor as close as possible to the port according to draft.

RESTRICTIONS: At ports of Mega, Shikama and Aboshi, no pilot boarding between sunset to sunrise. Hirohata pilot will board from sunrise to 2200 hours for vessels less than 10,000 dwt for entry, and less than 15,000 for departure, for piers No. 4, 5, 6, 7, 9 and 10 but other berths only from sunrise to sunset.

MAX. SIZE: Draft restrictions as follows:

Mega 11·80 m. Shikama 8·80 m. Hirohata 13·0 m. for central pier, 7·50 m. for Kamota pier (Pier No. 1–7), 9·45 m. for Tsuruta pier (Pier No. 10–14). Aboshi 9·0 m.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards. Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Tug(s) normally join vessel when approaching, or at anchorage. Always use tug's lines without charges.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: Idemitsu Kosan Kaisha Ltd., Himeji oil jetty where one berth only and max. 11·8 metres draft allowed. Shore discharging facilities two 12 in. diameter hose connections which connect to 18 in. diameter line for tank hoses. Acceptable max. 5 kg/cm² on hose gauge, discharge rate abt. 2,000 l/t per hour.

Note: Idemitsu Kosan Kaisha Ltd., Himeji, require following information prior arrival for smooth berthing and connecting hoses: Height from sea to deck; Length from vessel's side to underneath of hose connections; Height from deck to connection of line; Diameter of connection.

DENSITY: Average density between 1·025 and 1·026 in winter season and 1·018 and 1·020 in summer season.

FRESH WATER: Idemitsu Oil Jetty, Shikama public pier and Hirohata pier able to supply fresh water from shore, but *No Water Barge available at Port of Himeji* therefore not able to supply fresh water at Satetsu pier (Shikama), Shikama buoy, Aboshi buoy or outside anchorage.

Port	*Average rate of delivery*
Mega	20–30 m/t per hour
Shikama	15–20 m/t per hour
Hirohata	15–20 m/t per hour

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passenger or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores

charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CARGO GEAR: See "Certificates" but no special requirements.
CONSULS: No consuls at Himeji, Shikama or Hirohata.
REPAIRS: Most minor deck and engine repairs available at port of Himeji; in case special technician required, should be called from Kobe.
DRY DOCKS: No dry dock available at port of Himeji, Nearest dry dock Ishikawajima-Harima Heavy Industries Co. Ltd., Aioi, who have following dry docks. Also see Aioi.

	LOA	*LBP*	*Breadth*	*Depth*	*Capacity*
Dock No. 1	238 m. (780'9")	230 m. (754'7")	33 m. (108'3")	5·5 m. (18')	73,000 dwt (LT)

REPATRIATION: Possible.
AIRPORT: About 60 km. to Irami airport. Regular services.
TIME: GMT plus 9. No alterations made to clocks during year.
HOLIDAYS: At Aboshi, No work on 1st and 3rd Sunday. At Shikama, Shore crane, no work on 1st and 3rd Sunday but gangs available for discharging and loading.
POLICE/AMBULANCE/FIRE: Police (Shikama) tel. 35–1441; Ambulance (Shikama) 119 or 35–0119; Fire (Shikama) 119 or 35–0119.
TELEPHONE: No facilities for placing telephones on board.
GENERAL: No quarantine available at port of Himeji, therefore pratique to be obtained at other ports.
SERVICES: Tally, laundry, daily provisions by ship chandler available locally. All other service from Kobe or Osaka.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: See "Amagasaki".

AGENTS: Sub-agents of Dodwell & Co., Tokyo. Shikama Kaiun K.K., Minatomachi, Shikania-Ku, Himeji. Tel. Himeji (0792) 35–0912. Telegraphic address "Shikamakaiun Himeji".

HIROSHIMA: 34.20 N. 132.25 E.

DOCUMENTS: See "Yokohama".
PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot-station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessel's last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot-stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe"
2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.
3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

Ujina Lighthouse is at South of Ujina-islet N. 34° 20′ 14″ : E. 132° 27′ 55″.
RESTRICTIONS: Depth of approach to berth about 10 m.
MAX. SIZE: Wharf (Hiroshima Prefecture Public Berth) No. 1. length 166 m., draft 9·7 m, (10,000 g/t vessel). No. 2, length 166 m.
Gaibo-Ganpeki (wharf for ocean-going vessel) length 337 m., depth alongside about 10 m., maximum draft acceptable 9·70 m.
PRATIQUE: See Kobe.
TUGS: Join vessel at quarantine anchorages. Tug's lines used.
TIDES: Maximum (Spring Tide) 3·9 m. Minimum (Neaps) 0·57 m.
Rate of current at flood tide generally ¼ knot to North-east; ½ knot at ebb tide to South-west. South area of Togeshima and Kannonsaki ¼ knot at flood to South-south-east, and ½ knot at ebb tide to North-north-west.
FRESH WATER: By water barge (capacity: 330 m/t available), Additional charges made for overtime i.e. after 5 p.m., and Sunday, holidays, and Saturday afternoon.
CONSULS: No consul in Hiroshima. Nearest Osaka or Kobe. Marine note of protest can be attested by local notary public.
REPAIRS: All types of deck, electrical and engine repairs.
DRY DOCKS: Largest dry dock Taibi dry dock, Mitsubishi-Hiroshima Works, L 154 m. B 22·00 m. 10,300 g/t. Kanawa dry dock and Ujina dry dock available for 3,500 g/t and 1,500 g/t respectively.
AIRPORT: Hiroshima airport. Only domestic airlines every hour to Osaka and Tokyo.
POLICE/AMBULANCE/FIRE: Police (for emergency) 110; Ambulance 119; Fire 119.
TELEPHONE: No arrangements for placing telephones on board.
SERVICES: Any navigational apparatus can be serviced on request, Cargo holds cleaning services can also be carried out, but tank-cleaning and other services are to be arranged from Kobe.
REGULATIONS: Many seaweed and oyster beds near anchorages, therefore oil pollution precautions strictly observed.
AUTHORITY: Hiroshima-Kencho, 10–52 Motomachi, Hiroshima City.

AGENTS: Sub Agents of Dodwell & Co. Ltd., Tokyo. Naigai Unyu Co. Ltd., 36–23, 2-chome, Ujina Kaigan, Hiroshima. Tel. Hiroshima (0822) 51–2421. Telegraphic address "Naigai Hiroshima".

HITACHI: 36.30 N. 140.37 E.

DOCUMENTS: and all general information, refer to "Onahama".
PILOTAGE: Not compulsory. Pilot boards in approximate position 36° 28′ 39″ N. 140° 38′ 40″ E.
MAX. SIZE: Draft, 8·50 metres limited by channel depth.
PRATIQUE: If arriving from abroad, vessel should obtain pratique at Onahama.
TUGS: One tug of 180 h.p. available.
BERTHING:

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″E.
ANCHORAGE: Anchorage outside breakwater, sufficient water, but on account fast current deemed not safe anchorage. Anchorage

inside breakwater generally shallow, and sea area narrow for large vessels. To discharge/load only Temposan wharf available for vessels alongside berth where holding ground is good and depth of water is 7·50 metres.

Vessels drawing over 7 metres: vessel can enter Mategata (open road) deemed to be most fitted place for vessels entry to discharge/load. Port of Mategata faces Aki-Nada and located near West entrance of Kurushima channel; 132 degrees 55 minutes East, 36 degrees 06 minutes North, where holding ground good and depth of water 12–20 metres is kept.

RESTRICTIONS: No entry after dark.

MAX. SIZE: Temposan Wharf length 110 metres, breadth no limit draft 7 metres. Mategata (open road) length no limit, breadth no limit, draft 10 metres.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Temposan wharf: join vessel at sea anchorage, using tug's line without charge. Mategata (Open road): no tug required in normal conditions.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio. Also see "Max. Size".

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: Temposan wharf 1.015. Mategata 1.015.

FRESH WATER: Fresh water not available but usually brought by barge from Onomichi (about 4 hrs. run to Imabari/Mategata). Rate of delivery 80 tons to 200 tons per hour dependent on barge.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and net tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: See "Kobe".

REPAIRS: Only minor repairs.

DRY DOCKS: Not available at this port, the nearest ones are Kawasaki Heavy Industries Ltd., Sakaide; Hitachi Shipbuilding & Engineering Co. Ltd., Innoshima; and Mukaishima; dimensions of these docks as follows:

Kawasaki Heavy Industries Ltd., Sakaide. Dock No. 2 for 500,000 dwt vessel. 450 m.×72 m.×12·3 m. It is not in action yet for ships to repair. Only used presently for ship building and after services.

Hitachi Shipbuilding & Engineering Co. Ltd., Innoshima Dock, Dock No. 1 for 20,000 dwt vessel. 175 m.×25·62 m.×9·10 m. Dock No. 3 for 130,000 dwt vessel. 282·50 m.×47 m.×11·33 m

Hitachi Shipbuilding & Engineering Co. Ltd., Mukaishima Dockyard, Dock No. 1 for 3,000 dwt vessel. 86·18 m.×13·60 m.·×6·80 m. Dock No. 2 for 8,500 dwt vessel. 125 m.×18 m.×7·40 m. Dock No. 3 for 25,000 dwt vessel. 175 m.×29 m.×9 m.

REPATRIATION: Possible.

AIRPORT: No airport. Nearest airports are Matsuyama and Takamatsu where are All Nippon Airways.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police tel. 110; Ambulance 119; Fire 119.

TELEPHONES: No facilities for placing telephones on board.

GENERAL: Mategata is a closed port. To conform with regulations, vessel obtains permission from Shikoku Maritime Bureau to enter.

Customs request vessels calling Mategata to obtain permission to enter at preceding port of call by paying charge at same rate of tonnage dues prior to arrival of vessel. Application undertaken by Agent.

No quarantine available. Nearest station Matsuyama. No immigration. Officer comes from Niihama.

SERVICES: None.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port Administration Office.

AGENT: See "Matsuyama".

Kanmon Pilot boards at Mutsure (33° 58′ 15″ N., 130° 53′ 43″ E.) for passing Shimonoseki Strait to Hesaki where Pilot will be changed to Inland Sea Pilot.

Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N., 131° 03′ 12″ E.

ANCHORAGE: No. 1. 14 metres deep, 1.4 miles off Hyakkan Island 180°. No. 2. 9 metres deep, 1.5 miles off Hyakkan Island 290°.

RESTRICTIONS: In general, mooring/unmooring and/or dry-docking in-and-out carried out in daytime only.

MAX. SIZE:

		Length	*Breadth*	*Draft*
(1)	*a.* For mooring only	320 m.	× 50 m.	× 7 m.
	b. For dry-docking	275 m.	× 44.2 m.	× 4.5 m. up to 73,000 dwt

(2) Max. draft for entering port: 9 m.
(3) Max. draft for mooring: 5–7 m. according to quay.

Current is North-East at high tide, and South-west at low tide at max. 2·5 knots.

HEALTH: In event vessel proceeding Innoshima direct from foreign port, vessel to receive pratique at Quarantine anchorage Kobe or Saganoseki (33.15′N; 131.52E.) or Mutsure (33° 59′ N. 130° 53′ E.).

At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination cards, derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi, and North bound to Nagasaki Radio respectively.

TUGS: Ship taken into port by Dock Master who joins ship at anchorage with tug-boat. Usually, tug's lines used.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

TANKERS: Tank cleaning station operated by Setonaijai Tank Cleaning Company, can receive slops up to rate of 250 tons per hour.

MEDICAL: No advance notice required unless urgent. Hospital facilities available.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: All facilities for major repairs.

DRY DOCKS: See "Max. Size".

AIRPORT: Hiroshima Airport or Okayama Airport (domestic only) About 2 hours by car from both airports.

TIME: GMT plus 9 hours. Permanent.

TELEPHONES: Telephone is available: Shipyard installs one telephone in accommodation and another one in engine room.

SHORE LEAVE: Local immigration offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

SERVICES: The following services are available: Tank cleaning, Discharge of tank washings, Compass adjustment, Ship's chandler.

AUTHORITY: Mihara Doboku (Public Works) Office.

AGENT: Sub-Agent of Dodwell & Co., Tokyo. Hamaoka Shoten, 2207, Habu-cho, Innoshima. Cables: "Hamaoka Innoshima". Tel. Innoshima (08452) 2–1340.

ISHINOMAKI: 38.23 N. 141.16 E.

DOCUMENTS: and all general information, refer to "Ofunato".
RESTRICTIONS: Channel depth 9 metres LW.
TUGS: Available from Shiogama.
BERTHING:

Minami Hama Wharf	depth 10·0	metres
Hiyori Wharf	,, 9·0	,,
Nakajima Wharf	,, 10·0	,,
Shiomi Wharf	,, 4·5	,,
Hiyori Wharf	,, 4·5	,,

Jyujyo Wharf	,, 6·5	,,
Tekkosha Wharf	,, 4·5	,,

FRESH WATER: Available ex-wharf.
FUEL: To be barged from Yokohama.
AUTHORITY: Port Administration Office.
AGENTS: Abeki Shokai, c/o Fukushimaya Ryokan, 12–4, 2-chome Chuo. Cables: "Abe Ishinomaki." Tel. (02252) 2–1121.

IWAKUNI, Hiroshima Bay: 34.10 N. 132.11 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Cable address Ansin Moji. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki)). In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGES: Two anchorages, one for "Quarantine" and repairing, etc., other for discharging logs.
(*a*) Quarantine 34° 10′ 28″ N., 132° 16′ 43″ E. minimum depth 27 m.
(*b*) Discharging area 34° 11′ 12″ N., 132° 14′ 21″ E. minimum depth 10 m.
Nature of bottom mud.
Minimum bottom width no limit.
HEALTH: At first port of call in Japan vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Tugs normally join vessel at Quarantine area. Tug's lines to be used free of charge. Two tugs available of 3800 h.p.
BERTHING: No berthing from sunset to sunrise. At least 2·0 hours notice arrival necessary to reach berth, in event of direct arrival from foreign country.
MEDICAL: No advance notice required unless urgent.
TANKERS: Maximum about 150,000 dwt; slop discharge pipelines. Koa Oil Co. Ltd., Marifu refinery.

	Max. G/T	*Max. safe draft*	*Type and diameter hoses*
Koa Oil Crude Pier	90,000	17·00 m.	12″×3
North No. 3 Pier	9,000	10·00 m.	8″×1
Kenei No. 3 Pier	28,000	9·00 m.	10″×2

Kenei No. 3 pier used by Messrs. Union Sekiyu Kogyo K.K. jointly.
DENSITY: 1,020.
FRESH WATER: Alongside Koa Oil Pier, possible to take fresh water ex. shore.

Berth	*Capacity*
Koa Oil Crude Pier	5 tons/Hour
Kenei No. 3 pier	3 tons/Hour
Sanyo Pupl Pier	5 tons/Hour

FUEL: Available ex-wharf, but not ex-barge. All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
DEVELOPMENTS: New berth named "Muronoki Pier" under construction.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CARGO GEAR: See "Certificates" but no special requirements.
CONSULS: No consul but marine note of protest can be attended by local notary public.
REPAIRS: None. For heavy repairs from Hiroshima.
REPATRIATION: Possible.
AIRPORT: Hiroshima airport 45 kilometres (Abt. 2 hours).
For Osaka (TOA Airline) 0900, 1415, 1725, 2000
For Tokyo 0750, 1100, 1355, 1510, 1755, 1905
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Police 110 (just dial); Ambulance 119 (just dial); Fire 119 (just dial).
TELEPHONES: No arrangements available except Koa Oil.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Port Administration Office.
AGENTS: Sub-agents of Dodwell & Co. Tokyo. Naigai Unyu Co. Ltd., 35–7, 4-chome, Shinko-cho Iwakuni. Tel. Iwakuni (0827) 21–7115/6. Telegraphic address "Naigai Iwakuni".

KAGOSHIMA: 31.35 N. 130.33 E.

DESCRIPTION: Port situated in Kagoshima Bay, the southern part of Kyushu and consists of 3 sections as follows:

Main Harbour: divided into Inner Harbour sheltered by breakwaters which can accommodate up to 3,000 tonners, and Outer Harbour, (open roads) where large size vessels lie at anchor.

New Harbour: adjacent to Main Harbour on the South. This section also sheltered by breakwaters and a 10,000 tonner can be accommodated.

South Harbour: located about 6 kilometres away from main harbour on South and used for small coasters.

DOCUMENTS:
Customs: When vessel arrives direct from foreign port, customs officials board for search. Following documents to be submitted:
Crew List.
Passenger List.
Manifest of crew personal effects (must be signed by individual crew member).
Store List.
Arms and Ammunition List.
Narcotics List.
List of ports of Call on current voyage.
Discharging Cargo Manifest.
Through cargo Manifest.
Declaration inward/outward.

Following will be checked on board: Ship's Registry; Last Port Clearance.

When vessel comes from Japanese port, Customs officials will not attend on board, except special case. Master or Agents to attend Custom House for entry formalities with following documents:
Discharging Cargo Manifest.
Through Cargo Manifest.
Declaration inward/outward.
Ship's Registry.
Last Port Clearance.
Documents entrusted with the Master by Customs at previous port.

On vessel's departure, a clearance is issued by Customs, after confirming payment of tonnage dues.
PILOTAGE: Not compulsory, but necessary unless Master well acquainted with locality. Pilot embarks at quarantine anchorage, (see "Health"). Request for pilot made through Agent. Master report by radio accurate ETA at least 24 hours prior to arrival.
ANCHORAGE: Ample good holding anchorage available in Outer Harbour. Depth: Over 9 m.
RESTRICTIONS: Berthing/unberthing during day only.

Wharf	*Location*	*Length*	*Depth*
7·9 m. wharf	Main harbour	110 m.	7·9 m.
7·5 m. wharf	,,	220 m.	7·5 m.
North	New harbour	125 m.	7·5 m.
North	,,	160 m.	5·5 m.
South	,,	165 m.	9·0 m.
South	,,	260 m.	7·5 m.

PRATIQUE: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health conditions on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:

Maritime Declaration of Health.
Crew List.
Passenger List.
The following vessels will not be able to get radio pratique.
A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.
If a vessel has on board any case, or any suspected case of infectious disease, within 15 days of arrival.
If crew or passengers on board do not possess Valid Smallpox Vaccination Certificate.
If a vessel does not possess a valid Derat or Derat Exemption Certificate.
Quarantine:
(*a*) Quarantine station: Sea area within radius of 1,000 metres from centre, position 31° 33′ 25″ N. 130° 35′ 33″ E.
(*b*) Quarantine service rendered from sunrise to one hour before sunset.
(*c*) "Q" flag should be hoisted until free pratique granted.
(*d*) When vessel arrives from plague-infected or suspected area within 10 days after she left such place, 24-hour special quarantine required.
All sanitary scuppers must be closed and garbage not thrown overboard after reaching 60 miles off Japanese coast.
RADIO: Recommended Captain contacts Agent through Choshi radio or Nagasaki Radio which covers all ports in Japan. If West bound vessel to Choshi, and North bound to Nagasaki radio respectively.
TUGS: "Wakashio Maru" twin diesel vessel, 1000 h.p.
BERTHING: No specific requirements. Pilot boarding time will be notified by Agent mainly by radio.
New Port (*Kagoshima-Shinko*). Sheltered harbour with main entrance 150 m. wide between S. breakwater (350 m.) and N. breakwater (150 m.). Sheltered anchorage in depth of 5·5– 9·0 m. No mooring buoy. Berthage outside breakwater in depth of 9·0 m. and inside breakwater in depth of 5·5–9·0 m.
Piers: South pier (in foreign trade zone, for outbound vessels only):
165 m. long with 9·0 m. alongside, will take one vessel of about 10,000 grt.
260 m. long with 7·5 m. alongside, two vessels less than 5,000 grt.
120 m. long with 4·5 m. alongside, two vessels less than 500 grt.
North pier (for inbound vessels):
125 m. long with 7·5 m. alongside will take one vessel of about 3,000 grt.
160 m. long with 5·5 m. alongside two vessels less than 1,000 grt.
60 m. long with 4·0 m. alongside one vessel less than 500 grt.
160 m. long with 5·5 m. alongside two vessels less than 1,000 grt.
STEVEDORES: Maximum 10 gangs available. Working hours: One labour shift. Normal working hour: 0800 to 1700 hrs. Overtime work possible until about 2000 hrs. by applying to Customs at following fees: 1700–2200, 0500–0830 also Sundays and holidays 2200–0500. All night work is impractible. No work can be arranged for on 31st December and during New Year holidays (1st to 3rd January).
MEDICAL: Hattanmaru Hospital; Fukusaki Hospital; Nagata Dental Plant. No advance notice required unless urgent.
TANKERS: No tanker berths at Kagoshima, but Central Terminal Station (C.T.S.) in Kagoshima Bay. See "Kiire".
FRESH WATER: One 150-ton water barge available. Hydrants at wharves in main harbour. Rate of delivery: 50 tons/hour from barge; 15–20 tons/hour from hydrants.
FUEL: None available. Lightered from another port. Ample notice so that necessary lighterage can be arranged.
DEVELOPMENTS: Industrial harbour planned on reclaimed land at Taniyama in Southern part of Kagoshima.
GANGWAY/DECK WATCHMEN: Not specifically required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores open/close hatches. Cost per hour depending on type of cargo. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete before berthing.
CERTIFICATES: Ship's register to show Customs Inspector registered gross and nett tonnages. Valid Cargo gear Certificates sometimes required by stevedores when cargo gear's maintenance appears poor.
CUSTOMS ALLOWANCES: Only 50 cigarettes to take ashore but no spirits.
REPAIRS: Only minor repairs – Kikukawa Iron Works and Kagoshima Dockyard Co.
REPATRIATION: Possible. Also see "Port Regulations".
AIRPORT: Kagoshima Airport. Short distance from town.
TIME: GMT plus 9 hours. No alterations to clocks during year.
HOLIDAYS: See "Tokyo" (Also see "Stevedores").
SERVICES: Cargo Survey. Provisions and Stores. Fumigation – Toyo Fumigation attend from Moji on request.
WIND/TIDE: North-westerly wind prevails in winter season and Easterly wind in summer. Wet seasons in April and July. Average tidal range 2·74 metres. In the outer harbour, flood tide sets to North and ebb to South. Maximum speed of current 2 knots. Current in inner harbour is less than 0·25 knots.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 day extension possible if vessel stays longer. Also see "Regulations".
REGULATIONS: Immigration officials board vessel on arrival to examine passports, discharge-books and/or other equivalent travel documents and provide 72-hour landing passes for crew members and passengers. One copy each of crew list and passenger list required by them. Providing ship's Agent with a crew list beforehand will be a great help in expediting immigration business on vessel's arrival. When vessel stays in port more then 72 hours, the landing passes may be extended 72 hours on application. In the event that crew members, without entry visas, are to be landed for repatriation or transfer, Immigration will not permit their landing unless passage, by either sea or air, ensuring the prompt departure from Japan (within 72 hours) of these men has been booked, or unless vessels to which they are to be transferred, arrive in Japan within 5 days.
AUTHORITY: Kagoshima Kencho.
AGENTS: Sub-agents of Dodwell & Co. Tokyo. Kyoshingumi Co. Ltd., Zisaki, Zyonan-cho, Kagoshima. Tel. Kagoshima (0992) 26–7123. Telegraphic – "Kyoshingumico Kagoshima".

KAKOGAWA: 34.42 N. 134.50 E.

Port is for sole use of the Kobe Steel Co. Ltd. Declared open port as of 1st May 1970, but vessels should first call off Kobe to obtain free pratique, Customs clearance and Pilot.
DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Stores List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).
Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Pilot will board off Kobe when calling for free pratique and Customs clearance. Pilot will be arranged by Agent subject advance request and usual ETA advices.
HEALTH: Vessel must call off Kobe for free pratique. At first port call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination cards, derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
RESTRICTIONS: Mooring/unmooring conducted daylight hours only.
BERTHING:

	Length	*Depth*
Pier E–1	200 m.	15 m.
Pier E–2	200 m.	14 m.
Pier E–3	300 m.	14·5 m.
Pier E–4	400 m.	17 m.

3 unloaders are presently available. 2 have capacity of discharging 1500 tons per hour and the third 700 tons.
Depth at low water is 17 metres in the fairway which is 400 metres wide. (Also see "Developments".)
MEDICAL: Treatment has to be arranged from Kobe.
FRESH WATER: Available from quay. Rate 50–80 tons per hour.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay, and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs inspector ship's registered Gross and Nett Tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
REPAIRS: Arranged from Kobe.
REPATRIATION: Possible, through Kobe.
TIME: GMT plus 9. No alterations made to clocks during year.
SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Kakogawa Doboku (Public Works) Office.
AGENT: See "Kobe".

KAMAISHI: 39.16 N. 141.55 E.

DOCUMENTS:
Ship's Register. Last Port Clearance. 3 Crew Lists including Passport Nos. 3 Passenger Lists. 1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Pilot not compulsory, but arrangeable at Master's request. Pilot arranged by Agent and vessel required to radio Agent ETA 24 hours before ship's arrival. Pilot boat has no facility to communicate, nor particular light or sound signals, but flies pilot flag ("H"). Pilot boards at 39° 16′ N. 141° 59′ E. 1 mile off Osaki Point. No alternative area in event bad weather.

ANCHORAGE: Up to four 30,000 d/w tonners can safely anchor. Depth of water: 31–43 metres at Quarantine anchorage. 20–27 metres at discharging anchorage.

RESTRICTIONS: Vessel free in and out anytime, but no Pilot available after dark for entry.

MAX. SIZE: Draft 12 metres and LOA, 200 metres (656 ft.) Breadth no restriction. Vessels with draft exceeding 9 metres required to berth on high water.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Tugs (2) join vessel at anchorage and tugs' lines used free of charge.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio. Max. depth alongside, 13 metres.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for agents to arrange stevedores. Vessel must constantly keep Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: Winter 1.026–1.027. Summer 1.023–1.024.

FRESH WATER: Available from wharf by hose. Rate of delivery: about 10–15 tons per hour. No water barge, but in case vessel requires water at anchorage, tugboat arrangeable for that purpose.

FUEL: Domestic diesel oil. No bonded fuel oil. All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Minor repairs such as welding, piping, lathing works etc. only.

DRY DOCKS: None.

REPATRIATION: Possible.

AIRPORT: Hanamaki, distant 100 km. (2 hours by car). One flight between Hanamaki/Tokyo on Tuesday/Thursday/Saturday and two flights on Sunday/Monday/Friday by all Nippon Airline (ANA).

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 2–4536 (Headquarter) and 2–3828 (Water Police Station); Ambulance 119; Fire 119.

TELEPHONES: No facilities for placing telephones on board.

SERVICES: Surveyor, Tally, Hold cleaning, Tank cleaning.

GENERAL: Discharging ex-gearless vessel not possible at anchorage.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port and Harbour Dept.

AGENTS: Sub-agents of Dodwell & Co. Ltd. Tokyo. Abeki Shokai, 210-go, 1-ban, 1-chome, Hama-cho Kamaishi. Tel. Kamaishi (01932) 2–4583/4. Telegraphic address – "Abe Kamaishi."

KANDA: 33.47 N. 131.00 E.

RESTRICTIONS: Main channel length 11,080 metres, width 200 metres, depth 9 metres.
Tidal range 3·2 to 3·3 metres.

BERTHING: Main berths dredged to 9 metres alongside. Berths mostly used for importing lumber.

KANMON-KO (Kanmon Harbour).

According to Japanese Harbour Area Regulations, Moji, Shimonoseki, Kokura, Tobata, Wakamatsu and Yawata are respective sections included in one port namely Kanmon Harbour. The expression of the port as "Kanmon" has been used in charter parties, where these six ports are considered to be one port. Vessel's movements within these ports is treated as shifting berth in the same port. Therefore, if vessel calls at more than two ports within this area, such calls are covered by one payment of tonnage dues. However, at Tobata, Wakamatsu and Yawata, port dues are levied in addition to tonnage dues.

Entry/departure procedures to Customs, Immigration and/or Harbour Master should be effected at each port, as those officials stationed individually at each port.

KANOKAWA: 34.11.15 N. 132.26.10 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF Communication available with Inland Sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel.) Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

Inland Sea Pilots also attend Harbour Pilotage but if specifically required Harbour Pilot boards at Port entrance South side of Ohkurokamishima, Position 34° 10′ N. 132° 26′ E.

ANCHORAGES: Good holding ground. Entrance channel and Harbour Channels. Depths 18 m. minimum. Bottom mud and sand. Difference between quoted datum and chart datum about two metres (to be added). Harbour anchorage about 2 miles South of "T" head berth where vessel remains if waiting berth.

MAX. SIZE: Length 240 m., beam 30 m., draft 12 m., deadweight 50,000.

HEALTH: Closed port. Vessel must call at another port for Customs and Health clearance before entering Kanogawa. At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Arranged from Kure. Normally join at Kanokawa Port entrance. Usually tug's lines used without extra charge.

TANKERS: "T" head jetty with 4 buoys. Depth alongside 13 metres. Two hoses with 12 in. connections, max. 8 kgs/sq. cm. Grades handled: molasses, crude and fuel oil.

DENSITY: 1023–1025 alongside berth. Rise of tide: Springs 3·4 m. Neaps 2·6 m.

FRESH WATER: Available at berth, ex-pipeline. Average delivery rate – 20 ton/hour.

CONSULS: None.

REPAIRS: See "Kure".

AIRPORT: Kure.

TIME: GMT plus 9 hours. Permanent.

POLICE/AMBULANCE/FIRE: Police 2005; Ambulance 2711; Fire 2711.

TELEPHONES: No arrangements available for placing telephones on board.

AUTHORITY: Ohgaki Doboku (Public Works) Office.

AGENTS: See Kure.

KASHIMA: 35.54 N. 140.42 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Pilot called through Agent. Pilot boards about 2 miles to North east from the end of breakwater, in position 35° 57′ 5″ N. 140° 43′ 5″ E.

ANCHORAGE: No suitable anchorage at present Quarantine Anchorage located at section between 183° and 279° from the undermentioned centre within a circle of radius of 1,300 metres centreing the position of 35° 57′ 19″ and 140° 42′ 30″ E., where depth of water, 18 metres.

RESTRICTIONS: Pilot does not board vessel after dark. Depth of water in fairway said to be 16 metres, but not officially confirmed, therefore Oil Companies presently restricting ship's draft to 10·80 metres. (35 ft. 7 in.).

MAX. SIZE: Bulk carriers have entered with draft up to 44 ft.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Usually joins vessel at anchorage where Pilot boards; ship's lines used.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

Sumitomo Metal	depth	16·0	metres
,, ,,	,,	12·0	,,
Kashima Denkai	,,	16·0	,,
Kashima Sekiyu	,,	16·0	,,

MEDICAL: No advance notice required unless urgent.

TANKERS: Requirements prior to arrival: Manifold: position, number and external and internal diameters. Reducer: type (ASA or JIS etc.) and external and internal diameters. Bolt: diameter and number, also diameter of pitch circle. Pumping capacity. Ship's draft and ETA, to be received by 0900 hrs. every morning continued three days prior to day of arrival. Water requirement (because of necessity of pumping-up tank for preparation).

There are two dolphins for vessels of 100,000-ton class and 70,000-ton class. Draft restricted to 10·80 metres (35 ft. 7 in.).

DENSITY: 1.025.

FRESH WATER: 50 metric tons per hour from shore pipe, 50% additional for service between 0600–0800 hrs, 1700–2200 hrs, and during rainy and rough weather, also on Sundays and holiday. 100% additional for service between 2200–0600 hrs.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

FIRE PRECAUTIONS: No special precautions, but water curtain made alongside dolphin in case, and there is an extinguisher-boat (15 gross tons, and airfoam system).

DEVELOPMENT: Port under construction. When completed, total length of wharf will be about 17 kilometres for about thirty big industries such as iron and steel works, oil refinery and chemical works, foodstuff and feedstuff industries, etc.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

IDENTIFICATION CARDS: Not required.

CONSULS: None.

REPAIRS: Arranged from Tokyo/Yokohama.

AIRPORT: Presently under construction, about 60 kilometres away,

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police tel. 110; Ambulance/Fire tel. 119.

TELEPHONES: Not available for placing on board.

SERVICES: No equipment nor facilities, but compass adjusting and others arrangeable from Yokohama.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Kashima Port Development Office.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
5 Crew Lists including Passport Nos.
5 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: No particular regulations for navigating in Kagoshima Bay. Suggest enter Bay on course close to Osumi Peninsula. Three Light Beacons South of oil piers for Ship's approaching and manouvering. Bay pilots not provided but mooring master provided for assistance to Master for berthing without charge. No VHF available for ship–shore communication.

ANCHORAGES: Anchorage area ranges in depth from 30 to 60 metres. Holding ground in these areas only fair; recommended vessels lie to long scope of chain. Locally tide rise approximately 3 metres in springs and 1·5 metres neaps. Maximum tide currents Northerly 0·32 knot, Southerly 0·47 knot. Ample anchorage and manoeuvring area North-east of terminal.

RESTRICTIONS: Night entry and departure permitted subject to weather conditions.

MAX. SIZE: Max. draft at No. 2 berth – 18 m acceptable 30,000 – 180,000 d/w vessels. Max. draft at No. 3 berth – 28 m acceptable 30,000 – 450,000 d/w vessels.

PRATIQUE: See Kagoshima.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Mooring and unmooring assistance provided by two 4,200 h.p. CPP tugs and two 3,000 h.p. VSP tugs regularly stationed.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

MEDICAL: Advance notice required if arriving at weekend.

TANKERS: Central Terminal Station (C.T.S.) No. 2 berth used for loading only. Loading capacity 10,000 Kl/H. Depth at berth 18 m. Loading arms ASA, 12 in. 5 series. Combination use with unloading dirty ballast. Maximum pressure 15 kg/cm^2.

No. 3 berth used for loading and unloading. Unloading capacity 20,000 Kl/H. Loading capacity 10,000 Kl/H. Depth at berth 28 m. Loading arms ASA, 16 in. 6 series. Combination use with unloading dirty ballast. Maximum pressure 15 Kg/cm^2.

DENSITY: 1.025.

FRESH WATER: Water obtainable at berth on oil piers at rate of 40 tons per hour.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

FIRE PRECAUTIONS: Very strict Safety Regulations.

Disregard of regulations will result in stopping all loading or unloading operations and the vessel being ordered off berth for appropriate action to be taken.

DEVELOPMENTS: Construction of further oil-tank space and improved dolphin pier will enable port to accommodate vessels over 450,000 tons by 1973.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Available Moji, Sasebo & Nagasaki.

DRY DOCKS: None.

REPATRIATION: Possible.

AIRPORT: Distance from airport about half an hour by car. ANA and Towa airlines serve daily.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police station tel. 110; Fire brigade

station is located at terminal and Ambulance available at that station.
TELEPHONE: Telephone placed on board at Terminal free of charge for inter-office communication.
SERVICES: All services available.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extensions possible if ship stays longer.
AUTHORITY: Nippon Oil C.T.S.

AGENTS: Sub-agents of Dodwell & Co. Ltd. Tokyo. Tokyo Tanker Marine Service Co. Ltd., 2856–5, Uenohamer Aza Nakamyo, Kiire-cho, Ibusuki, Kagoshima Pref. Tel. Kiire (099345) 161. Telegraphic "Tokmarine Ibusuki".

KIKUMA: 34.02 N. 132.50 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.

3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot-stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot-stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel). Position 33° 13′ E. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot-station.

3. Mesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N., 131° 03′ 12″ E.

ANCHORAGE: Lat. 34° 03′ N. Long. 132° 51′ E. Depth of water: 15–30 metres. Anchorage located about 350 metres off beach. Holding ground good and Port faces Iyo-Nada and located Bungo channel. Current at berth and off shore very strong. During winter months strong North-westerly wind prevails.
RESTRICTIONS: Mooring and unmooring daytime only and to be carried out on flood tide.
MAX. SIZE: See "Tankers".
PRATIQUE: Closed port. Vessels should obtain pratique at Matsuyama. If Kikuma is first port of call in Japan, customs formalities will be carried out by Imabari Branch Customs Kikuma Port Guard Office.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Join vessel at sea anchorage, always using tugs line without charge. Two to four tugs are required for berthing, depending on size of vessel. Three tugs are normally used for unberthing.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
MEDICAL: No advance notice required unless urgent.
TANKERS: *Taiyo Oil Co. Terminal.* Two tanker berths available in approximate position 34° 03′ N. 132° 51′ E.

1. 50,000 dwt berth. Tankers moor to four buoys, two forward, two aft, also using starboard anchor. Depth of water 49 ft. Maximum draft allowed 43 ft. salt water.

2. 100,000 dwt berth. Tankers moor to five buoys, two forward, three aft, also using starboard anchor. Depth of water 59 ft. Maximum draft allowed 51 ft. salt water.

DENSITY: Anchorage 1.015. Berth 1.015.
FRESH WATER: Fresh water not available but usually brought by barge from Onomichi (about 4 hrs. run to Kikuma). Rate of delivery 80 tons to 200 tons per hour dependent on barge.
FUEL: Can only be supplied by barge from Hanshin and Kanmon area, provided five days notice is given. All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from nearest bunker stock ports at maximum 7 days prior notice.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: No consuls. The nearest Consulates in Kobe.
REPAIRS: Only minor repairs.
REPATRIATION: Possible. Nearest immigration office situated at Matsuyama.
AIRPORT: Nearest Matsuyama and Takamatsu.
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119.
TELEPHONES: No facilities for placing telephones on board.
GENERAL: As this port is a closed port, the undermentioned procedures required: In conformity with regulations vessel required to obtain special permission to enter from Shikoku Maritime Bureau.

Customs request vessel call at Kikuma to obtain special permission for entering at preceding port, by paying the charge at the same rate of tonnage dues prior to arrival; the above procedures will be taken by Agent.

No quarantine available, the nearest quarantine station is located at Matsuyama.

No Immigration office at this port (coming from Matsuyama).
SERVICES: See "Kobe".
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENT: See "Matsuyama".

KIMITSU (Kisarazu): 35.23 N. 139.55 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
4 Crew Lists including Passport Nos.
4 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Not compulsory but necessary. Application to be made to Yokohama Pilot Office through Agent. Pilot boards at Kisarazu Port Quarantine Anchorage; available only daytime. If vessel requires Pilot at Kannon Saki through to Kimitsu (Kisarazu Port) 24 hours previous notice required. In this case. Pilot boards at Kannon Saki position only during day and weather permitting. Conditionally, pratique to be obtained at Kisarazu Port in day-time.

Yokosuka Pilot. For vessel taking Pilot at entrance of Tokyo Bay through Kimitsu (Kisarazu Port), apply to Yokosuka Pilot Office (Yokosuka Licensed Pilot Association, tel. Yokosuka (068)–61–6181) whose Pilot boards at position Uraga Channel No. 1 light buoy (Kannon Saki Lighthouse 150 degrees 3·5 miles).

Yokosuka Pilot service available 24 hours day and night. Application required 24 hours prior to arrival, and notify any change one and half hours before arrival (Pilot leaves Yokosuka one and half hours before vessel's arrival).
ANCHORAGE: Refer to Japanese Chart No. 1062 (middle part of Tokyo Bay). Kisarazu Quarantine Anchorage boundary:
Point A 35° 24′ 6″ N. 139° 49′ 30″ E.
Point B, 85° direction from A, 3500 metres.
Point C, 355° direction from B, 1500 metres.
Point D, 265° direction from C, 3500 metres.
Position usually used: 35° 24·5′ N. 139° 50·5′ E.
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers. health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: 2 Tug-boats belonging to Kimitsu Tug Boat Station: "Kimitsu Maru" 2,400 h.p. "Kiyomi Maru" 2,300 h.p. 11 Tug Boats listed belonging to Yokohama Tug Boat Station: "Asama Maru" 3,450 h.p. "Fuji Maru" 2,350 h.p. "Akagi Maru" 2,300 h.p. "Katsura Maru" 2,300 h.p. "Haruna Maru" 2,200 h.p. "Hakone Maru" 2,070 h.p. "Hitach Maru" 2,300 h.p. "Kongo Maru" 1,800 h.p. "Sugita Maru" 1,440 h.p. "Honmoko Maru" 1,440 h.p. "Sanyo Maru" 900 h.p. Tug boats lines used free of charge.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
Discharging Wharf, iron ore, coal:

No. 22 Maximum draft 16 metres. Length of wharf 304 metres.

No. 21 Maximum draft 16 metres. Length of wharf 350 metres. Unloaders at No. 22 and No. 21 3 units each capacity 1,500 tons per hour. 1 unit, capacity 1800 tons per hour.
Loading Wharf, Steel Products:

No. 7 Maximum safe draft 11 metres. Length of Wharf 240 metres. Loaders: 1 unit 30 tons 1 unit 20 tons.

No. 8 Length of Wharf 260 metres. Loaders: 2 units each capacity 30 tons.

(Nippon Steel Corporation Kimitsu Works). One berth for discharging iron ore and coal capable for larger type vessels. One Berth

for discharging lime stone planned, suitable for 10,000 d/w. Three Berths (No. 9, No. 10 and No. 11) for 30,000 d/w. Length of wharf 280 metres; maximum safe draft 11 metres. Two Berths loading spiral pipe. Length of wharf each 240 metres. Maximum safe draft 11 metres. Capable for 30,000 d/w.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: Only coastal tankers.

DENSITY: 1.02.

FRESH WATER: Available from shore line. Rate of delivery 40–50 per hour.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry our opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Minor repairs only.

REPATRIATION: Possible.

AIRPORT: Haneda, Tokyo.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Kisarazu Police Station tel. 0478–22–2151; Kisarazu Fire Brigade and Fire Station tel. 0478–22–2281.

TELEPHONES: No telephone installation direct to vessels alongside wharf.

SERVICES: None. Special services are called from Yokohama and Toyko.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENT: Sub-agents of Dodwell & Co. Ltd. Tokyo. Chiba Kaiun Sangyo Co. Ltd., Kimitsu Office, c/o Kaiun Centre Kimitsu Works of Nippon Steel Corporation, 1054, Hitomi, Kimitsu-shi, Chiba Pref. Tel. Kimitsu (04785) 2–0800. Telegraphic "Chibamarine Kisarazu".

KINUURA: 34.50 N. 136.56 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: When Pilot required, cable Agent at least one day before arrival with ETA. Pilot station located 34° 40′ N. 136° 58′ E. If ETA changes cable "Handakoun Handa Aichi" who pass messages to Pilot. Vessels anchor to await Pilot at above position. No VHF communication available. Pilot boats have no communication system.

ANCHORAGE: Kinuura anchorage located 34° 49′ N. 136° 57′ E. Depth of anchorage: Outside high tide bank about 38–39 ft., inside high tide bank about 32–33 ft.

RESTRICTIONS: Entry restricted only by draft; no other restrictions.

MAX. SIZE: Depth at Chubu Nihon Grain Centre, 12 metres. At other berths, 10 metres.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: No tug required when vessels enter anchorage, only alongside wharves.

Pilot Boats – "Yahagi Maru" 1,600 h.p., "Shiomi Maru" 1,300 h.p. Tugs standby near wharves.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: About 1.023–1.027.

FRESH WATER: Available, but only one water barge – capacity 50 tons. When vessels alongside Public Wharves, water can be taken from shore. Delivery rate: 50 tons per hour but if more than 50 tons reqd. barge returns to shore to load, therefore 1 trip takes about 3 hours.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: None.

AIRPORT: None.

TIME: GMT plus 9. No alterations made to clocks during year.

HOLIDAYS: 20th July.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance/Fire 109.

TELEPHONES: No telephones available to place on board.

SERVICES: None.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Kinuvra Port Office.

AGENTS: Sub-agents of Dodwell & Co. Ltd. Tokyo. Nishioka Maritime Co. Ltd., Chikko Office, Heiwa Bldg., 3–1, Takasago-machi, Minato-Ku, Nagoya. Tel. Nagoya (052) 651–8221. Domestic Telex 446–3148. Telegraphic "Trampsnishioka Nagoya."

KIN WAN, Okinawa: 26.22 N. 127.58 E.

Gulf Asian Terminal, Heianza Island.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists, including passport numbers.
3 Passenger Lists.
1 Stores List.
1 Declaration of crew baggage, i.e. tobacco, wines/spirits, camera, wrist-watch, radio, fire arms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare inward/outward Declaration, 1 Cargo Manifest, Cargo Manifest in Transit using specific forms. Therefore ship's agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: If at sea and en route to the Gulf Asian Terminals Inc. at Okinawa a vessel's ETA should be communicated to his Agents at Okinawa, 72, 48, and 24 hours prior to arrival, ETAs should be confirmed 12 hours before expected arrival, amendments should be communicated when known. The Agents will in turn pass received ETAs on to the Terminal. A Berthing Master will board vessel off the berth.

Masters of calling vessels are reminded of their obligation to comply with statutory rules and are requested to comply with International recommendations concerning pilot ladders. If the ladder is not safe, the Berthing Master may refuse to board and thus cause unnecessary delay to the ship.

ANCHORAGE: For the purpose of Traffic Separation and Control, the approach to Kinwan Port is divided by a centre line joining the following positions:

1. 26° 26′ 00″ N., 128° 02′ 00″ E.
2. 26° 25′ 00″ N., 128° 00′ 00″ E.
3. 26° 23′ 00″ N., 127° 58′ 00″ E.

Vessels entering or leaving the port should keep to their own starboard side of this line. Two anchorages have been designated, the first for vessels awaiting a berth at the Sea Island or carrying out repairs, and the second for those vessels awaiting a berth at the Products Pier on the North shore of Heianza Jima. The limits of these anchorages are as follows:

Sea Berth Anchorage: Between the parallels of 26° 23′ N., and 26° 24′ N., and between the meridians of 127° 57′ E., and 127° 58′ E.

Products Anchorage: The area bounded by a line joining the following positions:

1. 26° 22′ 00″ N., 127° 56′ 29″ E.
2. 26° 22′ 13″ N., 127° 56′ 33″ E. (i.e. No. 12 Buoy).
3. 26° 22′ 00″ N., 127° 57′ 19″ E.
4. 26° 21′ 51″ N., 127° 57′ 05″ E.

The holding ground is good in both anchorages, but depths in the first vary between 22 and 25 fathoms; it is therefore recommended that at least one shackle of chain be walked back on the windlass before letting go the anchor.

Depths in the second anchorage vary between 10 and 14 fathoms.

Prohibited Anchorage: Owing to the existence of underwater pipe-lines, telephone cables and obstructions, anchoring is prohibited anywhere South-East of a line joining the following two positions:

1. 26° 22′ 31″ N., 127° 58′ 08″ E. (i.e. the North-East dolphin of the Sea Island).
2. 26° 21′ 37″ N., 127° 56′ 44″ E. (i.e. the North-East dolphin of No. 3 berth on the Products Pier).

MAX. SIZE: Five berths are available for calling tankers. No. 1 berth can accommodate vessels up to 500,000 dwt, and No. 2 berth vessels up to 150,000 dwt. These two berths are situated at the off-shore platform. Berths No. 3, No. 4, No. 5 are situated at the product dock. Berth No. 3, least depth 51 ft.; berth No. 4, least depth 38 ft.; and berth No. 5, least depth 33 ft.

HEALTH: At first port of call in Japan, vessel may obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset, and Captain to show all vaccination cards and De-ratting Exemption Certificate. In case vessel arrives from cholera-infected zone within 10 days, Captain must advise crew and passengers' health condition to Quarantine Officer through ship's Agent prior to arrival, and close all soil pipes before entering port.

RADIO: Station "Heianza Control" located at the Terminal is equipped with VHF radio with following channels: 12, 13, 14, and 16. A continuous watch is kept on Channel 16, and as soon as contact has been established with an arriving vessel the Master will be informed as regards berthing conditions.

TUGS: Four 2,500 h.p. tugboats are stationed at the Terminal. The Berthing Master in consultation with the Master, will decide the number of tugs required for each berthing operation and as stand-by tugs during the vessel's stay in port.

BERTHING: The Terminal is situated to the West of Takabanare-Shima, which is located at Kin Wan Bay on the East Coast of Okinawa. Vessels are berthed alongside an island-type off-shore loading platform constructed in a depth of 100 ft. of water about 2,000 ft. from the shore.

The terminal is in contact with weather prediction services and will when adverse conditions are expected stop cargo operations, disconnect loading arms and vacate the berths.

Maximum range of tides is 8–9 ft. Strength of current is negligible.

LOADING: The Terminal representative will discuss the loading-discharging operation with the Master or his delegate, acquaint him with up-to-date information concerning the cargo, and verify that the vessel is ready in all respects for the loading-discharging operation.

The berths are equipped with quick release, Chicksan loading arms, as follows:

No. 1 Berth	12″	Bunker/HFO	North
	16″	Products	
	16″	Crude/HFO	
	16″	Crude/Ballast	
	16″	Crude/Ballast	
	16″	Crude	
	16″	Ballast	
No. 2 Berth	12″	Bunker/HFO	North
	12″	Products	
	16″	Crude/HFO	
	16″	Crude/Ballast	
	16″	Crude/Ballast	
	16″	Crude/Ballast	
	16″	Crude	

No. 3 berth equipped with mechanical loading arms: Product dock 10″ Ballast.

10″ Naphtha and JP4 (or Kerosene).
10″ Naphtha and JP4 (or Kerosene).
12″ Ballast, and Low Sulphur Fuel.
12″ Low Sulphur Fuel.
Flexible hose of 4″ for bunker fuel supply.

No. 4 berth
10″ Ballast.

Product Dock
10″ JP4 (or Naphtha) and Jet A and Kerosene.
10″ JP4 (or Naphtha) and Jet A and Kerosene.
10″ Automotive or Marine Diesel.
Flexible hose of 4″ for bunker fuel supply.

No. 5 berth
Flexible hoses.

Product Dock
6″ Automotive or Marine diesel, and Kerosene.
4″ Vapour return hose.
6″ LPG/Propane/Butane hose.
6″ Mechanical arm for Sulphur.
6″ Flexible hose for Ballast.
4″ Flexible hose for Bunker Fuel.

In addition to the above tanker berths, a dry-cargo ship berth is available. This berth is 110 metres in length and has a depth of 20 ft. at low water.

During cargo transfer or ballast operation all vessels shall show signal flag "B" during the day, and a red light during the night.

Transfer Operation shall not be started, or if started shall be discontinued by either the duty officer of the vessel or the Terminal supervisor, when any of the following conditions come to his attention:

(*a*) During severe electrical storms.
(*b*) If a fire occurs on the pier or on the vessel.
(*c*) If there is not sufficient competent personnel aboard the vessel or on the pier to safely handle cargo operation in progress.
(*d*) Should any condition develop which represents a hazard to the vessel or Terminal installation.

FRESH WATER: There are no facilities for supplying fresh water, air, or steam to calling vessels.

FUEL: Available from the berth.

REPAIRS: Engine repairs must not be made alongside if they will prevent prompt sailing of the vessel in an emergency or upon completion of cargo transfer. Work on deck or hull that could cause sparks is not allowed.

MEDICAL: Assistance available. Arranged by Agent.

BALLAST: All ballast to be pumped ashore. Disposal of dirty ballast water over the side is strictly prohibited by the authorities and any pollution of the sea will result in heavy claims and finest The Terminal will, in case of an oil spill, take such steps as may by deemed necessary to fight the pollution before it spreads. If the spill is due to faulty equipment or materials on the vessel or to negligency on the part of ship's personnel, the Terminal shall be indemnified for any expenses incurred in connection with the preventive action taken.

No ballast is to be taken from the Bay unless required for the ship's clean permanent ballast system. Ballast for cargo tanks will be supplied by the terminal.

OIL POLLUTION: In case of an oil spill aboard a vessel alongside, the Berthing Master is authorized to take any such steps he deems necessary to prevent spreading of the pollution, recovery or emulsification of the spilled oil and eliminate fire danger. "Heianza Control" and pier personnel are directed to co-operate fully with the Berthing Master. If Berthing Master is unavailable or unable to communicate, "Heianza Control" will take charge.

Gas-freeing is not allowed on tankships alongside the pier.

FIRE PRECAUTIONS: In case of a fire aboard a vessel alongside the pier the following sequence of procedure should be adhered to:

(*a*) "Heianza Control" to be informed immediately.
(*b*) All cargo operations to cease forthwith.
(*c*) MOVs and gate valves on loading arms, nitrogen and battery limit valves to be closed as soon as possible.
(*d*) Dock personnel to stand-by for disconnecting loading arms, unberthing or fire-fighting in accordance with instructions issued by the Berthing Master or "Heianza Control."

During an emergency situation on board a vessel alongside, the Berthing Master will be in charge of organizing the preliminary fire-fighting assisted by "Heianza Control". He is to make use of all available means at his disposal, such as tugboats, launches, personnel, Terminal equipment and other facilities to assist the vessel and protect lives and Terminal installations. Should the Berthing Master be unavailable or unable to communicate, "Heianza Control" will direct the preliminary fire-fighting.

GANGWAY: The Terminal will furnish accommodation ladder, but will require ship's personnel to assist in positioning and securing the ladder. Only in instances when the ship's superstructure prevents the use of the Terminal's ladder should arrangements be made to use the ship's gangway.

GENERAL: Smoking and use of naked lights is strictly prohibited on board vessels alongside the berths, except in those enclosed spaces aboard ship specifically designated by the Master as "Smoking Areas".

Fire wires of steel must be hanging over the side of the offside bow and quarter whilst alongside to enable tugs to connect readily in an emergency situation. The towing eyes should be maintained at water level.

Boiler tubes must not be blown whilst vessel is alongside and every precaution must be taken to prevent sparks and soot particles escaping from the funnel.

Mooring of boats or craft with mechanical propulsion alongside a vessel loading/discharging crude oil or in the process of ballasting, is not allowed, unless special permission has been given by the Terminal.

SHORE LEAVE: For reason of safety the Terminal and the Off-Shore Platform are restricted areas. However, ship's personnel and visitors to ships are permitted to disembark and embark via the dolphins, which are also the personnel landing areas. Loitering at the loading platform will not be permitted.

Unauthorized or apparently intoxicated or disorderly persons shall be prohibited from entering the pier and the Terminal.

TIME: GMT plus 9 hours all year round.

AUTHORITY: Gulf Asian Terminals, Inc., Kinwan Port, Okinawa.

KOBE: 34.41 N. 135.10 E.

PILOTAGE: The Hanshin Pilot Association, Umetate-chisaki, Kaigan-dori, Ikuta-ku, Kobe. Tel. 39–5032. Telegraphic address: "Pilot".

When ship arrives daylight, application should be made not later than 1800 of previous day. When application made on same day as ship arrives, ETA should be advised at least two hours earlier.

R/T used between pilot office and pilot boat. Frequency: 153·49 Mc. Output: Key station 50 W.; Mobile Station 5–10 W. As neither pilot office not pilot boat equipped with International VHF apparatus, no arriving ship can exchange direct communication with them.

Six pilot boats available. Gross tonnage 15 tons, speed 15 knots. (maximum 20 knots). Ship requiring Pilot makes request to signal station by flying International flat "G" in day-time, or sending by lamp at night. Pilot taken at quarantine anchorage at Wada-misaki Point. Pilot boats usually located at pier in front of pilot's office. Special point fixed for Pilot to board in bad weather. The ship awaits a pilot either at or near quarantine anchorage at Wada-misaki Point or outside breakwater.

When moored to a mooring buoy, chain cable should be used. Chain shackles must be ready. Pilot boards vessel for mooring if ship arrives before 2230 hours and for unmooring any time except following berths:

	Mooring	*Unmooring*
Kobe Seiko Pier (Steel Mill)	before sunset	Up to 2000 hours
Toyo Menka Pier (Silo Berth)	,, ,,	No restriction
Showa Sangyo Pier (Silo Berth)	,, ,,	,, ,,
Mitsubishi Shoji Pier (Tanker Berth)	,, ,,	,, ,,
Shell Buoy (Tanker Berth)	,, ,, but subject to tide being available.	Before sunset as a rule but possibly up to 2200 hrs. depending on weather, congestion etc.
MKS Buoy (Tanker berth)	,, ,,	,,
Nissho Buoy (Tanker berth)	,, ,,	,,

ANCHORAGES: Quarantine anchorage: Latitude 34° 38′ N; 34° 38′.6 N. Longitude 135° 10′ E; 135° 11′ E.

Section of Port	*Number of Anchorages*	*Depth of Water*
3rd	8 berths	12 m.–15 m.
4th	4 berths	11 m.–15 m.
5th	28 berths	11 m.–15 m.
6th	6 berths	13 m.–15 m.

All vessels requiring anchorage for awaiting berth, repairs, bunkering etc., must obtain anchoring position from Harbour Master except following cases: 1. Vessels coming from foreign ports and anchoring at Quarantine Anchorage for inspection. 2. Vessels staying in Quarantine Anchorage not longer than 24 hours after obtaining pratique.

RESTRICTIONS: Quarantine. When ship arrives outside break water after sunset, it is inspected for quarantine purposes next day.

Entry at night. When ship arrives outside breakwater after 2130 it is not permitted to enter.

Hazardous cargo. Depending on kind and quantity of hazardous cargo carried, ship is ordered to berth alongside a pier, at a buoy or outside breakwaters.

Tide. 3 sea berths in the 3rd section can be used only when tide running towards the West.

Draft. Each berth limited for draft.

MAX. SIZE: (Dry Cargoes)

Berth	*Permissible LOA*	*Safe Draft*	*Cargo Handled*	*Remarks*
Buoy 12 (Public)	210 m.	10.3 m.	Any cargo	
Pier 7-B (Public)	192 m.	9.9 m.	Grain	Vessel with Government cargo has priority to use this berth.
M'bishi D Buoy (Private)	190 m.	10.3 m.	Grain/ Scrap/ general	This buoy can be used only when there is no repair vessel.
Tomen Silo Berth (Private)	208 m.	11.3 m.	Grain	
Showa Sangyo Silo Berth (Private)	200 m.	11.3 m.	Grain	
Kobe Seiko Pier-3 (Private)	300 m.	11.0 m.	Coal/ iron ore	

(Tankers)

Name of Berth	*d.w.t. (approx.)*	*Overall length*	*Depth of water*	*Mooring – Pipeline – discharging rate*
Shell. Bunkers ex-barge only. No slop discharge facilities.	70,000	250 m.	15 m. (48′03″)	To 4 buoys. Two 16-in. submarine pipes – deck hose 10 in. and 12 in. Capacity 2,000 KL/H. (mooring possible when tide runs towards West.)
MKS. Bunkers ex-barge only.	55,000	235 m. (breadth 33 m).	13.5 m.	To 3 buoys. One 12-in. submarine pipe. 7 joints (10 in.) Capacity 1,000 KL/H (mooring possible when tide runs towards West)
Nissho. Bunkers ex-barge only.	45,000	230 m.	11.5 m.	To 2 buoys. One 12-in. pipe. Capacity 600 KL/H. (mooring possible when tide runs towards West)
Mitsubishi Shoji (for L.P.G. tankers). Bunkers available ex-wharf; ex-barge at anchorage. NO slop discharge facilities.	50,000	240 m.	12 m.	Alongside Pier. 1,000 ton/H. (regardless of tide) 14 in. pipe. Deck hose 2×6 in.

PRATIQUE: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health conditions on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:

Maritime Declaration of Health.
Crew List.
Passenger List.

The following vessels will not be able to get radio pratique:

A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or any suspected case of infectious disease, within 15 days of arrival.

If crew or passengers on board do not possess Valid Smallpox Vaccination Certificates.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

RADIO: Recommend Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West-bound vessel to Choshi, and North-bound to Nagasaki Radios respectively.

TUGS: Meet vessel at entrance of fairway but if Master/Pilot so requests, service commences from anchorage. Tug's lines used without extra charge.
BERTHING: Chains must be used in mooring to a buoy. Ship must not drop anchor near a buoy when it is moored to one. Ship brought head in alongside pier except in special cases. Some berths impossible to reach after sunset. Example: dolphin berths. This is why ships need to arrive outside breakwater before sunset.

		2	Nos. 31, 34

BULK HANDLING FACILITIES: Hanshin Silo Company Berth, 12·50 metres depth alongside available for vessels up to 50,000 tons dwt. Discharge effected by two pneumatic unloaders with capacity 400 tons per hour per unit.
Kobe Silo Berth, length 752 ft., depth alongside 41 ft. Two mobile discharging units each with capacity of 500 tons per hour.
Kohan Silo Berth, length 214 metres, depth alongside 12·5 metres, equipped with two discharging units which can be used for grain, sugar, or general cargo, also one pneumatic unloader, with capacity 1,500 tons per hour/per unit.
In the current development programme a total of seven container berths are to be provided at Kobe.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep Agent advised ETA. If stevedores cannot commence loading/unloading at time notified by Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: Agent required give information when patient to be hospitalised or needs medical attention. All medical facilities in port (Kobe City) can be used. When report made by means of VHF or wireless, necessary arrangements are made at once for urgent treatment of patient.
TANKERS: See "Max. Size".
TIDE: Mean height of tide 1·030 metres. Some of tanker berths in West part of port affected by tide. Currents less than one knot inside harbour.
DENSITY: Winter: 1·023–1·026. Summer: 1·018–1·022.
FRESH WATER: Supplied from the quays at rates of 40 to 50 tons per hour. Four water barges available, largest with capacity 325 cubic metres, can supply vessels at rates up to 300 tons per hour.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. See also "Max. Size – Tankers".
FIRE PRECAUTIONS: LPG tankers instructed by Maritime Safety Headquarters to strictly observe safety rules. Example: checking on what is carried by those who go aboard; banning ship's stores to be loaded on to ship which is working.
DEVELOPMENTS: *Port Island:* Expected to be complete in 1975, when seven container berths (depth 12 metres, length 2,600 metres) and 21 liner berths (depth 12 metres, length 4,200 metres) will be available.
Rokko Island: Further development planned providing a further 31 berths.
WATCHMEN: Not specially required unless passengers or valuable cargo aboard.
OPENING/CLOSING HATCHES: By Stevedores. Charges for assistance.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnage. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.
CUSTOMS ALLOWANCES: Tobacco (per passenger or crew member). Temporary shore-leave up to 50 cigarettes (duty free); Disembarkation up to 200 cigatettes (duty free). Maximum allowable (only in case of disembarkation) up to 800 cigarettes duty free (however, 600 gigarettes – taxable).
Wines and/or Spirits: Crew member: When the ship at sea for more than one month, up to 6 bottles (one bottle – duty free); less than one month up to 6 bottles (no duty free). Passengers: When a passenger travels for less than a fortnight up to 12 bottles (one bottle – duty free); more than a fortnight up to 12 bottles (up to 3 bottles – duty free).
CONSULS: The following countries are represented by Consuls at Kobe:

Argentina	Ecuador	Norway
Austria	Ethiopia	Panama
Brazil	France	Pakistan
Britain	Finland	Philippilnes
Belgium	Germany	Portuga
Central Africa	Greece	Sweden
Chile	India	Spain
China	Indonesia	Thailand
Costa Rica	Korea	Turkey
Denmark	Malta	Uruguay
El Salvador	Mexico	U.S.A.
	Netherlands	

REPAIRS: All repairs possible.

AIRPORT: Osaka International Airport. Distance from Airport about 1·5 hours by car.

Domestic: Following regular airlines, Japan Air Lines, All Nippon Air Lines, Nihon Kokunai Koku, Toa Koku.

International: For Far East: Japan Air Lines 31 flights per a week, Thai International Air Lines 10 flights per a week, Cathay Pacific Air Lines 8 flights per a week, China Air Lines 11 flights per a week, Korean Air Lines 12 flights per a week, North-West Air Lines 7 flights per a week, Air Vietnam 2 flights per a week.

For Europe: Lufthansa 1 flight per a week, BOAC 3 flights per a week, Air France 2 flights per a week.

For United States: Japan Air Lines 12 flights per week, Pan American 3 flights per week.

TIME: Japan Standard Time set at the 135th degree of East longitude GMT plus 9 hours. No alteration to clocks throughout year.

HOLIDAYS: On two Sundays of each month, no cargo work arranged. In special cases, daytime cargo handling operation possible on Sundays and holidays.

POLICE/AMBULANCE/FIRE: *Police* 110 Water Police Station tel. 33–2351, 33–2354, Ikuta Police Station 33–0044, Fukiai Police Station 23–4441, Hyogo Police Station 55–0051.

Ambulance: 119 Ikuta Fire Department 39–4994.

Fire: 119 Water Fire Department 33–9951, Ikuta Fire Department 33–4994, Fukaia Fire Department 29–0401, Hyogo Fire Department 56–6141.

TELEPHONES: Installation charge on board vessel lying alongside pier. Installation on board vessel which is lying at buoy or anchorage.

GENERAL: When typhoon approaching, Port Captain requires ships to proceed outside breakwater.

SHORE LEAVE: Crew members free to go ashore.

DELAYS: 1. Weather condition (where strong wind prevents ships entering port). 2. Tide (berths in West part of port). 3. Berths where no ships permitted berth alongside at night. 4. Where a quarantine officer or Pilot being awaited. 5. Shortage of gangs, weather.

AUTHORITY: Port Management Body: City Government of Kobe, Tel. 331–8181.

AGENT: Dodwell Tramp Agencies, PO Box 557 Kobe Port, Crescent Building, 72, Kyomachi, Ikuta-Ku, Kobe. Tel. (078) 39–8031. Telegraphic "Dodwell Kobe." International Telex KB-8826.

KOKURA: 33.54 N. 130.53 E. (See "Kanmon-Ko")

Kokura situated between Moji and Tobata. On the East is contiguous to Moji port, on the West to Tobata port and on the North it opens to the Kanmon Straits.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot-stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot-stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot-station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGE: Anchorage seldom used. Depth 10 m. Capacity 13,000 tons × 2.

Anchorage located outside leading channel to port, near fairway of Kanmon Straits. Ship can stay at this anchorage only upon payment of compensation to fishery guild. When winds prevail, not safe for ship to stay there.

RESTRICTIONS: Vessel enters port only within one hour before and after slack tide in day-time. No night departure.

MAX. SIZE: 18,000 tons gross, 10 metres draft.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: See "Moji".

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

Wharf	*Length*	*Depth*
Sunatsu	300 m.	8·4 m.
Sumitomo Metal East	210 m.	10·0 m.
Hiagari, 3, 4, 5.		12·0 m.
Kanematsu Oil Pier	210 m.	6·5 m.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

(*a*) Maximum 6 gangs are available.
Stevedores, regular employees 116, temporary labourers 109. Longshoremen 459.

(*b*) Lighters: Kokura Marine Transportation Co., lighters 25, tonnage 8,900 tons.

(*c*) Shore crane:

No.	*Capacity*		*Location*	*Owners*
2	10 tons		Sunatsu wharf	Sumitomo Metal
1	6 tons		,,	Kokura Marine
3	12 tons	outreach 18 m.	Sumitomo Metal Wharf	Sumitomo Metal

(*d*) Floating crane: arrangeable from Moji.

(*e*) Average performance of loading/discharging:
Discharging: Iron ore 40/50 tons per hr./gang/hatch (by ship's gears). 200 tons per hr./gang/hatch (by shore crane). Coal 40/50 tons per hr./gang/hatch (by ship's gears). 100/150 tons per hr./gang/hatch (by shore cranes). Scrap steel, pressed 20 tons per hr./gang/hatch (by ship's gears). ordinary 10 tons per hr./gang/hatch (by ship's gears). bulky 5 tons per hr./gang/hatch (by ship's gears). Loading: Steel under 20′ long 25–30 tons per hr./gang/hatch. over 20′ long 15–20 tons per hr./gang/hatch.

(*f*) 2 shifts: 0800 to 1700 hrs. and 1700 to 0700 hrs. Normal working hours: 0800 to 1700 hrs. Refer to Moji for further information.

TANKERS: Also see "Berthing". At Kanematsu-Goshi Oil Refinery 8 in. diameter shore pipe line. No slop facilities available.

DENSITY: 1025.

FRESH WATER: From hydrants at Sunatsu and Sumitomo Metal wharves, the rate of delivery per hour: 30 tons per hydrant. Also delivered by barge.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to Show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: See "Moji".

AIRPORT: All Nippon Airwsys, Kitakyushu, about 30 minutes by taxi from Kokura station to airport. Japan Air Lines, Fukuoka, and Cathay Pacific Air Lines, Fukuoka, about 1 and half hours by train and taxi from Kokura station to airport.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 56–7171; Ambulance 119; Fire 92–4831.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Kita Kyushu Port Authority.

AGENT: Sub-agents of Dodwell & Co. Ltd., Holme Ringer & Co. Ltd., PO Box 72, 9–9, Mirato-medii, Moji-Ku, Kitakyushu. Tel. Moji (093) 33–1311/8. Telegraphic "Ringer Moji".

KOMATSUSHIMA: 34.00 N. 134.36 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory. No authorised licensed Pilot available but non-licensed Pilot available when required.

ANCHORAGES: Situated at Western corner of Komatsushima bay and port protected by three breakwaters, North, East and South covering 396,700 sq. metres. Depths of water at anchorages as follows:

(*a*) Inside breakwater 8/10 metres, (*b*) Outside breakwater 9/10 metres, (*c*) Wharf 9·50 metres.

RESTRICTIONS: Vessel must get permission and instructions where to anchor from Port Captain before arrival. Wharf and Inner harbour: entering and sailing usually only during day-time regardless tide and current. Outer harbour: Entry and sailing anytime.

MAX. SIZE: Anchorage inside breakwater: length no limit, breadth no limit, draft 8·60 metres.

Anchorage outside breakwater: length no limit, breadth no limit, draft 8·60 metres.

Wharf. (Suitable 10,000 dwt). length 170 metres, breadth no limit, depth 9 metres.

HEALTH: Pratique to be obtained at Shimotsu prior arrival Komatsushima. At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Wharf and inner harbour: join vessel at sea anchorage, always using tug's line without charge. Outer harbour: no tug required in normal conditions.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: 1015.

FRESH WATER: Alongside berth: Can be supplied by shore line with capacity of 25 tons per hour.

Anchorage: Can be supplied by 50-ton barge with capacity of 50 tons per hours (but as strong winds prevail during winter months no water supplied at anchorage outside breakwater).

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None. Nearest consulates in Osaka.

REPAIRS: Only minor repairs.

DRY DOCKS: No dry dock. Nearest at Hitachi Shipbuilding & Engineering Co. Ltd., Chikko works, Osaka; Kawasaki Heavy Industries Ltd., Kobe and Mitsubishi Heavy-Industries Reorganised Ltd., Kobe Shipyard & Engine Works.

AIRPORT: No airport. Nearest airport Tokushima where All Nippon Airways, 9 flights to Osaka, 2 to Tokyo, and 1 each to Kagoshima and Sochi.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police tel. 110; Ambulance 119; Fire 119.

TELEPHONES: No facilities for placing telephones on board.

SERVICES: None.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port Administration Office.

AGENT: See "Niihama".

KUDAMATSU: 34.00 N. 131.52 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot-stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea pilots also act as harbour pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot-stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N. 131°5 4′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot-station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGE: Kudamatsu loading anchorage lat. 33° 59′ 40″ N., long 131° 51′ 20″ E.

RESTRICTIONS: No restriction for entry into and/or departure from anchorage during night and day time. But berthing/unberthing effected during daytime only.

MAX. SIZE: No restriction on length, breadth, and draft for any vessel entering port, but maximum draft for Nippon Oil Refinery Wharf 13 metres, and for Toyo Kohan Wharf 11 metres.

HEALTH: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health condition on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:

Maritime Declaration of Health.
Crew List.
Passenger List.

The following vessels will not be able to get radio pratique:

A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or suspected case, of infectious disease within 15 days of arrival.

If crew or passengers on board do not possess valid Smallpox Vaccination Certificate.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Tugs normally join vessel proceeding to Nippon Oil Refinery Wharf at lat. 33° 58′ 20″ N., long 131° 53′ 30″ E., and proceeding to Toyo Kohan Wharf at lat. 33° 59′ 40″ N., long. 131° 51′ 20″ E. Tug's line used and charges for lines use is included in tug-boat operation charge.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional: Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: At Nippon Oil Refinery 12 in. diameter floating discharging pipe line is connected to vessel. Maximum permitted draft 13 metres. Toyo Kohan Wharf, maximum draft 11 metres.

DENSITY: 1.025.

FRESH WATER: At anchorage, section II Kudamatsu; water barges available from Tokuama. Rate of delivery 50 tons per hour. At Nippon Oil Refinery and Toyo Kohan Wharf, hydrants are available. Rate of delivery 20 tons per hour.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. Also see "Moji, Fuel".
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete if before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None.
REPAIRS: All types possible.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Port and Harbour Dept.
AGENT: Sub-agents of Dodwell & Co. Ltd., Sankyu Unyo Kiko K.K., 1379–14 Aza Yamzakiya, Kudamatsu-shi. Tel. Kudamatsu (0833) 43–0390. Telegraphic Address "Sankyuunyu Kudamatsu".

KURE: 34.15 N. 132.32 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot Station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot-stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot-stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".
2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot-station.
3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N., 131° 03′ 12″ E.

ANCHORAGES:

	Minimum Depth	*Minimum bottom width*	*Density of water*	*Nature of bottom*
Entrance Channel	20 m.	No limit	Summer Av. 1·020	
Harbour Channel(s)	20 m.	No limit	Winter Av. 1·025	Mud and sand

Depths refer to M.W.L. Difference between datum quoted and chart datum: abt. 2 m. (to be added) Rise of tide: Springs 3·4 m. Neaps 2·6 m.
Also Mooring buoys and Harbour Anchorage. (See "Berthing").
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from Cholera infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Tugs normally join vessel at quarantine anchorage area. Tug's lines free of charge.
BERTHING: Pilots do not agree to berth or unberth outside period from sunrise to sunset. For berthing, at least 1·5 hours advance arrival necessary to reach berth before sunset. Mooring buoys: three buoys available in harbour for vessels less than 15,000 dwt. Harbour anchorage: Three anchorages with good ground (mud) and suitable vessels up to 80,000 d/w. L.O.A. 300 m.
Nissin Steel Works Ore berth
No. 2 Berth
Depth of approaches 17 – 18 m.
Length of Berth 190 m.
Depth of alongside berth 13 m.
Maximum draft acceptable 12 m.
Maximum length acceptable 224 m.
Maximum width acceptable 31·8 m.
No. 3 Berth
Suitable 150,000 dwt.
Depth of approaches 19 – 20 m.
Length of Berth 275 m.
Depth of alongside berth 18 m.
Maximum draft acceptable 18 m.
Maximum length acceptable 295 m.
Maximum width acceptable 45 m. (abt.)
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
TANKERS: No facilities.
FRESH WATER: For domestic and boiler, 330 k/tons per barge (one barge available from Kure City office), delivering rate about 100 k/tons per hour (50% additional for overtime, Sundays/holidays and Saturday afternoon also additional to basic rate for outside harbour limit).
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: No consul available, but marine note of protest can be attested by the local notary public.
REPAIRS: All types of deck and engine repairs are possible.
DRY DOCKS: (Ihi-Kure). Dimensions of No. 4 Dry Dock (length 338·3 m., width 43 m., depth 17 m.) – 160,000 dwt. No. 3 dry dock, for up to 800,000 dwt. expected ready mid-1973, now usable for up to 450,000 dwt.
REPATRIATION: Possible.
AIRPORT: Hiroshima airport, distance approximately 35 km. – 40 km. and about 60–90 minutes by car. Only domestic regular airlines available. 4 flights to Osaka and 6 to Tokyo, daily.
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Police (for emergency) 110; Ambulance 119; Fire 119.
TELEPHONES: No arrangements available for placing telephones aboard.
GENERAL: Kure is a local port which makes it difficult to arrange all requirements. At least three days notice helpful.
SERVICES: All navigational apparatus can be served as required. Cargo holds cleaning service can also be carried out, but tank-cleaning equipment and services to be arranged from Kobe area, otherwise through IHI Kure Shipyards.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Port and Harbour Dept.

AGENT: Sub-agents of Dodwell & Co, Tokyo. Naigai Unyu Co. Ltd., 7–1, 1-chome, Naka-dori, Kure. Tel. Kure 0823 21–5181/5. Telegraphic "Naigai Kure". Telex: 662340.

KUSHIRO: 42.58 N. 144.21 E.

DOCUMENTS: Ship's Register. Last Port Clearance. 3 Crew Lists including Passport Nos. 3 Passenger Lists. 1 Store List. 1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).
Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: No telegraphic address. Previous advance notice, minimum 8 hours advance notice ETA and any alterations. Contact pilot boat through Harbour office/tug boats with wireless telephones. Pilot boat has no radio telephone. Pilot boat waits at Quarantine anchorage (1,000 metres off and 280 degrees from North Breakwater white Light), and entrance of Breakwater during winter period (December-March).
ANCHORAGE: Bottom sand and mud. Minimum depth 9 metres in passage and 7·5 metres in anchorage. Depth over 29½ ft. 162,075 sq. metres, Section 2; Depth over 24½ ft. 690,000 sq. metres, Section 2 and 3; Depth under 24½ ft. 393,600 sq. metres, Section 3. Tidal range, average high-tide plus 1·533 metres, average low-tide plus 0·154 metres, average tidal difference plus 0·953 metres.
RESTRICTIONS: Vessel allowed enter and sail day and night. Pilot assistance officially not compulsory but in practice necessary, and pilot service available for 24 hours subject 8 hours advance notice.
MAX. SIZE: Pilot agrees take in 25,000 dwt vessels (length O/A about 185 metres). However, depth maximum 9·5 metres.
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days. Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Usually join vessel at entrance of breakwater and ship's line to be used.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio. All berths limited by depth in entrance channel.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores connot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ships' crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
TANKERS: North Pier – 3 berths for 20,000 dwt × 2 and 18,000 dwt × 1. Hose-diameters 10″ × 1, 8″ × 3, 6″ × 3. South New Pier – 1 berth for 3,000 dwt. Hose-diameters 10″ × 1.
DENSITY: Average 1·025 inner breakwater high-tide, and average 1·022 low-tide.
FRESH WATER: Direct supply from the wharves at 30 tons per hour. Barge supply and capacity 3 hours round per barge.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
DEVELOPMENT: Total of 21 berths including 4 for up to 40,000 dwt. Industrial raw materials carriers will be built and port breakwater will be lengthened by 3,940 metres.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None. US Consul located in Sapporo city.
REPAIRS: Ordinary deck, engine and electrical repairs arrangeable by the local factory.
DRY DOCKS: None; nearest located in Hakodate and Muroran ports.
REPATRIATION: Possible.
AIRPORT: Kushiro air port about 40 minutes taxi or direct connection bus from port area. Flight service daily, 2 flights for Tokyo and 1 flight for Sapporo.
TIME: GMT plus 9. No alterations made to clocks during year.
HOLIDAYS: 1st May.
POLICE/AMBULANCE/FIRE: Police HQ 23–7111 or emergency 110; Hospitals Kushiro Grand Hospital 41–6121, Kushiro Red-Cross Hospital 22–7171; Fire HQ 22–2156 or emergency 119.
TELEPHONES: No systems for arranging on board.
GENERALS: All port facilities services except wharfage applicable. Winter period additional charges 30%–50% while 1st December and 31st March (all Hokkaido ports same).
SERVICES: Arrangeable from Muroran.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Kushiro-Shiyakusho, 7–5, Kurogane-cho, Kushiro City.

AGENT: Sub-agents of Dodwell & Co. Ltd., Tokyo. Narasaki Sangyo Co. Ltd., c/o Mitsuwa Transport Co. Ltd., Attn. Shipping Agency Dept., Minami Hama-cho, Kushiro. Tel. Kushiro (0154) 22–3030, 22–0903. Telegraphic "Narasaki Kushiro".

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot-stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot-stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38 N., 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N., 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot-station.

3. Hosaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N., 131° 03′ 12″ E.

ANCHORAGE: The port faces Iyo-Nada and located near Bungo Straits. Entrance open to Iyo-Nada towards West, but port protected by West breakwater and small island off Northern part of approaches where holding ground good. During winter months strong Northwesterly wind prevails causing heavy swell at anchorage. Depth of water 17–25 metres.

RESTRICTIONS: *Oil tanker berth.* Vessel drawing less than 12 metres can moor and unmoor at half-flood during day-time but vessels drawing 12 metres or more advised to await high water.

Dry cargo vessels berth. Dry cargo is logs and cargo working carried out at anchorage of Horie, Umaiso and Yura Bay.

Horie Bay. Vessels no longer than 160 metres can berth. Vs. enter day-time only regardless of tide and current.

Umaiso Bay. As Horie Bay.

Yura Bay. Vessels no longer than 110 metres berth. Day-time entry only regardless of tide and current.

MAX. SIZE: *Maruzen Oil Co. Ltd., Matsuyama refinery, Genyu Sambashi.* Length of vessel, no limit; breadth, no limit; draft, 12 metres.

Horie and Umaiso Bay. Length of vessel 160 metres; breadth no limit; draft 15 metres.

Yura Bay. Length 110 metres; breadth no limit; draft 10 metres.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: For tankers: join vessel at Quarantine anchorage, using Tug's lines without charge. For dry cargo vessel, no tug required for berthing and unberthing in normal conditions.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: No advance notice of dia. of load/discharge lines required. See "Max. Size".

DENSITY: Anchorage 1.015. Berth 1.015.

FRESH WATER: *Maruzen Oil Co. Ltd., Matsuyama refinery, Genyu Sambashi.* Can be supplied by shore line with capacity 25 tons per hour.

Anchorage: Can be supplied by 30 ton barge with capacity 30 tons per hour. Strong winds prevail during winter months, when no water can be supplied.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. Also see "Moji, Fuel".

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears' maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: Consulates in Kobe.

REPAIRS: Only minor repairs.

DRY DOCKS: None. Nearest at Kawasaki Heavy Industries Ltd., Sakaide; Hitachi Shipbuilding & Engineering Co. Ltd., Innoshima and Mukaishima, dimensions of those docks as follows:

Kawasaki Heavy Industries Ltd., Sakaide. Dock No. 2 for 500,000 dwt vessel 450 m.× 72 m.×12·3 m. Only used presently for shipbuilding and after services.

Hitachi Shipbuilding & Engineering Co. Ltd., Innoshima Dockyard. Dock No. 1 for 20,000 dwt vessel 175 m.×25 m.×25·62 m.×9·10 m. Dock No. 3 for 130,000 dwt vessel 282·50 m.×47 m.×11·33 m.

Hitachi Shipbuilding & Engineering Co. Ltd., Mukaishima Dockyard. Dock No. 1 for 3,000 dwt vessel 86·18 m.×13·60 m.×6·80 m. Dock No. 2 for 8,500 dwt vessel 125 m.×18 m.×7·40 m. Dock No. 3 for 25,000 dwt vessel 175 m.×29 m.×9 m.

REPATRIATION: Possible.

AIRPORT: Domestic airport situated South of harbour. All Nippon Airways flights to Osaka and Tokyo.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119.

TELEPHONES: No facilities for placing telephones on board.

SERVICES: Only at Kobe.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days. 3 days extension possible if ship stays longer.

AUTHORITY: Port Administration Office.

AGENTS: Sub-agents of Dodwell & Co. Ltd., Tokyo. Sumitomo Warehouse Co. Ltd., c/o Taisei Kaiun K.K. 1594 Sobiraki-cho, Niihama Tel. Niihama (0897) 37–1101. Telegraphic "Sumitosoko Niihama".

FRESH WATER: Available at wharf only. Delivery 20–25 tons per hour.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears' maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: Consuls at Moji.
REPAIRS: Minor repairs only.
DRY DOCKS: See "Moji".
REPATRIATION: Possible.
AIRPORT: See "Moji".
TIME: GMT plus 9. No alterations made to clocks during year.
HOLIDAY: 15th August.
POLICE/AMBULANCE/FIRE: Tel. 110 and 119.
TELEPHONES: Available at stevedores' office at the wharf.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Port Administration Office.

AGENTS: Sub-agent of Dodwell & Co. Ltd., Tokyo. Kanbayashi Shaten, 3–74, Mikawa-Cho, Omuta. Tel. Omuta (09445) 3–61000. Telegraphic "Ringer Omuta".

MISUMI: 32.38 N. 130.27 E.

DOCUMENTS: and all general information, refer to "Miike".
PILOTAGE: Not compulsory. Pilot boards at quarantine anchorage if required.
ANCHORAGE: North of port entrance. Quarantine anchorage where officials board to clear vessel.
RESTRICTIONS: Minimum depth 20 metres in channel.
TUGS: Three tugs available, largest 300 h.p.
BERTHING:

Pier No. 1	depth	9·0	metres
Pier No. 2	,,	8·0	,,
Pier No. 3	,,	9·0	,,
Buoy No. 1	,,	11·0	,,
Buoy No. 2	,,	9·0	,,

FRESH WATER: Available from shore hydrants at the piers.
AUTHORITY: Misumi Port Office.
AGENT: Holme Ringer & Co. Ltd., c/o Misumi Kaian KK, 3–1159 Oaza Misumiura. Cables: "Ringer Misumi." Tel. (096452) 3130.

MIZUSHIMA: 34.31 N. 133.44½ E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Stores List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: (*a*) Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea pilots also act as harbour pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot-station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12 ″ E.

(*b*) Vessels over 50,000 d/wt or of draft of more than 12·5 metres are unable to pass through Kurushima Strait and required to transit Wadamisaki.

There are very narrow and crooked channels, such as the Kurushima Strait, maximum tidal current amounting to 10 knots; the Bisan Strait maximum tidal current amounting to 4 knots, and the Akashi Strait, maximum tidal current amounting to 6 knots.

(*c*) Harbour pilot: Pilots of the Inland Sea Pilots Associations are also employed for this pilotage if required, and Pilot boards at Mizushima quarantine anchorage (34° 26′ 30″ N. 133° 34′ 30″ E. approximate centre position of quarantine area). However, if an Inland Sea pilot is employed at the above-mentioned pilot stations, the same Pilot acts for harbour pilotage.
ANCHORAGES: Anchorages available for small size vessels only, and not for large vessels. In case of large vessels waiting for berthing, these vessels shall wait at Quarantine anchorage, at around Nabeshima, at nearby Sakatewan or off Kobe.

Around "Q" Anchorage	Depth	15–18	metres
Around Nabeshima	,,	32–40	metres (temporarily suspended.)
Nearby Sakatewan	,,	32–41	metres
Off Kobe	,,	43–47	metres

RESTRICTIONS: (*a*) Entering and departing from port shall be in accordance with instructions to be given by Signal Station.

(*b*) No restriction imposed upon entering or leaving port during night time, nevertheless such movements are next to impossible in consideration of the nature of the structures of the port. In addition Pilots refuse to board during night-time.

(*c*) Super-sized vessels, unable enter except at high tide.

Pilots should be consulted in advance for draft exceeding 14·80 metres.

PRATIQUE: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health conditions on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:

Maritime Declaration of Health.
Crew List.
Passenger List.

The following vessels will not be able to get radio pratique:

A vessel that has been in contact with an infected area or a suspected infected area within 15 days fo arrival.

If a vessel has on board any case, or any suspected case, of infectious disease within 15 days of arrival.

If crew or passengers on board do not possess valid Smallpox Vaccination Certificates.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Tugs normally join the vessel at the Quarantine anchorage area. Usually tug's lines used free of charge.

TANKERS: See "Berthing".

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–2100 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: Entrance channel summer av. 1.020, winter av. 1.023. Harbour channel summer av. 1.019, winter av. 1.025.

FRESH WATER: Available at berth, ex-pipe-line. Average delivery rate 20 k/t/hour. Water barges available, sent from Onomichi. Delivery rate approximately 50 k/tons per hour.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay, and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. All grades available by pipeline at Refinery berths.

FIRE PRECAUTIONS: (*a*) Whenever necessary to repair vessel, the rule of "Strictly and Completely No Fire" is to be observed. (*b*) To keep sufficiently powered tugboat alongside vessel at all times when engine is under repair. (*c*) A written pledge to be submitted to Oil Company, promising to take full responsibility and to pay full indemnity by ship's Owners (in case of repairing vessel) if any accident has occurred by fault of the vessel.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: No consul available, but marine note of protest can be attested by the local notary public.

REPAIRS: All types of deck and engine repairs possible by Mitsui Shipbuilding and Engineering Co. Ltd., Tamano Works. Minor repairs possible by Nojima Senpaku Co. Ltd., Mizushima Works, Sonkyo Nainenki Seisakusho Co.

DRY DOCKS: No dry docks at Mizushima, but Mitsui Shipbuilding and Engineering Co. Ltd. Tamano Dock is the nearest from Mizushima, distance approximately 20 miles and navigation about 2 hours.

Mitsui Shipbuilding and Engineering Co. Ltd., Tamano Dock

(*a*) Dimensions of largest dry dock No. 3 D. Dock (length 672 ft.× width 103 ft. 3 in.× depth 32 ft). (*b*) Number of small docks: 2.

AIRPORT: Okayama airport is the nearest from Mizushima, distance approximately 40 km. and takes about 40 minutes by car. Only domestic regular airlines available. 3 flights to Tokyo, daily.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119.

TELEPHONES: No telephone installation service on board.

SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

SERVICES: All navigational apparatus can be served, as requested, but technicians are to be sent from Kobe.

REGULATIONS: Quarantine anchorage is outside harbour limits therefore (i) no persons allowed ashore from this anchorage, (ii) No supplies permitted to vessels and, (iii) No Agency services available.

AUTHORITY: Okayama–Kencho, 81–1, Uchisange, Okayama City.

AGENT: Sub-Agent of Dodwell & Co., Tokyo. Naigai Unyu Co. Ltd., 2, 1-chome, Kaigan-Dori Mizushima, Kurashiki-Shi. Cables Naigai Kurashikimizushima. Tel. Kurashiki (0864) 44–5211.

MOJI (Kitakyushu): 33.54 N. 130.58 E.

(See Kanmon-Ko)

DOCUMENTS: When ship arrives direct from foreign port, customs officials will board vessel for search. Following documents to be submitted:

Crew List.
Passenger List.
Store List.
Manifest of crew personal effects (must be signed by individual crew member).
Arms and ammunition list.
Narcotics List.
List of ports of call on current voyage.
Discharging Cargo Manifest.
Through Cargo Manifest.
Declaration inward/outward (Form No. C2000).

The following will be checked on board:

Ship's Registry.
Last Port Clearance.

When ship comes from Japanese port, Customs Officials will not attend on board, except special case. Master or Agent to attend Custom House for entry formalities with following documents:

Discharging Cargo Manifest.
Through Cargo Manifest.
Declaration inward/outward.
Ship's Registry.
Last Port Clearance.

Documents entrusted with the Master by Customs at previous port. On ship's departure, clearance issued by Customs, after confirming payment of tonnage dues.

PILOTAGE: (1) *Harbour pilotage* compulsory for entry and departure, but not when vessel passing through Straits. Pilots embark East-bound vessels at Mutsure Quarantine Anchorage position half mile East Mutsure L.H. 33° 58′ 15″ N. 130° 53′ 43″ E. and West-bound vessels at Hesaki Quarantine Anchorage position 125 degrees, 1,500 metres from Hesaki L.H. 33° 56′ 24″ N. 131° 03′ 12″ E. Two Pilots embark vessels exceeding 30,000 gross tons for entry and departure charging double pilotage.

(2) *Sea pilotage:* Vessels approaching from East can obtain Pilots by radio request made at least 24 hours in advance. Pilot embarks at position 3 miles South from Sekisaki L.H. 33° 13′ 00″ N. 131° 54′ 00″ E.

(3) Pilots should be kept closely advised of vessel's accurate ETA at pilot station. If any change in vessel's movements, Master requested to immediately communicate by radio or VHF to pilot offices directly or through Agent reporting revised ETA. Cable addresses of pilot offices are: Harbour pilot "Kanmonpilot Moji", Inland Sea Pilot "Anjin Moji".

(4) *VHF:* Vessels keep in direct contact with port authorities with regard to arrival, berthing instructions and Pilot's requirements through VHF as follows:

(*a*) Call sign: Kitakyushu Port Radio (or Shimonoseki Port radio).
(*b*) Location of Radio facilities: Transmitting and receiving station located at the top of Mt. Hinoyama, Shimonoseki.
(*c*) Type of wave: Channel: Simplex 16 (calling, responding); Simplex 12 (communicating); Simplex 14 (communicating); Duplex 20 (communicating). Output 50 W.
(*d*) Operating hours: 0000–2400 hrs.
(*e*) Communicating range: within a radius of 50 miles from the Hinoyama Station.
(*f*) Communicating language: Japanese/English.

ANCHORAGE:

	Depth	Capacity (g/t)
"A" Section	10·0 m.	1,000 tons×2
Tanoura	9·1 m.	20,000 tons×2

(No. 2 anchorage: 83 degrees from Mojisaki light buoy, 1,770 m.)
(No. 3 anchorage: 80 degrees from Mojisaki light buoy, 2,300 m.)

WIND, TIDE: Easterly winds prevail in warm seasons. Northwesterly winds prevail in winter season. Dense fog frequently prevails in spring and autumn.

Tidal range 3·07 metres. Current near entrance of port runs Westward at flood and Eastward at ebb. Speed of current in vicinity of narrowest section of Straits sometimes reaches 7–8 knots. In stream of port, it is about 3–5 knots.

RESTRICTIONS: (*a*) Berthing: During day-time only. Swift tidal current prevails at buoy berths necessitating strong moorings, and in accordance with harbour rules, ships moor with anchor chains to buoy. Requisite chain preparations should be completed before

ship leaving pilot station. Occasionally large vessels drawing deep draft made to await high water and/or suitable current to berth alongside wharves.

(*b*) Departure: with adequate notice, no restrictions from anchorage and/or buoys. Night departure from wharves generally practicable, except when Pilot disagrees to ship-out; this will depend upon conditions of weather, tide, etc.

(*c*) Tug assistance may be required at Pilot's discretion for large vessel mooring to and/or unmooring from buoy, depending upon efficiency of engine and conditions of weather, tidal current, etc.

(*d*) Maximum draft to enter and passing through Kanmon Straits limited to 10 metres.

MAX. SIZE (Also see "Tankers")

Wharf	*Length*	*Depth*	*Capacity (g/t)*
	m.	m.	
1	247	8·5	15,000 tons×1

PRATIQUE: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health conditions on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:

Maritime Declaration of Health.
Crew List.
Passenger List.

The following vessels will not be able to get radio pratique:

A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or any suspected case of infectious disease, within 15 days of arrival.

If crew or passengers on board do not possess Valid Smallpox Vaccination Certificates.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

(*a*) Quarantine Station at Western entrance: Half mile East from Mutsure lighthouse 33° 58′ 15″ N., 130° 53′ 43″ E.

(*b*) Quarantine station at Eastern entrance: 125 degrees, 1,500 metres from Hesaki lighthouse 33° 56′ 24″ N., 131° 30′ 12″ E.

(*c*) Quarantine inspection not allowed inside port except when weather or other special reasons prevent quarantine boat from approaching ship at anchorage.

(*d*) "Q" flag should be hoisted until ship is in free pratique.

(*e*) Vessels exceeding 20,000 gross tonnage may undergo quarantine on application when they berth inside port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Normally join vessel at adequate position in judgment of pilot and tug for mooring. In operation, tug's line to be used for mooring and unmooring without any charge.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Average loading/discharging:

Bulk cargo:	Coal	50	tons per hr./gang/hatch	(dis.)
	Iron ore	45–50	,, ,, / ,, / ,,	(dis.)
	Grain	50	,, ,, / ,, / ,,	(dis.)
Baled cargo:	Cement	50	,, ,, / ,, / ,,	(load.)
	Fertilisers	40	,, ,, / ,, / ,,	(load.)
	Grain	30–50	,, ,, / ,, / ,,	(dis.)
	General	40	,, ,, / ,, / ,,	(load.)
Steel cargo:	Under 20 ft. long	25–30	,, ,, / ,, / ,,	(load.)
	Over 20 ft.	15–20	,, ,, / ,, / ,,	(load.)
Scrap steel:	Pressed	20	,, ,, / ,, / ,,	(dis.)
	Ordinary	10	,, ,, / ,, / ,,	(dis.)
	Bulky and awkward	5	,, ,, / ,, / ,,	(dis.)
Lumber/logs:	Lumber	15–20	,, ,, / ,, / ,,	(dis.)
	Logs	30	,, ,, / ,, / ,,	(dis.)

2 shifts: 0800 to 1700 hrs, and 1800 to 0500 hrs. Normal working hours 0800 to 1700 hrs. Overtime work is possible by applying to Customs. No work can be arranged on 31st December and during New Year holidays (1st to 3rd Jan.).

MEDICAL: No advance notice required unless urgent.

TANKERS: No slop discharge facilities. Mobil Oil berth situated at Okubo, near Tanoura. At vicinity of berth, the current runs towards West nearly all the time. Maximum rate of current 3 knots. Vessels berthed during period that tide sets to West, in day-time only. Mooring berth consists of one oil pier (length 80 m. width 5 m.) and two dolphins. Two 10-in pipes connected to vessel; discharge efficiency 1,500 tons per hour.

Maximum size of vessel which can be accommodated at this berth is 33,000 tons D/W on 9·1 metres draft.

FRESH WATER: Good fresh water supplied from water barges to vessels lying at buoys and/or anchorage; from hydrants to those alongside wharves. The rate of delivery per hour is 20–40 tons from hydrant and 50 tons from barge.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

Bonded bunker oil is supplied by oil barges. The rate of delivery: 80–100 tons per hour.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.

CONSULS: Honorary British Consulate concurrent with Honorary Swedish Consulate.

REPAIRS: Mitsubishi Heavy Industries, Ltd. Shimonoseki; Sasebo Heavy Industries Co., Ltd. Moji; Kitakyushu Iron Works, Tobata.

DRY DOCKS: Refer "Shimonoseki".

REPATRIATION: Possible.

AIRPORT: Distance to Kitakyushu airport: 30 minutes by taxi and to Fukuoka airport; 2 hours by train and taxi.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police station (tel. 110) and Fire/Ambulance (tel. 119).

TELEPHONE: Telephone placed on board.

SERVICES: All services available including hold cleaning and grain fitting.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days; but 3 days extension possible if ship stays longer. Immigration Officials board vessel on her arrival in port to examine passports, discharge books and/or other equivalent travel documents and provide 72-hour landing passes for crew members and passengers. One copy each of crew list and passenger list are required by them. Providing ship's Agent with a crew list beforehand will be a great help in expediting immigration business on ship's arrival. When ship stays in port more than 72 hours, the landing passes may be extended every 72 hours on application. In the event

that crew members, without entry visas, are to be landed for repatriation or transfer, Immigration will not permit their landing unless passage, by either sea or air, ensuring the prompt departure from Japan (within 72 hours) of these men have been booked, or unless the ships to which they are to be transferred, arrive in Japan within 5 days.
AUTHORITY: Kita-Kyushu Port Authority.

AGENT: Sub-agents of Dodwell & Co. Ltd., Tokyo. Holme Ringer & Co. Ltd., PO Box 72, 9–9, Minato-merchi, Moji-Ku, Kitakyushu. Tel. Moji (093) 331–1311. Telegraphic "Ringer Moji".

MURORAN: 42.20 N. 140.58 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare 2 Inward/Outward Declarations, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Arranged by Agent subject receipt of ETA advice at least 24 hours prior arrival. Pilot boards vessel about one mile outside breakwater.
ANCHORAGE: Outside harbour limits: Subject notice having been given to Authorities prior arrival. Inside harbour limits: Permitted in any part.
MAX. SIZE: Ore carriers, length 300 metres, draft 16 metres. Oil tankers, draft 10·8 metres. Channel depth 40 ft. Depth at Refinery berth 35·5 ft.
PRATIQUE: See Hakodate.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi, and North bound to Nagasaki Radio respectively.
TUGS: Six tugs, up to 2,000 h.p. Usually meet vessel near Inner Harbour breakwater. 10% additional charge if tug's lines used.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

Nippon Petroleum Wharf	depth	11·0	metres
Motowanishi Wharf	,,	9·5	,,
Nippon Steel Wharves	,,	9·0	,,
Nippon Steel (iron ore)	,,	14·0	,,
Nittsu Pier	,,	9·0	,,
Centre Pier	,,	9·0	,,
West Pier	,,	9·0	,,
Nikko Pier	,,	8·0	,,

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent. Hospital facilities available.
TANKERS: See "Max. Size". N.P.R.C. Muroran Refinery. Discharge berth. About 25% of deadweight required in ballast.
DENSITY/TIDE: Denisity 1025. Rise and fall of tide about 4 ft.
FRESH WATER: Delivery at piers: Average rate about 40 tons/hour. Delivery by barge: Rate about 60 tons/hour.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay, and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None.
REPAIRS: Only minor repairs available, but Hakodate dockyard able undertake all grades repairs.
AIRPORT: Domestic flights only from Chitose Airport – 100 km. from Muroran.
TIME: GMT plus 9 hours. Permanent.
POLICE/FIRE: Police Muroran 2–5191; Fire Muroran 2–2111.
TELEPHONES: May only be connected on board at No. 2–2 West Pier.
SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Port and Harbour Bureau.

AGENT: Sub-agents of Dodwell & Co., Tokyo. Narasaki Sangyo Co. Ltd. 3–3–2, Kaigan-Cho, Muroran. Tel. Muroran (0143) 2–1171. Telegraphic "Narasaki Muroran".

NAGASAKI: 32.45 N. 129.52 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Not compulsory, but necessary unless Master well acquainted with locality. Pilot embarks in vicinity of Ioshima lighthouse, lat. 32° 43′ 20″ N., 129° 46′ 43″ E. Pilot available any time, subject to adequate notice (no VHF system). All communication with Pilot through Agent. Pilot boat carries International signals. "G" flag in day-time and "Morse" signals at night to call Pilot. In event bad weather Pilot boards at anchorage off Megami.
ANCHORAGE: Megami anchorage located in Harbour Division No. 3 (within line between Kagenoo lighthouse and West end of Shirogashima) 60 ft. depth and capacity of 3 vessels of 20,000 dwt. Safe anchorage.
RESTRICTIONS: Berthing: During day-time only, except for emergency purposes. Entering into anchorage at Megami is generally permitted during day-time only except with Harbour Master's permit. Departure: No restriction from buoy or wharf with adequate notice, but no night departure from Oil Terminal.
MAX. SIZE: Max. permissible length 1,200 ft., breadth 120 ft., draft 15·0 metres.
PRATIQUE: See Moji.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Tugs normally join vessel at anchorage for swinging and/or at berth for assisting vessel. Tugs arrangeable at outer harbour at vessel's special request.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. (*d*) Harbour Master: 1 Crew List, 1 Declaration Inward/Outward with ports of Call. (*e*) Port Authority: 1 Declaration Inward/Outward with ports of Call.
PILOTAGE: Request Pilot and other services to JHY (Nagoya Port Radio Station) at least 10 hours prior arrival on frequency 500 Kc. JHY keeps watch also on 480 Kc. Pilot station near No. 1 and No. 2 channel buoys at entrance of habour channel. When wind over 15 m/sec. pilot boards inside High tide Breakwater. When very rough, Pilot taken on board east side of Kinjo Signal Station. Pilot not compulsory but desired. Pilot boat white painted with white and red funnel and letters "Pilot" on hull.
ANCHORAGE: The port boundary indicated by line connecting Oono Lighthouse (34° 55′ 49″ N., 136° 49′ 28″ E.), Ise Bay Light Buoy (34° 56′ 05″ N., 136° 47′ 44″ E.), southwest corner of Nagoya High tide Breakwater (35° 00′ 54″ N., 136° 47′ 04″ E.) and the base point at northwest of the same Breakwater (35° 1′ 54″ N., 136° 46′ 09″ E.). Quarantine Anchorage, located outside High tide Breakwater offers safe anchorage for vessels awaiting Pilot or quarantine service. Depth this anchorage area ranges from 10 to 20 metres. Sea bed silty clay.
MAX. SIZE: Tankers: 34,000 DWT. Other vessels: 160,000 DWT. Draft: 14 metres.
PRATIQUE: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health conditions on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:
Maritime Declaration of Health.
Crew List.
Passenger List.
The following vessels will not be able to get radio pratique:
A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.
If a vessel has on board any case, or any suspected case, of infectious disease within 15 days of arrival.
If crew or passengers on board do not possess valid Smallpox Vaccination Certificates.
If a vessel does not possess a valid Derat or Derat Exemption Certificate.
RADIO:
JHY (Nagoya Port Radio Station). Service area: 100 miles. Frequency: 500 Kc. (also 480 Kc.). Working frequency: 486 Kc.
International VHF (Nagoya Port Radio). Service area: 36 miles. Frequency: Simplex working frequency Channel 12. Duplex working frequency Channel 16.
To be given prior arrival: Name; Capacity; draught and length; Port of departure; Last port; Time arrival outer port; Time passing Kamishima Signal Station; Grade of cargo; Grade of dangerous cargo (if any); Health of crew.
TUGS: Usually join at point where vessel directs course toward allocated berth. Tug's lines normally used without charge.
MEDICAL: Hospitals conveniently located near port.
BULK HANDLING FACILITIES: Kinjo Container Terminal has two berths with a depth of water 10·5 metres, overall berth length of 470 metres. Coal pier can accommodate ships up to 10,000 tons. Depth of water 9 metres.
Nippon Steel Corp., has one berth for handling of iron ore with 350-metre long wharf and a depth of water 14 metres, two berths for ore and/or coal with a 500-metre long wharf and a depth of 13 metres, one berth for scrap iron with 140-metre wharf and a depth of water 13 metres.
Grain handling facilities include Wharf No. 8, 173 metres long and 10 metres deep. Tohama Wharf 135 metres long and 10 metres deep. Nisshin Wharf 150 metres long and 12 metres deep. Tokai Silo Wharf 190 metres long and 14 metres deep. Toyo Grain Wharf 170 metres long and 13 metres deep. Chita Futo Wharf 160 metres long and 12 metres deep.
TANKERS: Seven oil tanker berths for up to 34,000 d/w tankers. Draft 10 metres.
DENSITY: 1·020.
WATER: Water supplied direct from pier.
FUEL: All grades fuel available. Notice 2 days in advance desired. Delivered by barge only.
DEVELOPMENTS: Main Channel 14 metres deep and 300 metres wide will be enlarged to 17·5 metres deep and 350 metres wide. Secondary Channel 10 metres deep and 400 metres wide will be dredged to 12 metres deep and 300 metres wide.
Anchorage area 9 metres deep at present will be deepened to 10 metres.
Kinjo Pier Development: 19 berths with 10 metres and 3 berths with 12 metres will be constructed.
West-4 Section Container Terminal with projected four berths will be put into service with initial two berths in 1973.
CONSULS: The following countries are represented in Nagoya: Ecuador, France, Great Britain, Korea, Mexico, Portugal, Sweden, Thailand.
GANGWAY/DECK WATCHMAN: Not compulsory but recommended.
OPENING/CLOSING HATCHES: Normally carried out by crew. When stevedores do this work charges are made.
CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle spirits per week.
CREW IDENTIFICATION CARDS: Required.
REPAIRS: All types repairs possible. Repairs by Ishikawajima-Harima Heavy Industries Co. Ltd., Nagoya Shipyard.
DRYDOCKS: 1 Drydock. Ishikawajima-Harima Heavy Industries Co. Ltd., Nagoya Shipyard. Length 150 metres, width 20 metres, depth 6·81 metres, capacity 10,500 g.r.t.
AIRPORT: Nagoya Airport, 20 kilometers from Port. (Three JAL (Japan Air Lines) flights weekly for Hong Kong.)
TIME: JST (Japan Standard Time), 9 hours ahead of GMT.
HOLIDAYS: National Holidays – New Year's Day (Jan. 1st), Adults Day (Jan. 15th), Foundation Day (Feb. 11th), Vernal Equinox Day (Mar. 21st), Emperor's Birthday (Apr. 29th), Constitution Day (May 3rd), Children's Day (May 5th), Respect for The Aged Day (Sept. 15th), Autumnal Equinox Day (Sept. 23rd), Health Promotion Day (Oct. 10th), Culture Day (Nov. 3rd), Labour Thanksgiving Day (Nov. 23rd). Radio ETA one weeks notice and accurate ETA at least 24 hrs. before arrival. Notify any changes to ETA.
ANCHORAGE: Anchorage is a rectangle located North-west of lighthouse at West breakwater in a distance of 1,600 metres covering an area of about 160,000 square metres. North 37° 57′ 37″ East 139° 04′ 00″. Depth: 18–24 metres. Bottom: fine sand.
RESTRICTIONS: Berthing and unberthing day-time only. Entry and/or departure at time authorised by Port Authority. Shinano fairway from port entrance to Rinko wharves, depth 11 m. to 12 m.
MAX. SIZE:

Description	*LOA*	*Breadth*	*Draft*
Bulk Carrier	230 m.	32 m.	11·0 m.
Oil Carrier	230 m.	32 m.	10·8 m.

At tanker sealine, draft over 20 metres. Tidal range about 30 cm. Speed of river flow 40 cm./sec. No influence on manoeuvring vessel.
PRATIQUE: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health conditions on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:
Maritime Declaration of Health.
Crew List.
Passenger List.
The following vessels will not be able to get radio pratique:
A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or any suspected case, of infectious disease within 15 days of arrival.

If crew or passengers on board do not possess valid Smallpox Vaccination Certificates.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. West bound vessel to Choshi, and North bound to Nagasaki Radio respectively. (Also see "Pilotage".)

TUGS: Tugs normally join vessel at position of fairway. Towing operations are done by ship's lines.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

Higashi: West Pier, depth alongside 12 metres.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKER: Slop (residues): No discharge facilities.

Description	*LOA (wharf)*	*Acceptable draft*
Nisseki Dolphin	88·30 m.	10·50 m.
Rinko "C" (Showa)	243·50 m.	10·80 m.
Rinko "E" Dolphin (Showa)	165·00 m.	9·80 m.
Sealine Buoy (Showa)		21·80 m.

DENSITY: Average in Rinko wharves approx. 1,006. Average in Municipal wharves approx. 1,005.

FRESH WATER: Available from all wharves. Cannot be supplied at anchorage during the winter season.

FUEL: Seven days notice usually required. All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. (Also see "Regulations".)

DEVELOPMENTS: The reclamation of land for Niigata East Port will be completed within 1975. One public berth is ready for about 15,000 D/W tonner class vessel. One shore crane with about 570 M/T discharging capacity for ore in bulk per hour.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore, but no spirits.

CONSULS: None.

DRY DOCKS: No facilities for ocean going vessel.

REPATRIATION: Possible.

AIRPORT: 5 kilometres. Round service Japan Domestic Air Line.

TIME: GMT plus 9. No alterations made to clocks during year.

HOLIDAY: 22nd August.

POLICE/AMBULANCE/FIRE: Water Police Station 44–2269; Ambulance Station 119; Fire Station 119; Main Police Station 110.

TELEPHONES: No facilities for telephones on board available.

SERVICES: Hold cleaning by longshoremen available.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

REGULATIONS: Oil carriers can receive bunker by oil barge and/or shore line except when discharging cargo.

AUTHORITY: Port and Harbour Bureau.

AGENTS: Sub-agents of Dodwell & Co. Ltd., Tokyo. Niigata Rinko Kairiku Unso K.K., 11–20, 2-Chome, Rinko-cho, Niigata. Tel. Niigata (0252) 74–5181. Domestic Telex 3122–310. Telegraphic "Rinko Kairiku Niigata".

1. Declaration of Inward Vessel	1

1. Master to telegraph ETA and Crew's Health Condition directly to Quarantine Niihima before arrival.

2. * To be prepared by Master before arrival. Others to be made up by Agent with assistance of Master on arrival.

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot Station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N., 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N., 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N., 131° 03′ 12″ E.

ANCHORAGES: Approved anchorage area just inside harbour limit. A circle drawn at a point 33° 59′ 18″ N., 133° 16′ 31″ E. with radius of 430 m. where holding ground good and depth of water 12–15 m. No buoy moorings. Harbour protected by breakwater.

TIDE: (Springs) Max. 263 cm; min.: —9 cm. (Neaps) max. 182 cm; min.: 136 cm.

RESTRICTIONS: Pilot does not take vessel in during darkness. Vessel has to wait if depth during low water 8·50 m. is insufficient to pass channel.

MAX. SIZE: Pier No. 4 (Sumitomo Chemical Co. Ltd., Kikumoto Wharf). Length of vessel 160 m. Breadth (range of cranes, reaching 12 m. from the pier), draft, 9·50 m.

Berth B (Anchorage. Stern moored to Sumitomo Chemical Co. Ltd., Niihama Works). Length of vessel, 170 m. Breadth, no restriction. Draft, 9 m.

HEALTH: Quarantine Inspectors go aboard during day. Master to keep waste until Quarantine inspected in event of any suspected disease or fever on board after entered Japan.

RADIO: Choshi Radio, Nagasaki Radio.

TUG: Joins vessel at Quarantine anchorage or Section II, always using tug's lines without charge. "Niihama Maru" 700 h.p. If more powerful tugs required, can be obtained from Matsuyama or Mizushima.

BERTHING: Harbour Pilot operates during day.

Berth	*Length*	*Depth*
Berth No. 1	80 m.	7·5 m.
Berth No. 2	130 m.	9·50 m.
Berth No. 3	Dolphin	6·5 m.
Berth No. 4	120 m.	9·80 m.
Berth A	anchorage	8·0 m.
Berth B	anchorage	9·0 m.
Berth C	anchorage	9·0 m.
Berth D	anchorage	8·0 m.

Remarks: Berth No. 1: Owned by Sumitomo Chemical Co. Ltd., Miihama Works and used for loading fertiliser, nitric acid, ammonium nitrate by ship's gear.

Berth No. 2: Owned by Sumitomo Metal Mining Co. Ltd., equipped with two 5 ton luffing cranes with maximum reach 22 m. and maximum height 20 m.; used for discharging of Nickel Ore, copper concentrates, Nickel copper concentrates and maize and also by ship's gear.

Berth No. 3: Owned by Sumitomo Chemical Co. Ltd., Oh-e Works and used for loading and discharging of clean oil only.

Berth No. 4: Owned by Sumitomo Chemical Co. Ltd., Kikumoto Works and used for discharging of Bauxite, anthracite, salt, fluorspar and loading of alumina. Three 5 ton level mobile cranes, maximum reach 22 m. and maximum height 20 m.

Berth A: Public berth for general purposes, no buoy, just anchorage. However, vessel anchoring at this berth sometimes ordered by port authority to shift order vessel approaching or leaving berth no. 4 may pass.

Berth B: Owned by Sumitomo Chemical Co. Ltd., Niihama Works and used for loading of fertiliser and discharge of phosphate and muriate of potash. Possible to use for general purposes with permission by Sumitomo Chemical Co. Ltd., Niihama Works through Agent. Vessel moors stern to wharf with two anchors about 4 shackles each.

Berths C and D: as above.

Average Rate of Discharge

Phosphate	70–90 tons by ship's gear
Potash	40–60 tons by ship's gear
Copper Conc.	70–90 tons by ship's gear and 130–150 by cranes
Nickel Copper Conc.	70–90 tons by ship's gear and 130–150 by cranes
Nickel Ore	40–70 tons by ship's gear and 40–70 by cranes

Bauxite	140–160 tons by cranes
Anthracite	60 tons by ship's gear and 80–100 by cranes
Salt	120–140 tons by cranes
Lumbers	13,000–15,000 BFM
Average Rate of Loading	
Fertiliser in bags	30–65 tons per hour by ship's gear
Alumina	100 tons per hour by two pneumatic loaders

MEDICAL: Hospitals and medical facilities available week-days only.
TANKERS: No facilities for oil carriers.
DENSITY: Entrance 1.023 (rate of tide, 1 knot); channel 1.022; anchorage 1.021.
FUEL: Available but not in bond. Bunkers in bond available from main ports or oil stations in tranship. 2 days notice.
FRESH WATER: By barge which needs about one hour to supply after being alongside vessel. 4 trips daily available. By shore line, rate 10 tons per hour.
DEVELOPMENTS: Sumitomo Chemical Co. Ltd., Kikumoto Works, intend to make another Bauxite berth available for large size vessel (suitable for vessels up to 50,000 dwt).

Sumitomo Metal Mining Co. Ltd., Niihama reclaiming land adjacent to Western harbour limit of port of Niihama to construct additional refinery for producing copper with a berth for 25,000 ton vessel to discharge copper concentrate. Final date of completion unknown.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Stevedores.
CUSTOMS ALLOWANCES: Only 50 cigarettes to take ashore. No spirits.
CARGO GEAR: Valid Cargo Gear Certificate sometimes required by stevedores when cargo gear maintenance appears to be poor.
CONSULS: None. Nearest in Kobe.
REPAIRS: Minor repairs only. Main engine piston overhauling possible.
DRY DOCKS: None. For nearest see "Matsuyama".
REPATRIATION: Arranged by Agent.
AIRPORT: None. Nearest at Matsuyama and Takamatsu. All Nippon Airways – 11 flights per day to Osaka and one to Tokyo.
TIME: GMT plus 9 hours. Permanent.
HOLIDAYS: National Holidays: New Year's Day, January 1st; Adult's Day, January 15th; Foundation Day, February 15th; Vernal Equinox Day, March 20th; Emperor's Birthday, April 29th; Constitution Memorial Day, May 3rd; Children's Day, May 5th; Respect-for-age Day, September 15th; Autumnal Equinox Day, September 23rd; Physical Culture Day, October 10th; Culture Day, November 3rd; Labour Thanksgiving Day, November 23rd.

Local Holidays: New Year's Day (Lunar Calendar), January 30th; May Day, May 1st; Memorial Day of the Sea, July 20th; Bon Festival (Lunar Calendar), August 8th; Autumnal Festival, October 17th–18th.

Vessels may enter/leave *except* January 1st, and cargo work can be done as usual at overtime rates on above national/local holidays *except* for *Niihama* December 31, January 1, 2, 3, and October 17, 18.

Vessels may enter/leave port at overtime rates and cargo work will be done up to 1700 hours (day-time) against surcharges.

No cargo will be handled: *Niihama* December 31, January 1, 2, 3, and October 17, 18. No ship's movement (as well as cargo handling) can be done on January 1st.
POLICE/AMBULANCE/FIRE: Police 110; Ambulance/Fire 119.
TELEPHONES: No facilities for placing telephones on board.
GENERAL: *Quarantine:* Hiroshima Quarantine Office, Niihama Detached Office, Nishibara-cho, Niihama, tel. Niihama 2–3966.

Customs: Kobe Customs, Niihama Branch Customs, Nishibara-cho, Niihama, tel. Niihama 2–3405.

Immigration: Niihama Port Station, Takamatsu Immigration Office, Nishibra-cho, Niihama, tel. Niihama 2–2672.

Maritime Bureau: Sanbashi-dori, Niihama, tel. Niihama 2–2855.

Maritime Safety Agency: Nishibara-cho, Niihama, tel. Niihama 2–3879.

Emergency Procedure: No Harbour Master radio available, therefore cable Agent. Telephone sub-agent since one person will be in attendance even during night, who in turn will contact person in charge.

Salvage: No salvage tug stationed, nearest from Kure.
SHORE LEAVE: Crew allowed ashore with pass.
AUTHORITY: Port and Harbour Bureau.

AGENT: Sub-agents of Dodwell & Co. Ltd., Tokyo. Sumitomo Warehouse Co. Ltd., c/o Taisei Kaiun K.K., 1594, Sobiraki-cho, Niihama. Tel. Niihama (0897) 37–1101. Telegraphic "Sumitomosoko Niihama".

NISHIHARA (Buckner Bay), Okinawa: 26.14 N. 128.50 E.

DOCUMENTS:
Ship's Register.
6 Crew Lists.
List of Valid Smallpox/Cholera Certificates.
Cargo Manifest.
Bill of Lading.
1 Stores List.
1 Personal Effects List.
Health Declaration.

Each crew member will be issued with an Official Pass, which must be returned prior vessel sailing.
PILOTAGE: Normally vessels will be expected to enter Nakagusuku Bay through entrance marked Tatsu Kuchi, and pick up Berthing Master inside bay—South of TsukenJima. Inside bay Berthing Master requests that vessel keeps South of buoy marking Chikunigaa Shoal. No vessels should enter bay without first establishing communications with "Esso Control"—or without berthing instructions by WT from Agent. Berthing may be carried out at any time or day or night—depending on weather conditions.

A safe convenient pilot ladder is to be provided for the Berthing Master. Berthing Master stays aboard vessel throughout discharge.
MAX. SIZE: For crude vessels a single point mooring (SALM—Single Anchor Leg Type Mooring), capable of handling vessels from 90,000 dwt. to 250,000 dwt. is established in approximate position lat. 26° 14′ N. long 128° 49.7′ E. about 2½ miles offshore.

Products are shipped from a pier connected to the shore—the pier has two berths, one for vessels up to 65,000 dwt. and one for small vessels.
PRATIQUE: Port Officials will board vessel after berthing.
RADIO: Crude vessels discharging at Nishihara should report ETA Fairway Buoy, 72, 48, 24, 12 hours prior arrival. Prior immediate arrival, vessels should establish contact with "Esso Control", VHF Channel 16, and Master will be informed of berthing instructions.

Weather reports are essential—particularly during typhoon season.
CRUDE BERTH: Single buoy mooring with vessel secured by two heavy polypropylene lines from buoy. Lines connected to chains through Bow Mooring Pipe and secured inboard. Chains secured direct to Brega Pin or by double polypropylene lines to bollards, port and starboard side of forecastle head. There is 85 ft. of water at buoy position. Vessels may remain in berth in winds of up to 50 m.p.h.

Floating hoses, two by 24 in. to two by 20 in. connected to two by 16 in. is connected on vessel's port side. There is a 42-in. line from buoy to shore.
TIME: GMT plus nine hours.
SHORE LEAVE: Shore leave is permitted—launch service may be arranged but is at vessel's expense.
AUTHORITY: Esso Standard (Okinawa) Limited, Nishihara Refinery, Okinawa.

OFUNATO 39.03 N. 141.44 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Not compulsory. Pilot boards about two miles from entrance of Ofunato bay, at 38° 59′ N. and 141° 48′ E., where depth 35 metres (but not after dark). Master must radio vessel's Agent of ETA 24 hours in advance, because neither telegraphic address of pilot station nor VHF available.
ANCHORAGE: Not suitable in stormy weather. Depth of water at anchorage 30 to 40 metres. Quarantine anchorage located between radius 500 metres of 38° 59′ N. 141° 48′ E.
RESTRICTIONS: Depth of water at entrance of passage 14 metres, oil tanker's draft restricted to 13 metres (42 ft. 6 in.), and draft of log and coke carriers restricted to 8 metres (26 ft. 2 in). Depth of water alongside wharf 9 metres (29 ft. 5 in.) at mean level.
MAX. SIZE: (*a*) Tankers: 35,000 g/t. (*b*) Log and Coke carriers: 8,000 g/t. Length (*a*) 250 metres (968 ft.) (*b*) 200 metres (774 ft. 4 in.); breadth (*a* and *b*) No limitation; draft (*a*) 13 metres (42 ft. 6 in.); (*b*) 8 metres (26 ft. 2 in). Tide range: 1–1·4 metres (3 ft. 3 in.–4 ft. 7 in.).
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: One tug 250 h.p., but assistance from three or four others available, and they usually join vessel about 400 metres in front of jetty and discharging wharf. Ship's lines used if necessary.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
TANKERS: No special requirements at present. Only one berth, and maximum draft 13 metres (42 ft. 6 in.).
DENSITY: Average density 1.020.

FRESH WATER: Available from shore installation. Supply 10–15 tons per hour.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.
CONSULS: None.
REPAIRS: Minor deck and engine repairs available.
DRY DOCKS: None.
REPATRIATION: Possible.
AIRPORT: Hanamaki Airport about 17 km. from Ofunato. All Nippon Air Lines; two flights between Hanamaki/Tokyo every day.
TIME: GMT plus 9. No alterations made to clocks during year.
TELEPHONES: No facilities for placing telephones on board.
GENERAL: Discharging ex-gearless vessel at wharf unavailable, because no shore crane for discharge.
SERVICES: Surveyor: NKKK and Kentei Shin Nihonsha. Hold and tank cleaning. Provisions/Laundry/Water. Bunker: Domestic diesel oil available.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days; 3 days extension possible if ship stays longer.
AUTHORITY: Ofunato Port Office.

AGENT: Sub-agents of Dodwell & Co., Tokyo, Abeki Shokai, c/o Fujisawaya Shoken, 10–12 Suzaki, Ofunato. Tel. Ofunato (019222) 2753. Telegraphic "Abe Ofunato".

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera. wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: If arranged at Sekisaki Pilot Station 33° 13′ N. 131° 54′ E. or Saganoseki Quarantine Station, usually use pilot boat; but Kyushu Oil Co. Ltd., Dolphin and Sumiyoshi Public Wharf, pilot boards by tug boat. At least one days notice for Pilot, as he comes from Moji.
ANCHORAGES: Waiting for berth or arrival at night: Kyushu Oil Co. Ltd., Dolphin 33° 17′ 14″ N. 131° 42′ 00″ E. Symiyoshi Public Wharf 33° 15′ 43″ N. 131° 35′ 52″ E. If anchorages full, Agent arranges with Harbour Master, and notifies Master.
RESTRICTIONS: No berthing at night.
MAX. SIZE: Kyushu Oil Co. Ltd., Dolphin alongside capacity: Max. d/w 200,000 tons. Length and breadth – no restrictions, d/w 220,000 tons have entered. Draft 20·10 metres.

Sumiyoshi Public Wharf: Anchorage breadth 260 metres; jetty length 184 metres; 185·92 metre length ship has berthed. Draft 9 metres. Vessels have berthed at high water with 9·3 metres draft. Ore Carriers up to 20 m. draft.
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Tug's lines used. 5 tugs available, up to 4,000 h.p.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At last 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
TANKERS: Kyushu Oil Co. Ltd. (Dolphin). For discharging: type, Chikusan Arm; pieces, 4 pieces and bunker line 1 piece (ASA 6 in.); joint type, ASA; size 12 in.; discharging maximum, 10,000 k/l per one hour.

Refinery has reducers as follows: ASA 16 in. 4 pieces, 14 in. 2 pieces; JIS 14 in. 2 pieces; ASA 10 in. 4 pieces, 8 in. 4 pieces; JIS 10 in. 2 pieces, 8 in. 2 pieces.

Following information required 3 days before arrival: Manifolds, type, size, number and distance between, also pump capacity.
DENSITY: 1.024/1.025.
FRESH WATER: Kyushu Oil Co. Ltd., Dolphin: Capacity: 30–50 tons per hour, by hose.

Sumiyoshi Public wharf: Capacity 30 tons per hour, by hose.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. Also see "Moji – Fuel".
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGE: Omishima Island located at centre of the Inland Sea and lies between Ehime and Hiroshima prefectures. Eastern part of island, Inokuchi surrounded by deep water where holding ground good. Oil company located at Inokuchi. No strong winds.
RESTRICTIONS: No restriction on entry; however mooring and unmooring to be carried out during day-time, regardless of tide and current.
MAX. SIZE: Maruzen pier, length of vessel 200 metres, breadth no limit, draft 9·40 metres.
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Join vessel at sea anchorage, always using tug's line without charge.
TANKERS: No advance information of loading/discharge lines required. No loading facility. Only one berth available for discharge. See "Max. Size".
DENSITY: Anchorage 1.025. Berth 1.025.
FRESH WATER: Not available but usually brought by barge from Onomichi (abour 3 hrs. run to Omishima). Rate of delivery 80 tons to 200 tons per hour which depends on barge.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.
CONSULS: No consuls. Nearest Consulates are in Kobe.
REPAIRS: Minor repairs only.
REPATRIATION: Possible.
AIRPORT: Nearest at Matsuyama and Takamatsu.
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119.
TELEPHONES: Not available.
GENERAL: Closed port. To conform with regulations vessel obtains special permission from Shikoku Maritime Bureau to enter.
Customs request vessels calling Omishima to obtain permission to enter at preceding port of call by paying charge at same rate of tonnage dues prior to arrival. This procedure undertaken by Agent. No quarantine station, nearest at Matsuyama. Immigration officer comes from Niihama.
SHORE LEAVE: Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENT: See "Matsuyama".

ONAHAMA (Iwaki City): 36.56 N. 140.55 E.

The port is protected by breakwater, 8,200 ft. long and is open to the South.
DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Stores List.
1 Declaration of Crew's Baggage, i.e. tobacco wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).
Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: No means of communication with Pilots and vessels should arrange pilotage by advising Agent of ETA. Vessels awaiting Pilot should anchor in position 36° 55′ N. 140° 54′ E. Pilot-boat carries flag "H".
ANCHORAGE: Just outside No. 1 West breakwater. Depth of water 14–22 metres.
RESTRICTION: Restriction only by ship's draft. Depths of water alongside wharves 9 and 10 metres at low tide, and rise of tide is about 1·40 metres highest.
MAX. SIZE: (Also see "Berthing").

	Length of Wharf	*Depth of Water*
No. 2	350 metres	9 m. for 165 m. and 10 m. for 185 m.
No. 3	350 metres	10 metres
	350 metres	10 metres

Each wharf used for 2 vessels, and view depths, Pilot requires restrict draft within 32 ft. 2 in.
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination cards, derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Normally join vessel on passage from anchorage. Vessel's lines used.

"Bandai Maru"	800 h.p.
"No. 2. Shukutsu Maru"	675 h.p.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, steveoores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
TANKERS: No facilities for ocean-going tankers.
DENSITY: 1025.
FRESH WATER: Available from shore lines, at about 30 tons per hour. Additional 30% for overtime service; 1700–0800 hrs., Saturday afternoon, Sunday and holiday.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay, and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
DEVELOPMENTS: Wharf No. 5 and 6 will be constructed by 31/3/73. Length of wharf: 500 metres. Depth of water alongside: 12 metres.
GANWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs inspector ship's registered gross and nett tonnage. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None.
REPAIRS: Minor repairs only.
DRY DOCKS: None.
AIRPORTS: None.
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Iwaki (02465); Police 3–3141; Ambulance and Fire, 119.
TELEPHONES: No facilities for connecting on board.
AUTHORITY: Onahama Port Administration and Harbour Construction Office, Fukushima Prefecture. Tatsumicho 38, Onahama, Iwaki, Fukushima Prefecture, Japan. Iwaki (02465) 2–4121.

AGENT: Sub-agent of Dodwell & Co., Tokyo. Abeki Shokai, c/o Minato Ryokan, 14, Onahama, Iwaki. Cables "Abe Iwaki". Tel. Iwaki (02465) 2–3712.

ONOMICHI–ITOZAKI (incl. Mihara, Matsunaga): 34.20 N. 133.16 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).
Ship's Agent will prepare Inward/Outward Declarations, 1 Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea Ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout

24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea pilots also act as harbour pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

Inland Sea Pilot also berths vessels at anchorage berth (if Matsunaga Bay – logs), or pier in Itozaki district (Mihara section).

ANCHORAGES: Draft limitations: Itozaki-Mihara 7·5 m. Matsunaga bay 8·5 m. Tidal range: Maximum (+) 3·91 m. Minimum (−) 0·09 m. Capacity for 3×20,000 ton vessels.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

Name of Berth	*Length*	*Depth*	*Permissible draft and length overall*	*Capacity*	*Shore crane and pipe-line*
Municipal Wharf	135 m.	7·5 m.	7 m.×130 m.	15,000	Nil
Anchorage		8·5 m.	7·5 m.	3×20,000	Nil
		7·5 m.			

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: No facilities.

FRESH WATER: Available. Method of delivery (1) Barge. (2) Pier. Additional charge for overtime work and in event of bad weather.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 40 cigarettes to take ashore but no spirits.

CONSULS: None.

REPATRIATION: Possible.

AIRPORT: Nearest, Tokyo International Airport.

TIME: GMT plus nine hours. Permanent.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance/Fire 119.

TELEPHONES: No arrangements for placing telephones on board.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extensions possible if ship stays longer.

AUTHORITY: Port and Harbour Dept.

AGENT: See "Kure".

OSAKA: 34.41 N. 135.28 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: 24 hours notice required. Telegraphic address: "Hanshinpilot Osaka". VHF contact on Channels 12, 16, 19, 20. Agents operate Channel 26. Three 15-ton pilot boats with radio equipment to pilot office. Pilot boards anywhere within harbour limits. In event bad weather Pilot boards just inside breakwater when acknowledgement obtainable from Master. If awaiting Pilot, anchor inside harbour limits as near as possible to breakwater.

ANCHORAGES: Sections Nos. 7 and 8. Section 7 is quarantine anchorage. Section 8 for other vessels. Harbour Master allocates anchorage position prior vessel's arrival which radioed to Master by Agent. Max. draft about 42 ft.

RESTRICTIONS: Vessels only permitted enter from sunrise to 2000 hrs. However, order avoid danger, some wharves (oil wharf, Nakayama wharf and various shipyards where there is not enough space to conduct berthing operation), accept vessel only until sunset. Maximum depth 39 ft. 4 in., wharf no. 49.

Depth restrictions at other berths depend upon berth allocated. But less than 39 ft. 4 in.

MAX. SIZE: Maximum permissible length, 750 ft., draft 34 ft. 6 in.

PRATIQUE: Vessel requiring free pratique requested cable directly to "Quarantine Station", Osaka informing ETA, date of departure from last port, name of last port, number of crew and health condition. At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Osaka Port Radio, 24-hour VHF service on Channels 16, 12, 19 and 20. Osaka Harbour Radar has 24-hour navigatipn aid and weather information service. Contact by VHF Channels 16, 14 and 22.

TUGS: Tugs join vessel just before harbour entrance. Tug's lines used, no extra charge.

BERTHING: No specific requirements. Pilot boarding time will be notified by VHF or radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing. stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours 50% additional of basic setevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: No slop discharge facilities.

Wharf No. 49, Sakurajima Oil Wharf, depth 39 ft. 4 in.
Wharf No. 47, Imemachi Nishi Wharf, depth 33 ft. 6 in.

DENSITY: Outside anchorage: 1023–1025. Near breakwater: 1020–1022. Average density inside breakwater 1020. Wharves near estuaries (Aji river, Shirinashi river, Kizu river and etc.): 1016–1020.

FRESH WATER: Methods of delivery: by barges or pipe-line. Rate of delivery: 200 ton barges – 4; 160 ton barges – 1; 60 ton barges – 1; Total – 6.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

DEVELOPMENTS: 6 container berths (2 already completed); 18 foreign trade berths (Liners and Tramps); 52 home-trade berths; completion of new berths by 1975.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.

CARGO GEAR: See "Certificates", but no special requirements.

CONSULS: The following countries have representatives in Osaka:

Austria	Denmark	Mexico
Belgium	El Salvador	Pakistan
Great Britain	Ethiopia	Portugal
Khmer Republic	France	Spain
Chile	Germany	Switzerland
China	Greece	Thailand
Costa Rica	Korea	United States

REPAIRS: All grades repairs possible.

AIRPORT: One hour required from Osaka Port to Osaka International Airport by car (about 25 km. distance). Regular airlines:

Overseas Lines, Japan Airlines, Cathay Pacific Airlines, China Airlines, Thai International Airlines, North West Airlines, Pan American Airlines, BOAC, Korean Airlines, Air Vietnam, Luft Hansa Airlines, Scandinavian Airlines.

Domestic Lines, Japan Airlines, All Nippon Airways, Toa Airways.

TIME: GMT plus 9. No alterations made to clocks during year.

HOLIDAYS: Public 20 July; Sakurajima Nil; Silo Wharf 20 July; Nakayama Steel Nil.
POLICE/AMBULANCE/FIRE: Police tel. 110; Ambulance tel. 119; Fire tel. 119.
SERVICES: All services available.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Port and Harbour Bureau.

AGENT: Dodwell Tramp Agencies, CPO Box 455, Osaka Kagatu-Seni Kaikan, 39, 5-chome, Kawara-machi, Higashi-Ku, Osaka. Tel. (06) 203–5151. Telegraphic "Dodship Osaka". Telex, OS 3250.

OTARU: 43.12 N. 141.01 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Pilot district fixed by Ministry of Transport. Limit of Otaru piloting district is sea area surrounded by line drawn from Kayashiba-misaki to Horaiso-misaki and coast line. Licensed pilots stationed in office from 9 a.m. to 5 p.m. When Pilot observes pilot signal or is requested by any other means he comes out to ship at once. Boarding place about one mile from North B.W. Lt. H. 70 degrees. Pilot boat painted white and carries International Code flag "H" at forecastle deck. "Otaru Pilot" registered cable address for Otaru Pilot Association.
ANCHORAGE: Depth of water inside breakwater is 3·6 to 17·0 metres (average 9·4 metres) and nearly everywhere, except some Southern parts, good anchorage. Sea area, outside breakwater, also good holding for anchors, but be careful not to foul fishing nets. Around quarantine anchorage is best anchorage of ship staying outside breakwater.
RESTRICTIONS: Quarantine and Customs business between 0800 hrs. and 1700 hrs. Pilot: Vessel allowed to enter and leave day and night. Pilot assistance officially not compulsory but in practice necessary, and Pilots available 24 hours.
MAX. SIZE: *Buoys:* Four mooring buoys available for large vessels.
Pier and wharves: Three piers, two wharves, and one coal pier. Also No. 4 pier now under construction.

Mooring Buoys

PRATIQUE: See Hakodate.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Two tugs available for large vessels. Tugs M/S "Sakura Maru" 147 g/t 1,000 h.p. M/S "Tatwiea Maru" 38 g/t 180 h.p. Both belong to city's Harbour Bureau.
Position: Tug boat waits and joins vessel near appointed berth according to Agents' request. Tug's line in general use.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 21—0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
TANKERS: Available berthing for small vessels only, 1,000 g/t and usual berthing 300–500 g/t. Japanese tankers only. Draft: maximum permitted 7·2 m. Discharging: about 100 k/t per 1 hr.
DENSITY: Average 1025.
FRESH WATER: Good drinking-water at all piers and wharves. Two water barges (both 150 tons) available when off shore in harbour. International code flag "Y.J" used as "I want fresh water".
Remarks: Charges for water supply outside office hours (1700–0830) increased by 50% of basic. Very bad weather add 50%.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
FIRE PRECAUTIONS: No smoking at tanker berth, Umaya Machi Ganpeki No. 1 and No. 3 berth.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.
CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore, but no spirits.
CONSULS:
American Consulate, Sapporo in Sapporo city only. Tel. 0122–22–5121.

1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare 2 Inward/outward Declarations, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Ocean-going vessels calling at Owase have cargo destined to Toho Oil, Owase Refinery only. There is no local pilot association in this port and the Oil Refinery's Dock Master boards all vessels as a Pilot. Pilot boarding time is passed to ship by ship's Agents after consulting with pilot (Dock Master) and he boards vessel 1 mile East of Toto Island.
ANCHORAGE: Quarantine Anchorage position is 34° 4′ 13″ North 136° 16′ 43″ East. Depth Water 60–80 m. Radius 500 m. However, it is not advisable for vessels to stay there for a long time as there are many fishing boats nearby.
RESTRICTIONS: According to Agreement between Fishery Association and Oil Refinery, ship's movement is prohibited at night.
MAX. SIZE: Depth water alongside pier is 17.00 m. ship's maximum permissible draft is 16.20 m. at high tide. L.O.A. limited to 300 m. No restrictions as to breadth.
HEALTH: At first port of call in Japan vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight

to sunset and Captain to show all Vaccination cards, derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi, and North bound to Nagasaki Radio respectively.
TUGS: Tugs usually join vessel at Harbour Limit (near Sabaru Island) and tug's line is used.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
MEDICAL: No advance notice required unless urgent. Hospital facilities available.
TANKERS: One berth available – see "Max. Size".
FRESH WATER: Fresh water can be supplied to the vessel from pipe at Quay. Supply Capacity 30 tons per hour.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
DEVELOPMENT: Toho Oil have plan to construct New Dolphin Berth, 150 m. offshore where depth of water 21.00 m.
CERTIFICATES: Ship's Register to show Customs inspector ship's registered gross and nett tonnages.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS/REPAIRS/AIRPORT: None.
TIME: GMT plus 9 hours. Permanent.
TELEPHONES: Emergency numbers, Owase Police Office (05972); 2–0004; Owase Fire Station (05972) 2–2020; Owase Hospital (05972) 2–2118. No facilities for placing telephones on board.
SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but extension possible if ship stays longer.
AUTHORITY: Port and Harbour Dept.

AGENT: Sub-Agents of Dodwell & Co., Tokyo. Uyeno Unyu Shokai, c/o Showa Yokkaichi Sekiyu Bldg., Building No. 40, 1, Shiohama-cho, Yokkaichi. Cables "Uyenoshell Yokkaichi;" Tel. (0593) 45–2271.

SAKAI: 34.34 N. 135.27 E.

SAKAIDE: 34.19 N. 133.51 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc (only at first port of call in Japan).

Ship's agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in vew of great number of islands causing navigational hazards. Pilots obtained from one of three pilot-stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N.; 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot-station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGE: Port located on North coast at East part of Shikoku Island in Inland Sea.

Boundaries and Areas. Area bounded by line joined with three points, East corner of Sosha river mouth, Mamako-Hana of Semi Jima and Tako-Saki of Shotsuji-Yama.

Depth of water inside harbour limit: 11 metres, outside harbour limit: 13 metres.
RESTRICTIONS: Vessels entering and/or leaving during day-

time only at wharves; but done day and night at sea anchorage provided favourable weather conditions prevail.

MAX. SIZE: East section of Centre pier, length 160 metres, breadth no limit, depth 10 metres.

West section of Centre pier, length 110 metres, breadth no limit, depth 7·50 metres.

Mitsubishi Chemical Industries wharf, length 250 metres, breadth no limit, depth 12 metres.

Anchorage inside breakwater, length no limit, breadth no limit, depth 7–9 metres.

Anchorage outside breakwater, length no limit, breadth no limit, depth 10 metres.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from Cholera infected area within 10 days, Captain must advise crew and passengers health condition prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Wharves. Join vessel at sea anchorage, using tug's line without charge. Sea anchorage. No tug required in normal conditions.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's agents mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for agents to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: No tanker berth.

DENSITY: Inside harbour limit 1·025. Outside harbour limit 1·025.

FRESH WATER: Sea anchorage. No water barge available but usually brought from Onomichi (about 4 hours run to Sakaide). Rate of delivery 80 tons to 200 tons per hour dependant on barge.

Centre pier: Can be supplied by shore line with capacity 25 tons per hour.

Mitsubishi Chemical Industries wharf: Can be supplied by shore line with capacity 60 tons per hour.

FUEL: All grades of bonded bunkers are stocked in Tokyo, Ise Bay, Osaka and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

FIRE PRECAUTIONS: No specific precaution.

DEVELOPMENTS: Asia Sekiyu Kaisha Ltd. intends to construct oil refinery installation but company has not yet decided when they are going to start this project.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificate sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.

CARGO GEAR: See "Certificates", but no special requirements.

CONSULS: None. See "Kobe".

REPAIRS: Only minor repairs.

DRY DOCKS: Kawasaki Heavy Industries Ltd., Sakaide, which is suitable to dry dock. Dock No. 2 for 500,000 dwt vessel. 450 m. × 72 m. × 12·3 m. Not yet in action for ship repairs. Only used at present for ship building and after services.

REPATRIATION: Possible.

AIRPORT: No airport. Nearest Takamatsu, All Nippon Airways 11 flights to Osaka and 1 to Tokyo.

TIME: GMT plus 9. No alterations made to clocks during year.

HOLIDAYS: National Holidays – see "Niihama". Local Holidays: New Year's Day (Lunar Calendar) January 30th; May Day May 1st; Memorial Day of the Sea July 20th; Bon Festival August 8th.

No ship's movement can be effected on January 1st. No cargo handling on December 31st, January 1st, 2nd and 3rd, August 8th and October 15th.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119. Sakaide Maritime Safety Base, 6–2858.

TELEPHONES: No facilities for placing telephones on board.

GENERAL: Mitsubishi Chemical Industries Co. Ltd., Sakaide Works. As wharf of above works located outer harbour limit of Sakaide port, the undermentioned procedures required: In conformity with regulations, vessel required to get special permission for entering into closed port, which will be given from Shikoku Maritime Bureau.

Customs request vessel calls Mitsubishi Chemicals wharf to obtain special permission for entering. If tonnage dues paid prior arrival, this procedure will be attended to by Agent.

Waiting anchorage: Avoid Bisan Seto Boundary according to special water zone navigation order. Imperative to exclude water surfaces with established Fishery Privilege.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port Administration Office.

AGENTS: Sub agents of Dodwell & Co., Tokyo. Sumitomo Warehouse Co. Ltd., c/o Taisei Kaiun K.K., 1594, Sobiraki-Cho, Niihama. Tel. Niihama (0897) 37–1101. Telegraphic – "Sumitomosoko Niihama."

SAKATA: 38.57 N. 139.48 E.

Located at mouth of Mogami River. Strong wind blows from Japan Sea November to March.

In winter season, wave height between 3 to 5 metres, length 70 to 80 metres and period 7 to 10 seconds. Current South to North along coastline at 0·15 m. sec.

TIDAL RANGE:

Higher high water	+40 cm.
Spring tide high water	+28 cm.
Neap tide high water	+24 cm.
Mean sea level	+20 cm.
Neap tide low water	+16 cm.
Spring tide low water	+12 cm.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Stores List.
1 Declaration of Crew's Baggage, i.e. tobacco Wine/spirits, camera, wrist-watch, radio, firearms/swords, etc., (only at first port of call in Japan).

Ship's agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory but required. Order Pilot through Agent. Pilot boards about 600 metres off port entrance. In bad weather, wait instructions from Agent.

ANCHORAGE: All sea area available for anchorage. No prohibited anchorage areas. Pilot station and quarantine anchorage position 38° 56.5′ N., 139° 48.0′ E.

RESTRICTIONS: Ship movements in daytime only.

MAX. SIZE: Restricted by depth alongside West Pier, 10 metres.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination cards, derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Niigata. Call sign JCF. Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: One of 800 h.p.

BERTHING:

Name	*Depth*	*Length*	*No. Berths*
East Pier	7·5 metres	260 metres	2
Nishi Pier	10 metres	185 metres	
West Pier	10 metres	185 metres	1
Ohama Pier	4·5 metres	260 metres	3
Ohama Pier	9 metres	330 metres	2
Sodeoka Pier	7·5 metres	390 metres	3
Buoy (Logs only)	11 metres	230 metres	1

STEVEDORES: Working hours: 0800 to 1700.

Phosphate rock in bulk handled at a rate of 200 to 250 tons per hour by shore crane.

Logs, 1,400 cubic metres per day are handled by ship's gear.

Rice, 900 to 1,000 tons per day loaded by ship's gear.

Manganese ore in bulk, 150 tons per hour by shore crane, 120 per hour by truck crane, 60 tons per hour by ship's gear.

MEDICAL: No advance notice required unless urgent. Medical facilities available at Sakata City Hospital.

TANKERS: Draft not to exceed 8·5 metres.

FRESH WATER: Available only from wharf at a rate of 25 tons per hour.

FUEL: Bunkers lightered from Hakodate provided at least 7 days' notice given.

GANGWAY/DECK WATCHMEN: Not specially required, unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCES: 200 cigarettes and three bottles of spirits per man.
CONSULS: Korean Consulate Tel. 0222-21-2751. Consul: Mr Cho Kian.
REPAIRS: Minor repairs only.
REPATRIATION: Crew replacement conducted basis "landing for transfer to another vessel."
AIRPORT: Yamagata Airport, situated 105 km. from Sakata. Two flights per day.
TIME: GMT plus 9 hours. No alterations.
HOLIDAYS: Public offices closed on Sundays and National holidays. Cargo work every day except 1st, 2nd and 3rd January.
POLICE/AMBULANCE/FIRE: Police (urgent 110; (usual) 2-6611; Ambulance (urgent) 119; Fire (urgent) 119; (usual) 2-3214.
TELEPHONES: No facilities for placing on board.
SERVICES: Compass adjustment.
SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but 3 day extensions possible if ship stays longer.
AUTHORITY: Sakata Port Management Body. 5–15, 2-chome, Funaba-cho, Sakata. Tel. 3–5444.

AGENT: Sub-Agent of Dodwell & Co., Tokyo. Sakata Kairiku Unso K.K., 6–19, 2-Chome, Funaba-Cho, Tel. (02342) 2–1801. Cables: "Sakatakairiku".

SASEBO: 33.10 N. 129.43 E.

DOCUMENTS: See "General – Customs and Immigration".
PILOTAGE: Compulsory. Vessel should keep Pilot closely advised through Agent, of ETA pilot station at least 24 hours prior arrival and any subsequent change. Pilot boards vessel one mile Northwest Kogosaki lighthouse. (33° 06′ N. 129° 38′ E.). In bad weather, Pilot will board at 33° 05′ 48″ N. 129° 40′ 24″ E.

Telegraphic address of Port Captain JNK 500 kc/s (Sasebo Maritime Safety Office).
ANCHORAGE: Ample good holding ground in inner harbour, but is controlled by U.S. Navy and only following anchorage available for commercial vessels: No. 3 Section, Depth 10 m.–37 m. Capacity (g/t) 20,000 tons and over × 20.
RESTRICTIONS: Entry and departure from sunset to sunrise only allowed under extenuating circumstances subject to Port Captain's special permission. (MSTS chartered vessels excepted). No particular restrictions upon draft or tide conditions. Berthing during day only. Controlling depth of water – in the passage 23–54 m., at anchorage 10–37 m.
WEATHER: South-westerly winds prevail in summer, while Northerly blows frequently in other seasons. Maximum wind velocity recorded 26·1 m/sec. In early spring dense fog prevails, but renders navigation impossible only for 7 days or so.

Tidal range 2·6 metres. Current rate maximum 1·5 knots in vicinity of harbour entrance at rising tide. At ebb tide, it flows in opposite direction and is faster than during flood, but not so strong as to hinder navigation.
MAX. SIZE: "See Berthing". No particular limitation for entering port. For berthing however, acceptable length, draft and breadth will be decided case by case in accordance with conditions of each berth consulting with pilots, U.S. Navy and Port Captain. No tanker installations outside port.
PRATIQUE: (See Moji). Quarantine station: 33° 05′ 30″ N., 129° 42′ 00″ E.) 1½ mile East of Kogosaki lighthouse. Quarantine service from sunrise to one hour before sunset. Q flag should be hoisted until free pratique granted. When vessel arrives from plague and cholera infected or suspected area within 10 days (plague) and 5 days (cholera). 24-hour special quarantine required. All sanitary scuppers must be closed and garbage not thrown overboard after vessel reaches 60 miles off Japanese coast. Vessel chartered by MSTS or USN (GAA ,T/C, CVC, V/C) shall be cleared by U.S. Navy Quarantine and service available after sunset also.
RADIO: See "Yokohama".
TUGS: Normally join vessel about ½–1 hour prior berthing and tug's lines used. Charge for use of lines included in tug hire.

IDENTIFICATION CARDS: See "General – Immigration".
CONSULS: None
REPAIRS: All deck and engine repairs possible.
DRY DOCKS: Sasebo Heavy Industries Co. Ltd. No. 3 dry dock: Length 370·0 m. Width 70·0 m. Depth 15·0 m. Max. ship (dwt) 300,000. Another 5 dry docks available.
AIRPORT: Itazuke Airport, Fukuoka, about 120 kilometres (about 220 min. by taxi). Served by regular airlines. Omura Airport, Nagasaki, about 50 kilometres (about 70 min. by taxi). 7 flights daily. (All Nippon Airways).
TIME: GMT plus 9 hours. No alterations to clocks throughout year.

POLICE/AMBULANCE/FIRE: Police Station: Sasebo 3–7161 (if emergency: 110). Ambulance Sasebo 3–5121 (Sasebo Fire Station). Fire Sasebo 119 (Sasebo Fire Station).

TELEPHONES: No facilities exist for placing telephones on board.

GENERAL: *Customs:* When vessel arrives direct from foreign port, Customs officials board for search. Following documents to be submitted. Crew List, Passenger List, Store List, Manifest of crew personal effects (must be signed by individual crew member). Arms and ammunition List, Narcotics List, List of Port of call on current voyage, Discharging cargo Manifest, Through cargo manifest, Declaration inward/outward (Form No. C2000). Following will be checked on board. Ship's Registry, Last port clearance.

When vessel comes from Japanese port, Customs officials will not attend on board, except special case. Master or agents to attend at Customs House for entry formalities with following documents. Discharging cargo Manifest, Through cargo Manifest, Declaration inward/outward, Ship's Registry, Last Port Clearance, documents entrusted with the Master by Customs at previous port.

On vessel's departure, clearance issued by Customs after confirming payment of tonnage dues.

Immigration: Immigration officials board vessel on arrival to examine passports, discharge books and/or other equivalent travel documents and provide a 72-hour landing pass for crew members and passengers. Two copies each of crew list and passenger list are required by them. Providing vessel's Agent with these documents beforehand will help in expediting immigration business on arrival. When vessel in port more than 72 hours, landing passes will be extended every 72 hours on application.

In event that crew members, without entry visas, to be landed for repatriation or transfer, Immigration will not permit their landing unless passage, by either sea or air, ensuring prompt departure from Japan (within 72 hours) of these men has been booked, or unless vessels to which they are to be transferred, arrive in Japan within 5 days. Services are rendered from 0900 hours to 1700 hours.

MEDICAL: Hospital: U.S. Station Hospital (for U.S. military personnel only). Sasebo Dojinkai Hospital. Bussaka Dental Hospital. Tanaka Dental Hospital.

SERVICES: Hold cleaning. Compass adjusting. Fumigation.

AUTHORITY: Sasebo Harbour Administration, 3–1, Yorozu-cho, Sasebo City.

AGENTS: Subagents of Dodwell & Co., Tokyo. Nishikyushu Warehouse Co. Ltd., Tategami-cho, Sasebo. Tel. Sasebo (09562) 4–6161. Telegraphic "Ringer Sasebo".

SHIMIZU: 35.01 N. 138.30 E.

DOCUMENTS: *Quarantine* (only when arriving from a foreign port):
1 Maritime Declaration of Health.
1 Crew List.
1 Cargo Manifest.
1 List of Passengers (if any on board).
Log Book and Registry should be readily available.

Customs:
1 Declaration Inward/Outward with Ports of Call.
1 Ship's Registry
1 Last Port Clearance.
1 Store List including arms and narcotics.
2 Manifests of Cargo for discharge (prepared by Agents).
1 Manifest of Through Cargo.
1 Crew List.
1 List of Passengers.
1 List of Crew's Baggage (only necessary if crew-members have to land personal effects ashore.

Immigration:
2 Crew Lists.
1 Application for Shore-passes.
2 Lists of Passengers.
Notification of Departure, (to be returned through Agents after sailing).

Harbour Master:
1 Declaration Inward/Outward with Ports of Call.

Port Authority:
1 Declaration Inward/Outward with Ports of Call.

PILOTAGE: Pilot boats: black hulls and white house with H flag at bow. G flag: when requiring a Pilot. Pilot Station: 35° 01′ 30″ N. 138° 31′ 30″ E. (to be altered at a later date to the point 80 degrees 2600 metres distant from Masaki Lighthouse 35° 01′ 02″ N., 138° 31′ 06″ E. Night Pilotage: charge – 50% extra applicable from one hour before sunset to one hour after sunrise.

ANCHORAGES: See Section 3 on Chart of Shimizu.

MAX. SIZE: (See "Developments") Dry-cargo max. draft 11 metres. Length and breadth no restriction. Tankers, up to 16.50 m. draft.

HEALTH: Free pratique automatic calling at another Japanese port. Radio Pratique available.

RADIO: Cable Agent giving ETA, draft and any other informations via Shimizu Radio. Call sign: JGQ. Transmitting frequency 500, 512, 486 kc. Receiving frequency 500,480 kc. Area within 200 km.

VHF: Call sign: Shimizu Port Radio. Channels 16, 12, 14 Simplex, 20 Duplex. Power 50 w. Area 50 km.

TUGS: Normally join in-coming vessels near pilot station. Tugs's lines usually used no extra charge. Up to 2,000 h.p. available.

BERTHING:

Berth	*Length*	*Depth*
Hinode Wharf	820 metres	7·3–10·6 metres
Fujimi Wharf	360 metres	9.5 metres
Fujimi Wharf	515 metres	9–11 metres
Okitsu Wharf	899 metres	5·5–11 metres
Railway Wharf	266 metres	7·3 metres
Japan Light Metal Wharf	276 metres	9 metres
Orido Buoys No. 1/3 Max. size 20,000 tons		11 metres

SPECIALISED CARGO HANDLING FACILITIES:
Container Berth: Okitsu Wharf No. 00, 11,200 metres, 11·5 metres, 35-ton gantry crane.
Grain Berth: Fujimi Wharf No. 00, depth 11·0 metres, two suckers. Hounen Wharf, 255 metres, 11·0 metres, three suckers.
Wood Chip Berth: Sodeshi Pier No. 00, depth 12·0 metres, two unloaders.
Fujimi Wharf No. 3/4, depth 9·0 metres, four unloaders.
Bauxite Berth: Nippon Light Metal Wharf, depth 11·0 metres, two unloaders.

TANKERS: Honen Oil Refinery Company Wharf 180 metres long, with 11 metres depth alongside at low water.

Toa Petroleum Refinery Company operate a buoy mooring suitable for tankers up to 100,000 dwt. in depth of 15 metres at low water.

DEVELOPMENTS: Sodeshi Wharf construction to be completed end 1975.

STEVEDORES: Enable Agents order gangs important obtain accurate ETA in good time. Latest time to order gangs 1600 of previous day. Gang shifts: Normal and deferred shift 0830 every day. Night shift 1700 every day except last Sunday in month. Any request for attendance preceding 0830 non-acceptable.

MEDICAL: Masters to advise by radio prior arrival if medical attendance required.

DENSITY: 1023–1024.

FRESH WATER: Most berths supply by shore installations, otherwise barge. Minimum quantity of oil 20 tons.

FUEL: All grades of oil delivered by barge only.

FIRE PRECAUTIONS: Harbour fire-fighting corps with a fire-fighting boat.

GANGWAY/DECK WATCHMEN: Available for gangway, hold checking hawsers, bridge, telephone, etc.

OPENING/CLOSING HATCHES: On liners normally by stevedores with assistance of crews, otherwise according Charter Party.

CERTIFICATES: Ship Registry, Radio and Safety equipments Certificate, Deratting Exemption Certificate, etc.

CUSTOMS ALLOWANCES: Tobacco: 50 packets permitted per each crew per day. Wine 6 bottles per crew member.

IDENTIFICATION CARDS: Passport or Seaman's Book.

CONSULS: None.

REPAIRS: Most repairs and overhauls possible.

DRY DOCKS: NKK Shimizu yard (largest dock 210×24·6 metres).

AIRPORT: 180 km. distant from Haneda International Airport.

TIME: GMT plus nine hours. Permanent.

HOLIDAYS: No work on from December 31 to January 3 and Shimizu Port Festival Day (Aug. 5).

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119; Water Police (52) 0200.

TELEPHONE: Available on board.

SHORE LEAVE: Normally allowed.

AUTHORITY: Shimizu Port Administration Office, 2–9, Hinide-cho, Shimizu City, Shizouka Pref., Japan. Tel. (53)2201.

AGENT: Shimizu Shipping K.K. Kashiwa Building, 3, 4-chome, Minato-cho. Cables: "Shiship Shimizu." Tel. (0543) 53–3301.

SHIMONOSEKI (including Mutsure): 33.57 N. 130.58 E. (See Kanmon-Ko).

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: See "Moji".

ANCHORAGE: Nishiyama anchorage located off Hikoshima Island, on Western end of Honshu Island. Max. draft 9·5 m. capacity 10,000×2.

Mutsure anchorage: undermentioned area is open port. The sea area surrounded by:

(*a*) Line connecting Daibahana on Takenoko Island and top of Wagora Island.
(*b*) Line connecting top of Wagora Island and Udonohama on Mutsure Island.

(*c*) Coastline between Udonohama and Unoishibana on Mtsure Island.
(*d*) Line connecting Unoishibana and Anse-no-Shiri in Shimonoseki.
(*e*) Line connecting Anse-no-Shiri and point at 370 metres from Daibahana on the line connecting Daibahana and top of Wagora Island.
(*f*) Line long. 130° 54′ E.

Anchorage includes a part of quarantine anchorage and Mutsure oil berth; depth 10–25 metres.

RESTRICTIONS: See "Moji".

MAX. SIZE:

Wharf		*Length*	*Depth*	*Capacity (g/t)*
Western wharf	(Nos. 3–4)	340 m.	6·5 m.	15,000×1
Daiichi Pier	(Nos. 9–10)	330 m.	8·5 m.	24,000×1
	(Nos. 12)	330 m.	8·0 m.	13,000×1
Daini Pier	(Nos. 15–16)	340 m.	8·5 m.	15,000×1
	(Nos. 17)	210 m.	9·1 m.	25,000×1

For tank installations, see "Tankers".

PRATIQUE: See Moji.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

VHF: See "Yawata".

TUGS: See "Moji".

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

BRIDGES: No bridges at present, but construction begun on suspension bridge, across Kanmon Strait.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for agents to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 21–0500 hours next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: Shell oil berth situated at Hikoshima, on Southwestern end of Honshu, facing Moji across Kanmon Strait. In vicinity of berth, flood tide sets to East, ebb tide to West, current about 5–6 knots. Mooring berth consists of 4 buoys, approximately 140 metres offshore, space between buoys being approx. 270 metres.

Maximum dimensions of vessel which can be safely accommodated are gross tonnage 18,000 tons, length OA 170 metres, breadth unlimited, draft 9 metres.

Vessels only berthed or unberthed when tide sets to west during daytime only. In approaching berth, as vessel comes against tide, full engine power and tug assistance required. One 10 in. pipe connected to vessel; discharge efficiency per hour 500–600 kl.

Taiyo Gyosho Installation located about 610 metres South of Mutsure lighthouse. At this berth, West-going current stronger than East-going and ship taken to berth only on Westerly current, with stern towards South. Most suitable berthing time is 2–3 hours after commencement of West-going current. Maximum dimension of vessel which can be accommodated at this berth is gross tonnage 37,000 tons, dead weight 60,000 tons, length OA 270 metres, draft 11 metres.

One 8 in pipe is connected to vessel. Speed of discharge is an average 1,000 kl per hour.

DENSITY: 1·025.

FRESH WATER: Good fresh water supplied either from water barge or from hydrants alongside wharves. Rate of delivery from water barge 50 tons per hour and from hydrants 40–50 tons.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. Also see "Moji, Fuel".

DEVELOPMENTS: 182,000 m. land reclaimed since 1967 along National Railway wharves, near Shimonoseki Station and work scheduled to complete in spring 1973. At present, No. 18 wharf, mostly reclaimed land, used for ferry boat service linking Shimonoseki to Pusan, which opened service June 1970. After completion of reclamation, further three berths (Nos. 19, 20 & 21) will be equipped for larger vessels, where maximum draft planned 10 metres.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.

CARGO GEAR: See "Certificates", but no special requirements.

CONSULS: Korean Consul, tel. (66) 5341.

REPAIRS: All types of repairs possible.

DRY DOCKS: Mitsubishi Heavy Industries Ltd. 4 dockyards (Nos. 3 & 4 for smaller vessels).

Hayashikane Shipbuilding K.K. 3 dockyards (Max. 1,100 G/T).

Towa Shipbuilding K.K. 1 dockyard (Max. 1,000 G/T).

Mitsubishi Heavy Industries Ltd.

Dimensions of dock

	Length metres	*Breadth* metres	*Draft* metres

WIND/TIDE: South-easterly winds prevail in the warm seasons and North-westerly winds in the winter season. The maximum velocity recorded in the past being 18 m./sec. The tidal range is 2·145 metres. The current at the channel leading to new port runs Southward at the flood and Northward at the ebb. The maximum speed of the current is about 3 knots. There is no current in the dock.
RESTRICTIONS:
(*a*) Vessels exceeding 20,000 tons gross may berth only within one hour before and/or after slack tide. Vessel's under 20,000 tons gross may berth regardless of current, if it does not exceed 5 knots.
(*b*) Night entry: Vessels under 10,000 gross tons may berth at Nos. 1, 2, 3 and 8 wharves until 2200 hrs. in summer season and 2100

hrs. in winter season, subject to Harbour Master's permission and Pilot's agreement.

(*c*) Night departure: Vessels under 20,000 gross tons allowed to sail from Nos. 1, 2, 3, 8 wharves and Nos. "A", "B", "C" buoys until 2200 hrs., regardless of current, provided they are moored with bow outward.

(*d*) Least depth in channel, 14·0 m.

MAX. SIZE:

(*a*)

Wharf	*Length* (m.)	*LOA* (m.)	*Depth* (m.)
1	200	180	11·0
2	200	180	12·0
3	250	220	13·0
4			17.0
8	316	250	12·0
9	280	170	10·0
Uchiura No. 5	221	175	8·5
Shoko wharf	165	150	8·5

(*b*)

Buoy	*Ship's LOA* (m.)	*Depth* (m.)
A	180	12·5
B	200	12·5
C	180	12·5

PRATIQUE: See Moji.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Two tugs join vessel at entrance of harbour (in front of harbour signal station). Vessels exceeding 20,000 tons gross require 3 tugs. One of them will join vessel at Mutsure leading into main harbour and 2 join vessel at entrance of port (in front of harbour signal station).

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio. See "MAX-SIZE".

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).

MEDICAL: Kinjyo Hospital, Yawata; Shimada Surgical Hospital, Yawata. No advance notice required unless urgent.

DENSITY: Average density in the port is about 1.019–1.021 in summer season, 1.025–1.026 in winter season.

FRESH WATER: Available in connecting lines from shore side at wharves Nos. 1, 2, 3, 8, 9. No. of hydrant 5 4 5 5 5. At buoys: from barges, arranged from Wakamatsu. Rate of delivery: 55–70 tons per hr. ex-hydrant, 60 tons per hr. barge. Overtime (0500–0800) (1700–2200), 50% add.; (2200–0500), 100% add.; bad weather, 50% add.; Sundays and holidays, 50% add.; minimum quantity at Tobata, 30 tons; minimum quantity at Mutsure, 50 tons.

FUEL: Available ex-barge. All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

FIRE PRECAUTIONS: No tanker berth. Each tugboat equipped with fire extinguishing system for attending emergencies on request.

DEVELOPMENTS: No. 4 wharf completed. Depth of water about 17 metres, but also 2nd plan for 19 metres. Berthing capacity, over 150,000 dwt.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo aboard.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: See "Yawata".

REPAIRS: All types of deck and engine repairs possible afloat.

DRY DOCK: No dry dock.

REPATRIATION: Possible.

AIRPORT: See "Yawata".

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Tobata police office, tel. 093–87–4321; Wakamatsu Water Police, Tobata Branch, tel. 093–87–1561; Ambulance/Fire: Tobata fire department, tel. 093–87–2621.

TELEPHONES: See "Yawata".

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Kitakyushuko Kanti-Kumiai, Nishikaigan-Dori, Moji-ku, Kitakyushu City.

AGENTS: Sub-Agents of Dodwell & Co. Tokyo. Holme Ringer & Co. Ltd., c/o Tobata Works of Yawata Iron and Steel Co. Ltd., Motomiya-cho, Tobata-ku, Kitakyushu. Tel. Tobata (093) 87–1561 (ext. 5528). Telegraphic, Ringer Yawata.

TOKUYAMA: 33.59 N. 131.45 E.

Port situated in Yamaguchi Prefecture on Western part of mainland, facing Seto Inland Sea. Surrounded by Oshima peninsula on the East, by Otsu-Shima and Uma-Shima (islands) on the South-west, and by the land on the North. Forms a grand bay with deep water suitable for shelter. Sen-Shima and Kurokami-Shima (islands) lying in harbour, divide it into Tokuyama section and Tonda section.

DOCUMENTS:

(*a*) *Customs.* When vessel arrives direct from foreign port, Customs officials will board her for search. The following documents are to be submitted:

Crew List.
Passenger List.
Store List.
Manifest of Crew Personal Effects (must be signed by individual crew member).
Arms and Ammunition List.
Narcotics List.
List of Ports of Call on current voyage.
Discharging Cargo Manifest.
Through Cargo Manifest.
Declaration Inward/Outward (form No. 02000).

The following will be checked on board: Ship's Registry, Last Port Clearance. When vessel comes from Japanese port, Customs officials will not attend on board, except special case. Master or Agent are to attend at Custom House for entry formalities with the following documents:

Discharging Cargo Manifest.
Through Cargo Manifest.
Declaration Inward/Outward.
Ship's Registry.
Last Port Clearance.
Documents entrusted with Master by Customs at previous port.

On vessels' departure a clearance is issued by Customs, after confirming payment of tonnage dues. Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

(*b*) *Immigration.* Immigration officials attend from Tokuyama. They board vessel on arrival to examine passports, discharge books and/or other equivalent travel documents, and provide 72-hour landing passes for crew members and passengers. One copy each of Crew List and Passenger List are required by them. Providing ship's Agent with a Crew List beforehand will be a great help in expediting immigration business on vessel's arrival. When vessel stays in port more than 72 hours, the landing passes will be extended every 72 hours on application. In event that crew members, without entry visas, are to be landed for repatriation or transfer, Immigration will not permit their landing unless passage, by either sea or air, ensuring the prompt departure from Japan (within 72 hours) of these men has been booked, or unless vessels to which they are to be transferred, arrive in Japan within 5 days.

PILOTAGE:

Inland Sea Pilot (*Sekisaki/Tokuyama*): Not compulsory. Agent gives 24 hrs. notice to Pilot Association, Moji, and advice if ETA changed. (Master to cable "Anjin Moji" in case ETA changed and believes that his advice, if relayed by Agent, will not reach in good time; for example, at night before date of arrival at Sekisaki). Location: 3 miles South of Sekisaki lighthouse (33° 13′ N., 131° 54′ E.). Pilot boards on vessel's arrival at pilot station day and night. No alternative area in event of bad weather. No VHF.

Harbour Pilot (*Tokuyama Harbour or Tokuyama-wan*): Not compulsory. Pilot boards in Tokuyama-wan at quarantine anchorage, or other anchorage to pilot to berth. Master who has not taken Pilot at Sekisaki should enter harbour without Pilot (no pilot station at entrance). Master to inquire position for anchoring from Agent prior arrival. Agent will advise Master in consideration of vessel's size, draft or nos. of other vessels, especially supertankers, in port.

ANCHORAGE: Quarantine anchorage, 34° 01′ N. 131° 46′ E., depth water 36 ft. Deeper water of more than 60 ft. about 2 miles S.W. of quarantine anchorage where quarantine board supertankers. If harbour congested, vessels, especially supertankers, anchor outer harbour. In this case quarantine go to outer harbour if advised by Master or Agent. In emergency or unable contact Agent, vessel can talk with Harbour Master by VHF, Channel 16, calling "Tokuyama Hoan". No restriction for entry into and/or departure from the anchorages after nightfall.

MAX. SIZE: Biggest recorded vessel to enter, 215,000 tons dwt, 64 ft. draft.

HEALTH: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health conditions on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:

Maritime Declaration of Health.
Crew List.
Passenger List.

The following vessels will not be able to get radio pratique:

A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or any suspected case of infectious disease, within 15 days of arrival.

If crew or passengers on board do not possess Valid Smallpox Vaccination Certificates.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Join inside harbour. For supertankers outer harbour if requested. Tugs' lines used. Eight tugs available, up to 4000, h.p.
BERTHING: Also see "Tankers". No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

(a) Wharf	Length (m.)	Depth (m.)	Capacity (g/t)	Cargo
Tokuyama Soda Salt pier	117	10·5	15,000×1	Salt

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ships crew. Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).
Loading/Unloading facilities
(a) Gangs: Maximum 20 gangs are available.

Classification	Regular employees	Temporary labourers
Stevedores	160	180
Longshoremen	80	60

Tokuyama Kairiku Unso Kabushiki Kaisha; Kamigumi & Co. Ltd.; Toyo Koun Co., Ltd.; Sankyu Transportation & Engineering Co., Ltd.
(b) Lighters: No lighter is available, but semi-motor schooners are arrangeable in case of need.
(c) Shore crane: None.
(d) Floating crane: No. 1. Capacity, 100 tons. Owners, Maruike Kaiun (from Kudamatsu).
(e) Average performance of loading/unloading: Loading: Cement in bags, 55–65 tons per hr./gang; Soda ash in bags, 40–50 tons per hr./gang; Fertilisers in bags, 55–65 tons per hr./gang. Discharging: Salt in bulk, 65–75 tons per hr./gang.
Working hours: One labour shift. Normal working hours: 0800 to 1700 hours. Overtime is possible by applying to Customs. No work can be arranged for during New Year holidays (1st to 3rd January).
MEDICAL: No advance notice required unless urgent. Hospital: Asanoumi Hospital, Asami Hospital, Ono Dental Plant.
TANKERS: No slop facilities.
(a) Idemitsu Oil installation.

Berth	Length (m.)	Depth (m.)	Mooring capacity (g/t)	Discharge efficiency per hr.	
Ohura No. 3 Jetty	250	13	50,000×1	Crude oil	5,000
				Fuel oil	4,000
				Diesel oil	4,000
Ohura No. 5 Jetty	300	13	70,000×1	Crude oil	5,000
				Fuel oil	4,000
				Naphtha	3,000
Centre Pier	220	12	35,000×1	Crude oil	2,000
				Fuel oil	1,500
				Diesel oil	1,500
				Kerosene	800
				Naphtha	1,000

Sea berth: is located in Tokuyama Bay at the position of 33° 59·5′ N., 131° 46·1′ E., consisting of seven mooring buoys. 130,000 tons deadweight tanker can be accommodated at this berth, being moored to buoys fore and aft. Four powerful tug boats and two line boats are engaged in berthing/unberthing. The depth of water is 20 metres. The 30-in. or 36-in. submarine oil-pipe is connected to vessel; discharge efficiency of crude oil per hour is 10,000 tons. Vessel should have derricks of more than 10 tons capacity.
(b) Nippon Seiro Refinery: The mooring berth consists of one oil pier and two mooring buoys, to which vessel is moored fore and aft, keeping about 15 metres off the pier. The depth of water is 12 metres. The maximum size of vessel which can be accommodated is 25,000 gross tonnage. A 10-in. floating oil-pipe, which joins with the shore pipe-line at the end of the oil pier, is connected to vessel; discharge efficiency per hour is 600 tons.
Nippon Geon Wharf (25 ft.) (for LPG).
DENSITY: Salt. 1.025.
FRESH WATER: Water barges available, one each of 450 tons, 350 tons and 160 tons. Hydrants at Idemitsu Central pier, Toyo Soda wharf. The rate of delivery: 50 tons per hour from barge, 20 tons per hour from hydrant.
FUEL: Ex-barge. Delivery rate 80–100 tons/hour. All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. Bunkering alongside Refinery berths not permitted.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo aboard.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None.
REPAIRS: Minor repairs only.
DRY DOCKS: Kasado Dockyard in Kudamatsu-wan, entrance 3 miles East of Tokuyama-wan entrance. Largest dry dock for 50,000 tonners and 4 other dry docks/building docks.
AIRPORT: Hiroshima (about 2·5 hours by taxi/train), Ube (2 hours by taxi/train) (two flights a day).
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Police, tel. 110; Ambulance and Fire, tel. 119.
TELEPHONES: No facilities for placing on board.
SERVICES: From Moji, Kobe or Osaka.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Port and Harbour Bureau.
AGENTS: Sub-Agents of Dodwell & Co. Ltd., Tokyo. Tokuyama Kairiku Unso K.K., 2–18 Chikko-machi, Tokuyama. Tel. Tokuyama (0834) 31–1292. Telegraphic, Ringer Tokuyama.

TOKYO: 35.43 N. 139.45 E.

DOCUMENTS:
3 copies Inward/Outward Declaration – (Form C.2000).
1 copy Berth Application (normally prepared by Agent).
1 Cargo Manifest (Form C.2030).
1 List Ship's Stores (Form C.2060).
1 Parcel List.
1 Passenger Manifest (Form C.2070).
1 Crew Manifest (Form C.2080).
1 Statement by Master (Form C.2020).
1 Declaration for Payment Tonnage Dues.
1 Maritime Declaration of Health.
1 Application for Shore Passes.
PILOTAGE: 12 hours advance notice of ETA required. Pilot boats named Musashi, Takao, Tsukuba and Asuka. No light or sound signals, use ship's radio in case necessity arises. Address: Tokyo Pilot Union, 3–26–82 Kaigan, Minato-ku, Tokyo (at the Southern tip of the Shibaura Wharf). Tel. (453) 1691.
Pilot boards vessel outside harbour. Vessel awaits Pilot around "Quarantine Anchorage".
Vessels requiring a Pilot for the Uraga Channel should radio request to ANJIN Yokosuka advising ship's details and arriving time at No. 1 Uraga Channel light buoy. Uraga channel Pilot embarks three/five miles S.S.E. of Kannonsaki lighthouse, and will disembark on arrival at destination port limits. Applications for Uraga channel Pilot should reach pilot office 24 hours before vessels arrival at No. 1 Uraga channel light buoy.
ADVANCE APPLICATIONS: Passenger ships and large vessels using mooring facilities must submit applications for use of facilities to port managers (the Port and Harbour Bureau of Tokyo Metropolitan Government) through shipping firms or Agents 24 hours before entry into port so that they may have berths designated.
When they want to use anchorage facilities, they must submit applications for use of anchorage areas to Tokyo–Yokohama Port Director (the Port and Harbour Section of the Tokyo Maritime Safety Agency) to have anchorage sites designated. Small vessels of less than 300 gross tons do not need to submit anchorage application.
When ships of over 500 gross tons want to enter port at night (from sunset to sunrise), must submit applications in advance to port director and receive permission. Copy of written permission given to captain of ship when ship has entered port.
A ship carrying explosives or any other dangerous cargo must submit two copies of application in advance for permission to use port to Port Director. Such ships required to stay outside port in No. 3 Area. However, they will be allowed to enter port when port director considers it allowable.
RESTRICTIONS: No. 1 fairway is long and narrow (5,400 metres × 300 metres) and carries considerable traffic. Vessels under 500 tons not permitted use fairway when vessel over 5,000 tons is in transit. Depth in channel 90 m.
DEPARTURE PROCEDURE: Ship over 300 tons departing must hoist signal in daytime and two white lamps at night and make two prolonged blasts of whistles or siren 30 minutes before starts to move and then act according to signals given by signal station on Shibaura Quay. Departure notice must be submitted to Maritime Safety Agency and port managers (Operations Section of Port and Harbour Bureau). Foreign ships must submit required documents in addition to above notice to Tokyo Custom House, Immigration Control Office and Tokyo Medical Inspection Station to receive permissions from these quarters.
ANCHORAGES: (See "Advance Applications".)

Quarantine anchorage on starboard hand of No. 1 fairway.

Sector A triangular sea area formed by line passing through point 180° and 400 metres from light buoy No. 16 and point 105° and 240 metres from same light buoy. Accommodates one 1,000-ton class ship or two ships of 500-ton class or smaller.

Sector B circular area with radius 120 metres from point 295° and 380 metres from tide signal post of No. 3 Daiba. Accommodates one 1,000-ton class ship.

Sector C (263,330 square metres) is a space between Harumi Wharf and Toyosu Wharf. Accommodates five 2,000 ton class vessels.

Sector D (141,350 square metres) sea area enclosed by line drawn from point 217° and 400 metres from North-western tip of Tsukishima Fishery Base through No. 8 mooring buoy. No. 15 buoy and Southern tip of Tsukishima Fishery Base. Accommodates five vessels smaller than 1,000 tons, but two if vessels larger than 700 tons.

MAX. SIZE: (Draft). Tanker, 9·5 m. or less; bulk carrier, 9·3 m. or less; general cargo, 9·3 m. or less. (Quay and Pier capacity). Passenger vessels up to 20,000 gross tons or cargo vessels up to 15,000 dead weight tons.

(Tide). Vessels of said size will not be affected by tide. Largest vessels to enter: tanker, 29,060 dwt.; bulk carrier, 19,947 dwt.; general cargo vessel, 19,599 dwt.

PRATIQUE: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health condition on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:

Maritime Declaration of Health.

Crew List.

Passenger List.

The following vessels will not be able to get radio pratique:

A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or suspected case, of infectious disease within 15 days of arrival.

If crew or passengers on board do not possess valid Smallpox Vaccination Certificate.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

Medical inspection of plants: When a report is received in advance from a ship by telegraph or other means of communication, Tokyo Office of the Yokohama Plant Disease Prevention Station must be notified by telephone or verbally in request for an on-the-spot inspection of plant in question.

Medical inspection of animals: When a report is received from a ship in advance by telegraph or other means of communication, the Tokyo Branch or the Haneda Branch of Animal Disease Prevention Station must be notified by telephone or verbally in request for an on-the-spot inspection of the animals.

RADIO: Vessels entering are watched at all times at Torigasaki, the entrance gate to Tokyo Bay, and record of passing the point is taken. As each ship passes point, this is immediately communicated by VHF radio telephone to head office of Toyo Signal Communications Company. From here news communicated on normal telephone or on exclusive direct call telephone to interested parties. (Also see "VHF".)

Recommended Captain communicates with Agents through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Chosi and North bound to Nagasaki Radio respectively.

TUGS: The port has two tug companies: (i) Toko Service Co., Ltd., 3–25–8, Kaigan, Minato-ku, Tokyo. Tel. (452) 4781. (ii) Shibaura Tsusen Co., Ltd., 3–1–3, Kaigan, Minato-ku, Tokyo. Tel. (451) 3871. Upon notification to either, tugs will be waiting in neighbourhood of scheduled berth. Ship's lines to be used.

BERTHING: Any vessel entering port required to:

(1) Submit one each of "Declarations Inward Outward of Vessels" to TMG and TMSA. See "Documents". (2) Submit "Application for Berth" to TMG. See "Documents". (3) Submit "Application for Designation of Anchoring Site" to TMSA (Form No. 13) regarding anchoring area. Berthing will be in order of arrival, passenger and special cargo vessels excepted.

Name	*Length*	*Depth*
Shinagawa Wharf	1,143 metres	10 metres
Shinawaga Wharf	476 metres	8 metres
Sibaura Wharf	910 metres	7·5 metres
Shinode Wharf	565 metres	6·7 metres
Takeshiba Wharf	309 metres	6·7 metres
Harumi Wharf	1,707 metres	9/10 metres
Toyosu Wharf	550 metres	7·5 metres
Toyosu Wharf	250 metres	10 metres
other wharves		up to 7·5 metres

BULK HANDLING FACILITIES: Containers handled at two berths at Shinagawa Wharf equipped with gantry cranes lifting capacity 30 tons and 37·5 tons.

In current port development programme there is provision for a further 11 container berths in the port of Tokyo.

STEVEDORES: Advance advices should be made 24 hours at latest before vessel's arrival order arrange necessary gangs.

Discharge rates (approx.):

(*a*) Iron, steel and scrap, using crane or magnet, about 1,000 tons/day.

(*b*) Coal, crane and bucket, 1500/2,000 tons/day.

(*c*) Ores, grabs and bulldozers, 1,000 tons/day.

(*d*) Timber, 1,000 tons/day.

(*e*) Grain, crane with bucket or suction, 1,000 tons/day.

VHF:

A.	Transmitting antenna:	Located 39°26′ N. 139°39′ E.
B.	Type:	Single communication – Yagi type. Plural communication – corner reflector type.
C.	Direction:	Southern part of entrance to Tokyo Bay and Port of Tokyo.
D.	Frequency class:	F3
E.	Frequency:	Single communication – 156·6 mc/s., CH 12 156·7 mc/s., CH 14 156·8 mc/s., CH 16 (for calling, answering and safety) Plural communication – 161·6 mc/s., CH 20 161·7 mc/s., CH 22
F.	Antenna power:	50 W.
G.	Call sign:	Tokyo Port Radio.
H.	Range:	Approx. 1,000 km (straight range) South-east side – About 20 nautical miles South of Mojimazaki South-west side – about 5 nautical miles North of Oshima Island. North side – Tokyo Port and Chiba Port.
I.	Operating time:	All times.

Ship telephone: Uses VHF and is a service between navigating or anchored ships and subscriber telephones on land, and between ships connected via base station on land. Communicating sphere approximately 50 to 100 kilometres from base station. Base stations located so as to allow communication with any ship sailing along Japanese coasts.

Charges for device: Y1,000 for one telephone set and actual cost for use by ship.

Service charges: (in case Japan Telegraph and Telephone Public Corporation installed the unit) Y22,000 a month for long term, Y1,100 a day for short term.

Call charges: Within specified call area for ship telephone in general – Y90 up to 3 minutes and additional Y30 per minute after the 3 minutes.

MEDICAL: Hospitals, clinics and all specified facilities. Advance notice not necessary.

TANKERS: No slop discharge facilities, (but see "Services"). One tanker berth only, max. permitted draft 9·5 metres.

FRESH WATER: Water supply from hydrant by Tokyo Metropolis, and waterboat by private management.

(*a*)	Water supply on wharves	
	Application	Bureau of Port and Harbour Offices in charge of each wharf.
	Work of water supply	Tokyo Port Service Association.
(*b*)	Water supply by water boat	
	Extra charge	Overtime from 17.00 to 23.00 50% from 23,00 to 7.00 100% Special district 50% Festal day 50%

In the case of less than 15 tons per time, it will be considered 15 tons supply.

FUEL: All grades available. 24 hours notice required.

FIRE PRECAUTIONS: (Tankers).

1. Must enter port at dead slow speed preceeded by patrol boat of TMSA, one tug boat each side of vessel and followed by fire patrol boat.

2. Engine to be kept ready for immediate use in case of emergency.

3. Tow lines to be placed over bow and stern with eyes close to water surface.

Note: No vessels allowed alongside a tanker during loading or discharging.

DEVELOPMENTS: Port and Harbour programme for Tokyo, completion date target 1975.

1. Major reclamation and development of land.

2. Expansion of anchorage for discharging timber. Timber yards to be expanded.

3. No. 10 sector to be equipped to meet increasing internal trade.

4. Specialised wharves for iron, steel, timber and containers will be constructed.

5. No. 15 and Keihin No. 6 sections constructed to handle dangerous cargoes, mainly petroleum products.

6. Basin facilities and canals to be improved.

7. Dredging work in progress on 2nd fairway. When completed this fairway will be 300 m. wide and about 9 m. deep to be increased to 10 m. at a later date. A third fairway is also programmed.

GANGWAY/DECK WATCHMEN: Necessary only in the case of valuable cargo.

OPENING/CLOSING HATCHES: Normally by crew.

CUSTOMS ALLOWANCES: (Tobacco) 200 cigarettes a week. (Wine and/or spirits) 760 cc's per crew member per week.

IDENTIFICATION CARDS: Not required.

CONSULS: No consulates. But most countries have embassies in Tokyo.

REPAIRS: All grades of repairs available.

DRY DOCKS: Largest dry dock: length 180 m.; width 24 m.; depth, 7·27 m. Capable of accommodating vessel of 16,750 gross tons.

Also one other dry dock for ocean-going vessels.

REPATRIATION: All facilities. Crew accommodation:
(1) Tokyo Seamen's Club, 1–4–9 Kaigan, Minato-ku, Tokyo, Tel. (433) 5688.
(2) Tokyo Shibaura Seamen's Home, 1–11–8, Shibaura, Minato-ku, Tokyo. Tel. (451) 3249.
(3) Kaiko-ryo, c/o Tokyo Central Wholesale Market, 5–2–1, Tsukiji, Chuo-ku, Tokyo. Tel. (541) 0934.
AIRPORT: Distance to Tokyo International Airport, approx, 18 km.
TIME: GMT plus 9 hours. Permanent.
HOLIDAYS: National Holidays: New Year Holidays (Dec. 31st–Jan. 3rd); New Year's Day (Jan 1st.); Adult Day (Jan. 15th.); Foundation Day (Feb. 11th.); Vernal Equinox Day (around Mar. 21st.); Emperor's Birthday (Apr. 29th.); Constitution Commemoration Day (May 3rd.); Children's Day (May 5th.); Respect-for-Age Day (Sept. 15th.); Autumnal Equinox Day (around Sept. 23rd.); Tokyo Festival (Oct. 1st.); Physical Education Day (Oct. 10th.); Culture Day (Nov. 3rd.); Labour Thanksgiving Day (Nov. 23rd.).
No cargo work on 1st or 3rd Sundays of each month, and no work from 31st December to 3rd January inclusive. Cargo work can be arranged on all other days including National Holidays.
POLICE/AMBULANCE/FIRE: Tokyo Water Police, 1–11–12, Kaigan, Minato-ku, Tokyo. Tel. (433) 2411. Call Fire Stations for ambulances. Tokyo Water Fire Station, 5–1–23, Kachidoki, Chuo-ku, Tokyo. Tel. (531) 3121–3.
TELEPHONES: (also see "VHF")
Installed on ships moored at piers or jetties to allow telephone communications between ships and subscriber telephones on land and between ships.
SERVICES: Two tank cleaning companies available with barges of capacity 100 tons for disposal of residues. All other usual services available.
SHORE LEAVE: Crew members allowed ashore upon ship master's request to Tokyo Immigration Office if have valid passports or seaman's pocket ledgers. In case a crew member has a criminal record or has been expelled from Japan, he will not be allowed ashore.
PORT REGULATIONS: Maintenance of order in Port of Tokyo is under the responsibility of TMSA in accordance Port Regulation Law. In case of an occurrence of disaster, TMSA and the Tokyo Water Fire Station will take charge of refuge, rescue and fire fighting.
DELAYS: Congestion in the port. Bad weather.
AUTHORITY: Bureau of Port and Harbour, Tokyo Metropolitan Government, 5, Marunouchi 3, Chiyoda-ku, Tokyo. Tel. (212) 5111.

AGENTS: Dodwell Tramp Agencies, CPO Box 297, Togin Building, 4–2, 1-chome, Marunouchi, Chiyoda-ku, Tokyo. Tel. (03) 211–2141., Telegraphic: Dodwell Tokyo. International Telex: TK 2274, TK 2602.

TOYAMA: 36.46 N. 137.13 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
6 Crew Lists, including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).
Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Not compulsory. No telegraphic address for pilot station. but Pilot arranged through Agent whom keep advised ETA which may be sent through Niigata Radio. Pilot boards one mile off East breakwater from small tug. In event bad weather recommend remain outside port until weather clears. Pilot available day-time only.
ANCHORAGE: The harbour at the Jintsu river mouth is always calm. Covers about 125 acres, with depths of from 16½ to 33 ft. over mud and sand. Room at anchorage for at least four vessels over 5,000 gross tons. Anchoring position for ocean tankers is 36° 48′ N.; 137° 14′ E.
MAX. SIZE: Length 170 metres. Draft 9·5 metres (summer) and 9·10 metres (winter). Tidal range max. 0·45 metres. Also see "Tankers".
PRATIQUE: See Fushiki.
RADIO (Also see "Pilotage"): Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Usually join vessel at port entrance but can join outside harbour for large vessels. Used only when pilot aboard.
"Narita Maru" – 2,060 h.p. uses own lines free of charge.
"Nihonkai Maru" – 1,800 h.p. uses own lines free of charge.
"Raicho Maru" – uses ship's lines.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
MEDICAL: No advance notice required unless urgent.
TANKERS: Maximum size: 80,000 gross and 150,000 Dead Weight, Max. Length overall 300 metres, and Safety Draft 19 metres for Sea Berth of Nihonkai Sekiyu K.K., Toyama. Two lines, diameters 16 in. Reducing pieces supplied as necessary. Discharging of Arab crude and Sumatra crude. Average discharge rates: Under 50,000 dwt – 2,000 tons/hour; above 50,000 dwt – 2,500 tons/hour.
DENSITY: 1015–1019 min./max.
FRESH WATER: Available ex-wharf at Nos. 1, 2, 3, 4 and 5 wharves; average 40 tons/hour. Other berthing positions supplied by barge which ordered from Fushiki and is filled up at Toyama.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
FIRE PRECAUTIONS: Nihonkai Oil Co., Toyama, issue Safety Regulations to Master on arrival tanker sea-berth.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo aboard.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crewdoing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: Nil.
REPAIRS: Minor repairs only.
DRY DOCKS: Nihonkai Juko Co. Ltd., Toyama. No. 1 dock, used for construction. No. 2 dock, ship-building capacity: length, 104 metres; width, 15 metres; depth, 1·8 metres. Size of dock: length, 112 metres; width, 14·6 metres. depth, 4 metres. Maximum building capacity, 4,000 gross tonx. No. 3 dock, ship-building capacity: length, 150 metres; width, 20·8 metres; depth, 5 metres. Size of dock: length, 168·2 metres; width, 21·88 metres; depth, 9·2 metres. Maximum building capacity, 10,750 gross tons.
AIRPORT: Toyama airport, distance about 10 kilometres. Two daily flights.
TIME: GMT plus 9 hours. Permanent.
POLICE/AMBULANCE/FIRE: Police, Toyama North Police Station, Toyama (0764) 37–7171; Ambulance, Toyama Iwase Fire Station, Toyama (0764) 37–7141 or 119; Fire, Toyama Fire Station, Toyama (0764) 37–7141.
TELEPHONES: No facilities for placing on board.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Toyama-Kencho, 1–7, Shinsomagatiwa, Toyama City.

AGENTS: Sub-agents of Dodwell & Co. Tokyo. Fushiki Kairiku Unso K.K., c/o Toyama Kowan Unso K.K., 100 Higashi-Iwase-cho, Toyama-shi. Telegraphic, Fushiki-kairiku Fushiki. Tel. (0764) 38–1100.

TOYAMA SHINKO: 36·47 N. 137 10 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
6 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).
Ship's Agents will prepare Inward/Outward Declaration, 2 Cargo Manifest and 1 Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Pilot available any time during daylight. Not compulsory. No telegraphic address of pilot station, therefore, direct advice to local Agent always required. Pilot meets vessels 209 degrees 2 miles off leading light of Fushiki Port, thence takes vessel to Fushiki Quarantine Anchorage ground, due to many fish-nets on both sides of fairway. No Quarantine Anchorage ground established presently at Toyama-Shinko, therefore, every vessel obtains Free pratique at Fushiki. If requiring to come into Quarantine Anchorage without taking Pilot, necessary to advise Agent in advance. In case of bad weather and need to await outside port, recommend cruising in Toyama Bay until sea abates. Bay area too deep to anchor and also danger of fish-nets. When approaching position for Pilot, give exact ETA to Agent by using Niigata Radio and/or VHF to Fushiki Harbour Master. Small wooden pilot-boat painted yellow. No particular light or sound signals required. Even if the vessel already obtained free pratique in other port, need to approach the aforesaid position for Pilot, because of no pilot position located in Toyama-Shinko.
ANCHORAGE: No anchorage at Toyama-Shinko, therefore, if vessel required to await for berth or some other reason, use Fushiki Outer Anchorage ground where safe at all seasons with depth from 8 to 11 metres. Sand and clay bottom. Room at anchorage for at least six vessels over 5,000 gross tons.
RESTRICTIONS: Pilot not available during darkness. No restrictions on tide, because small tide in all seasons. If draft over port limitation, vessel enters port after making adjustment by lightening in Outer Harbour in Fushiki.
MAX. SIZE: Length 200 metres, draft 34 feet. Tidal range is maximum 0·45 metres.
PRATIQUE: See Fushiki.
RADIO: (also see "Pilotage"). Recommend Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover

all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Tugs normally join vessel at port entrance, but sometimes in Fushiki Outer Harbour for larger vessels. Marita-Maru (2,060 h.p.) and Nihonkai-Maru (1,800 h.p.) provide lines, free of charge and Raicho-Maru (760 h.p.) uses ship's line. In case public tug, i.e. Nihonkai-Maru and Raicho-Maru used, always require Pilot on board.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must contantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours 50% additional of basic stevedorage; 2100–0500 hours next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
DENSITY: Average density between 1015 and 1019 in all seasons.
FRESH WATER: Available, from wharfs No. 1, 2, 3 & 4, average 10 tons per hour. In other berths, to be supplied by barge, average 50 tons per hour.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker ports at maximum 7 days prior notice.
DEVELOPMENTS: (*a*) Planning to make one berth for 80,000 tons dwt. vessel, 280 metres long, 14 metres deep. However, the berth already constructed, and necessary to dredge to make deeper than present depths of 10·5 metres, together with making channel from 200 metres to 300 metres wide with 14 metres deep. (*b*) Planning to make 3 berths for 15,000 tons dwt., and 2 berths for 5,000 tons dwt.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and net tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.
CONSULS: None.
REPAIRS: Minor repairs only.
DRY DOCKS: No dry docks. Nearest available in Toyama.
REPATRIATION: Possible.
AIRPORT: Toyama Airport about 25 kilometres distance. Two regular services a day. ANA only.
TIME: GMT plus 9. No alterations made to clocks during year.
HOLIDAYS: 1st May and New Year's day, most probably from 31st Dec. to 3rd Jan.
POLICE/AMBULANCE/FIRE: Police, Shinminato Police Station, Shinminato (07668) 2–3141; Ambulance, Shinminato Fire Station, Shinminato (07668) 2–3175; Fire, Shinminato Fire Station, Shinminato (07668) 2–3175.
TELEPHONES: No facilities for placing telephones on board.
SERVICES: Hold cleaning available.
SHORE LEAVE: Local Immigration Officers issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer. Attending from Fushiki Immigration Office, Fushiki, due to no office in Toyama-Shinko.
AUTHORITY: Toyama-Kencho, 1–7 Shinsomagatiwa, Toyama City.
AGENTS: Subagents of Dodwell & Co. Ltd., Tokyo, Fushiki Kairiku Unso Co. Ltd., 6–6 Fushiki-Minatomachi, Takaoka-Shi, Toyama-ken, and/or Toyama-Shinko Branch; 3-go ganpeki haigo-chi, Toyama-Shinko, Kataguchi, Shinminato-shi, Toyama-ken. Tel. Head Office in Fushiki; Takaoka (0766) 44–1300/9 and Toyama-Shinko Branch; Shinminato (07668) 4–3330. Telegraphic address Fushikikairiku Fushiki, only to Fushiki Head Office.

TSUKUMI: 33.05 N. 131.52 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Not compulsory, but recommended unless Master well acquainted with locality. Pilot embarks vessel at anchorage, position 33° 05′ 30″ N. 131° 54′ 00″ E. Request for Pilot made through Agent; Master to report ETA 24 hours prior arrival.
ANCHORAGE: Good holding anchorage available; depth of water about 25 m. Loading and/or unloading of cargo usually effected alongside wharves and in event of loading/unloading at anchorage, when rough weather prevails, difficulty sometimes experienced on account of swell from open sea. Therefore suggested that vessel anchor as close to shore as possible consistent with safety.
RESTRICTIONS:
(*a*) Berthing: Night entry or berthing after nightfall, though not impractical (depending on weather) is not recommended unless special arrangements (stevedores, etc.) necessitate vessel's immediate berthing.
(*b*) Departure: Night departure allowed, weather permitting, and subject Pilot's agreement.
MAX. SIZE:

Wharf	*Length*	*Depth*	*Capacity* (g/t)
Noshima Pier	168 m.	16.0 m.	60,000
Prefectual W. (Noshima W.)	164 m.	9·0 m.	10,000×1
Onoda Cement No. 1 W.	82 m.	8·0 m.	3,500×1
Onoda Cement No. 2 W.	185 m.	8·0 m.	10,000×1
Nittetsu Pier	155 m.	10·5 m.	18,000×1
Todaka Pier	120 m.	9·0 m.	15,000×1

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all vaccination cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agents through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: One tugboat named "Bungo" 1,600 h.p., 150 g/t.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agents mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).
MEDICAL: No advance notice required unless urgent.
DENSITY: Average density about 1.024.
FRESH WATER: Available. On prefectual wharf and Onoda No. 2 wharf, on Nittetsu Pier, and by barge on anchorage.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
FIRE PRECAUTIONS: By Marine Security Guards.
DEVELOPMENTS: New prefectural wharf. Now under construction. Length, 200 m.; depth, 15 m.; capacity 20,000 g/t×1, 3,000 g/t×1.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo aboard.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: Nil.
REPAIRS: Local workshop available only for minor repairs.
REPATRIATION: Possible.
AIRPORT: Oita airport; one hour from Tsukumi by train. Regular airlines: ANA, JDA, TAW.
TIME: GMT plus 9 hours. No alterations to clocks during year.
HOLIDAYS: 14th–16th August.
POLICE/AMBULANCE/FIRE: Police, 110; Ambualnce/Fire, 119.
TELEPHONES: No facilities for placing telephones on board.
SERVICES: No special services available, but if required will be arranged by Agent who calls from another port.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extensions possible if ship stays longer.
AUTHORITY: Usuki Doboku (Public Works) Office.

AGENT: Sub-agents of Dodwell & Co. Tokyo. Azuma Shipping Co. Ltd., 344–53, Shimoaoe, Tsukumi. Tel. Tsukumi (09728) 2–2144. Telegraphic, Ringer Tsukumi.

TSURUGA: 35.40 N. 136.03 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport nos.
3 Passenger Lists.
1 Stores List.
1 Declaration of Crew's Baggage, i.e. tobacco wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Daylight hours only. Pilot arranged through Agent. Await Pilot at quarantine anchorage (see "Anchorages").

ANCHORAGES: Quarantine anchorage is best area for anchoring to avoid heavy weather (being protected from the North by mountains). Position 35° 40′ 08″ N.; 136° 02′ 55″ E.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all vaccination cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Join ship inside breakwater and use tug's line.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio. Depths alongside up to 12·0 metres.

New wharf depth 10 metres.
Kanegasaki Wharf, depth 9·5 metres.
Railway Wharf, depth 8·5 metres.
Horai Wharf, depth 7·3 metres.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).

MEDICAL: No advance notice required unless urgent.

TANKERS: No facilities for big tankers.

DENSITY: Average density through year 1.023.

FRESH WATER: Available from wharf, and by barge.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay, and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspectors ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Minor repairs only.

AIRPORT: Distant one hour by train. Two flights daily to Tokyo.

TIME: GMT plus 9 hours. Permanent.

POLICE/AMBULANCE/FIRE: Police, 2–4000; Ambulance and Fire, 119.

TELEPHONES: Not available for placing on board.

SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

SERVICES: Hold cleaning.

AUTHORITY: Tsuruga Port Office.

AGENT: Sub-agents of Dodwell & Co., Tokyo. Tsuruga Kairiku K.K., 2–10, Sakura-cho, Tsuruga. Tel. (07702) 2–3111. Cables, "Kairiku".

UBE: 33.56 N. 131.15 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists, including passport numbers.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory but recommended unless Master well acquainted with area. No harbour Pilot stationed at Ube but Inland Sea pilot will attend.

Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland sea Pilot Association covers all inland sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessel's last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with inland sea pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGE: Sea bottom is mud.

	Depth	
	4–7·5 m.	*7·5–10 m.*
Sheltered	73,000	233,100 sq. m.
Unsheltered	12,175,500	680,000

RESTRICTIONS:

(*a*) Outer harbour: No restriction.

(*b*) Inner harbour: Berthing/unberthing is practicable only during daytime.

(*c*) Deep draft vessels may berth at high water only.

MAX. SIZE: See "Berthing" and "Tankers".

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera infected area whithin 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agents prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agents through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West-bound vessel to Choshi and North-bound to Nagasaki Radio respectively.

TUGS: "Naruto Maru" 2,800 h.p. stationed at Ube. Other tugs available from Moji or Tokuyama. Tug's lines used at no extra charge.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agents mainly by radio.

Wharf	*Length*	*Depth*
Ube Cement wharf	247 m.	9 m.
Ube Kosan Chisso wharf	188	9
Ube Kosan Urea wharf	223	9
Ube Kosan No. 2 pier	131	9
Central Glass wharf	162	10

Wharf for Limestone

Name of wharf: Okinoyama Limestone Wharf (Ube Kosen No. 5 Wharf). Length of wharf 165m. Maximum safe draft 11·00 m. Maximum D/W tonnage 30,000 tons. Fairway 300 m. wide, 2·25 m. long, 8·80 m. deep, with shallow spot 8·40 m. at low water. Accessible max. draft 10·50 m. Facilities Loaders×2; 1,500 tons per unit/hour. Entry and Departure Berthing/unberthing is practicable only during daytime. Deep draft vessel may unberth at high tide only.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agents advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agents, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours (50 % additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).

MEDICAL: No advance notice required unless urgent.

TANKERS: Seibu Sekiyu Co. Refinery.

(*a*) Geographical Location: 33° 49′ 48″ North. 131° 13′ East. 163 degrees. 11,400 metres from Motoyama Misaki.

(*b*) Entry Permission: Sea berth located outside harbour limit of Ube port and treated as a closed port. Vessels therefore required to obtain special permission for entry from Customs at any open port prior to arrival.

(*c*) Restrictions: Max. 200,000 dwt. Max. safe draft 19 metres.

(*d*) Diameter/No. of shore pipes: Float-sink hose: 16 in×2 lines connecting to manifold; sub-marine hose: 20 in×2 lines; submarine pipe-line: 48 in.×1 line.

(*e*) Discharging Rate: 10,000 K.L per hour.

DENSITY: 1025.

FRESH WATER: (*a*) Water barges available from Moji and supply about 50 tons per hour. (*b*) Water from wharf supply at Central Glass Ube Cement and Ube Chisso wharves.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certifi-

cates sometimes required by stevedores when cargo gears maintenance appears to be poor.
CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None.
REPAIRS: Sasebo Heavy Industries Co., Ltd., Moji; Kitakyushu Iron Works, Tobata; Ube Dockyard Co., Ltd.
DRY DOCKS: None.
AIRPORT: 30 mins. by road.
TIME: GMT plus 9 hours. Permanent.
POLICE/AMBULANCE/FIRE: Police 110; Ambulance/Fire 119.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extensions possible if ship stays longer.
SERVICES: All services available.
AUTHORITY: Yamaguchi-Kencho 1–1, Takimachi Yamaguchi City.
AGENTS: Sub-agents of Dodwell & Co. Ltd., Tokyo.

Dry Cargo Vessels: Nippon Express Co. Ltd., 5–12, 3-chome, Chuo-machi, Ube City, Yamaguchi Pref. Cable address: Nexco Ube. Tel. Ube (08362) 2–5135.

UNO: 34.29 N. 133.57 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist watch, radio, firearms/swords, etc. (only at first port of call in Japan).
Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all inland sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot stations.
1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34° 38′ N.; 135° 11′ E. Telegraphic address "Anjin Kobe".
2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel.) Position 33° 13′ N.; 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.
3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N.; 131° 03′ 12″ E.
ANCHORAGE:

MAX. SIZE:
No. 1 Pier: 150 m. from South end, draft limit 8·5 m.; 120 m. from above to North end, draft limit 7·5 m.
No. 3 Pier: Depth of approaches, 15–20 m.; length of berth, 150 m.; depth alongside berth, 13 m.; maximum draft acceptable, 10 m.; maximum length acceptable, 150 m.; maximum width acceptable, 20 m.
Mitsui Kindoku (HIBI), Private Pier: Depth of approaches, 16–20 m.; length of berth, 176 m., dwt. 30,000 tons; maximum draft acceptable, 12 m.; maximum length acceptable, 176 m.
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all vaccination cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Tugs join vessel at out-harbour area. Tug's lines used.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).
MEDICAL: No advance notice required unless urgent.
TANKERS: None.
DENSITY: Winter 22·7; summer 23·98.
FRESH WATER: Available at pier (40 tons per hour) ex-shore pipe. Available by water barge, 50 tons capacity from Okayama.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N.; 131° 03′ 12″ E.
ANCHORAGES: No. 5 section, Wakamatsu. Depth 9–11 m. Capacity (g/t), 15,000×2. Also quarantine anchorage.

RESTRICTIONS: Easterly winds prevail in warm season, dense fog prevails sometimes in spring and winter, but generally clears in a few hours in the morning. Tidal range about 1½ metres and current in leading channel about 1½–2½ knots, but no current in port. Due to narrow channel leading to main harbour and shallow water at entrance of channel, length and draft of vessels are generally limited as follows:

Buoy: Ship's length overall, 165 metres; draft, 8·5 metres; gross tons, 11,000 tons.

Fairway leading into main harbour about 200 metres wide and 2 miles long, running parallel to a breakwater and reclaimed land. In this channel, as in main harbour and fairway, vessels observe only one-way traffic and on an outgoing signal from the shore, wait outside for outgoing vessel until channel is cleared. Vessels with draft of more than 7 metres can enter/depart only at high tide. Entry permitted only from sunrise and vessel to be berthed before sunset. Night departure prohibited.

MAX. SIZE:

Buoy	*Ship's LOA*	*Draft*	*Capacity*
	m.	m.	
"B"	165	8·5	11,000×1
"C"	165	8·4	11,000×1

"N"	147	6·7	7,000×1
"O"	147	7·3	5,000×1
"L"	165	8·5	10,000×1

PRATIQUE: See Moji.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Two tugs join vessel under Wakato bridge at corner of fairway leading to main harbour.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

BRIDGES: Wakato bridge. Height of mast limited to 38 metres for passing under bridge.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).

MEDICAL: No advance notice required unless urgent.

TANKERS: No tanker berths.

DENSITY: Average density in port about 1.019–1.021 in summer season; 1.025/1.026 in winter season.

FRESH WATER: Available. Rate of delivery: 50–60 tons per hr. ex-barge. Minimum quantity at buoy, 10 tons; minimum quantity at No. 5 sec., 30 tons.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

FIRE PRECAUTIONS: No tanker berth. Each tugboat is equipped with fire extinguisher system for attending emergency case at request.

DEVELOPMENTS: Land reclamation N.E. Wakamatsu for discharge wharves (coal/iron ore). Depth to be 12 metres. Completion 1973.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: See "Yawata".

REPAIRS: All grades deck and engine repairs afloat.

DRY DOCKS: None.

AIRPORT: See "Yawata".

TIME: GMT plus 9 hours. Permanent.

POLICE/AMBULANCE/FIRE: Wakamatsu Water Police, tel. 093–76–2731; Wakamatsu Police Office, tel. 093–97–2731; Ambulance/Fire: Wakamatsu Fire department, tel. 093–76–4031; Defence/rescue department, tel. 093–76–4353).

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Kitakyushuko Kanti-Kumiai, Nishikaigan-dori, Moji-ku, Kitakyushu City.

AGENT: See "Yawata".

WAKAYAMA: 34.14 N. 135.10 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists, including passport nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Wakayama-Shimotsu licensed Pilots. ETA advices to Agent. Pilot boards 1,500–2,500 metres off Wakayama break-water. Chart Nos. 1150 and 1143 (Japanese Maritime Safety Board). No pilot boat. Pilot boards from tug.

ANCHORAGE: For waiting Pilot and/or berth. (Nature of bottom, sand mixed with mud.) 1,500 metres 220 degrees from Red lighthouse; 1,500 metres 270 degrees from White lighthouse; 1,500 metres 235 degrees from Red lighthouse; depth about 11 metres.

RESTRICTIONS: Pilot available day-time only. Channel depth, 14·0 metres.

MAX. SIZE: (Wakayama Log Carrier): Section No. 1, LOA 150 metres, G/T 11,000 tons, draft 8·2 metres; South Section, LOA 160 metres, g/t 15,000 tons, draft 9·0 metres. (Sumitomo Metal Pier): LOA 250 metres, g/t 80,000 tons, draft 14·0 metres.

PRATIQUE: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health condition on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:

Maritime Declaration of Health.
Crew List.
Passenger List.

The following vessels will not be able to get radio pratique:

A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or suspected case, of infectious disease within 15 days of arrival.

If crew or passengers on board do not possess valid Smallpox Vaccination Certificate.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Tug assistance normally commences from outer harbour. Tug lines used and charge included in towage. Three tugs available, up to 3,000 h.p.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).

MEDICAL: No advance notice required unless urgent.

TANKERS: No tanker berth.

DENSITY: 1.025–1.030.

FRESH WATER: Available, Water boat, capacity 60 tons.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Minor repairs only. Wakayama-Sakai Co., tel. 0734–55–4147.

DRY DOCK: One small dock, Wakayama Zosen K.K.

REPATRIATION: Possible.

AIRPORT: Itami, Osaka, about 3 hours by car.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police, 110; Ambulance/Fire, 119.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Wakayama-kencho, 1–1, Komatsubara-dori, Wakayama City.

AGENTS: Sub-Agents of Dodwell & Co. Ltd., Tokyo.

YAWATA: 33.52 N. 130.49 E.

(See "Kanmon-Ko").

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists, including passport nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: *Harbour pilotage:* Compulsory for entry and departure, but not when passing through straits. Pilots embark East-bound vessels at Mutsure quarantine anchorage (see "Moji"), West-bound vessels at Hesaki quarantine anchorage (see "Moji"). Two Pilots embark vessels exceeding 20,000 gross tons, charging 180% pilotage.

Sea pilotage: Vessel approaching from East obtain Pilot by radio request made at least 24 hours in advance. Pilot embarks 3 miles South from Sekisaki lighthouse; 33° 13′ N.; 131° 54′ E.

Pilots should be kept closely advised of accurate ETA pilot station. If any changes, Masters requested radio immediately to pilot offices direct or through Agent reporting revised ETA. Cable addresses of pilot offices: Harbour Pilot, "Kanmonpilot Moji". Inland Sea Pilot, "Anjin Moji". Require 24 hours notice of ETA, but can attend with 2–3 hours notice in emergency cases.

ANCHORAGES: No anchorage at Yawata, but quarantine anchorage used in essential cases. See "Quarantine".

RESTRICTIONS:
(*a*) Because of narrow channel leading to Yawata and shallow water at entrance of channel, length and draft of vessel limited, except for berthing at Nishi-Yawata wharf, where 20,000 gross tonnage with 200 metres length overall and 8·3 metres draft may be accommodated. Limits:

	Wharf	*Buoy*
Length (overall)	166 m.	155 m.
Draft	8·5 m.	8·5 m.
Gross tonnage	10,000 tons	10,000 tons

Vessel slightly exceeding above may be berthed at the Pilot's discretion, subject weather conditions and efficiency of engine, steering, etc.
(*b*) Fairway leading into main harbour about 200 metres wide and 2 miles long, running parallel to breakwater and reclaimed land. In this channel, as in main harbour and fairway to Yawata, vessels observe one-way traffic and, on a "not-clear" signal from shore, wait outside for outgoing vessels to clear channel. Vessels with draft of more than 7 metres can enter/depart only at high tide.
(*c*) Entry permitted only from sunrise and vessels to be berthed before sunset. Night departure prohibited.
(*d*) Wakato Suspension bridge crosses channel between Tobata and Wakamatsu. Height of bridge from water line at fairway 42·675 metres at spring high tide; height of mast of vessels passing under bridge limited to 38 metres.
(*e*) Easterly winds prevail in warm season. North-westerly winds in winter. Dense fog sometimes in spring and winter, but generally clear in morning. Tidal range about 1·2 metres. Tidal current in channel about 1½ to 2½ knots, but no current in port.
(*f*) Port privately owned and controlled by Nippon Steel Corp.

MAX. SIZE:

(*a*)

Wharf No.	*Length* m.	*Depth* m.
15	150	9·0

PRATIQUE: See Moji.

QUARANTINE:
(*a*) Quarantine station at Western entrance: Half-mile East of Mutsure lighthouse 33° 58′ 15″ N., 130° 53′ 43″ E.
(*b*) Quarantine station at Eastern entrance: 125 degrees, 1,500 metres from Hesaki lighthouse 33° 56′ 24″ N., 131° 30′ 12″ E.
(*c*) Quarantine inspection not allowed inside port except when weather or other special reasons prevent quarantine boat from approaching ship at anchorage.
(*d*) Quarantine service is rendered from sunrise to one hour before sunset.
(*e*) "Q" flag should be hoisted until ship in free pratique.
(*f*) Vessels exceeding 20,000 gross tonnage may undergo quarantine on application when they berth inside port.
(*g*) When ship arrives from plague-infected or suspected area within 10 days after she left such place, 24 hours special quarantine required. All sanitary scuppers must be closed and garbage must not be thrown overboard after ship reaches 60 miles off Japanese coast.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

VHF: Vessel can keep in direct contact with port authorities in regard to arrival, berthing instruction, etc. through VHF, details as follows:

	Kitakyushu (Moji)	*Shimonoseki*
(*a*) Call sign:	"Kitakyushu port radio"	"Shimonoseki port radio"
(*b*) Location of radio facilities:	The transmitting and receiving station located at top of Mt. Hinoyama, Shimonoseki, for the above both radio.	
(*c*) Type of wave:		
Channel: Simplex	16 (Calling, responding)	16 (Calling, responding)
,,	12 (Communication)	12 (Communication)
,,	14 (,,)	14 (,,)
Duplex	20 (,,)	20 (,,)
Outport:	50 W.	50 W.
(*d*) Operating hours:	0600–2000 hrs.	
(*e*) Communicating range:	Within a radius of 50 miles from the station.	
(*f*) Communicating language:	English and Japanese.	

TUGS: Two tugs join vessel at corner of fairway leading into main harbour. Ship's lines used when vessel berths.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

BRIDGE: See "Restrictions".

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional), Sundays/holidays (60% additional).

MEDICAL: No advance notice required unless urgent.

TANKERS: No tanker berth.

DENSITY: Average density in port about 1.020–1.022 in summer season, 1.024–1.025 in winter season.

FRESH WATER: At buoys: Water barges available from Wakamatsu, rate of delivery about 50 tons per hour. At wharves: (Nos. 16, 17, 18, 19, 20 and Nishi-Yawata wharf.) From hydrants: 25–40 tons per hour. For supply at Nishi-Yawata wharf, one day prior notice required. Overtime charge: (0500–0800) (1700–2200), 50% add.; (2200–0500), 100% add.; bad weather 50% add.; Sundays and holidays, 50% add. Minimum quantity at Yawata, 10 tons. Minimum quantity at Mutsure anchorage, 50 tons.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

FIRE PRECAUTIONS: No tanker berth. Each tugboat is equipped with fire extinguisher system for attending emergency cases.

DEVELOPMENTS: All the present discharging berths (wharves) for coal, ore (including Nishi-Yawata scrap wharf) converted to loading berths.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo aboard.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: British Consul, who is also acting Swedish Consul, is stationed with Holme Ringer, Moji (tel. 093–33–1311). American Consul stationed at Fukuoka (tel. 092–75–9331). Korean Consul stationed at Fukuoka (tel. 092–77–0461).

REPAIRS: All types of deck and engine repairs possible.

DRY DOCKS: No dry dock available.

REPATRIATION: Possible.

AIRPORT: Fukuoka airport; approx. 70 kilometres.
(*a*) International line:
JAL, for Pusan (Tuesday and Thursday);
for Taipei–Hongkong (Monday and Thursday).
CPA, for Taipei–Hong Kong (Wednesday and Saturday).
KAL, for Pusan-Seoul (Mon., Tues., Wed., Fri., and Sat.).

(*b*) Domestic line:
JAL and ANA, regular service.

Kitakyushu airport; approx. 20 kilometres. Flights often suspended by heavy rain and fog.

(*c*) Domestic line:
ANA, regular service.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Yawata Police Station, tel. 093–67–6631; Wakamatsu Water Police, Yawata Port branch, tel. 093–67–0611; Ambulance/Fire, Yawata Fire Department, tel. 093–67–4831.

TELEPHONES: Nippon Senpaku Tsushin K.K. available at Moji (tel. 093–33–1089). In case of Mutsure anchorage, extra boat charge and personnel expenses will be incurred. Due to insufficient number of telephones require adequate advance notice for installation. Suitable ship's electrical voltage; DC–22/28 v. AC–100 v. 110 v. 120 v. (to keep at least within 10 v.).

GENERAL: Whenever vessel takes bunkers in port, advisable to close deck scuppers' holes before pumping in order to avoid overflow oil into sea.

SERVICES: Tank cleaning, sand blasting (Fuji Co., Tobata), chemical cleaning (Fuji Co., Tobata). Hold cleaning (Tsuyama Kosan K.K., Yawata; Fuji Co., Tobata). Compass adjusting (Kajiwara Koki, Shimonoseki). DF calibration (Nippon Radio Co., Tobata). Life-raft servicing and inspection (Kikutani Sengu, Shimonoseki; Marinair International, Kobe; International Marine, Kobe; Marine International; Yokohama and Tokyo); this service requires name of maker in advance. Radio and radar repairs available, but requires name of makers/type of the machine in advance. Laundry (Sunrise Cleaning, Tobata; Moji Dry Cleaning, Moji). Watchmen service available. Charts: only Japanese charts available locally; BA and HO charts can be obtained from Kobe and Yokohama respectively, with adequate notice. Grain fitting (Ushio Co., Moji; Fuji Sobi, Moji); this work is usually carried out at Moji (public port). Fumigation (Toyo Fumigation Co., Moji), this work is not permitted at Yawata but at Moji. Floating crane, capacity 200 tons (Kondo Kaiji, Wakamatsu; Nichibei Kosan). Diver (Nippon Salvage Co., Moji; Tsuyama Kosan, Wakamatsu). Salvage service (Nippon Salvage, Moji) Painting service (Fuji Co.).

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Kitakyushuko Kauti-Kumiai, Nishikaigan-dori, Moji-ku, Kitakyushu City.

AGENTS: Sub-Agents of Dodwell & Co., Tokyo. Holme Ringer & Co. Ltd., c/o Yawata Works of Yawata Iron and Steel Co. Ltd., Edamitsu, Yawata-ku, Kitakyushu. Tel. Yawata (093) 67–0611. ext. 852. Telegraphic, Ringer Yawata.

YOKKAICHI: 34.57 N. 136.38 E.

DOCUMENTS: See "Yokohama".

PILOTAGE: Not compulsory; Pilot available at 34° 56′ 15″ N.; 136° 40′ 40″ E. Vessels requiring Pilot cable Agent at least a day ahead advising exact ETA pilot station. Wireless station for communicating with entering ships and for other port business, call signal JCZ. Radio wave in use is A1.A2 500 kc/s. and A1.A2 486 kc/s., output A1 50 w. and A2 110 w. Zone of communication about 100 km. Yokkaichi signal station also equipped for assigning berths to entering ships and for other port business. VHF communication available, call signal Yokkaichi Port Radio, Channel 16. Working Channel 14, hours 06.00 to 20.00 any day.

ANCHORAGE: Vessels anchor 34° 56′ 15″ N., 136° 40′ 40″ E. where authorities board and grant free pratique; maximum depth 13 m.

RESTRICTIONS: Entry restricted by vessel's draft and pratique. Maximum draft inside port 12 m. Quarantine authority attend vessel usually from dawn to sundown on any day. Berthing day-time only. Unberthing any time except tankers day-time only.

MAX. SIZE: Maximum permissible draft *inside port* 12 metres. Installations outside main port: Shoseki No. 1 sea berth (inner), depth 62 ft. Shoseki No. 2 sea berth (outer), depth 69 ft. Daikyo sea berth, depth 72 ft. No limitation on length.

HEALTH: Request for radio pratique to be addressed to agents not less than 12 hours before arrival.

TIDE: Tidal current of Ise bay runs Northward along East side of Mie Pref. and turns round at mouth of Kiso River and runs Southward for Chita peninsula.

Tidal level:	High tide	Tidal level (average) +7·74 ft.
	Mean tide	+4·30 ft.
	Low tide	±0·00 ft.

TUGS: Normally stand-by to assist vessel inside breakwater of entrance to fairway; tug's lines used.

BERTHING: *Depths alongside:*

Berth No	*Depth*
1	8 metres
2–3	8·5 metres
4–5	8·5 metres
8	10 metres
9	10 metres
11	10 metres
13	11 metres
14	10 metres
15	10 metres

SPECIALIZED CARGO HANDLING FACILITIES: *Bulk Cargoes:* No special berth for this. No. 2 wharf has a cereal silo which can store 30,000 tons of imported grain. Two pneumatic unloaders with unloading capacity of 300 tons per hour, per machine, at the northern berth of the pier to connect the silo with conveyors.

Containers: One container berth, depth 36 ft. with a container crane of 37·5 tons capacity.

Liquid Chemicals/LPG Carriers: Private berth.

TANKERS: Showa Oil Pier "SD" – 11·5 metres depth
" " " "SE" – 11·4 metres detph
Saikyo Oil Pier "Shiohama" – 12 metres depth
" " " "Umaokoshi" – 12 metres depth
Mooring Buoy No 1 – 12 metres depth
Mooring Buoy No 2 – 10 metres depth

Diameter of discharge lines:

Sea berth No 1:	14·5 ins.	(two lines)
Sea berth No 2:	14·5 ins.	"
Daikyo Sea Berth:	18 ins.	"
Daikyo "Shiohama":	12 ins.	"
Daikyo "Umaokoshi"	10 ins.	"
Showa Oil Pier "SE"	10 ins.	"

DENSITY: Average 1.025.

FRESH WATER: Available, rate of delivery 50 tons per hour from shore pipes at Government wharves; 100 tons from barge; before 22.00 hours additional cost 50%; after 22.00 hours additional cost 100%.

FUEL: Most domestic and bonded oil available, ex-barge. Minimum 5 days notice required.

CONSULS: None.

REPAIRS: Minor repairs only.

AIRPORT: No airport.

POLICE/AMBULANCE/FIRE: Police, tel. 110; Ambulance/Fire, tel. 119.

TELEPHONES: Telephone can be arranged from shore connection at Government wharves. No connections at tanker berths.

GENERAL: Lightening: Not allowed, except a cargo of oil or chemicals.

SERVICES: Technicians for vessel's instruments can be arranged from other ports.

REGULATIONS: Under adverse weather conditions:

1. If a typhoon is reported approaching, and upon advice from refinery representative, loading or unloading operation will be suspended and vessel will leave berth to a designated area for refuge.
2. During a violent thunderstorm, cargo work will be stopped upon receiving order from refinery, and vent-line valves securely closed.
3. During stormy weather, with gusty winds condition, Master shall follow weather reports closely and shall endeavour to prevent any accidents by taking all possible precautions, such as reinforcing mooring ropes and arranging adequate emergency personnel to stand-by for any emergency.

Liability for Accidents: If accident is judged by Maritime Safety Office and Port Captain to be ship's fault, either through negligence of these Safety Regulations or otherwise, Master shall immediately cease operations, if necessary, and simultaneously follow in good faith the instructions of refinery and Port Captain, and take all necessary actions. Master shall inspect and verify cause of accident in the presence of refinery representative and ship's Agent, and shall be held responsible for reporting the accident, in writing, to the parties concerned. Until this is completed and full agreement reached with refinery representatives, the vessel shall not leave the jetty, unless otherwise requested. For actual confirmation of the accident, and damage liability, Public Surveyor (Messrs. Japan Marine Inspections Co. Ltd.) is fully entitled to inspect the accident.

AUTHORITY: Yokkaichi Port Authority.

AGENTS: Sub-Agents of Dodwell & Co. Ltd., Tokyo. Uyeno Unyu Shokai, c/o Showa Yokkaichi Sekiyu, 1 Shiohama-Cho, Yokkaichi. Tel. Yokkaichi (0593) 45–2271. Telegraphic, Uyenoshell, Yokkaichi.

YOKOHAMA (incl. Negishi and Tsurumi): 35.27 N. 139.38 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists, including passport nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: As Yokohama/Kawasaki a busy port, all movements – entering, leaving port and shifting within port – regulated by Harbour Authorities, and Agent has to make application for movement one day before, also tugboat(s) arranged through Agent. If any change necessary to arrangement already made, two hours notice sufficient to make rearrangement with Pilot. If Pilot required at area off Ashika Shima Lt. Bn. in Tokyo Bay for passing Uraga Strait, 24 hours prior notice required for dispatching Pilot. (In rough sea Pilot cannot be obtained in that area.) No station pilot boat; Pilots use small launches and often make use of tugboat when it is employed at same time,

for embarking and disembarking especially when sea rough. In either case, launch or tugboat with Pilot on board displays "H" flag or lights prescribed in International Regulations. Pilot for Yokohama/Kawasaki port picked-up off Yokohama fairway entrance buoys No. 1 and No. 2, but in case ship has to wait for berth, usually does not take Pilot and proceeds to anchorage shown on chart as "Quarantine Anchorage" or as near as safety permits, and anchors. In this case Pilot boards at anchorage. If anchor or picks-up Pilot inside harbour limit, pilotage cheaper because assessed on two stages; "From Bay to Sea" and "From Sea to Berth", but Master requested to anchor outside fairway. Vessel to provide properly approved pilot ladder.

Uraga Channel:

Vessels requiring a Pilot for the Uraga Channel should radio request to ANJIN Yokosuka, advising ship's details and arriving time at No. 1 Uraga Channel light buoy. Uraga Channel Pilot embarks 3 to 5 miles S.S.E. of Kannonsaki lighthouse, and will disembark on arrival at destination port limits. Applications for Uraga Channel Pilot should reach pilot office 24 hours before vessels arrival at No. 1 Uraga Channel light buoy.

Recommendations: To be followed by tankers of 100,000 dwt. tons or more when they navigate through the Uraga Channel with cargo loaded:

1. Twelve hours and three hours, respectively, before such a vessel expects to pass the Uraga Channel No. 1 light buoy, it should report the following items to the Yokohama Maritime Safety Division. Also, after the three-hours-in-advance report, it should keep its radio station open. This, however, is not required if the vessel is south bound:
   (*a*) Name of vessel.
   (*b*) Signal letters, dwt. tonnage, type and quantity of cargo, name of port intended to enter (not required in a three-hours-in-advance report).
   (c) Availability of international VHF transmitter-receiver equipment aboard.
   (*d*) Time at which the vessel expects to pass the Uraga Channel No. 1 light buoy.
2. Refrain from sailing through the Channel when visibility is poor (less than about one nautical mile).
3. Avoid sailing through the Channel at night unless it is essential to do so.

Follow any instruction that may be issued from the Director of the Yokohama Maritime Safety Division as to the time for sailing through the Channel.

4. Maintain look-out at stem.
5. Between the neighbourhood of the Uraga Channel No. 2 light buoy and that of the Uraga Channel No. 5 light buoy, avoid overtaking other vessels (weighing about 500 gross tons or more) unless it is essential to do so.

ANCHORAGES: 12–26 m. in quarantine anchorage, and 26–34 m. in other areas. For details refer to chart published by Hydrographic Division of Japan MSA.

RESTRICTIONS: Entry or departure or movement inside port not allowed from sunset to sunrise, but ships less than 15,000 g/t without dangerous cargo can be given special permission to enter, leave port and move inside the port (only in Yokohama). In Kawasaki, which is very narrow and long, no special permission given. Depths of shallows in Yokohama, Tsurumi and Kawasaki fairways 11·6, 11·2 and 12·0 metres, and Pilot Association make these the maximum drafts accessible to the berths inside the respective fairways. Ship with max. draft of 11·6 metres, when entering Yokohama through Yokohama fairway, has to wait for tide.

MAX. SIZE: Maximum permissible size of tankers for proceeding to installations in Yokohama:

Name of Berth	*Max. g/t*	*Max. LOA*	*Max. safe draft*
Keihin Yokohama (sea berth)	No limit	No limit	23·00 m.
Shell Oil	No limit	175 m.	10·50 m.
General Sekiyu	No limit	180 m.	9·30 m.
Mobil Oil	No limit	210 m.	9·30 m.
Asia Oil No. 5	50,000	270 m.	12·00 m.
Nisseki Yokohama	No limit	250 m.	12·00 m.
Nisseki Negishi A	No limit	No limit	16·50 m.
Nisseki Negishi B	70,000	No limit	12·50 m.
New Shell	No limit	265 m.	11·70 m.

PRATIQUE: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health conditions on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:

Maritime Declaration of Health.
Crew List.
Passenger List.

The following vessels will not be able to get radio pratique:

A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or any suspected case of infectious disease, within 15 days of arrival.

If crew or passengers on board do not possess Valid Smallpox Vaccination Certificates.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: under control of Pilot, compulsory in Yokohama/Kawasaki for foreign ships, and normally join ships in fairway between outer breakwater and Lt. Hos. and Entrance Lt. Buoys. If ship is at anchor in quarantine area or near to it, tug(s) joins ship at anchor. Usually two tugs used for mooring and/or unmooring, but depends largely upon special conditions of berth and weather conditions. Tug's lines used and charge included in towage.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hours (50% additional of basic stevedorage), 2100–0500 hours next morning (130% additional). Sundays/holidays (60% additional).

VHF: Call sign Yokohama Port Radio. (See details under "Kawasaki/VHF".)

MEDICAL: No advance notice required unless urgent.

TANKERS: Masters of tankers seldom requested to fit reducing pieces before arrival for connection of shore lines since oil installation have own appliances. Two slop disposal facilities, one in district No. 5 in Yokohama which is private enterprise and can dispose of dense residues, and one in District No. 1 in Kawasaki which is run by Kawasaki city and can dispose of diluted slop or oily ballast. (Also see "Max. Size" and "Developments".)

DENSITY: Average approx. 1.023.

FRESH WATER: Can be taken either at wharf ex-pipe or at buoy or anchorage by barge:

Place	*Rate of delivery*
South Pier	70 tons per hour
Government Silo	70 tons per hour
Nippon Petroleum Refinery, Negishi	70 tons per hour
Buoy or anchorage	100 tons per hour (subject to ship's condition)

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

FIRE PRECAUTIONS: Oil installations in Yokohama/Kawasaki generally do not allow bunker barge to come alongside ships moored to their berth.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS:

American Consulate-General	tel. 681–0841/2
Her Britannic Majesty's Consulate	,, 201–1540/2
Consulate of France	,, 201–1840

REPAIRS: Any kind of repairs can be effected at this port.

DRY DOCKS: The largest dry dock, owned by Ishikawajima-Harima Heavy Industries Ltd. (and another 6 smaller dry docks owned by Mitsubishi Heavy Industries Ltd., Nippon Kokan K.K.). Max. length, 1,161 ft 5 in.; breadth at entrance, 183 ft. 8 in.; height of sill above bottom dock, 5 ft. 3 in.; depth on sill at high water, ordinary spring tides, 20 ft. 3 in.

REPATRIATION: Possible.

AIRPORT: Haneda International Airport 25 km. and served by many regular airlines.

TIME: GMT plus 9. No alterations made to clocks during year.

HOLIDAYS: Only observed at Public terminals.

POLICE/AMBULANCE/FIRE: Police, 110; Ambulance, 119; Fire, 119.

TELEPHONES: Telephones can be placed on board.

SERVICES: Almost all requirements by ships could be met, if time permits.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days; but 3 days extension possible if ship stays longer.

AUTHORITY: Port and Harbour Bureau, Yokohama.

AGENTS: Dodwell Tramp Agencies, PO Box 271, Yokohama Port, 5th Floor, Minato Bldg., 33, 3-chome, Honcho, Naka-ku, Yokohama. Tel. (045) 201–6991. Telegraphic, Dodwell Yokohama. International Telex. YH 7721.

YOKOSUKA (including Uraga): 35.17 N. 139.40 E.

Port Authority:
Port Call Notification.

PILOTAGE: Pilot station in U.S. Naval Base, Yokosuka. In applying for Pilot at time of entry and departure, pilot station should be contacted 20 hours in advance of beginning of pilotage through Agent. 6 Pilots available. Pilot boat has telephone. (No. 3–1994).

ANCHORAGES: At 4th District of Yokosuka Port. Depths 10–30 m.

RESTRICTIONS: The 1st, 2nd and 3rd District of Yokosuka Port under compulsory pilotage districts. No restrictions on time of entry. No tidal restrictions.

MAX. SIZE: At buoys: length 200 metres, draft 11·7 metres. At wharves: length 180 metres, draft 9·6 metres.

HEALTH: Quarantine Station to be informed in advance name of last port, ship's name, tonnage, number of crew, number of passengers, ship's nationality etc. In event any suspected disease, Agent should be advised. When isolation of ship needed, it will be transferred to Nagahama Quarantine Station in Yokohama.

RADIO: No local radio station. (See "Yokohama".)

TUGS: Can be arranged through Agent. Tugs normally join vessel in 3rd District when vessel enters Nagaura, and in 7th District when it enters Kurihama. Tug's lines to be used. Charge for tug's lines included in charge for tug.

BERTHING: Agent submits application for berth to Port Authority (Nagaura and Kurihama port offices).

Nagoura Pier	No. 1,	depth	9 metres
,, ,,	No. 2,	,,	10 ,,
,, ,,	No. 3,	,,	6 ,,
Kurihama Wharf		,,	7·5 ,,

Six buoy berths in depths of 9·5 to 13 metres.

STEVEDORES: Agent will arrange stevedores by request latest 15.00 hours of previous day to ship's arrival.

MEDICAL: Agent can arrange doctor who understands foreign languages.

TANKERS: No berthing facility for commercial tankers. Only U.S. Naval Base, Yokosuka, has berthing facilities.

FRESH WATER: Available by barge or ex wharf. Additional charge for work and in case of bad weather.

FUEL: Available ex-lighter,

DEVELOPMENTS: Plan to build new berths, expected complete 1973. 15,000 d/w×2, 5,000 d/w×1, 2,000 d/w×2.

GANGWAY/DECK WATCHMEN: Agent arranges watchmen.

OPENING/CLOSING HATCHES: Stevedores carry out this work.

CUSTOMS ALLOWANCES: Tobacco: 2 packets per day. Spirits: 1 bottle when more than one month voyage; 2 bottles when more than 6 months voyage.

CONSULS: None.

REPAIRS: Dockyards available for all repairs.

DRY DOCKS: 1 – 475×19½ ft.; 1 – 352×15¾ ft. 5 large-size slips; 1 rigging wharf.

REPATRIATION: No facilities exist. If necessity occurs, Yokohama Immigration Office will attend.

AIRPORT: 40 km. to Tokyo International Airport.

TIME: GMT plus nine hours. No alterations during year.

HOLIDAYS: Day-time cargo work on Saturday afternoon and Sunday, National holidays, and Dec. 31; Jan. 1, 2 and 3 no cargo work.

POLICE/AMBULANCE/FIRE: Police, 110; Ambulance/Fire, 119.

TELEPHONES: Agent arranges on board upon request.

GENERAL: Port situated in city confines and main part is for use of U.S. Naval Forces.

SHORE LEAVE: Crew allowed ashore.

AUTHORITY: Yokosuka City, No. 11, Ogawa-cho, Yokosuka. Tel. 22–4000. No telex.

AGENT: Sub-Agent of Dodwell & Co., Tokyo. Sagami Unyu Kabushiki Kaisha, Taura Minato-Machi, Yokosuka. Cables: Sagami Yokosuka Taura. Tel. Yokosuka (0468) 61–3111.

Jordan

AQABA: 29.31 N. 35.01 E.

DOCUMENTS:
1 copy Freighted Manifest, stating all details.
6 copies Unfreighted Manifest.
2 copies of Unfreighted Manifest not showing shippers nor consignees but weights and measurements.
1 set of non-negotiable Bills of Lading.

All Manifests should bear the following clause: "This is to certify that the above vessel has not called and is also not scheduled to call at any Israeli ports nor is owned by any Israeli Company, also it is not included in the Black List." All the above documents are to be airmailed to the Agent's Head Office in Amman and not Aqaba.

Documents required by the authorities for free pratique:
7 copies Crew List.
7 copies Passenger List.
1 copy Stores List.
1 copy Crew Declaration List.
1 copy Vaccination List.

The following forms to be filled:
2 copies of Maritime Declaration Form.
1 Customs Declaration Form.
2 copies Vessel's Specification Form.
1 copy Pilotage Form.

The following documents to be produced for checking:
(*a*) Log Book.
(*b*) Ship's Registry Certificate.
(*c*) De-Rating Certificate.

PILOTAGE: Compulsory pilotage in that area of Aqaba Bay North of an imaginary line 270 degrees from Al-Breij point. Ships in harbour requiring a Pilot should by day hoist "G" flag below a ball or shape, one hour before ship is ready to move; and "B" flag by night with a red over white. The sound signal is four long blasts. Advance notice of the ship's requirement of pilot service should be given to the Agent who will advise the Harbour Master or his representative. It should be noted that vessels may proceed to sea from the anchorage without taking a Pilot, but for ships leaving the berths alongside, pilotage is compulsory, and the signals described above should be made.

ANCHORAGE: About ½ mile from shore in depths of 15 to 30 fathoms. Ships awaiting discharge can easily anchor in deep water anchorage which can accommodate 25 ships or more.

MAX. SIZE: Up to 20,000 deadweight. Max. draft 32 ft. Phosphate loading berth: up to 50 ft. draft.

TUGS: The tugs available at Aqaba are only for towing barges and handling ship's line during berthing but no salvage tugs are available.

RADIO: Aqaba Radio. Station call sign JYO. Watchkeeping hours GMT 0500 to 1700. Station has transmitting frequencies CW and R/T for: A. 2182 kc/s; B. 2612·5 kc/s; C. 4326·5 kc/s; D. 6479 kc/s; E. 8723 kc/s. Station can receive on all M/F and H/F frequencies. Station listens: 2182 kc/s A3 continuous, 500 kc/s H plus 10 to H, 6,200 to 6,300 A1 H to H plus 10. Station answers on 6479 kc/s or 2182 kc/s.

HEALTH: A ship arriving from sea should, in addition to the "G" flag for Pilot, hoist its signal letters and "Q" flag to request free pratique if it is healthy. If there are passengers to land, "I" flag should be hoisted. The port doctor boards the vessel together with a representative of the Port Dept., Customs Dept., Passport Dept., and Police. If the vessel has to anchor first, boarding the vessel takes place at anchorage. If the vessel berths alongside, then the aforementioned representatives board the vessel. Health certificates of crew and passengers are required.

BERTHING:
General Cargo Berth: Three medium-size ships or two large ships can berth alongside. The depth is 10 metres (32 ft.) at low tide.
Phosphate Loading Berth: The berth is 210 m. long and 32 ft. depth. It is situated South of the General Cargo Berth and is especially built to load phosphate. The berth is designed to accommodate ships of up to 20,000 dwt. In addition, pipes have been laid to supply petroleum to a nearby tank farm for the occasional import of some petroleum products. There are two main berthing dolphins with a loading tower in between, and mooring dolphins at each end. The loading tower is connected with a conveyor belt feeding the tower from two silos with a 20,000-ton capacity each. There is a short retractable boom and telescopic trunk which can be travelled forward up to a distance of 9 metres from the berthing face to plumb the centre of the hold of a ship. The loading capacity is 500 tons per hour. The guaranteed loading rate by the Phosphate Company is 2,000 tons per weather working day of 24 hours. Vessels should arrive at the berth with as large an amount of water ballast as possible, both to facilitate berthing (as there is no tug) and to reduce the height from water-line to hatch coaming. This height should not exceed 30 ft.
Bulk Export Berth 'B': Is 180 metres long with 15,5 metres (50 feet) depth of water at low water spring tides and is designed for berthing and loading 100,000 DWT bulk carriers. The travelling ship-loader has a capacity of 1,500 tons of phosphate per hour and provision is made in the design for the installation in the future of a second similar shiploader to give a total loading capacity of 3,000 tons per hour. Phosphate for loading into ship is weighed on a continuous recording belt weigher (accuracy +0.5% between 25% and 150% of rated capacity) and is loaded through a telescopic pivoting feed chute. Clearance above high water level is 18 metres.
Lighters Wharf: The Lighters wharf has a length of 215 m. and a

width of 10 m. and a depth of about 9 ft. About 10 lighters can be discharged alongside.

STEVEDORES: Stevedoring Company's working hours are from 0800–1600. Work has to start at 0700 and end at 1600; therefore, there are 2 compulsory overtime hours in the morning, from 0600 to 0800 and one hour in the afternoon, i.e. from 1600 to 1700.

Ships Working Hours: Ships can work round the clock, depending on Captains' option and the number of ships available in port. Opening hatch of a ship is allowed up to 2200 hours and subject to Port Authority agreement. Friday is the official weekly holiday, however, work is carried on, on the ships.

TANKERS: Berth in daylight hours only.

MEDICAL: The Health Section of Aqaba Port Department gives all medical services required and responds to any urgent call by radio before arrival. A government hospital is available and is satisfactorily staffed by doctors. A doctor may be called on board at any time day or night, to attend to sick crew or passengers by arrangement with the Agent.

FRESH WATER: Can be supplied to ships berthed alongside.

FUEL: Bunkering is inadvisable. In case of necessity, fuel oil can be transported from the refinery in Zerka by tank lorries with a capacity of 12 tons each. A 3 day's notice must be given in order to arrange transport.

GANGWAY/DECK WATCHMEN: Customs provide a guard who has to be given full board and lodging. Ships are also supplied by local watchmen through Agents.

HOLIDAYS: Arbor Day (January 15th); Arab Summit Conference Day (January 17th); *Thil-Hijja 10, Eid El Adha (January 14th); Arab League Day (March 22nd); *Moharram 1, Islamic New Year (March 3rd); Independence Day (National Day (May 25th); *Rabi' El Awal 12, Prophet's Birthday (April 13th); H.M.'s Accession to the Throne (August 11th); Birthday of Crown Prince Hassan (September 5th); *Rajab 27, Al-M'raj Al Sharif (May 24th); Birthday of H.M. the King (November 14th); Arab Renaissance Day (November 22nd); *Shawal 1, Eid El Fitr (November 26th).

* Dates fluctuate due months being lunar months.

CONSULS: No consul or vice-consul available at Aqaba. All Consular Offices in Amman, the Capital.

TIME: GMT plus two hours.

REPAIRS: A shipyard has been established to build fishing boats and trawlers, barges, tugboats and undertake minor repairs. Welding can also be carried out.

DRY DOCKS: No dry docks are available at Aqaba.

AIRPORT: From Aqaba Air communication: Alia (The Royal Jordanian Airlines (Fokker) to Amman twice weekly. Distance to Amman International Airport, 355 kms.

GENERAL: Masters are warned that during the winter months strong Southerly gales can develop within two hours followed by swell. In such case it may be necessary to unberth the vessel, and it should be noted that there is no tug available for this operation. Vessels in the anchorage in such weather conditions should not hesitate to weigh anchor if there is a possibility of dragging, and proceed out of the bay until the weather moderates.

AUTHORITY: Aqaba Port Department, Ministry of Transport, Ports, Railways and Airports in Amman.

AGENT: *Head Office:* Amin Kawar & Sons, POB 222, Phone 22324 (6 lines). Telex: 1212. Amman – Jordan. Cables: ORENCO AMMAN.

Port Office: Amin Kawar & Sons, POB 22. Phone: 83. Telex: 0220 Aqaba – Jordan. (All correspondence to be addressed to Head Office at Amman).

Kenya

MOMBASA: 04.04. S. 39.40 E.

DOCUMENTS:

Health Certificates: forms obtainable from Pilot.
6 Crew Lists.
10 Passenger Lists.
Dangerous Cargo Lists.
Ship's Register.

PILOTAGE: ETA through ships' Agents, 48 hours' notice. VHF Channel 12 (Mombasa Radio VHF Ch. 16) Pilot boat 72 ft. ex-Admiralty launch, white. No signals for Pilot – call on VHF 12 (Mombasa Pilots) or by signal lamp to lighthouse. Pilot boat position one mile outside turning buoy on Ras Serani leads (301°) except for deep-load tankers (over 35 ft.) when pilot boat position one mile from turning buoy on Mackenzie leads (327°). No special bad weather regulations. Pilot ladder 6 ft. from water – must have man-ropes – light at night.

ANCHORAGES: No safe outer anchorage.

RESTRICTIONS: No tidal restrictions. Entry for dangerous cargo restricted to daylight. Entry for tankers over 650 ft. restricted to daylight.

MAX. SIZE: Length 820 ft. Draft 40 ft.

HEALTH: Radio Port Health Officer, Mombasa, giving last port of departure, ETA Mombasa, condition of crew, any sickness on board, passengers. Must have Q Flag until doctor visits vessel or until Pilot passes information to lower flag.

RADIO: Mombasa Radio Coast Station M/F, H/F, W/T & R/T and VHF R/T Services:

Station 5ZF (W/T) 500–524 kc/s.; traffic list 0100, 0500, 0900, 1300, 1700, 2100; Continuous watch; listening freqs. 500 kc/s.

Station 5ZF2 (W/T) 8710.4 kc/s.; traffic list 2018; schedules 2018–2030, OBS only 0000–0030, 0600–0630, 1200–1230, 1800–1830; listening freq. 8354–8374 kc/s.

Station 5ZF3 (W/T) 13065 kc/s.; traffic list 0448, 0830, 1518; schedules 0448–0530, 0830–0900, 1518–1545; listening freq. 12531–12561 kc/s.

Station 52F4 (W/T) 17175.2 kc/s.; traffic list 1248; 1248–1315; listening freq. 16708–16748 kc/s.

Station (R/T) 2595, 2181 kc/s.; traffic list 0603, 1203; schedules 0600–0630, 1200–1230; continuous listening watch outside Skeds 2182 kc/s.; listening freq. 2182 kc/s.

Station (R/T) 4409.4 kc/s.; traffic list 0533, 1303; schedules 0530–0600, 1300–1330; listening freq. 4104.4 kc/s.

(R/T) 8805.6 kc/s.; traffic list 0633, 1233; schedules 0630–0700 1230–1300; listening watch on 8255.6 kc/s 0330–1530 listening freq. 8255.6 kc/s.

Mombasa Radio also provides continuous R/T service on VHF for the benefit of ships in and around Mombasa within radius of 30 miles. Channel 16 for calling and Channels 26 and 27 for working. All times in GMT.

TUGS: Tugs join vessel inside harbour between Ferry and Kilindini reef. Tug lines no additional charge.

BERTHING: All berths fendered. Nos. 89 and 10 and Shimanzi Oil Terminal berths, no berthing on ebb tide, with range of 6 ft. or more. Kipevu Oil Terminal berthing on first of ebb with tankers over 650 ft.

CARGO HANDLING: No. 9 berth has been arranged for bulk export of soda ash. No berths for roll-on/roll-off traffic but a site is being considered. No container berth is available, but certain facilities at berths No. 16 and 17 which are at present under construction will be available for containerised cargo probably in 1973/4.

Mbaraki cement berth for bulk export of cement clinker and automated loading of cement in bags is now in operation.

Shimanzi oil terminal now handles all imports of bulk vegetable oil as well as all other oil products except crude oil.

Bulk cargoes are at present handled by grabs, railway wagons, and lorries.

STEVEDORES: ETA preferably 48 hours in advance in order to arrange gangs. Advisable notify Harbour Master ETA and also give quantity of cargo to be loaded and/or discharged and other matters of importance.

MEDICAL: In emergencies necessary to receive advance notice. Hospital facilities available. Inoculations required – smallpox (compulsory), yellow fever (endemic zones in Africa and South America), cholera (all ships from Asia).

TANKERS: Discharge and load white oils at Shimanzi. Discharge and load Heavy oils at Kipevu.

Shimanzi Oil Terminal: T-head jetty with 200 ft. long berthing head. Depth alongside 32 ft. L.W.O.S.T. Bunkers and fresh water available. Slop reception facilities for up to 6,000 tons.

Kipevu Oil Terminal: T-head jetty with 225 ft. long berthing head. Tankers up to 65,000 dwt. berth at dolphins alongside jetty head; depth alongside 44 ft. L.W.O.S.T. Max. Length 820 ft. Max. draft 40 ft.

DENSITY: 1025.

FRESH WATER: Available at all berths in stream ex-tug at Harbour Master's discretion or barge of 140 tons capacity. 30 tons/hour on quay.

FUEL: (1) *Main Quay Berths:* Marine fuel oil, viscosity 1500 secs. Marine diesel fuel. Gas oil cannot be delivered by pipeline at these berths but delivery can be made up to only 10 tons by bulk lorries at extra delivery cost. Minimum 48 hours' notice required. Quantities of 10 to 30 tons can be made by rail tank wagon if 48 hours advance notice given. Thin fuel oil viscosity below 1500 seconds can be delivered at all berths through Fisher blender. Only one Fisher blender available and can deliver fuel to only one vessel at a time.

(2) *Shimanzi Oil Terminal:* All grades, i.e. fuel oil, marine diesel, gas oil and thin fuel oil (through fisher blender).

(3) *Cased Oil Jetty:* Only marine diesel and gas oil can be delivered at this jetty.

(4) *Kipevu Oil Terminal:* Only fuel oil of viscosity between 1500 secs. and 3500 secs available. Fuel oil viscosity below 1500 not available. At least three days clear notice required by EA Oil Refineries for arranging bunker delivery. Not possible to deliver any marine diesel or gas oil either ex pipeline or rail tank-wagons/bulk lorries at this berth.

DEVELOPMENTS: Three further Main Quay berths under construction.

GANGWAY/DECK WATCHMEN: Watchmen available for gangway and deck and recommended.

OPENING/CLOSING HATCHES: Normally done by stevedores except Macgregor type hatches.

CERTIFICATES: Normal port requirements for safety cargo equipment.

CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes for each crew member for eight days. Wine and/or Spirit, eight small bottles of beer for each crew member for 4 days.

CARGO GEAR: All cargo gear supplied by Stevedores.

IDENTIFICATION CARDS: Not required.

CONSULS: The following countries are represented in Mombasa; Germany, British High Commission, India, Belgium, Denmark, France, Italy, Norway, Sweden, Netherlands, Greece.

REPAIRS: Normal Running repairs.

DRY DOCKS: Vessels up to 2,000 tons, length 320 ft., beam 50 ft.

REPATRIATION: Possible. Facilities available.

AIRPORT: About 7 miles from port. Served by regular airlines. Mombasa/Nairobi 4 flights a day. Mombasa/Dar-es-Salaam 4 flights a day. From Nairobi regular lines all over world.

TIME: GMT plus 3 hours.

HOLIDAYS: Weekdays: 3 shifts – 0700–1500 hours. 1500–2300 and

2300/0600 hours. Saturday: 2 shifts – 0700–1230 and 1230–1800 hours. Sundays: 1 shift – 0700–1500 hours. New Year's Day; Good Friday; Easter Monday; Labour Day (1st May); Madaraka Day (1st June); First Monday in August; Kenyatta Day (20th October); Independence Day (12th December); Christmas Day; Boxing Day (26th December).

Also for persons belonging to Islamic Faith: Idd ul Azha and Idd ul Fitr. 1st May (Labour Day) and Christmas Day are normally only holidays on which part closed except for necessary pilotage of ships in and out and for dealing with mails, passengers and their baggage, livestock and perishables. On other public holidays restricted working at Mombasa may be carried out at overtime rates. Overtime rates also apply on Saturdays after 1500 hours and on Sundays, and to third shift between 2300–0600 hours.

POLICE/AMBULANCE/FIRE: In Port Area—Police 567 444; Ambulance 333; Fire 333.

TELEPHONES: Telephones supplied on board. Charges include cost of local calls. Telephone essential per port regulations.

SERVICES: All solvents for tank cleaning available. Repairs to Gyro compass, radar and most other electronic aids to navigation. Compass adjusting by arrangement with port.

SHORE LEAVE: All crew members allowed ashore and to travel except those from Socialist countries who must stay on Mombasa island. This does not include Tanga and Dar-es-Salaam.

PORT REGULATIONS: White tankers and vessels carrying explosives enter port daylight only. No vessels carrying explosives or dangerous cargo allowed to berth at Main Quay.

DELAYS: Normally one or two days for loading and discharging and for bunkering. Usually no waiting days.

AUTHORITY: East African Harbours, P.O.B. 95009, Mombasa. Cables: "Harbours Mombasa." Tel. 21211.

AGENT: East African Commercial and Shipping Company, Kilindini Road, PO Box 95103. Tel. 262. 51/2. Telex 21.299. Cables "Kenship Mombasa".

Khmer Republic (Cambodia)

KOMPONGSOM (formerly SIHANOUKVILLE):

PORT LIMITS: The seaward boundaries are fixed by the buoys "SV" to the South and "A" to the East (for cargo ships) and 2 miles N.W. of Rocher Carré (for tankers).

DOCUMENTS:
Entry form to be completed on arrival.
23 Manifests of Cargo for Discharge.
2 Manifests of Cargo in Transit.
10 Crew Lists.
7 Passenger Lists.
7 Lists of Provisions.
7 Lists of Crew Personal Effects.
7 Lists of Arms and Ammunition.
7 Lists of Drugs and Narcotics.

PILOTAGE: Contact "Pilot Kompongsom" giving ETA 24 hours before arrival. Pilotage is compulsory. Pilot launch is a white motor boat carrying international pilot signals. Cargo Vessels: Pilot boards at buoy SV. Tankers: Pilot boards 2 miles N.W. of Rocher Carré. Pilot station equipped with VHF simplex channel only.

ANCHORAGE: Southern Anchorage: Centred on buoy SV at the entrance of the deep-water channel in depths of 10 to 12 metres.

Northern Anchorage: to the West of buoy A, in depths of 10 to 11 metres.

Tanker Anchorage: two miles N.W. of Rocher Carré in depths of 15 to 18 metres.

RESTRICTIONS: Entrance prohibited to Portuguese and South African vessels. Berthing daylight only, and unberthing day and night but delays may occur in bad weather during S.W. monsoon.

MAX. SIZE: Cargo vessels: draft 7·60 metres plus height of tide. Limited by entrance channel. Tankers: length 220 metres, and draft 11·50 metres.

HEALTH: Authorities board all vessels on arrival at the quay or in the outer harbour. Quarantine flag to be flown by all vessels even if coming from a Cambodian port. In case of suspected disease on board, contact "Sante Kompongsom" by radio before arrival.

RADIO: Kompongsom Radio; call sign XUK, operating 24 hours daily, medium wave: receiving on 500 kHz, transmitting on 500 and 458 kHz. short wave: receiving on 8364 and 4185 kHz. transmitting on 8480, 8680, and 4342 kHz.

TUGS: Available to assist berthing and unberthing. Join vessel in immediate vicinity of the berth. Vessel's lines used. Three tugs available, largest 1,500 h.p.

BERTHING: Commercial Dock: West side, 2 berths for vessels up to 9·50 metres draft. East side, 2 berths for vessels up to 7·50 metres draft.

New basin, for vessels up to 6·50 metres draft.

Tankers: Oil Refinery Terminal situated at Pointe du Depart. Two sea-line buoy berths in depths of 13 metres. No slop disposal facilities. Hoses are lifted and connected by ship's crew.

STEVEDORES: Working times from 0700–11.30 a.m.; from 02.00–05.00 p.m.; from 07.00–10.00 at night, according to authorisation of Military.

MEDICAL: Advance notice required of serious cases to arrange transportation to Phnom Penh. Local doctors and hospital available for non-surgical cases. Crew require cholera and yellow fever certificates.

DENSITY: 1022 in February; 1012 in July.

FRESH WATER: Available at Commercial Dock at rate of 10 cu. metres per hour. Very small quantities may be supplied by tug.

FUEL: Only available supply by tanker-lorries in case of emergency.

DEVELOPMENTS: New wharves being built and access channels deepened.

OPENING/CLOSING HATCHES: Performed by stevedores.

CUSTOMS ALLOWANCES: Each crew member allowed one carton cigarettes and one bottle alcohol for five days. Master not included in this restriction.

IDENTIFICATION CARDS: Seamans passports or seamans books are taken by immigration in exchange for a shore pass to be surrendered when vessel departs.

CONSULS: France, tel. 2742. All other consuls at Phnom Penh.

REPAIRS: Small repairs can be undertaken on board.

REPATRIATION: Can be arranged.

AIRPORT: Ream Airport, 17 km. from Kompongsom, domestic flights only. Pochentang Airport at Phnom Penh 226 km. from Kompongsom, with full international services.

TIME: GMT plus 7 hours all the year round.

HOLIDAYS: Work can usually be arranged on all days except at Cambodian New Year, 13th 14th and 15th April, and for two days near the end of September which is the Buddhist Festival of the Dead.

POLICE/AMBULANCE/FIRE: National Police tel. 2630; Police Aid 17; Fire 18; Ambulance 19.

SHORE LEAVE: Allowed. Permission of Immigration Dept. is required to travel outside of Kompongsom port area.

AUTHORITY: Direction du Port Autonome de Kompongsom. Tel. 2410. Cables: "Dirport Kompongsom".

Korea (North)

CHUNGJIN 41.43 N. 129. 42 E.

DOCUMENTS:
8 Crew Lists.
2 Vaccination Certificates.
2 Lists showing currency, gold and valuables in possession of crew members.

The following information should be radioed to port authorities before arrival:
Number and nationality of crew.
Name of last port
Ports called at during last month

PILOTAGE: On reaching North Korean waters, vessels required to give a position report every 3 hours to KCSA Chungjin. Pilot and Port Authorities board in position 41.30 N. 130.05 E. where vessels should await Pilot. Water depth too deep to permit anchoring.

ANCHORAGE: No possibility of anchoring outside harbour limits.

CLEARANCE: On arrival in port, the radar, echo sounder, main and emergency transmitters and all optical equipment is sealed. An inspection team board the vessel to verify currency and valuables declarations. Seamen's Books required to be stamped with landing pass.

BERTHING: Berth No. 1 max. draft 24 ft. Berths 2 and 3 max. draft 27 ft. Berth No. 4 and 5 max. draft 28 ft.

CARGO GEAR: Vessels loaded and unloaded by ship's gear. At berths 4 and 5 there is a conveyor belt facility for coal loading.

SHORE LEAVE: Seamen not allowed to visit other vessels, or leave the harbour area.

Unauthorised money changing forbidden, and it is prohibited to take away Korean currency.

No bathing in harbour area.

Korea (Republic of South)

DAIPORI (Daepo): 38.10 N. 128.36 E.

Vessels bound for Daipori to load iron ore must first call at Mukho for quarantine and customs clearance.

Pilotage from Mukho to Daipori, distance of 50 miles, is not compulsory, but recommended.

INCHON: 37.29 N. 126.38 E.

DOCUMENTS:
4 copies Report of Entrance.
4 Copies Crew List.
4 copies Cargo Manifest.
Stores List.
Crew Personal Effects List.
Currency List.
Passenger List.
Ammunition List.
Narcotics List.

Vessels with hazardous cargo must complete application to carry hazardous cargo and an application for anchorage of hazardous cargo vessel.

CERTIFICATES:
De-rat. Certificate or exemption.
Inoculation and Vaccination Certificates for all crew members.

PILOTAGE: There are two pilot stations for entering Inchon:

Ando – At the Ando Light some 38 miles off Inchon, position 36° 58′ N. and 126° 10′ E. located in entrance to channel approaching Inchon from the Yellow Sea. 48 hours advance notice to Agent required for vessels requesting to meet Pilot at Ando. Customary boarding point for deep-draft vessels.

Palmido – Pilotage from Palmido to Inchon or Inchon to Palmido is compulsory. This pilot station is at Palmido Island and Light, some 8 miles off Inchon, position 37° 21′ N. and 126° 31′ E.

ANCHORAGE: *Anchorage A.* Commercial anchorages available or nine vessels. The position of each anchorage is as follows:

Number	*Position*	*Draft Acceptable*
A–1	37° 29′ 56″ N. 126° 36′ 05″ E.	42 ft.
A–2	37 29 32 N. 126 36 02 E.	31 ,,
A–3	37 29 15 N. 126 35 44 E.	39 ,,
A–4	37 28 56 N. 126 35 25 E.	33 ,,
A–5	37 28 33 N. 126 35 20 E.	29 ,,
A–6	37 28 11 N. 126 36 08 E.	42 ,,
A–7	37 27 57 N. 126 35 30 E.	28 ,, (Coaster only)
A–8	37 27 48 N. 126 35 04 E.	42 ,,
A–0	37 27 23 N. 126 35 40 E.	26 ,, (Coaster only)

Only two anchorages, as specified below, are allocated for vessels carrying logs to be discharged rafting in stream:

A–2E	37° 29′ 28″ N. 126° 36′ 08″ E.	28 ft.
A–3E	37 29 07 N. 126 36 02 E.	32 ft.

A sudden congestion of log vessels could cause undue delay in waiting berth.

Anchorage B. Available for twelve vessels. This anchorage is used mostly for military cargoes, partly used as quarantine anchorage and/or for commercial and Army vessels awaiting berth.

Number	*Position*	*Draft*
B–1	37 27 22 N. 126 34 59 E.	35 ft.
B–2	37 26 54 N. 126 34 45 E.	39 ,,
B–3	37 26 24 N. 126 34 35 E.	37 ,,
B–4	37 25 55 N. 126 34 24 E.	37 ,,
B–5	37 25 27 N. 126 34 13 E.	37 ,,
B–6	37 24 58 N. 126 33 58 E.	40 ,,
B–7	37 28 00 N. 126 35 25 E.	34 ,,
B–8	37 26 30 N. 126 35 11 E.	35 ,,
B–9	37 26 01 N. 126 35 02 E.	36 ,,
B–10	37 25 32 N. 126 34 51 E.	40 ,,
B–11	37 25 08 N. 126 34 36 E.	42 ,,
B–12	37 24 28 N. 126 33 50 E.	44 ,,

Anchorage C. Available for eight vessels. This anchorage is used either for quarantine, vessels waiting berth, or for vessels (military) discharging/loading dangerous cargoes.

Number	*Position*	*Draft*
C–1	37° 24′ 29″ N. 126° 34′ 26″ E.	26 ft.
C–2	37 24 07 N. 126 34 17 E.	30 ,,
C–3	37 23 07 N. 126 34 08 E.	35 ,,
C–4	37 21 21 N. 126 33 55 E.	42 ,,
C–5	37 24 37 N. 126 34 52 E.	42 ,,
C–6	37 24 10 N. 126 24 45 E.	30 ,,
C–7	37 23 47 N. 126 34 36 E.	42 ,,
C–8	37 23 25 N. 126 24 21 E.	42 ,,

RADIO: Address of Radio Station and call sign, Inchon Radio (HLC).

RESTRICTIONS: A peculiarity of Inchon port is the wide tidal range, i.e. max. 30 ft. difference between the low and high tides. Because of the extreme tidal range in Inchon Harbour and the strong tidal currents which result, the importance of maintaining strict surveillance of the vessel's mooring lines is emphasised. In this regard, the ship's officers and crew must be diligent in the performance of their duties. All vessels to discharge or load commercial cargoes should invariably obtain prior permission for berthing/anchoring from the Inchon District Marine Bureau at least 24 hours before arrival, then proceed to a nominated anchorage in the stream under direction of a compulsory Pilot.

HEALTH: The Quarantine Anchorage is located outside the harbour limit, at anchorages No. B–4, B–5, B–6, B–10, B–11, B–12, or C–1 to C–8, the position and depth of which are noted above. A vessel which sailed from an "Affected Zone" and not passed 10 days thereafter is compelled to receive 24 hours quarantine before entering the discharging anchorage. Quarantine is available only for the period from sunrise to sunset.

TUGS: Tankers berthing at Kyung In Energy Co. Terminal normally require three tugs for berthing and two for unberthing. All tugs operated by Korean Navy.

BERTHING: The port consists of the "Outer Harbour" and "Inner Harbour" which are separated by two islands called Wolmido and Sowolmido, which are connected by a bank. The Outer Harbour, comprising downstream of the Han River, is used as Stream Anchorages for commercial ocean steamers.

A new tidal basin constructed in the area of the present inner harbour. The dock will include entire area of the present Inner Harbour which would provide a total 1,400,000 square metres of water area; 3,820 metres of berthing pier including 1,160 metres of (container Pier and max. 12 metres or 39 ft.) depth. This new dock is directly connected with the terminal of the Seoul–Inchon Highway. After completion the new dock would accommodate a total of 240,000 tons of vessels alongside the piers simultaneously, as follows:

50,000	tonners	1 ship
20,000	,,	3 ships
10,000	,,	6 ships
8,000	,,	8 ships
5,000	,,	1 ship

TANKERS: *Kyung In Energy Co. Terminal*

Designed for 50,000 dwt. over 50 ft. depth at LW. The marine terminal is situated at 37° 30′ 12″ North 126° 36′ 19″ East. The face of the dolphin fendering system is on a bearing of approximately 347 degrees true.

The vessel will be berthed alongside the main and secondary berthing dolphins with the vessel's hull against the fenders, which are an integral part of the dolphins. All the dolphins are equipped with electric capstans and quick-release mooring hooks. A navigation light and fog horn is located on the Southern Exterior Mooring Dolphin (Exterior Mooring Dolphin No. 1). A navigation light is also located on Exterior Mooring Dolphin No. 2 on the North side of the terminal facilities. When a vessel of the 50,000 dwt. class is moored to the terminal, the bow and stern lines will perform the function of the breast lines. Therefore, the spring lines must be led out through the chocks on board which will provide sufficient leads ahead and astern to restrict the movement of the vessel along the face of the dolphins. In this regard, due consideration must be given to the rise and fall of the tide.

Loading Arms: There are three "Continental-Emsco" loading arms situated on the loading platform. The one to the extreme North and the middle one of the three are for the discharge of crude oil. Both are fitted with 16-in. swivel connections having 150 pound flanges. The loading arm to the extreme South is for the loading of naphtha and is fitted with a 12-in. 150 pound flange. The loading arms are designed for a working pressure of 100 psi.

During the connecting and disconnecting of the loading arms to the vessel, the loading arms will be manipulated and positioned by shore personnel. During the period of time when the loading arms are connected to the vessel's manifold, they will be in the "float" position and will be self-adjusting.

General Information:

Under no circumstances should any member of the ship's crew activate or operate the controls for the loading arms. Authorised shore personnel will perform this function.

The "Continental-Emsco" loading arms will tolerate only a minimum amount of transverse movement by the vessel in either direction. In other words, the movement of the vessel along the face of the dolphins is restricted. For this reason, it is mandatory that the vessel be kept in position, and that the mooring lines be properly tended. It is the responsibility of the vessel to maintain sufficient deck crew on duty to properly tend the mooring lines, and to ensure that the vessel maintains proper position relative to the loading arms.

Discharging Crude Oil:

The distance from the loading platform to the tanks is approximately 2·2 kilometres (1·4 miles). A 30-in. block valve is situated near the location where the trestle joins the island causeway. Block valves are also installed in the pipe-line system near the inlet to each of the crude oil storage tanks.

There are three crude oil storage tanks on Yul Do Island. Each has a capacity of 200,000 barrels. The tanks are 48 ft. in height with an overflow at 46 ft. There are no check valves in the crude oil pipe-line system. Thus, the vessel must take precautions against back-filling due to head pressure on the system.

It may be necessary to discontinue the discharge of crude oil when changing from one tank to another ashore. The vessel will be given adequate notice for the stoppage of the ship's cargo pumps.

Ballast:

It is unlawful to discharge dirty or oily ballast water into the waters of Inchon Harbour. Severe penalties may be invoked against the vessel by the Republic of Korea in the event of pollution of harbour waters.

The centre loading arm provides a dual function. It is used for discharging ballast from the vessel as well as for the discharge of crude. The ballast flows through a 12-in. pipe-line to the ballast storage tank on Yul Do Island. This tank has a capacity of 30,000 barrels, and is situated about 1·1 kilometres (0·68 miles) from the loading platform.

Loading Naphtha:

Naphtha is stored in two mainland storage tanks each of which has a capacity of 125,000 barrels. Three pumps provide the flow for shipping naphtha. Each pump has a capacity of 1,600 gpm (2285 BHP). The pumps are on independent circuits. Thus, the loading rate of the naphtha can be governed by the number of pumps used.

The pipe-line from the pumps to the loading platform is 18 in. and is reduced to 12 in. on the loading platform. A block valve is located in the 18-in. pipe-line near the point where the island causeway joins the trestle. Another block valve is provided in the 12-in. pipe-line on the loading platform.

The pumps which are used for shipping naphtha can be stopped from the Marine Terminal Loading Platform, but they must be started from the mainland. Under normal conditions the vessel's deck officer on watch should give the terminal personnel 10 minutes notice prior to requesting that the loading rate be reduced, and the same notification prior to the completion of loading. As previously stated, the pumps can be stopped from the loading platform in case of an emergency.

The approximate distance from the mainland naphtha storage tanks to the loading platform is 5·4 kilometres (3·35 miles).

Regulations:

1. Sufficient number of crew members are to be on duty at all times to properly tend the mooring lines and ensure that the position of the vessel is maintained alongside of the dolphins.
2. Except in the case of an emergency, the deck officer on duty shall give the terminal personnel at least 10 minutes notice prior to changing the loading rate of the naphtha, and at leas 10 minutes notice prior to the completion of loading cargo.
3. Under no circumstances is the vessel's main propulsion en-

gine to be disabled, or are any repairs to be undertaken while the vessel is moored to the marine terminal.
4. The vessel's fire-fighting equipment is to be kept ready for immediate use. A sufficient number of hoses shall be led out forward and aft to provide full deck coverage.
5. Lights must be provided by the vessel to illuminate the water area in the vicinity of the bow, stern and off-shore side.
6. Smoking will be permitted in such *Interior* spaces as may be designated by the vessel's Master. However, smoking will not be permitted on any open deck areas.
7. The loading of ship's stores and supplies will not be permitted during the time ballast is being discharged, or naphtha is being received by the vessel.
8. Ullage hole screens are to be used at all times while bulk oil transfer operations are in progress.
9. Galley ranges, unless electric, are not to be used while the vessel is loading naphtha.
10. Except for the period of time actually required for passengers to embark or disembark from a launch, no boats, launches or vessels will be permitted to moor alongside a vessel which is berthed at the marine terminal.
11. Safety practices which are common to marine terminals on a world-wide basis will apply.

Honam Buoys: Lat. 37° 29′ 00″ and Long. 126° 36′ 03″, draft acceptable 30 ft., at east side of A-3 anchorage. This berth is the private facility of the Honam Oil Refinery Co. (joint company with CALTEX) for discharge of their own petroleum products. Consisting of 4 mooring Buoys and sub-marine pipe lines.

Union Oil Terminal, 42 ft. depth alongside. Berthing/unberthing in daytime slackwater only.

MEDICAL: Launch is provided in emergency call to evacuate sick men. Modernised hospital is available. Provincial and Christian hospital.

STEVEDORES: There are 12 stevedoring companies with:
162 wooden barges (16,200 tons) – total capacity 34,200 tons.
60 steel barges (18,000 tons) – total capacity 34,200 tons.

DENSITY: Varies between 1022 and 1024.

FRESH WATER: Can be supplied by lighter, maximum quantity 250 tons in 10 hours. Earliest advance notice essential.

FUEL: Available by barge only.

CUSTOMS ALLOWANCES: One carton cigarettes or 1 lb. of tobacco, and one bottle wine or spirits allowed, each man.

IDENTIFICATION CARDS: Crew required to carry valid identification cards at all times.

REPATRIATION: No facilities for crew changes or repatriation.

GANGWAY/DECK WATCHMEN: Ship security guard is required. Stream charge 30% additional.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CONSULS: None.

REPAIRS: Deck and engine repairs possible. Floating cranes up to 60 tons capacity.

AIRPORT: 20 miles from port. Regular flights to Japan.

POLICE/FIRE/AMBULANCE: Police Officer (2) 0568; Fire Depot (2) 119; Medical Centre (2) 2535.

TELEPHONES: Portable communication facility is available.

TIME: Korean Standard Time. 9 hours ahead of GMT. No alterations during year.

HOLIDAYS: 1st January, 1st March, 5th April, 6th June, 17th July, 15th August, 3rd October, 9th October, 24th October, 25th December.

GENERAL: Tide condition is critical, swift currents (high tide: 9 to 10 m.) special attention is required.

ACCOMMODATION LADDER: Essential for Port Officials on entry. Also for tanker berth no access allowed through plant. Rig on port side.

SHORE LEAVE: Launch service required, also local curfew ashore 2400 to 0400, on launches and craft 1900 to 0600.

DELAYS: Can be caused by bad weather.

PORT AUTHORITY: Inchon Marine Bureau MOT. 57 Sun Rin Dong Inchon, (2) 285, (w) 0044–47.

KUNSAN (including Changhang) 35.55 N. 126.45 E.

The Port of Kunsan is situated on the Southern mouth of the Kum-River which flows into the Yellow Sea, and North Changhang.

DOCUMENTS:
6 copies Report (Ent/Departure).
6 copies Crew List.
6 copies Passenger List.
2 copies Crew Personal Effects List.
3 copies Passenger Luggage List.
2 copies Store List.
9 copies Manifest (dis./loading) only.

NOTICES: All vessels bound for Korean ports should give an ETA to the local Agents 27 hours prior arrival. This is essential to enable the Agents to notify the Port Authorities and arrange Pilot if necessary.

RESTRICTIONS: Vessels should enter during dayight hours only. Many small Korean fishing and cargo boats in this area display dim navigation lights or none at all at night. Pilot is not compulsory but all vessels calling at this port recommended employ a Pilot in view of the hazardous channel and tidal difficulties. Controlling depth 8 ft. at Bar. Keel clearance of 2 ft. required.

PILOTAGE: The pilot station is situated at the Southern side of Piun Do (Hiyo To) Island the correct position of which is at 35° 56′ N. and 126° 27′ E.

The boarding point near Piun Do is about 14 miles from Kunsan. Pilot to be ordered at least 24 hours in advance. Pilots cannot board in rough weather. Due to constantly changing bottom conditions, vessel should not attempt to enter without Pilot.

ANCHORAGE: Outer anchorage about 5½ miles west of Kunsan for vessels drawing up to 28 ft.

Inner anchorage off Kunsan suitable for vessels of 21 ft. draft.

RADIO: Kunsan Radio, call sign HLN operating on 500 and 484 kHz.

MAX. SIZE: Draft 18 ft. to 27 ft. dependent on height of tide.

TUGS: 5 tugs with respective capacity of 300 h.p. (1) 150 h.p. (2) and 80 h.p. (2) are available. One floating crane with capacity of 30 tons owned and managed by the Korea Dredging Corp. is available.

BERTHING: The port is controlled by Kunsan District Marine Bureau and all vessels come under jurisdiction of Kunsan Custom House. The anchorages in stream inner harbour can accommodate one or two vessels less than 1,000 gross tons, and outer anchorage (Yubudo Anchorage) accommodates one ocean going vessel drawing about 28 ft. There are 5 pontoon piers (3 for Kunsan and 2 for Changhang) each of which can accommodate an ocean-going vessel with maximum draft of 27 ft.

STEVEDORES: There is one stevedoring company with 14 wooden barges, 3 steel barges and 3 tug boats. Discharging capacities: average records per day of 24 hours: coal 1,500 tons; grain and wheat 1,600 tons; fertilizer 1,300–1,400 tons; cement 1,000–1,100 tons; lauan log 500,000 B/F Daytime only.

MEDICAL: Crew members should be in possession of health certificate showing vaccinations for smallpox and typhoid. In case health certificate has expired, the person(s) will be vaccinated/inoculated by a quarantine doctor.

CURFEW: In Korea the curfew is still effective from 2400 to 0400 every day.

TIME: Korean Standard Time, GMT plus 9 hours.

HOLIDAYS: Public Holidays – New Year (January 1–3); Independence Movement Day (March 1); Labour Day (March 10); Arbor Day (April 5); Memorial Day (June 6); Constitution Day (July 17); Liberation Day (August 15); Nation's Foundation Day (October 3); National Alphabet Day (October 9); United Nations Day (October 24); Christmas Day (December 25). (Can be worked if requested.)

Local Holidays. Work cannot be carried out on Lunar New Year's Day and the Moon Festival, about 15th August.

SHORE LEAVE: Crew shore passes will be issued by Port Immigration Office.

AUTHORITY: Kunsan Maritime Bureau.

MASAN: 35.11 N. 128.33 E.

DOCUMENTS:
6 copies Report (Ent/Departure).
6 copies Crew List.
6 copies Passenger List.
2 copies Crew Personal Effects List.
2 copies Store List.
9 copies Manifest (dis./loading only).

PILOTAGE: Not compulsory, but inadvisable to enter without Pilot. Pilots available at Pusan, to be ordered by Agent at least 24 hours in advance. Pilot station at Kaduk Do. A berthing/unberthing pilot available at Masan.

NOTICES: All vessels bound for Korean ports should give ETA to the local Agents 27 hours prior arrival. This is essential to enable the Agents to notify the Port Authorities and arrange a Pilot if necessary.

MAX. SIZE: The maximum draft admissible for entrance is 26 ft.

TUGS: 2 tug boats of 1,000 h.p. and 350 h.p. owned and managed by Masan District Marine Bureau available.

ANCHORAGE: Mooring capacity at anchorages: A–1, A–2, A–3 Depth 30 ft.; A–4, A–5, A–6 Depth 24 ft.; A–7, A–8 Depth 23 ft. Quarantine Station A Depth 36 ft.

BERTHING: Pier No. 1 provides 2 berths for ocean-going vessels and pier No. 2 only for vessels less than 800 gross tons due to insufficient water. Wharf capacity: Pier berth No. 1 and 2, length 162 ft. depth 24 ft. Pier berth No. 3 and 4 length 660 ft. depth 26 ft. Difference between high water and low water at spring only 9 ft. Pier No. 5 berth length 180 ft., depth less than 12 ft. Warehouse belongs to Masan Marine Bureau, capacity 10,000 cubic ft. located No. 1 pier in front of the ship alongside.

STEVEDORES: Korea Express Co., 8 barges (1,000 tons), 1 tug (145 h.p.); Hyopshin Stev. Co., 6 barges (1,000 tons), 1 tug 180 h.p.).
Discharging capacity – average records per day (24 hours).

Coal	in bulk	1,000 tons
Cement	in bags	1,000 tons
Grain & Wheat	in bulk	1,000 tons
Fertiliser	in bags	1,000 tons
Steel Scrap	in bulk	750 tons

MEDICAL: Crew members should be in possession of health certificate showing vaccinations for smallpox and typhoid. If the health certificate has expired, the person(s) will be vaccinated/inoculated by a quarantine doctor.

CURFEW: In Korea the curfew is still effective from 2400 to 0400 every day.

TIME: Korean Standard Time GMT plus 9 hours.

HOLIDAYS: Public Holidays:
New Year (January 1–3); Independence Movement Day (March 1); Labour Day (March 10); Arbor Day (April 5); Memorial Day (June 6); Constitution Day (July 17); Liberation Day (August 15); Nation's

Foundation Day (October 3); National Alphabet Day (October 9); United Nations' Day (October 24); Christmas Day (December 25).
SHORE LEAVE: Crew shore passes will be issued by Port Immigration Office. Extension of shore passes should be made every 72 hours.
AUTHORITY: This port is controlled by Masan District Marine Bureau, under jurisdiction of Masan Custom House.

MOKPO: 34.37 N. 126.23 E.

DOCUMENTS:
6 copies Report (Ent./Departure).
6 copies Crew List.
6 copies Passenger List.
2 copies Crew Personal Effects List.
3 copies Passenger Luggage List.
2 copies Stores List.
9 copies Manifest (Dis./Loading only).
PILOTAGE: Pilots stationed at Kasado Island, 34° 27′ N. 125° 02′ E. 30 miles from Mokpo. Twenty-four hours notice to Agent required to arrange Pilot. Although not compulsory, vessels strongly recommended not to enter without Pilot.
NOTICES: All vessels bound for Korean ports should give an ETA to the local Agents 27 hours prior to arrival. This is essential to enable the Agents to notify the Port Authorities and arrange a Pilot if necessary.
RESTRICTIONS: Mokpo is located at the South-western end of the Korean peninsula. The port is at the mouth of the Yungsan River which flows through the Yungsan peninsula. Kasako Island protects this port from heavy winds and swell. The Yungsan River provides 5 anchorages where 5 vessels of Liberty type can berth at a time. The port is 30 miles from the pilot station off Ksasdo Island, in position 34° 27′ 20″ N. and 125° 02′ 05″ E.
Tide Information: maximum tide level at high water 4·5 metres; minimum tide level at high water 2·8 metres; average tide level at high water 3·5; Maximum tide level at low water 0·5 metres; Minimum tide level at low water 1·3 metres; Average tide level at low water 0·7 metres.
ANCHORAGE: Five anchorages in depths from 11 metres to 20 metres. Anchorage Nos. 2, 3, and 4 are better than No. 1 and 5 for discharging cargo because No. 1 is sometimes very dangerous due to strong tidal currents.
TUGS: Three tugs available, up to 150 h.p.
RADIO: Mokpo Radio. Call sign HLM operating on 500 and 484 kc/s.
BERTHING: Sam Hak Do Pier, length 168 metres and width 18 metres, where only one 8,000 ton ocean-going vessel can operate in 13 metres depth.
STEVEDORES: There are 3 stevedores companies with 28 wooden barges (1,680 tons), 7 steel barges (1,200) tons and 3 tug-boats.
MEDICAL: Crew members should be in possession of Health Certificate showing vaccinations for smallpox and typhoid. In case the Health Certificate has expired, the person(s) will be vaccinated/ inoculated by a quarantine doctor.
FRESH WATER: Available at rate of 150 tons per day. Twenty-four hours notice required.
CURFEW: In Korea, the curfew is still effective from 24.00 to 04.00 every day.
TIME: Korean Standard Time, GMT plus 9 hours.
HOLIDAYS: Public Holidays: New Year (January 1st–3rd); Independence Movement Day (March 1st); Labour Day (March 10th); Arbor Day (April 5th); Memorial Day (June 6th); Constitution Day (July 17th); Liberation Day (August 15th); Nation's Foundation Day (October 3rd); National Alphabet Day (October 9th); United Nations Day (October 24th); Christmas (December 25th). Work can be arranged on all above holidays. Local Holidays: No work can be done on Lunar New Year or on the Moon Festival about August 15th.
SHORE LEAVE: Crew shore passes will be issued by Port Immigration Office. Extension of shore passes should be made every 72 hours.
AUTHORITY: Mokpo District Marine Bureau.

MUKHO: 37.33 N. 129.27 E.

DOCUMENTS:
6 copies Report (ent/departure).
6 copies Crew List.
6 copies Passenger List.
2 copies Crew Personal Effects List.
3 Passenger Luggage Lists.
2 copies Store List.
9 copies Manifest (dis./loading only).
PILOTAGE: Compulsory. Pilotage area from quarantine station to inside boundary line of harbour limits.
RESTRICTIONS: Vessels bound for this port should anchor at the out-harbour awaiting for Quarantine Inspectors, and are required to radio the Harbour Master (6MF2/500 kc/s) the following, free of charge, at least 12 hours prior to the ship's arrival at the Quarantine Station, viz.: 1. Name and nationality of vessel; 2. Exact ETA at out-harbour (Quarantine or Pilot Station); 3. Maximum draft on arrival; 4. Description and quantity of cargo and the number of passengers, and so on.
ANCHORAGE: In Outer Harbour with max. draft 40 ft., 20,000 to 30,000 G/tonners, possible anchor near Quarantine Station, however, cargo work not possible due to no cargo gear and bad weather except under special circumstances.
TUGS: Two tugs available of 320 h.p. and 650 h.p.
BERTHING: Central Pier depth 18 ft. 05 in.; Coal Pier Conveyor A depth 21 ft. 00 in.; Conveyor B depth 21 ft. 09 in.; Stream berth depth, 21 ft. 00 in.; Ssangyong Pier depth 26 ft. 10 in; Ssangyong Pier depth 31 ft. 05 in.
Generally speaking, the loading berth at Coal Pier, Central Pier and Ssangyong Pier, is determined by ship's arrival order. However priority is often given to local vessels carrying domestic coal when domestic coal transportation is urgently required which could cause a rather prolonged wait. Therefore, all vessels bound for this port for coal/graphite/cement are recommended to contact Agents well in advance to ascertain the port conditions.
STEVEDORES: One stevedoring company: Korea Express Company Limited.
MEDICAL: Crew members should be in ppssession of health certificate showing vaccination for smallpox and typhoid. In case health certificate has expired, the person(s) will be vaccinated/ inoculated by a quarantine doctor.
FUEL: Nearest supply point is Ulsan, 140 miles away.
CURFEW: In Korea the curfew is still effective from 2400 to 0400 every day.
TIME: Korean Standard Time – GMT plus 9 hours.
HOLIDAYS: Public holidays:
New Year (January 1–3); Independence Movement Day (March 1); Labour Day (March 10); Arbor Day (April 5); Memorial Day (June 6); Constitution Day (July 17); Liberation Day (August 15); Naton's Foundation Day (October 3); National Alphabet Day (October 9) United Nations Day (October 24); Christmas Day (December 25) Work can be done.
Local Holidays: No work can be done on Lunar New Year's Day and on the Moon Festival about August 15th.
SHORE LEAVE: Crew shore passes will be issued by Port Immigration Office. Extension of shore passes should be made every 72 hours.
AUTHORITY: District Marine Bureau.

POHANG: 36.31 N. 129.23 E.

DOCUMENTS: See "Pusan".
PILOTAGE: Compulsory, two licensed pilots available.
ANCHORAGE: In roadstead, open to N.W. in depth 36–40 ft. Good holding ground for cargo operations.
TUGS: Two tugs available of 250 h.p.
BERTHING: New pier for discharging iron ore cargoes. One berth for bulk carriers up to 50,000 dwt. and one berth for smaller vessels up to 5,000 dwt. Total length of pier 2,340 metres. Operated by Pohang Composite Iron and Steel Works.
FRESH WATER: Small amounts up to 50 tons, may be barged from Ulsan, 56 miles away.
AUTHORITY: Pohang District Marine Bureau.

PUSAN: 35.07 N. 129.02 E.

DOCUMENTS:
9 Cargo Manifests.
3 Transit Cargo Manifests.
8 Crew Lists.
8 Passenger Lists.
4 Passenger Baggage Lists.
4 Mail Lists (forms supplied by Agent).
5 Parcels Lists (forms supplied by Agent).
2 Arms-Narcotics Lists.
2 Tobacco Lists.
2 Currency Lists.
4 Stores Lists.
4 Crew Personal Effects Lists.
Immigration: All Seamen's Books examined and shore passes made out. These passes to be carried at all times when ashore. Strict curfew from 0000 hours to 0400 hours.
CERTIFICATES:
De-rat. Certificate or Exemption.
Inoculation and Vaccination Certificates for all crew members.
PILOTAGE: Professional pilot service is available at Pusan and contact can be made by telephone No. 6–1346 or 6–1743. Necessary for arriving vessel to notify Pilots of arrival 24 hours in advance. VHF unavailable. Formal address is: 73 2-Ka, Choong-Gu Taigyo-Ro, Pusan, Korea. Blast signal from vessel used to call Pilots. Pilot station position 35° 05′ 5″ N. 129° 05′ E.
Pilotage is compulsory and available day and night. Pilot boards off the entrance to the outer harbour. Pilot boat is white launch with pilot signals. Tugs cannot be employed unless Pilot is on board.
PRATIQUE: Pratique granted to vessels anchored in a circular quarantine anchorage located in outer harbour. Quarantine inspection can be arranged by day or night if sufficient advance notice given although regular hours are sunrise to sunset. Valid smallpox and cholera certificates required. Innoculations against typhoid and typhus may be required depending on prevalent conditions.
ANCHORAGES:

Designation	*Depth*	*Capacity*
S-anchorage	8–9 m.	6 vessels of 300–2,000 t.
E-anchorage	11–12 m.	6 vessels of 8,000–12,000 t.
N-anchorage	7–10 m.	18 vessels of 500–6,000 t.

RESTRICTIONS: Vessel having called at Communist ports with-

in six months of contemplated entry of Pusan needs to obtain permission of authorities.

MAX. SIZE: No restrictions on length or breadth of a vessel. Draft should be less than 10 m. when vessel is alongside a pier, or 12 m. when anchored at an anchorage.

RADIO: Pusan Harbour Radio Station: call sign, HLP. Frequency, 500, 434 kc/s. operation round the clock.

Cable Harbour Master 12 hours in advance, advising ETA, last port and maximum draft. If name of Agent is included, the Harbour Office will inform Agents.

VHF is now available. Calling Channel 16. Working Channel 14. Call sign "Harbour Control". Range about 12 miles.

A radar has been sited at the Harbour Office to help vessels approaching in poor visibility.

TUGS: Tugs join an arriving vessel at immediate interior to breakwater, Pusan Harbour. Ship's own lines are used.

BERTHING: Normally in daylight only.

	Length	*Beam*	*Draft*
Pier No. 1	407 m.	115 m.	28 ft.
Pier No. 2	407 m.	116 m.	28 ft.
Quay way No. 2	645 m.	—	27 ft.
Pier No. 4	556 m.	145 m.	29 ft.

STEVEDORES: On basis using full gangs per day, the capacity is: 1,000 L/tons on general cargo; 1,200 L/tons on grains; 1,500 L/tons on anthracite or coal.

TANKERS: A T-head oil pier extends about 700 ft. on the S.E. side of the north harbour. Least depth at pier head is 32 ft. Used by tankers servicing Korea Oil Corporation.

DEVELOPMENTS: Dredging of the approach channel to piers to about 36 ft. Dredging northern section of harbour to 29 ft.

MEDICAL: Service is available at short notice.

FRESH WATER: Available. Rate of water supply, 80 L/tons per hour. Supplied at pier, or by barge.

FUEL: Availability on Bunker "A", Bunker "C", LRFO, LO and diesel oil.

FIRE PRECAUTIONS: Port has separate anchorage for tankers. Port requests for compliance with regulation not to contaminate waters with inflammable substances, e.g. petroleum products. Tankers are prohibited to clean tanks in port.

GANGWAY/DECK WATCHMEN: This service is available.

OPENING/CLOSING HATCHES: Usually carried out by stevedores.

CUSTOMS ALLOWANCES: One carton cigarettes or 1 lb. of tobacco, and one bottle wine or spirits allowed, each man.

IDENTIFICATION CARDS: Crew required to carry valid identification cards at all times.

CONSULS:

Consul, Republic of China (Formosa) Tel. 4–0276
Consul, Japan ,, 22–0135

REPAIRS: All repairs can be effected.

DRY DOCKS:

Name of facility	*Capacity*	*Location*
Korea Ship Building Eng. Corp. No. 1	5,000	Pusan
Korea Ship Building Eng. Corp. No. 2	10,000	Pusan
Korea Ship Building Eng. Corp. No. 3	100,000	Pusan
Dae Sun Ship Building Corp.	4000	Pusan

REPATRIATION: No facilities.

AIRPORT: Airport is at Suyeng about 12 km. from Pusan. Japan-bound plane takes off once a day.

TIME: Korean Standard Time. 9 hours ahead of GMT. No alterations during year.

HOLIDAYS: 1st–3rd January; 1st March; 10th March; 5th April; 6th June; 17th July; 15th August; 3rd October; 9th October; 24th October; 25th December.

On above holidays vessels can be discharged and loaded with permission to work granted by the Customs Authority on request.

Local holidays when no work may be performed are: New Year's Day in Lunar Calendar, and the Moon Festival (15th August) in Lunar Calendar.

POLICE/AMBULANCE/FIRE: Police, 22–0863/2497; Ambulance, Pusan Quarantine Station, 6–1371, 4–5736.

TELEPHONES: "Port Telephone Service" operates for purpose of serving communication on board-shore.

SERVICES: Adjustment of compass, available.

SHORE LEAVE: Allowed.

DELAYS: Port congestion is experienced occasionally.

AUTHORITY: Pusan District Marine Bureau. Tel. 4–0041/0043 or 6–0357.

ULSAN: 35.27 N. 129.23 E.

Korea Oil Corp. Single Buoy Moorings.

DOCUMENTS:

3 copies of Manifested Parcels on Board.
3 copies of the Store List.
3 copies of List of Narcotics on Board.
3 copies of List of Arms and Ammunition on Board.
3 copies of List of Vessel's Foreign Currency.
3 copies of List of Crew's Foreign Currency.
3 copies of List of Vessel's Tobacco, Cigarettes, Spirits, etc.
13 copies of the Crew List.
3 copies of List of Crew's Personal Effects, Tobacco, Cigarettes, Spirits, etc.
Crew's Vaccination Certificates.
Deratisation Exemption Certificates.
Clearance from Last Port.
10 copies of List of Landing Passengers, if any.
10 copies of List of Passengers in Transit, if any.
3 copies of List of Passengers' Baggage.

PILOTAGE: The seaward approaches to the Imodco Terminal mooring site are free of underwater obstructions and existing landmarks and navigation aids are adequate. Depth of water not less than 65 ft. in approaches. The Imodco Terminal can be approached with the summit of Pongdae San bearing 333° true. When in position the following navigation fix will obtain at the mooring site:

Pongdae San (summit) bearing 333° true distance 2,915 yd.
Pongjin Hang Light (end of breakwater) ,, 053° true ,, 4,770 yd.
Chuck To (centre cut) ,, 255° true ,, 3,800 yd.

A good radar echo will be obtained from the tanks ashore at approximately 20 miles, the Imodco buoys at a distance of 8 miles, and the small buoys, marking the floating hose heading off the Imodco buoy, at 1·5 miles.

Lights ashore, lights on the Imodco buoys and on the small buoys appear to be unreliable.

After clearing Customs a harbour Pilot will board the vessel to direct it to the buoy and conduct the mooring operations if required. There is no night mooring. However, unmooring is carried out during darkness as well as in daylight.

ANCHORAGE: Anchor the vessel about 1 mile South-east of the buoy, if the weather permits. In this location it is less difficult to find vessel, when in fog. Do not anchor less than 1 mile from buoy, and under no circumstances can the anchors ever be used on approaching the buoy terminal, chain cables and pipe-lines are located at this site and anchoring is strictly prohibited.

HEALTH: Entry prediction to be supplied to quarantine authorities by vessel's Agent 24 hours before arrival. Master required to complete Health Declaration when officer boards on arrival. Free pratique is automatic when coming from another Korean port.

RADIO: There is no marine radio telephone at Ulsan to communicate with on radio telephone frequency. A small transreceiver on shore can communicate with attendant launch.

BERTH DESCRIPTION: Two berths at single buoy moorings.

No. 1 Imodco Buoy

Position: Latitude 35° 27′ 15″ North, longitude 129° 23′ 30″ East.
Description: A 12·5 metres red and white vertically striped buoy.
Lights: On buoy; alternate flashing red and white every 12 seconds, visibility 5 miles or more. Duration of each flash 4 seconds.

On hose; there are 3 red flashing marker lights equally spaced along 675 ft. hose, visible for 2 miles.

All of the above lights are activated by photoelectric cells.
Radar Reflector: On buoy's mast.
Foghorn: A two-second blast, period 20 seconds, range one mile. Must be turned on at the buoy.
Soundings: Eleven fathoms in buoy area.

No. 2 Imodco Buoy

Position: Latitude 35° 26′ 44″ North, longitude 129° 23′ 20·5″ East.
Description: A 12·5 metres red coloured buoy.
Lights: On buoy; has a range of at least 5 miles, on hose; as for No. 1 Imodco buoy.
Foghorn: A battery powered foghorn with a range in excess of ½ mile.

DRY CARGO BERTHS:

Commercial Berth: Length 210 metres, depth alongside 33 ft.
Korea Fertilizer Co. Berth: Length 240 metres, depth alongside 30 ft.

BERTHING: Two launches are in attendance during mooring and unmooring operations. One launch will keep the hoses clear and the other handles the mooring rope. Both bow anchors are to be hove well up in the hawse pipes and properly secured before reaching the buoy. Anchors are never to be used while on the buoy, they can foul buoy cables and pipe-line on the bottom if released.

No. 1 Buoy. The vessel will be moored with 4 to 5 ropes off the bow. No rope used from the well decks. One rope will be run single to the buoy to heave the vessel in proper position, all other lines will be used double by sending one end out through the port or starboard bow chock and hove back through the opposite side of the bow chock, sufficient slack is brought on board so that a complete set of turns can be securely placed on the bollard. A good messenger rope about 3½ in. to 4 in. circumference, at least 400 ft. in length, will be required to heave the lines around the mooring arm on the mooring and back on the vessel. The first line used single will be doubled up last.

No. 2 Buoy. The vessel will be moored with two nylon lines, 250 ft. in length, floating off the buoy. Two of the ship's mooring ropes will be run to the buoy to heave the vessel in proper position. At about 40 yd. distance from the buoy a good messenger rope will be required to pick up the floating ropes one by one. When the floating ropes are made fast on board, one of the two ship's ropes sent to the buoy will be doubled up.

HOSES: *No. 1 Buoy.* There are two sets of 12 in. hoses and one set of 8 in. hose. The two 12 in. hoses are for crude oil and the 8 in. hose for gas oil. The hoses are 675 ft. in length from the buoy manifold and are floating in plastic doughnut shaped floats. The hose con-

nections are always made to the port manifold, and are lifted one at a time to the ship's manifold. Each hose, when full of cargo and equipment, is over 1½ tons in weight.

No. 2 Buoy. There are two strings of 16 in. hoses, each 945 ft. in length. The final 70 ft. of hose is reduced to 12 in. to permit lifting by the tanker's lifting gear. The hose connections are made to the starboard manifold of the vessel.

BUNKERS AND WATER: Available by barge only.

BALLASTING: After the vessel has been somewhat more than half discharged, the vessel should be ballasted to a safe margin, to draw not less than 12 to 13 ft. forward. This will avoid the vessel yawing widely on the buoy with strong winds and assist in avoiding contact with the buoy and hoses. Vessel will moor about 120 ft. from buoy.

CUSTOMS ALLOWANCES: One carton cigarettes or 1 lb. of tobacco, and one bottle wine or spirits allowed, each man.

IDENTIFICATION CARDS: Crew required to carry valid identification cards at all times.

REPATRIATION: Nearest facilities for crew change or repatriation are at Pusan.

TIME: Korean Standard Time, 9 hours ahead of GMT. No alterations during year.

HOLIDAYS: 1st January; 1st March; 5th April; 6th June; 17th July; 15th August; 3rd October; 9th October; 24th October; 25th December.

SHORE LEAVE: Allowed up to midnight.

GENERAL: Vessels arriving at Ulsan should radio to Agent at Pusan four days in advance information on size of vessel's manifold connections, as the adapters, if required, will have to be made by the Korea Oil Corp. This applies mainly to vessels arriving at Ulsan for the first time or in case there has been any alteration to the manifold since the last arrival.

While on the buoy the vessel will be required to provide sleeping quarters and linen for about eight to ten men; this includes the discharging Master and his apprentice. The standby men include launch-men and riggers; these men connect and disconnect hoses and are mainly kept on board for emergency.

The discharging Master will remain with the vessel during its entire operation on the buoy. Under certain conditions, should it become necessary, they may ask the vessel for meals; however, food for standby men is generally furnished from ashore.

The ship's engines must remain ready for immediate use.

AUTHORITY: Korea Oil Corporation, Ulsan.

YOSU: 34·51 N. 127·47 E.

DOCUMENTS:

Last Port Clearance.
Register.
12 copies of Crew List.
12 copies of Passenger Manifest.
3 copies of Store List.
3 copies of Bonded Store List.
3 copies of Arms and Ammunition List.
3 copies of Livestock List.
1 copy of Vaccination List showing dates of last smallpox and yellow fever vaccination, etc.

PILOTAGE: The approach to Yosu Gulf from the South is open and clear of dangers until vessel approaches "Tae Do" near which the pilot station is located. The depths of water vary from 40 metres off "Cah-To" to 20·5 metres in the vicinity of Tae Do.

From Tae Do the channel narrows and changes direction to the West North-west towards the town of Yosu. Off the South-west extremity of Namhae, where the channel is about 1·25 miles wide, course is altered to North by West into Yosu Gulf. The land on each side is mountainous and rises to an average height of 450 metres. The highest peak in the area is Mangun San, situated in the Northern part of Namhae and rises to an elevation of 785 metres.

In approximate latitude 34° 47′ N. are located 5 buoys and 1 lighthouse beacon to mark the narrowest part of the Channel. The buoys are numbered nos. 1 to 5 with black buoys having even numbers. Vessels course is mid-way between the buoys. About ¾ mile from the Imodco Buoy a 13 metres patch is marked by a buoy.

HONAM OIL REFINERY SINGLE BUOY MOORING.

RESTRICTIONS: Channel depth minimum 63 ft. The channel area to Yosu has been hydrographic surveyed and wire dragged North of latitude 34° 35′ 30″. A channel about 2½ miles wide and 15 miles long has been wire dragged South of latitude 34° 35′ 30″. The Western extremity of this channel is located about 3½ miles East of Chock-To Island. Daylight berthing only at the buoy terminal.

MAX. SIZE: Up to 60 ft. draft.

ANCHORAGE: Depth 14 fathoms. It is prohibited to anchor within 1 mile of buoy mooring.

HEALTH: Entry prediction to be supplied to quarantine authorities by vessel's Agent 24 hours before arrival. Master required to complete Health Declaration when officer boards on arrival. Free pratique is automatic when coming from another Korean port.

RADIO: Pusan Radio. There is at Yosu a non-commercial radio station with call signal 6 MY operating and listening on 500 kc/s. Manned by two operators with 24 hours service. The station is located at the Yosu Marine Bureau for the benefit of the port authorities, including the Pilot. The range of the station is about 100 nautical miles, and it is recommended that Masters communicate with this station giving their ETA at the pilot station. The communication from tanker to shore when moored at the Imodco buoy is by VHF transreceiver and is handled by refinery personnel on board. Messages should therefore be relayed to the refinery representatives.

TUGS: Two tugs available each of 1,000 h.p.

BERTHING: The approach to the buoy is made with minimum headway on the tanker and the first synthetic line to the buoy is supplied by the vessel, and by using this line the vessel is brought approximately 150 ft. from the buoy, when two 15-in. synthetic lines from the buoy are brought up to the ship and made fast. During the discharge operations engines must be ready on a moment's notice and sufficient officers on duty to man the bridge and the engine-room. In order to avoid riding up on the buoy and the cargo hoses stern movements with the engine may be required. On turbine vessels where the chief engineer is unable to completely stop his engines, the r.p.m. must be kept at a minimum. Vessels which are not able to conform with these regulations should advise Honam Oil representative in writing.

Honam Oil maintain a boat to bring the cargo hoses alongside and crew for connecting of same. The tanker's crew is, however, responsible for adjusting the boom and the gear necessary for this operation. The same procedure takes place upon completion of cargo.

BALLAST: There are no facilities for reception of dirty ballast. It is the ship Master's responsibility to see that no oil or oily ballast is spilled or pumped overboard from his ship. Drip-pans must be used at all times and all scuppers must be plugged. The waters in or adjacent to the terminal must not be polluted and only oil-free bilgewater may be discharged at the terminal. If, during inspection or during progress of discharging, it is revealed that the vessel's tanks are not oil-tight, she will be refused further discharging, if so determined by the refinery representative.

SAFETY: Sufficient officers and crew personnel must always be on board to attend to the vessel and to cargo. Power must be available at all times on deck winches and windlass while the vessel is in the moorings. The presence of unauthorised craft alongside is extremely hazardous, and Masters are requested to require all unauthorised craft to clear the vessel's side prior to commencement of cargo discharging. Master should shut down all cargo operations during severe electrical storms and under any circumstances which imperil the cargo operation.

DRY CARGO PORT:

PRATIQUE: A quarantine anchorage has been designated within an area bounded by a circle having a radius of 750 yards centred at approximate lat. 34° 45′ 12″ N. long. 127° 46′ 15″ E.

RESTRICTIONS: Least depth in channel to Pier No. 3 is 24 ft. near the North Harbour entrance.

The South Harbour entrance has a depth exceeding 40 ft. gradually decreasing towards the head of the harbour.

MAX. SIZE: Alongside Pier No. 3. Max. draft 26 ft. At anchor draft up to 33 ft.

ANCHORAGE: Vessels can anchor as convenient in the North Harbour or in depths of 4½–9 fathoms, mud bottom, in the sea southward of the breakwater, linking the mainland with Odong Do.

TUGS: Three tugs available, up to 655 h.p.

BERTHING:

South Harbour: used by fishing and coastal vessels only.
North Harbour: Pier No. 2 depth alongside 21 ft.
Pier No. 3 depth alongside 27 ft.

MEDICAL: There are Medical facilities in Yosu Town. Inoculation and vaccination can be arranged with quarantine doctor. Deratisation Certificates can be arranged. Vessels requiring emergency medical assistance should contact agent immediately.

DENSITY: 1025.

FRESH WATER: No fresh water is available for delivery to ships.

FUEL: Bunkers available by barge subject to advance notice being given.

REPAIRS: There are no repair facilities in Yosu, except for small jobs.

CUSTOMS ALLOWANCES: One carton cigarettes or 1 lb. of tobacco, and one bottle wine or spirits allowed, each man.

IDENTIFICATION CARDS: Crew required to carry valid identification cards at all times.

REPATRIATION: Crew changes or repatriation can be arranged.

TIME: Korean Standard Time, 9 hours ahead of GMT. No alterations during year.

HOLIDAYS: 1st January, 1st March, 5th April, 6th June, 17th July, 15th August, 3rd October, 9th October, 24th October, 25th December.

SHORE LEAVE: Shore leave for ship's personnel is arranged by ship's Agent and the local authorities. The nearest town is Yosu, 40 min. boat ride from the terminal, which should be arranged by the Agent. Caution: Sufficient personnel must be on board at all times for letting go lines and clear the buoy immediately.

AUTHORITY: Honam Oil Refinery Co. Ltd., Yosu Refinery, PO Box 7, Yosu Chollanamdo, Korea.

Kuwait

KHOR-el-MUFATTA: 28.39.17 N. 48.23.26 E.

DOCUMENTS: The only document required for this port is copy of the Cargo Manifest.

PILOTAGE: No pilotage available.

ANCHORAGE: Vessels anchor to seaward side of black and white conical shaped buoy which is situated 2 miles to the East of the Khor. Mufatta is some 55 miles by sea from the port of Kuwait. The flashing lights marked on the charts at the entrance to the Khor have been discontinued.
HEALTH: Before arrival vessels required pass following items to Agent (about three or four days prior to ETA). Name of vessel, Nationality, ETA, Last port of call, tonnage, quarantinable disease on board (if any) infectious disease (if any), sick persons, death, and any requirements.
ETA should be notified again 24 hours before arrival.
RADIO: No separate radio service for this port and all communication to Agent to be made through Kuwait Radio 9 KK.
TUGS: None.
BERTHING: Ship discharged in open roadstead.
STEVEDORES: Sent from Kuwait. At least 48 hours notice required.
MEDICAL: Facilities available only at Kuwait.
DENSITY: Salt water.
FRESH WATER: Not available.
BUNKERS, LUBOIL ETC: Can be arranged at Mina Abdulla. Mena-al-Ahmadi.
FIRE PRECAUTIONS: No equipment for fire-fighting.
WATCHMEN: Can be arranged through Agent.
CERTIFICATES: All usual documents such as Ship's Manifest, Bill of Health, Crew List, Clearance from last port, Store List, Bonded Store List, etc.
CUSTOMS ALLOWANCE: (Tobacco) No restrictions. (Wine and/or Spirits) Alcoholic beverage strictly prohibited to be held out of bond. Master allowed keep limited quantity in cabin.
CARGO GEAR: Ship's gear used for discharging.
IDENTIFICATION CARDS: Not needed.
REPAIRS: None.
REPATRIATION: Can be arranged via Kuwait.
Seamen arriving Kuwait Airport to join vessels at Partitioned Zone ports can obtain transit visa at airport, if Agents arrange to submit necessary guarantee to Immigration Authorities confirming that they are in transit and joining vessels calling at Kuwait and/or Partitioned Zone. In order to meet the crew at airport and arrange transit visa, cables confirming their arrivals and flight numbers are to be sent to Agents to reach them at least 24 hours before arrival of crew.
Marine Superintendent of Owners, or Owners' representatives and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait Government's diplomatic missions abroad.
AIRPORT: Kuwait Airport served by regular airlines.
TIME: GMT plus 3 hours.
HOLIDAYS: New Year's Day; Eid al Fitr; Accession to the Throne; Eid al Haj; 1st Muharram; Prophet's Birthday; Rajab.
TELEPHONE: Cannot be arranged on board.
PROVISIONS: Foodstuffs, beverages, tobaccos, etc., available from ships chandlers in Kuwait in limited kinds and quantities. Prices more expensive than town of Kuwait due to long transportation. Ships Agent should be advised by cable well in advance.
SPECIAL SERVICES: Swedish Welfare for Seamen, Lloyds Surveyor, Butterworth tank cleaning machines and equipement, and under-water cleaning.
SHORE LEAVE: Not limited.
AGENT: See "Shuwaikh."

MINA ABDULLA:

LOCATION: Mina Abdulla bounded on South by parallel of latitude 28° 55′ N. on the East by longitude 48° 18′ E. and on North by a line joining following points:

(1) 29° 01′ 45″ N.	48° 09′ 25″ E.
(2) 29° 01′ 45″ N.	48° 10′ 06″ E.
(3) 29° 02′ N.	48° 10′ 18″ E.
(4) 29° 02′ N.	48° 18′ 00″ E.

FLAG: Every merchant ship when entering or leaving port between sunrise and sunset shall fly her national flag and national flag of Kuwait and, when entering port, shall fly her signal letters. All vessels required to fly Kuwait flag on foremast during day-light hours. Flags may be obtained from Agent.
APPROACHES: Two oil-loading berths supplied by three pipelines are situated here. A number of large tanks define tank farm area. A refinery stands to South-west of tank farm. The flare is conspicuous. Other conspicuous objects in area are the radio tower, Mosque Minaret and the four leading beacons for two berths. These are lit for night berthing by three white lights on each beacon in the form of triangles, the beacon lights for Berth No. 1 are occulting every 5 seconds, the lights of No. 2 Berth are fixed.
When a vessel is ready to enter at the same time as another vessel is ready to leave the port, the outgoing vessel shall have priority over the incoming vessel, subject always to the provisions of the International Regulations for Preventing Collisions at Sea and to the requirements of safe navigation.
DOCUMENTS: Before leaving Kuwait the Master shall be responsible for obtaining a Port Clearance Certificate. The documents necessary for vessels to enter and leave Mina Abdulla are:
Enter
Ship's Manifest.
Bill of Health.
Crew List.
Clearance from Last Port.
Light Dues Certificate.
Clear
Register.
Load-line Certificate.
Radio Certificate.
Safety Certificate.
Last Port Clearance.
Masters and Agents of vessels shall, when called upon by a Customs Officer or Marine Officer, produce any documents relative to the landing or shipment of their vessel's cargo in the port. The Master or his representative is required to hand to the Company a written Notice of Readiness to load.
Discharging certificates of oil cargo loaded from Kuwait and Partitioned Zone ports are to be sent to vessels' local Agents immediately duly attested by the Customs Authorities and Arab Consulate covering full quantity as per Bill of Lading.
If a vessel, which has not submitted the certificate for the previous voyage, calls for the second time, she will be allowed to load and sail only after paying a cash deposit of KD 2,000.
In order to avoid delay in berthing, loading and outward clearance for vessels, all owners must give instructions to Agents at discharging ports to forward relevant cargo discharge certificates to Agents at loading ports without delay.
PILOTAGE: Mooring Master normally meets vessels within one-and-a-half-miles of terminal sea berths and will act as Pilot and as Company's Representative and remain on board during vessel's stay in port. Vessels requested to have pilot ladder of an approved pattern, safely and securely rigged, ready for immediate use, and long enough to reach Mooring Master's launch. When it is necessary for a vessel to anchor before being berthed she should do so in the recommended anchorage area. Two 45 ft. tugs painted blue with white superstructure assist berthing by running mooring lines to stern buoys. The pilot boat has a blue hull and white superstructure and is radar equipped.. The name "Independent" is on each bow and stern.
Vessels with a Mooring Master on board shall display International Code Flag "H" in a prominent position whilst manoeuvring under his advice, and shall, if so instructed by Mooring Master, display a flag indicating berth to which vessel is proceeding.
ANCHORAGES: Vessels requiring anchor for any reason in port limits should do so within area enclosed between positions:

29° 02′ N.	48° 14·3′ E.
29° 02′ N.	48° 15·1′ E.
29° 01·2′ N.	48° 15·1′ E.
29° 01·2′ N.	48° 14·1′ E.

or within reasonable proximity to the East if congestion arises in anchorage area.
All vessels and craft within the port shall be navigated with care and caution at a speed and in a manner which shall not endanger the safety of other vessels or craft. In particular, special care and caution is to be observed in passing vessels or craft of the following category: weight-lifting or deeply-laden craft, vessels which are mooring or moored at terminal buoys, vessels or craft in tow and vessels or craft engaged on diving, dredging, grabbing, pile-driving or construction work, survey operations or the removal of obstructions.
All vessels within the port shall anchor, or moor and unmoor, when and where required by the Marine Officer, and shall be moved from place to place as required and by such means or appliances as may be ordered by the Marine Officer.
Vessels or craft shall not anchor near any submarine lines within the port limits, unless engaged on work which, in the opinion of the Marine Officer, necessitates their doing so.
MAX. SIZE: Vessels of unlimited length can be accommodated. Approximately 90,000 dwt. tankers fully loaded up to a maximum draft of 46 ft. on arrival, calling for bunkers only, can be accommodated. Vessels in the 200,000 dwt. class can be accommodated arriving in ballast condition for loading part cargoes up to a maximum sailing draft of 51 ft. or for normal bunkering requirements when remaining in ballast.
HEALTH: Quarantine regulations administered by Kuwait Government's Quarantine Medical Officer. Pratique granted at anchorage or berth.
Vessels calling at Mina Abdulla are requested to send following information to "Health", Mina Al Ahmadi:
(1) Name of vessel
(2) Last port of call
(3) Health condition of crew
(4) Validity of Smallpox and Cholera Certificates
(5) Request for Free Pratique
No craft, other than one having on board the Mooring Master or Port Health Officer, may approach any vessel entering the port and no other person may board any such vessel until free pratique has been granted.
Adequate covers shall be placed over all overside discharges.
Masters shall be responsible for ensuring that no unhealthy or offensive matter is deposited from their vessels on port premises. Any such matter so deposited that is, or becomes offensive, or, in the opinion of the Port Health Officer, injurious to health, may be removed, confiscated or destroyed and the place of deposit cleaned or disinfected on the direction of the Marine Officer at the expense of the Master responsible.
Any vessel, having on board offensive goods, or goods which, in the opinion of the Port Health Officer, are injurious to health, may be ordered to leave the port by the Marine Officer.
No ashes, refuse or other objectionable matter shall be thrown overboard from any vessel either on to any premises or into any waters of the port.

TIDE: The maximum tidal range is 10 ft. 6 in. and velocity of tide is from ½ to 2 knots.

DENSITY: Water density is 1.025 oz.

MOORING: Mooring Masters may decline to moor any vessel if in his opinion it is not equipped with satisfactory mooring facilities, lines and gear, etc.

Vessels shall provide such tackle as may be required for loading or discharging cargo.

Vessels berthed at sea terminals shall provide not less than six good quality mooring ropes and/or wire hawsers aft, each not less than 120 fathoms in length. An eye shall be spliced in ends of ropes to secure lines to pelican hooks on buoys. Two insurance wires are provided in each berth. Ships must have both anchors ready for immediate use each with minimum of chain as follows:

Below 10,000 dwt, 8 shackles. Between: dwt. 10,000–20,000, 9 shackles; 20,000–30,000, 10 shackles. Above: dwt. 30,000, 11 shackles; 40,000, 12 shackles. Above 60,000, 13 shackles; and above 80,000, 16 shackles. The term shackles is to be interpreted as a length of 15 fathoms. Masters shall be responsible for seeing that a strict watch is kept on their vessel's moorings to prevent ranging.

BALLAST: As soon as practicable after arrival, all vessel's tanks will be inspected for evidence of oil in ballast. During discharge of ballast, similar inspections will continue. If evidence of oil appears at any of these inspections, the ship must return at once to a point not less than 100 miles from the coastline and there completely discharge all oily or dirty ballast.

Masters will be required to sign a declaration certifying that any water ballast intended for discharge from vessel is clean and free from oil. Arrangements are being made by the Company for dirty ballast disposal facilities to be supplied in the future, if and when required, by vessels in this port.

POLLUTION: Cases of discharging dirty ballast or oil spillages will be investigated and vessels are liable to fines and/or detention. Vessels shall not discharge into the water of the port any part of the content of their cargo, slop, or ballast tanks or bilges which is liable to pollute these waters. Masters shall ensure that pipe-line and equipment are clean before using them for discharging anything into the water of the port. Scuppers shall be plugged effectively and no leakage or spillage of petroleum on board shall be allowed to leak or be swept overboard.

The State of Kuwait has stringent laws in force concerning the pollution of the sea by oil. The following are two amended paragraphs of this law:

Paragraph 1, Art. 4. "A person responsible for any pollution as described in Articles 1 and 2 shall be punished by a fine of not less than one thousand and five hundred and not more than six thousand Dinars. In the event of his committing a similar crime within a period of one year from the date of his conviction, such a person shall be punished by a fine of not less than three thousand and not more than six thousand Kuwaiti Dinars, and in the event of his committing yet another crime within a year from this last conviction he shall be punished by a fine of six thousand Kuwaiti Dinars."

Paragraph 3, Art. 6. "The person responsible for pollution may suspend the detention order against the ship on payment, as a cash guarantee, of six thousand Kuwaiti Dinars to the official entrusted with the execution of such order."

BERTHING: Master shall, before berthing, advise Marine Officer of any special damage or disability to the vessel. No. 1 Berth lat 29° 01′ 16″ N. Long. 48° 11′ 52″ E. approximately, situated about 2 miles offshore in 43 ft. water LWOST over sand and coral with fair holding ground. A spar-buoy painted yellow with black bands marks end of submerged steel pipe-lines. A common bunker line to the berths, off-branches approximately 1,000 ft. South of Berth No. 1 and runs in to meet the direct line from shore to this berth. Ends of attached loading hoses marked by can-buoys on either side of the Spar. Four mooring buoys in Berth No. 1 and five in Berth No. 2 painted red and silver located in an arc, 1–2 cables approximately E.S.E. through South of S.S.W. from spar-buoys for vessel's stern moorings. Ship's anchors only are used forward No. 2 Berth (situated approximately half a cable South and nine cables East of Berth No. 1); Lat. 29° 01′ 0″ N. Long. 48° 12′ 51″ E. approximately. Depth of water in Berth No. 2 is 56 ft. LWOST over mud and clay which is excellent holding ground.

LOADING: Terminal has facilities to load at maximum rate of 1,500 tons per hour in Berth No. 1 and 2,800 tons per hour in Berth No. 2, but this loading rate can be achieved only when vessel is furnished with appropriate equipment.

Caution: The incoming oil stream is pumped from shore and it is extremely dangerous to close a ship's valve against the incoming oil stream. Such a procedure creates an excessive pressure, which may damage submarine lines, ship's pipe-lines or the terminal facilities. Vessels will be held liable for damages resulting from failure to observe this precaution.

Raising, connecting, disconnecting and lowering of submarine hoses will be performed by shore crew as advised by Mooring Master who will remain on board while ship is mooring, loading or discharging and unmooring. Vessels will provide winch drivers and remove such manifold blanking flanges and fit reducing pieces as required.

Deck hose connections from submarine lines as follows:

Cargo: 10 in. ID, working pressure 150 PSI, fitted with 150# ASA steel flanges. Bunker flanges 8 in. ID, working pressure 150 PSI, fitted with 150# ASA steel flanges.

Loading and discharging of petroleum vessels shall not be undertaken without permission of Marine Officer.

Loading and discharging of petroleum vessels shall not commence until:

(1) Master or Chief Officer has certified to Marine Officer that all necessary valves are open and that vessel is in proper condition to receive or dischage cargo.

(2) Master or Chief Officer has certified to Marine Officer that all ship's sea valves are closed or blankflanged except those required for water circulation purposes, and that these regulations are being and will be observed.

(3) Ship's tanks have been inspected by an authorised inspector and passed as suitable for loading.

Throughout period of loading and discharging operations, following conditions shall be observed:

(1) A responsible ship's officer shall be on watch on board at a point near tanks which are receiving oil during process of loading. The company's staff have received instructions to stop loading immediately whenever this rule is disregarded.

(2) A capable member of ship's crew shall be stationed by ship's tank valves which are receiving oil during loading.

(3) All pipe-lines and hoses shall, while rigged for loading or discharging petroleum, be directly and continuously earthed and kept constantly under supervision.

(4) No petroleum shall be allowed to escape or overflow.

(5) The following signals will be observed, as well as the radio communications, between ship and shore:

Signal Flag by Day		*Light Signal by Night*
1 Red Flag	*Starting* Slow Speed	1 Red Light
2 Red Flags	Full Speed	2 Red Lights
	Stopping	
1 Red Flag	Slow Speed	1 Red Light
All Flags Down	Stop	No Lights

(6) When normal ship-to-shore communication fails, the emergency signal to stop the oil flow will be a continuous blast on the ship's whistle until the oil ceases to flow. Steam or air should never be shut off from whistle during loading. When practical, means should be provided for blowing the whistle from the after section of the cat walk. Whenever an Emergency Whistle Signal is used, all loading operations in the berths will be shut down until normal communication is restored. For this reason it is requested that ships in the area refrain from using ship's whistle for other than essential purposes.

Load Lines: Masters are warned that their load lines are subject to scrutiny by the port officer from Mina Al Ahmadi on completion of loading or bunkering. It is in their own interest therefore, to observe the regulations, as vessels are liable to be delayed and have to pump ashore or be fined if overloaded, and Port Clearance withheld.

RADIO: Master shall inform Marine Aminoil at least 72, 48 and 24 hours notice of time of arrival via Kuwait Government Coastal Radio Station, call sign "9KK".

MEDICAL: Patients will in normal course of events be treated by Quarantine Medical Officer on board. Neither medical nor hospital facilities are provided by the Company. However, in cases of emergency those requiring urgent hospitalisation may be taken by vessel's Agent.

FUEL: Fuel oil bunkers can be loaded in either berth at a maximum rate of 500 tons/hour, thus raising the maximum loading rate of either berth by 500 tons per hour for fuel oil cargoes only.

FRESH WATER: Cannot be supplied at Mina Abdulla. In case of utmost need Agent may hire a barge with a capacity of 100 tons of fresh water from Kuwait, and send to Mina Abdulla.

CUSTOMS: Import of firearms and ammunition is forbidden. Under Kuwait Law No. 46, it is an offence to sell or trade liquor within the State of Kuwait. Any person convicted for selling, purchasing, giving away, accepting or acquiring in any manner, liquor or any intoxicating drinks for the purpose of trading and marketing shall be punished by a maximum 3 years imprisonment and a maximum fine of KD 300 or by only one of the two aforesaid penalties. Alcoholic beverage is strictly prohibited to be held out of bond. Master allowed to keep limited quantity in his cabin.

CONSULS: See "Shuwaikh". The American Consulate is situated just outside Kuwait town, some 30 miles from the terminal.

REPAIRS: No facilities.

REPATRIATION: Seamen arriving Kuwait Airport to join vessels at Kuwait ports can obtain transit visa at airport, if Agents arrange to submit necessary guarantee to Immigration Authorities confirming that they are in transit and joining vessels calling at Kuwait. In order to meet the crew at airport and arrange transit visa, cables confirming their arrivals and flight numbers are to be sent to Agents to reach them at least 24 hours before arrival of crew. Marine Superintendent of Owners, or Owners Representatives and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait Government's diplomatic missions abroad.

AIRPORT: Kuwait.

TIME: GMT plus 3 hours.

PROVISIONS: Aminoil does not provide any chandling facilities. Masters of vessels calling at Mina Abdulla must arrange for supplies through ship's Agent. Foodstuffs, beverages, tobaccos, etc., are available from ship chandlers in Kuwait in limited kinds and quantities. Prices a little more expensive than in Kuwait due to long transportation. Ship's Agent should be advised by cable well in advance.

CERTIFICATES: See "Documents". There is no organisation for dealing with Deratisation Certificate at Mina Abdulla. Agents are responsible for presentation of oil-discharging certificate to Customs authorities as guaranteed by them. All cargo discharge certificates duly attested by the Arab Consulate are to be sent to Agents directly.

SHORE LEAVE: At present, crews not allowed ashore at Mina Abdulla, and this rule will be strictly adhered to.

REGULATIONS: Main engines shall always be kept ready for immediate use. Steam pressure shall be maintained at minimum necessary to operate auxiliaries and to manoeuvre in case of need. Deck steam is to be maintained at all times.

Engine repairs which may prevent working of main engines may only be undertaken with written permission of Marine Officer.

Master shall at all times retain on board sufficient crew to work vessels.

Vessels shall have both anchors ready for immediate use on arrival and departure.

Vessels berthed at sea terminals shall not carry out engine trials without permission of Marine Officer.

Vessels berthing during hours of darkness must if available provide a portable light of an approved gas-tight pattern capable of being placed on either quarter of vessel to illuminate vessel's mooring ropes sufficiently for mooring boat.

Vessels shall provide an efficient accommodation ladder and boat rope for port authorities and, during hours of darkness, shall install adequate approved lighting for same. Failure to comply with this may lead to inward clearance being delayed by authorities, thus incurring delays to vessel.

No swimming in vicinity of vessels or from vessels in berth is allowed.

AUTHORITY: American Independent Oil Company, Kuwait Office: Post Box No. 69, Kuwait, Arabian Gulf. Telegrams: Aminoil Kuwait. Tel. Kuwait 84201.

AGENTS: See "Shuwaikh".

MINA-AL-AHMADI

OPERATORS: Kuwait Oil Company Ltd.

LOCATION: Port of Mina al Ahmadi is open roadstead situated on Western shore of Arabian Gulf, and is contained between the port limits of 29° 02′ 45″ N. and 29° 10′ 00″ N. with seaward limit extending to 48° 11′ 30″ E. There are two piers and a sea island having a total of fourteen oil loading berths.

FLAG: National flag of Kuwait is to be flown at foremast head during vessel's stay in port.

NAVIGATIONAL AIDS:

Current hydrographic information may be obtained by radio from the "Middle East Navigation Aids Service, Bahrain".

Lights and Fog Signals

A fog signal on the extreme South end of South Pier with characteristics of one 3-second blast every minute. Approx. position Lat. 29° 04′ 05″ N. Long. 48° 10′ 00″ E.

A fog signal situated on the North Pier with a characteristic of 2·5-second blase, 3-second silence, 2·5-second blase, 3-second silence, 2·5-second blast, 46·5-second silence, Approximate position 29° 07′ 24″ N. 48° 09′ 00″ E.

A fog signal situated on the Sea Island with a characteristic of 2×3 second blasts every 90 seconds. Approximate position 29° 06′ 48″ N. 48° 17′ 29″ E.

DOCUMENTS:

1. To obtain clearance inwards, following documents required by Agents:
   - (i) Ship's Register.
   - (ii) Safety Equipment Certificate.
   - (iii) Safety Radio Certificate.
   - (iv) Load Line Certificate.
   - (v) Last Port Clearance.
   - (vi) Two copies of Crew List showing names, nationalities and passport/seamen's book numbers.

Items (i) to (v) are returned to Master together with Port Clearance (valid 24 hours only) prior to sailing.

2. Customs boarding officers require following:
   - (*a*) One Copy of Crew List.
   - (*b*) Log Books covering period from last visit.
   - (*c*) Completed Customs Declaration Form (supplied by boarding officer).
   - (*d*) List of Ports visited with arrival and departure dates since last visit (form also supplied by boarding officer.)
   - (*e*) Completed Ballast Form (form also supplied by boarding officer).
3. Immigration officials require the following:
   - (*a*) Valid Passport or Seamen's Book – the latter is preferable for landing.
   - (*b*) Letter of Guarantee from Agents (iv above).
   - (*c*) Two copies of Crew Lists.
4. Early Departure Procedure. KOC Documents Section are now operating an Early Departure Procedure to cut down delays in documentation. Masters may opt to use this scheme, full details of which can be obtained from KOTC.
5. Discharge Certificates: Discharging certificates of oil cargo loaded from Kuwait and neutral zone ports are to be sent to vessels' local Agent immediately, duly attested by Customs authorities and Arab Consulate covering full quantity as per Bill of Lading.

If a vessel, which has not submitted the certificate for the previous voyage, calls for the second time, she will be allowed to load and sail only after paying a cash deposit of KD 2,000.

In order to avoid delay in berthing, loading and outward clearance for vessels, all owners must give instructions to Agent at discharging ports to forward relevant cargo discharge certificates to Agent at loading ports without delay.

PILOTAGE: Vessels should arrive with sufficient clean ballast for safe manoeuvring under prevailing weather conditions. Under certain conditions the Pilot, after consulting the Harbour Master, may require additional ballast to be run in before berthing.

All berthing, unberthing and manoeuvring of vessels within the port limits, restricted area and prohibited anchorage must be done under the supervision of a KOC Pilot.

It is the duty of the Master to inform the Pilot of any special conditions, difficulties, or peculiarities whatsoever pertaining to his vessel which might impose hazards in connections with the handling, mooring, unmooring, loading or discharging of the vessel.

ANCHORAGES: The suggested anchorages in the port of Mina-al-Ahmadi have been laid out to facilitate shipping in general. These anchorage areas are outside of the port limits and clear of the prohibited anchorage and restricted areas. Depths in the anchorages range from 10 to 15 fathoms, the seabed is of sand and soft coral with mud patches and affords good holding ground.

Incoming vessels are assigned berths by the Harbour Master in accordance with time of arrival, type of cargo required, size of vessel and loaded draft. Endeavour is made to berth vessels on arrival and Masters will be advised prior to arrival of the pier at which they will berth. If a berth is not available, vessels will be requested to anchor in one of the three anchorages as follows:

1. To the North-east of the Sea Island and outside of the restricted area.
2. To the East of the North Pier, outside of the port limits and to the North of the prohibited anchorage.
3. To the East of the South Pier, outside of the port limits and between the Southern limit of the prohibited anchorage and the Northern port limit of Shuaiba Port.

To the East of the port limits exists a prohibited anchorage and a restricted area which embraces the Sea Island and submarine-feeder pipe-lines.

Positions of these areas are:

Prohibited anchorage	29° 05′ 00″ N.		29° 05′ 00″ N.
	48° 11′ 30″ E.	to	48° 15′ 00″ E.
	29° 07′ 00″ N.		29° 07′ 00″ N.
	48° 11′ 30″ E.		48° 15′ 00″ E.
Restricted area	29° 05′ 00″ N.		29° 05′ 00″ N.
	48° 15′ 00″ E.	to	48° 20′ 00″ E.
	29° 09′ 00″ N.		29° 09′ 00″ N.
	48° 15′ 00″ E.		48° 20′ 00″ E.

HEALTH:

Vessels calling at Mina Al Ahmadi are requested to radio the following information to "Health" Mina Al Ahmadi:

(1) Name of vessel
(2) Last port of call
(3) Health condition of crew
(4) Validity of Smallpox and Cholera Certificates
(5) Request for Free Pratique

Free pratique will be considered at the discretion of the Quarantine Officer, and vessels must hoist the yellow flag unless they are informed by Agent or Harbour Control that free pratique has been granted.

Regulations.

- (i) All vessels must exhibit quarantine signals until quarantine formalities are completed or free pratique granted. By day, International Code Flag "Q"; by night, red light over white light. No person other than the Pilot is allowed to board any vessel either alongside pier or at anchorage until pratique has been granted.
- (ii) Valid smallpox Vaccination Certificates for all crew members and passengers are required. Valid Cholera Certificates will be required from travellers coming from infected areas with the exception of children under one year.
- (iii) Rat guards must be fitted to all moorings – this is being rigidly enforced.
- (iv) Maritime Declaration of Health Form (supplied by boarding quarantine officer) to be completed.
- (v) One copy of Crew List containing dates of vaccination and inoculation is required.
- (vi) International Certificates of Vaccination and Inoculation to be available for inspection if required.
- (vii) Details of air-conditioning available in vessel (form supplied by boarding officer).
- (viii) A valid Deratisation Certificate must be produced. Facilities are available locally for renewal.

RADIO:

1. *Station:* All radio communications to the Company should be quoted in Greenwich Mean Time and should be routed through Kuwait Coast Station 9KK, details of which are given below:

412G Al Kuwait (9KK) 29° 10′ 09″ N. 47° 45′ 42″ E.

Frequency			*Hours*
(9KK) 430,* 450, 500	A1, A2	2 kW.	0300–2100
(9KK2) 4,287	A1	0·75 kW.	On request
(9KK3) 6,370	A1	0·75 kW.	On request
(9KK4) 8,525	A1	0·75 kW.	0300–2100
(9KK5) 12,895	A1	0·75 kW.	0300–2100
2,182, 2,200, 2,750	A3	0·1 kW.	0300–2100

* On request.

Procedure: Transmits traffic lists on 450 kc/s. each even hour; 8,525 and 12,895 kc/s. each odd hour plus 35, listens for 30 mins. thereafter: 2,750 kc/s. each odd hour plus 05.

2. *ETA:* 96 hours before arrival Masters should transmit to Kuoco through Al Kuwait Radio (9KK) the following information required by Kuwait Oil Company.

1. ETA.
2. Cargo and Bunkers required.
3. Notice of any repairs which may immobilise vessel.

4. Any special requirements regarding cargo documents.

The ETA should be confirmed 24 hours before arrival. The Master should also provide Agent with following information prior to arrival:

1. ETA.
2. Last port of call.
3. Any sickness on board.
4. Number of crew members unprotected against smallpox.
5. Number of crew to see doctor or dentist.
6. All requirements – provisions, supplies, lubricating oils, repairs, stores, machinery for landing, crew repatriation, etc.

3. *Radio Beacon:* A low power radio beacon call sign "9KU" frequency 312·6 kc/s. is situated at Lat. 29° 04′ 13·4″ N. Long. 48° 08′ 27·5″ E. Code transmissions are repeated every 20 minutes commencing on the hour throughout the 24 hours as follows: 9KU repeated 3 times for a period of 20 seconds followed by a dash for 20 seconds alternatively for a whole period of two minutes.

VHF: A short range VHF radio telephone Port Control system is in operation and continuous watch is maintained on International Channel 16. Port Working Channels are:

Channel	*Function*
11	General Port Working
12	Pilot and Tugs North/South Pier/Sea Island
13	Sea Island Loading
14	Pilot and Tugs North/South Pier/Sea Island
26	Public Correspondence
27	,, ,,

Vessels bound for Mina-al-Ahmadi should contact Port Control calling "Mina South Pier" on Channel 16 a few hours before arrival.

N.B. As Channel 16 is reserved for Calling, Safety and Emergency, vessels should refrain from using this channel unnecessarily.

NOTICE OF READINESS:(*a*) *Vessels Berthing Direct from Sea:* The vessel will be advised by VHF or signal lamp. "Berthing on arrival" and the "Notice of readiness time" will be taken as the time the Pilot boards the vessel.

(*b*) *Vessels Anchoring and Awaiting Berth:* When a berth is not available, or in the absence of any communication from the shore the time of NOR is taken as the time the vessel anchors in the roads. Time of anchoring, together with position relative to South Pier Control, should be advised to the Harbour Master by VHF or through 9KK as soon as possible. All vessels at anchor are required to be ready to berth on receipt of one hour's notice from the shore; this notice will be given by VHF or lamp and vessels should ensure an efficient watch is maintained to receive this notice.

(*c*) *Cancellation of NOR:* If after receiving one hour's notice a vessel is not ready to berth when Pilot boards, at the expiry of that notice the original NOR will be cancelled and the Pilot withdrawn. The new NOR will be the time the vessel indicates to the shore that she has rectified the defect that originally prevented her from berthing. As vessels are normally berthed in strict order to NOR time a vessel could lose considerable time through not being ready, and Masters should ensure that delays of this nature do not occur.

TUGS: KOC maintain six diesel tugs for port use. Four of 1,500 h.p. with a bollard pull of 24 tons, and two of 2,500 h.p. with a bollard pull of 30 tons. Four tugs normally maintained on duty at all times. Hire charges for the services of Pilots, tugs and rope launches are covered by comprehensive port charges. Under normal operating conditions, no tug or other craft will come alongside the vessel before the Pilot boards; ship's personnel must not signal for tugs or other boats to come alongside.

MOORINGS: When at berth, vessels must be moored to entire satisfaction of Pilot. Vessels must be ready at all times to put out extra moorings as requested by pier personnel or dictated by weather changes.

Mina-al-Ahmadi is subject to sudden fierce squalls; winds of 70 knots have been recorded, therefore vessel's mooring lines must be checked frequently to prevent excessive movement of vessel in berth. Experience has shown that wholly synthetic moorings have too much elasticity and allow vessel to range or drift away from the berth during periods of adverse weather. Whilst these moorings are acceptable as head/stern ropes, it is felt that the ideal breast moorings should be of wire or a wire rope combination with the end being sent ashore fitted with a synthetic pennant or tail. This type of mooring provides the necessary elasticity while still being able to hold the vessel in position. All vessels moored with automatic tension winches must set the manual brakes on these winches.

BERTHING: There are two piers, 6 buoy moorings (seaberths) and a Sea Island.

South Pier. The South Pier is connected to the shore by an approach trestle, this trestle leaves the shore in position 29° 04′ North, 48° 09′ E., and runs seaward in an 071° 26′ direction for a distance of 4,200 ft. (1,280 m.). The "T" head is formed by the oil pier running Northwards in a 341° 26′ direction for 2,805 ft. (655 m.) and the general cargo/oil pier running southwards in a 174° 26′ direction for 1,076 ft. (328 m.). The pier is a steel piled structure with a wooden deck, 24 ft. above LWOST. The South Pier has 6 oil-loading berths, plus 2 berths which can be used for general cargo or L.P.G. loading; details of these berths are as follows:

Limiting Depths and Berth Lengths

Berth	*Depth at LWOST*	*Nominal length*
1	48 ft.	660 ft.
2	47 ,,	675 ,,
3	47 ,,	705,,
4	50½ ,,	765 ,,
5	41½ ,,	765 ,,
6	43½ ,,	705 ,,
9	44 ,,	615 ,,
10	49 ,,	1,050 ,,

All above berths are equipped with 10-in. cargo hoses and 8-in. bunker hoses excepting No. 1 and 10 berths. No. 10 berth has 8-in. hoses and No. 1 berth has 12-in. hoses, both these berths are equipped for loading LPG. Loading arm in No. 1 berth is Chicksan design (DCMD).

North Pier. The North Pier is situated 3·5 nautical miles North of the South Pier and connected to the shore by an approach trestle which runs seaward from 29° 07′ 04″ N. 48° 08′ 10″ E. in a direction of 071° for a distance of 4,754 ft. (1,449 m.); the head is formed by the oil pier which runs Northward in a direction of 341° for a distance of 2,304 ft. (702 m.). The pier is a steel piled structure with a wooden deck, 20 ft. above LWOST. The North Pier has 4 oil-loading berths details of which are:

Limiting Depths and Berth Lengths

Berth	*Depth at LWOST*	*Nominal length*
11	60 ft.	1,150 ft.
12	59 ,,	1,150 ,,
15	57 ,,	792 ,,
16	57 ,,	740 ,,

Berths 11 and 12 each have 4×12 in. cargo hoses, 1×12 in. Chiksan arm and 2×8 in. bunker hoses. Berths 15 and 16 each have a Chiksan loading unit consisting of 4×12 in. cargo arms and 2×8 in. bunker arms. To facilitate the connecting of hoses on Berths 11 and 12, North Pier vessels are requested to retain sufficient ballast so that their manifold height above zero ft. tide does not exceed 60 ft.

Sea Island Terminal. The loading platform of this new terminal is located in position 29° 06′ 48″ N. 48° 17′ 29″ E., approximately 7·4 miles East of the North and South Piers. This terminal is a steel piled structure in 94 ft. of water (LWOST). It consists primarily of a central loading platform with control tower, six mooring and four breasting dolphins, all interconnected by catwalks. The terminal, which lies in 330°–150° direction, is some 1,620 ft. in length. The height above datum of the loading platform is 44 ft. Two vessels can be accommodated at any one time on the terminal. Crude oil is fed to the terminal by a 48-in. submarine line and heavy fuel oil by a 20-in. submarine line. To mark the run of these pipe-lines from the shore, 3 light buoys lettered "A", "B" and "C" have been established. Details are given in the list of Navigational Aids. LFO and DO bunkers are not available at the Sea Island.

Sea Berths. There are 6 sea berths in the port of Mina-al-Ahmadi; 2 are situated to the South of the South Pier and the remaining 4 to the North of the South Pier. They are lettered from North to South, i.e. "H", "E", "D", "B", "A" and "J". Depth of water in the berths varies from 47 ft. to 52 ft. Mooring buoys and submarine pipe-lines for all of these berths are still in position, but none of the berths are in general use at the present time.

Manifold Loading Connection Sizes. North Pier cargo flanges are 12 in. and bunker flanges 8 in. standard 150#ASA. South Pier cargo flanges are 10 in. and bunker flanges 8 in. standard 150#ASA. Sea Island Terminal cargo flanges are 16 in. and bunker flanges 12 in. standard 150#ASA.

Reducers. All vessels using the port of Mina-al-Ahmadi, should be equipped with reducing spools to fit these loading connections. These fittings should be in place prior to berthing to help expedite the vessel's turn-around time.

Slops. A 6 in. slop-line is available on all berths on North and South Piers for reception of slops. For first 3 hours use of this facility is free, for each additional hour or part thereof, a charge is made. Reception of slops is necessarily slow and a vessel may be considerably delayed in having to pump slops ashore. Vessels are therefore expected to arrive with clean ballast and Masters are asked to certify that all tanks and lines have been thoroughly washed unless "load on top" techniques are being operated.

FUEL: Heavy, light and diesel fuel can be supplied on all berths except the Sea Island, where only heavy fuel is available. Approx. Specifications:

	API	*Viscosity*	*Sulphur content*
Heavy Fuel	15·2–15·8	2,900–3,400	4·0 or less
Light Fuel	19·0–20·0	600	3·5 or less
Diesel Fuel	35·5–36·5	36	1·5 or less

Lubricating Oils are available in drums in limited quantities through Agent.

DRY CARGOES: Dry cargo vessels will either discharge into lighters in the anchorage or alongside South Pier at berths No. 9 or No. 10, subject availability of berths.

Cargo Cranes. Portal cranes of 5 tons capacity on berths 9 and 10, also a stiff-leg derrick with a lift of 54 tons on berth No. 10A. However, vessels are expected to have their own cargo equipment ready for use in case this gear is required.

Explosives. Cargo vessels carrying explosives are not allowed alongside piers.

Barges. Company barges available for use in discharging dangerous cargoes or other cargo in the anchorage.

Stevedores. Agents will arrange stevedores to work cargo whilst KOC will provide launch, barge and shore labour.

MEDICAL: Patients will normally be treated at State Quarantine Clinic, where doctors are on duty between 0800–1200 hours and 1500–2000 hours daily. In emergencies doctors are available any time. Patients requiring hospital treatment will be transported by Agents to either KOC hospital in Ahmadi or to State hospital in Kuwait. Dental treatment can be arranged by Agents.

FRESH WATER: *North and South Piers.* Fresh water is in short supply and cannot normally be supplied to ships. In an emergency, small amount may be supplied. Fresh water is not available on the Sea Island.

DEEP WATER DEPARTURE CHANNEL: A comprehensive

survey was carried out to determine the route of the departure channel for the larger and deep draft vessels leaving the port of Mina-al-Ahmadi in a loaded condition. This channel is some 28 miles in length; it extends from the Sea Island Terminal to Madaira Reef and is marked by 21 light buoys and 2 light beacons, one established on Taylor Rock and the other on Madaira Reef. In addition to the above aids, Madaira Reef Light Vessel has been re-positioned further to the East and renamed Ahmadi to act as a fairway mark. Vessels which by reason of their draft are confined to this deep water channel and consequently hampered in their freedom to manoeuvre, will exhibit the following signals:

(i) *By day.* A black cylinder 4 ft. long by 2 ft. in diameter exhibited where it can best be seen.

(ii) *By night.* Four red lights vertically disposed spaced 3 ft. apart with an all round visibility of 4 miles exhibited where they can best be seen.

The exhibition of these signals in no way absolves any vessel from taking all appropriate action to avoid collision as required by the International Rules and Regulations for Preventing Collisions at Sea, but if a deep draft vessel is in doubt that an approaching vessel is not giving her sufficient room to manoeuvre she should indicate such doubt by giving at least five short and rapid blasts on her whistle.

Vessels having less draft should when able to do so give way to vessels exhibiting and sounding these signals and indicate this intention by giving one short blast followed immediately by one long blast on the whistle. Normal sound signals for vessels in sight of another should then follow.

Anchoring and fishing are forbidden within the deep water departure channel.

The departure channel is marked by buoys and beacons.

CUSTOMS: Local officials carry out inspection to confirm that all alcoholic beverages are under lock and key during the vessel's stay.

(i) Personal effects mainly required for personal use and not for re-sale or purpose of commercial gain are allowed free of duty. However, all other goods are subject to a 4% ad valorem duty (CIF value). Suppliers invoices and Certificate of Origin are required for clearance.

(ii) Importation and the sale of alcoholic beverages is strictly prohibited.

(iii) All goods for landing from tankers must be declared to boarding Customs Officer and necessary documentation completed.

(iv) Israeli goods, goods made by companies having interest or branches in Israel, Israeli vessels and vessels trading with Israel are boycotted and not allowed entry into Kuwait.

IMMIGRATION:

(i) Nationals of all friendly countries normally allowed to land. Israelis forbidden entry into Kuwait.

(ii) Transit visas should be obtained from Kuwait Embassies and Consulates abroad. However, in emergencies entry visas can be arranged at airport.

(iii) Transit passengers having valid connecting airline ticket to next port are allowed to land without visas up to 24 hours, extendable to 48 hours if required.

(iv) Seamen of all freindly countries normally allowed to land in transit to join vessels, without visas but on Agents guarantee. Advance information regarding names, nationalities, age, sex, etc. is required by Agents in order to facilitate reception and immigration clearance. *N.B.* Thursdays and Fridays are Company holidays.

(v) Seamen allowed to land for hospitalisation, repatriation, transfer, etc., on a written undertaking that all expenses are met by Agents on behalf of Owners.

(vi) Passports must be valid for Kuwait for citizens of all countries. Stateless persons are required to have a visa before arrival in Kuwait.

CONSULS: Most friendly countries maintain Embassies or Consulates in Kuwait Town.

TIME: Kuwait State bases local time on the 45th meridian (GMT plus 3 hours). This time is in force the whole year.

SERVICES: To avoid delay all vessels advised to cable Agent of all their requirements in advance, giving full details:

Repairs

(a) *Ship Repair.* All running repairs are undertaken through local contractors.

(b) *Radar/Radio and Electronic Equipment.* Maintenance service of this equipment is available through KOTC whose engineers/technicians are available for service on request.

Supplies. Supply of chemicals, paints, spare parts and provisions are available through local Agents.

Laundry. Laundry service is available on advance notice.

Oil Inspection. E. W. Saybolt & Co. maintain an independent inspection service.

Seamen Centre. This service is now centred only on South Pier, open to visiting seamen from 0700–2200 hours daily. Film exchange facilities are available at the South Pier.

Classification Societies. Lloyds Register of Shipping has a Resident Surveyor in Kuwait and maintains an office with Kuwait Maritime & Mercantile Co., who attend marine and non-marine work. Other societies have non-exclusive surveyors and their services can be obtained through KOTC.

Shore Leave. Ship's personnel and passengers not permitted ashore for any purpose whatsoever until pratique granted. All shore leave is contingent upon compliance with quarantine regulations and, under limited conditions and hours, shore leave may be granted. Masters should consult Agents to obtain the necessary passes.

Divers. Divers services are available, including underwater hull cleaning service, through KOTC.

SHORE LEAVE: Ship's personnel and passengers not permitted ashore for any purpose whatsoever until pratique granted. All shore leave is contingent upon compliance with quarantine regulations and, under limited conditions and hours, shore leave may be granted. Masters should consult Agents to obtain the necessary passes.

REGULATIONS:

(a) *Local laws.* The laws of Kuwait are in force at the port of Mina-al-Ahmadi. Masters and crew members are advised for their own protection to abide by them. Comprehensive regulations governing the use of the port are promulgated in Law No. 21 of 1961. Masters of visiting vessels should acquaint themselves with this law.

(b) *Pollution.* The State of Kuwait has stringent laws in force concerning the pollution of the sea by oil. The following are two amended paragraphs of this law:

Paragraph 1, Art. 4. "A person responsible for any pollution as described in Articles 1 and 2 shall be punished by a fine of not less than one thousand and five hundred and not more than six thousand Dinars. In the event of his committing a similar crime within a period of one year from the date of his conviction, such a person shall be punished by a fine of not less than three thousand and not more than six thousand Kuwaiti Dinars, and in the event of his committing yet another crime within a year from this last conviction he shall be punished by a fine of six thousand Kuwaiti Dinars".

Paragraph 3, Art. 6. "The person responsible for pollution may suspend the detention order against the ship on payment, as a cash guarantee, of six thousand Kuwaiti Dinars to the official entrusted with the execution of such order."

(c) *Certificates.* All vessels must comply with International Safety Regulations and ensure that ship's certificates, i.e. Safety Radio, Safety Equipment and Load Line are valid. Facilities are available for renewal or extension providing proper notice is given. At least 48 hours should be allowed *excluding* Thursday, Fridays or other local holidays.

PORT TAX: New tax introduced by the State of Kuwait at the rate of 45.25 fils (KD. 0.4525) calculated on ship's GRT, and outward clearance is subject to payment of their dues before departure.

AGENT: For all tankers loading/discharging or sundry errands on a sole agency basis. Address: Kuwait Oil Tanker S.A.K. (Agency Branch), P.O. Box Fahaheel No. 7055, Kuwait. Telex: 4201, 4202. A/B MINATANK KWT. Tel. 911753/5; 911758/9; 911811. Cables: "Minatank Kuwait."

KOTC Agency is also connected with direct short range telephone VHF system and continuous watch is maintained on Channel 16. Working channels are and can be reached by calling "Minatank". Channel 16, calling only. Channel 26, Agency working. Channel 27, Agency working.

MINA SAUD: 28.45 N. 48.24E

LOCATION: Mina Saud located just South of Ras Az Zaur approximately 24 miles 244° from Madaira Light Vessel. Terminal connected to field and production centre at Wafra, 31 miles to NW, by 16-in, and 10-in. oil pipe-lines.

The most conspicuous object at the terminal is the refinery flare, in position 28° 44′ 13″ N. 48° 23′ 19″ E. Other objects conspicuous to the navigator are: Northern Radio Mast, Lat. 28° 44′ 32″ N. Long. 48° 23′ 38″ E. surmounted by a fixed red light at night; Az Zaur Beacon 28° 44′ 28″ N. 48° 23′ 40″ E. a 30 ft. high frame exhibiting flash every 5 seconds.

OPERATORS: Mina Saud Marine Terminal operated by Getty Oil Company (hereinafter referred to as the Company) seven days a week. Weather and other circumstances permitting, ships will be loaded, moored and unmoored at all hours of the day. Company representatives available at all times to discuss with Master any problems affecting vessel turnaround.

FLAG: All vessels required to fly Kuwait flag at foremast during daylight hours. Flags may be obtained from Agents.

APPROACHES: Vessels on passage direct to Mina Saud up Gulf should pass about one mile South of Madaira Reef light-vessel, thence make good a course of 242° to an anchorage off Mina Saud in 9 fathoms.

DOCUMENTS:

Ship's Manifest.
Bill of Health.
Crew List.
Clearance from Last Port.
Passengers Manifest, if any.
Store List.
Bonded Store List.

Agents are responsible for presentation of oil discharging certificate to Customs authorities as guaranteed by them. All cargo discharge certificates duly attested by Arab Consulate to be sent to the Agents directly.

Cargo documentation carried out by Terminal. Masters will greatly assist Terminal Staff by prompt provision of ship's tank ullages on completion of loading.

PILOTAGE: Vessels boarded by Mooring Master either on approach or at anchorage. Mooring Masters are Licensed Masters Foreign Going. They act in an advisory capacity to Master and have expert knowledge of local conditions.

Mooring Master will pilot the vessel into the berth, supervise the mooring and unmooring, and advise Master with respect to connecting and disconnecting submarine hose. A ship's deck

officer must be on the bridge at all times while ship is manoeuvring, and deck officer must direct ship's crew in all hose handling. During loading operations Mooring Master will act as Company's representative.

ANCHORAGE: Centre of anchorage area recommended is in position 090° from Flare 4·3 miles, which has good holding ground with mud and sand bottom.

Prohibited anchorage area defined as follows: beginning at refinery flare 060° 3.5′ thence 180° 1.75′ thence 270° 3.0′ to refinery flare.

WEATHER: In summer months of June, July and August light to moderate Northerly and North-westerly winds are general rule at Mina Saud. Occasional strong N.W. winds of force 5/6 Beaufort scale. Strength and duration governed by strength of S.W. monsoon blowing outside Gulf.

During autumn and early winter months fine weather is generally experienced associated with moderate N.E. monsoon prevailing outside Gulf. Occasional 'Shamals' (N.W. winds) occur.

In late winter period and spring, strong S.E. winds with moderately heavy seas frequently experienced at Mina Saud. These are due to approach of low pressure systems from Atlantic and Mediterranean Sea spreading Eastwards across Levant and Iraq.

TIDES: Tide cycle is combination of diurnal and semi-diurnal tides giving a higher High, Lower High, Higher Low and Lower Low waters during a 24 hour period.

Range of tide is average 9 feet at Springs and 5 feet at Neaps.

Commencement of ebb stream (direction 190°) after Higher High water may be taken as 1 hour and 20 minutes before predicted time of Higher High water at Mina Al Ahmadi published in Admiralty Tide Tables. Chart datum and zero of Predictions at Mina Al Ahmadi has been transferred to Mina Saud Tide Gauge datum.

Main direction of flood and ebb streams 010° and 190° is extremely variable between Lower High Water and Higher Low Water period. Average direction during this period about 045°.

Tides subject to meteorological conditions and may be affected in height by plus or minus 2 feet. Times of High and Low water may be considerably affected.

The Mooring Masters have access to information from the Marine Meterological Station at Mina Saud.

MAX. SIZE: See "Berthing".

HEALTH: Vessels calling at Mina Saud requested send following information to "Health Mina Al Ahmadi":

(1) Name of vessel
(2) Last port of call
(3) Health condition of crew
(4) Validity of Smallpox and Cholera Certificates.
(5) Request for Free Pratique.

Free pratique will be considered at the discretion of the Quarantine Officer and vessel must hoist the yellow flag unless informed by Agent or Harbour Control that free pratique has been granted.

RADIO: WT messages routed via Kuwait Radio, call sign 9KK on 500 kHz. Kuwait Radio transmits traffic lists on 450 kHz at 25 minutes past every even hour and on 8525 kHz and 12895 kHz at 35 minutes past every odd hour.

Radio-telephone service also maintained by Mina Saud Radio from 0400 to 2000 GMT on following frequencies:

Listening watch on 2182 kHz, working frequency 2582 kHz. Additional voice communications Channels 2192, 2638 and 2738 kHz.

VHF Service maintained by Mina Saud Marine. Listening on Channel 16 (156·8 mHz) working channels 10, 13, 14 and 22. Operating hours: 0730 to 1130 and 1300 to 1630 local time.

TUGS: None.

READINESS: Notice of Readiness will be accepted by Company within terms of Charter Party or Contract when known, otherwise during ordinary business hours, which shall be between 0700 and 1800 local time except on Fridays and Public Holidays.

Laytime to commence six hours after time of acceptance or upon commencement of loading, whichever occurs first, except that when Notice of Readiness received before 1600 local time the six hours shall be continuous, but if received after 1600 then such six hours shall be daylight hours, daylight hours for such purpose being between 0600 and 1800 local time.

If after giving Notice of Readiness, vessel delayed in getting into berth or in loading, such delay shall not count as used laytime unless delay shall be due to default of Company. On completion of loading, laytime shall cease upon disconnecting cargo hoses.

Should Company Mooring Master be handed a Notice of Readiness out of business hours and before commencement of loading he will note it as "Received" at that time, for acceptance by the Company at earliest recommencement of business hours, or at time of commencement of loading, whichever shall be first.

If Notice of Readiness given after latest accepted nominated lifting date, laytime shall not commence before commencement of loading.

BALLAST: Vessels must have enough clean ballast to permit safe manoeuvring under any conditions. No shore tanks for disposal of dirty ballast.

Mooring Master will advise when ballast discharge may commence. Inspection of ship's tanks for suitability to receive cargo carried out by Mooring Master or by qualified petroleum inspectors if required.

GEAR: For handling 12 in. and 10 in. strings of hoses ship's derrick should have a minimum safe working load of at least 5 tons. Outreach overside should be at least 5 ft.

Two lengths of 3 in. or 3.5 in. circumference good quality manilla rope each of 50 fathoms in length should be available for use as guys to lead forward and aft for north and south flexible hoses.

Reducers should be available for connection of hoses to ship's manifold and to ship's bunker line connection.

Company provides snub lines of manilla and wire rope for hanging off hoses.

In the event that ship's derrick gear is inadequate for loads required, a work barge can be made available. Charge for this barge, including positioning and personnel, is equivalent of 150 U.S. Dollars per hour (approx.).

BERTHING: Two loading berths with conventional sealine moorings which are connected by a common 20 in. submarine line for cargo and a separate 12 in. submarine line for bunker fuel.

Flexible hoses are 150 ASA standard flange. Berth No. 1 has two 10 in. cargo hoses and one 8 in. bunker line. Berth No. 2 has two 12 in. cargo hoses and one 10 in. bunker line. Both cargo and bunker lines are used to load crude or fuel cargoes. Lines are packed with fuel on completion of loading.

The outer berth No. 2, situated 073° 2·6 miles from refinery flare, is equipped to take vessels of 120,000 dwt., and has minimum depth of 55 ft., at lowest low water. Maximum draft allowed is 52 ft., except if conditions permit tidal loading. Vessels over 120,000 dwt. can be accommodated for bunkers or part cargo loading.

Inner berth, No. 1, 073° 2.0 miles from refinery flare, has minimum depth 45 ft. at lowest low water and can accommodate vessels up to 800 ft. in length. Max. draft 41 ft.

MOORING: (*a*) Port is an open roadstead and ships must be prepared to use main engines, unmoor and leave at any time.

(*b*) Mooring and unmooring carried out during day or night, as required.

(*c*) Vessels moored to ebb tide stream at both inner and outer berths. In addition, berthing with a flood tide stream may be carried out at outer berth when conditions permit.

(*d*) At outer berth latest resilient type mooring method is employed.

Resilience in mooring achieved by weight of clump anchor and catenary of chain cable. A quick release hook of 65 tons capacity connects ship's ropes to the buoy.

(*e*) Both port and starboard anchors should be lowered clear of hawse pipes and ready for instant letting-go from brakes.

Spar buoys established to mark starboard and port anchor dropping positions.

(*f*) Six good quality natural or synthetic ropes should be flaked ready for running from the stern. After anchoring, as vessel proceeds astern in Berth, quarter lines are run by Company launch and secured to quick release hooks on quarter buoys. 5 in. circumference steel wire rope are run to ship from mooring buoys.

(*g*) When securely moored in correct position for handling hoses, each anchor should have about 8 shackles out and it is advisable that tankers using these submarine berths be provided with not less than ten 15- fathom lengths of cable on each anchor.

(*h*) Masters requested ensure that power to deck machinery and sufficient seamen to operate it are immediately available at all times when in berth.

LOADING: Submarine line marked by permanent buoy at each berth, and marker buoys fitted to all hoses.

Recovery of flexible hoses is by fleeting by ship's tackle making use of beckets fitted to recovery chain.

"Ship's Stop" is invariable rule except in an emergency. Ship must give reasonable stand-by time to Mooring Master, 15 to 20 minutes, to alert Terminal staff on shore for closing gauges.

Loading rate at present averages 1,500 tons per hour. Maximum 2,000 tons per hour.

MEDICAL: Medical attention to ship's crew members available from Company Medical Officer. Agent must invariably arrange for landing permit for any crew member visiting doctor on shore. When Medical Officer required to attend on board, an additional fee is charged. X-ray facilities available on shore. Cost of drugs and medicines supplied by the Company is also charged to vessel concerned.

FRESH WATER: Not available but in emergency can be arranged from Kuwait.

FUEL: Bunker fuel type "C" at loading berths through 12 in. submarine line with single 8 in. flexible hose, at berth 1, and 10 in. hose at Berth 2.

FIRE PRECAUTIONS: Masters are responsible for enforcing "No Smoking" regulations for their vessels and Mooring Master will stop loading if he considers them to be inadequate or if they are not being obeyed. Smoking in Company craft in the berths is forbidden.

CUSTOMS: Alcoholic beverages strictly prohibited to be held out of bond. Master allowed to keep limited quantity in his cabin.

Liquor must not be supplied to subjects of Saudi Arabia nor to any unauthorized persons.

It is important to remind owners and Masters that all goods, either landed or embarked, must be cleared by Agent through local Kuwait Government Customs.

Import of firearms and ammunition forbidden.

CONSULS: See "Kuwait."

REPAIRS: No regular repair facilities available. However, a fully qualified diver is available from Terminal. Underwater cutting gear and welding equipment available.

Services of diver who operates this equipment available at rates to be arranged for the job and agreed by Superintendent of Marine and Terminal Operations, Mina Saud.

Repairs to main engines must not be carried out in the berth without permission of Superintendent of Marine and Terminal Operations. Normally vessels requiring to immobilize engines will be anchored well clear of other ships.

REPATRIATION: Crew changes normally effected through Kuwait.

Seamen arriving at Kuwait Airport to join vessels at Partitioned

Zone ports can obtain transit visa at the airport, if Agents arrange to submit the necessary guarantee to the immigration authorities confirming that they are in transit and joining vessels calling at Partitioned Zone. In order to meet the crew at airport and arrange transit visa, cables confirming their arrivals and flight numbers are to be sent to Agents to reach them at least 24 hours before the arrival of the crew.

Marine Superintendent of Owners, or Owner's representatives and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait Government's diplomatic missions abroad.

TIME: GMT plus 3 hours. Permanent.

STORES: Provisions and stores are available from Kuwait. Requirements should be arranged with Agents through Kuwait Radio prior to arrival at Mina Saud.

SHORE LEAVE: Not permitted.

AUTHORITY: Getty Oil Company, Saudi Arabian Division, Mina Saud, via Dhahran, Saudi Arabia.
Kuwait Office, PO Box 187, Kuwait, Arabian Gulf. Cable Address: "Gettymar – Kuwait".

AGENTS: See "Shuwaikh."

Communication is by road by personal visit of agency staff. Distance about 50 miles.

SHUAIBA: 29.02 N. 48.08 E.

All vessels should hoist the Kuwait flag.

PORT LIMITS: Shuaiba port limits defined as follows:

Inner Harbour: *On the West* by the coast line. *On the North* by a line from the coast due East on parallel 29° 02′ 45″ N. to 48° 12′ 42″ E. *On the South* by a line from the coast on parallel 29° 01′ 45″ N. and East to 48° 09′ 58″ E. Thence, 45° to 29° 02′ 00″ N. through 48° 10′ 15″ E. Thence, due East parallel 29° 02′ 00″ N. to 48° 12′ 42″ E.

Outer Harbour: *On the North* by parallel 29° 02′ 45″ N. *On theSouth* by 29° 02′ 00″ N. *On the West* by 48° 12′ 42″ E. *On the East* by 48° 15′ 07″ E.

Shuaiba port includes the main quay, the barge and small boat jetty and the oil pier.

DOCUMENTS: 10 copies of Cargo Manifest (3 copies duly signed by Agent at loading port) and one copy each of hatch list and stowage plan. Also 2 copies of Crew List to be presented to Customs Office.

N.B. A copy of complete set of Inward Manifests and a copy of the Stowage Plan covering cargo for discharge at Shuaiba has to be passed to Authorities by Agents at least 24 hours before vessels expected time of arrival, otherwise berthing likely to be delayed.

PILOTAGE: Pilotage available and request for Pilot should be made to Port Signals Station, or to look-out Signal Station when in use.

ANCHORAGE: (Also see "Radio".) Safe anchorage will be found in following positions: Latitude 29° 02′ 24″ N. Longitude 48° 12′ 15″ E. With KOC South Pier, Mina-al-Ahmadi bearing 305° 2·7 miles, bearing from seawards. Gives good anchorage in 10 fathoms, good holding sand and clay.

MAX. SIZE: See "Berthing".

HEALTH: Vessels calling at Shuaiba are requested to send the following information to "Health" Mina Al Ahmadi:

(1) Name of vessel
(2) Last port of call
(3) Health condition of crew
(4) Validity of Smallpox and Cholera Certificates
(5) Request for Free Pratique

Free pratique will be considered at the discretion of the Quarantine Officer, and vessels must hoist the yellow flag unless they are informed by harbour control that free pratique has been granted.

RADIO: Give ETA well in advance and confirm ETA 48 hours before arrival through Kuwait Coast Station 9KK. A shore station at Shuaiba has been established and operates on following frequencies: 156·80 Mc/s. PS: Channel 16, int'l and safety channel. 156·65 Mc/s. PS: Channel 13, port and operations channel. 156·45 Mc/s. PS: Channel 9, berthing operations channel.

TUGS: Tugs lines will be used.

BERTHING: Vessel has to give arrival time and fore and aft draft to Harbour Master. Normal official hours for berthing and departure on Saturdays through Wednesdays, count from 0700 to 1600, on Thursdays from 0700 to 1200.

A. Main Quay Mole: Has two berthing areas: sea side and shore side. Effective Berthing Area Shore Side: 457·20 m. = 1,500 ft. Will accommodate three 500 ft. vessels on the following drafts: Inside Berth No. 1: draft 9·14 m. = 30 ft. Middle Berth No. 2: draft 10·67 m. = 35 ft. Seaward Berth No. 3: draft 10·67 m. = 35 ft. Effective Berthing Area Sea Side: Main quay mole: 350 m. = 1,148 ft. Consisting of No. 4 and 5 Berths which will each accommodate a 350 ft. vessel on 22 ft. draft. They can be used only during fine weather. Seaward side berths are to be used in fine weather and are not fitted with travelling cranes. Two 10-ton mobile cranes are available when required.

B. The Oil Pier: Runs slightly West of North, and slightly East of South, has two loading berths, one seaward and one inshore. Seaward Berth: Length 300 m. = 948 ft. Will accommodate a vessel of 275 m. = 900 ft. on 45 ft. draft providing connections reasonably centred on vessel. Inshore Berth: Length 260 m. = 852 ft. Will accommodate a vessel of 245 m. = 800 ft. on 40 ft. draft. Barge Harbour: Situated North of the main quay mole which will accommodate barges and small crafts of less than 4 m. = 13·1 ft.

C. Cargo Loading Facilities – Oil Pier: Loading points on seaward berth situated in middle of berth. Loading points are 450 ft. from causeway on inner berth. Seven feeder lines in each berth: One 20 in., three 16 in., two 12 in., and one 8 in. These are connected to 12 in. loading lines for connection to vessel. The loading lines are all metal – supported by a loading arm.

D. Shore Facilities: Oil Pier: Slop discharge line 8 in., and fresh water line with 4 in. main lines, branch lines 3 in. with 8 fresh water hydrants. Loading rates of water: 20 tons per hour. Main Quay Mole: The shore side of the main quay mole is fitted with 5 electric travelling cranes, 3×5 tons capacity and 2×3 tons capacity.

E. Allocation of Berths:

Berth No.	*Allocation*
1	Discharging
2	Loading
3	Optional – Discharge/Load
4	Optional – Discharge/Load
5	Optional – Discharge Load

The allocation of an optional berth is at the sole discretion of the Harbour Master and Traffic Manager.

A vessel arriving at the port to load may berth at No. 1 and similarly a vessel wishing to discharge may berth at No. 2, but it must be clearly understood that any vessel so doing is only berthed at that berth on sufferance and will be required to vacate the berth if a vessel arrives which has a claim to it.

STEVEDORES: Stevedores aboard ship will be provided by ship's Agent. Labourers in barges and ashore will be provided by port of Shuaiba but under ship's responsibility for breakage, pilferage, etc. Vessels will be required to maintain a minimum daily tonnage dependent on the type of cargo they are carrying. Ships failing to achieve the average daily rate laid down will be liable for a penalty charge, for every day or part thereof, they remain on the quay over the prescribed period.

Minimum Daily Rates. Cement, 1,700 tons; fertiliser, 1,700 tons; charcoal, 800 tons; general cargo, 400 tons.

Shore cranes are available for ships to enable them to achieve these rates and ships Agents, importers and exporters are expected to make use of them.

No cranes over 20 tons lifting capacity available. Regarding landing of heavy lifts on quay, permission has to be obtained from the Port Authorities each time in advance. On the quay pieces up to 300 tons have been discharged.

MEDICAL: Advance notice required if medical attendance needed on board.

DENSITY: 1025.

FRESH WATER: Also see "Berthing – D". All berths fitted with fresh water connections. No water barge available. Vessels can obtain water according to requirement.

FUEL: The Kuwait National Petroleum Co. KSC, Kuwait, supply marine fuel and diesel oil at cargo wharf and oil jetty at Shuaiba. Specifications as under:

	FO 1500	*MDO*
Ash % wt. max.	0, 5	0, 01
Pour point degs. C (degs. F.) Max.	10 (50)	2 (35)
Specific Gravity 60/60 degs. F. max.	0·99	–
Sulphur % wt. max.	3·7	1·8

Bunker nomination is to be arranged through Kuwait National Petroleum Co. (U.K.) Ltd., 25 St. James Street, London S.W.1; cables: "Kunpetco", London S.W.1. Telex: 261998. At least 3 days notice required.

Facilities on main quay mole for bunker fuel, gas oil and marine diesel oil in berths 1 through 4 only. No barges.

DEVELOPMENTS: The port of Shuaiba, mainly intended for exports, will be extended by adding another finger jetty able to accommodate 3 more ocean-going vessels. This is a 5-year plan.

GANGWAY/DECK WATCHMEN: Not necessary in port area.

OPENING/CLOSING HATCHES: Opening and closing of hatches normally carried out by stevedores on liners, and by ship's crew on charter vessels.

CERTIFICATES: All usual documents such as:

Ship's Manifest.
Bill of Health.
Crew List.
Clearance from Last Port.
Passenger Manifest, if any.
Store List.
Bonded Store List.
Safety Radio Certificate.
Bill of Measurements, etc.

CUSTOMS ALLOWANCES: Tobacco. No restrictions. Wine and/or spirit. Alcoholic beverage strictly prohibited to be held out of bond. Master allowed to keep limited quantity in his cabin.

CARGO GEAR: Ship's gears and shore cranes used for discharging; slings and pallets can be hired from the port. Shore cranes capacity 3–5 tons.

IDENTIFICATION CARDS: Passport or seamen's book necessary.

CONSULS: See Shuwaikh.

REPAIRS: Small repairs can be arranged if sufficient notice is given.

DRY DOCK: No dry dock available.

REPATRIATION: Can be arranged. Entry visa regulations have been enforced in Kuwait, and the following is roughly the procedure in respect of crew changes:

1. Seamen arriving at Kuwait Airport to join vessels at Kuwait and Partitioned Zone ports can obtain transit visa at Airport, if Agents arrange to submit necessary guarantee to Immigration authorities confirming that they are in transit and joining vessels calling at Kuwait

and/or Partitioned Zone. Order meet crew at airport and arrange transit visa, cables confirming their arrivals and flight numbers are to be sent toAgents to reach them at least 24 hours before arrival of crew.

2. Marine superintendent of owners, or owners' representative and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait Government's diplomatic missions abroad.

TIME: GMT plus 3 hours.

HOLIDAYS: New Year's Day, Eid Al Fitr, Accession to the Throne, Eid Al Haj, 1st Muharram, Prophet's Birthday, Rajab. Dates are subject to alteration.

TELEPHONES: Telephone sockets fitted on North side of Main Quay Mole for convenience of vessels requiring a telephone on board.

SPECIAL SERVICES: Swedish Welfare for Seamen; Lloyd's surveyor; Butterworth Tank Cleaning Machines and Equipment; and also underwater cleaning.

SHORE LEAVE: Permitted.

PORT REGULATIONS: Until further notice all Kuwait Customs and Port Regulations will be effective at Shuaiba port including prohibition of sea water pollution.

AGENT: For dry cargo vessels only: International Shipping Agency Limited, POB Safat No. 20637, KIC Building, Safat Square, Kuwait. Tel. 205 07, 269 08, 228 41. Telex: 2208 (answer back "Isaship KWT"). Cables: "Shipagent, Kuwait".

SHUWAIKH: (Kuwait Harbour) 29.21 N. 47.55 E.

DOCUMENTS: 11 copies of Cargo Manifest, whereof 3 copies duly signed by Agent at loading port, and one copy each of Hatch List and Stowage Plan. Also 2 copies of Crew List to be presented to the Customs Office.

PILOTAGE: Pilotage service available and request for Pilot should be made to Port Signals Station, or to look-out Signal Station when in use. Ships proceeding through the dredged channel to Shuwaikh are boarded by the Pilot in the anchorage.

ANCHORAGE: Vessels anchor without Pilot in position 29° 20′ 5″ N., 47° 56′ 02″ E.

MAX: SIZE: Max. draft 28 ft. 6 in. Vessels of more than 22 ft. draft have to wait for tide. Vessels up to 29 ft. draft have been berthed, dependent on tidal conditions at time of vessel's arrival.

Max. length 520 ft. vessels have been berthed.

HEALTH: Vessels calling at Kuwait Harbour must send the following information to "Health", Port Shuwaikh:

(1) Name of vessel
(2) Last port of call
(3) Health condition crew members
(4) Validity of Smallpox and Cholera Certificates
(5) Request for Free Pratique

Free pratique will be granted at the discretion of the Quarantine Officer, and vessels must hoist the yellow flag unless they are informed by Agent or Harbour Control that free pratique is granted.

RADIO: Kuwait Radio call sign 9KK. ETA messages and draft (fore and aft) should be sent via Kuwait Radio simultaneously to Harbour Master Port of Kuwait, and to Agent, at least 24 hours prior arrival. The cables should be received by the port at least 12 hours prior to arrival. Should the vessel fail to give this notice, the port will only decide on her turn of berth the following morning. Thus an unnecessary delay of 24 hours might occur.

Vessels arriving at Kuwait Anchorage must not use radio telephone or VHF for calling other vessels and/or any other destination. The equipment should be used only for calling Kuwait Port Control. It is also forbidden to use radio equipment when vessel is alongside.

REGISTRATION PROCEDURE (To register turn for berth before proceeding to another port).

1. Prior to arrival Master to telegraph Harbour Master, Kuwait, stating his wish to register, stating draft fore and aft, ETA, and that all Kuwait cargo is clear to discharge.
2. If Master does not request confirmation of registration, the signal station and the port takes it for granted that vessel awaits her turn staying in the anchorage, and will usually not confirm the registration for turn.
3. On arrival Kuwait anchorage Master to contact signal station by VHF or visual signals requesting confirmation of registration.
4. The vessel should not leave until such confirmation is received. Confirmation will only be given by the signal station, which accepts registrations during 24 hours.
5. Upon receipt of confirmation the vessel can leave at once. Agents will cable via Kuwait Radio the return date given by port, that is the time the vessel should be back in Kuwait.
6. A stowage plan must be shown to the port within 24 hours after registration.

TUGS: Join vessel entering dredged channel. Tug's lines used. The use of tugs by ships manoeuvring within Shuwaikh port limits under direction of Harbour Master or Pilots. Number of tugs used for each movement: (*a*) Two tugs for ships exceeding 400 ft. in length. (*b*) One tug for ships between 250 ft. and 400 ft. in length.

BERTHING: Five deep-water berths available, two buoys, and four shallow draft berths. The vessels berth in turn is decided by the port meeting held in the morning on all port-working days.

1. Notification of vessels arrival. According to port regulations a questionnaire issued by the Harbour Master, duly filled in and signed by the Captain of the vessel, is to be submitted to the port prior to berthing. In many cases vessels arrive and obtain berth immediately and thus there is no possibility of presenting the questionnaire to Authorities in time. In order avoid berthing delays Masters should cable following information to the Harbour Master directly:
   (*a*) ETA.
   (*b*) Total cargo for discharging Kuwait.
   (*c*) Distribution quantity each hatch.
   (*d*) Declaration hazardous, inflammable and explosives cargo, and guns and ammunition.
   (*e*) Declaration all vessels winches in good working condition and cargo clear for discharging at Kuwait.
   (*f*) Draft fore and aft.

   We quote below specimen cable covering the above:

"Vessel XXX ETA Kuwait 21/8 0600 local quantity discharging 1,400 tons general hatch one 300 hatch two 300 hatch three 250 hatch four 300 hatch five 250 no hazardous, inflammable explosives guns ammunition stop All winches derricks good working condition draft fore 24 ft. Aft 27 ft.".

The above cable sent to the Harbour Master will facilitate berthing vessel on time.

2. Vessels with a cargo of up to 400 measurement tons will be given priority alongside pier.
3. Vessels carrying up to 500 tons weight will be given priority to discharge at the buoys providing heavy lifts do not exceed 20 tons, or vessel does not carry reefer cargo.
4. A vessel that intends to stay in the anchorage in Kuwait until her turn will be allowed to shift over-stowed cargo while waiting.
5. Liners carrying cement in bags will still be considered as liner ships. Thus they will not be taken out to wait their turn at the cement berth.
6. Vessels berthing at the buoys have to keep mooring chains ready.
7. Berths nos. 6 and 7 are now in commission, details as follows,

Berth No. 6	*Berth No. 7*
22 ft. 6 in. draft	15 ft. draft
No bunker line	No bunker line
No fresh water line	No fresh water line
No crane	No crane

These two berths will be dredged in due course to about 30 ft.

STEVEDORES: Aboard ship will be provided by the Agent. Labourers in barges and ashore will be provided by the Port of Kuwait but under ship's responsibility as for breakage, pilferage, etc. Small number of mobile cranes with lifting capacity up to 40 tons. However mobile cranes can only be used in port area for discharging barges alongside. Cranes are too small to be used for discharging from liner vessels and therefore, pieces over 6 tons to be discharged by vessels own gear. One floating crane of 100 tons capacity available.

MEDICAL: Masters to radio prior arrival if medical attendance required on board.

DENSITY: Salt water.

FRESH WATER: Available in all berths alongside. Vessels can obtain water according to requirements. For vessels discharging at dolphins and at anchorage, water is supplied by water barge. Capacity of barges, 100 tons or 200 tons.

FUEL: Diesel oil and light fuel are available alongside berths Nos. 1 to 5. Other grades at Mina Al Ahmadi. No bunker barges.

FIRE PRECAUTIONS: Kuwait Fire Brigade is responsible for all fire fighting in port areas and a new fire station is being built at Shuwaikh to cover the new port area and port storage areas. There is also a fire station situated in Kuwait Small Boat Harbour area. A salt water main for the fighting services is laid-on at the new deep water berths at Shuwaikh. The Kuwait fire service also maintain two 90 ft. fire fighting tenders each of which is capable of pumping 5,000 gallons of water per minute from four nozzles. In addition they can pump 900 gallons of foam per minute. These modern fire-fighting units are equipped with radio, radio telephone, radar and echo sounding.

DEVELOPMENTS: An additional two deep-water berths will be ready in about 1975.

Shuwaikh will be dredged to 24 ft. depth at low tide.

GANGWAY/DECK WATCHMEN: Available, but not necessary in port area.

OPENING/CLOSING HATCHES: Opening and closing of hatches is normally carried out by the stevedores on liners, and by ship's crew on charter vessels.

CUSTOMS ALLOWANCES: Tobacco: No restrictions. Wine and/or spirit allowance: Alcoholic beverage is strictly prohibited to be held out of bond. Master allowed to keep limited quantity in his cabin.

CERTIFICATES: A survey of life rafts may be carried out unless vessel's safety certificates indicate that life rafts were surveyed less than 12 months previously.

CARGO GEAR: Ship's gear and cranes used for discharging. Slings can be hired from the port.

A heavy-lift crane, capacity 80 tons, available.

IDENTIFICATION CARDS: Passport or seaman's book necessary.

Sweden	26908	Switzerland	31142

REPAIRS: Small repairs can be arranged if sufficient notice is given.
DRY DOCK: No dry docking facilities.
REPATRIATION: Can be arranged. Seamen arriving at Kuwait Airport to join vessels at Kuwait ports can obtain transit visa at the airport if Agents arrange to submit the necessary guarantee to the Immigration Authorities confirming that they are in-transit and joining vessels calling at Kuwait. In order to meet the crew at airport and arrange transit visa, cables confirming their arrivals and flight numbers are to be sent to Agents to reach them at least 24 hours before arrival of crew. Marine Superintendent of Owners, or Owners' Representatives and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait Government's diplomatic missions abroad.
AIRPORT: Served by regular airlines.
HOLIDAYS: New Year's Day (January 1); Eid Al Fitr (January 1–3); Accession to the throne (February 25); Eid Al Haj (March 11–14); 1st Muharram (March 30); Prophet's Birthday (June 9); Rajab (November 2); The above dates are subject to alteration.
No overtime work allowed on holidays and Fridays.
POLICE/AMBULANCE/FIRE: Police 30986; Ambulance 8215; Fire 32038.
TELEPHONES: Cannot be arranged on board.
PROVISIONS: All kinds of food available at reasonable prices.
SERVICES: Swedish Welfare for Seamen. Lloyd's Surveyor. Butterworth Tank Cleaning Machines and Equipments and also under water cleaning.
SHORE LEAVE: Permitted.
REGULATIONS: The State of Kuwait has stringent laws in force concerning the pollution of the sea by oil. The following are two amended paragraphs of this law:
Paragraph 1, Art. 4. "A person responsible for any pollution as described in Articles 1 and 2 shall be punished by a fine of not less than one thousand and five hundred and not more than six thousand Dinars. In the event of his committing a similar crime within a period of one year from the date of his conviction, such a person shall be punished by a fine of not less than three thousand and not more than six thousand Kuwaiti Dinars, and in the event of his committing yet another crime within a year from this last conviction he shall be punished by a fine of six thousand Kuwaiti Dinars".
Paragraph 3, Art. 6. "The person responsible for pollution may suspend the detention order against the ship on payment, as a cash guarantee, of six thousand Kuwaiti Dinars to the official entrusted with the execution of such order."
TIME: GMT plus 3 hours.
AUTHORITY: Harbour Master, Govt. of Kuwait.
AGENT: International Shipping Agency Limited, POB Safat No. 20637, KIC Building, Safat Square, Kuwait. Tel. 205 07, 228 41. Telex: 2208 (Answerback "ISASHIP KWT"). Cables: "Shipagent Kuwait".

Lebanon

BEIRUT (Beyrouth): 33.54 N. 35.30 E.

DOCUMENTS:
Manifests should be visaed by Lebanese Consul at ports of shipment, or at any port *en route* where there is a Lebanese Consul. If on account of non-existence of Lebanese Consul at ports of shipment or at any of these *en route* the manifests are not visaed, then such consular visa dues are collected at Beirut.
5 Copies of Cargo Manifests.
2 Store Lists.
5 Passenger Lists.
2 Lists of Cigarettes and Tobacco. (See "Customs Allowances").
PILOTAGE: Agent arranging Pilot via Harbour Master. Agent therefore to be kept well informed of ETA, 48 hours and 24 hours prior arrival. Pilot boat white with red funnel. Sound signals, two long and one short or via VHF to Harbour Master. Pilot boarding outside main breakwater. Assistance of Pilot outside daily normal hours, Sundays and official holidays, will be cost calculated at 100% more. Official normal working hours for pilotage station as follows: from 1st October up to 30th April, 07.00 till 17.00 hr.; from 1st May up to 30th September, 07.00 till 18.00 hr. For tankers outside harbour, the pilotage dues will be 100% more.
ANCHORAGE: In roads outside breakwater.
RESTRICTIONS: No particular restrictions. Pilot available between sunrise and sunset otherwise by special agreement with Pilot.
MAX. SIZE: Maximum draft in port 13 metres. No limitation to breadth or length.
HEALTH: Health authorities boarding in roads. Health form obtainable from Agent or doctor. Smallpox and yellow fever certificates for ships coming from Far East and Red Sea. Owners should check with Agents respecting any recent imposition of anti-epidemic regulations and requirements for additional injections for crew members.
RADIO: Cables via Beirut Radio to and from Agent.
VHF: VHF over Channels 13 and 16, Frequency 156·6 and 156·7.
TUGS: Tugs of 1,000 h.p. joining vessel inside port when necessary. Ship's lines to be used.
BERTHING: If port congested priority given to vessel already registered. Passenger-tourist vessel and cargo for army have priority. Harbour capable of berthing simultaneously 24 ships and three moored on buoys, discharging into barges. All discharging is by ship's gear.
Dock No. 1. Surrounded by quays nos. 1, 2, 3. Depth of water varies between 3 and 8 metres. Parts of quay no. 1 and quay no. 2 with 3 metres depth of water are reserved for floating units of port company and for launches of Harbour Master and pilotage service. Slipway of 1,000 tons capacity and workshops.
Dock No. 2. Surrounded by quays nos. 4, 5, 6, 7, with water depths varying between 8 and 10·5 metres. On quay no. 5 berthing priority is given to passenger ships, while the other quays are for cargo vessels.
Dock No. 3. Surrounded by quays nos. 8, 9, 10, 11, with depths varying between 10·5 and 13 metres. All these quays can berth ships bringing general cargo. At quay no. 8 of 13 metres depth, priority of berthing is given to grain ships.
Grain Silo. At the present time bulk grain ships are unloaded by means of removable suction machines, which can be installed on the ships and deliver the grain to lorries for direct transport. Under construction is a 60,000 metric tons capacity silo, expected ready 1973. Ships will be unloaded by means of two gantry type suction machines, mobile on rails with a capacity of 6×100 tons per hour. An eventual extension is already designed which would increase capacity of silo to 105,000 tons.
STEVEDORES: Ordered by Agent. No ETA to Stevedores necessary. Working hours, 08.00–12.00, 13.00–16.00. Otherwise overtime incl. on Sundays and on official holidays.
MEDICAL: Master to advise Agent by cable prior to arrival if medical attendance required.
DENSITY: 1025.
FRESH WATER: The port company has equipped all quays with hydrants. Berthed ship can be supplied with water while loading and unloading. Ships moored on buoys can also be supplied with water from cistern barge. By shore installation or by barge. Delivery rate 20/25 tons per hour. Outside harbour double price per barge.
FUEL: Fuel, gas oil, diesel obtainable. 48 hours notice required.
FIRE PRECAUTIONS: Special berths for tankers. No smoking.
DEVELOPMENTS: Discussions about a fourth basin.
GANGWAY/DECK WATCHMEN: Available and recommended.
OPENING/CLOSING HATCHES: For liners by stevedores, otherwise per agreement.
ALLOWANCES: (Tobacco) 40 cigarettes per crew member. Customs very strict, checking crew cabins. Regulations are as follows:
1. That the quantity of tobacco to be allowed on board vessels upon their arrival at a Lebanese port, will be fixed on the basis of two packets per crew member, passenger per day and to be calculated on a maximum period of four months, if the vessel emanates from an American, Asian or African port – not central Africa; and for two months if the vessel last port of call is in Europe, Central Africa or Mediterranean, which will be deducted from the quantity, and, on the same basis the consumption by the crew members and passengers during their trip, and this to start from the last port of call until arrival at a Lebanese port. That the number of passengers to be taken into account on a tourist vessel, will be the number of berths the vessel can accommodate and not the number of passengers actually on board. As to cargo vessels, the actual number to be accounted for will only be the crew members and the Master of the vessel.
2. In the event that it is the first call of the vessel at a Lebanese port and not aware of such regulations, and it was found onboard her an excess quantity to the actual one allowed, as indicated above, a Proces Verbal will be established for the excess quantity found and the cigarettes placed under seal. An undertaking is also to be obtained from either the Owners and/or her Agents to the effect that they will submit a certificate, within one month, to be issued by the relevant Customs Authorities of the next port of call of the vessel after a Lebanese port. While the seizure on the vessel will be lifted when a Bank Guarantee equalling the amount of fine and dues is placed, or a personal guarantee from the Agent – if solvable – and in the event that the undertaking is not fulfilled the usual penalties will be inflicted according to the Law.
3. In the event the vessel is aware of such restriction, and for one reason or another, she is carrying an excess quantity, this excess must be, as per official regulations, be shown on the manifest legalised and issued at the last port of call touched by the vessel prior to Beirut. Any excess found over and above such declaration will be considered as smuggling and the law will be applied.
Wine and/or Spirits: One bottle per crew member. Captain allowed 3/4 bottles.
CARGO GEAR: Ship's gear to be used but mobile cranes can be hired. Shore cranes except from mobile cranes only available at quay No. 9 and 11. Floating crane of 120 tons available.
IDENTIFICATION CARDS: Shore pass given to each crew member. Passport and seaman's book to remain in Captain's care.
CONSULS: Most countries have consulates.
REPAIRS: Most types of repairs carried out.
DRY DOCKS: None except for 500/1,000 tonner.
REPATRIATION: Very good facilities for repatriation.
AIRPORT: About 10 km. distant, served by regular airlines.
TIME: GMT plus 2 hours. Summertime, GMT plus 3 hours.

HOLIDAYS:

Holidays	*Date*	*Days*
New Year's Day	January 1	1
Al-Adha (Kurban Bairam)	Varies	2
Ashoura	,,	1
New Year (Islamic)	,,	1
Arab League Day	March 22	1
Good Friday	Varies	1
Easter Monday	,,	1
Good Friday (Orthodox)	,,	1
Easter Monday (Orthodox)	,,	1
Labour Day	May 1	1
Martyr's Day	May 6	1
Ascension Day	Varies	1
Mohamed's Birthday	,,	1
Assumption Day	August 15	1
All Saints' Day	November 1	1
Independence Day	November 22	1
Ramadan	Varies	2
Christmas Day	December 25	1

Port closes completely: New Year's Day, Al Adha, Easter Monday, Labour Day, Independence Day, 1st day of Ramadan and Christmas Day. On other holidays, day work in port carried out against overtime payment.

POLICE/AMBULANCE/FIRE: Telephone numbers: Police 16, Ambulance 18, Fire 17.

TELEPHONES: On request by shipping agency, berthed ships can be connected to telephonic network of city.

SERVICES: Tank-cleaning equipment. Facilities for discharge of tank-washings, compass adjusting, laundry, etc., available.

SHORE LEAVE: Crew allowed onshore.

DELAYS: 1. Unavailability of berth or barges due congestion mainly during winter months (December to April). 2. Vessel already registered will lose turn if not back to port in time. 3. Barge ordered for bunkering might be occupied if vessel's arrival delayed.

AGENT: Gulf Agency Co. (Lebanon) Ltd., PO Box 4392, Beirut, Lebanon. Cable address: "Gacship". Telex 20906 LE. (answerback "GAC"). Telephones, 29 67 33, 25 65 16 AO 30 78 02. Office in El Arz Street, Modern Building.

CHEKAA: 34.20 N. 35.43 E.

Port is used for cement loading and discharge of sulphates.

ANCHORAGE: Safe anchorage in Chekaa Bay.

MAX. SIZE: Draft up to 26 ft. 6 ins. (in calm weather) alongside quay. In event of swell, vessel required to leave quay and anchor in bay.

LOAD/DISCHARGE: 800/1,000 metric tons per 24 hours.

AGENT: See "Beirut".

RAS SELAATA: 34.16 N. 35.39 E.

Port is used for discharge of sulphates and sulphuric acid.

MAX. SIZE: Up to 21 ft. draft (in calm weather) alongside pier which has two cranes.

AGENT: See "Beirut".

SIDON: 33.30.04 N. 35.20.31 E.

OPERATORS: Trans-Arabian Pipe-line Company, Sidon Terminal. The Company transports crude oil from Saudi Arabia via pipe-lines and exports from terminal South of Sidon (Saida). Terminal operates 24 hours a day, seven days a week.

FLAG: All vessels required fly Lebanese Ensign on foremast during daylight hours. Lebanese flags may be obtained from ship's Agent.

LOCATION: Sidon Terminal is open, unsheltered roadstead, situated immediately North of Zahrani River, about 5 miles South of city of Sidon (Saida), Lebanon. It is approximately 35 miles South of Beirut, and 17 miles North of Tyre.

DESCRIPTION: Terminal's Tank Farm consists of 23 storage tanks situated East of terminal at 360 ft. (average) above sea level. Marine and administrative offices, a laboratory for testing stocks, three large and three small storage tanks all located within area just above sea level. An "L"-shaped pier for harbouring Company's marine craft extends approximately 1,000 ft. from shore near Southern end of berthing area.

NAVIGATIONAL AIDS: Terminal sea buoy approximately one mile westward of mooring berths in 98 ft. of water. Position 33° 32′ 02″ N.; 35° 19′ 16″ E. Buoy painted white and exhibits flashing white light every four seconds (flash 0·3 seconds, eclipse 3·7 seconds). Lantern 11 ft. above water and visible 8 miles. Mooring Master will board vessels within two miles to Westward of this buoy. Vessels should not enter inside restricted area described by a line joining South-west buoy and North-west buoy with terminal sea buoy unless so directed by Mooring Master.

Radio beacon tower located 1,200 ft. back from beach, South-east of moorings. Occulting red light (about 30 flashes per minute) mounted on top, elevation 184 ft. above sea level; position 33° 30′ 04″ N.; 35° 20′ 31″ E. Tower also marked with two sets fixed red lights located respectively 45 and 90 ft. below occulting red light. Radio beacon is automatic and operates on 24 hour basis on frequency of 296·5 kc/s, with "SAD" as the identifying call sign. It will signal two times over a 10-second period and then give a constant 1,000 cycle tone for 72 seconds. Tower is of cage-type construction, painted red and white. About 2½ miles South-west of terminal sea buoy and approximately 2 miles offshore is rocky shoal with approximately 32 ft. of water over it. Outside this shoal is a lighted buoy, painted red, in 51 ft. of water, showing flashing red light every 4 seconds (flash 0·3 seconds, eclipse 3·7 seconds). This buoy moored in 33° 30′ 21″ N.; 35° 18′ 04″ E. Lantern 11 ft. above water and visible 5 miles. Vessels approaching from Southward should keep offshore until radio beacon tower bears 100° true before hauling-in.

"Sailing Directions for the Mediterranean" (U.S. Navy Hydrographic Office Publication No. 154A Vol. IV) reads in part:

"*Caution:* As the coast between Saida and Tyre, 20 miles South-South-westward, is bordered in places by rocks and shoal water extending as far as one mile offshore, it should not be approached closer than 1½ miles, nor within depths of less than 16 fathoms."

Unlighted, white painted spar buoys mark North-west and South-west corners of restricted area. North-west buoy in 78 ft. of water and located approximately 33° 33′ 35″ N.; 35° 21′ 13″ E. South-west buoy in 57 ft. of water and located approximately 33° 30′ 20″ N.; 35° 19′ 36·5″ E. During darkness terminal range lights and mooring buoy marker lights may be visible. These lights are located inside the restricted area.

A conspicuous water tank (painted in black and white vertical bands) on a tower located 33° 29′ 27″ N.; 35° 21′ 10″ E., the top of which has elevation of 460 ft. above sea level. Location is seaward of centre oil storage tanks.

There are a number of smaller radio towers to North-west and South-west of beacon tower. South of terminal, at Medreco Refinery, is a conspicuous black stack located 33° 29′ 31″ N.; 35° 20′ 08″ E. A little farther North-west from this stack is a tall pipe painted aluminium with a flare on top at 33° 29′ 35″ N.; 35° 20′ 03″ E.

DOCUMENTS:

Health Declaration: International Health Form to be filled out by Master on arrival.

Cargo Manifest: No cargo arrival manifest required, as same usually prepared by local Agent.

Clearance: No clearance required.

Crew List: 4 copies required on arrival.

Passenger Manifest: If any passengers on board.

Store List: 2 copies.

Bonded Store List: 2 copies. Present regulations at Sidon Terminal allow each seaman to retain in his possession a maximum of 40 cigarettes or the equivalent weight of tobacco or cigars. The balance of all smoking items must be collected and carefully listed prior arrival. This list will be checked by Customs before sealing lockers. If any discrepancies, vessel subject to a fine.

PILOTAGE: Vessels to be moored at Sidon will be boarded by Mooring Master of Company within 2 miles to seaward of terminal sea buoy. Mooring Master will advise Ship's Master on approaches to berth, mooring, unmooring, connecting and disconnecting submarine hoses and in all other operations within berthing area. All manoeuvring of ships within berthing area shall be done only in accordance with advice of a Tap-line Mooring Master, subject to the understanding that in all cases and circumstances Master of the vessel being manoeuvred shall remain solely responsible, on behalf of vessel's owner, for safety and proper manoeuvring of vessel. Ship's Master or qualified deck officer must be on bridge at all times while ship is manoeuvring.

Vessels must have a pilot ladder safely and securely rigged, and all vessels over 45,000 dwt. should have an accommodation ladder rigged in combination with pilot ladder for safe boarding of Mooring Master and Government officials. Pilot ladder should be abaft and close to accommodation ladder so that Mooring Master, after climbing a few steps, can use accommodation ladder for remaining climb. Since hoses handled on port side at Sidon, it is advisable to rig ladders on starboard side. If at night, adequate lighting must be rigged over-side for Mooring Master to approach side of ship and climb ladder safely.

Note: Vessels having special rigs, such as hoisting equipment on short sections of pilot ladder, are not required to rig pilot/accommodation ladders per the above.

ANCHORAGE: For vessels awaiting berth, good anchorage just W.S.W. of terminal sea buoy in 16 to 20 fathoms, sandy bottom. Vessels should under no circumstances anchor North of terminal sea buoy as depths are excessive for safe anchoring.

MAX. SIZE: Berths Nos. 1 and 4 depths 47 ft., and berths Nos. 2 and 3 depths approximately 67 ft. Tankers up to 150,000 dwt. or approximately 55 ft. draft are considered maximum size which should be handled during winter months at Sidon, and then only if vessel meets all of below recommended requirements. Otherwise, vessels of over 100,000 dwt. should not be nominated for liftings at Sidon during period November–March.

Based on previous experience, sudden and severe storms of long duration are not expected from April through October. Vessels over 150,000 dwt. may, therefore be accommodated during this period. However, prior to acceptance of nomination of vessels over 150,000 dwt. Tapline requires advance information regarding maximum draft, vessel's equipment and location of manifold in reference to distance from stern of vessel which should not exceed 450 ft. Acceptance or rejection will be made after evaluation of above data by Sidon Marine personnel.

Summary of Recommendations for Vessels over 40,000 dwt.:

1. Capable, efficient and reliable anchor windlass(es).
2. Fifteen shots on starboard chain – thirteen shots on port chain are satisfactory.
3. Mooring wire winches, one on aft well deck, three on poop deck, 200 fathoms wire on each, with adequate number of manila or synthetic ropes to double up as needed.
4. Capability of lifting 16 in. hose string – 6·5 tons static weight.
5. Suitably located hang-off bitts.

6. Capability of keeping vessel in a reasonably safe ballast condition (November–March) by permanent ballast or loading while deballasting, or a combination of both.
7. Ship's manifold located not more than 400 ft. from stern.

HEALTH: Rules governing quarantine of vessels are same as found in other ports.

RADIO: (*a.*) *Facilities.* Tapline has own ship-to-shore radio telegraph, and VHF radio telephone station at terminal. This station is not open to commercial traffic. Services limited to traffic between Tapline and tankers within three days' sailing time from terminal. Messages to or from tanker agents classed as "Commercial" and must be routed via Radio Orient, a commercial radio station. Its call sign is ODR.

Sidon Radio, call sign ODA 3, transmits (CW) on 8502·5 kHz at 0700, 1100 GMT, the traffic list; 12840 kHz at 0730, 1130 GMT, the traffic list; 424 kHz for traffic upon request. Listens on 8534–8374 kHz for replies and calls and on 8374 for traffic. Will listen on 8476 kHz for traffic upon request; 12531–12561 kHz for replies and calls; 425, 454, 468 and 480 kHz upon request. Keeps watch only between 0500–1300 GMT on 500 kHz.

Radio Orient Beirut, call sign ODR, transmits (CW) on 8702 kHz and 13101 kHz simultaneously half-past each hour beginning at 0630 until 2130 GMT, the traffic list; 524 kHz each hour beginning at 0600 until 2100 GMT, the traffic list. Listens on 8534–8374 kHz and 12531–12561 kHz for replies and calls each hour from half-past the hour until the hour; 500 kHz 0600 to 2200 GMT and 425, 454, 468 and 480 kHz from the hour until half-past the hour for replies and calls. Keeps watch only between 0600–2200 GMT on 500 kHz.

(*b*) *Advice of Arrival* It is important that ships establish radio contact with Tapline Station ODA3 when three days distant from Sidon and maintain this contact at regular intervals until just prior to arrival at the terminal. All ships should send a 72-hour ETA message to Tapline, giving the best estimate of ship's arrival time, a statement of bunker requirements and other relevant information. Shorter notice may result in berthing delay. Further ETA messages should be sent when vessel is 24 hours and 12 hours distant and to cover any other time changes occurring in the original ETA or those subsequent thereto. The 12-hour ETA should include a statement regarding "ship's readiness to load" on arrival, and time required to discharge clean ballast after ship is moored. A further contact when 4 hours away is desirable for exchange of weather data and mooring schedule. Vessels failing to give minimum of 12 hour arrival notice may be subject to delays in acceptance.

(*c*) *Ship-to-Shore Communications.* Ship-to-shore communications, while ships are in moorings, will be by portable VHF radio units used by the Mooring Master only. The use of the ship's radio station (except channels 16–14) and/or battery charging equipment is prohibited for safety reasons during cargo transfer operations.

In the event of normal ship-to-shore communications failure, the (ship's) emergency whistle signal should be used.

(*d*) *Radio Message.* Upon first contact with inbound tanker, ODA3 will transmit a detailed message of advice.

It is important that a reply to this message be sent soonest after receipt. Also requested that all vessels forward their local weather observations to this station while approximately 100 miles and again 50 miles Westward of Sidon when approaching and also upon departure during period November 1 to March 31. This data is used to assist in preparation of terminal weather forecasts and radio contact may be useful in event Tapline needs to furnish any information to vessel after its departure.

VHF: Tapline VHF radio telephone system operates on international Channels 14 and 16, 156·7 mc/s and 156·8 mc/s respectively. Channel 16 used to establish contact while all traffic handled on Channel 14. Tapline guards these channels on a 24 hour basis, and contact can generally be made at distances up to 100 miles from terminal. Conversations on these channels will be carried out in English language only.

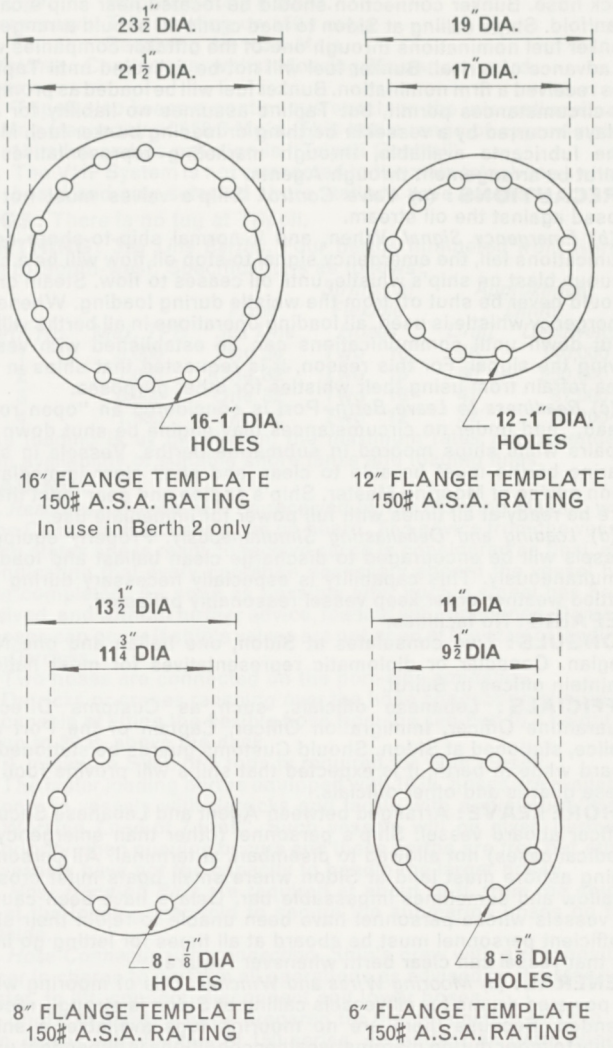
Mooring Master only will be in direct charge of portable VHF ship-to-shore radio communications.

BERTHING: Five buoys in berth No. 1 and seven buoys in each of berths No. 2, 3 and 4. During winter months vessels over 40,000 dwt. usually moored in berths No. 2 or No. 3. These berths approximately 1 mile to 1½ from shore. Berths numbered 1 to 4 from South to North. Vessels moored on one heading (West) basis using both bow anchors with maximum possible spread of anchors to increase ship's anchor beam holding components. Ship's stern moored to cylindrical buoys fitted with release hooks, using seven ropes (or wires) to respective mooring buoys. Permanent moorings consist of 7 steel cylindrical buoys in each berth. (Five buoys in No. 1 berth.)

Certain mooring buoys in all berths fitted with 1½ in. diameter preventer wires, one end of which is secured to mooring buoys. When required, other end is brought on board vessel by a messenger line after ship moored in position. Preventer wires supplemental to ship's regular moorings during adverse conditions. Ships should have chain stoppers for handling these wires.

LOADING: (*a*) *Readiness:* Tenders to load will normally be accepted and berths assigned to vessels in order of arrival, provided vessels have nominations for cargo valid at the time, carry clean ballast and in all respects equipped and ready to moor. In event berthing delayed on account weather, vessels will ordinarily keep their loading priority in order of arrival. Vessels required to leave port area on account of weather (port closed), should keep in contact with terminal via radio in order that they will be available when weather moderates. Company will make every effort to load vessels on arrival, or as promptly as berth is available, weather permitting. Notice of readiness will not be accepted unless vessel ready to load. Arrival time will be considered as time Mooring Master boards vessel underway or time vessel anchors, whichever occurs first.

DETAIL OF 16″, 12″, 8″ & 6″ HOSE CONNECTIONS FROM SUBMARINE HOSE TO SHIP



16″ FLANGE TEMPLATE
150# A.S.A. RATING
In use in Berth 2 only

12″ FLANGE TEMPLATE
150# A.S.A. RATING

8″ FLANGE TEMPLATE
150# A.S.A. RATING

6″ FLANGE TEMPLATE
150# A.S.A. RATING

(*b*) *Connecting-up.* Ships loaded by means of submarine pipe-lines. Weight of the 16 in. hose in No. 2 berth about 6·5 tons; weight of 12 in. hose in No. 3 berth about 5 tons; and weight of 12 in. hoses in No. 1 and No. 4 berths about 4 tons. Hoses lifted by ship's gear on port side. Detail of flange templates shown in drawings below. Ships should provide manifold fittings to allow connection of flanges shown.

Mooring Master advises ship's personnel in lifting, connecting, disconnecting and lowering of hoses. A ship's deck officer must be present, and must direct ship's crew in all hose handling. There must be sufficient crew on deck to perform this work.

(*c*) *Rates:* Loading is by gravity flow from tank farm which is approximately 360 ft. above sea level. Loading rates as follows (approximate maximum):

	Rates (BPH	
Berth	*With 1 Hose*	*With 2 Hoses*
1	17,000	29,000 (12 in. hoses)
2	40,000	70,000 (16 in. hoses)
3	27,000	43,000 (12 in. hoses)
4	25,000	37,000 (12 in. hoses)

Order save ship's time and to ballast vessel as quickly as possible, as well as to make berth available for others, it is requested that ships receive oil as fast as it can be delivered, with due regard for safety. The removal of any restrictions, such as strainers, etc., is recommended.

MEDICAL: Neither medical nor hospital facilities provided byTapline. Private doctors and hospital facilities available at Sidon and Beirut. Agents acquainted with situation and can make necessary arrangements.

If unable make radio contact, then vessels requiring emergency medical assistance should hoist International Code Flag "W" in daylight, and at night, send "W" (·—) on blinker light to attract immediate attention, the same signal "W" (·—) should be given on ship's whistle in either day or night hours. Signal should be repeated until acknowledged visually by either another ship in berth; from shore station or from Company launch. As soon as signal is received, terminal officials will advise ship's Agent as soon as possible of the emergency medical aid required.

DENSITY: Salinity of the sea is same as open Atlantic Ocean. Temperature ranges from 60°F. to 85°F. (15·6°C to 29·4°C.) depending on season.

FRESH WATER: Not available.
FUEL: Bunker fuel loaded at rate of 3,000–5,000 BPH through 8 in. deck hose. Bunker connection should be located near ship's cargo manifold. Ships calling at Sidon to load crude oil should arrange for bunker fuel nominations through one of the offtaker companies well in advance of arrival. Bunker fuel will not be delivered until Tapline has received a firm nomination. Bunker fuel will be loaded as promptly as circumstances permit, but Tapline assumes no liability for any delays incurred by a vessel in berthing or loading bunker fuel. Maritime lubricants available, through marketing representatives in Beirut by arrangement through Agents.
PRECAUTIONS: (*a*) *Valve Control.* Ship's valves must not be closed against the oil stream.

(*b*) *Emergency Signal.* When, and if normal ship-to-shore communications fail, the emergency signal to stop oil flow will be a continuous blast on ship's whistle, until oil ceases to flow. Steam or air should never be shut off from the whistle during loading. Whenever emergency whistle is used, all loading operations in all berths will be shut down until communications can be established with vessel giving the signal. For this reason, it is requested that ships in the area refrain from using their whistles for other purposes.

(*c*) *Readiness to Leave Berth.* Port is considered an "open roadstead," and under no circumstances may engine be shut down for repairs while ships moored in submarine berths. Vessels in submarine berths must be able to clear, and shall clear immediately upon advice of Mooring Master. Ship's engine and gear must therefore be ready at all times with full power for immediate use.

(*d*) *Loading and Deballasting Simultaneously.* Properly equipped vessels will be encouraged to discharge clean ballast and load oil simultaneously. This capability is especially necessary during unsettled weather order keep vessel reasonably ballasted.
REPAIRS: No facilities.
CONSULS: Two consulates at Sidon, one Italian and one Norwegian. Consular or diplomatic representatives for most nations maintain offices in Beirut.
OFFICIALS: Lebanese officials, such as Customs Director, Quarantine Officer, Immigration Officer, Captain of the Port and Police, stationed at Sidon. Should Customs guards be stationed on board while in berth, it is expected that ships will provide food for these guards and other officials.
SHORE LEAVE: Arranged between Agent and Lebanese Security Officer aboard vessel. Ship's personnel (other than emergency or medical cases) not allowed to disembark at terminal. All personnel going ashore must land at Sidon where small boats must cross a shallow and sometimes impassable bar. Delays have been caused to vessels whose personnel have been unable to rejoin their ship. Sufficient personnel must be aboard at all times for letting go lines so that vessel can clear berth whenever required.
GENERAL: (*a*) *Mooring Wires and Winches.* Use of mooring wires to powered drums for all vessels calling at Sidon is strongly recommended. Because there are no mooring tugs available, a ship's ability to moor during marginal weather conditions is dependent upon its ability to warp itself into position. Vessels with capable wire winches and deck mooring equipment that are able to place one or two mooring ropes on a windward mooring buoy, usually able to moor without difficulty. Vessels over 40,000 dwt should have mooring wires to powered drums, one on aft well deck and three on poop deck. The wires should be 200 fathoms in length and so secured as to be easily let go from ship if necessary.

(*b*) *Ropes.* Vessels should have two suitable, best quality mooring ropes of 200 fathoms each located on aft part of after well deck for use on either port or starboard side, three (minimum) suitable, best quality mooring ropes of 200 fathoms each and three additional ropes of 150 fathoms each on poop deck plus properly located warping winches and bitts. Vessels equipped with mooring wire winches on poop deck may reduce required "additional" ropes accordingly. Wires are not used on port side of aft well deck due to possible fouling of wire with hose or pipe-line underwater facilities. In this position a suitable, best quality mooring rope must be used. Two ropes of 200 fathoms each recommended, to be used on either side while mooring, and used on port side only for securing ship in berth.
AUTHORITY: Trans-Arabian Pipe-line Company. Company maintains offices at following addresses: (*a*) *Beirut Office:* PO Box 1348, Beirut, Lebanon. Cable Address: Tapline Beirut. (*b*) *Sidon Office:* PO Box 28, Sidon Lebanon. Cable Address: Tapline Beirut. (*c*) *New York office:* 505 Park Avenue, New York, New York 10022, United States of America. Cable Address: Taplineco New York.
AGENTS: Gulf Agency Co. (Lebanon) Ltd., Sidon, Lebanon. Cables: "Gacship", Sidon. Tel. 296733, 256516. Telex: 906 Beirut.

For communication and operational reasons address all your correspondence and cables to head-office in Lebanon: Gulf Agency Co. (Lebanon) Ltd., POB 4392, Beirut, Lebanon. Telephones: 25 65 16, 29 67 33. Cables: "Gacship", Beirut. Telex: 906 (answer back: "Gacship Beryt").

TRIPOLI: 34.28 N. 35.49 E.

A. DRY-CARGO PORT.

Manifests should be visaed by Lebanese Consul at ports of shipment, or at any port *en route* where there is a Lebanese Consul. If on account of non-existence of Lebanese Consul at ports of shipment or at any of these *en route* the manifests are not visaed, then such consular visa dues are collected at Beirut.
DOCUMENTS:
1 Legalised copy of Cargo Manifests.
5 copies of Cargo Manifests.
2 Store Lists.
5 Passenger Lists.
2 Lists of Cigarettes and Tobacco (see "Customs allowances").
PILOTAGE: Agent arranges with Harbour Master, therefore keep Agent closely advised ETA. Harbour Master may also be contacted on VHF Channels 13 (frequency 156·6) and 16 (frequency 156·7).
ANCHORAGE: Good anchorage.
MAX. SIZE: Depth at entrance 22·5 ft. Max. draft alongside berth 22 ft.
HEALTH: Health authorities boarding in roads. Health form obtainable from Agent or doctor. Smallpox and yellow fever certificates for ships coming from Far East and Red Sea. Owners should check with Agents respecting any recent imposition of anti-epidemic regulations and requirements for addition injections for crew mem-members.
RADIO: Cables via Beirut Radio to and from Agent.
BERTHING: New pier about 600 metres length. Two berths. 4 shore cranes suitable for vessels up to about 7,000 tons only. Two heavy-lift cranes, capacities 25 and 50 tons. Lighters available for discharging alongside vessel. Ship's gear often used for discharging.
STEVEDORES: Ordered by Agent. No ETA to stevedores necessary. Working hours, 08.00–12.00, 13.00–16.00, otherwise overtime included on Sundays and on official holidays.
MEDICAL: Master to advise Agent by cable prior to arrival if medical attendance required.
DENSITY: 1025.
GANGWAY/DECK WATCHMEN: Available and recommended.
OPENING/CLOSING HATCHES: For liners by stevedores, otherwise per agreement.
CUSTOMS ALLOWANCES: Tobacco. 40 cigarettes per crew member. Customs very strict, checking crew cabins. Regulations are as follows:

1. That the quantity of tobacco to be allowed on board vessels upon their arrival at a Lebanese port will be fixed on the basis of two packets per crew member, passenger per day, and to be calculated on a maximum period of four months, if the vessel emantes from an American, Asian or African port – not central Africa; and for two months if the vessel last port of call is in Europe, Central Africa or Mediterranean, which will be deducted from the quantity, and on the same basis the consumption by the crew members and passengers during their trip, and this to start from the last port of call until arrival at a Lebanese port.

That the number of passengers to be taken into account on a tourist vessel will be the number of berth the vessel can accommodate and not the number of passengers on board. As to cargo vessels, the actual number to be accounted for will only be the crew members and the Master of the vessel.

2. In the event that it is the first call of the vessel, at a Lebanese port and not aware of such regulations, and it was found on board her an excess quantity to the actual one allowed, as indicated above, a Proces Verbal will be established for the excess quantity found and the cigarettes placed under seal. An undertaking is also to be obtained from either the Owners and/or her Agents to the effect that they will submit a certificate, within one month, to be issued by the relevant Customs Authorities of the next port of call of the vessel after a Lebanese port. While the seizure of the vessel will be lifted when the Bank guarantee equalling the amount of fine and dues is placed, or a Personal Guarantee from the Agent – if solvable – and in the event that the undertaking is not fulfilled, the usual penalties will be inflicted according to the law.

3. In the event the vessel is aware of such restriction, and for one reason or another she is carrying an excess quantity, this excess must be, as per official regulations, be shown on the manifest legalised and issued at the last port of call touched by the vessel prior to Beirut.

Any excess found over and above such declaration will be considered as smuggling and the law will be applied.

Wine and/or spirits: One bottle per crew member; Captain allowed 3/4 bottles.
CARGO GEAR: Ship's gear to be used.
IDENTIFICATION CARDS: Shore pass given to each crew member. Passport and seaman's book to remain in Captain's care.
CONSULS: Most countries have consulates in Beirut.
AIRPORT: Beirut.
TIME: GMT plus 2 hours. Summertime, GMT plus 3 hours.

B. – OIL TERMINAL.

OPERATORS: Iraq Petroleum Company.
DOCUMENTS: See "Section A – Dry-cargo Port".
PORT LIMITS: Iraq Petroleum Company Limited have placed three spar-buoys to indicate the limits of the Company's Sea Terminal boundaries.

The location of these buoys is as follows:
1st, Lat. 34° 30′ 03″ N. Long. 35° 52′ 30″ E.
2nd, Lat. 34° 29′ 42″ N. Long. 35° 52′ 26″ E.
3rd, Lat. 34° 29′ 03″ N. Long. 35° 51′ 04″ E.

PILOTAGE: The company's Mooring Masters will meet tankers two miles North-east of Tripoli Breakwater Head. Tankers of 40,000 dwt and over should have rigged, when in light condition, an accommodation ladder lowered to about 12 ft. above water. This can be adjusted to suit conditions. A pilot ladder should be rigged immediately abaft the accommodation ladder, to within 2 ft. above the water. This will enable Pilot to ascend pilot ladder clear of launch and then step on to the lower platform of the accommodation ladder. United Kingdom Merchant Shipping (Pilot Ladders) Rules are relevant.
ANCHORAGE: Good anchorage immediately West North-West of No. 4 sea berth buoys.
MAX. SIZE: Least depth of water available in berth, and swinging circle, after deducting 6 ft. for the height above sea bed of the sea line and cradle is as follows: No. 1 Berth, 62 ft.; No. 2 Berth, 66 ft.; No. 3 Berth, 53 ft.; No. 4 Berth, 38 ft. The swinging circle is defined as 1½ ship's lengths from dropping position of ship's inshore anchor. The approximate draft limits quoted are based on an underkeel clearance, in the berths, of 6 ft.

VLCC's will be handled in Berth No. 2 and loaded to a draft of 60 ft. During the period April to October, and subject to the Master and Mooring Master being satisfied that weather conditions permit loading to a reduced under-keel clearance of 4 ft., then the loaded draft may be increased to 62 ft.
HEALTH: See "Section A – Dry-cargo Port".
RADIO: The Iraq Petroleum Company Limited, must be informed 48 hours prior to arrival of a vessel's ETA, quantity of cargo required, maximum loading rate, SWL of derrick for lifting hoses and confirming that the ballast for discharge in port waters is clean. Communication with Iraq Petroleum Company, Limited, should be by cable addressed to "Petriraq, Tripoli, Lebanon", or direct to Tripoli Terminal Radio Station.

Tripoli Terminal Radio Station. Call Sign – ODC 8.

Waveband	*Hours (GMT)*	*Watch Details*
	0800–0830	ODC 8 Broadcast Traffic List and calls ships on 8514 kc/s. Listens on 8354–8374.
	1200–1230	Will transmit on 12831 kc/s. on request.
High Frequency	1600–1630 2230–2300	
	0000–2400	Monitor 500 kc/s. for calls and answers only.
	0730	Broadcast on 500 kc/s. QSW 442 kc/s.
	0732–0800	Transmit Traffic List on 442 kc/s., receives ship frequencies – 425, 454, 468, 480 and 512 kc/s.
	1130	Broadcast call on 500 kc/s., QSW 442 kc/s.
	1132–1200	Transmit Traffic List on 442 kc/s., receives on normal ship frequencies – 425,454, 468, 480 and 512 kc/s.

	1532–1600	Transmit Traffic List on 442 kc/s., receive on normal ship frequencies – 425, 454, 468, 480 and 512 kc/s.
	2200	Broadcast call on 500 kc/s., QSW 442 kc/s.
	2202–2230	Transmit Traffic List on 442 kc/s., receive on normal ship frequencies – 425, 454, 468, 480 and 512 kc/s.
	2232	Broadcast call QSY QSX 500 kc/s.

Cables to Agents may be routed through Beirut radio.

VHF: Tripoli:
Equipment: Fixed Station sited in Terminal Building and used by Control Room.
Call sign: Tripoli Control.
Range: Approximately 15 miles.
Frequency: Transmitting on 163·6 mc/s.
Receiving on 159·1 mc/s.
Watches: Continuous.

Mobile Station
Equipment: Portable, battery operated, carried aboard vessel with Mooring Master.
Call sign: Ship's name (before mooring). or Berth No. (after mooring).
Range: Approximately 8 miles.
Frequency: Transmitting on 159·1 mc/s.
Receiving on 163·6 Mc/s.
Watches: Continuous, whilst Mooring Master on board.

Notes
1. Tripoli also keeps a continuous watch on the international calling frequency of 158·8 Mc/s. This has a range of approximately 15 miles and its call sign is "Tripoli Control".
2. The VHF System is not connected to the main telephone switchboard and only selected shore stations have access to it.

TUGS: There is no tug at Tripoli.

BERTHING: *Sea Line Berths.* Four berths numbered from North-east to South-west. Specifications as follows:

Berth No.	*Max. TPH*	*Fixed Sea Line*	*Strings of Flexible Hoses*	*Approximate Limits Draft*	*Deadweight*
1	5,000	Two 24″	Two 16″	56′	140,000
2	7,000	One 32″	Two 16″	60′	250,000
3	6,000	One 32″	Two 16″	47′	87,000
4	1,500	Two 12″	Two 12″	32′	25,000

As loading is by gravitation, the maximum rates are dependent upon availability of suitable shore tanks and loading lines.

LOADING:
1. *Readiness to Load*, will be received by the Mooring Master, who is the Company Representative on board. The advice from the vessel which states she is ready to receive cargo is considered as final, and as indicating that every operation necessary aboard the vessel has been completed. As soon as possible after such a signal has been received, and without further advice, loading will commence. Damage to hoses can occur if ship's valves are not open at the start of loading.
2. *Derricks*
(*a*) Two hoses are connected on the port-side amidship.
(*b*) Derricks or cranes reaching over the hose connection should be capable of lifting the flexible hose from the sea-bed to a height of up to 30 ft. above the deck.
(*c*) A minimum SWL of 5 tons is required for 12 in. hoses.
(*d*) The faster loading berths equipped with 16 in. hoses are available only to vessels with derricks and tackle with a minimum "Safe Working Load of 7 tons". Such vessels will be given berthing priority when queuing occurs and these berths are free but other vessels have not the capacity to handle the larger hoses.
3. *Hose Hang-off Bitts* are required at about 10 ft. from the ship's rail at the loading manifold to secure the submarine hoses on the portside.
4. *Hose Connection/Disconnection.* Ship's crew with a responsible officer in charge to perform all operations as advised by the Mooring Master, to lift, connect, disconnect and lower hoses.
5. *Ship's Manifold* – to be prepared for the connection of 12 in. or 16 in. hoses with flanges of 150 series, dependent on berth allocation.
6. *Loading – Supervision and Commencement*
(*a*) All operations in connection with starting of loading, discharging, switching of tanks on board and topping-off must be directly and personally supervised by a responsible ship's officer.
(*b*) The advice from the vessel that she is ready to receive cargo is considered as final, and as indicating that every operation necessary aboard the vessel has been completed. As soon as such a signal has been received, and without further advice, loading will commence. Damage to hoses can occur if ship's valves are not open at the start of loading.
Caution: The oil loading stream to the ship is controlled on shore and it is extremely dangerous if a ship's valve is closed against the flow of oil.
To prevent excessive pressure from surge in ship and shore lines, ship's valves must not be shut-off against the stream, and when switching tanks, ship's valves must be closed slowly. Vessels will be held liable for damages resulting from any mal-operation of valves on board.
7. *Tank Dips.* During loading frequent checks should be made by the responsible ship's officer to ensure that cargo is entering the designated cargo tanks only and that there is no escape of oil into pump-rooms or through sea and overboard discharge valves. Particular care must be exercised by ship's personnel in "topping-off" tanks and towards completion of loading to ensure that the terminal is given timely advice of any decrease in loading rate required. Adequate "standby" notice must be given before the final "stop".
8. *Loading Operations*
(*a*) The Mooring Master will not transmit any loading instructions to the shore until the responsible ship's officer is satisfied that the hoses are connected correctly and that all valves have been set for receiving cargo.
(*b*) Loading rates requested by the vessel or quoted by the terminal will be the peak or maximum rate at any time during the loading period.
(*c*) While in berth, ships should be ready to move under their own power in the event of their breaking adrift, catching fire, fire in adjacent berths or other emergency. No repair should be carried out while in berth which would immobilize the ship or impair her fire-fighting efficiency.
Failure to vacate the berth on completion of loading may result in delays to other vessels, demurrage, and loss of throughput which shall be accountable to the vessel.
(*d*) The Mooring Master will advise the Master of the ship as to any signals needed for local requirements.

(*e*) The Mooring Master brings a portable radio on board for ship to shore communication.
DENSITY: 1025.
FRESH WATER: May be available at anchorage before berthing, but it is expensive.
FUEL: Fuel oil is available at Berths 2 and 3. The 12 in. bunker hose is raised on the port side of the vessel. Bunkering rates are 300 to 400 tph.
CUSTOMS ALLOWANCES: See "Section A – Dry-cargo Port".
GENERAL:
1. *Ballast*
(*a*) Vessels should arrive with sufficient clean ballast for safe handling of vessel under prevailing weather conditions.
(*b*) Ballast water must be clean and a declaration signed by the Master and delivered to the terminal to this effect. Vessel's scuppers must be effectively plugged and leakage or spillage of oil aboard ship must not be swept or washed overboard.
(*c*) *Pollution of the sea – warning.* It is an offence to discharge dirty ballast or pump out bilges. The authorities are very strict and your attention is drawn to the Lebanese Notice to Mariners No. 23/1 of 29th July 1965, and to the volume entitled "International Conference on Prevention of Pollution of the Sea by Oil", issued by IMCO London.
In the event of your vessel discharging dirty ballast or spilling oil, cost for cleaning the pollution, third party claims and port fines shall be borne by the vessel.
It is recommended that vessels carry an adequate amount of dispersants with means of application in case of oil spills.
2. *Gear to be provided by the ship*
(*a*) Anchor to be fitted with marker buoys and 20 fathoms line.
(*b*) Four good mooring lines of not less that 150 fathoms each and of suitable size for the vessel. Two additional 150 fathoms lines securely tailed to the first lines for cases where 150 fathoms may not reach to the stern buoys initially.
(*c*) For vessels of 50,000 dwt. and larger, powered mooring winches with 200 fathoms of wire rope.
(*d*) Four suitable rope stoppers to be available aft.
(*e*) Two good chain stoppers for use on $5\frac{1}{2}$ in. circumference wires (preferably carpenter's patent stoppers).
(*f*) Two good $4\frac{1}{2}$ in. circ. boat ropes 200 ft. long placed one on each side of the vessel.
(*g*) Two good ropes, 15 fathoms $\times 3\frac{1}{2}$ in. circ. and two heaving lines for lowering hoses.
3. *Lighting.* Manifold and poop mooring areas should be adequately lit to enable night mooring and loading operations to be carried out with safety. Sea area around the ship to be illuminated.
4. *Deck Watch.* A deck watch must be maintained at all times the vessel is in berth. In addition to its normal duties, the watch must inspect the hose connections and area around the ship against oil spillage, pollution, and prevent unauthorised persons from boarding your vessel.
5. *Boarding of vessel.* The control of persons boarding your vessel is the ship's responsibility. Boarding should be restricted to Company employees on duty and to persons authorised by the Port Authorities as advised by your Agents.
6. *Stores/Provisions* or other items should not be received or discharged whilst loading is in progress. Launches other than the Company's mooring launch, should not lie alongside the vessel.
7. *Tanker Safety.* Masters are at all times responsible for the application of all safety precautions as prescribed in the International Oil Tanker and Terminal Safety Guide.
8. *IOTTSG Safety Check List.* The Tanker Safety check list must be completed after inspection of each item prior to commencement of and during loading. The Mooring Master is authorized to stop all loading operations should he consider that the safety of lives and property is endangered by the infringement of safety rules.
9. *Action in case of Emergency.* In the event of a fire, oil spillage or other emergency on the vessel,
The Emergency Signal is:—
Three or more blasts of not less than ten seconds duration each on whistle or siren supplemented by a continuous ringing of the general alarm bells.

AGENT: Gulf Agency Co. (Lebanon) Ltd., Customs Street, Tripoli, Lebanon. Cables: "Gacship", Tripoli/Lebanon. Telephon: 62 52 54. Telex: 906 Beirut. Head Office: Beirut (which see).

Leeward Islands

BASSETERRE: St. Kitts: 17·18 N. 62·43 W.

DOCUMENTS:
3 copies of Crew List.
3 copies of Passenger List.
1 copy High Duty Cargo List.
1 copy Crews' Personal Effects List.
1 copy Clearance from last port.
1 copy Ship's Stores List.
7 copies Manifest.
2 copies Bills of Lading.
PILOTAGE: No pilotage required.
ANCHORAGES: Harbour at Basseterre is an open roadstead and safe anchorage will be found at a distance of $\frac{1}{4}$ to $\frac{1}{2}$ mile from the shore opposite the piers in the centre of the town.
RESTRICTIONS: None.
MAX. SIZE: A vessel of any size may be admitted. Anchorage position will depend on the draught of the ship.
HEALTH: The Harbour Master boards all vessels on arrival at port and inspects the clearance from the last port. If there are no health problems the vessel is immediately granted pratique. If there is suspected disease or fever on board pre-notification is recommended. If this is done the Harbour Master will have a Medical Officer with him when he boards the ship on arrival.
RADIO: Contact is through Barbados Radio, call sign 8PO.
TUGS: Not needed.
BERTHING: Ships anchor off shore.
STEVEDORES: ETA should be advised 24 hours before arrival of vessel, also tonnage to be discharged and number of gangs required. Discharging rate: 15 tons per gang per hour on bags. 6 tons per gang per hour on general cargo.
MEDICAL: Advance notice if possible – hospital facilities available. Valid Vaccination Certificate for passengers disembarking but not for intransit or cruise ship passengers.
DENSITY: No tides. Density normal for a West Indian island.
FRESH WATER: Not available.
FUEL: No bunkering facilities.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Done by stevedores.
CUSTOMS ALLOWANCES: Tobacco, 1 carton of cigarettes. Wine and/or Spirit, 1 bottle.
IDENTIFICATION CARDS: Not needed.
CONSULS: Netherlands, France, Dominican Republic.
REPAIRS: The sugar factory has well-equipped shops for machine, welding and maintenance work. They can assist with most engine repairs.
DRY DOCKS: None.
REPATRIATION: Crew changes and repatriation can be arranged.
AIRPORT: Two miles from town with regular daily connections to Antigua and Puerto Rico where onward passages to Canada, the U.S.A., Great Britain and Europe can be arranged.
TIME: GMT minus 4; no alteration.
HOLIDAYS: New Year's Day (January 1st); Statehood Day (February 27th); Good Friday; Easter Monday; Whit Monday; Queen's Birthday (date fixed by announcement annually); August Monday; Prince Charles' Birthday (November 14th); Christmas Day (December 25th); Boxing Day (December 26th).
POLICE/AMBULANCE/FIRE: Police 999; Fire 999; Ambulance (Hospital) 2551.
TELEPHONES: None available.
AUTHORITY: Comptroller of Customs.

AGENT: S. L. Horsford & Co. Ltd., PO Box 45, Basseterre, St. Kitts, BWI. Cable address: Horsford, St. Kitts. Tel. Shipping Manager, Office 2616, Home 2101; Secretary, Office 2617, Home 2122.

ST. JOHN'S: Antigua: 17.7 N. 61.52 W.

DOCUMENTS:
4 Crew Lists.
6 Passenger Lists.
1 Customs Declaration.
1 Declaration of Health.
6 Copies of Manifest.
Port clearance from previous port.
3 copies of B/L.
1 copy Crew Personnel Curio List.
Fumigation and Deratisation Exemption Certificate.
PILOTAGE: Compulsory. Messages should be received by Agents 48 hours in advance. Pilot boat may be identified by pilot flag.
Pilot boards at entrance of channel if vessel is proceeding to Deep Water Harbour. If vessel proceeding to Oil Berth, Pilot boards 2 miles North of Sandy Island.
PORT LIMITS AND COMPULSORY PILOTAGE AREA: All the waters enclosed by an imaginary straight line running due West from Weatherills Point forming the Northern boundary, by an imaginary straight line running due North from Shipstern Point forming the Western boundary and by the coastline running from Weatherills Point to Shipstern Point forming an Eastern and Southern boundary.
ANCHORAGE: Open seas just outside inner harbour. Depths exceeding 50 ft.
RESTRICTIONS: No restrictions on entry, difference in tide is negligible. Channel is 8,000 ft. long and 300 ft. wide, dredged to 35 ft.
MAX. SIZE: At present vessels of any size can anchor in outer harbour. The New Deep Water pier is 1,200 ft. long and depth alongside is 35 ft., a turning basin of 1,200 ft. diameter is available. Oil carrier's berth at Oil Refinery Pier in 36 ft. of water or at "Sea Berth' in calm water exceeding 45 ft. High and low tide are negligible.
HEALTH: Pratique granted at berth. Suspected disease or fever should be notified by cable in advance.
RADIO: Cable and Wireless (W.I.) Ltd. Barbados Radio 8PO.
Tugs fitted with VHF equipment. Harbour Master's office equipped with VHF and HF equipment. West Indies Oil Company Marine Centre keeps constant watch on VHF Channel 16/6 and HF 2182.
TUGS: Two tugs of 1800 h.p. available.
BERTHING: No special requirements.
STEVEDORES: 48 hours notice required to arrange gangs.
MEDICAL: Required medical attention should be cabled in advance to Agents. Hospital facilities available, smallpox vaccination required.
TANKERS: At Oil Refinery Pier several product pipe-lines of 10, 8, and 4 in., one 16-in. crude line, one 3-in. fresh-water line. 36 ft. mean

low water, acceptable draft 32 ft. (deeper draft subject marine terminal approval). At Seabuoy one 10 in. Bunker C line, one 16-in. crude line; five mooring dolphins secure vessel in position. Acceptable draft 42 ft. Slop residue discharge facilities available.
DENSITY: 1025.
FRESH WATER: Available from Deep Water Pier and by barge in conjunction with bunker fuel deliveries.
FUEL: All grades marine fuel available; ex wharf at the oil refinery pier, at the Sea Buoy, and by barges to vessels at St. John's Harbour and adjacent offshore bunkering area.
Bunker nominations should be placed with Independent Petroleum Supply Co., London. Cables: "Oilsuppli London EC4". Tel. 01-236 4326 and/or New York, Tokyo, or San Francisco offices.
FIRE PRECAUTIONS: No smoking or cooking at docks.
WATCHMEN: Not necessary. Available on request.
HATCHES: No set custom for opening/closing.
CERTIFICATES: All certificates should be on board but it is required to show Deratisation Exemption Certificate, L.S.A., Load Line.
CUSTOMS ALLOWANCES: 1 carton cigarettes. 1 bottle (26 oz.) spirits.
IDENTIFICATION CARDS: Not required.
CONSULS: Dutch, French, Danish and Swedish Consulates.
REPAIRS: No deck or engine repairs are possible.
DRY DOCKS: None.
AIRPORT: Airport is 4 miles from docks in city and served by international airlines such as BOAC, PAA, BWIA, Air Canada, ALM, Caribair, LIAT, Air France.
TIME: Local time is GMT minus 4. No alterations made to clocks during the year.
HOLIDAYS: 1st January; Good Friday; Easter Monday; Labour Day (1st Monday in May and no work is possible); Whit Monday; August Monday; Carnival Holiday (Tuesday following August Monday); State Day (1st November); Christmas Day; Boxing Day; H.M. Queen's Official Birthday observed either first or second Saturday in June.
POLICE/AMBULANCE/FIRE: Police 20045, Ambulance 20251, Fire 999.
SHORE TELEPHONE CONNECTION: Available.
AGENT: Geo. W. Bennett, Bryson & Co. Ltd., PO Box 162, St. John's, Antigua. Telegraphic address "Bennett". Tel. 21200. Estate & Shipping Agents, Liner Agents, General Commission Merchants, Insurance Agents, Travel Agents, Stevedores.

Liberia

BUCHANAN: 05.54 N. 10.04 W.

DOCUMENTS:
1 copy Clearance of last Port of Call.
1 copy Health Declaration.
6 copies Number of Passengers.
6 copies Cargo Manifest (even in ballast).
6 copies Crew List.
3 copies Store List (ship).
3 copies Personal Effects List.
1 copy Vaccination List.
PILOTAGE: The ship shall be considered to have arrived at Port of Buchanan when she cuts a circle with a three nautical miles radius from the beacon on the main breakwater head (Fl "G" 3-sec.). Lamco provides pilotage. Pilot boarding approximately 1½ miles off the main breakwater, bearing 095°/110°. Pilot ladder on port side.
ANCHORAGE: If waiting Pilot, anchor 2 miles off main breakwater.
RESTRICTIONS: Harbour traffic hours – towage and pilotage (ore ships), 0600–0100. General cargo ships (tankers), 0600–1630.
MAX. SIZE: Ore carriers up to 42 ft. draft.
RADIO: Dakar Radio, or when within 200 miles Buchanan Harbour Radio. Communications with ore ships per HF, call 2182 kc. Traffic, 2638 kc, 2738 kc. VHF, call Channel 16. Traffic, Channels 9, 11, 12 & 14.
HEALTH: Customs, health and passport inspection normally takes place at the berths. Quarantine signal must not be hauled down before "Free Pratique" is received. If diseases are suspected on board contact the Port Authorities or Agents by radio for instructions. After call at other Liberia ports where free pratique has been granted, Port Health will not board here.
TUGS: Lamco provides towage with two 1,640 h.p. tugboats. Tugs join vessel about one mile N.W. of red buoy.
STEVEDORES: As early as possible advance notice of ETA required latest by 1500 hours on day preceding arrival if a weekday. Or Saturday before noon if arrival on Sunday. Shore working hours: Ore handling: 0700–2400 with two 1-hour mealbreaks; general cargo handling, 0700–1200, 1300–1530, and overtime 1530 to 2300.
BERTHING: Port provides nylon springs for mooring at $5 per day each. Number of berths for sea going vessels, 5. Length of quays, 2,800 ft. with 50–100 tons bollards and properly fendered. Depth conditions, 42 ft. at ore-loading quay (at MLWS), 33 ft. at commercial quay (at MLWS). Ore loading capacity, 6,000 tons per hour.
MEDICAL: Hospital and medical care is provided; advance notice should be given in serious cases. Smallpox, yellow fever inoculations are required to enter the Republic. Yellow Vaccination Book is required.
TANKERS: One tanker berth for discharging only. Hose connections are: 6 in. and 10 in. Max. draft 30 ft.
DENSITY: Varying but around 1020/25.
FRESH WATER: Fresh water is available, ex-quay only, rate is 20 tons/hour. Subject to availability, max. 100 tons per ship.
FUEL: No bunker facilities available.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: Performed by stevedores.
REPAIRS: No commercial facilities available. In cases of emergency Lamco might assist with minor repairs.
CUSTOMS ALLOWANCES: Direct sales of Liquors, cigarettes, foodstuff, etc. from ships are strictly forbidden.
IDENTIFICATION CARDS: Not required.
CONSULS: Swedish Vice-Consul only; however, most countries are represented either by Embassy or Consul at Monrovia.
REPATRIATION: Can be arranged.
AIRPORT: Roberts International Airport about 1 hour ride by car; several connections to the rest of the world.
TIME: GMT; no alterations during the year.
HOLIDAYS: January 1st; The first Monday in January after every Presidential Election; January 7th; February 11th; Second Wednesday in March; March 15th; Second Friday in April; April 15th; May 14th; July 26th; August 24th; First Thursday in November; December 1st; December 25th. Special holidays as proclaimed from time to time by the Liberian Government. No work will be performed on January 1st, July 26th and December 25th.
GENERAL: Two Customs officers stay on board the ship during ship's entire stay and they should be given meals in the Officers' Mess and if necessary night quarters.
POLICE/FIRE/AMBULANCE: No phone available; however the Lamco Plant Protection Force should be contacted; one officer is normally assigned to each quay/gate.
SHORE LEAVE: Apart from South African, Portuguese and Rhodesian Citizens, who are not allowed ashore, no restrictions.
DELAYS: Generally, no major delays have occured. For ore loaders and tankers the tide may occasionally involve 24/36 hours waiting time depending on the size of ships expected to load; general cargo ships: no delay.
AUTHORITY: Port Operators: Lamco J. V. Operating Company, Buchanan, Roberts International Airport, Liberia. Telex: 203, Lamco Monrovia, Cable: Lamco Monrovia.
AGENTS: All ore carriers must employ LJVOC as their Agent.
Other vessels;
Scanship (Liberia) Inc., PO Box 19, Buchanan, Cable: Scanship Telex via Monrovia 209. R/T 2182 Kcs callsign Scanship Buchanan.

MONROVIA: 06.20 N. 10.50 W.

DOCUMENTS:
6 Crew Lists.
5 Passenger Lists or 5 Statements "Nil" if none aboard.
5 Manifests for Customs. This should state S.W. Ballast if no cargo aboard.
5 Lists of Ports of call from commencement of voyage with date of calls.
1 International Health Declaration.
1 List of Crew with dates of smallpox and yellow fever vaccination.
5 Store Lists.
2 Crew Custom Declarations.
Immigration now stamp all seamen's discharge books or passports.
PILOTAGE: Order Pilot through local Agents. Monrovia Freeport Pilot station equipped with R/T and VHF radio and on continuous listening watch from 0645 GMT to 2245 GMT. R/T 2182 kc/s, range 300–500 miles VHF Channel 16 range–30 miles.
Pilot comes out from inside breakwater by launch displaying H. flag. Vessels should approach to approx. 7 cables off entrance and should anchor clear of fairway channel as very large iron-ore carriers sail on deep draft. Anchorage lies S.W. of Leading Line from 7 cables to 10 cables from Southern breakwater end.
ANCHORAGE: Good unlimited anchorage space available on roadstead S.W. of Leading Line, depth 7 to 10 fathoms. Anchorage safe but subject to moderate South-westerly swell during rainy season, April to October.
RESTRICTIONS: Pilot service given day and night. Loaded oil tankers berth in daylight hours only. Only deep-loaded vessels restricted to tide for berthing or sailing.
Channel outside breakwater being dredged to 49 ft. MLW. Channel to iron-ore piers dredged to 45 ft. MLW.
MAX. SIZE: Vessels up to 850 ft. length and 45 ft. draft can be accommodated at iron-ore piers. No restrictions on beam except that carriers with a beam in excess of 126 ft. may experience difficulty in loading with present loading gantries. Maximum draft for berthing at Marginal General Cargo Wharf is 30 ft.
Tankers discharging at crude oil pier; maximum length 700 ft., maximum draft 40 ft. Maximum draft for berthing at Bunkering Pier is 35 ft.
HEALTH: Vessels entering must fly International Code flag Q. Port Health Officials board upon berthing. Pratique automatic for vessels having cleared at other Liberian ports, but vessel must still clear Customs.
RADIO: ETA cables should be routed to Agents through Government radio station ELC or via land cable (French Cables) through Dakar or Abidjan. Pilot R/T station will pass on messages to Agents free of charge.
TUGS: 3 tugs of 1700 h.p. available. Join vessels just inside breakwater entrance. For berthing, tug lines used; for sailing, ships lines used; no charges for tug lines.
BERTHING: Day and night, except loaded tankers not berthed during hours of darkness. Tankers arriving must enter breakwater

by 1730 hours. Fishing boats are moved to or from fishing pier situated on North Breakwater during darkness.
STEVEDORES: Engaged by Agent. Several stevedoring companies. Port Management handles all cargo on shore and accepts cargo ex-ship's hook only.
MEDICAL: Whenever possible Masters should cable Agents if require medical attention especially when arriving week-ends or during night. Hospital facilities available. Port Health require smallpox and yellow fever vaccinations for crew members.
TANKERS: One bunkering and oil-loading pier, and one crude-oil discharge pier. At Crude Oil Pier discharge by means of floating 10 in. pipe-line.
DENSITY: Density varies with the tide. Also varies during rainy season as river flow increases. Varies from 1009 to 1024 oz. per cu. ft. with average of approx. 1019 oz. per cu. ft.
FRESH WATER: Available only on marginal wharf and three Iron-ore Piers by means of hoses from shore. Average rate of delivery approx. 20 tons per hour.
FUEL: Light diesel oil and heavy fuel oil available and these can be blended to specification by supplying oil company Diesel only available on bunkering pier. Fuel oil available by barge and on bunkering pier.
GANGWAY/DECK WATCHMEN: Supplied by Agent, and recommended. Customs also place one gangway officer aboard and this officer is supplied with food by ship.
OPENING/CLOSING HATCHES: Normally done by stevedores.
CUSTOMS ALLOWANCES: Tobacco, reasonable quantities for consumption while in port. Wine and/or Spirit, as tobacco.
IDENTIFICATION CARDS: Not required, but seamen's books are endorsed aboard by Immigration.
CONSULS: Majority of foreign countries have Consuls.
REPAIRS: Limited deck and engine repairs can be carried out by two private companies.
DRY DOCKS: One very small floating dock capable of lifting 300 tons with max. draft of 8 ft. This dock is used for small coastal craft and only accepts very limited outside work.
REPATRIATION: Repatriation of crews is possible.
AIRPORT: Roberts Field International Airport 45 miles distant. Served with daily international flights to Europe and America.
TIME: GMT.
HOLIDAYS: Many official holidays during year but cargo work carried out those days on overtime rates. Port closes three days per year: 26th July (Independence Day), Christmas Day and New Year's Day.
POLICE/AMBULANCE/FIRE: Port Management have own Security Force and Fire Service. Situated in port area.
TELEPHONES: There are no facilities for telephones on board.
GENERAL: Stevedores gangs have to be ordered the day before required, therefore essential for Agents to receive ETA messages in sufficient time.
SERVICES: Hull, deck and engine surveys can be obtained through Lloyd's, German Lloyds, B.V., Norske Veritas, America Bureau Agents.
SHORE LEAVE: No restriction on shore leave.
AUTHORITY: National Port Authority, POB 14, Monrovia. Cables: NAPORTAUTH MONROVIA.

AGENT: Scanship (Liberia) Inc., PO Box 209. Tel. 22–832. Telex 4281. Cables: "Scanship Monrovia."

Libya

BENGHAZI: 32.06 N. 20.03 E.

DOCUMENTS:
Crew Lists, 7 copies.
Passenger Lists, 6 copies.
Crew Declaration on bonded stores, in triplicate.
Stores List, in triplicate.
Health Declaration.
Cholera and Smallpox Certificate.
Manifests, 8 copies.
Bill of Lading – copy for the Shipping Agent.
Registration Certificate, Log Book, Health Certificate.
Radio Certificate.
N.B.: Port Authorities at Benghazi will insist upon the following details to be inserted on Manifests:
(*a*) Bill of Lading number.
(*b*) Shipper's name.
(*c*) Receiver's name.
(*d*) Marks and Numbers.
(*e*) Quantity of Colli and Kind.
(*f*) Description of Cargo.
(*g*) Weight of Cargo.
(*h*) Measurement of Cargo.
PILOTAGE: Compulsory. The Port Manager of Benghazi strongly recommends all Agents operating in Benghazi to advise their principals that this port should never be entered without a Pilot on board.
In case there is any vessel entering the port without a Pilot on board, the owners have to bear all responsibility for eventual damages and for settlement of these and consequent fines.
Harbour Pilots will not come out farther than one mile off-shore. Vessels anchored outside this limit cannot expect to receive a Pilot. International code signals used to call Pilot.
RESTRICTIONS: Vessels are not permitted to enter harbour between sunset and sunrise.
MAX. SIZE: Max. draft for entering harbour is 27 ft. in winter and 28 ft. in summer time. Max. length 550 ft.
HEALTH: Quarantine Flag should be hoisted until doctor has been on board and free pratique granted, there is no automatic "Free Pratique" for a vessel arriving from another port of Libya.
RADIO: Messages to Agents, Receivers, etc., normally through Malta Radio. Due to difficulty of communications, Masters are advised to maintain radio watches while anchored off port.
TUGS: Tug assistance available if required. Tugs normally join the vessel in roads.
BERTHING:

Old Port	Quay No.	1	Length	400 ft.	Depth	14 ft.	6 in.
	,,	2	,,	430 ,,	,,	16 ,,	6 ,,
	,,	3	,,	400 ,,	,,	16 ,,	6 ,,
New Port	,,	1	,,	1,020 ,,	,,	28 ,,	
	,,	2	,,	940 ,,	,,	28 ,,	
	,,	3	,,	400 ,,	,,	28 ,,	

TANKERS: Oil Berth – tankers up to 350 ft. length, 25 ft. draft.
MEDICAL: Doctor available, also hospital facilities.
FRESH WATER: Can be obtained through the Port Authority, either from pier, when vessel alongside and/or by barges when vessel at acnhorage.
FUEL: Suppliers need at least 48 hours' notice of bunker requirements. Advisable for Chief Engineers to check what grades are available before ordering.
GANGWAY/DECK WATCHMAN: Compulsory, provided by Port Authority.
OPENING/CLOSING HATCHES: To be done by crew.
CUSTOMS ALLOWANCES: 200 cigarettes for each crew member. Wines and Spirits – 1 litre for each crew member.
IDENTIFICATION CARDS: Identity cards, Passport, Discharge Book or Seaman's Book required.
REPAIRS: Minor repairs are possible.
DRY DOCK: There are no dry-docking facilities.
REPATRIATION: Facilities exist without difficulty.
CONSULS: Following countries are represented – France, Germany, Greece, Italy, Tunisia, United Kingdom, U.S.A., U.A.R., and Syrian Arab Republic.
AIRPORT: Benina Airport situated 29 km. away.
TIME: GMT plus 2 hours.
HOLIDAYS: 22nd February, 23rd July, 28th September, 25th May, 1st September, 21st November. *Id Al Adha* (4 days). *Id Al Fitr* (3 days). Cargo can be worked during holidays on an overtime basis except *Id Al Adha*, 1st September, 28th September and *Id Al Fitr*.
POLICE/AMBULANCE/FIRE: Police 99; Ambulance 2131/2132/2281; Fire 5555/5599.
GENERAL: Radio transmitters will be sealed by Port Authority whilst vessel in harbour. The bond seals must remain unbroken if vessel is proceeding to another Libyan port.
SHORE LEAVE: Shore passes are delivered to vessel in exchange for the Discharge Books and Vaccination Certificates of the crew members.
HEAVY LIFT CRANES: (1) 100 ton pontoon electric crane, restricted to 80 tons. (2) 60 tons pontoon crane, restricted to 25 tons.
PORT REGULATIONS: Ship lifeboats are not to be used within harbour limits. Wine and/or spirits not be taken ahore. No engine repairs to be carried out in port whilst alongside without the prior authority of the Harbour Master.
DELAYS: Vessels usually have to wait 1 to 2 days for a berth.
AUTHORITY: The Port and Lights is a Department of the Ministry of Communications which controls the operations of all Ports of Libya. Tel.: 2983.

AGENT: Gulf Agency Company (Libya) Limited, POB 1544, off Omar Muhtar Street, Sh. Scabbi No. 6, Benghazi, Libya. Cables: "Gacship", Benghazi. Tel.: 2517.

DERNA: 32.45 N. 22.40 E.

DOCUMENTS:
7 Crew Lists.
6 Passenger Lists.
3 Crew Declaration of Bonded Stores.
3 Stores Lists.
3 Currency Lists.
Health Declaration.
Cholera and Smallpox Certificates.
8 Cargo Manifests.
2 Bills of Lading.
Registration Certificate.
Log Book.
Health Certificate.
Radio Certificate.
PILOTAGE: Compulsory.
RESTRICTIONS: Vessels are not permitted to enter harbour between 2100 and 0600 hours.
MAX. SIZE: Max. draft 11 ft.; max. permissible length 370 ft.
HEALTH: Quarantine flag should be hoisted until doctor has been on board and free pratique granted, there is no automatic free pratique for a vessel arriving from another Libyan port.
RADIO: Recommended that radio messages for Agent be sent via Malta Radio or Alexandria Radio.
TUGS: Normally join vessels in the roads.
MEDICAL: Medical and hospital facilities available.

FRESH WATER: Can be obtained from Port Authority when alongside quay.
FUEL: Supplier needs at least 24 hours' notice of bunker requirements. Advisable for Chief Engineer to check what grades are available before ordering.
GANGWAY/DECK WATCHMEN: Compulsory. Provided by Port Authority.
OPENING/CLOSING HATCHES: To be performed by ship's crew.
CUSTOMS ALLOWANCES: 200 cigarettes and one litre wine/spirits per man.
REPAIRS: Minor repairs are possible.
REPATRIATION: Facilities exist via Benghazi.
GENERAL: Radio transmitters will be sealed by port authority while vessel in harbour. Bond seals must remain unbroken if vessel is proceeding to another Libyan port.
SHORE LEAVE: Shore passes are delivered to vessel in exchange for the discharge book and vaccination certificates of crew members.
PORT REGULATIONS: Ship's lifeboats not to be used within harbour limits. Wine and spirits not to be taken ashore. Foreign currency not to be taken ashore. No engine repairs to be carried out in port whilst alongside without prior authority of Harbour Master.
AUTHORITY: Ports and Light Department, Ministry of Communications.
AGENT: See Benghazi.

ES SIDER: 30.38 N. 18.22 E.

DOCUMENTS: The Libyan Federal Police require a list of the crew with a declaration on their personal belongings, a list of tankers stores and a list of passengers. Also 1 copy of the cargo manifest for cargo in transit, and six copies of a cargo manifest whenever discharging is performed.

A certificate attesting the discharging of her total cargo in the port of discharge duly signed and legalised by the customs is requested by the Libyan Authority.

PILOTAGE: 72 hours before the Master expects to arrive at Es Sider to receive a Mooring Master on board, he shall notify the terminal by cable addressed to Oasisoil Pipeline Tripolibya, providing the following information:

(*a*) Name of tanker.
(*b*) Precise estimated time of arrival at Es Sider.

This information is to be repeated 24, 12, and 4 hours before arrival. Coastal landmarks in the area are as follows:

(*a*) The most prominent landmark is a water tower in the terminal area which is painted white and is 180 ft. above sea level. This water tower is located at 30° 38′ 00″ North Latitude and 18° 21′ 01″ East Longitude.
(*b*) A radio antenna tower which is 624 ft. above sea level is located at 30° 35′ 48″ North Latitude and 18° 24′ 12″ East Longitude. At night the tower is lighted with five red lights, vertically arranged. The top light and the fouth from the top flash simultaneously every second. Lights two, three and five are fixed.
(*c*) A radio antenna tower which is 770 ft. above sea level is located at 30° 36′ 30·5″ North Latitude and 18° 17′ 24″ East Longitude. At night the tower is lighted with four red lights, vertically arranged. The top light and the third from the top flash alternately every second. Lights two and four are fixed.
(*d*) Marble Arch is an archway along the coastal highway. It rises approximately 100 ft. above the roadway and its highest elevation is 171 ft. above sea level. Marble Arch is located at 30° 27′ 42″ North Latitude and 18° 24′ 12″ East Longitude.

Vessels to be moored, anchored or manoeuvred at Es Sider will be boarded within the recommended anchorage area. The Mooring Master will advise the Master on approaches to berths, mooring, unmooring, connecting and disconnecting the hoses and in all operations within the anchorage or berthing area.

ANCHORAGE: Recommended anchorages at Es Sider within the seaward perimeter of a circle having a radius of 3,000 ft. centred at 30° 40′ 00″ North Latitude and 18° 24′ 00″ East Longitude. The anchorage area has a sandy bottom with a depth ranging from approximately 70 to 100 ft.

MAX. SIZE:	*Length*	*Beam*	*Draft*
No. 1 Berth	900 ft.	None	52 ft.
No. 2 Berth	900 ft.	None	54 ft.
No. 3 Berth	1100 ft.	None	62 ft.

RADIO: Oasis maintains direct communication with Malta Radio, details of which are shown in publication 205 of the U.S. Hydrographic Office and are included in the Berne Lists. Oasis also maintains a VHF station at Es Sider Terminal.

Cables should be addressed to: Oasisoil Pipeline Tripolibya. Cables addressed in this manner will be received directly by the Oasis communications centre in Tripoli and relayed immediately by voice radio or teletypewriter to the terminal at Es Sider.

If the tanker is equipped with an FM radio-telephone in the 156–162 mc band, communications may be established with the Es Sider terminal dispatcher by calling on Channel 16, 156·8 mc. This frequency is monitored continuously. The range of the terminal station is approximately 100 miles. After initial contact, further conversation should be conducted on either Channel 12, 156·6 mc, or on Channel 14, 156·7 mc.

HEALTH: Tankers shall fly "Q" on arrival by day and display a red light over a white light at night to indicate quarantine conditions.
TUGS: Not required. Oasis maintains launches to assist in berthing tankers. These are under the direct supervision and control of the Mooring Master.

BERTHING: Three open roadstead submarine sea loading berths are available for loading crude oil at flow rates up to 40,000 barrels per hour. These berths are of the seven-buoy type. The berth headings are North and ships should pick up hoses on the port side.

The central spar buoy of the Easternmost loading berth at Es Sider is located at 30° 38′ 58″ North Latitude and 18° 22′ 43″ East Longitude. The middle of the three loading berths at Es Sider is located at 30° 39′ 06″ North Latitude and 18° 22′ 06″ East Longitude. The Westernmost loading berth at Es Sider is located at 30° 39′ 35″ North Latitude and 18° 21′ 53″ East Longitude. All berths are approximately one mile from shore and in approximately 65 ft. of water.

After the tanker is securely berthed, the submarine hose shall be lifted amidships on the port side. The base lift may weigh up to five tons. Hoses shall be lifted and connected by the tanker crew. The Mooring Master shall advise the tanker's officer-in-charge concerning lifting techniques; however, the responsibility for all operations shall remain with the officer.

BALLAST: A tanker shall have sufficient ballast for safe handling. Careful watch of the weather, frequent interchange of information between the tanker and the terminal and the knowledge of the behaviour of his tanker may permit the Master to bring his tanker to the terminal with a minimum of ballast and thereby reduce the possibility of violating sea pollution requirements.

There are no facilities at the port of Es Sider for the discharge of dirty ballast, and vessels arriving with dirty ballast will not be authorised to de-ballast in the vicinity of the port. Any tanker rejected because of dirty ballast or sea pollution will automatically nullify its notice of readiness and thereby relinquish any right to priority of loading position.

MEDICAL: Medical assistance shall be on an emergency basis only.
FRESH WATER: Not available.
FUEL: Not available.
REPATRIATION: No facilities exist for crew change or repatriation.
REPAIRS: When a tanker is in or near the berth, its engines shall remain ready with full power for immediate use. Engine repairs shall not be performed near any berth.
WATCHMEN: Not less than one capable deck officer and three able seamen shall be available on the deck at all times. No person under the influence of alcohol shall be allowed on deck. The Mooring Master's opinion on the sobriety of an individual shall be final.
CUSTOMS ALLOWANCES: Cigarettes, cigars, tobacco,, spirits, wines, beers, perfume, arms, ammunition, saccharine, and certain other items shall be placed under Libyan Customs seal from the time of arrival in port until such time as the tanker has left territorial waters. Each officer and crewman is allowed the following ration for each day the tanker is in port: (*a*) 25 cigarettes per day, or 25 grammes of tobacco or 25 grammes of cigars. (*b*) One litre of beer or one-half litre of wine. (*c*) Special provisions are sometimes made for the Master.
CONSULS: Consulates are located in Tripoli, which is approximately 650 kilometres by road from Es Sider. Some countries having consulates are: Denmark, France, Germany, Greece, India, Italy, Netherlands, Norway, Russia, Spain, Turkey, United Arab Republic, United Kingdom, United States of America, and Yugoslavia.
GENERAL: When a Mooring Master and his assistants (launch crews and possibly apprentice Mooring Masters) are assigned to a tanker, the tanker shall supply them with meals at the same time and in the same manner as comparable personnel of the tanker. No special meals or special foods shall be required. The terminal will keep this item to a basic minimum. The intent is that the furnishing of meals to Oasis personnel be kept to the minimum.
SHORE LEAVE: None of the officers and none of the crew of any tanker shall be permitted shore leave at Es Sider.
AUTHORITY: The Port of Es Sider is the marine terminus of the Sidrah Pipe-line System, which is operated by Oasis Oil Company of Libya, Inc. The terminal and port facilities of the Sidrah Pipe-line System are owned by Ameradapetroleum Corporation of Libya, Continental Oil Company of Libya, Marathon Petroleum Libya, Ltd., Esso Sirte, Inc., Libyan-American Oil Company, and W. R. Grace & Company.
AGENTS: See "Benghazi".

MARSA AL HARIGA: 32.04 N. 24.00 E.

LOCATION: Marsa al Hariga Oil Terminal is located on the South side of the harbour of Tobruk, approximately one mile Eastward of Marsa al Hariga.
OPERATORS: Arabian Gulf Exploration Company.
APPROACHES: Vessels bound for the terminal should approach the harbour of Tobruk from the North-east with the lighthouse on Tobruk Point bearing 238° (true). In daylight this lighthouse should be kept in line with the conspicuous German War Memorial on the South side of the harbour.

When about four miles from Tobruk Point, course should be altered to 224½° (true) to bring the leading lights on Marsa Umm esc-Sciausc in line. This course should be maintained until the vessel is close to the outer buoy, where one of the company's Berthing Masters will board.

Deep-drafted vessels sailing from the terminal should avoid navigating North-westward of the leading line from Marsa Umm esc-Sciausc, owing to the presence of shoal water off Tobruk Point.
DOCUMENTS:
A. Customs' Requirements. On the arrival of a vessel, the Tobruk Customs Authorities will require from the Master of the vessel:

4 copies of a Crew List.
2 copies of a List of Ship's Stores.
2 copies of a Declaration of the Crew's Personal Belongings, including currency, cigarettes, gifts, etc.
4 copies of a Passenger List.

B. Harbour Master's Requirements. On the arrival of a vessel, the Tobruk Harbour Master will require from the Master of the vessel:
1 copy of a Crew List.
1 copy of a Passenger List.
1 copy of the Ship's Manifest.
1 copy of a Port Declaration (form will be made available to each vessel on arrival).

PILOTAGE: Vessels coming to and departing from the Terminal will be berthed and unberthed by Berthing Masters provided by the company, subject to the understanding that in all circumstances the Master shall remain solely responsible on behalf of his Owners for the safety and proper navigation of his vessel.

Berthing Masters will board at the Outer Buoy.

ANCHORAGES: If a berth is not immediately available on a vessel's arrival off the harbour of Tobruk, the vessel will be advised by the company where she is to anchor.

MAX. SIZE: Two berths are located at the end of a T-head jetty which extends some 700 ft. from the shore. There is a minimum depth alongside of 60 ft. and approach to and departure from the berth can be made in not less than this depth of water.

A buoy berth is situated some 1,200 ft. from the shore approximately 1,800 ft. West of the Jetty Berth No. 2. There is a minimum depth in the buoy berth and its approaches of 49 ft.

PRATIQUE: The Libyan Authorities will grant clearance by radio of a vessel coming to the terminal. Radio messages requesting clearance should be sent not earlier than 48 hours prior to vessels arrival off the harbour of Tobruk and should give the details required in the Maritime Declaration of Health which must also be completed.

COURTESY FLAG: On entering the territorial waters of the Libyan Arab Republic which commence six miles off the coast of Libya, vessels should if possible, hoist the Libyan flag, and in any event the Libyan Flag must be hoisted before entering the harbour of Tobruk. Should a vessel arrive without a Libyan Flag on board, one may be obtained from the Company's Berthing Master when he boards at the Outer Bay.

ARRIVAL MESSAGES: In addition to their arrival messages to Agent, vessels must pass an arrival message to the terminal via the company's radio station giving at least 72 hours notice of ETA and advising their estimates of:
(*a*) the quantity of cargo (in long tons) to be loaded at the terminal.
(*b*) The cargo loading rate (in long tons) per hour.
(*c*) The quantity of ballast (in long tons) to be discharged shore at the terminal.
(*d*) The ballast discharge rate (in long tons).

If, subsequent to advice of their ETA there is any material change, a further ETA message must be passed via the company's radio station.

RADIO: Tobruk Radio 5 AL (MF & HF). Position: 32° 02′ N. 24° 00′ E. Frequency: 420, 500 Al, A2, 0–5 kW. 4241, 8480, 16963 A1 0–5 kW.

Note: Station owned by Arabian Gulf Exploration Company. Company telegraphic address: "Injaz Tobruk". All times given are GMT Station keeps watch on 500 kc/s during 24 hours.

TUGS: For berthing and unberthing at the terminal, vessels will be required to use the two diesel tugs which are available at the terminal. Each of these diesel tugs has a bollard pull of approximately 25 tons.

BERTHING: *Jetty:* Vessels will berth on the jetty either side alongside, depending on the prevailing weather conditions, though starboard side alongside is preferred. Each berthing head is "T" shaped and is protected by four breasting dolphins.

All moorings, exdept the backsprings to the outer breasting dolphins at Jetty Berth No. 1, attached to quick release hooks. In addition to the vessel's moorings, the permanent mooring wires provided by the company must, at the berthing master's discretion, be utilised and vessels must be moored to the satisfaction of the company.

Buoy Berthing: Berthing/unberthing in daylight only.

Vessels will berth heading East or West depending on the prevailing weather conditions, though head East is preferred. The moorings consist of four buoys, one buoy being on each bow and one buoy on each quarter.

In addition to the vessel's mooring of two ropes to each buoy, the mooring wires provided by the compny to each buoy must be utilised and vessels moored to the satisfaction of the company.

The company's Berthing Master will remain on board the vessel whilst the vessel is in the buoy, to supervise and co-ordinate the ballast discharging and loading operations.

HOSES: *Jetty:* Ship-shore connections, four flow booms with suspended rubber hoses, diameter of hoses 12 in. Flange size and rating 12 in. ASA 150, Full range of standard adapters available.

Buoy Berth: Ship-shore connections, three flexible hoses, two crude oil loading, one ballast discharging, diameter of hoses 12 in. Max. lift from ship's equipment 5 tons. Flange size and rating 12 in. ASA 150.

PNEUMATIC OIL BARRIER: Although it is emphasised that all precautions must be taken by vessels to avoid any leakage or spillage of oil into the harbour the berths are each protected by a pneumatic oil barrier to contain any oil which may, due to unavoidable circumstances, get into the harbour waters.

A pneumatic oil barrier consists of a pipe-line which is laid on the harbour bed around the berth. Through this pipe-line is pumped compressed air which escapes from the pipe-line via small holes in it. As a result of this escape, the surface of the water above the pipe-line is forced upward to form a "mound" of water which encloses the berth and prevents any spillage from spreading.

While vessels are berthing and unberthing the barrier will be kept in operation and the disturbance on the surface of the water will indicate the position of the pipe-line. To avoid damage to the pipeline, it is essential that vessels do not drop their anchors in this vicinity.

BALLAST: Vessels should make every effort to arrive at the terminal with clean ballast and with the minimum quantity for safe handling under prevailing weather conditions.

All ballast must be discharged into shore tanks provided by the company, unless it is clean ballast, carried in tanks which are completely isolated from the vessel's cargo system. However, the discharge of such ballast into harbour waters must not be commenced until the ballast has been inspected by a company official, and he has certified that it is in order to commence discharge.

Ballast can be accepted into the company's store tanks at rates up to 6,000 tons per hour from the jetty berths and 1,500 tons per hour from the buoy berth. Ballast is discharged ashore over the jetty by way of a loading boom. Ballast is discharged ashore from the buoy berth through a separate 24-in. ballast discharge line connected to a 12-in. flexible hose. Maximum quantity 35,000 tons.

LOADING: Cargo loading at each jetty berth is by means of four 16-in. flow booms to which 12-in. flexible hoses are attached. Cargo loading at the buoy berth is by means of a 34-in. submarine line to which two 12-in. flexible hoses are attached.

This system permits a maximum loading rate of approximately 8,000 tons per hour over each jetty berth, and 4,000 tons per hour through the buoy berth. The actual loading rate for a particular vessel will be determined prior to the commencement of loading by agreement between the Master and the Company.

The following signals will be exhibited by a vessel whilst in the buoy berth to indicate the nature of the operation taking place, and to provide a second channel of communication should VHF contact be broken between ship and shore.

	Day	*Night*
Deballasting	Code Flag N	1 green light
Slow Loading	1 red flag	1 red light
Full loading	2 red flags	2 red lights
Stop	flags lowered	lights out
Require launch	Code Flag L	signal lamp
Fire emergency	Continuous sounding of short blasts on whistle or siren	

These signals will also be repeated ashore from a mast situated on top of the main administration office building, which is situated opposite the buoy berth.

Jetty: Method: gravity loading, maximum head 360 ft. rate regulated to requirements. Loading rates: two lines each 4,000 tons/hour. Two 8,000 tons/hour maximum.

Buoy Berth: Method: gravity loading, max. head 350ft. rate regulated to requirements. Loading rate: 4,000 t.p.h.

SAFETY: A copy of the Regulations will be given to Master when Company's Berthing Master boards at outer buoy. Masters should make themselves thoroughly acquainted with these Regulations, strict observance of which is required by the Company.

In the event of any infringement of the Regulations, operations may be stopped and, if so, will not be recommenced until the Company is satisfied that appropriate action has been taken by the Master to comply with all the Regulations. The Company also reserves the right to unberth a vessel in the event of a continued or blatant disregard of any of the Regulations. Any loss or expense to the Company resulting from an infringement of the Regulations and, in particular, in the event of an infringement leading to an interruption of operations and/or unberthing of a vessel, will be for the account of the Owners.

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS: No shore facilities for carrying out repairs to vessels either at the terminal or at Tobruk.

CONSULS: No Consulates at Tobruk and the nearest locations of Consular officials are as follows:

Benghazi – 445 kilometres from Tobruk: France, Germany, Greece, Italy, Saudi Arabia, Tunisia, United Arab Republic, United Kingdom of Great Britain and Northern Ireland, United States of America, U.S.S.R.

Derna – 175 kilometres from Tobruk: Turkey.

El Berda (Beida) – 260 kilometres from Tobruk: Belgium, United States of America.

CUSTOMS ALLOWANCES: Cigarettes, cigars, tobacco, matches, spirits, wines, beer, perfume, arms, ammunition and saccharine have to be locked up under Customs' seal from time of vessel's arrival in harbour of Tobruk until time of departure.

Whilst in harbour, each member of crew allowed following: 200 cigarettes (the Master will be allowed 400); ½ bottle spirits (the Master will be allowed 1 bottle); 4 bottles of beer or wine per man per day.

No fixed allowances for cigars and tobacco.

Libyan law prohibits vessels from having on board any goods or containers of Israeli origin. Any vessel having such goods or containers on board on arrival in the harbour of Tobruk will be liable to a heavy fine and confiscation of the goods or containers. The Libyan Authorities may, moreover, refuse to clear the vessel.

REGULATIONS:

1. *Ships' Garbage.* Whilst within limits of harbour of Tobruk the throwing overside of ships' garbage is prohibited.

2. *Ships' Radio.* Once vessel berthed at Terminal the use of her radio will not be permitted.

3. *Ships' Boats.* Use of ships' boats not permitted within limits of harbour of Tobruk.

AGENTS: Gulf Agency Co. (Libya) Ltd., POB 34, Tobruk, Libya. Telephone: 2417. Cables: "Gacship", Tobruk, Libya.

Gulf Agency Co. (Libya) Ltd., POB. 1444, Benghazi, Libya. Telephone: 2517. Cables: "Gacship", Benghazi, Libya.

Kindly address all correspondence and cables concerning your vessels' calls at Marsa Al Hariga Terminal to office in Tobruk with copies to office in Benghazi. Ships mail should be sent to the Tobruk office. Spare parts to be air-freighted to Benina Airport, Benghazi, and addressed to the Benghazi office, but marked with the vessel's name and also with "Ship's Spares in Transit".

MARSA EL BREGA: 30.25 N. 19.34 E.

DOCUMENTS: Customs and Immigration officials may not always board the vessel. All relevant documents are supplied by the Mooring Master and on completion of mooring the Master will fill in, sign and stamp the papers. These will be dispatched ashore and clearance granted by the officials on sighting all documents.

A. Port Declaration, Form PC7 (2 copies).
B. Inward Report (title in Arabic), Form CL128 (3 copies).
C. Cargo Manifest Inward, Form CL1 (3 copies).
D. Report Outwards, Form CL4 (3 copies).
E. Crew Manifest Inwards, Form CL31 (2 copies).

Required when ships clear inwards, lists each member of the crew and all goods held (e.g. liquor, cigarettes, cameras, money, etc.) with crew members' signature opposite name or rank. This form is ordinarily supplied in advance so that it may be completed prior to arrival at Brega.

F. Cargo ships also required Ship's Cargo Manifest Form (3) with same information as C.

Ships' forms required by Customs

A. Crew List, ships' form (6 copies).
B. Stores List, ships, form (2 copes).
C. Clearance from Last Port, port's form (1 copy).

Forms required of cargo ships

A. Report of Cargo and Ship's Ullages (original).
B. Tanker Time and Loading Report (original).
C. Certificate of Cargo Discharge (3 copies).

Master signs and stamps one copy at bottom of form. Other two copies are completed by Master at port of discharge, stamped and signed by Customs authorities, and then are mailed to Controller of Customs, Benghazi, Libya.

Information required by Esso Standard Libya Inc. prior arrival

The Owner, Charterer or Agent should airmail or cable following to Esso Standard Libya Inc., PO Box 385 (Field), Tripoli, cable address Essoship Tripoli:

(1) Name and flag of vessel.
(2) Dimensional characteristics, e.g. overall length, beam and maximum draft.
(3) Total tonnage, number and type of products or cargo on board.
(4) Number and size cargo hose connections on either side and distance in feet of each from the bow.
(5) Safe working load of derricks in vicinity those connections.
(6) Number of shackles of chain (90 ft. shots) on each anchor.

Information concerning dimensional characteristics need not be included in letter or cable after first call.

LOCATION: Marsa el Brega is located in the South-Eastern part of the Gulf of Sirte in Lat. 30° 25′ 0″ N., Long. 19° 34′ 3″ E. It is an open bay contained between Ras Magdar and an unnamed headland some 3 miles to the West.

The Brega sea buoy is located in Lat. 30° 27.55′ N., and Long. 19° 35.1′ E. A bow mooring oil loading fixed structure is located in Lat. 30° 26.0′ N., and Long. 19° 33.9′ E., with a fixed red light exhibited at a height 93 ft. above mean sea level. In addition, the structure is lighted by floodlights. Brega is radar controlled with the shore installation scanner in position 30° 25′ 02.5″ N., and 19° 34′ 55.6″ E. The height of the scanner tower is 112.2 ft. The Radio Beacon is located in Lat. 30° 25′ 00″ N., and Long. 19° 34′ 14″ E. The call sign is "M.B." and it operates continuously on a frequency of 403 kc/s.

A single point mooring is located in position Lat. 30° 26′ 45.26 N., and Long. 19° 34′ 01.40″ E. A single flare is located in position 30° 24′ 31.9″ N., and 19° 35′ 49.7″ E. Two other flares are located approximately 700 ft. to the West and South-West. The flares when burning can be seen at extreme distances. Numerous lighted and unlighted navigational and mooring buoys are located within the restricted area shown on BA Chart.

PILOTAGE: The services of a Pilot/Mooring Master are provided without charge. He will normally board the vessel in the vicinity of the Brega buoy and will advise the Master on approaches to the berths, mooring and unmooring, connecting and disconnecting cargo hoses, and all other operations within the berthing area. Vessels are cautioned not to enter the restricted area mentioned above without the services of a Brega Pilot/Mooring Master. Pilot ladder must conform to international safety standards.

PRATIQUE: Quarantine signals must be displayed upon entering Brega port limits in accordance with international practice and shall be continuously displayed until pratique is granted. The Libyan flag must be flown from the foremast when inside territorial limits.

ANCHORAGE: Anchorages located ½ mile East or South-east of Brega buoy in 12 to 18 fathoms. *Vessels should not remain at anchor in bad weather.* Vessels not permitted to anchor within ½ mile of the channels into the bay and inner harbour.

RADIO: Vessels bound Marsa el Brega not required call Tripoli for inward or outward clearance. Radio messages should be sent through Tripoli (via Malta if beyond communication range of Tripoli) and ETAs should be sent at least 48 hours but preferably 72 hours in advance. Master should state whether ETA in GMT or local time.

As cable office closed between midnight and 0800, allowance for delays in receipt of radio messages due to this and other causes should be made when sending ETAs and other urgent traffic.

Ships can communicate direct with Brega via the tug Simpson, call sign PHMV, operating on 500 kHz, range 200 miles. Berthing instructions and information concerning facilities and customs documents is available from tug Simpson.

Esso Standard Libya Marine Terminal equipped with short-range Radio/VHF Telephone Port Control System. The following procedure should be adhered to: Vessels approaching Brega and equipped with VHF should call Port Captain's office on Channels 16 and 12. Channel 16 is reserved for "Calling,", "Safety", "Emergency". When contact made, vessel will be allocated one of the four working channels: Channel 13, Channel 12, Channel,9 Channel 6. Esso Libya's Pilot launch is equipped operate on these channels. Portable radio sets available for vessels not fitted with VHF.

TUGS: Esso Standard Libya Inc. maintains tugs and mooring launches to assist vessels to moor and unmoor.

BERTHING: Tankers calling at Brega to load at the crude sealine berths should be equipped with a minimum of eight 10 in. circ. fibre or synthetic mooring ropes in good condition, not less than 120 fathoms in length. Mooring wires or equivalent strength are acceptable. A fibre or synthetic mooring rope in good condition must be available for towing vessels into berths by tug.

Crude Tanker Sealine Berths Nos. 1 and 4:

Berths 1 and 4 are now out of service. Ground chains and clumps for the mooring buoys, and the loading lines are still in position.

Crude Tanker Sealine Berth No. 2:

The least depth of water in this berth is 44 ft. The 30″ crude line is approx. 8,000 ft. long with two hose strings. Crude oil is loaded by gravity or pumps and rates up to 39,000 bbls. per hour can be obtained. When berthed the tanker is heading 330° true with both anchors out forward, and 6–700 ft. of chain on each anchor. The stern is secured to 5 mooring buoys fitted with quick-release hooks. The submarine hoses are picked up amidships on the port side of the tanker and the vessel's derricks should have a safe working load of 5 tons.

A naptha line with a single 12 in. connection will shortly be laid in this berth, the shore line being 24 in. In the event that a vessel loads naptha, then both crude hoses will be taken on board first before connecting the naptha hose. In good weather, Berth No. 2 can safely accommodate a 65,000 dwt tanker with the following principal dimensions: 65,000 dwt; length, 800 ft.; beam unrestricted, up to 42 ft. draft in good weather. Gravity of sea water about 1030.

Crude Tanker Sea-line Berth No. 3 – bow mooring

The bow mooring is located in approximately 95 ft. of water, and consists of a fixed pylon surmounted by a revolving boom from which hangs a submerged oil-loading pipe arm. The main structure has a diameter of 130 ft. and is 97 ft. above mean sea level at its highest point. The pylon is surrounded by a fender ring which is mounted on vertical steel piles. The revolving boom is 76 ft. in length from the centre of the pylon to the end. The loading arm hangs from a ball joint at the end of the boom and is approximately 560 ft. in length, terminating in a hose handling platform on the outer end. The hose platform is kept at the level of the ship's deck by means of a compressed air ballasting and deballasting system. Four 12 in. hoses hang from the platform. Vessels are normally berthed port side to the platform. Derricks should have a safe working load of 5 tons. A maximum loading rate of 65,000 bbls. per hour may be realised with the loading pump in operation.

Vessels are moored in position using two head ropes to the bollards on the boom and with a 6 in. nylon back spring mooring line to the hose-handling platform. In addition, a 4½ in. nylon snubber line is used to keep the platform alongside the ship. Vessels with the following principal dimensions can be accepted: 100,000 dwt., overall 1,000 ft., beam unrestricted, draft 48–49 ft., bow to manifold not to exceed 434 ft. Larger vessels may be accepted with prior approval.

Crude Tanker Sealine Berth No. 5 – Single Point Mooring:

No. 5 SPM is located in approx. 140 ft. of water and is in position 30° 26′ 47″ N., 19° 34′ 01.4″ E. The mooring consists of a monobuoy to which are attached 2×15 in. synthetic lines. These are shackled to a single 3 in. chain partly around which is a flotation cover. On the end of the chain is a 9 in. polypropolene line.

Mooring is effected by heaving the polyproplene through the bow as near the centre lead as possible until the chain is on board, and then shackling two 12 in. perlon strops to open links in the chain. The strops and shackles will be placed on board with the Pilot and vessels are advised to have the port derrick ready to hoist the gear on board at that time. The vessel is also required to have a good 3½ in. to 4 in. messenger line of at least 75 fathoms in length, ready for use on the fo'c'sle head.

The 48 in. pipe-line is approx. 11,850 ft. long, terminating at the underbuoy structure on the seabed. Crude is loaded through one string of self-floating 24 in. hose with one 16 in. over-the-rail hose to the ship's manifold. Vessel's derricks should have SWL of 10 tons and if necessary be double rigged. The weight of a normal lift for connection to the ship's manifold amounts to less than 5 tons. This is for a hose free of oil, which is usually the case. Vessels with the following principal dimensions can be accepted in this berth: 300,000 dwt. Length beam and draft unrestricted. Flow rate 48,000 bbls/hr.

Berths Nos. 3 and 5:

Vessels entering the restricted area on the approach to, mooring and leaving, these two berths must at all times have their anchors firmly secured. No anchor work may be carried out at any time whilst a vessel is in this area.

Product and Asphalt Tanker Berth

Small tankers delivering refined petroleum products and asphalt to Marsa el Brega will be berthed at the product dock. Products will be discharged through a number of small pipe-lines approximately 2,000 ft. long. 3 in. or 6 in. hoses are provided according to the grades of oil being discharged. Asphalt will be discharged through one 10 in. pipe-line. Vessels assigned to discharge at this berth must be suitably equipped with mooring ropes and have derricks capable of lifting 2 tons.

Vessels cannot be berthed or remain alongside the breakwater except in fine weather. The breakwater is equipped with resilient fendering and ample mooring points. Tankers will be berthed by an Esso Standard Libya Pilot/Mooring Master. Two tugs are available, and a launch will run the mooring lines. In good weather vessel with the following principal dimensions can be accepted: Overall 500 ft., beam unrestricted, draft 26 ft. maximum.

Dry Cargo Dock.

Vessels assigned to discharge dry cargo at Marsa el Brega will be berthed alongside the dry cargo dock by an Esso Standard Libya Pilot/Mooring Master. The minimum depth alongside and in the approach is 30 ft. Two tugs are available. A mooring launch will be available to run mooring lines. The dry cargo dock is fitted with resilient fendering and ample mooring points. During winter it may be necessary to leave the berth during bad weather, and the Master is responsible for requesting the removal of the vessel under his command. He will also be held responsible for any damage sustained by the jetty and/or his vessel. A Pilot/Mooring Master will be standing by at all times.

All mooring ropes should be in good condition and none should have more than one short splice in the useable length. Crew shall keep the moorings tendered and properly lighted day and night.

Ships shall provide their own gangways and the crew shall keep them lighted and tendered, day and night. Ships must be equipped with adequate unloading gear. All cargo will be offloaded with the use of ship's gear. When weather permits, derricks should be topped at sea prior to arrival.

The length of the dry cargo dock is 650 ft. The maximum size ship which can be accommodated is overall 500ft., beam unrestricted, *maximum draft 26 ft.* Slightly deeper drafts may be acceptable depending on weather conditions.

MEDICAL: There are limited medical and no dental facilities at Marsa el Brega. Personnel requiring urgent medical treatment may obtain it, but this will only be undertaken in serious cases. Masters of vessels arriving at Marsa el Brega who require medical treatment should give advance notice of their requirements by radio.

FRESH WATER: No fresh water is available.

FUEL: No bunkers are available.

REPAIRS: No repairs are allowed to ship's engines while vessels are moored in the berths. Ship's engines should be ready for use on short notice in case the vessel has to vacate the berth suddenly because of bad weather. There are no repair facilities for ships available at Brega.

REPATRIATION: Crew members cannot pay off or leave the vessel at Marsa el Brega except in cases of emergency. Even in an emergency, it should be noted that seamen's Books are not valid under the Libyan law. A valid passport is required, and with adequate notice by radio it is possible to obtain an exit visa for a crew member leaving in an emergency.

SHORE LEAVE: Passengers and crew members are not permitted to land for reasons other than emergencies.

AUTHORITY: Esso Standard Libya Inc.

AGENTS: See Benghazi.

RAS LANUF: 30.31 N. 18.35 E.

Sirtica Terminal

DOCUMENTS: Customs will require:

1 Crew List.
1 Crew Declaration of personal belongings (including cigarettes, etc.)
1 Store List.
1 Passenger List.

Crew Lists and Crew Declaration of personal belongings must be on the approved Libyan Government Documents. Vessels are advised on their initial visit to the port to obtain sufficient forms for future visits. Also required are:

6 copies of Cargo Manifest for Ras Lanuf Discharge.
1 copy of Cargo Manifest for transit cargo with a summary.
1 Copy of Passenger Manifest.

Clearance from the last port of call will be required by the Government authorities. The police will require 4 copies of a Crew List and a Passenger Manifest if any passengers on board.

PILOTAGE: It is most important that ships establish communications with the terminal not less than 72 hours prior to arrival, giving estimated time of arrival. Further ETA signals should be sent when the vessel is 24 hours, 12 hours and 4 hours distant or any time a change of one hour in original ETA occurs. These messages should state specifically whether ETA is given in GMT or local time. The 72-hour signal should include the following: ETA, last port of call, if any sickness on board and if vessel has clean bill of health. Cargo quantity and grades expected to be lifted in net long tons at 60°F. The 12-hour signal should include definite indication as to whether the vessel is ready to load or not and should also include information on the time she will require to discharge ballast after arrival. Precise time of arrival should be given when the ship is 4 hours distant from the terminal.

Vessels to be moored, anchored or manoeuvred at Ras Lanuf will be boarded by Mooring Master in the close vicinity of the suggested anchorage area mentioned below. The Mooring Master will advise the Ship's Master on approaches to berths, mooring, unmooring, connecting and disconnecting the hoses and in all operations within the anchorage or mooring area.

Terminal sea buoy, colour red with radar reflector and bell is located in approximately Latitude 30° 32′ 40″ North, Longitude 18° 34′ 38″ East. Vessels in the vicinity of the port should not navigate or anchor inside of a bearing 120°–300° running through this buoy position.

ANCHORAGE: Suggested anchorage area is within a 3,000 ft. radius of position Latitude 30° 33′ 00″ North, Longitude 18° 35′ 40″ East in approximately 90 ft. of water.

MAX. SIZE: Conventional berths: up to 60 ft. draft; up to 130,000 tons dwt.

Single Point Mooring: up to 75 ft. draft, up to 265,000 tons dwt.

HEALTH: By day – fly flag "Q" and by night display red light over white light for Quarantine Service.

Libyan Customs, Federal Police and Immigration Officials will board the vessel as soon as possible after arrival to give inward clearance and "pratique" services. Libyan Government Regulations are strictly enforced. The vessel should have a clean Bill of Health or equivalent document from the last port of call. The vessel's Master and all members of the crew shall possess International Certificates of Health showing valid smallpox Vaccination Certificates.

RADIO: Direct communication by radio between ship and shore is by VHF International Maritime Mobile Radio-telephone Service to Ras Lanuf Oil Movements Control Centre. All communication between ship and terminal should be by way of this station. ETA messages to Mobilpro, Tripoli, Libya, via Malta Radio (call sign VPT). Ras Lanuf Oil Movements Control Centre keeps continuous watch on VHF Radio-telephone Channel 16 (156·80 mc/s), Channel 14 (156·70 mc/s) and Channel 11 (156·55 mc/s). Vessels approaching the port should make contact on Channel 16 when shore will request her to switch to Channel 14. This channel will also be used by terminal Marine Section for internal use and tanker mooring control. Channel 11 is reserved for communications between ships in mooring and Terminal Oil Movements Control Centre and should only be used for general purposes after obtaining clearance from Oil Movements Control on Channel 16. This is a safety measure since oil flow to ships is controlled through Channel 11 and therefore it must be clear at all times in case of need to stop oil flow for any cause. Channel 16 is for calling and safety use only.

TUGS: Not required. The company maintain launches to assist in mooring and unmooring vessels. These are under the direct supervision and control of the Mooring Master.

BERTHING: There are four submarine loading pipe-lines which terminate in the following approximate positions which are each marked by an unlit white spar buoy.

Berth No. 1: Latitude 30° 31′ 35″ North, Longitude 18° 34′ 37″ East, from which a submarine pipe-line runs to shore on a bearing of approximately 224°. Depth of water at spar buoy 70 ft.

Berth No. 2: Latitude 30° 31′ 55″ North, Longitude 18° 33′ 58″ East, from which a submarine pipe-line runs to shore on a bearing approximately 197°. Depth of water at spar buoy 70 ft.

Berth No. 3: Latitude 30° 32′ 18″ North, Longitude 18° 33′ 19″ East, from which a submarine pipe-line runs to shore on a bearing of approximately 198°. Depth of water at spar buoy 73 ft.

Berth No. 4: Lat. 30° 31′ 35″ N. Long. 18° 33′ 00″ E. – a Single Point Mooring buoy in 95 ft. of water.

Raising, lowering, connecting and disconnecting of submarine hoses, as well as all other labours and duties on shipboard, will be performed by the ship's crew under direction of the Mooring Master.

LIFTING HOSES: After the vessel is securely moored the submarine hose will be hoisted on the port side. Berths No. 1 and 2 are each equipped with 2×12 in. loading hoses, the weight of each hose lift being approximately five long tons. Berth No. 3 is equipped with 2×12 in. loading hoses the weight of each hose lift being approximately 5.75 long tons. Therefore, all lifting equipment and tackle should have a safe working load of at least 6 long tons. Hoses are lifted by ship's gear and crew, and all connecting of hoses will be done by them. The lifting derrick, equipment, tackle, etc., should be topped off and ready on arrival.

The SPM is equipped with two 16-in. loading hoses, ending in 12-in. reducers.

MEDICAL: No medical services (except in case of emergency and subject to a doctor being available) or other services are to be expected at Ras Lanuf.

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS: When a ship is in the moorings or vicinity, its engines must remain on standby with full power for immediate use. Deck machinery shall be kept in instant readiness. *Positively no repairs of any sort will be permitted in the moorings.*

CUSTOMS ALLOWANCES: Cigarettes, cigars, tobacco, matches, spirits, wines, beers, perfume, arms, ammunition, saccharin and possibly other items have to be locked up under Customs seal from time of arrival of ship in port until time of leaving territorial waters. Each person is allowed 25 cigarettes per day of stay or 25 grams of tobacco or cigars in lieu. Each man is allowed one litre of beer or half litre of wine per day. Special allowances are made for Master under special circumstances.

CONSULS: The only Consulates are located in Tripoli which is 670 kilometres by road from Ras Lanuf. These consist of U.S.A., British, Danish, Dutch, United Arab Republic, French, German, Greek, Indian, Italian, Norwegian, Spanish, Russian (U.S.S.R.), Turkish, Yugoslavian.
REPATRIATION: Crew members cannot pay off or leave the vessel at Ras Lanuf except in cases of extreme emergency. Even in an emergency it should be noted that Seamen's Books are not valid under the Libyan law. A valid passport is required.
BALLAST: Positively no provision is made for dirty ballast. Any ship arriving with dirty ballast will be rejected and all costs accruing therefrom will be to the ship's account. Notice of readiness shall not be accepted until vessel returns with clean ballast and tanks fit to receive cargo. She will on second arrival tender a new notice of readiness to load.
TIME: Libyan local time is GMT plus 2 hours.
GENERAL: No stores, foodstuffs or goods whatsoever of Israeli origin may be on board any ship calling at Ras Lanuf.

Penalties: Fine, confiscation of goods and possibly more. The Libyan Government strictly enforces this law.

Whilst arriving fly the Libyan Ensign (red side up).

Due to the existence in these waters of the fish commonly called "Weaver" fish, ship's crews are urged to exercise extreme caution in fishing whilst lying off the port area. There have been several cases of poisoning by these fish, all of which were distressingly painful, caused by contact with the fins.

When a Mooring Master and his shore crew, which includes launch crews, are assigned to a ship on business, it is expected that the ship will supply them with meals at the same time and in the same manner as comparable personnel of the ship. No special meals or special foods will be required. The terminal will keep this item to a basic minimum. The ship will also provide shelter and smoking facilities in the same manner as meals. All communications between shore personnel assigned to a ship and ship's personnel should be through the Mooring Master.
SHORE LEAVE: Not allowed.
AUTHORITY: Mobil Oil Libya Limited, Sciara Giama al Magarba, PO Box No. 690, Tripoli, Libya. Telephone: 30081. Cable address: Mobilpro, Tripoli.
AGENTS: Refer to "Tripoli, Libya".

TOBRUK: 32.04 N. 24.00 E.

DOCUMENTS: A. Customs Requirements; on the arrival of a vessel, the Tobruk Customs Authorities will require from the Master of the vessel:
4 Crew Lists.
2 Ship's Stores Lists.
2 Declarations of Crew's Personal Effects, including currency, cigarettes, gifts, etc.
4 Passenger Lists.

B. Harbour Master's Requirements: on the arrival of a vessel, the Tobruk Harbour Master will require from the Master of the vessel:
1 Crew List.
1 Passenger List.
1 Ship's Manifest.
1 Port Declaration (form will be made available to each vessel on arrival).

BERTHING: Berths in Tobruk Harbour:
Quay No. 3: Length 82 ft. draft 11 ft.
Quay No. 4: Berth 1: Length 560 ft. draft 20 ft.
Berth 2: Length 395 ft. draft 28 ft.
Berth 3: Length 410 ft. draft 30 ft.
TANKERS: Refer to "Marsa Al Hariga".
FRESH WATER: Not available.
FUEL: Not available.
REPAIRS: No shore facilities for carrying out repairs.
CONSULS: No consulate at Tobruk and the nearest locations of consular officials are as follows:

Benghazi, 445 kilometres from Tobruk: France, Germany, Greece, Italy, Saudi Arabia, Tunisia, United Arab Republic, United Kingdom, United States of America, U.S.S.R.

Derna, 175 kilometres from Tobruk: Turkey.

El Berda (Beida), 260 kilometres from Tobruk: Belgium, U.S.A.

CUSTOMS ALLOWANCES: Cigarettes, cigars,tobacco,matches, spirits, wines, beer, perfume, arms, amunition and saccharine have to be locked up under Customs Seal from time of vessel's arrival in harbour of Tobruk until time of departure.

Whilst in harbour, each member of crew allowed following: 200 cigarettes (Master allowed 400), ½ bottle spirits (Master allowed 1 bottle), 4 bottles of beer or wine per man per day. No fixed allowance for cigars and tobacco.

Libyan law prohibits vessels from having on board any goods or containers of Israeli origin. Any vessel having such goods or containers on board, on arrival in the harbour of Tobruk, will be liable to heavy fine and confiscation of the goods or containers. The Libyan Authorities may, moreover, refuse to clear the vessel.
AGENT: Gulf Agency Company (Libya) Limited, POB 34, Tobruk, Libya. Tel. 2417. Cables "Gacship" Tobruk Libya.

Gulf Agency Company (Libya) Limited, POB 2444, Benghazi, Libya. Tel. 2157. Cables "Gacship" Benghaz! Libya.

TRIPOLI: 32.54 N. 13.13 E.

PORT LIMITS: The water area existing inside the actual breakwater and that which may fall within any new breakwaters eventually constructed in accordance with the Port Developments Project

The outer water area known as the navigational channel commencing as from the harbour entrance along the distinguishing marks of the channel for a distance of 2 kilometres.
DOCUMENTS:
Crew Lists, 7 copies.
Passenger Lists, 6 copies.
Documents required by Customs: Crew Declaration on Bonded Stores. Stores List. Provisions List. Currency List.
Health Documents required: Health Declaration. Cholera and Smallpox Certificates.
Manifests, 8 copies.
Bill of Lading – only for the Shipping Agent.
Ship's papers – Registration Certificate, Log Book, Health Certificate, Radio Certificate.
PILOTAGE: By cable or VHF or radio, half an hour notice of ETA required. Possible to contact by international radio frequency 500 kc. Harbour Master via (VHF) Channel 16 frequency 500 kc. Pilot boat flies "H" flag. Pilot boat could be requested by three continuous long whistles. Pilot boat will meet ships outside the harbour. Ships waiting Pilot anchor outside the harbour if weather is good. In case of bad weather ships could enter harbour at their own risk and anchor inside. In case Pilot could not board, vessel should contact Harbour Master via radio station for instructions.
RESTRICTIONS: All ships can enter the harbour between sunrise and sunset, otherwise, special arrangements should be made with the Harbour Master after 2300 hrs.
CLEARANCE: Master required radio Agent/Port Authority before arrival advising the loading port, Master's name, vessel's net and gross registered tonnage, vessel's length and draft fore and aft, ETA, quantity and quality of any dangerous cargo on board, number of crew and passengers, and health situation.
HEALTH: Quarantine Flag should be hoisted until the doctor has been onboard. There is no automatic 'free pratique' for a vessel arriving from another port of Libya.
MAX. SIZE: All types of ship of less than 27 ft. draft are safe in port. Tide does not exceed 2 ft.
RADIO: Malta Radio or Tripoli Radio, 5 AI/500 kc/s, 5 AI/476 kc/s, from 1700–1900 hrs. RT – 2182, 2662. All cables channelled through Harbour Master.
TUGS: Tugs are available immediately when the Pilot boards the ship.
BERTHING:
Main Port:
Quays no 6 to 14; depths alongside 22 ft.
Karamanli:
Berth no. 1; max. depth alongside 27 ft. 6 in.
,, no. 2 and 3; ,, ,, ,, 22 ft.
,, no. 4; ,, ,, ,, 15 ft.
Buoy Berth no. 4; depth 27 ft. 6 in.
Other buoys: depth 23 ft.
CARGO HANDLING: No special equipment for handling bulk cargoes beside mobile elevators owned by a private mill company for the discharging of their own wheat consignments.

No special berths equipped for containers or roll-on/roll-off traffic which is handled on the usual available quays.
MEDICAL: All facilities available. Doctors require 12 hours notice.
TANKERS: Berths at Karamanli Mole, 27 ft. draft.
FRESH WATER: Fresh water available. Should be obtained from the Port Authority.

Supplied alongside wharf, also supplied by barge.
FUEL: Suppliers need 24 hours notice of bunker requirements. Advisable for Chief Engineer to check what grades are available. before ordering.
OPENING/CLOSING HATCHES: This is required to be done by crew.
CUSTOMS ALLOWANCES: 200 cigarettes for each crew member. Wines and spirits, 1 litre for each crew member.

Captains are requested to declare on arrival all quantity of alcohol, cigarettes and money in the possession of each crew member by filling in the Crew Declaration Form put forth for that purpose. The Master and his crew are strictly forbidden to offer alcoholic drinks to workers, employees and authorities having any business relation with the vessel.

No extra alcoholic drink is to be kept exceeding the quantity legally restricted to each crew member.

No crew member is allowed to take gifts out of his restricted stuff.
IDENTIFICATION CARDS: Identity cards, Passport, Discharge Book or Seaman's Book required.
REPAIRS: No repairs are possible in Tripoli.
REPATRIATION: Crew changes are possible as a number of major air lines operate to and from Tripoli.
AIRPORT: Tripoli Airport is about 27 km. from the city centre. There is a daily service to Europe.
DEVELOPMENTS: Port extension project released for tender; expected draft increase up to 35 ft. Completion around 1975.
WATCHMEN: Available on request.

TIME: 2 hours ahead of GMT. No alterations.

HOLIDAYS: Revolution Day (1st September of each year); Evacuation Day (31st March of each year); Eid El-Fitr (3 days around January); Eid El-Adha (3 days around March); New Year (Heja) (1 day around April); Prophet's Birthday (1 day around June); Ashoura (½ day around April); Rajab (½ day around October); Shaban (½ day around November).

6th May, Sudan Revolution Day; 6th June, Libyan Evacuation Day (2nd Day); 23rd July, RAU Revolution Day.

POLICE/AMBULANCE/FIRE: Main Port call telephone 31808, 39111. Karamanli Wharf call telephone 30378.

GENERAL: Radio transmitters will be sealed by Port Authority whilst vessel in harbour. The Bond seals must remain unbroken if vessel is proceeding to another Libyan Port.

SHORE LEAVE: Allowed if ship berthed alongside a quay and after clearance from police. Shore passes delivered to vessel, in exchange for the Discharge Books and Vaccination Certificates of the crew members.

PORT REGULATIONS: Ship lifeboats are not to be used within harbour limits.

Wines and /or Spirits are not be taken ashore.

Foreign currency not to be taken on shore.

No engine repairs to be carried out in port whilst alongside without the prior authority of the Harbour Master.

DELAYS: Vessels usually have to wait 1 to 2 days for a berth.

AUTHORITY: Directorate General of Ports, PO Box 648, Tripoli, Libya. Telephone 33100.

AGENTS: Gulf Agency Co. (Libya) Ltd., POB 2252, Tariq Building, 17 Sc. Giama Magharba, Tripoli, Libya. Cables: "Gacship", Tripoli/Libya. Telephones: 415 34, 380 77; after office hours: 354 93, 327 26.

ZUEITINA: 30.51 N. 20.00 E.

LOCATION: The Terminal Light Float, moored in position 30° 56′ 00″ N. 20° 00′ 00″ E., has a red hull with a black and white vertically striped tower; it shows at night a white light flashing every ten seconds. A prominent landmark is the radio mast (height 451·5 ft. above sea level) in position 30° 49′ 57.6″ N. 20° 03′ 05.5″ E.; it displays at night three red lights in a vertical line – the top light flashing, the two lower fixed. The top light is on top of the mast (which is 400 ft. above the base), the middle light is 226 ft. above the base, and the lowest light is 133 ft. above the base. At night flares at the Liquid Petroleum Gas Plant, in position 30° 54.2′ N. 20° 05.4′ E., can be seen from a considerable distance; by day a column of smoke emanating from this position is also conspicuous. Fourteen large oil tanks, painted white, near the foot of the Radio mast, are prominent landmarks.

DOCUMENTS: Soon after vessel's arrival, a Custom's official will board, accompanied by a Company employee, who will act on behalf of the ship and it's Agent, as well as on behalf of the Company, in the execution of essential ship's business. The following documents, signed by the Master and stamped with the ship's official stamp, are required by the Customs official for the Customs and Immigration Departments and for the Port and Lights Authority:

2 Entering and Leaving Territorial Waters Certificates.
2 Report Inwards Certificates.
2 Crew Declarations of Dutiable Goods.
2 Report Outwards.
3 Boycott Certificates.
2 Stores Lists.
4 Crew Lists.
1 Clearance from Last Port of Call.
2 Tanker Characteristics Certificates.

With the exception of the Crew Lists and the Stores Lists and the clearance from the Last Port, the above forms will be provided by the Company's representative.

PILOTAGE: Es Zueitina Terminal is situated on the Libyan coast, in the Gulf of Sirte, 72 miles distant from Benghazi. The terminal sea buoy, painted black and white vertical stripes and at night showing one flash (white) every 10 seconds, is located in position Lat. 30° 55″ 39″ N. Long 19° 58′ 00″ E. A radio tower, in position Lat. 30° 49′ 57·6″ N. Long. 20° 03′ 05·6″ E., the height of which is 451·5 ft. above sea level, is a prominent landmark. It displays at night three red lights in a vertical line, the top light flashing, the lower two fixed.

A Mooring Master will board the vessel ½ to 1 mile W.N.W. of terminal sea buoy and advise Master on all manoeuvres relative to berthing, connecting and disconnecting the hoses.

Vessels of 40,000 tons or over are requested to have a pilot ladder long enough to reach Mooring Master's launch rigged alongside the accommodation ladder, in order that the Mooring Master may transfer to it after 7 or 8 ft. Adequate lighting should be provided and vessels should make a lee.

Vessels of 40,000 tons dwt. and upwards which are not fitted with a mechanical pilot hoist should have a pilot ladder long enough to reach the Mooring Master's launch rigged alongside the accommodation ladder, in such a manner that the Mooring Master can transfer to the accommodation ladder when about 10 ft. from sea level. Ladders must be strong, clean, and in good state of repair and well secured. A good lee should be made, to allow the launch to come alongside and the Mooring Master to board safely.

ANCHORAGE: Vessels awaiting the Mooring Master should heave to in the close vicinity of the terminal sea buoy. If they are obliged, or instructed to anchor, they should do so in the recommended anchorage, which is within the radius of a circle centred in position Lat. 30° 55′ N., Long 20° 01′ E. Under no circumstances should they anchor South of the 30° 54′ 00″ parallel.

RADIO: 72 hours prior to arrival at Es Zueitina, vessels should advise Occidental of their estimated times of arrival by cables sent via Tripoli Radio (Cable address: "Oxyport", "Oxylibya" Tripolilibya). They should also confirm or amend them when they are 48 hours and again when 24 hours distant from the port.

In addition to cabling via Tripoli Radio, vessels may inform "Oxyport Oxylibya" of their ETA by cables. Vessels equipped with VHF radio-telephone should contact "Zueitina Marine" on Channel 16 or 13 when they are within range and request berthing instructions.

PRATIQUE: Pratique will be granted by the Custom's official. He will examine the ship's logbook, and will inspect and seal the bonded stores rooms. Each member of the crew is allowed 25 cigarettes or 25 grammes of tobacco, one litre of beer or half a litre of wine for every day of the vessel's stay in port. Other tobacco and cigarettes, wines, beers and spirits, as well as matches, arms and ammunition and saccharine will be retained under seal whilst the ship is in Libyan waters.

TUGS: No tugs available to assist berthing.

BERTHING: The sea terminal consists of five berths, two of which – "Bravo" and "Delta" – are conventional buoy moorings, and the others – "Alpha" "Charlie" and "Echo" – are "single-point moorings", or "mono-buoys". Conventional buoy moorings "Bravo" and "Delta" are approximately 2½ miles off shore, with an average depth of 70 and 80 ft. respectively. 42 in. (ID) submarine lines connect the berths to the shore installations. Two 12 in. hoses connect the header at the end of the submarine line to the ship's manifold. They are taken up on the port side. The weight to be lifted on each string is approximately 6 tons.

Single-point Moorings "Alpha", "Charlie" and "Echo" are all approximately 3 miles off shore, in an average depth of 100 ft. of water. As in the conventional buoy berths, the hoses are always taken up on the port side, and the connection to the ship's manifold is by a 12 in. ASA flange. The weight of each string to be lifted is approximately 3 tons.

Single-point Moorings. The "Mono-buoy" is a large cylindrical buoy (weight 106 tons), divided by steel bulkheads into four watertight compartments, through the centre of which emerges the loading hose. The perimeter of the buoy, to which the buoy-to-ship moorings are attached, is a turntable which revolves on bogies round the centre – hose-supporting – section, in such a manner that the vessel berthed on the buoy will always lie head to wind. The minimum depth of water within the swinging radius of the largest ship envisaged at the buoy is approximately 95 ft.

The port approach rope, a 600 ft. length of 10 in. plaited polypropylene, is taken up first, and the ship is hove steadily towards the buoy. The starboard approach rope – 330 ft. of 10 in. plaited polypropylene – is also brought aboard when within range, and both lines are hove on until the chafing chains lie across the fairleads.

Loading. Rate of loading is between 32,000 and 50,000 bph.

Conventional Buoy Moorings. In berths "Delta" and "Bravo" the ship is berthed with two anchors ahead and seven mooring lines to buoys round the stern. As the mooring buoys are at distances of from 500 to 650 ft. when the ship is in position, vessels should have ropes of 200 fathoms ready for running out on each side of the after deck to warp ship into position. Where vessels are not so equipped, two ropes (of such length as to have the eye splice inboard when in position) should be married together and flaked out on deck clear of all obstructions and ready for running. Lifting, lowering, connecting and disconnecting hoses will be performed by ship's personnel under the direction of the Mooring Master.

In the conventional buoy moorings, in order that ships may be securely moored against beam winds and the chain sufficient leading ahead to ride out heavy swells, we recommend that they be equipped with ample chain on both bower anchors. Experience gained in sea berths suggests that the chain required should be more than the length of the ship. In vessels of 10,000 tons dwt., for which the berths were designed, we recommend that there should be 14 shackles (1,260 ft.) of chain on each anchor. A minimum acceptable amount of chain is 150 fathoms (10 shackles) for the safety of the ship and the company's installations. Anchor marker buoys should be used.

HOSES: Ship's derricks and deck winches should be capable of operating with a safe working load of 7½ tons and preferably 10 tons. Vessels with inadequate hose-lifting equipment will be rejected. All derricks should be fitted with "preventer-guys" in addition to normal guy tackles. The port derrick must be rigged and ready for use on arrival. In addition ships leaving SPM should have the starboard derrick ready, too, in order to facilitate the discharge of the mooring gear on the lee side.

CARGO: The principal cargo loaded at Es Zueitina Terminal is Occidental Field Blended Crude Oil, average API 40·0 – average loading temperature on board 108°F. Also loaded is Occidental Premium Crude Oil – average API 43·5, average loading temperature on board 108°F.

Care must be taken not to overload, as there is no provision whatsover for cargo to be pumped back ashore.

"Agip" Crude – Specifications and Characteristics:

At 160° Fahr., API Gravity= 44·0; specific gravity = 0·8063. At 150° Fahr., API Gravity = 52·0; specific gravity = 0·7711. Pour

Point = plus 104° Fahr. – could reach 115°. Cloud Point = 158° Fahr. Wax content = 37%.

If the temperature is allowed to fall below 130°F., it is anticipated that the wax will be deposited in the inner surfaces of pipes and tanks. Below 115° it will start to solidify, and below 100° F. it is solid.

LPG MARINE FACILITIES: *Arrival.*

The Mooring Master will board the LPG tanker in the vicinity of the Terminal Light Float. Pratique and Customs formalities will be completed prior to the vessel berthing.

The Mooring Master will leave the vessel when she is safely moored in the berth.

Berth: The LPG berth is S.S.W. of the Small Craft Harbour, inside the Tre Scogli reef. It is designed for vessels of approximately 550 ft. in length with a cargo capacity of 1,500 cubic metres; the maximum loaded draft permissible is 28 ft.

The berth comprises of loading platform and control tower, with a breasting dolphin 125 ft. on each side of the loading point. There are four mooring buoys, one on each bow and one on each quarter; the length between them is 1,090 ft. and the thwartship distance is 315 ft. In addition, there are two mooring dolphins, 190 ft. on each side of the loading point and 135 ft. on the centre line of the berth.

The berth heading is 285° (T).

The loading platform is of structural steel, supported on concrete piles. From a control tower, two continental Emsco Cema type II loading arms are operated, one for liquid petroleum gas and one for vapour return. Connections to the ship's manifold are 12-in. ASA.

The maximum loading rate is 10,000 barrels per hour.

Loading procedure: "Occidental" will advise the ship on the characteristics of the cargo such as temperatures, loading rates, etc. The Master must advise in writing the loading rates that can be accepted.

Inert gas is not provided at Zueitina Terminal. The vessel must provide inert gas for purging previous cargoes other than propane or butane. The ship will not be loaded if the air has not been purged until a maximum oxygen content of 5% has been reached.

MEDICAL: Medical facilities are restricted to treatment of emergency cases only.

FRESH WATER: No fresh water available.

FUEL: No bunkers available.

REPAIRS: There are no engineering repair shops.

REPATRIATION: Only in an emergency can any crew member be paid off. Seamen's discharge books are not recognised in Libya. Crew members are advised to have a valid passport in their possession in case of emergency.

CUSTOMS ALLOWANCES: Each member of the crew is allowed 25 cigarettes, or 25 grammes of tobacco, one litre of beer, or half a litre of wine, for every day of the ship's stay in port. Other tobacco and cigarettes, wines, beers, and spirits, as well as matches, arms and ammunition, and saccharine, must be locked under seal from the time of arrival until the time of departure from territorial waters.

CONSULS: There are consulates in Benghazi for most of the maritime nations. Those nations not represented in Benghazi are represented in Tripoli.

BALLAST: As there are no ballast discharging facilities at Zuetina, vessels must arrive at the terminal with clean ballast ensuring that all pipelines, pumps and strainers have been flushed out prior to arriving and not within 100 miles of the Libyan coast.

GENERAL: Vessels are advised not to have on board any articles whatsoever of Israeli origin. All ships must fly the Libyan flag when inside Libyan territorial waters. Being an open roadstead, vessels must keep engines on stand-by during their stay in the moorings. No repairs to main engine may be undertaken in berth. Steam must be kept on deck in case adjustments to anchor cables or mooring lines are found necessary.

SHORE LEAVE: No shore leave is permitted.

AUTHORITY: Occidental of Libya Inc.

AGENTS: See Benghazi.

Madeira

FUNCHAL: 32.38 N. 16.55 W.

DOCUMENTS:

Maritime Declaration of Health Form.
5 Crew Lists.
12 Lists of Passengers finally landing.
5 Lists of Passengers in transit.
1 List of Stores and Provisions, including Deck and Engine Stores.
1 List of Contents of shops on board.
6 copies of Manifest of Cargo for discharge.
2 copies of each B/Lading of Cargo for discharge.
1 copy of Manifest of Cargo in Transit.
1 List of Passengers finally landing, visaed by Portuguese Consul at original port.

All other entry and clearance documents are arranged by the Agents.

PILOTAGE: Vessels should radio their ETA to Agents who order Pilot. 24 hours notice requested. Pilot launch flies "H" flag during day. Exhibits bright white light over red at night. To request Pilot on approach by day fly international "G" flag, or give 2 long and 1 short blast on whistle. At night flash 2 long 1 short. For vessels berthing alongside Pilot boards in bay; for vessels anchoring Pilot does not board but pilot launch indicates where vessel should anchor. Pilot boat equipped with radio telephone on 2182 and 2341 kHz.

ANCHORAGE: Permitted anchorage within 800/900 metres East from end of breakwater or 300/350 metres South of breakwater within a limit of 400 metres from shore.

RESTRICTIONS: None.

SIZE OF VESSEL: No limit to size of vessels which can anchor, but all anchorage positions should be indicated by pilot launch. For vessels berthing alongside quay maximum permissible length 990 ft. maximum draft 36 ft. Oil carriers discharge at buoys at Praia Formosa 3 miles to West of Funchal. Maximum length of oil tankers that can berth at oil discharge buoys 665 ft. maximum draft 36 ft.

HEALTH: Free Pratique may be arranged by Master sending wireless message addressed "Port Doctor Funchal" – "Request free pratique arriving . . . from . . . sailing to . . . number passengers . . . landing . . . number passengers in transit . . . number of crew . . . all well. Master."

In event suspected disease or fever on board Master should wireless either Port Doctor direct or to ship's Agents, who will inform Port Doctor. The Master will then be instructed what further action he is to take.

When vessel other than of national flag arrives after calling at another port in same country usual procedure applies, i.e. Masters radio for free pratique or pratique granted by Doctor visiting in bay.

RADIO: Madeira Radio Station call sign CUB 500 k/cs. Same station normally used by Agent when communicating with vessel.

TUGS: Normally join vessel outside breakwater. Usually tug lines used, which are charged for each service. 1000 and 1100 HP bollard pull 18 tons.

BERTHING:

Quay No. 1 Length 139 metres, depth 6 metres.
Length 41 metres, depth 7 metres.
Length 19 metres, depth 8·5 metres.
Quay No. 2 Length 425 metres, depth 11 metres.
Quay No. 3 Length 347 metres, depth 11 metres.

STEVEDORES: When ships require labour, Agents must be notified before 4.00 p.m. on working days and on Sundays and holidays before 11.00 a.m. after these hours labour not available for last minute engagement. On Christmas Eve works stops at noon even if ships loading or discharging. No labour available Christmas Day, New Year's Day or Easter Sunday.

MEDICAL: Advance notice is required by Agents for any medical attention required. Hospital facilities available. No inoculations required.

TANKERS: Diameter of connection of discharge lines 8 in. into pipe-lines of 12 in. diameter for black fuel and 10 in. diameter for white fuel. 1 anchorage buoy berth with maximum draft of 36 ft.

DENSITY: Mean surface density 26, 22.

FRESH WATER: Available at anchorage and ex quay.

Four barges available, with total capacity of 580 tons. Delivery hoses ex barge or ex quay are of $2\frac{1}{2}$ in. diameter, and there are nozzles of various sizes. Rate of delivery ex barge – 50 tons per hour per barge. Delivery ex quay, said to be about 60 tons per lead per hour, but this can be slow, according to the number of ships being supplied, and the amount of water in the city storage tanks and may require to be supplemented ex barge in case of big quantities or supplies required within limited time.

FUEL: Fuel oil available from 3,500 seconds Redwood 1 to 200 seconds Redwood 1. Also marine diesel and gas oil. 12 hours (minimum notice) required.

FIRE PRECAUTIONS: At discharging buoys usual non-smoking precautions.

GANGWAY/DECK WATCHMEN: Gangway watchmen recommended.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CUSTOMS ALLOWANCES: Tobacco, Wine and Spirits: Moderate supplies allowed for personal use during ship's stay.

CARGO GEAR: No specific local safety regulations. Vessels discharging must provide strops, slings and nets. Lifts over five tons must be effected by ships gear.

IDENTIFICATION CARDS: Required.

CONSULS:

PILOTAGE: Vessels requiring Pilot must apply by cable to Majunga Harbourmaster's office at least 24 hours before arrival. Pilot embarks at Narcissus buoy.
ANCHORAGES: Indicated to ship's captain by cable from Majunga Harbourmaster's office.
RESTRICTIONS: Ships can enter day and night. Maximum draft allowed 10 metres.
MAX. SIZE: No restriction except for maximum 10 metres draft.
HEALTH: Pratique automatic when vessel comes from a Madagascar port. Pilot is health agent.
RADIO: Radio Majunga.
STEVEDORES: Vessel informs Agent by telegraph 24 hours in advance of number of gangs needed.
MEDICAL: Hospital available.
TANKERS: One berth, maximum draft 10 metres.
FRESH WATER: Unlimited drinking water.
CERTIFICATES: See "Tamatave".
CUSTOMS ALLOWANCES: See "Tamatave".
CONSULS: French and Greek consulates.
REPAIRS: Minor repairs only.
REPATRIATION: All facilities available.
AIRPORT: Served by regular airlines; 7 km. from town.
TIME: GMT plus 3 hours.
HOLIDAYS: Catholic and official holidays. Commercial transactions possible on public holidays.
POLICE/FIRE/AMBULANCE: Police 24–85; Fireman 13; Hospital 29–15.
AUTHORITY: Harbourmaster: PO Box 79, Majunga. Tel. 23–28.
AGENT: See Tamatave.

PILOTAGE: No telegraphic address. Ships advise Agents hour of ETA. Pilots informed by Agents. Pilotboat is launch bearing usual marks of pilot boats, and waits for ships out of harbour entrance, at about one mile on South-pass range. If no pilot boat found outside, wait about three miles off South entrance. South entrance pass usually used, but if some captains choose Eastern pass, pilot-boat will wait one mile outside this pass.
ANCHORAGES: No special anchorage. If no berth available on ship's arrival, Pilots put ships at best anchorage, according to draft and length of ship, between Reef and shore.
RESTRICTIONS: No restrictions. Ships enter and sail day and night at any time. Maximum tide only 3 ft.
MAX. SIZE: For roads, max. length about 200 metres (concerns only passenger ships). For cargo vessels max. length 180 metres; max. draft 31 ft. 2 in. (9·5 metres).
For tankers, max. length 572 ft. (205 metres); max. draft 35 ft. (10·70 metres).
HEALTH: Quarantine message sent to Agents who inform health service. "Q" flag must be hoisted if health satisfactory. Captain presents maritime declaration of health.
RADIO: Tamatave Radio, call sign 5RS. VHF frequency (16) 156·80 – (26) 161·90 – 168·95.
TUGS: One tug of 1,750 h.p. and two tugs of 250 h.p. available to assist berthing.
BERTHING: Three berths for deep-sea ships and two berths for coastal ships. Ships moored at berth in order of arrival and according length and draft. Mooring has to be very strong, due to swell that may sometimes enter harbour when South-east trade winds are strong, or if cyclone in vicinity. Mooring by two chains and special nylon lines furnished by harbour. Swell is so dangerous that ships have to go to anchorage or put to sea until weather improves.
STEVEDORES: ETA to Agents must give hatches, tonnages, and all information about cargo.
MEDICAL: Preferable to inform Agents in advance. All hospital facilities available – smallpox vaccinations.
TANKERS: One refinery imports crude oil and exports fuel and refined oils. Tankers moored using anchors forward, and moorings aft.
Diameter of lines 12 inches. No slop discharge facilities. If tanks are to be washed, slops must be discharged outside harbour.
DENSITY: 1023·5.
FRESH WATER: Delivered by water-boats at rate of about 100 tons/hour.
FUEL: Available alongside. Gas oil and diesel oil at 70 tons per hour. Fuel oil at 110 tons per hour.
Vessels at anchorage may be serviced by fuel barge of 250 tons.
FIRE PRECAUTIONS: One fire-boat stationed near tankers.
GANGWAY/DECK WATCHMEN: Recommended. Very low cost.
OPENING/CLOSING HATCHES: Booms always operated by crew. If hatches are Macgregor type, by crew; otherwise by stevedores.
CERTIFICATES: Safety certificates (three), Derating or Exemption Certificate, Register, Load-line Certificate.
CUSTOMS ALLOWANCES: 200 cigarettes. Wine/Spirits. One opened bottle.
IDENTIFICATION CARDS: Only seaman's papers required.
CONSULS:

France 2721	Dutch 2632
Great Britain 2680	Swedish 2136
Norway 2549	Danish 2615

REPAIRS: Only small repairs possible.
REPATRIATION: Possible, arranged by Agents.
AIRPORT: Served by regular airlines. One flight a day by Air

Madagascar to Tananarive and 4 to 6 flights a week from Tananarive to Africa and Europe.
TIME: Local time GMT plus 3 hours.
HOLIDAYS: 13 holidays per year. Cargo work cannot be arranged on holidays but can be on about every second Sunday.
TELEPHONES: Two connections at two berths used for passenger ships, but may be requested by other ships.
GENERAL: Fourteen cranes of three tons each. One floating crane for maximum 120 tons weight. Small tugs and lighers for ships operating on roads. One port launch and some private launches for crews of ships at anchor.
SHORE LEAVE: Permitted.
DELAYS: Not fixed. When all berths occupied, ships wait at anchorage.
AUTHORITY: Port Autonome de Tamatave, POB 492, Madagascar.
AGENT: SCAC Madagascar, Rue du Capitaine-Shoel, BP 411, Telex: 55610. Tel. 320–48; 320–49; 326–80; 326–81. Cables: "Freight Tamatave".

Malaysia

DUNGUN, Malaya: 04.47.30 N. 103.27 E.

DOCUMENTS:
Register.
Last Port Clearance.
10 copies Crew List.
6 ,, Passenger List (if any).
6 ,, Stowaway List (if any).
2 ,, Stores List (including Firearms and ammunitions).
2 ,, Dutiable Liquor and Tobacco List.
2 ,, Crews Declaration List (cameras, radios, etc.).
2 ,, Cargo Manifests.
PILOTAGE: Extra charge for pilotage outside normal office hours and holidays. Ocean vessels should anchor about 0·8 miles S.E. of Tg. Dungun Lighthouse.
ANCHORAGE: On arrival vessels required anchor about one mile outside berthed ships to obtain pratique. Accommodation ladder must be rigged on lee side to allow Port Authorities to board.
CUSTOMS: Customs Office hours 0830 to 1630 (Thursday afternoons, Fridays and holidays excepted).
IDENTIFICATION CARDS: Every member of crew must produce Identity Document or Shore Leave Pass at Customs House when landing and again when returning to vessel.
SHORE LEAVE: No seaman may proceed more than three miles from Dungun Customs House. The Officer in Charge Customs, as acting Immigration Officer, has authority to limit or prohibit Shore Leave in all cases.

KOTA KINABALU, (Jesselton), Sabah: 06.00 N. 116.05 E.

DOCUMENTS:
1. To be produced on Arrival:

Notes: (*a*) = If vessel arrives from any port outside those declared infected.
(*b*) = These 2 copies (Inward Cargo Manifests) must be certified by the Master as follows: "I hereby certify that to the best of my knowledge and belief this manifest is complete and correct. . . . Master".

2. To be Supplied to Ship before Departure:
1 set Agents Outward Manifests.
2 copies Passenger Lists for Immigration.*
1 copy Passenger Lists for Customs.*
1 set Manifests for Customs.*
* To be supplied by Agent.

If vessel departs to a port outside Sabah, 2 copies outward crew list are also required for Immigration.
PILOTAGE: Pilot normally available between 6 a.m. and 6 p.m. only, Written application must be submitted 12 hrs. in advance.
ANCHORAGES (Also see "Health"):
Special Anchorages and Prohibited Areas
(1) *Prohibited anchorage:* No vessels shall anchor as to swing within 3,000 ft. of the F.R.G. light on the N.N.E. end of the Authority wharf in approximate position Latitude 05° 59′ 51″ N. Longitude 116° 04′ 30″ E. Vessels under 150 ft. in length may anchor within this area, East of a line joining the F.R.G. light and Gueritz shoal light beacon.
(2) *Prohibited Area:* Except with the previous permission in writing of the Authority, no logs or timber shall be allowed to lie afloat within the area – Eastward of a line drawn in a 172° direction from Grieve Reef Beacon.
(3) *Explosives and Dangerous Goods Anchorage:* Vessels having explosives and Dangerous Goods on board shall anchor within a line drawn from a position in Latitude 06° 01′ 21″ N. Longitude 116° 05′ 45″ E. thence in a 360° direction for 6·5 cables thence in a 270° direction for 10 cables thence in a 180° direction for 6·5 cables thence in a 090° direction for 10 cables to the starting point.
(4) *Dangerous Petroleum Anchorage:* A vessel having dangerous petroleum on board shall anchor within a line drawn from a position in Latitude 06° 00′ 42″ N., Longitude 116° 05′ 45″ E. thence in a 270° direction for 10 cables thence in a 360° direction for 6·5 cables thence in a 090° direction for 10 cables thence in a 180° direction for 6·5 cables to the starting-point.
(5) *Quarantine Anchorage:* A vessel which is required to proceed to a quarantine anchorage shall anchor within an area bounded by a radius of 3 cables from a position in Latitude 06° 01′ 34″ N. Longitude 116° 03′ 46″ E.
RESTRICTIONS:
1. Entering. Vessels with dangerous cargo such as benzene are not allowed to stay alongside wharf or to berth after 6 p.m. Vessels arriving from any port within hours of day-light not allowed to berth until they see the signals at the Customs House directing them. This applies equally to vessels arriving on schedule as well as unscheduled vessels and any infringement of these Customs regulations can have very serious consequences.
Master of ship not sailing within 48 hours after port clearance to report to Harbour Master reason for not sailing, and, if so required obtain a fresh port clearance.
2. Shifting. The Authorities must be informed prior to shifting.
3. Immigration. No person may leave ship before clearance has been given by Customs/Immigration officers.
4. Currency. There is no restriction on amount of currency which can be brought into this State but maximum amount allowed to be taken out is £25 stg. Foreign exchange must be conducted through recognised banks.
HEALTH: (Also see "Regulations"). (*a*) Sabah Government are signatories to W.H.O. convention on Quarantine regulations. Port Health Doctor will not board unless vessel comes from infected port. Instead, Maritime Declaration of Health to be filled-out and handed to Boarding Officer of Marine Department who will require one copy of crew list and one copy of passenger list. Vessels should cable Agent prior arrival advising last port of call and whether vessel is healthy. Pratique normally cabled to ship but if unreceived, vessel need not proceed to Quarantine anchorage unless coming from infected port.
(*b*) Vessels arriving from ports outside the State will anchor until boarded by Authorities unless previously instructed by telegram to come alongside.
RADIO: (Also see "Health"). Information required before ship's arrival: Manifest, stowage plan, number of gangs required, amount of water required, pilot requirements. Local radio call sign "Control K.K.".
TUGS: Tug 280 h.p. available to assist vessels berthing and unberthing without a pilot at inner berth. Ship's lines used.
BERTHING: Wharf T-shaped; outer berth 647 ft. long with minimum depth of 25 ft. Inner berth 475 ft. long with minimum depth of 21 ft.; 2 go-downs 28,000 and 30,000 sq. ft. floor area respectively. Sabah Ports Authority operates one 10-ton crane, 12 towing tractors, 18 6,000-lb. forklifts, one 7-ton forklift, 46 trailers of capacity ranging from 3 to 6 tons. Heavy Lifts up to 6 tons received into Sabah Ports Authority trailers, up to 17 tons could be received into railway wagons, beyond 17 tons overside discharge into landing craft. Sabah Ports Authority landing ramp capable of accepting loads of up to 30 tons. Bulk handling limited to petroleum and bitumen into private installation by pipe-line.
STEVEDORES: Stevedores provided SPA; labour supplied for working in ships' holds and on ships' winches (if required). For cargo delivered direct ex-wharf consignee provides labour; cargo for Sabah Ports Authority godown labour provided by Sabah Ports Authority.
Working hours/days: Ships can be worked on all days except for 11 state and national holidays when port closed completely. Working hours 07.30 to 11.30; 13.00 to 17.00; 18.00 to 22.00 hours. Work beyond these hours possible by application. Additional charges payable.
Deliveries 07.30 to 16.30 hours except Sunday.
Loading/discharging rate: General cargo excluding vehicles and liquid cargo 17.60 B/L tons per gang hour. Palletised (unit-load) cargo 27·4 B/L tons per gang hour.
CARGO: (Also see "Berthing").
1. Tally: The Agent can provide tally clerks at ship's expense.
2. Inward cargo: Ship's responsibility ceases as soon as consignees take delivery ex-sling.
3. Transhipment cargo: Transhipment cargo is handled via Port Authority Godown.
4. Outward cargo: All cargo is brought to the ship alongside wharf either by tractors and trailers.
5. Special cargo regulations:
(*a*) *Dangerous cargo.* Vessels carrying explosives as cargo: All vessels arriving at, or remaining within the limits of, any port with explosives on board shall fly the gunpowder flag at the fore mast.
No vessel having explosives on board shall, without the permission in writing of the Harbour Master, come or remain within 500 yards of the shore or of any other vessel:
Provided that such a vessel may, with the written permission of the Harbour Master, come and remain within such limit where:
(i) such explosives are wholly and exclusively of Class V (Ful-

minate) or Class VI (Ammunition) or both such classes in the second schedule; and

(ii) the total quantity of such explosives does not exceed two thousand pounds; and

(iii) such explosives are carried in a properly constructed magazine duly certified as such by a British Board of Trade Surveyor or by an officer fulfilling similar functions appointed by a Government of any British possession or the vessel has a certificate from one of Her Majesty's Inspector of Explosives or from an Officer fulfilling similar functions appointed by the Governments of Singapore, the Federation of Malaysia or Hong Kong and approved by the Governor that all the explosives on board such vessel have been properly stored and the Master of such vessel further certifies in writing that no other dangerous cargo is carried by the vessel; or where:

(iv) such explosives are wholly and exclusively explosives of one or any of Class III (Nitro-compound), Class IV (Chlorate mixture) or Class VII (Firework); and

(v) the total quantity of such explosives does not exceed three thousand pounds.

No such explosive shall be landed, shipped or transhipped between sunset and sunrise without the previous permission in writing of the Harbour Master. Any Master of a vessel offending against the provisions of this section shall be liable to a fine of one thousand dollars.

(*b*) *Livestock*. Pigs or cattle may not be loaded or discharged on any wharf without permission of the Harbour Master.

MEDICAL: Medical Officer of Health: Medical Services Department, tel. 2102. Vaccination and inoculation (incl. Yellow Fever) can be arranged via Agent at any time during working days. In case of death on board, Agent and Harbour Master as well as the Police to be informed.

FRESH WATER: Can be supplied from wharf. Supply rate is 25 tons per hose per hour.

FUEL: Not available.

CONSULS: Consul of Japan.

HOLIDAYS: Working on Sundays/holidays is possible against overtime payment. No work will be done on Chinese New Year's Day, Hari Raya Puasa and Christmas Day.

POLICE: OCPD (Police), tel. 2435.

GENERAL: Ship Chandlers: All kinds of stores and provisions available.

Recreation Facilities. Two cinemas in town which show English films frequently. Three tennis courts available and football matches may be arranged. Sports Club is next to town Padang, about half a mile from wharf and golf and yacht clubs situated on beach at Tanjong Aru, 4 miles from town.

Surveyor: Harrisons & Crosfield (S) Ltd. are Lloyd's Sub-Agents and can arrange a surveyor provided prior warning is given.

Fumigation. No facilities.

SHORE LEAVE: Crew members allowed ashore after inspection by Immigration Officer.

REGULATIONS: (*a*) Arrival and Departure. 1. The owner or Agent of every vessel other than a small ship intending to call at a port shall, as soon as possible, and in any case not later than thirty-six hours prior to the estimated time of arrival of the vessel, give notice in writing to the Authority of such arrival and, if so desired, the requirement for a berth at a wharf.

2. The notice under this regulation shall be in a form prescribed by the Authority and shall contain full particulars regarding the cargo to be discharged and loaded, the embarkation and disembarkation of passengers, heavy lifts, special or perishable cargo, hazardous and dangerous goods (whether to be discharged at the port or not), and any other matters of importance relating to the working or safety of the vessel in the port.

3. The Master of every vessel entering or leaving a port between sunrise and sunset shall cause to be hoisted the national colours and the signal letters, if any, of the vessel. The national colours shall be exhibited from 8.00 a.m. to sunset whilst the vessel remains in port.

4. The master of every vessel arriving from outside the State of Sabah shall exhibit the Immigration and Quarantine signals contained in the First Schedule and shall also at the request of a customs officer hoist the Customs signals. Such signals shall remain exhibited until the appropriate officer has given permission for them to be lowered.

5. No vessel shall approach within six hundred ft. of any other vessel exhibiting the Immigration, Health or Customs signals.

6. No person other than a Pilot may board or disembark from any vessel until the vessel is cleared inwards and the Immigration, Quarantine and Customs signals have been lowered.

7. Every vessel entering a port shall be anchored or efficiently secured to a wharf or buoy before commencing the loading or discharging of cargo and/or the embarkation or disembarkation of passengers.

8. No vessel shall leave any port unless in possession of a valid Port Clearance issued by or on behalf of the Director of Marine.

(*b*) Special signals

Significance	*By Day*	*By Night*
Immigration (for ships not carrying passengers)	International Code Signal "2 5"	Two green lights, six ft. apart, hoisted vertically where best seen.
Immigration (for ships carrying passengers)	International Code Signal "3 4"	Two green lights, six ft. apart, hoisted vertically where best seen.
Quarantine (vessel is Healthy request pratique)	International Code Signal "Q"	Nil
Quarantine (vessel is suspect)	International Code Signal "Q Q"	A red light over a white light and a separate hoist of red light over a green light and hoisted vertically six ft. apart where best seen.
Quarantine (vessel is infected)	International Code Signal "Q L"	
Quarantine (not received pratique)	Nil	A red light over a white light six ft. apart hoisted vertically where best seen.
Request Police Assistance	International Code Signal "S T"	A green over a white light, six ft. apart hoisted vertically where best seen.
Request Medical Assistance	International Code Signal "W"	A red light over a green light, six ft. apart, hoisted vertically where best seen.

(*c*) Priority. First come first served.

AUTHORITY: Sabah Ports Authority, PO Box 1430, Kota Kinabalu. Tel. 55233.

AGENT: Harrisons & Crosfield (Sabah), Limited. Telegraphic address "Crosfield". Tel. Shipping Department 2458; Vessels at wharf 2300–4400.

KUCHING, Sarawak: 01.34 N. 110.21 E.

DOCUMENTS:

Port Clearance to be surrendered to Customs when boarding.

Crew Lists and Passenger Lists, 2 copies for Immigration Department, 2 copies for Kuching Port Authority, 2 copies for Customs, 1 copy for Port Health Officer.

List of Ship's Stores (2 copies for Customs).

List of Ammunition (2 copies for Customs).

Health Documents (Vaccination Certificates and Cholera Inoculation Certificates to be examined by Health Inspector.

Manifests (2 sets for Customs, 3 sets for Kuching port Authority).

PILOTAGE: Pilot can be applied for through Agents or by direct cable Marine Dept. giving at least 24 hours notice of ship's arrival time at Tanjong Po. Telegraphic address, Shipping, Kuching. Location of anchorage for vessel awaiting Pilot at 045°, one mile from Tanjong Po. Pilot boat "Alor" equipped with VHF.

In rough weather it may be necessary for a ship to follow or meet the pilot launch at the junction of Embang and Senari leads. Pilots for the Batang Lupar, Triso or Lingga Anchorages are also normally embarked off Tanjong Po by arrangement.

ANCHORAGES: (*a*) Tanjong Po Anchorage: 045° one mile from Tanjong Po line. Area of safe anchorage is ¼ mile radius. Depth 6 fathoms. (*b*) Sijinkat Anchorage: For vessel up to 550 ft. long with maximum draft 25 ft. (*c*) Pending Anchorage: For vessel up to 350 ft. long with maximum draft 17 ft. See "Developments".

RESTRICTIONS: Tide restriction and maximum draft 17 ft. at high tide. Not advisable to enter port at Tanah Puteh at night.

MAX. SIZE: Maximum permissible length overall for vessel entering port at Tanah Puteh is 435 ft. and maximum draft 17 ft. Maximum overall length for oil carriers proceeding to oil installation at Biawak Wharf, Pending Point, is 435 ft., and maximum draft 22 ft.

RADIO: ETA cable to ship's Agent can be sent to Department of Communications, Kuching. Code words, Kuching Radio.

VHF direct communication with Port Authority, Channel 16, calling and safety, Channel 20 port operations, Channel 26 public correspondence. Pilot boat and Marine Department also equipped with VHF. Range 25 to 30 miles from Kuching port.

TUGS: Two 1000 h.p. tugs will be available end 1973.

BERTHING: Application for berth must be made by Agents at least 24 hours before berthing.

STEVEDORES: Gangs required for working vessel for weekdays must be ordered by Agents before 3.30 p.m. prior to ship's working the following day. Gangs required for working vessel on Sundays or public holidays must be ordered before 10.00 a.m. prior to ship's working on Sundays and public holiday.

MEDICAL: Necessary for Agents to receive advance notice of required medical attention at least 24 hours before arrival. Hospital facilities available. Crew should possess Cholera inoculation and Vaccination Certificates.

TANKERS: Tankers berth at Biawak Wharf, Pending Points, for discharge of their oil. Diameter of pipe line 6 in. Only one tanker can berth at a time and maximum draft is 25 ft.

DENSITY: 1008 oz. per cubic ft.

FRESH WATER: Available and can be supplied to vessel alongside Authority's Wharf by hose about 25 tons per hour.

FUEL: High-speed diesel fuel oil can be supplied to vessel by making arrangement with either Shell or Esso Oil installation at Biawak.

DEVELOPMENTS: Port expansion project at Pending Point, to accommodate vessels up to 25 ft. draft. Facilities include one wharf 800 ft. long, designed for mechanised systems of cargo handling. Due for completion end of 1973.

GANGWAY/DECK WATCHMEN: Not usually available. Ship should provide own watchmen.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CERTIFICATES: Ships should possess all relevant certificates on board in case required for reference.

CUSTOMS ALLOWANCE: Tobacco: 1 oz. tobacco or 25 cigarettes permitted for each crew member daily. Up to three days ration in port. Wines and/or Spirits, ⅛ qt. bottle is permitted for each crew member daily. Up to three days ration in port.

CARGO GEAR: Ship provides own gear especially for handling heavy lifts, vehicles, etc. Rope slings, pallets and safety nets, etc., will be provided by the Authority at Tanah Puteh Wharf.

IDENTIFICATION CARDS: Required.

CONSULS: British, American and Norwegian.

REPAIRS: Minor repairs to vessels only.
DRY DOCKS: Not suitable for sea-going vessels. Coastal vessels up to 220 ft. long.
REPATRIATION: Facilities available.
AIRPORT: Airport about 6½ miles from port at Tanah Puteh. It is served by regular airlines which operate two flights daily except on Tuesday, Thursday and Friday when one flight only.
TIME: Local time eight hours ahead of GMT.
HOLIDAYS: Port work can be arranged on all official holidays on overtime rates except Chinese New Year Day, Hari Raya Puasa Day, International Labour Day, (1st May), Dayak Festival Day (1st June), and Christmas Day, during which port at Tanah Puteh will be closed.
POLICE/AMBULANCE/FIRE: For emergency call, tel. 999 is applicable to all these three services. Individual call: Central Police Station, 21222; General Hospital, 23151; Fire Station, 21033.
TELEPHONES: Telephones can be provided free of charge on board vessel occupying Authority's berths at Tanah Puteh Wharf.
SHORE LEAVE: Crew members are allowed ashore provided permission is granted by Immigration Department.
REGULATIONS: Refer to Sarawak Merchant Shipping Ordinance and Kuching Port Authority's Ordinance and By-laws.
DELAYS: Wating for wharf berths when Port is congested, up to 3 days.
AUTHORITY: Kuching Port Authority, Tanah Puteh, Kuching, Sarawak, East Malaysia. Tel. 22291 (five lines).
Cables: "Kuport Kuching."

KUNAK, Sabah: 04.41 N. 118.15 E.

Sabah Government Requirements

(*a*) Customs will treat port as sufferance wharf as defined in Section 2 of Customs Ordinance (Cap. 33), with control from Lahad Datu. Agent will be required to make application to Customs for sufferance facilities in respect of each vessel, on appropriate form. Officer-in-Charge of Customs, Lahad Datu will arrange to send a supervising officer with ship; this officer will attend vessel's inward and outward Customs clearance. Transport, food and shelter of Customs officer are for vessel's account, though it is envisaged that his transport can be concurrent with boarding and departure of the Pilot, i.e. per Marine Department launch.

(*b*) Immigration requires that vessel shall be cleared inwards and outwards in Lahad Datu. As Marine Department launch will be required to run mooring lines at Kunak, it will not be available to transport Immigration Officer who will *not* accompany vessel. His transport will therefore be a matter for Agent to arrange.

(*c*) Medical will grant pratique by radio by Medical Officer, Lahad Datu: whose right to carry out full inspection is not affected thereby. This will only be exercised, it is anticipated, when vessel has called at an infected port within prescribed period. Radio messages should therefore give this information, e.g. "Malay Maru Hongkong Twentieth Tokyo Thirtieth Manila Second All Well Request Pratique Master".

(*d*) Marine Dept. in the case of a vessel arriving from foreign ports will ultimately place a Pilot on board in Lahad Datu, if requested.

(i) Pilot will receive vessel's arrival report and sight her last port clearance. Pilotage will commence at any such point on route as Master may request, at rates laid down in the Merchant Shipping (Fees) Regulations, 1961. The pilot launch carrying berthing crew will arrive in advance of vessel at Kunak and assist in making fast.

(ii) As there is no accommodation available at Kunak, the Pilot it is hoped, can be accommodated on board ship during her stay.

(iii) Return to Lahad Datu will follow as in sub-para (i) with the Pilot issuing Port Clearance on completion of Immigration formalities.

(iv) Requests for Pilot should be made *at least* 24 hours in advance to Marine Sandakan via Sandakan Radio, 9WHZ1. Initially this service will be offered from Sandakan, and ships proceeding Kunak from there will retain the Pilot on board. Ships from foreign ports will be served by air; charges to their account. There is now a Pilot based at Tawau, who will berth vessels at Kunak.

For information the port limits of Lahad Datu are "a line drawn from Tanjong Melandong on the South-west point of Darvel Peninsula to the most Westerly point of Sakar Island and thence to the mainland, etc." From this it can be seen that large vessels need not enter the narrow waters of the inner bay.

BERTHING: 1. Wharf consists of,

(*a*) A raised cement platform 30 ft. × 30 ft. on wooden piling.
(*b*) Three lazy piles with rubber fendering situated 20 ft. from the front edge of the platform and 125 ft. in each direction from the centre of the platform.
(*c*) Two cement mooring dolphins 20 ft. × 20 ft. situated 350 ft. each side of the platform and 50 ft. from the rear edge of the platform.
(*d*) A metal jetty approach 10 ft. wide × 350 ft. long.
(*e*) A coral bund 24 ft. wide at the base and approximately 16 ft. wide at the top.
(*f*) Mooring Buoy placed 600 ft. off head of jetty.

2. Depth of water alongside: Minimum depth of water outside the lazy piles is in excess of 35 ft. datum.

3. Bulk oil will be pumped from installation along a metal pipe via coral bund and metal jetty. At a point approximately 15 ft. before cement platform the pipe bifurcates and the two terminals are situated two-thirds the way along each side of platform. To these terminals will be attached a flexible steel hose for connection with ships. Hose will be provided by shippers, and is 400 ft. long if required.

4. Pumping capacity. Maximum overall rate of pumping palm oil will be 100 tons per hour. Palm oil pipe is of 6 in. diameter.

AUTHORITY: Port Manager, Tawau.

AGENT: Harrisons & Crosfield (Sabah) Ltd., PO Box 131, Sandakan, Sabah, Malaysia. Telegraphic address "Crosfield Sandakan". Tel. 2141. Code Bentley's Second Phrase.

LABUAN, Sabah: 05.17 N. 115.15 E.

Island of Labuan is 12 miles long and 7 miles wide lying off North-west coast of Borneo at entrance to Brunei Bay. It is part of State of Sabah and is only 4½ miles from mainland and some 77 miles from the State Capital of Kota Kinabalu.

DOCUMENTS:

(*a*) On arrival, when vessel has arrived from ports outside Sabah, Health Officer, Boarding Officer, Customs and Immigration or their representatives will board vessel. Agent cannot board until ship has been cleared.

(*b*) Health Officer will require Maritime Declaration of Health duly completed together with one copy of passenger list and one copy of crew list whenever vessel's last port or call has been outside State of Sabah.

(*c*) Boarding Officer will require one copy of Boarding Report, one copy of passenger list and one copy of crew list. He will also inspect various Certificates such as Load-line, Life Saving Equipment, etc.

(*d*) Following is summary of documents required:

	Customs	*Immi-gration*	*Boarding Officer*	*Agent*	*M.O.*
Passenger List	2	2	1	1	1
Crew List	2	2	1	1	1
Store List	2	—	—	1	—
Maritime Declaration of Health	—	—	—	—	1

(*e*) To be supplied before Departure:
Manifests as necessary.
Captain's copies of Bills of Lading.
Port Clearance.
Customs Clearance.
Certificate of (*a*) Buoys and Lights Dues and (*b*) Port and Harbour Dues.

PILOTAGE: Pilot available if adequate notice given but pilotage not compulsory. Vessels normally berth between 0600 and 1800, unberthing at any hour, day or night, provided that notice of such movements received between 0800 and 1600.

ANCHORAGES: Good anchorage for large vessels in a least depth of five and three-quarters fathoms South and South-east of No. 7 Beacon.

Quarantine. Vessels arriving from an unhealthy port should proceed to quarantine anchorage for pratique. This anchorage is bounded on North by a line drawn 090° from Harbour Shoal Beacon to Eastern Harbour Limit; on South by a line drawn between South-west point of Papan Island and Enoe Beacon; on West by Eastern Boundary Limit of Explosives Anchorage (as under). If vessels arriving from healthy port and healthy themselves, they need not proceed to Quarantine Anchorage.

Explosives. No vessels having explosives on board may come or remain within 500 yards of shore or of any other vessel; such vessels shall fly Gunpowder Flag at foremast, and should anchor in Explosives Anchorage which is within a line drawn from Enoe Beacon to Harbour Shoal Beacon thence in 090° for 6 cables thence in 180 degrees direction until it joins line between South-west point of Papan Island and Enoe Beacon.

Dangerous Petroleum. A vessel having dangerous petroleum on board shall anchor within a line drawn from Harbour Shoal Light beacon in a 360° direction for 2,500 ft., thence in a 090° direction for 3,600 ft., thence in a 180° direction to join Northern boundary limit of Explosives Anchorage.

Prohibited Anchorage. No vessel shall anchor within 1,700 ft. from F.R.G. Light – Liberty Pier.

RESTRICTIONS: Tides. Subject to diurnal inequalities but usually one high water and one low water a day. Average high water is 6·5 ft. and low water 3 ft. above datum of soundings.

Clearance. Port is open from 0600 to 1800 although vessels can be cleared later than 6 p.m. on application provided they are sighted from Papan Lighthouse at 1800.

HEALTH: See "Regulations" and "Anchorages".

RADIO: Information required before ship's arrival. ETA Labuan, with as much prior notice as possible. Number of gangs required. Quantity of fresh water required. Whether Pilot required for berthing.

Labuan has no radio facilities and messages are received via Kota Kinabulu, Miri, Singapore, etc.

Port VHF Service operates on Channels 16 and 12, between 0600 and 2000 hours.

TUGS: No tugs available.

BERTHING: 1. Wharves.

(*a*) Liberty Wharf – A wharf with wooden piles and concrete decking measuring 400 ft. with dolphins 100 ft. off each end,– least depth of water is 26 ft.
(*b*) Victoria or Small Ships' Wharf (marked on Chart as H. & C.'s Wharf). A wooden structure – length 270 ft. with minimum depth of 12 ft. No longer usable except by kumpits. No vehicles allowed on wharf.
(*c*) New Shell Installation Wharf. Concrete jetty 170 ft. long with two

dolphins at each end with a total length between of 700 ft., least depth of water 31 ft.

2. Buoys: No mooring buoys in Labuan.

3. Monsoons. North-east monsoon prevails from December to April and South-west monsoon from middle of May to middle of October. Harbour is well sheltered from both monsoons.

4. Flags and Berthing Signals:

(*a*) When entering port vessel should fly Signal Letters, Mail Flag if applicable, and G flag if requiring Pilot, and also Quarantine Flag.

(*b*) Berthing Signals. Following berthing signals will be used at Labuan and will be displayed from Flagstaff in Harbour Office in vicinity of Liberty Wharf, Victoria Harbour. A red and white chequered flag and International Code numbered pendant will indicate berth number allocated. Berth numbers have been allocated as follows:

(*c*) Berth and Pendant No.

1. Liberty Wharf S.E. section of seaward frontage.
2. " " N.W. " " "
3. " " S.E. " inside frontage.
4. " " N.W. " " "
5. Repair and Slipway Wharf. (Marine jetty.)
6. Victoria Wharf (small ships) S.E. Section.
7. Landing Craft Hard (New Beach) (300 ft. N.W. of Victoria Wharf).
8. Landing Steps Liberty Wharf.
9. Shell Installation Jetty.
0. Anchor.

On receipt of berthing signal, vessel should acknowledge in the usual manner with the answering pendant and proceed to berth.

(*d*) Tidal Signal. A tidal signal consisting of a cone and ball is hoisted in conjunction with berthing signal showing state of tide at berth indicated. A cone point down signifies flood tide (West-going), a cone point up ebb tide (East-going), a ball slack water.

(*e*) Facilities. Maximum single load without special precautions on Liberty Wharf is 25 tons. Any load over this figure will require to be distributed over two or more panels of 10 ft. by 10 ft., each according to weight. However, special arrangements must be made prior to discharge, and Agent should be consulted in advance.

STEVEDORES: Supplied by Contractors as arranged by Agent. Working hours 0800–noon, 1300–1700. Working outside these hours on Sundays and Public holidays is overtime.

CARGO: 1. Inward. Inward cargo is tallied out of ship on to wharf or into lighter. Damaged cargo is surveyed on the spot, otherwise no liability of the vessel is acknowledged. Discharge is carried out after permission has been obtained from Customs after manifest of inward cargo has been deposited. Cargo is delivered to consignees against production of relative Bill of Lading. Ship's responsibility to consignees ceases at ship's side but, in the case of shortlanded cargo, reasonable proof must be given to Customs that the cargo has not been landed. A shortlanded Memo certified by the Chief Officer is usually accepted as proof.

2. Transhipment. After discharge of cargo from the 1st carrier, transhipment cargo is placed under supervision of Customs, unless it is possible to arrange direct transhipment into small coastal vessel. Customs do not accept responsibility for cargo in Customs Bond.

3. Refrigerated. Only small quantities of refrigerator cargo loaded or discharged.

4. Explosives. Explosives must be discharged into lighters under police escort and transported to an approved police store. A licence for their importation must be obtained from the police prior to arrival of cargo, and harbour and police authorities must be informed of arrival of explosives in port either for discharge or as through cargo.

MEDICAL: Hospitals. Not possible for Government Medical Officer to visit ships but patients can be sent to Cottage Hospital. 4 1st class beds, 10 2nd class beds, 46 3rd class beds.

Dentist A Government Dental Clinic, located in town area. In addition, a Chinese dentist is available in town.

TANKERS: See "Berthing".

FRESH WATER: Only available in small quantities (usually 30 tons maximum) and at restricted hours.

FUEL: Bulk furnace oil and high speed diesel usually available but 48 hours notice of requirements must be given.

FIRE PRECAUTIONS: In case of fire, the Harbour Master, OCPD' and Agent should be telephoned immediately. A mobile gas turbine fire pump is available.

CONSULS: None.

REPAIRS: Slipways of up to 500 tons displacement, and Marine Department can undertake minor repairs.

POLICE/AMBULANCE/FIRE: Medical Officer 224; Asst. Commissioner of Customs 201; OCPD 400; Police Station 297; Hospital 222.

GENERAL: *Surveyors.* Harrisons & Crosfield are Lloyd's Sub-Agents in Labuan and may appoint a surveyor as necessary.

Ship Chandlers. Fresh fruits, vegetables and fish available and price list can be obtained from ship chandler through Agent. Cold storage with limited supplies.

Recreation Facilities. If owners pay a monthly subscription to the Labuan Recreation Club, ships crew are automatically members. Football and cricket, etc., can usually be arranged on application to Agent. Two cinemas in town which show American, English, Chinese, Malayan and Indian films.

Good beaches all round island, however, it is strongly recommended that bathers should remain in shallow water. It is not considered safe to bathe from the ship.

Victoria Hotel situated in town. All rooms air-conditioned and have private bathrooms or showers attached. Lodging house accommodation available in town for Chinese crew members.

REGULATIONS: (*a*) Arrival and departure. 1. The Owner or Agent of every vessel other than a small ship intending to call at a port shall, as soon as possible, and in any case not later than thirty-six hours prior to the estimated time of arrival of the vessel, give notice in writing to the Authority of such arrival and, if so desired, the requirement for a berth at a wharf.

2. The notice under this regulation shall be in a form prescribed by the Authority and shall contain full particulars regarding the cargo to be discharged and loaded, the embarkation and disembarkation of passengers, heavy lifts, special or perishable cargo, hazardous and dangerous goods (whether to be discharged at the port or not), and any other matters of importance relating to the working or safety of the vessel in the port.

3. The Master of every vessel entering or leaving a port between sunrise and sunset shall cause to be hoisted the national colours and the signal letters, if any, of the vessel. The national colours shall be exhibited from 8.00 a.m. to sunset whilst the vessel remains in port.

4. The Master of every vessel arriving from outside the State of Sabah shall exhibit the Immigration and Quarantine signals contained in the First Schedule and shall also at the request of a customs officer hoist the Customs signals. Such signals shall remain exhibited until the appropriate officer has given permission for them to be lowered.

5. No vessel shall approach within six hundred ft. of any other vessel exhibiting the Immigration, Health or Customs signals.

6. No person other than a Pilot may board or disembark from any vessel until the vessel is cleared inwards and the Immigration, Quarantine and Customs signals have been lowered.

7. Every vessel entering a port shall be anchored or efficiently secured to a wharf or buoy before commencing the loading or discharging of cargo and/or the embarkation or disembarkation of passengers.

8. No vessels shall leave any port unless in possession of a valid Port Clearance issued by or on behalf of the Director of Marine.

(*b*) Special signals.

Significance	*By Day*	*By Night*
Immigration (for ships not carrying passengers)	International Code Signal "2 5"	Two green lights, six ft. apart, hoisted vertically where best seen.
Immigration (for ships carrying passengers)	International Code Signal "3 4"	Two green lights, six ft. apart, hoisted vertically where best seen.
Quarantine (vessel is Healthy request pratique)	International Code Signal "Q"	Nil
Quarantine (vessel is suspect)	International Code Signal "Q Q"	A red light over a white light and a separate hoist of red light over a green light and hoisted vertically six ft. apart where best seen.
Quarantine (vessel is infected)	International Code Signal "Q L"	
Quarantine (not received pratique)	Nil	A red light over a white light six ft. apart hoisted vertically where best seen.
Request Police Assistance	International Code Signal "S T"	A green over a white light, six ft. apart hoisted vertically where best seen.
Request Medical Assistance	International Code Signal "W"	A red light over a green light, six ft. apart, hoisted vertically where best seen.

AUTHORITY: Harbour Master, Tel. 251;

AGENT: Harrisons & Crosfield (Sabah) Limited, PO Box No. 7, Labuan, Sabah, Malaysia. Telegraphic Address "Crosfield". Tel. 218, 219.

LIMBANG, Sarawak: 04.48 N. 115.05 E.

Limbang is the principal town of the Fifth Division and is situated eight miles above the entrance of the Limbang River. There is an anchorage for ocean-going steamers, five miles below the Limbang bar buoy with a least depth of 26 ft.

Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during day-light hours, for at least twelve hours before the vessel is due to sail, or if the vessel is in port for less than twelve hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the Port Clearance.

(2) The Port Clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any. Whilst under way.

MALACCA, Malaya: 02.15 N. 102.15 E.

DOCUMENTS:

1. *Harbour Master's Office or Marine Department*

(*a*) "Report of Arrival of Vessel" on prescribed Form (Marine 28) obtainable from Harbour Master's Office on arrival.

(*b*) One copy Passenger List, specifying names and nationalities and required to report any casualties, accidents, births or deaths

that have occurred during the voyage to the passengers, crew, ship or cargo.

(*c*) Port Clearance from last port and copy of Manifest of Cargo to be discharged.

(*d*) List of all arms and explosives on board.

(*e*) In the case of a British or Malaysian vessel and vessels belonging to a nation not having a Consular Officer at the port produce to Port Officer the Certificate of Registry and ship's Articles.

(*f*) All ship's certificates such as Safety Equipment Certificate, Radio Certificate, Load-line Certificate, Safety Construction Certificate, Ship's Registry, Passengers' Certificate, Deratting Certificate and all Certificates of Competency of all Officers on board.

(*g*) Crew List.

2. *Immigration Authorities*

(*a*) Crew List (3 copies).

(*b*) Passenger List (3 copies).

(*c*) Produce all passengers passports/visas.

(*d*) Produce all seamens cards.

(*e*) Forms A and B – "Immigrant and Emigrant" obtainable from Immigration Department on arrival.

3. *Port Health*

(*a*) Crew List showing last date of vaccination.

(*b*) Passenger List, showing the last date of vaccination.

(*c*) Produce all seamen and passengers' vaccination cards.

4. *Customs Department*

(*a*) Crew List (2 copies).

(*b*) Passenger List (2 copies).

(*c*) Personnel Effects List (2 copies).

(*d*) Cargo Manifests (2 copies).

(*e*) Last Port Clearance.

(*f*) Bonded Stores List (2 copies).

(*g*) Full and correct statement of dutiable goods carried as ship's stores (2 copies).

(*h*) Customs Form CD 15 obtainable from Customs Department on arrival.

APPROACHES: No difficulty from North or South. No sand bar at river mouth. Harbour open all year round.

PILOTAGE: None.

ANCHORAGES: For ocean-going and costal vessels anchorage between 1–1½ miles off Malacca harbour. Between 3–6 fathoms depth. No specific prohibited anchorage.

TUGS: None.

BERTHING: None. Discharging into lighters at anchorage.

STEVEDORES: Discharging cargo capacity per day – 1,000 tons.

MEDICAL: Modern Government hospital. All surgical and medical facilities available.

FRESH WATER: None.

FUEL: None.

DEVELOPMENTS: Proposed provision of deepwater berths.

CUSTOMS ALLOWANCES: Tobacco, cigarettes 25 in number per man per day, or cigars, 8 in number per man per day, or Tobacco, 1 oz. per man per day, or snuff, 1 oz. per man per day.

Wine and/or Spirit, Spirit, *8* qt. per man per day, or wines, 1 qt. per man per day, or beer or stout, ⅛ qt. per man per day.

REPAIRS/DRY DOCKS: None.

HOLIDAYS: Official holidays in the state as follows: New Year's Day, 1 day; Chinese New Year's Day, 2 days; Muslim New Year's Day, 2 days; Wesak's Day, 1 day; His Majesty's Birthday, 1 day; Prophet Mohammad's Birthday, 1 day; His Excellency Governor's Birthday, 1 day; Malaysia Day, 1 day; Deepavali, 1 day; Hari Raya Huji, 2 days; Christmas Day, 1 day. No cargo is worked on any of the above gazetted public holidays – port closed.

AIRPORT: Batu Berendam, 6 miles from port – commercial airlines daily.

AUTHORITY: Marine Department, Office of the Harbour Master, Malacca and Port Dickson, Melaka, Malaya.

MIRI, Sarawak (incl. Lutong): 04.26.30 N. 113.55.30 E.

Miri Roads is an open roadstead in a shallow bay, bounded at North by Tanjong Baram and at South by Tanjong Lobang.

PORT LIMITS: Outer: within an area to Northward of Lat. 04° 22′ N., Eastward of Long. 113° 55′ 30″ E. and Southward of Lat. 04° 31′ N.

DOCUMENTS: (*a*) *Health*. Vessels exempted from inspection (see "Health") should deliver to Berthing Master on arrival, a Declaration of Health, Last Port Clearance and 2 Crew and Passenger Lists.

(*b*) *Inward Clearance* (also see "Anchorage"). All vessels calling Miri Roads for passengers or cargo must be cleared by Immigration and Customs and, if necessary, by Port Health.

Inward clearance effected only between 6 a.m. and 6 p.m. and following signals must be shown: if passengers carried, flags "3" and "4"; if no passengers carried, flags "2" and "5"; if free pratique requested, flag "Q".

Following papers will be required on arrival for inward clearance:

Port Health:

Declaration of Health.

1 Crew List.

1 Passenger List, inward and through.

Customs Boarding Officer:

as above, if not boarded by Health Officer, and 2 Inward Cargo Manifests.

(*c*) *Outward Clearance*. For vessels that have called to lift bunkers only at Lutong Moorings, clearance will be issued by Berthing Master.

Other vessels will be issued a Port Clearance by Customs Officer on board who will require: 1 Outward Manifest and, if any embarked, 1 Outward passenger list.

APPROACHES: The loom of gas flares on Seria Oilfields thirty miles North-eastward of Miri are a general guide at night but should not be used as a bearing because flares movable within area of oilfield and liable to be extinguished at any time. Following bearings exist. By night, three lighthouses:

(*a*) *Tanjong Baram* 04° 35′ 47″ N. 113° 58′ 25″ E. white single light 680,000 candle power, visibility 17 miles, elevation 120 ft. in grey steel lattice tower, group flash three every twenty seconds.

(*b*) *Lutong* 04° 28′ 30″ N. 113° 59′ 46″ E. white single light, 13,500 candle power, visibility 10 miles, elevation 80 ft. in grey steel lattice tower, group flash two every ten seconds.

(*c*) *Tanjong Lobang* 04° 21′ 48″ N. 113° 57′ 36″ E. white single light 20,150 candle power, visibility 18 miles, elevation 155 ft. in grey steel lattice tower, 60 ft., flash one every ten seconds.

By day, above lighthouses difficult to distinguish and following may be used for day-time bearings:

(*a*) Lutong radio mast FR 210 ft., position 04° 26′ 25″ N. 113° 59′ 54″ E.

(*b*) Tanjong Lobang radio masts as marked on chart.

PILOTAGE: No official Pilot stationed at Miri but Shell Company provide Berthing Masters to moor vessels at their Lutong Moorings (see "Tankers").

ANCHORAGE: For cargo, passengers or clearance. It is recommended that vessels anchor close inshore directly opposite Miri River Mouth, but caution must be exercised as sudden squalls and swell up to 4 ft. can occur, for which allowance should be made.

Cargo usually worked into or from wooden lighters of 30 to 35 tons capacity. Swell often restricts work to landward side only and swell or wind often make it difficult to work Hatch No 1 in some vessels. Accommodation ladder should be lowered on landward side to enable shore personnel to board.

Prohibited Anchorage and Berthing Area. From (*a*) 4° 30′ 54″ N.; 113° 56′ 19″ E. in a 090° direction to the shore; and from (*a*) to (*b*) in 4° 27′ 30″ N.; 113° 47′ 01″ E., thence in a 090° direction to the shore.

HEALTH: Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

Free pratique granted without health inspection to vessels calling to lift bunkers only at Lutong Moorings, provided ship healthy. Vessels with unclean bill of health or vessels which have not declared themselves healthy in their arrival notice telegram are subject to normal Port Health inspection procedure. Therefore of utmost importance that arrival notice is sent not less than 24 hours before arrival and contains all information requested (see "Radio") in order to prevent unnecessary delay.

RADIO: Miri Radio call sign 9 WW21, frequency 500 kc/s., operates at following hours local time: 0900–0930, 1300–1330, 1700–1730, 2100–2130. Present station has a limited range and if difficulty is experienced making contact, vessels should pass messages through other stations, such as Singapore radio, or through other ships in close vicinity of Miri.

Arrival notice must be telegraphed at least 24 hours before arrival and should contain following information:

All vessels

(*a*) expected time of arrival (local time GMT plus 8 hours);

(*b*) name of last port of call and next port of call, if not previously advised;

(*c*) whether or not ship is healthy.

For bunkers

(*d*) quantity of bunkers required, in long tons at least 48 hours notice is required;

(*e*) provisions or medical attention required, if any.

For cargo

(*f*) tonnage to discharge, if any;

(*g*) number of gangs required to load;

(*h*) number of winchmen required to load.

Passengers

(*i*) number of passengers to disembark.

BERTHING: Cargo vessels – see "Anchorage", oil carriers – see "Tankers".

MEDICAL: Treatment of urgent cases available on shore subject weather conditions. Early notice should be telegraphed of medical requirements.

TANKERS: Lutong Terminal position 04° 30′ N. 113° 57′ E. (approx.). Open sea berths lying about 3 miles offshore just Northward of Lutong River mouth. Berthing any hour day or night. Await Berthing Master in area bounded by lines joining following positions: 04° 25′ N. 113° 56¼′ E.; 04° 25′ N. 113° 55′ E.; 04° 26¼′ N. 113° 55′ E.; 04° 26¼′ N. 113° 56¼′ E.

Pilot ladder should be rigged for Berthing Master, and starboard derrick near fuelling connection should be topped-up and rigged to lift heavy equipment required for mooring and connecting pipe-lines and which has to be taken on board before proceeding to mooring berth.

Moorings are in a prohibited area which must not be entered without a Berthing Master of Sarawak Shell Oilfields Limited on board.

Berth	*Max. length*	*Max. draft*
SBM 1	600 ft.	40 ft.
SBM 2	750 ft.	40 ft.
SBM 4	820 ft.	44 ft.

No slop discharge facilities.

FRESH WATER: No fresh or boiler water available.

FUEL: No ex-barge facilities but bunkers obtainable from Lutong Terminal.

Nos. 1, 2 and 4 Sealines. Available for bunkering dry-cargo vessels.

Ship's spring wire will be used to haul ends of mooring wires on board and mooring winches should be double gear and in all respects ready for use. Both ship's anchors will be used. All other gear for mooring and connecting pipes is brought on board with Berthing Master at Pilot Station. Bunkers will be supplied through 8-in. flexible hose brought up on starboard side amidships and appropriate flange on ship's connection should be removed in advance. Berthing Master will remain on board throughout bunkering operation and will leave after vessel has unberthed. Mooring and unmoring operations each require about 1½ hours and bunkering rate usually 45–75 tons per hour.

CUSTOMS ALLOWANCES: Bonded Store on vessels other than those berthing at Lutong Moorings for bunkers only and exempted from formal clearance, sealed by Customs after allowing a daily ration for duration of stay in port.

One Customs Officer will remain on board all vessels anchored in Miri Roads and accommodation, if necessary, should be arranged for them. The Agents' staff will remain on board throughout all cargo operations and it would be highly appreciated if meals could be supplied to them and to the Customs Officer in view of the long time occupied travelling by launch between ship and shore.

AIRPORT: Distant 10 miles. Daily flights.

TIME: GMT plus 8 hours. Permanent.

SHORE LEAVE: It is regretted that both passengers and crew must be dissuaded from coming ashore other than for medical attention, owing to weather and tidal restrictions.

REPAIRS: No facilities for repairs.

LUBRICANTS: Generally, lubricants not available but in emergency certain grades sometimes obtainable in very limited quantities.

PROVISIONS: Limited fresh provisions and ex-bond stores available for which vessels should give 72 hours notice of requirements so that arrangements can be made to secure the required supplies.

REGULATIONS: The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during day-light hours, for at least twelve hours before the vessel is due to sail, or if the vessel is in port for less than twelve hours, for the period of her stay in the port.

(i) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the port clearance.

(2) The Port Clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any whilst under way.

POLICE/AMBULANCE/FIRE: Tel. 999.

AUTHORITY: Marine Officer, Marine Dept., Miri.

AGENT: Lloyd's sub-agents in Miri. The Borneo Company (M) Sdn. Bhd. Postal address PO Box No. 60, Miri, Sarawak. Tel. office: 3365, 3366, 3367; out of office hours: 3261, 3344. Telegraphic address "Borneo Miri".

The Borneo Co. (M) Sdn. Bhd. operate their own launches and a representative will board vessels as soon as possible after arrival.

PENANG, Malaya: 05.25 N. 100.21 E.

DOCUMENTS:

The report of arrival (provided in Marine Shipping Ordinance, 1952).
A copy of Passenger Statistics on prescribed forms.
A List of Crew Members.
A List of Passengers.
Evidence of last port clearance.
All Ship's Documents (safety equipment, deratisation, radio, load line and register).

For oil tankers, a copy of Ship's Manifest to be submitted. Ship carrying explosives, Captain required to fill prescribed form "D" stating quantity of explosive cargo ship is carrying together with copy of Ship's Manifest.

PILOTAGE: Vessel approaching port has to send telegram to Pilot Office direct (cable address "Pilots Penang") or to ship's Agent stating "ETA North Channel Light Float" or in case of South Channel "ETA Pulau Rimau". Draft of vessel to be given. Pilot Office may be contacted through Penang Telephone Exchange on VHF Channel 16 to local telephone No. 63313. At least six hours' advance notice should be given before arrival at Pilot point.

Pilot boats have a blue hull varnished upperworks with "Pilot" written in bold letters on both sides of boat.

Pilot is usually taken on board, for North Channel, in vicinity of North Channel Light Float and for South Channel, in vicinity of Rimau Wreck Buoy one mile South of Pulau Rimau Lighthouse.

Vessels awaiting tide can anchor, in case of North Channel, in area shown by picked lines marked anchorage area in Chart No. 1366. For South Channel ship can anchor in vicinity of Rimau Wreck Buoy. During bad weather, provided draft suitable, vessels sometimes requested enter and take on Pilot at Erskine Buoy.

ANCHORAGES: The anchorage for foreign going steamers (other than those carrying dangerous cargo or quarantine ships) is Southward of the South Western corner of the Man of War Anchorage (shown on Admiralty chart by peckel lines) and eastward of a line drawn from this pcint to the Northern white mark buoy and thence 180°. Vessels must moor so as to swing clear of these lines at all states of tide.

The anchorage for coasting power vessels is Southward of a line drawn 270° from the Northern white mark buoy and Westward of a line drawn 180° from this buoy. Vessels must swing clear of these lines at all states of the tide.

RESTRICTIONS: No entry restrictions imposed other than those dictated by state of tide and draft of vessel.

MAX. SIZE: No limitations of size of vessel except for draft. North Channel chart datum 26 ft. South Channel chart datum 22 ft. Vessels of up to 32 ft. can use port but must wait for high water.

RADIO: Penang Radio, call sign 9–MG.

TUGS: May be required to berth vessel at Butterworth Wharves in Port Penang. Tug joins vessel when at close proximity to wharves. Usual for tug's lines to be used.

BERTHING: There are two wharves, viz. Swettenham Pier on the island of Penang and Butterworth Wharves on the Mainland.

Swettenham Pier: Two ocean berths of 1,200 ft. length with 32 ft. of water alongside. There is 168 sq. ft. of covered storage accommodation.

Butterworth Wharves: Five ocean berths of 2,928 ft. length with 32 ft. of water alongside. There are five transit sheds of 148,000 sq. ft., 5 storage godowns of 171,000 sq. ft. and a timber shed of 60,000 sq. ft. and 140,000 sq. ft. of open storage area. Seven godowns of 303,000 sq. ft. near the port area are leased to private companies.

SPECIALISED CARGO-HANDLING FACILITIES: No special berths for handling bulk cargo. Two of the berths at Butterworth Wharves are designed to handle containerised cargo when such facilities are required. At Swettenham Pier and Butterworth Wharves there are vegetable oil bulking installations. Pipe-lines are connected from the installations to the wharves.

STEVEDORES: Stevedores can be provided by stevedore contractors at short notices but normally a minimum of 12 hours will be required. Shipping Agents normally make these arrangements with stevedoring contractors.

MEDICAL: Advance notice is necessary if medical attention is required so that arrangements can be made with Medical Department by Agents.

TANKERS: Two tanker berths. Esso Wharf, 28 ft. at low water. Caltex Wharf, 35 ft. at low water. Mud bar approach to Caltex Wharf is 29 ft. at low water. Tankers also occasionally call at Swettenham Pier to deliver oil to City Council Power Station.

FRESH WATER: Available at all times. Delivery can be by means of hydrants at berths or by water-boats to vessels anchored in Roads. Rate of delivery is approximately 40 tons per hour.

FUEL: Fuel available from private oil companies at 24 hours notice.

GANGWAY/DECK WATCHMEN: Services of a watchman recommended.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

IDENTIFICATION CARDS: Needed only when a crew member is discharged after hospitalisation or when he is repatriated.

REPAIRS: Minor repairs can be undertaken.

DRY DOCKS: Dry docks not available for ocean carriers. Slipways available for vessels of 700 tons NRT with dimensions of 190 ft. × 40 ft.

REPATRIATION: Facilities exist for effecting crew changes and arranging necessary repatriation.

AIRPORT: Distance from port to airport approximately 11 miles. Served by both international and local airlines.

TIME: 7½ hrs. ahead of GMT. No alteration to clocks during year.

HOLIDAYS: Three port holidays a year: Hari Raya Puasa, Hari Raya Haji and National Day.

POLICE/AMBULANCE/FIRE: Dial 999.

TELEPHONES: A telephone is placed on every ship that berths alongside. This is one of services provided under a common charge known as the wharf service charge.

SERVICES: All types of minor marine servicing is available. Provided by private firms. Some of the services are draft survey, general conditioning of ship, valuation of ship, accident survey, inspection of refrigeration, radar adjusting service, compass adjusting and tank-cleaning facilities.

SHORE LEAVE: Allowed.

REGULATIONS: Free port, and as such, when a vessel calls at port, Customs search party may go on board vessel to search for contraband goods.

DELAYS: Rain is only factor that may delay a ship's discharging or loading operations.

AUTHORITY: The Penang Port Commission, PO Box 143, Penang, Malaysia. Tel. 63571. Telegraphic Address, "Wharves, Penang".

PORT DICKSON, Malaya: 02.31 N. 101.47 E.

DOCUMENTS:

1. *Harbour Master's Office or Marine Department*

(*a*) "Report of Arrival of Vessel" on prescribed Form (Marine 28) obtainable from Harbour Master's Office on arrival.

(*b*) One copy, Passenger List, specifying names and nationalities and required to report any casualties, accidents, births or deaths that have occurred during the voyage to the passengers, crew, ship or cargo.

(*c*) Port Clearance from last port and copy of Manifest of Cargo to be discharged.

(*d*) List of all arms and explosives on board.
(*e*) In the case of a British or Malaysian vessel and vessels belonging to a nation not having a Consular Officer at the port, produce to Port Officer the Certificate of Registry and ship's Articles.
(*f*) All ship's certificates such as Safety Equipment Certificate, Radio Certificate, Load-line Certificate, Safety Construction Certificate, Ship's Registry, Passengers' Certificate, Deratting Certificate and all Certificates of Competency of all Officers on board.
(*g*) Crew List.
2. *Immigration Authorities*
(*a*) Crew List (3 copies).
(*b*) Passenger List (3 copies).
(*c*) Produce all passengers passports/visas.
(*d*) Produce all seamens' cards.
(*e*) Forms A and B – "Immigrant and Emigrant" obtainable from Immigration Department on arrival.
3. *Port Health*
(*a*) Crew List showing last date of vaccination.
(*b*) Passenger List showing the last date of vaccination.
(*c*) Produce all seamen and passengers' vaccination cards.
4. *Customs Department*
(*a*) Crew List (2 copies).
(*b*) Passenger List (2 copies).
(*c*) Personnel Effects List (2 copies).
(*d*) Cargo Manifests (2 copies).
(*e*) Last Port Clearance.
(*f*) Bonded Stores List (2 copies).
(*g*) Full and correct statement of dutiable goods carried as ship's stores (2 copies).
(*h*) Customs Form C.D.15 obtainable from Customs Department on arrival.

APPROACHES: Deep water approach channel from North-west, marked by four light buoys, presents no difficulties and is clear.

Leading lights also exhibited which when in line bearing 070°, lead up to harbour over a sand ridge in depths of about 3½ fathoms.

PILOTAGE: The Port Dickson area does not constitute a Compulsory Pilotage District under provisions of Merchant Shipping Ordinance, 1952. Private pilotage services are, however, operated by Shell and Esso for vessels making use of their respective marine installations. Mooring Master boards tankers at Banbeck Shoal Buoy.

ANCHORAGES: (*a*) Good anchorage may be obtained in depths from 15 to 20 fathoms, Westward and South-westward of Tanjong Kamunin. Small vessels may obtain anchorage in depths from 4 to 5 fathoms North-eastward of Pulau Arang Arang, but holding ground is poor.

(*b*) Quarantine Anchorage is Westward of 10 fathoms line with leading light beacons of Port Dickson in line, bearing 070°, and within 15 cables of front leading light beacon situated on Railway Jetty.

(*c*) Prohibited Anchorage Area indicated by pecked lines on chart and described under Port (Negeri Sembilan) (Amendment) Rules, 1963. This area contains a tanker mooring buoy, with extensive ground tackle and floating hose attachments, which is connected to the shore by a submarine pipe-line. Passage between the buoy and the shore is also prohibited.

TUGS: No tug-boats available.

MAX. SIZE: Up to 47 ft. draft at S.B.M. terminal.

BERTHING: Port installations at Port Dickson comprise the following:

A small boat harbour contained in the curve of the stone approach to the Railway Jetty which affords little shelter against Southerly winds and dries out at low water.

The Shell Jetty – property of the Shell Refining Co. (Malaysia) Ltd. (Private.) Reinforced concrete jetty 700 ft. with "T" head 170 ft.×36 ft.

The Esso Jetty – property of the Esso Standard Malaya Ltd. (Private). Reinforced concrete island jetty 200 ft.×24 ft.

The Railway Jetty – property of the Malayan Railway Administration. Stone pier 600 ft. length terminating in a crosshead 150 ft. long with steel piling and wooden deck.

The Joint Shell/Esso single-buoy Tanker Mooring and Crude Oil Discharging Terminal.

Stone ramp on foreshore usable by lighters at high water.

MEDICAL: District hospital with 150 beds.

TANKERS: Shell/Esso Single Buoy Mooring for crude discharge into submarine pipe-line. Refineries produce petroleum products for export. Deballasting facilities up to 35,000 barrels capacity.

FRESH WATER: Available at Shell and Railway jetties.

FUEL: Bunker fuel-oil available. No diesel.

DEVELOPMENTS: Proposal to enlarge facilities and to provide deep-water berths.

CUSTOMS ALLOWANCES: Tobacco, cigarettes 25 in number per man per day, or cigars 8 in number per man per day, or tobacco 1 oz. per man per day, or snuff 1 oz. per man per day. Wine and/or spirits, spirit ⅛ qt. per man per day, or wines 1 qt. per man per day, or beer or stout 1 qt. per man per day.

REPAIRS/DRY DOCKS: None.

HOLIDAYS: Official holidays in the state as follows: New Year's Day, 1 day; Chinese New Year's Day, 2 days; Muslim New Year's Day, 2 days; Wesak's Day, 1 day; His Majesty's Birthday, 1 day; Prophet Mohammad's Birthday, 1 day; His Excellency Governor's Birthday, 1 day; Malaysia Day, 1 day; Deepavali, 1 day; Hari Raya Huji, 2 days; Christmas Day, 1 day. No cargo is worked on any of the above gazetted public holidays – port closed.

AIRPORT: None.

AUTHORITY: See "Malacca".

PORT KELANG, formerly Port Swettenham, Malaya: 03.00 N. 101.24 E.

PORT LIMITS: All the waters in the Klang Straits, Klang River, Sungei Aur, Selat Lumut, Sungei Langat and other waterways contained within the parallels 2° 58′ N. and 3° 05′ N. and the meridians 101° 20′ E. and that passing through Connaught Bridge i.e. 101° 28′ 30″ E. approximately including all piers, jetties, landing places, wharves, quays, docks and other similar works whether within or without the line of high water mark, any position on the shore or bank within 50 yards of high water mark subject to any rights of private property therein.

APPROACHES: Ships from and to Penang enter and leave the port by the North Klang Straits; and ships from and to Singapore enter and leave by the South Klang Straits. The entrance channel at the North Klang Straits has a natural depth of 32 ft. below datum. A very large deep water anchorage for ships is available at the North Klang Straits. For ships entering the Old Port, the permissible draft is 26 ft. and 22 ft. plus the height of tide through the North Klang Straits and South Klang Straits respectively.

DOCUMENTS: (*a*) *For Agent.* Vessels required to fill in arrival report which may be obtained from Agent at Singapore or Penang or Boarding Agent on arrival. This should be completed and handed to Boarding Agent together with last Port Clearance and one copy each of Crew List and Passenger Lists for submission to Marine Department.

Vessels should have ready and hand to Boarding Agent on arrival the following:
Arrival Report.
Last Port Clearance.
Two copies of Crew List.
Two copies each of Disembarking and Transit Passenger Lists (if any).
List of Explosives, dangerous cargo on board.

Following documents should also be handed to Boarding Agent on arrival and will be returned to vessel after perusal by Marine Department:
Malaysian Light Dues Receipt (if any).
Ship's Register.
Radio Safety Certificate.
Safety Equipment Certificate.
Load Line Certificate.
Deratisation Certificate.

Port Health Officer now requires all vessels arriving from foreign ports to submit an "Entry Declaration" on form Health 43, on the International "Maritime Declaration of Health" form or on a similar copy, and this should be handed to Boarding Agent, together with copy of crew list, in cases where vessels are not in Quarantine, in which case doctor does not attend on board.

Note: Endorsement of Port Clearance must be obtained from Port Office at Marine Office before a fresh Port Clearance can be issued by local Customs Authorities and handed to vessel before sailing.
(*b*) *Immigration*
2 copies Crew List.
2 copies Passenger List (Disembarking and Transit).
(*c*) *Customs*
2 copies Customs List (CD.15).
1 Crew List.
1 Passenger List.

FLAGS: The Malaysian Flag. Flag Q meaning Health Clearance required. * Flag 2/5 meaning No passengers on board, or * Flag 3/4 meaning Passengers on board. Pennant Zero is not required since Boarding Officers do not board the ship on arrival. Flag H meaning Pilot on board. (* Applies only to vessels arriving from foreign ports, which now includes Singapore.)

Note: Except for vessels under way, no vessel in port may use its siren except in case of an emergency when no other means of communication is available. The Authorities strictly enforce this rule and vessels infringing it become liable to heavy fine.

PILOTAGE: Available 24 hours a day.

(*a*) Application. Piloting carried out by Kelang Port Authority. Masters to cable "Pilots Port Kelang" giving ETA and point of arrival, i.e. Pintu Gedong, Pulau Angsa, Kapar Buoy, Tanjong Bakau, or Deep Water Point, and draft at least 6 hours before arrival, as Pilots will not leave shore until confirmation received from vessel. Both North and South Channels are well marked and Pilots consider it quite safe to arrive and depart at any hour.

Vessels approaching this port normally apply through Agent, giving ETA Pintu Gedong, Pulau Angsa or Deep Water Point, together with draft and port of departure.

(*b*) VHF. If vessels wish to communicate direct all pilot boats are fitted with VHF for use between pilot office, pilot boats, pilot boat to pilot boat and where necessary to vessels arriving at this port. Operated on Channel 12 of International Maritime VHF radio telephone bands, and of a range of 20–25 miles.

(*c*) Recognition. Pilot boats painted black with white horizontal band all round and have white superstructure.

(*d*) Boarding. Unless advised otherwise Pilots will be ordered to board vessels at Pulau Angsa (North Channel), or Pintu Gedong South of the Seaward Bar Buoy, or, Deep Water Point between Tanjong Sarang Lang and Tanjong Bakau.

Pilot ladders should be of approved Standard pattern internationally used.

(*e*) Waiting a Pilot. Location for a vessel awaiting Pilot is at Pintu Gedong 5 cables South of Seaward Bar Buoy, at Pulau Angsa 1 mile East of Pulau Angsa Island, and at Deep Water Point where

anchorage is available according to number of vessels already anchored.

(*f*) Regulations. Master may bring his vessel into Deep Water Point Anchorage without a Pilot and if this is the case the Pilots are to be informed accordingly. It is compulsory to take a Pilot when berthing or unberthing at a wharf and to take a Pilot to and from the buoys. Pilotage is not compulsory to the anchorages Nos. 6 and 7, to the North Shore Anchorage or to Deep Water Point. Vessels will be berthed port side to on ebb tide and starboard on flood.

ANCHORAGES: Per latest Admiralty charts. Vessels may load timber and ore from privately owned junks at Deep Water Point Anchorage. In exceptional cases and with permission of Port Authority it is also possible to work with Authority Lighters at Deep Water Point.

RESTRICTIONS: (See "Max. Size"). Pintu Gedong, the Southern Channel Pilot Station, there is a restrictive bar of 20 ft. at Chart Datum. Otherwise draft is the only restriction, of which vessels will be advised when giving their ETA.

MAX SIZE: Max. length of vessels using South Port (old port) is: dry cargo vessels, 565 ft. LOA with draft of 32 ft.; tankers, up to 560 ft. LOA and draft 30 ft. Tidal conditions govern movements of all vessels over 500 ft. LOA in the South Port but not at the North Port (new port). Vessels of up to 621 ft. can be berthed under any conditions at the North Port but only under special tidal conditions at the South Port.

HEALTH: Port Health Officer will board vessels arriving from infected ports, or carrying deck passengers at Deep Water Point between 0700 and 1800 hours. All ships arriving from foreign ports should ensure that all on board hold valid smallpox vaccination documents.

All vessels should include in arrival cables confirmation that all well on board and also that all health papers in order. It should be understood that the health papers referred to include deratisation, or deratisation exemption Certificate.

RADIO: ETA cables normally routed via Singapore or Penang as no radio station in Port Kelang. Such messages when received are transmitted by telephone to Agents/and or Pilots at Port Kelang.

VHF: (See "Pilotage"). Ship to shore telephones available at ail berths at North Klang Straits, and VHF sets available for ships in moorings. Klang Exchange keeps a 24-hour watch on Channel 16 and will connect the vessel to any telephone receiver ashore. For local calls the cost is $1.92 for 3 minutes (approx.).

TUGS: Supplied by Port Authority and normally "stand by" vessels berthing at wharves as and when required. Tugs towing use ships lines, tugs pushing use their own lines. 3 tugs available to assist in berthing and unberthing and are equipped with fire-fighting appliances and radio communications system. When vessels berth or unber that wharf tugs ordered by Agent in consultation with Pilots and once in attendance are charged for whether used or not. Tugs also used to swing vessels in stream which are stemming ebb tide on departure. In addition 3 smaller tugs used to tow lighters to and from vessels.

BERTHING: There are two ports viz: the South Port or Old Port and the North Port. Vessels berthing in the South Port (Old Port) are governed by tidal conditions which vary considerably. Vessels over 525 ft. LOA are usually berthed port side to on the ebb and then only when tides are favourable. There is usually no objection to vessels unberthing from the wharf at night although generally speaking vessels will not be berthed at night. As a general rule discharging vessels will berth at North Port (North Klang Straits) and loading vessels in the stream in the South Port (Old Port).

(*a*) South Port. Three ocean wharves of 1,640 ft. length with 30 ft., 32 ft. and 35 ft. of water alongside, two coastal shipping wharves of 950 ft. with 20 ft. of water alongside, 5 swinging buoys, and two anchorages. Three to four vessels of not more than 250 ft. in length and with drafts up to 18 ft. can be accommodated at North Shore anchorage. Also two lighterage wharves. There is 441,064 sq. ft. of covered storage accommodation provided in the area of which approximately one-third has been leased out to private firms. All transit and storage sheds are rail and road served. There are also very extensive privately owned bulk storage and warehouses within the port premises. The South Port has 120,000 sq. ft. of open storage plinths served by 10-ton and 5-ton gantry cranes.

(*b*) North Port (North Klang Straits) Wharves. Four ocean wharves with total length 2,490 ft. Each berth 580 ft. long, width 202 ft. Concrete wharves with a safe working load of 4 cwt. per square foot and a maximum point load of 10 tons. Draft alongside all four wharves 30 ft. Rail track on wharf apron.

(*c*) General.

Facility		*Depth* (ft.)
North Klang Straits Approach		30

No. 6 Mark on 600 ,, ,,		30
on 500 ,, ,,		30
No. 7 Mark on 600 ,, ,,		30
on 500 ,, ,,		40

Distance between buoys is as follows:

Distance between No. 1 buoy and No. 2 buoy 1,200 ft.
Distance between No. 2 buoy and No. 3 buoy 1,200 ,,
Distance between No. 3 buoy and No. 4 buoy 1,200 ,,
Distance between No. 4 buoy and No. 5 buoy 1,300 ,,

The above distances allow for slackness in pendants at low water. The depths listed combined with tidal predictions for current year give actual depth of water.

STEVEDORES: Almost all timber loaded from private junks for which no lighter gangs needed. Average working rate, subject to stow, for timber in loose pieces is 4–6 tons per hour, and in bundles 6–8 tons per hour. Not more than two lighters or "tongkangs" may lie alongside any vessel abreast of each other and not more than two lighters shall be moored astern of a vessel.

Rubber, latex in drums, etc., loaded by Port Authority and lighter/wharf gangs are required. Average working rate for these commodities is 14 tons per hour.

The average rate of discharge at North Port (North Klang Straits) wharves is 14–16 tons per hour.

On-board stevedores provided by Messrs. Seng Lee & Co., Eu-Lee & Co. or The Cargo Handling Corporation Limited who also supply all necessary stevedoring equipment. Lighter/Wharf gangs provided by Port Authority. While labour is plentiful and both stevedores and Port Authority are very helpful in obliging late ordering and cancelling of gangs, requirements for the 1st shift should be made known by 1430 hours the previous day and for 2nd shift by 1030 hours same day.

Working hours throughout port: first shift 0700 to 1500 hrs. (meal break 1100–1200 hrs.). 2nd shift 1500 to 2300 hrs. (meal break 1900–2000). 3rd shift 2300 to 0700 hours (meal break 0300 to 0440).

MEDICAL: A number of private doctors in Port Kelang and it is often not necessary to give any advance notice of medical attention being required. In event of vessel requiring urgent medical attention on arrival, advisable for Master to cable Agent in advance. At present 2nd class medical facilities available in Kelang and 1st class facilities only available in Kuala Lumpur. As vessels arriving at Port Kelang normally do so after calling at Penang or Singapore no inoculation, vaccination or fever certificates are required unless either Singapore or Penang is declared an infected port.

TANKERS: Tankers always berth port side to on ebb and near slack water. Vessels with bulk liquid cargoes to load or discharge will berth at wharves 3, 4, or 5. When a number of pumping vessels in port, vessels will usually occupy these wharves only for the time it takes to complete pumping and may then have to shift to stream or another wharf. Three of the ocean wharves are provided with facilities for handling liquid cargo. Liquid cargoes now being handled are: latex, palm, coconut oil, petroleum products, alkane, tallow and fuel oil.

Shell Company has a private jetty on which vessels up to 420 ft. in length with drafts not exceeding 20 ft. can be berthed.

DENSITY: Varies considerably with state of tide and heavy monsoon rains.

FRESH WATER: Waterboat, capacity 200 tons, available to supply vessels in South Port (Old Port) and at Deep Water Point with fresh water. As much notice as possible should be given if waterboat required. At North Port (North Klang Straits) water available from wharf. Pumping rate about 20–25 tons per hour.

FUEL: Bunkers are available.

FIRE PRECAUTIONS: In respect of tankers loading or discharging inflammable cargo, necessary to have wharf cordoned off and "No Smoking" signs exhibited prominently. Port Fire Brigade required to be on stand-by at wharf whilst operation in progress. Vessel may not disable engines whilst alongside wharf and shall have axes ready in event has to leave wharf urgently and necessary to cut ship's lines. Port Fire Service on duty 24 hours a day throughout year. Service is capable of fighting all types of fire whether on land or on sea. Fire service has following equipment: 3 fire engines, 1 Land Rover fire engine, 2 trailer pumps, 3 fire fighting tugs.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CUSTOMS/IMMIGRATION: Customs Officer will board vessel soon after arrival to seal the "Bonded stores". For vessels staying in port some time it is usual to issue 3 days supply – a further issue may be made on request after 3 days.

Immigration Officer will clear vessels arriving from foreign ports on all days between 0700 and 2100 hours. No one may board or leave or approach within one cable length of such vessel without special permission until vessel has been cleared by Immigration Officer and Immigration Signal is hauled down. No Immigration formalities required for vessels arriving from or leaving for other West Malaysian ports (Malacca and Penang).

IDENTIFICATION CARDS: Advisable that members of crew carry identification cards when leaving ship.

CONSULS: Consulates/Embassies/High Commissions in Kuala Lumpur (28 miles from Port Kelang).

Embassy of the United States of America.

Australian High Commissioner's Office
Belgian Embassy
Consulate of Brazil
British High Commission
Burmese Embassy
Canadian High Commission
Ceylon High Commission
Consulate of the Republic of China
Royal Danish Embassy
Consulate of Finland
Embassy of France
West German Embassy
Indian High Commission
Embassy of the Republic of Italy
Embassy of Japan
Embassy of the Republic of Korea
Royal Embassy of Netherlands
New Zealand High Commission
Consulate of Norway (at Penang only)
Consulate of Panama (at Penang only)
Pakistan High Commission
Embassy of Philippines
Singapore High Commission
Royal Swedish Embassy

REPAIRS: Slipping facilities for repair of lighters and smaller tugs available. No facilities for major repairs to ships.

DRY DOCKS: None.

REPATRIATION: Crew changes and repatriation must be arranged by Agent. Harbour Master attends signing-on and signing-off of the crews on ship's articles.

AIRPORT: Subang International Airport approximately 20 miles from port on main trunk route to Malaysian capital of Kuala Lumpur and served by regular domestic flights and international flights.

HOLIDAYS: Port Closing Days. *Hari Raya Puasa; * Chinese New Year; Malaysia Day (31st August); * Deepavali; Christmas Day (25th December). * Dates subject to changes as festivals coincide with Mohammedan, Chinese and Hindu calendars.

TELEPHONES: At North Port (North Klang Straits) Wharves telephones installed on board if required. At wharves in South Port (Old Port) there is always a telephone within easy reach at Wharf Office.

GENERAL: (*a*) Ship-Shore Communication. When vessels are berthed in stream or at Deep Water Point a 24 hour launch service can be supplied. Arranged by Agent in consultation with Master to suit requirements of ship.

Vessels permitted use own boats with proper navigation lights at night.

(*b*) Seamen's Club. "Mariner's Club" for officers and seamen outside No. 3 Gate of South Port. Club has swimming pool and bar.

(*c*) Diving. Diving services available for salvaging lost cargoes, examining underside of ships, etc. Divers capable of deep-sea diving down to 120 ft.

AUTHORITY: Lembaga Pelabohan Kelang, Port Kelang.

ROMPIN (Kuala Rompin); inc. Pahang, Malaya: 02.43 N. 102.30 E.

DOCUMENTS:

Register.
Last Port Clearance.
7 copies Crew List and 4 for Agent.
5 copies Passenger List (if any).
5 copies Stowaway List (if any).
2 copies Stores List (including firearms and ammunition).
2 copies Dutiable Liquor and Tobacco List.
2 copies Crews Declaration List (cameras, radios, etc.).
1 copy Vaccination List.

Masters of vessels to fly the necessary following flags on arrival as required under Section 448 of the Merchant Shipping Ordinance and Sub-Section (9) of the Federation Port Rules, 1953.

(1) The Federation of Malaysia Flag.
(2) The Pennant "O" Flag (Request Port Officer).
(3) The "Q" Flag (Request Port Health Officer).
(4) The Pennant "2"; "5" Flags if no passengers and "3"; "4" Flags if there are passengers on board (Immigration).

PILOTAGE: Compulsory to the loading berths. Extra charge for pilotage outside normal office hours and holidays.

ANCHORAGE: On arrival, vessels required to anchor about one mile outside berthed ships to obtain pratique. An accommodation ladder must be rigged on lee side to allow Port Authorities to board.

READINESS: Notice of readiness cannot be accepted until vessel is in free pratique, Customs Inward Examination completed, and in all respects ready to load.

LOADING. (*a*) Ladders. Masters particularly advised to see that a sound and adequate ladder provided at each lighter to allow labourers engaged in loading to pass to and from ship with no undue risk. Regulations are provided in the Merchant Shipping Ordinance, Section 445, Sub-Section (O) which takes care of this requirement and failure to take adequate precaution in seeing regulation is observed may result in serious consequence to those responsible.

Masters requested to ensure that in addition to ladders for labourers, an extra ladder, preferably a clean pilot ladder, be made available at all times for the Agent for boarding. This ladder should be made fast on lee side, just forward of any scuppers in vicinity, and a heaving line from ship's rail made fast to bottom rung. When ladder not in use, bottom of ladder can be pulled up a few feet with heaving line to prevent labourers from using it or damage from lighters.

(*b*) Winches. All winches must be in single gear at all times.

(*c*) Derricks. Practice to work two sets of derricks to one lighter where practicable.

(*e*) Trimming. No manual trimming undertaken.

(*e*) Damages. In the event of your vessel sustaining damage by stevedores during loading, you are requested to inform the clerk and foreman on board immediately and as soon as practicable confirm same in writing to the Eastern Stevedoring Co. Ltd., Kuala Rompin, with copies to Hong Kong & Eastern Shipping Co. Ltd., Hong Kong, and Malay States Shipping Ltd., Kuala Rompin. It is important that full details of damage are given, together with measurements whenever possible.

Minor damage has occurred on vessels due to hatch beams not being bolted or lashed. Masters therefore requested ensure all beams adjoining working parts of hatches either bolted or lashed, otherwise stevedores will repudiate liability for any damage incurred.

OPENING/CLOSING HATCHES: Removal and replacement of hatch beams and covers must be done by ship's crew. Ship's Officers should see that any tween-deck beam removed is replaced before ore reaches that height.

CUSTOMS: Customs office hours 0830 to 1630 Monday to Friday, 0830 to 1300 Saturday.

IDENTIFICATION CARDS: Every member of crew must produce Identity Document or Shore Leave Pass at Customs House when landing and again when returning to vessel.

HOLIDAYS: New Year's Day; Hari Raya Puasa, 2nd day; Chinese New Year, 2nd day; Hari Raya Haji, 2nd day; First Day of Muharram; Vesak Day; Birthday of Sultan of Pahang; Birthday of H.M. The Yang Di-Pertuan Agong; Birthday of Prophet Muhammad; Malaysia Day; Deepavali; Christmas Day.

Note: Where a holiday falls on a Sunday, the following day will be observed as a holiday, and if such latter day is already a holiday, then the day following shall be a public holiday.

GENERAL: (*a*) *Scrap Iron.* Steel mills in Japan complain from time to time of finding pieces of scrap iron in the iron ore cargoes. If this scrap is not found it will cause serious damage to the plant and occasion considerable delay to production; furthermore, should scrap iron enter the machinery there is always the possibility of it endangering life, and several fatal accidents have been attributed to this cause.

The assistance of officers and crew is requested in reporting any scrap iron they see being loaded, advising shippers into which hold it went and number of the lighter it came from to enable us to take appropriate action.

(*b*) *Whistle, Radio.* Wireless Transmitters, Whistles and Sirens, etc., must not be used by vessels at anchor off Kuala Rompin.

(*c*) *Stores.* Bonded stores can be obtained from Kuala Lumpur and Kuantan at prices roughly same as Singapore. Essential, view Customs formalities, that Masters give Malay States Shipping Ltd., Kuala Rompin six days prior notice of requirements.

SHORE LEAVE: No seaman may proceed more than three miles from Kuala Rompin Customs House. The Officer in Charge Customs, as acting Immigrating Officer, has authority to limit or prohibit shore Leave in all cases.

AGENT: Malay States Shipping Sdn. Berhad, PO Box 2, Kuala Rompin, Pahang.

SABAH: including Kudat, Lahad Datu and Semporna.

DOCUMENTS: Eight copies all usual documents.

PILOTAGE: Applications normally made by Shipping Agents with advance notice of 24 hours prior to actual time that Pilot services required. Pilot boats between 30–40 ft. length and equipped with VHF/AM Sets – 80·4 Mc/s. frequency. Pilot station at Port Office and location for vessel awaiting Pilot is within port limit.

ANCHORAGE: All ports within bays, therefore provide safe anchorages.

RESTRICTIONS: No restrictions for vessels entering port at night.

MAX. SIZE: All ports unlimited, cargo worked at anchor.

HEALTH: To obtain pratique, arrange with Shipping Agent. Pratique for vessel entering, after calling at another port in same state, is not required. Anchor in quarantine anchorage if vessel is suspect and display following signals: *By Day:* International Code Signal "Q.Q.". *By Night:* A Red light over a White light and a separate hoist of Red light over a Green light. Hoisted vertically 6 ft. apart where best seen.

RADIO: Singapore Radio recommended.

BERTHING: Application for berthing has to be made within 24 hours prior to actual time that berthing is required. *Details and Requirements:* Name of vessel, gross and net tonnage, length overall, draft (fore and aft), ETA at berth, ETD from berth, nature and tonnage of cargo to be discharged/loaded. No priority for berthing ships and the turn is, first come first served.

STEVEDORES: Arrangement of stevedores should be made with 48 hours notice to Shipping Agent. Average load/discharge rate: General cargo, 15–20 tons per hatch per hour; cement 20–30 tons per hatch per hour.

MEDICAL: Arranged on arrival by Shipping Agent.

DENSITY: Average density in the ports 1020.

FRESH WATER: Available at Government General Cargo Wharves

at a rate of 20 tons per hour.
DEVELOPMENTS: Lahad Datu, having new port installation and wharves facilities.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally by stevedores.
CERTIFICATES: Registry, Loadline, Radio, Safety Equipment and Deratting Exemption.
CUSTOMS ALLOWANCE: Tobacco, wine and/or spirits: no control and up to discretion of Officers of Customs and Excise.
CARGO GEAR: Ships gear used.
IDENTIFICATION CARDS: Not needed.

REPAIRS: Marine Department operates engineering workshops at Labuan and Sandakan. Some private firms also undertake small engine and deck repairs.
DRY DOCKS: No dry docks available in the State. Marine Department has three slipways in Labuan which are capable of shipping vessels of 60 tons, 200 tons and 500 tons displacements. One in Sandakan for vessel up to 120 tons.
REPATRIATION: Normally arranged by Agents.
AIRPORT: Most airports in State between 2–5 miles from the town.
TIME: Local time is 8 hours ahead of GMT. No alteration to clocks.
HOLIDAYS: Cargo work can be arranged if necessary during official holidays, but not for Hari Raya Puasa, Chinese New Year and Christmas Day.
POLICE/AMBULANCE/FIRE:

	Fire/Police	*Hospital*
Kudat	333	335
Lahad Datu	599	522
Semporna	599	

SERVICES: No services available for cleaning tanks, but compass adjusting can be arranged with officers of Marine Department, Labuan.
SHORE LEAVE: Allowed.
DELAYS: Due to weather conditions only.
AUTHORITIES:

	Kudat	*L'Datu*	*Semporna*
Port Officers (Marine Dept.)	370	697	523
Customs Officers (Customs & Excise)	336	531	532
Immigration Officers (Immigration Dept.)	296	686	533
P. Health Officers (Medical Dept.)	373	693	511

SANDAKAN, Sabah: 05.50 N. 118.07 E.

FLAGS: Signal letters, Mail flag (if any mail on board for discharge); "Q" flag is essential if Sandakan is the first Sabah port at which a vessel calls. If ship carrying passengers it should fly immigration signals Nos. 3 and 4; if no passengers Nos. 2 and 5.
DOCUMENTS: Two sets of Inward Manifest in the prescribed form to be airmailed to Agent to arrive at least 48 hours before the vessel.
(*a*) *To be Produced on Arrival:*

	Total
Sabah Lights and Harbour Dues form	1
Manifest in the prescribed form	2
Crew List	3
Last Port Clearance	1
Stores List	3
Passenger List	3
Arms List	2
Narcotics List	3
Parcels List	2

(*b*) *Required by Agent:*
2 sets of Inward Manifests for all inward cargo.
5 sets of Transhipment Manifests for all cargo to be transhipped at Sandakan.
2 copies of hatch list.
1 copy of Passenger List.
1 copy of Crew List.
1 copy of List of Arms and Ammunition.
1 copy Narcotics List.
1 copy Stores List.
(*c*) *To be Supplied to Ship before Departure:*
Manifests, as required by vessels.
Captain's copy of B's/Lading.
Port Clearance and Customs Clearance.
Sabah Lights and Harbour Dues form.
(*d*) *Immigration:* Immigration Officer will board vessel on arrival and clear her inwards. No restrictions on crew and/or passengers going ashore. Immigration require 2 copies of crew list and 2 copies of passenger list. Vessels cleared inward until 1800 hours only. If there are special circumstances arrangements can be made to clear vessels inward after this time.
(*e*) *Marine Department:* Shipping Arrival Report to be signed by Master of Vessel.
PILOTAGE: Pilotage not compulsory but if required the Harbour Master acts as Pilot. At least 24 hours notice should be given and position where Pilot is required to embark (i.e. the bar buoy or within harbour limits) should be included in the message. Pilot station tel. 3128.
ANCHORAGES: For loading timber: A black and white conical buoy situated 1·2 miles South-westwards from Government Wharf indicates the anchorage. It is important that vessels should anchor as close to this buoy as possible, when anchored further from shore it may take up to an hour longer for launches towing rafts of timber to reach ship and in addition there is less shelter from wind and weather and consequently raftsmen have to cease work earlier.
For discharging: Unless it is intended to come alongside the wharf, vessels discharging should anchor 4 cables due South of wharf. Wharf is 750 ft. long with dolphins placed 100 ft. from each end giving a total length of 950 ft. If discharging into lighters and loading log timber simultaneously vessels should proceed to Timber Anchorage.
RESTRICTIONS: (*a*) Shifting: Vessels may not berth alongside after dark without special permission, but they may leave the wharf, having given prior notice.
(*b*) Special Cargo Regulations: No vessel with dangerous cargo may be alongside after sunset, except at discretion of Harbour Master. No dangerous cargo may be discharged simultaneously with general cargo except with permission of the Harbour Master. Livestock: subject to approval of Veterinary Authority. Certain animals, including cattle, are prohibited imports and exports except under licence.
MAX. SIZE: Draft restriction is 25 ft. on the Bar plus the height of tide, mean high water being about 6 ft.
HEALTH: (Also see "Radio" and "Regulations"). If Sandakan is first port of entry into Sabah a vessel must proceed to quarantine anchorage until cleared by Health and Immigration Officials.
The Sabah Government are signatories to the WHO convention on quarantine regulations. If vessel comes from outside State of Sabah then Port Health Authority will require to board in quarantine anchorage before vessel can proceed to wharf or timber anchorage. If, however, vessel is not coming from an infected port pratique may be granted providing vessel cables Agent prior arrival advising last port of call and whether vessel healthy. Pratique normally cabled to ship but if unreceived, vessel must proceed to quarantine anchorage.
Port Health Authority require completed copy of Maritime Declaration of Health, and copies of Crew, Passenger and Narcotics Lists.
RADIO: (Information required before ship's arrival). ETA; number of passengers, health situation. Manifest, stowage plan, number of gangs required, (loading and discharging gangs to be specified separately). Amount of water required. Vessels not allowed to use their radio in port.
Marine signal station keeps watch on VHF Channel 16, from 0530 to 2000 hours.
TUGS: A tug of 650 h.p. will be stationed at Sandakan in 1973.
BERTHING: (Also see "Anchorages"). (*a*) Mooring: The numbers of a vessel which is berthing alongside will be shown from signal station on Eastern end of Customs House. In addition, a cone indicating tidal stream will be hoisted, pointed end of cone down indicates flood tide and pointed end up indicates ebb tide. Linesmen are on hand to receive a vessel's lines, a mooring boat will be provided by Marine Department if it is necessary to send lines to dolphins. Government Wharf, least depth 31 ft.
(*b*) Buoys: No mooring buoys.
(*c*) Lighters: No lighter fleet. The timber companies have their own lighters and scows which can sometimes be hired if not being used by these companies.
STEVEDORES: Stevedoring in hands of Port Authority who supply gangs as required.
(*a*) Working hours, 0730–1130 also 1130–1300 (overtime), 1300–1700 also 1700–2200 (overtime). Gangs ordered at least 12 hours before a vessel arrives.
(*b*) Overtime. When working in stream, overtime usually from 1100 to 1200 and 1800 to 2200. Application for permission to work overtime must be made to Customs not later than 1500 hours on the afternoon that overtime is to be worked or 1100 hours on Saturday for weekend overtime.
(*c*) Working Sundays and holidays. Work is normally carried out Sundays and it is sometimes possible to arrange for work on some public holidays, principal exception being Chinese New Year. Application must be made to Customs for permission to work Saturday afternoons, Sundays and public holidays.
(*d*) Rate. Log loading is good, comparing more than favourably with other Borneo ports. Rate of loading about 800 cu. ft. hoppus (20 B/L tons) per gang hour for logs, and 6 B/L tons per gang hour for sawn timber. Discharging general cargo about 10 tons per gang hour.
CARGO: (*a*) Tally: Tally clerks supplied by Agent if required. Sawn timber tallied on to scows by timber companies' clerks and tallied into ship by ship's tally clerks. Ship responsible for total number of pieces of timber shown on Mate's receipts. Letters of Credit do not allow the clause: "A quantity said to be" to be inserted on the B/Lading. Log timber tallied into ship by checking against specifications supplied by timber companies.
(*b*) Inward Cargo: Is tallied out of ship on to wharf or into lighter. Local watchmen can be supplied by Agent if necessary but it is generally found to be more satisfactory if these duties are carried out by crew. Damaged cargo is surveyed on the spot, otherwise no liability of vessel is acknowledged. Discharge carried out after permission has been obtained from Customs after manifest of inward cargo has been deposited. Cargo is delivered to consignees

against production of relative Bill of Lading. Ship's responsibility to consignees ceases at ship's side but, in the case of short-landed cargo, reasonable proof must be given to Customs that cargo has not been landed. A short-landed Memo certified by Chief Officer is usually accepted as proof.

(*c*) Heavy Lifts: Usually landed overside on flat-top scows for delivery to private jetties, where they are man-handled to required site. Occasionally consignees provide low-loaders.

(*d*) Transhipment Cargo: After discharge of cargo from first carrier, transhipment cargo placed under supervision fo Ports Authority, unless it is possible to arrange direct transhipment into small coastal vessels.

(*e*) Outward Cargo: Main export is log timber and is towed out to loading vessels in rafts, each one accompanied by two raftsmen. Loading is on a single swinging derrick with gun tackle; the other derrick being used for pulling the logs into position in the holds. Vessels should have, if possible, two snatch blocks available at each hatch where log timber being loaded. Sawn timber loaded in normal manner from scows and lighters. Documents required are shipping order issued by Agent and list of specifications supplied by timber companies. Other exports are rubber, copra, coconuts, palm oil, jungle and sea produce.

(*f*) Refrigerator Cargo: Only small quantities of refrigerator cargo loaded or discharged. No formalities or certificates being required other than compliance with normal Customs regulations. Inward fridge cargo is confined to foodstuffs, meat, etc., and outward to frozen prawns.

(*g*) Explosives: Explosives must be discharged into lighters under police escort and transported to an approved police store. A licence for their importation must be obtained from police prior to arrival of cargo, and Harbour and Police authorities must be informed of arrival of explosives in port either for discharge or as through cargo.

(*h*) Damaged Cargo: Ship's survey should be carried out at ship's side on all cargo discharged in a damaged condition and Chief Officer should note extent of damage, and sign certifying same. Cargo coming alongside in a damaged condition should be noted and M/R claused accordingly. Chief Officers are reminded that it is most unwise to load any copra which is rain or salt water damaged.

MEDICAL: (*a*) Hospitals: Duchess of Kent Hospital will receive sick seamen or officers. Three classes of wards, also isolation wing. Hospital equipped to carry out normal surgery.

(*b*) Inoculation: PHO will vaccinate or inoculate crew members at Duchess of Kent Hospital.

(*c*) Death on Board: PHO and police to be informed immediately. They will then make an investigation into cause of death. If satisfied that death was due to natural causes, a certificate will be issued, and arrangements may then be made for interning the body. Harbour Master must also be informed in the case of seamen.

TANKERS: Two bulk oil installations at Karimunting (Pavitt Point). Esso, with storage capacity of 2,080 tons and Shell, with storage capacity 15,730 tons.

Jetty extends 550 ft. from shore, is 128 ft. long with mooring dolphins 125 ft. from each end. Minimum depth alongside 24 ft.

New oil berth, 1,000 ft. length between dolphins, with central discharging pier. Least depth alongside 30 ft. This berth also used for loading palm oil in bulk.

FRESH WATER: Can normally be supplied from wharf at rate of 20 tons per hour. No water boat. Occasionally water is not available and, at such times, Agent warns Principals in advance.

FUEL: No facilities for supply of fuel oil bunkers. Limited quantities of lubricants can be obtained in drums and bulk diesoline available at Shell jetty.

FIRE PRECAUTIONS: No fire-floats and in case of a vessel alongside, fire brigade should be summoned by dialling 999. The OCPD should be informed also.

WATCHMEN: No regulations regarding use of watchmen, who, however, can be supplied if required. There have been only very isolated reports of pilferage in Sandakan.

CONSULS: None.

DRY DOCKS/REPAIRS: No dry docks and very limited repair facilities. Marine Department slipway on Berhala Island is capable of taking ships up to 300 tons. Castings, forgings, welding, etc., can be done at this slipway. Before repairs are carried out to the main engines of a vessel which would prevent her from shifting, the Harbour Master must be informed in writing.

POLICE/AMBULANCE/FIRE: Ambulance: Duchess of Kent Hospital, tel. 2111; Police/Fire: Police Station Emergency, tel. 999.

GENERAL: (*a*) *Surveyors:* Harrisons & Crosfield (Sabah), Sdn. Bhd. are Lloyd's Agents, neither Bureau Veritas nor the American Bureau of Shipping are represented.

(*b*) *Fumigation:* No facilities.

(*c*) *Ship Chandlers:* All kinds of stores and provisions can be supplied at reasonable prices.

(*d*) *Call Signals and Call Flags:* (i) Continuous watch kept by signal station during day-light hours. In emergency such as serious injury or fire a ship should hoist appropriate International Code signal and blow whistle or siren to attract attention. Apart from these circumstances and for purposes of navigation vessels are prohibited from using sound signals for any other reason.

(ii) Signals for attracting Public Service Launch: By day: International Code Pendant No. 8. By night: three red lights vertical. Owing distance of anchorage from jetty these signals often indistinguishable by hire launches unless they are cruising in the harbour. Regular launch services can be arranged if required by Master. No restrictions against a vessel using its own launch or motor lifeboat but it must not land anywhere other than at Customs wharf.

(*e*) *Recreation Facilities:* Three cinemas in town which show English-language films. Cricket, football, and hockey matches can be arranged with local teams and several tennis courts available. Only suitable swimming beaches at Berhala Island at mouth of harbour. Yacht Club and Golf Club for members only, but several Shipping Companies pay Corporate Membership fee which enables all officers and first-class passengers to use club. Recreation Club offers facilities for large variety of sports and entertainment; visitors must be accompanied by a member. Churches in town for Anglican, Catholic and Lutheran worship.

REGULATIONS: 1. Arrival and Departure. 1. The Owner or Agent of every vessel other than a small ship intending to call at a port shall, as soon as possible, and in any case not later than thirty-six hours prior to the estimated time of arrival of the vessel, give notice in writing to the Authority of such arrival and, if so desired, the requirement for a berth at a wharf.

2. The notice under this regulation shall be in a form prescribed by the Authority and shall contain full particulars regarding the cargo to be discharged and loaded, the embarkation and disembarkation of passengers, heavy lifts, special or perishable cargo, hazardous and dangerous goods (whether to be discharged at the port or not), and any other matters of importance relating to the working or safety of the vessel in the port.

3. The Master of every vessel entering or leaving a port between sunrise and sunset shall cause to be hoisted the national colours and the signal letters, if any, of the vessel. The national colours shall be exhibited from 8.00 a.m. to sunset whilst the vessel remains in port.

4. The Master of every vessel arriving from outside the State of Sabah shall exhibit the Immigration and Quarantine signals contained in the First Schedule and shall also at the request of a customs officer hoist the Customs signals. Such signals shall remain exhibited until the appropriate officer has given permission for them to be lowered.

5. No vessel shall approach within six hundred ft. of any other vessel exhibiting the Immigration, Health or Customs signals.

6. No person other than a Pilot may board or disembark from any vessel until the vessel is cleared inwards and the Immigration, Quarantine and Customs signals have been lowered.

7. Every vessel entering a port shall be anchored or efficiently secured to a wharf or buoy before commencing the loading or discharging of cargo and/or the embarkation or disembarkation of passengers.

8. No vessel shall leave any port unless in possession of a valid Port Clearance issued by or on behalf of the Director of Marine.

2. Special signals.

Significance	*By Day*	*By Night*
Immigration (for ships not carrying passengers)	International Code Signal "2 5"	Two green lights, six ft. apart, hoisted vertically where best seen.
Immigration (for ships carrying passengers)	International Code Signal "3 4"	Two green lights, six ft. apart, hoisted vertically where best seen.
Quarantine (vessel is Healthy request pratique)	International Code Signal "Q"	Nil
Quarantine (vessel is suspect)	International Code Signal "Q Q"	A red light over a white light and a separate hoist of red light over a green light and hoisted vertically six ft. apart where best seen.
Quarantine (vessel is infected)	International Code Signal "Q L"	
Quarantine (not received pratique)	Nil	A red light over a white light six ft. apart hoisted vertically where best seen.
Request Police Assistance	International Code Signal "S T"	A green over a white light, six ft. apart hoisted vertically where best seen.
Request Medical Assistance	International Code Signal "W"	A red light over a green light, six ft. apart, hoisted vertically where best seen.

AUTHORITY: Sabah Ports Authority. Tel. 3255.

AGENT: Harrisons & Crosfield (Sabah), Sdn. Bhd. Telegraphic address "Crosfield". Tel. 2141 ext. 231–234 (Shipping Department). Code – Bentley's Second Phrase.

SARAWAK COASTAL PORTS

Coastal anchorages at Sibuti, Niah and Suai, 28, 30 and 47 miles S.W. of Miri respectively are being used increasingly for the export or round logs, good holding ground is to be found approximately 3½ miles offshore in 30 ft. of water. Caution should be observed in the event of sudden wind squalls from the West.

Vessels destined for coastal ports should report to Miri for Customs and Immigration Clearance.

Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during day-light hours, for at least twelve hours before the vessel is due to sail, or if the vessel is in port for less than twelve hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the port clearance.

(2) The Port Clearance shall be in the form of an endorsement on

the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any. Whilst under way.

SEJINGKAT (Sungei Sarawak), Sarawak: 01.35.10 N. 110.26 E.

Anchorage off Kampong Sejingkat approximately 10 miles from mouth of river and three miles below Pending Point. (See "Kuching".)

Main timber loading point for the First Division of Sarawak. Loading used to be seasonal due to log rafts having to be towed from felling areas along coast. Since this is not possible during North-east monsoon season shippers now stockpile during favourable weather and loading continues throughout monsoon period.

Vessels up to 500 ft. length and 25 ft. draft regularly use anchorage. No facilities for obtaining fuel or fresh water.

Pilots may be picked up off Tanjong Po in the area marked "Pilots" on Admiralty Chart 1822 or at Pending. In rough weather it may be necessary for a ship to follow or meet the pilot launch at the junction of Embang and Senari leads. Pilots for the Batang Lupar, Triso or Lingga Anchorages are also normally embarked off Tanjong Po by arrangement. The Kuching Pilot launch "Alor" is fitted with "Hague Plan" VHF radio for ship to pilot communication.

Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during day-light hours, for at least twelve hours before the vessel is due to sail, or if the vessel is in port for less than twelve hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the port clearance.

(2) The port clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any, whilst under way.

SIBU, Sarawak (incl. Binatang and Sarikei): 02.24 N. 111.56 E.

Sibu is the major town in the Third Division of Sarawak. There are two inward routes (*a*) via Paloh River and (*b*) via Rejang River. Sibu is 51 miles from the sea via Paloh, and 70 miles via Rejang.

(*a*) Paloh Entrance: This route to Sibu is almost exclusively used by overseas vessels and the use of a Pilot is recommended, they having knowledge of other ship movements in the river (see "Pilotage").

The Outer Bar limits the draft to 17 ft. during the Landas (N.E. monsoon) or to 20 ft. during the summer months. The depth on the axis of the channel is now 11·5 ft. chart datum. The two buoys are fitted with radar reflectors and the Fairway Buoy is visible for a distance of 10 miles. Care should be taken transiting the channel against being set to the Northward by the ebb tide as there is a 7 ft. patch in position 2° 29·2′ N. 111° 10·5′ E. The entrance to the Kuala is marked by a light beacon at Tanjong Sedi on the North bank of the river.

Strong cross currents and swell especially during the North-east monsoon period (November to March) necessitate caution when entering.

An inner bar with a least depth of 14 ft. exists where the Paloh joins the Seredeng at Tanjong Gelang. This crossing is marked by unlit transits and being sheltered no allowance is necessary for swell.

Vessels can cross the Outer Bar at night then anchor off Tanjong Sedi to await day-light.

(*b*) Rejang Entrance: Draft for crossing Outer Bar is governed by state of tide with an allowance for swell together with depth of 19 ft. below ACD. Vessels drawing 29½ ft. have successfully crossed this Bar. However, this draft will only give access to the Deep Water Anchorage at Tanjong Mani and vessels proceeding further up river are restricted as follows:

(i) Deep water anchorage in Rejang River situated at Tanjong Mani. Has a capacity for about 6 large ships (500 ft.) and 4 small ships (300 ft.), it is normally used for loading logs. (See separate information for "Tanjong Mani".)

(ii) From Tanjong Mani inwards there is a Bar situated about 3 miles below Sarikei with a least depth of 13 ft. below ACD thus limiting drafts to 23 ft.

(iii) From Sarikei to Binatang, the next port, the river is winding with some shallow patches with depths of 15 to 18 ft. below ACD.

(iv) Proceeding from Binatang towards Tanjong Pendam and thence to Sibu vessels are limited to 13 ft. draft and 200 ft. length.

(v) Leba'an corner, 15 miles below Sibu is the junction of the two routes used by sea-going vessels bound for Sibu. A certain amount of shoaling has taken place here at the approach from the Rejang channel and it has been found necessary to restrict the length of vessels using this route (Rejang) to 200 ft. with a draft of 13 ft. This route is generally used by the smaller overseas vessels trading from Singapore, etc. There is an obstruction off Tanjong Ensurai approximately six and a quarter miles up river from Leba'an bend which has a least depth over it of 15 ft. Caution should also be exercised when rounding Tanjong Bindje due to three shoals across the river, one of which has a least depth over it of 11 ft.

Note: River Igan and Sungei Kut. The River Igan affords access to Sibu from the North. It is approximately 60 miles long and depth over the bar is 4 ft. with an average rise of 5 ft. Ocean-going oil tankers of up to 2,000 tons displacement entering the river from the Sibu end discharge at Sungei Meral Oil Wharf about three miles from Sibu.

The largest vessel to use this wharf was the Japanese vessel *Nisso Maru* of 1,566 gross tonnage, 264 ft. overall length with a draft of 16 ft. Larger vessels using this wharf are not envisaged due to the wharf position and structure.

DOCUMENTS: Port Clearance to be surrendered to Customs when boarding.

Crew lists and passenger lists, 2 copies for Immigration Department, 2 copies for Rajang Port Authority, two copies for Customs, 1 copy for Port Health Officer.

List of ship's stores (2 copies for customs).

List of ammunition (2 copies for customs).

Health Documents (Vaccination Certificates and Cholera Inoculation Certificates to be examined by Health Inspector).

PILOTAGE: (*a*) Kuala Paloh. Pilots usually embarked off Tanjong Sedi, however, if Master requires a Pilot to board at Fairway Buoy he should indicate this in his ETA telegram.

Ship Masters wishing to use Paloh channel should state this clearly in their ETA messages.

(*b*) Rejang River (Tanjong Mani, Sarikei, Binatang and Sibu). Pilots normally embarked, weather permitting in buoyed channel West of Jerijeh lighthouse but it may be necessary for a ship to follow the pilot launch to sheltered water inside turning buoy. This applies mainly to larger ocean ships calling at Tanjong Mani and smaller vessels on a first visit, but a Pilot may be picked up anywhere to suit provided clear and precise information is given in the arrival telegram. A few of the more frequently requested points are off South Jerijeh Beacon, Rejang Village and for upriver berths, Tanjong Mani itself, or even as far up as Tanjong Delima. The Rejang pilot launch Layang Laut, is fitted with "Hague Plan" VHF radio for ship to Pilot communication.

Application for Pilots should be made giving 24 hours' notice of arrival to "Shipping", Sibu or to "Shipping", Sarikei, for Sibu and Tanjong Mani ports respectively. Ships proceeding to Sibu and requiring a Pilot should indicate positively in their arrival telegram which channel they wish to use by adding "Paloh" or "Rejang" in the text, bearing in mind the maximum length via Rejang is 200 ft.

ANCHORAGES: (*s*) See "Tanjong Mani".

(*b*) Sibu Anchorage. Some foreign-going vessels load, with Customs permission, at the mid-stream anchorage when Customs wharf is congested.

(*c*) Restricted Anchorages.

(i) Abeam of Loba Selemit on the true right bank of the Rejang River in position 02° 08′ 22″ N.; 111° 16′ 35″ E. for loading and discharging dangerous goods.

(ii) The Anchorage defined by a line running 045 degrees 2·6 cables from position 02° 16·89′ N. 111° 49·28′ E. on Pulo Kerto, thence 135 degrees 8 cables to position 02° 16·5′ N. 111° 50·4′ E. thence 225 degrees 1·9 cables to shore on Pulo Kerto. For loading and discharging dangerous goods other than petroleum.

(iii) The berth alongside the Sungai Merah Wharf in position approximately two miles downstream from the junction of the Rejang/Igan River on the true right bank. For loading and discharging petroleum.

MAX. SIZE: Largest vessel to berth Sibu was 7,372 gross tons and overall length 450 ft.

Deepest drafted vessel to berth Sibu was 22 ft. 6 in.

HEALTH: Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

BERTHING: (*a*) Principal wharves at Sibu

1. Main wharf 486 ft. long with minimum depth alongside 20 ft.
2. Lighterage wharf 156 ft. by 24 ft.
3. Kubu wharf 83 ft. long. Dries at 1 ft. Used mainly for small passenger craft.
4. Burong Apu wharf 250 ft. long with a least depth of 17 ft. Used for larger coastal craft.
5. Floating landing stages 576 ft. long with least depth of 4 ft. Used for smaller coastal and river craft.
6. Upstream of the public wharves several private wharves are used for timber and general cargo.
7. Sibu-Sungei Merah oil wharf is "T"-shaped with a berthing face of 64 ft. and a least depth alongside of 15 ft. This is a "common user" wharf at present used by the Shell and Esso Oil Companies. It can accommodate vessels up to 245 ft. long and 15 ft. draft.

(*b*) Sarikei. Customs wharf consiting of 2×60 ft. long floating pontoons, can accommodate vessels up to 2,000 tons deadweight up to 23 ft. draft. There is a Customs Godown on shore.

(*c*) Binatang. Customs Wharf 179 ft. long by 20 ft. wide with a least depth alongside of 15 ft.

A signal mast has been erected near the wharf which shows tidal signals, i.e. "E" flag for Ebb, "F" for Flood, and "S" for slack water.

STEVEDORES: The Rejang Ports Authority provide all labour necessary for loading and discharging.
REPAIRS: 5 shipbuilding (up to 100 gross tons in size) and repairing yards near Sibu. These deal mainly with repairs to wooden or steel coastal and river craft. One yard has a slipway capable of taking vessels up to 500 gross tons.
DEVELOPMENT: Construction of a further one thousand feet of concrete jetty, in a Westerly direction, following the river bank from the existing jetty. Completion by 1974. Also to be built are godowns and other buildings and ancillary services.
GENERAL: Small quantities of diesel oil bunkers available, also provisions and fresh water. Principal exports rubber, pepper, timber and sago. Average delay time per ship varies from 10 to 25 hours.
REGULATIONS: The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during day-light hours, for at least twelve hours before the vessel is due to sail, or if the vessel is in port for less than twelve hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the Port Clearance.

(2) The Port Clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any, whilst under way.
AUTHORITY: Rajang Port Authority, Sibu, Sarawak, East Malaysia. Cables: "Raport Sibu". Tel. 8898 and 8899.

TANJONG MANI, Sarawak: 02.09 N. 111.21 E.

Rejang River entrance. The least depth on the bar remains at 19 ft. The entrance is well lit by two lighthouses and one light beacon and the bar is marked by two light buoys.

Tanjong Mani. This is a deep water anchorage 16 miles from the river entrance, mainly used by vessels loading timber.

Size of vessels using Tanjong Mani limited only by depth on bar. Ten ships can be safely accommodated at anchorage at any time, roughly six large (500 ft. length) and four small (300–400 ft.). So far no ship has been delayed awaiting a berth though eight or nine ships anchored there at the same time is now a regular feature. Vessels up to 29½ ft. draft have crossed the bar.

Pilots are normally embarked, weather permitting in the buoyed channel West of Jerijeh lighthouse but it may be necessary for a ship to follow the pilot launch to sheltered water inside the turning buoy. This applies mainly to the larger ocean ships calling at Tanjong Mani and smaller vessels on a first visit but a Pilot may be picked up anywhere to suit provided clear and precise information is given in the arrival telegram. A few of the more frequently requested points are off South Jerijeh Beacon, Rejang Village and for upriver berths, Tanjong Mani itself, or even as far up as Tanjong Delima. The Rejang pilot launch Layang Laut, is fitted with "Hague Plan" VHF radio for ship to Pilot communicaton.

Application for Pilots should be made giving 24 hours' notice of arrival to "Shipping", Sarikei.

Anchorage. Abeam of Loba Selemit on the true right bank of the Rejang River in position 2° 08′ 22″ N. 111° 16′ 35″ E. is restricted to loading and discharging any dangerous goods.

TAWAU, Sabah: 04.15 N. 117.53 E.

PORT LIMITS: A line drawn from Batu Tinagat on the Mainland to the boundary mark on Sebatik Island between Indonesian Borneo and Sabah (Malaysia) and thence through the island to Burs Point on the Mainland, and thence intersecting all waterways to the West of Burs Point, entering the Serudong River.
DOCUMENTS:
(a) *To be Produced on Arrival:*

Customs	
Manifest in prescribed form	2
Crew List	2
Last Customs Clearance	1
Stores List	2
Passenger List	2
Arms List	2
Marine	
Marine Dept. Boarding Report, required to be completed	1
Last Port Clearance	1
Crew List	1
Passenger List	1
Agent	
Manifest in the prescribed form	2
Crew List	1
Passenger List	1
Immigration	
Crew List	2
Passenger List	2
Travel Control Office	
Crew Lists and Passenger Lists	2 each.

(b) *To be Supplied to Ship before Departure:*
Manifests, as required by vessel.
1 Port Clearance and 1 Customs Clearance.
3 copies of Passenger List.
PILOTAGE: A Pilot is available from 0600 to 1800 for berthing vessels given reasonable notice (48 hours). Not compulsory.
ANCHORAGES: Good anchorage in 8 fathoms 1,000 yd. to 1,300 yd. W.N.W. of wharf; and 350 yd. South there is an anchorage in 8½ fathoms.

Petroleum Anchorage. An area bounded by parallels of 04° 15′ N. and 04° 16′ N. and meridians of 117° 15′ E. and 117° 52′ E. This area is to be marked "Petroleum Anchorage".

Explosives Anchorage. An area bounded by parallels of 04° 12′ N. and 04° 13′ N. and meridians of 117° 52′ E. This area is to be marked "Explosives Anchorage".

Quarantine Anchorage. An area bounded by parallels of 04° 12.5′ N. and 04° 13.5′ N. and meridians of 117° 54′ E. and 117° 55′ E. This area is to be marked "Quarantine Anchorage".
RESTRICTIONS: (a) Communication ship/shore when lying on roads: Regular launch services difficult to arrange if required by Master. No recognised signals for summoning a launch, as distance between small boat jetty and anchorage is too great for flag signals to be recognised. No restrictions against a vessel using its own launch or motor life-boat apart from fact that it must not land anywhere other than at Ports Authority Wharf.

(b) Explosives: No vessel carrying explosives shall come within 500 yards of shore or any other vessel except with written permission of Port Manager which will be given provided that:
(a) quantity does not exceed 2,000 lb. of explosives of Class V and VI and are carried in a certified magazine, and there is no other dangerous cargo on board as certified in writing by the Master.
(b) quantity does not exceed 3,000 lb. and are exclusively of one of the following classes III, IV or VII.

Danger flag must be flown by day and a red light by night.
HEALTH: (a) Quarantine. The Sabah Government are signatories to WHO convention on Quarantine regulations. Port Health Doctor will not board, unless vessel comes from an infected port. Instead Maritime Declaration of Health is to be filled out and handed to Boarding Officer of Marine Department, who will require one copy of crew list and one copy of passenger list. Vessels should cable Agent prior arrival advising last port of call and whether vessel healthy.

(b) Immigration. Immigration officer will board vessel on arrival and clear her inwards. No restrictions on crew and/or passengers going ashore. Immigration will require 2 copies of crew list and 2 copies of passenger list. Vessels are cleared inward until 18.00 hours only. If there are special circumstances arrangements can be made to clear vessels inward after this time.
RADIO: Information required prior arrival, ETA Tawau with as much prior notice as possible. Number of gangs required. Quantity of fresh water required.
TUGS: No tugs available.
BERTHING: (a) Wharf Light at Tawau in position on North-west end of wharf, 04° 14′ 32″ N. 117° 52′ 56″ E.

(b) Tides/Linesmen. The numbers of a vessel which is berthing alongside will be flown from signal station. In addition a cone, indicating tidal stream will be hoisted, pointed end of cone down indicates flood tide and pointed end up indicates ebb tide. Linesmen are on hand to receive a vessel's lines; a motor boat can be hired to assist in berthing if prior advice is given.

(c) New Wharf. Consists of a 300 ft. long approach causeway extending from a reclamation area and a 550 ft. long wharf, 50 ft. wide with a dolphin in line ±100 ft. off each end. Least depth 20 ft.

(d) Monsoon. During strong wind from S.E. and S.W. ships are liable to range alongside wharf, and during S.W. monsoon sea breeze may make it difficult for ships to leave wharf in the afternoon.

(e) Buoys: No mooring buoys in Tawau.

(f) Lighters: No lighters available except a few wooden and steel lighters owned by Bombay Burmah Trading Corpn. Ltd. and Borneo Abaca Limited. Hire of these lighters can be arranged when they are not being used by owners, which is seldom.
SPECIALISED CARGO-HANDLING FACILITIES: None. Can handle palletised cargo only.
STEVEDORES: (a) No stevedoring company in Tawau. Work is undertaken by stevedoring contractors. Stevedores in sufficient numbers usually available.

(b) Working hours 0730–1130 hours, 1300–1700 hours, 1800–2200 hours.

(c) Overtime: Overtime working hours are from 1800 to 2200 hours. Application must be made to Customs one day in advance; double rate charged.

(d) Sundays and holidays: Work normally carried out on Sundays and holidays, the only exception being Chinese New Year. Application must be made to Customs for permission to work Saturday afternoons, Sundays and public holidays.

(e) Rates: General cargo about 8 tons per gang/hour (loading/discharging).
CARGO: (a) Special Cargo Regulations: No vessel with dangerous cargo may be alongside after sunset except at discretion of Port Manager. No dangerous cargo may be discharged simultaneously with general cargo except with permission of Port Manager.

Heavy lifts usually landed overside on to flat-top scows. Customs bonded store is available with about 4,000 sq. ft. of space including Customs Liquor and tobacco store. There are no private bonded warehouses to date. There are no facilities for handling or storing bulk cargoes in any quantity.

Livestock: subject to approval of Veterinary Authority, certain animals including cattle are prohibited imports and exports except under licence.

(*b*) Damage. Ship's survey should be carried out on all cargo discharged in a damaged condition and Chief Officer should note extent of damage, and sign, certifying same. Cargo coming alongside in a damaged condition should be noted and M/R claused accordingly. Chief Officers are reminded that it is most unwise to load any copra which is rain or salt water damaged.

(*c*) Tally: Tally clerks can be supplied by Agent if required, on receiving advance notice.

(*d*) Inward. Inward cargo is tallied out of ship onto wharf or into lighter. Damaged cargo surveyed on the spot, otherwise no liability of the vessel is acknowledged. Discharge carried out after permission has been obtained from Customs after manifest of inward cargo has been deposited. Cargo delivered to consignees against production of relative Bill of Lading. Ship's responsibility to consignees ceases at ship's side, but, in the case of short-landed cargo, reasonable proof must be given to Customs that cargo has not been landed. A short-landed Memo certified by Chief Officer is usually accepted as proof.

(*e*) Transhipment. After discharge of cargo from first carrier, transhipment cargo is placed under the supervision of the Customs, unless it is possible to arrange direct transhipment into small coastal vessel.

(*f*) Outward. When vessels berth alongside, packages are brought by motor transport and lighters; when in roads, by lighters.

(*g*) Refrigerator. Only small quantities of refrigerator cargo loaded or discharged. No formalities or certificates being required other than compliance with normal Customs regulations. Inward refrigerator cargo is confined to foodstuffs, meat, etc., and outward to frozen fish.

(*h*) Explosives. Explosives must be discharged into lighters or immediately on arrival onto wharf under police escort and transported to an approved police store. A licence for their importation must be obtained from police prior arrival of cargo, and Harbour and Police authorities must be informed of arrival of explosives in port either for discharge, or as through cargo.

TANKERS: Shell jetty, least depth 14 ft.

MEDICAL: (*a*) Hospitals. Government General Hospital is only hospital in town, and will receive any sick seamen or officers. Three classes of wards, but first class ward can only accommodate two persons. Hospital is equipped to carry out normal surgery.

(*b*) Inoculation. Port Health Officer will vaccinate or inoculate crew members at General Hospital.

(*c*) Port Health Officer. General Hospital, General Office 2234; Medical Officer-in-Charge 2333; M.O.'s Residence 2239.

FRESH WATER: Can only be supplied at wharf. Twenty-four hours notice should be given of a vessel's water requirements. Usual rate of supply is about 15 tons per hour. A water barge is available but no guarantee of availability.

FUEL: Not available except diesoline in drums.

FIRE PRECAUTIONS: No fire floats and in the case of a vessel alongside catching fire, the fire brigade should be summoned by dialling 2999. The OCPD should also be informed.

CONSULS: None.

REPAIRS: No facilities.

POLICE/AMBULANCE/FIRE: (*a*) Police/Fire, tel. 2999; Hospital 2234.

(*b*) Accidents: Hoist a two-flag signal and give a blast of the whistle to call attention of signal station. Police and the hospital should be informed immediately of any untoward incident.

GENERAL: (*a*) *Surveyors:* Harrisons & Crosfield (S) Ltd., as Lloyd's sub-Agents, may appoint a Surveyor if a survey is requested.

(*b*) *Fumigation:* No facilities.

(*c*) *Ship Chandlers:* Main suppliers of frozen foods are Lee Foh Co. Fresh vegetables obtainable in limited quantities early every morning from vegetable market.

(*d*) *Priority:* Vessels are berthed on a "First come first served" basis. Vessels with palletised cargo get priority.

(*e*) *Watchmen:* These can be supplied if required.

REGULATIONS: (*a*) Arrival and Departure. The Owner or Agent of every vessel other than a small ship intending to call at a port shall, as soon as possible, and in any case not later than thirty-six hours prior to the estimated time of arrival of the vessel, give notice in writing to the Authority of such arrival and, if so desired, the requirement for a berth at a wharf.

2. The notice under this regulation shall be in a form prescribed by the Authority and shall contain full particulars regarding the cargo to be discharged and loaded, the embarkation and disembarkation of passengers, heavy lifts, special or perishable cargo, hazardous and dangerous goods (whether to be discharged at the port or not), and any other matters of importance relating to the working or safety of the vessel in the port.

3. The Master of every vessel entering or leaving a port between sunrise and sunset shall cause to be hoisted the national colours and the signal letters, if any, of the vessel. The national colours shall be exhibited from 8.00 a.m. to sunset whilst the vessel remains in port.

4. The Master of every vessel arriving from outside the State of Sabah shall exhibit the Immigration and Quarantine signals contained in the First Schedule and shall also at the request of a customs officer hoist the Customs signals. Such signals shall remain exhibited until the appropriate officer has given permission for them to be lowered.

5. No vessel shall approach within six hundred ft. of any other vessel exhibiting the Immigration, Health or Customs signals.

6. No person other than a Pilot may board or disembark from any vessel until the vessel is cleared inwards and the Immigration, Quarantine and Customs signals have been lowered.

7. Every vessel entering a port shall be anchored or efficiently secured to a wharf or buoy before commencing the loading or discharging of cargo and/or the embarkation or disembarkation of passengers.

8. No vessel shall leave any port unless in possession of a valid Port Clearance issued by or on behalf of the Director of Marine.

(*b*) Special signals

Significance	*By Day*	*By Night*
Immigration (for ships not carrying passengers)	International Code Signal "2 5"	Two green lights, six ft. apart, hoisted vertically where best seen.
Immigration (for ships carrying passengers)	International Code Signal "3 4"	Two green lights, six ft. apart, hoisted vertically where best seen.
Quarantine (vessel is Healthy request pratique)	International Code Signal "Q"	Nil
Quarantine (vessel is suspect)	International Code Signal "Q Q"	A red light over a white light and a separate hoist of red light over a green light and hoisted vertically six ft. apart where best seen.
Quarantine (vessel is infected)	International Code Signal "Q L"	
Quarantine (not received pratique)	Nil	A red light over a white light six ft. apart hoisted vertically where best seen.
Request Police Assistance	International Code Signal "S T"	A green over a white light, six ft. apart hoisted vertically where best seen.
Request Medical Assistance	International Code Signal "W"	A red light over a green light, six ft. apart, hoisted vertically where best seen.

AUTHORITY: Port Manager, Sabah Ports Authority. Tel. 2852.

Customs. Assistant Commissioner tel. 2342 (Office); 2256 (House).

Office hours 0800 to 1200 hours, 1330 to 1600 hours, week-days; 0800 to 1200 hours, Saturdays.

Malta

VALLETTA: 35.54 N. 14.31 E.

DOCUMENTS: Pratique deposition to be filled by Master on arrival, form supplied by the boarding Customs Officer. 3 Crew Lists. 2 Bonded Store Lists and 1 list of dutiable items belonging to crew on arrival. 3 Passenger Lists.

PILOTAGE: Compulsory. Pilot boards at Fairway Buoy weather permitting. Pilot available at all hours for small ships, daylight hours for large vessels. Sea Pilot berths vessel for civil berths. Berthing Pilot boards in Bighi Bay for Malta Dry Docks or Buoy Berths. In bad weather Pilot boards inside entrance. Vessel's ETA should be given to Agent at least 12 hours' prior arrival to order Pilot. Pilot boat located near Customs House. Pilot boat not equipped with VHF.

ANCHORAGES: Sea anchorage off Grand Harbour. To East of line, Fairway Buoy to entrance, medium to poor holding ground. To West of line, holding ground excellent.

RESTRICTIONS: Minimum depth entrance channel (over wreck) 52 ft. Harbour channels – Bighi Bay 58 ft., French Creek 43 ft., Marsa 32 ft. Nature of bottom entrance channel rock and mud. Harbour channels mud. Harbour entrance and approaches affected by current – in North-west winds there is a set of up to ½ knot from North-west to North-east. Port is subject to closure in gregale (North-east gale) conditions – winter months occasionally, not more than 4 times a year.

SIZE: Discharging Berths – New Quay.

Berths 1, 2, 3. Min. water depth alongside berth 32 ft. Max. length acceptable 350/400 ft. Max. draught acceptable 32 ft.

Berth 4. Min. water depth alongside berth 32 ft. Max. length acceptable 550 ft. Max. draught readily acceptable 32 ft.

Maximum so far handled 1,000 ft. length, with draught 35 ft.

HEALTH: Port Medical Officer grants pratique when boarding on arrival. Accelerated pratique can be granted through Pilot provided crew all in good health and ship has not called any infected port during last 15 days, and is coming from a European port.

RADIO: Radio call sign 9HD. Radio telephony working frequency 2625 KHZ. Listening watch 2182 KHZ.

RADAR/VHF: No radar service available. VHF facilities available by Malta Dry Docks. Frequency 156·8/156·55/157·9 Mc/s. Call sign Malta Dry Docks. Range 10 miles. Master can call signal station on VHF channel 16 or 12.

TUGS: Join vessel just inside harbour entrance. Lines at discretion of ship's Master.

BERTHING: No specific requirements necessary. Can berth at any time but subject size of vessel and weather conditions.

STEVEDORES: Ordered by Agents. At least 24 hours notice required.

MEDICAL: Notice must be given to Agent soon as possible to make necessary arrangements. Hospital facilities available. Crew must be in possession of inocculation/vaccination certificates, etc.

TANKERS: Vessels must be gas-free except at tank-cleaning berth, where ships with not more than 2 tanks gas free are allowed. Slop (residue) discharging facilities available. No. of tanker berths: Parlatorio Wharf (Navy) Max. draught 35 ft.; max. length 650 ft. Marsaxlokk – has Saptan Dolphin (Navy) max. draught 34 ft.; max. length 650 ft.

FRESH WATER: Unlimited amount ex barge between 20 to 80 tons per hour.
FUEL: Bunker Berth – Shell (Malta) Ltd. at new quay. Grades handled include MFO. MDO. TFO. GO. Max. draught 32 ft. 48 hours notice required. Bunkering berth also used for discharging cargo and available when not occupied by discharging vessel.
FIRE PRECAUTIONS: Precautions according to Petroleum Ships Regulations. Civil tugs partly equipped with fire fighting equipment but not well trained. Admiralty tugs and salvage tug well trained and well equipped.
GANGWAY/DECK WATCHMEN: Not compulsory but recommended.
OPENING/CLOSING HATCHES: Opening by stevedores. Closing of hatches by crew. Stevedores can close hatches at extra cost.
CERTIFICATES: Ship's Register; Load Line Certificate; Derat Certificate.
CUSTOMS ALLOWANCES: 200 cigarettes allowed for each crew member. Wine and/or Spirit, None to crew except Captain, at Customs' discretion.
CARGO GEAR: Factory Act Book for Cargo Gear. Cargo work cannot commence unless certificates valid.
IDENTIFICATION CARDS: Not needed.

REPAIRS: All types of deck and engine repairs possible.
DRY DOCKS: Malta Dry Docks Corp. operates five dry docks up to 861 ft. length, 130 ft. 6 in. wide.
SERVICES: Tank clearing and underwater hull cleaning undertaken by Malta Dry Docks Corp.
REPATRIATION: Facilities exist for crew changes and repatriation by air.
AIRPORT: Four miles from port. Served by BEA/Alitalia daily to London and Rome.
TIME: GMT plus 1. No alterations made during year.
HOLIDAYS: New Year (1st January); Epiphany (6th January); St. Paul's Shipwreck (10th February); St. Joseph's Day (19th March); Good Friday (no work performed at all on this holiday and in the afternoon of Tuesday Carnival); St. Joseph the Worker (1st May); Ascension Day (date changes); St. Peter and St. Paul (29th June); Assumption of B.V. Mary (15th August); National Day (8th September); All Saints Day (1st November); Immaculate Conception (8th December); Christmas Day (25th December) (no work performed at all).
POLICE/AMBULANCE/FIRE: Police 26934; Ambulance 21251; Shore Fire Brigade 24001.
TELEPHONES: Can be arranged in Dry Docks berth, and on buoys. Cost approx. £1 per week.
GENERAL: Important that tankers are gas-free before entering, and that cargo vessels do not carry explosives.
AUTHORITY: Superintencdent of Ports, Custom House, Valletta.
AGENT: Lambert Brothers (Malta) Limited. 38 Lascaris Wharf, Valletta, Malta. Telegraphic address: "Lambert, Malta." Tel. 24360 or 20771. After office hours 32776. Telex 241. Ship agents, Insurance and Travel Agents.

Marianas Islands

GUAM, (Apra Harbour): 13.26 N. 144.39 E.

DOCUMENTS: Guam is part of the American Trust Territories in the Western Pacific and official documentation is as for mainland U.S. ports, including visaed crewlist completed at port of departure prior to Guam. Vessels should have a stock of American Crew Lists Form I-148 and Form I-95A. The American Alien Crewman Landing permit is acceptable and preferred. This is the plastic identification card previously issued on the U.S. coast.
Required on arrival:
Vaccination Cards.
Visaed Immigration Crew List.
4 Crew Lists.
4 Passenger Lists.
1 Store List.
Clearance from last port.
Cargo papers.
Have ready Immigration Form I-94 for each passenger and Form I-95A for each alien unless they have I-184 plastic Identification Card. Shore Passes not required. Crew Customs Declaration not required.
RESTRICTIONS: The U.S. Navy is in complete control of the approaches to Guam and it is essential to obtain clearance and permission to enter Guam from "Commanding Officer U.S. Naval Station Guam", call sign NRV (this is the U.S. Coast Guard Station) at least 24 hours prior to arrival. Permission is readily granted with the condition to request permission again two hours prior to arrival at Guam. This time from Guam control, same station NRV. Depth of water not less than 100 ft. on the 084° True range of the Leading lights/beacons at the entrance to Apra and Outer harbour – 55 ft. at the berth. In day time, the beacons on the 084° range are visible from sea at a distance of at least ten miles.
PILOTAGE: It is advisable to have on board U.S. charts for Guam: C & GS 4197 Apra Harbour. 4198 Guam Approaches.
Pilot usually boards at Quarantine anchorage, or just inside breakwater. When requested will board outside, weather permitting. Vessels may enter Outer Harbour and anchor after dark, but pilots are furnished daylight hours only. Pilot mandatory in Inner Harbour. Navy tugs available and normally used.
ANCHORAGE: Harbour – range 084° True, two green lights. Strong set across harbour entrance, Navy recommends 10 knots entering. Quarantine anchorage at Middle ground, Outer Harbour, depth 45 ft.
RADIO: No commercial ship/shore radio. Use USCG Station "NRV" for best service, also U.S. Navy Station "NPN". If unable reach Guam, route messages via San Francisco, Japan, Honolulu, or Manila. Prior to arrival, call "Guam Control" on 2716 Kc/s for entry permission, advising ETA and any explosives aboard. Note distress frequency 2182 kc/s. not normally monitored on Guam. Within 24 hours of arrival contact "Guam Control" giving ETA (account harbour traffic).
HEALTH: If from suspect port, Inspector boards at anchorage or at pier for thorough check. Grants Pratique.
BERTHING: Port side to, one large tug and one small tug normally used. Ship's gangway is required. Local information from pilots states that after completion of this oil berth a submerged wreck was discovered, said to be a five hundred foot long cargo vessel, and lies across and below the vessel in this berth, on the eastern side of the jetty. It is advisable not to drop anchors – should they have to be used – until vessel has passed over the wreck. There have been instances of forward springs or breastlines becoming fouled in this wreck during operations.
HOSES: Four 10 in. flexible hoses connected by ship's crew. Two 20 in. lines.
IMMIGRATION: Prior to Departure for Guam:
A. Visaed Crew List: Prepare one Crew List on U.S. Form I-418 and have it visaed by a U.S. Consulate at a port prior to Guam. Without this, crew shore leave may be denied.
B. Passengers must have a valid passport and also must have an appropriate U.S. Visa whether landing or not on Guam.
C. Intransit passengers do not need U.S. Visa if the Owners of the vessel have signed a contract called "Immediate and Continuous Transit Agreement" with the Commissioner of Immigration at Washington, D.C.
D. Obtain a supply of U.S. Form I-84 for passengers and U.S. Form I-95 for Crew.
2. Prior to Arrival at Guam:
A. Passenger List, Form I-418 prepare 3 copies of passenger List on U.S. Form I-418 for Immigration, Customs and Agent.
B. Passenger Landing Card Form I-94 these to be presented by passenger with passport.
C. Crewmen's Landing Permit Form I-95A prepare or have on hand, one U.S. Form I-95A for each alien crew member. Not required if crew member is a permanent resident with U.S. I-184 laminated "*Crewmen's Landing Card*", not required of U.S.A. Citizens. Please present Form I-95A in appropriate Seaman's passport or identification book. Form I-95A can be used repeatedly for future arrivals of same crewman on same ship.
3. Upon Arrival at Guam:
A. U.S. Federal Immigration Inspector boards upon arrival at pier, must see all passengers with their passport and Form I-94 and all crew members with their passport or identification books and Form I-94A or Form I-184.
B. Passengers and crew are required to be ready for inspection immediately upon docking at Guam.
C. No shore leave and no mail distributing and no visitors or stevedores may board until this immigration inspection is complete. The inspector will advise Master when he has completed his inspection of passengers and of crew.
4. Prior to Departure from Guam:
A. *Intransit Passengers:* pick up from intransit passengers the Form I-94 and hand to Agent before departing from Guam. These must be returned by Agent to U.S. Immigration as passenger departure records.
B. Alien Crewmember joining at Guam pick up from them the Form I-94 which they used to enter the U.S.A. These must be returned to U.S. Immigration by Agent as permanent records.
PORT SECURITY: Guam Government Official usually boards at pier, examines vaccination cards (smallpox vaccination required) and inspects Steward's stores and slop chest. Also represents U.S. Customs. Requires 1 Crew List, 1 Passenger List, 1 Store List, Clearance from last port, later issues new clearance from Guam which Agents bring to ship. Normally does not seal stores or slop chest.
MARINE GUARD: Required when docked at Ammo pier, requires 1 Crew List.
U.S. COAST GUARD: Marine Inspection and Shipping Commissioner Services. Requires 1 Crew List. Checks official log book and arrival draft.
FUEL: Mobil Petroleum can supply black oil or truck diesel, but no marine diesel. Requires ship move to their pier, no commercial fuel barge. Unable supply fuel while Ammo vessel or Bulk Cement vessel working. Possible to supply by truck/trailer to other piers. Navy

special (Black Oil) and marine diesel available from Navy on emergency basis only, sufficient to reach next bunkering port. Cash payment required in advance of delivery. Will not normally supply commercial vessels. Navy barge available.
FRESH WATER: Very good, available any quantity, meter service. No water barge.
STORES: No ship chandler, order through Agent. Available but considered expensive. Produce from U.S.A., Milk is recombined in quart cartons, White, Chocolate or Buttermilk. Order milk day prior to delivery. Tropical fruits seldom available. Ice in blocks or cubes. Prices wholesale, except under one case lots when at retail. Delivered to ship's gangway or hook.
LAUNDRY: Also dry-cleaning available, U.S.A. prices. One-day service extra. Delivered to ship's gangway or hook.
MEDICAL: Foreign ships use Guam Memorial Hospital or Catholic Medical Centre or other clinics in town. American ships use U.S. Naval Dispensary in Harbour area, or in emergency U.S. Naval Hospital near Agana, 10 miles distant. Certificates required signed by Master. Patient returns to vessel by taxi at vessel's expense. Dispensary hours for merchant seamen Monday to Friday 1800–1500. At other times, if emergency, use the U.S. Navy Hospital. Doctors will not normally visit ships.
Dentists: Private dentists only. Usual hours 0900–1700, Saturday to 1200.
REPAIRS: Commercial Yard, Dillingham Maritime Services Yard available. Navy Yard, repairs by U.S. Naval Ship Repair Facility (SRF), subject to prior Navy commitments, and requires cash deposit in advance. Payment to be made for work done successfully or not. "No Cure No Pay" does not apply.
TIME: G.M.T. plus 10 hours. When on Daylight Saving Time, G.M.T. plus 11 hours.
POLICE/FIRE/AMBULANCE: Ambulance U.S. Naval Dispensary, Harbour Area, 339–4224/4227; Fire, 22222; Police – Naval Station Security, Harbour Area, 333–2968; Police – Guam Civilian Police, Agana 777–9611

Martinique

FORT DE FRANCE: 14.36 N. 61.04 W.

PORT LIMITS: The straight lines joining Pointe des Negres, the South extremity of Fort St. Louis and Pointe d'Alet.
DOCUMENTS:
Maritime Declaration of Health.
4 Crew Lists.
2 Provisions Lists.
2 Lists of Passengers in Transit.
5 Lists of Passengers Disembarking.
2 Lists of Crew Personal Effects.
2 Vessel's Particulars Declarations.
2 Cargo Manifests.
PILOTAGE: Call Pilot by International Code flag "G" or by sounding "G" on whistle. Pilot launches are painted black. The Pilot joins vessel on arrival at Pointe des Negres. If Pilot not available, vessel must anchor in the Baie des Flamands East of Point des Negres to await Pilot.
ANCHORAGE: In Baie des Flamands in front of the town. Depths of 10–40 metres.
MAX. SIZE: Length 190 metres. Draft 10 metres. Tankers: See below.
HEALTH: Request free pratique by radio or can be obtained on arrival when Master completes Health Declaration and presents Health Certificates.
RADIO: Fort de France Radio, call sign FFP. ETA message to Agent required 24 hours before arrival on working days or 48 hours on holidays. Message to include number of crew on board.
TUGS: None available.
BERTHING: Alongside quay. Maximum depth 10 metres.
MEDICAL: Doctor and hospital facilities available.
TANKERS: *Petrol Pier:* depth alongside 17 metres, can accommodate tankers up to 65,000 dwt. Crude discharge through two 12-in. Chicksan Arms, capacity 4,500 tons per hour.
Vessel's displacement is limited by strength of the dolphins.
Refinery Berth: depth alongside 7·50 metres, for loading products, fuel, gas oil, kerosine at a rate of 150 tons per hour.
DENSITY: About 1028.
FRESH WATER: Available from quay in unlimited quantity. Rate 50–80 tons per hour.
FUEL: All grades available subject tp 12 hours advance notice.
GANGWAY/DECK WATCHMEN: Recommended. Performed by crew members.
OPENING/CLOSING HATCHES: Can be performed by crew.
CUSTOMS ALLOWANCES: 200 cigarettes per man. All alcohol to be declared.
IDENTIFICATION CARDS: Not necessary.
CONSULS:

Belgium	Italy	Spain
Denmark	Netherlands	Sweden
Germany	Norway	U.S.A.
Haiti	Portugal	Venezuela

REPAIRS: Minor repairs possible.
DRY DOCK: One, 200 m. length, 21 m. wide. Equipment restricted.
REPATRIATION: Facilities for crew change and repatriation.
AIRPORT: 7 miles from the port, served by regular airlines.
HOLIDAYS: 1st January, Shrove Tuesday, Ash Wednesday, Easter Monday, 1st May, Ascension Day, Whit Monday, 14th July, 15th August, 1st November, 25th December.
POLICE/FIRE/AMBULANCE: Police, tel.: 17 and 43–06; Fire/Ambulance, tel. 18 and 22–64.
AUTHORITY: Capitainerie du Port, tel. 20–73.

Mauritania

NOUADHIBOU (Port Etienne):

POINT CENTRAL: 20.49 N. 17.03 W.

PILOTAGE: Pilotage is compulsory only for vessels berthing. Pilots normally board vessel at No. 2 Channel Buoys. Pilots may be ordered by VHF before arrival through Agent.
ANCHORAGE: Ships waiting for a berth should anchor about ¾ mile to the South-east of wharf. North-east of wharf is a turning area in which ships are forbidden to anchor.
RESTRICTIONS: Controlling depth in channel is 17 metres, and alongside mineral berth 16 metres at maximum LW. Depth alongside oil berth (south part of the wharf) 11.50 metres.
Water density is 1025. Loading is completed during flood tide, and vessels sail at high water.
HEALTH: Free pratique is given only after vessel has berthed.
TUGS: None available.
BERTHING: The ore-loading terminal of Société des Mines de Fer de Mauretanie (MIFERMA) is located in position 20° 49′ N., 17° 02′ W. The terminal comprises a single pier on steel piles, the northern part of which is the ore-carrier berth. Vessels moor port side to pier. The starboard anchor may be required to assist in berthing. Ships are requested to berth with a quantity of ballast equal to half of their cargo capacity. Vessels are loaded by travelling conveyor belt. The loading rate is up to 3,700 tons per hour.
FRESH WATER: Not available.
FUEL: Not available.
MEDICAL: There are hospital and medical facilities at the port. All officers and crew require valid smallpox and yellow fever inoculations.
CUSTOMS ALLOWANCES: All Bonded stores must be carefully declared. The vessel is liable to be fined if quantities are found to be more or less than those declared.
AUTHORITY: Société des Mines de Fer de Mauritanie.

NOUADHIBOU HARBOUR: 10.54 N. 17.03 W.

PILOTAGE: Not compulsory but recommended. Pilots are the same as for Point Central, and can be contacted by VHF Channel 16.
RESTRICTIONS: The main berth is available for ships of maximum 7·30 metres draft. Other berths are used for trawlers or small cargo vessels according to draft, length and Harbour Master's instructions.
FRESH WATER: Available for only small vessels.
FUEL: Available for only small vessels.
AUTHORITY: Capitainerie du Port.

AGENT: SOCOPAO – R.I.M., B.P. 7, Nouadhibou. Tel. 23. Cables "FREIGHT".

Mauritius

PORT LOUIS: 20.09 S. 57.30 E.

PORT LIMITS: The commercial area of the port is the area inside the port bounded by the entrance buoys and the shore line of the inner harbour. Vessels at the outside anchorage lie within the limits of the port defined by an imaginary line joining Pointe Aux Sables and Pointe aux Pimentes. In this area commercial activities are restricted to bunkering, ship repair and the landing of passengers or personnel.
PILOTAGE: Compulsory. Vessels are brought in or taken out of the harbour at any time before or after official hours by special arrangement with the Director of Marine.
ANCHORAGE: Open roadstead with anchorages for vessels of any draft.
MAX. SIZE: Harbour entrance depths from 42 ft. to 119 ft. Channel – dredged to 32 ft.
RADIO: Port Authorities require to be notified of the date of the vessel's arrival by radio as soon as it is possible for Master to communicate with Harbour either:
1. By CW transmission through the Government Radio Station (3 BA) at Vacoas on 500 kc/s.
2. By R/T transmission through Port Louis Harbour Radio Station (3 BB 3) on 2182 kc/s.

VHF: Port Louis Harbour Radio Station is equipped with VHF and maintains 24-hour watch on Channel 16.

TUGS: One 2,300 h.p. deep-sea and salvage tug *Le Corsaire*. Two 720 h.p. diesel-engine tugs, *Betty* and *Winnie*. These tugs are available for deep-sea towage and salvage and are fitted with fire-fighting equipment, RT, WT and VHF. Three smaller tugs of 320 h.p. are also available for harbour work.

BERTHING:

Quay D, length 485 ft., depth alongside 31 ft. 6 in. Can take one vessel up to 580 ft. overall, draft 30 ft. 6 in.

West Quay, length 400 ft., depth alongside 35 ft., designed for white oil and fertiliser discharge.

Quay C, length 396 ft., depth 18 ft. alongside for a length of 310 ft. Can take one vessel up to 300 ft. length, and 17 ft. draft.

Buoys: 6 berths capable of taking ships up to 31 ft. maximum draft; 3 berths capable of taking ships up to 29 ft. 6 in. maximum draft; 1 berth capable of taking ships up to 25 ft. maximum draft; 3 berths capable of taking ships up to 20 ft. maximum draft, maximum length 350 ft.; 2 berths capable of taking ships up to 16 ft. maximum draft; maximum length 225 ft. Vessels of 31 ft. are berthed in Quarantine Berth in No. 5E, No. 4E, No. 2E, No. 2W, and No. 5W. Distance between buoys at entrance 1½ cables.

SPECIALISED CARGO-HANDLING FACILITIES: LPG carriers berth at Quay D; there are no facilities for full containerisation and roll-on/roll-off traffic.

Bulk Cargo: Cement Discharging facilities. Rate of discharge 500 tons per hour. Maximum draft 20 ft., minimum 18 ft.; capacity of Silo: 7,400.

STEVEDORING: Undertaken by private contractors. Approximate rate of loading per day of eight hours: Sugar in bags, 200–250 t. per gang per day; sugar in bulk, 200–250 t. per gang per day; general cargo, 60 t. per gang per day; rum in drums, 100 t. per gang per day; bales hemp, 100 t. per gang per day.

Working hours: Mondays to Fridays from 7 a.m. to 4 p.m. Saturdays from 7 a.m. to 1 p.m. Overtime can be carried out on weekdays up to midnight and up to 1600 hours on Sundays and public holidays.

MEDICAL: Arrangements for medical attendance should be made through ship's Agent. Private clinics available.

FRESH WATER: Fresh water supplied by barges at any berth between 7 a.m. and 4 p.m. Arrangements can be made for supply before 7 a.m. and after 4 p.m. on payment of overtime. The rate is about 25 to 30 tons per hour. Four barges of 50, 75, 85 and 110 tons respectively are available.

FUEL: Gas oil, marine diesel and furnace oil obtainable. (Arrangements must be made in advance between Owners and the Shell Co., BP, or the Anglo-Iranian Oil Co.) The pumping capacity of the installations at Port Louis for furnace oil is between 150 and 200 tons per hour, and for marine diesel oil and gas oil 50 tons per hour. Marine diesel oil and furnace oil (35 secs. to 1,000 secs.) is supplied at Quay "D". Furnace oil 1,000 seconds only is supplied on No. 5 West berth.

A 400-ton bunkering barge available to supply vessels in harbour and outside anchorage.

DEVELOPMENTS: Planned to dredge harbour to 45 ft. and to reclaim approximately 200 acres of land for port installations.

REPAIRS: Almost any type of repair can be undertaken in Mauritius.

DRY DOCK: Stevenson dry dock. Largest vessel that can be docked: 326 ft.×48 ft., with a maximum draft of 16 ft.; vessels of up to 358·5 ft.×50 ft. can also be docked, but at least 15 days notice should be given.

CONSULS: *Consulates:* Belgian, Danish, Dutch, Finnish, German (Federal Republic), Norwegian, Portuguese, Spanish and Swedish. *Embassies:* French, Malagasy, American, Russian and Pakistan. *High Commission:* British and Indian.

HOLIDAYS: 1st January (New Year's Day), port closed; 22nd January (Cavadee); 6th February (Chinese Spring Festival); 18th February (Id-El-Adha); 6th March (Maha Shivaratree); 12th March (Independence Day); 1st May (Labour Day); 29th October (Divali); 1st November (All Saints' Day); 1st December (Id-El-Fitr); 25th December (Christmas Day).

POLICE/FIRE: Police, tel. 999; Fire, tel. 999.

AUTHORITY: Mauritius Marine Services Dept.

Mexico

ACAPULCO: 16.50 N. 100.00 W.

DOCUMENTS:

Health Clearance from previous port.
Health Pratique.
4 Stores Lists.
4 Lists of Crew's Personal Effects.
12 Crew Lists.*
2 Passenger Lists.*
12 Manifests of cargo for the port.*
* One copy to be visaed by Mexican consul.

PILOTAGE: Pilot is ordered by Agent on the basis of Master's ETA, which should be given accurately at least 24 hours before arrival. Pilot boards at the port limits, approximately one mile from the entrance.

ANCHORAGE: Vessels may anchor in the middle of the bay as indicated by the Pilot. Depths up to 150 ft.

RESTRICTIONS: The Bay of Acapulco is a natural harbour surrounded by mountains, approximately 4 miles across at its widest part and 2½ miles across at its narrowest. There are two entrances, one called Boca Grande and the other called Boca Chica.

Boca Grande is between Punta Siclata on Isla de la Roqueta and Punta Bruja. The channel is 3,000 m. wide with a depth of 31 fathoms in mid-channel.

Boca Chica channel, between Isla de la Roqueta and the Peninsula of Las Playas is 300 m. wide with a depth of 14 fathoms in mid-channel.

MAX. SIZE: For berthing alongside maximum draft 28 ft. 6 in.

HEALTH: When vessel arrives at the port the following Authorities will board: Port Health Authority, Customs and Immigration, accompanied by the ship's Agent.

RADIO: Coastal station of Acapulco receiving on 8374 kHz in day-time and on 4180 kHz at night. Transmitting on 8514 kHz in day-time and 4250 kHz at night. Radiotelephone receiving and transmitting on 2715 kHz during the day and on 2182 kHz from 2000–0600 hours local time. VHF service available from 0630 to 2300.

TUGS: One tug is required for berthing. Tug's line used.

MEDICAL: Agent should be advised by radio in advance if any medical assistance required. Hospital facilities available.

TANKERS: Tanker moorings operated by Petroleos Mexicanos situated on the Eastern side of the bay. It is strictly prohibited to discharge oily residues in the bay or within 40 miles of the port.

FRESH WATER: Can be supplied by hoses from the quays, rate about 15 tons per hour.

OPENING/CLOSING HATCHES: Is performed by stevedores.

CUSTOMS ALLOWANCES: Crew members are only allowed to retain cigarettes, tobacco and liquor sufficient for their own consumption while vessel is in port.

IDENTIFICATION CARDS: Crew members should carry a passport.

CONSULS:

Denmark	Tel. 2.11.11	Italy	Tel. 2.25.10
France	,, 2.43.83	Norway	, 2.19.56
Great Britain	,, 2.29.21		

REPAIRS: Minor engine repairs can be effected. No dry docks, only a slipway for vessels up to 100 tons.

REPATRIATION: Can be arranged.

AIRPORT: International Airport situated 22 km. from the port, daily flights to all parts of the world.

TIME: GMT minus 6 hours all through the year.

HOLIDAYS: The following holidays can only be worked in case of emergency: 1st January; 5th February; 21st March; 1st May; 5th May; 16th September; 12th October; 25th December; and in addition 23rd May, Anniversary of the Stevedores' Union.

POLICE/FIRE/AMBULANCE: Police tel. 2.00.40; Fire 2.00.42; Ambulance (Red Cross) 2.02.41. and/or 2.00.88.

TELEPHONES: Cannot be connected on board the ship but Master may make calls from the quay.

SHORE LEAVE: Allowed.

AUTHORITY: Capitania de Puerto, Av., Miguel Aleman, Palacio Federal – 2nd floor. Tel. 2.20.67.

AGENT: Representaciones Maritimas, S.A. c/o. Ricardo Careaga E Hijos, S. De R. L., C.M. Aleman No. 187–31 3er Piso, P.O. Box 256. Acapulco, Gro. Mexico. Tel.: 2 23 35. Telex 017 516 Cables: "Maritimex".

COATZACOALCOS: 18.08 N. 94.25 W.

DOCUMENTS:

2 Crew Lists visaed by Mexican Consul, and 6 simple copies of Crew List, not visaed.
2 Visaed Cargo Manifests from each loading port.
10 Cargo Manifests not visaed.
(If in ballast, 2 cargo manifests not visaed.)
1 Clearance from Last Port of call.
1 Vaccination List (smallpox).
2 Passenger Lists from each loading port visaed by Mex. Consul.
6 Passenger Lists not visaed.
8 Passenger Lists in transit, not visaed.
Fumigation Certificate has to be shown.

Passports or Seaman's Books to be kept handy as Authorities will take them ashore, but being returned shortly before sailing. Above documents are required when vessels dock at piers located in the Free Port Area called "Puerto Libre de Coatzacoalcos" being free of Customs intervention. When vessels dock at fiscal berths, or at "Pajaritos FFM private berth" or proceed to Nanchital Pemex Terminal or to Fiscal Port at Minatitlan in addition to above documents has to present to Customs Authorities the following:

3 Ship's Store Lists.
3 Personal Effects Lists.
3 Dangerous Cargo Lists, if any.

PILOTAGE: Compulsory. Pilot meets vessel off the jetties at Coatzacoalcos Estuary. Master should give Agent information not less than 24 hours prior arrival stating vessels name, flag, and ETA as well as draft.

Pilot boat black hull, white housing.

ANCHORAGE: Only in the roads, about 2 miles off Coatzacoalcos for vessels awaiting berth or Pilot. Depth of water in anchorage 36ft.

RESTRICTIONS: Vessels may enter harbour only with daylight. Harbour remains closed to navigation from 1800 to 0600 hours.

MAX. SIZE: Maximum LOA at Pajaritos (New Port) where FFM private owned berth of 610 ft. Maximum LOA at Free Port Area of 600 ft. No breadth restriction at both.

Max. draft permitted at Pajaritos 32 ft. fresh water.
Max. draft permitted at Free Port 30 ft. fresh water.

HEALTH: Pratique never given by radio. Vessels granted free

pratique when berthed alongside if no contagious illnesses aboard. See "Documents."
RADIO: No port radio. Vessels give ETA to Agent through Veracruz Radio, Merida Radio or Galveston Radio.
TUGS: Tugs join vessels in the river when entering. Tug's lines used. Towage is compulsory for docking, undocking and shifting berth in the harbour. For vessels up to 4,000 GRT one tug, over 4,000 GRT two tugs.
BERTHING: Normally vessels docked starboard side alongside. When current and circumstances permit vessel docked port side alongside. When vessels berthing must prepare accommodation ladder to be boarded by Port Authorities. There are seven docks in the Free Port area numbered 2, 3, 4, 5, 6, 7 and 8. Nos. 2, 3 and 4 exclusively for general cargo. Depths alongside: No. 2, 25 ft.; No. 3, 27 ft.; No. 4, 30 ft. Nos. 5, 6 and 8 exclusively for loading sulphur in bulk (dry and liquid). Depths alongside these 3 berths of 32 ft. No. 7 for discharging bulk harmless fertilisers. Depth 28 ft. There is one berth at Pajarito FFM private berth where bulk harmless fertiliser loaded or discharged. Depth of 33 ft. There are two small berths at Coatzacoalcos Fiscal Port used only for fishing-boats and tugs. No loading or discharging performed at these berths. Depths alongside of 18 ft.
STEVEDORES: No ETA advice necessary. Free Port: Straight working hours: from 0800 to 1200 and from 1400 to 1800 hours Overtime 100% overcharged according Tariffs. Latest times to order gangs: 0730, 1330 and 1730 hours. Straight time above hours Monday through Saturday. Sunday and holidays allowed to work except "Legal Holidays". Loading and discharging rates: 25 tons gang/hour using ship's derricks. No shore cranes available. Loading sulphur by conveyor belts at 500 tons per hour, working around the clock.

Private FFM Berth: Loading or discharging operations performed by their own personnel working 24 hours per day. Rate of loading by conveyor belt: 500 tons per hour. Rate of discharging 1,100 tons per day with ships gear.
MEDICAL: Hospital facilities available. No advance notice required for medical attention. Smallpox vaccination certificates inspected on arrival. If certificates expired crew members are revaccinated at Health Department.
DENSITY: Averages 1012.
FRESH WATER: Available at berths in Free Port area, delivered by 2 in. hose. Loading rate about 4 tons per hour.
FUEL: Fuel can be supplied at Coatzacoalcos port by tank-trucks when vessels need small quantities. Petroleos Mexicanos (PEMEX) has at Nanchital a loading terminal which is about 3 miles up-river from Coatzacoalcos (max. draft 27 ft. 06 in.) where Bunker C fuel available.

Diesel oil only available at Minatitlan, about 17½ miles up-river from Coatzacoalcos (max. draft 21 ft.). If vessel bunkers at Nanchital or Minatitlan there will be at least one day delay and heavy extra expenses.
DEVELOPMENTS: Presently Pemex is constructing new berth at Pajaritos Lagoon where their vessels will load crude oil.
CUSTOMS ALLOWANCES: No restriction for free use on board.
CONSULS: Norwegian and Swedish only.
REPAIRS: Minor repairs may be effected. No dry dock available.
AIRPORT: At Minatitlan, about 40 minutes car drive away. 2 regular flights to Mexico City.
TIME: 6 hours behind GMT.
HOLIDAYS: No work performed on following legal holidays: January 1st; February 5th; March 21st; May 1st; September 16th; November 20th; December 25th; and December 1st every six years when Federal Government changes President.
TELEPHONES: No facilities for placing telephones on ships.
POLICE/AMBULANCE/HOSPITAL: Police tel. 2 01 22, Red Cross 2 02 85; Hospital 2 00 30.
AUTHORITY: Capitaneria del Puerto.

AGENT: Representaciones Maritimas, S.A. Calle Juarez 320 Altos Coatzacoalcos, Ver. Tel. 2 01 71. Telex 078 822. Cable: "Maritimex", Coatzacoalcos.

MANZANILLO: 19.03 N. 104.20 W.

DOCUMENTS:
14 Crew Lists.
20 Passenger Lists.
Derat Certificate.
Vaccination Certificate for each crew member.
Cargo Manifest and one copy to be visaed.
8 additional copies of Cargo Manifest, unvisaed.
10 Bills of Lading, one copy to be attached to each cargo manifest.
PILOTAGE: Pilot station cannot be contacted by radio, and Pilots are ordered by Agents basis Master's ETA.

Pilot boat is black with white wheel-house on which is painted letter "H". International Code signals used. Pilot normally boards vessel about one or two miles from breakwater but if requested in advance the pilot boat will come out to five or six miles. Pilot cannot board in rough weather. Vessels waiting for Pilot may anchor about two or three miles N.W. of breakwater in depths of 12–15 fathoms.
ANCHORAGE: Vessels may anchor in the whole North part of the Bay where depths are 12–15 fathoms at a distance of one to two miles from the coast.
RESTRICTIONS: Vessels may enter at any time day or night.
MAX. SIZE: No limitation for anchoring in the bay. For mooring alongside, maximum length 200 metres, maximum draft 32 ft. Tankers can be accepted up to 36 ft. draft.
HEALTH: Port Health Officer and Immigration Officers board vessel at anchorage. Passengers and crew may be required for inspection. All passengers and crew members must possess Smallpox Vaccination Certificates.
RADIO: Coastal station Manzanillo Radio, call sign XFM, operating 0600–1800 local time.
TUGS: One tug available, compulsory to use tug when mooring alongside. Tug will join vessel as ordered by the Pilot.
BERTHING: Vessels may berth at both sides of the pier or at the North end of the pier.
STEVEDORES: Advise Agent in advance number of gangs required. Discharge rate approximately 20–25 tons per hour per gang.
MEDICAL: Agent should be advised in advance if medical attendance required on board. Hospital facilities available.
TANKERS: One berth available for tankers up to 36 ft. draft.
FRESH WATER: Should be ordered in advance. Rate of 10 tons per hour. Vessels must furnish own steam for pumping, 2 inch coupling. No barges available for delivery at anchorage.
FUEL: Should be ordered in advance: All grades available. May be expensive due customs fees.
DEVELOPMENTS: Improvements are in progress to accommodate vessels up to 30,000 tons with a draft of 40 ft.
GANGWAY/DECK WATCHMEN: No shore service available.
OPENING/CLOSING HATCHES: Normally performed by crew members.
CUSTOMS ALLOWANCES: Each crew member may retain one carton of cigarettes, and one bottle wine/spirits for his own use. No alcohol may be taken ashore.
IDENTIFICATION CARDS: Identification cards or shore passes are necessary for crew going ashore.
CONSULS: Nearest are at Colima and Guadalajara.
REPAIRS: Only repairs to auxiliary machinery can be effected. At Guadalajara hull repairs may be effected provided dry dock not required.
REPATRIATION: Can be arranged.
AIRPORT: Local airport only for internal traffic.
TIME: GMT minus 6 hours all the year round.
HOLIDAYS: The following holidays can only be worked in case of emergency: 1st January; 5th February; 21st March; 1st May; 5th May; 16th September; 12th October; 25th December; and in addition 23rd May, Anniversary of the Stevedores' Union.
POLICE/FIRE/AMBULANCE: Police tel. 4; Fire 23; Ambulance 96.
TELEPHONES: Cannot be connected on board ships.
SHORE LEAVE: Permitted except for crews of Russian, Cuban and Communist Chinese vessels.

Crew members required present their identity cards to Immigration at the gangway. Crew members left behind by vessel must be covered by 10,000 Pesos bond to guarantee repatriation expenses.
AUTHORITY: Capitania de Puerto Edificio Federal, Morelos y 5 de Mayo. Tel. 34.

MINATITLAN: 17.54 N. 94.35 W.

DOCUMENTS: See "Coatzacoalcos."
PILOTAGE: See "Coatzacoalcos Pilotage." Port about 17½ miles up-river from Coatzacoalcos. Vessels are piloted either up-river or down-river to and from Minatitlan.
ANCHORAGE: Only at Coatzacoalcos. At Minatitlan river is narrowed and anchorage not permitted.
RESTRICTIONS: Vessels may enter harbour only in daylight. Latest time for entry and sailing to and from Minatitlan is 1500 hours.
HEALTH: Pratique never given by radio. Vessels granted pratique at anchor at Coatzacoalcos. Vessels must prepare accommodation ladder, to be boarded by port authorities.
MAX. SIZE: Maximum LOA at Pemex berths: 475 ft. Maximum LOA at Fiscal berth: 440 ft. No breadth restrictions at both. Maximum draft permitted: 21 ft. in fresh water.
TUGS: One tug required to accompany vessels past the Coatzacoalcos Bridge. Tugs rejoin vessels in the river on arrival at berth. Tug's lines used. For vessels over 2,000 GRT one tug required, over 3,000 GRT two tugs required.
BERTHING: Normally vessels dock starboard side to. Petroleos Mexicanos (Pemex) has 8 berths for tankers, where they can load crude, fuel oil, gasoline benzene, xylene, metaparaxylene, toluene and other petroleum derivates. Fiscal berth has a length of 80 metres Depth alongside of 22 ft. Actually only used to discharge bulk harmless fertilisers Discharge performed by elevator at a rate of 800 tons per 24 hours Also by ship's gear using buckets at a rate of 200 tons per day per hatch.
TANKERS: No ballast to be discharged in the river. All ballast to be discharged to shore tanks through two 6 in. pipe-lines.
STEVEDORES: No ETA advice necessary. Agent or Receivers of cargo order gangs to discharge. Straight working hours from 0700 to 1500 Mondays through Saturdays. Latest time to order gangs 0645 and 1445 hours.
DENSITY: Averages 1006.
MEDICAL: Hospital facilities available.
FRESH WATER: Available at all berths, but is not recommended.
FUEL: Marine diesel oil and Bunker "C" obtainable at Pemex berths. Bunker "C" also obtainable by barge, and diesel oil only by tank truck.
CUSTOMS ALLOWANCES: No restrictions. Free use on board. Two customs guards remain on vessel while alongside.
DEVELOPMENTS: Constant programmes for more berths, sheds, dredging and equipment are under way, but rather slow.
REPAIRS: No dry docks available, but small repairs can be done in shore repair shops.

AIRPORT: About 15 minutes car drive away. Regular flights to Mexico City.
TIME: 6 hours behind GMT.
TELEPHONES: No facilities for placing telephones on ships.
AGENTS: See "Coatzacoalcos".

NANCHITAL: 18.00 N. 94.27 W.

DOCUMENTS: See "Coatzacoalcos."
PILOTAGE: See "Coatzacoalcos Pilotage." Port about 3 miles up-river from Coatzacoalcos.
ANCHORAGE: See "Coatzacoalcos Anchorage."
RESTRICTIONS: Vessels may enter Coatzacoalcos only with daylight. Navigation from Coatzacoalcos to Nanchital remains closed from 1630 to 0700 hours.
MAXIMUM SIZE: Maximum LOA 580 ft. No breadth restrictions. Maximum draft permitted 27 ft. 06 in.
HEALTH: See "Coatzacoalcos."
TUGS: When vessels proceed to Nanchital, 1 tug accompanies to pass the Coatzacoalcos bridge, according to Port Regulations. Tugs again join vessels when arriving at Nanchital berths. Tug's lines used. For vessels over 4,000 GRT two tugs used.
BERTHING: Normally vessels dock port side alongside. When current and circumstances permit vessel is turned around and docked starboard side to. There are two docks at Nanchital, called Old Pier and New Pier. Both to load crude oil, No. 6 fuel oil by pipe line of 6 in. and up to 10 in. Mooring, unmooring, connecting and disconnecting hoses performed by Pemex own labourers.
MEDICAL: Hospital facilities available only at Coatzacoalcos.
BALLAST: Special regulation for tankers that no ballast water to be discharged in the river. Deballasting performed by two pipe-lines of 6 in. diameter to shore tanks.
SALINITY: Average 1006.
FRESH WATER: Available at both berths but is not recommended for drinking.
FUEL: Available only at the Pemex Oil Terminal at any time.
DEVELOPMENTS: Constant programmes for more berths, sheds, dredging and equipment are under way, but rather slow.
CUSTOMS ALLOWANCES: No restrictions. Free use on board. Two Customs guards stay on board. Vessel to provide them boarding and lodging.
CONSULS: None.
REPAIRS/DRY DOCKS: No dry docks available, but small repairs can be done in shore repair shops.
AIRPORT: At Minatitlan, about 1 hour car drive away. 2 regular flights to Mexico City.
TIME: 6 hours behind GMT.
TELEPHONES: No facilities for placing telephones on ships.
AGENTS: See "Coatzacoalcos".

PROGRESO: 21.17 N. 89.39 W.

DOCUMENTS:
Crew List visaed by the Mexican Consul and 7 simple copies.
Visaed Cargo Manifest from each loading port and 4 simple copies.
Visaed Passenger List or visaed Statement to the Effects list.
Rat Exemption Certificate.
Valid Smallpox Vaccination Certificates for all crew and passengers.
Passports or Seaman's Book for all crew.
Clearance from last Port of Call.

PILOTAGE: Compulsory. No means available for Master to communicate with Pilot. Pilot boards vessel about 3½ miles North of the lighthouse.
ANCHORAGE: Vessels waiting for Pilot anchor 3½ miles from lighthouse and 1½ miles from lighthouse if waiting for berth in 25 ft. of water.
RESTRICTIONS: Vessels with maximum draft of 16 ft. are only allowed to enter or sail with high tide. No night restrictions.
MAX. SIZE: No length or breadth restrictions. Maximum draft 16 ft. for any kind of vessel.
HEALTH: Authorities require Smallpox Vaccination Certificates for all crew and passengers, and valid Rat Exemption Certificates. No radio pratique prior to arrival obtainable.
RADIO: Station XFN at Progreso, frequency: 500 and 455 kHz.
TUGS: No tugs available.
BERTHING: One pier heading 355° true. Berth available on both sides, East and West, with 204 metres length on each side, and both with 18 ft. depth alongside.
STEVEDORES: No ETA advice necessary if stowage plan received in advance by Agent. Otherwise, ETA advice for gangs required 6 hours prior to arrival. Stevedores' General Cargo discharging and loading rate about 12 tons per gang/per hour.
MEDICAL: Hospital facilities available. Advance notice not necessary.
DENSITY: Average 1015.
FRESH WATER: Available from pier by hoses. Fresh water is treated in the plant.
FUEL: Bunkers are available. Delivery by tanker truck equipped with pumps. Diesel and fuel supplied.
FIRE PRECAUTIONS: No smoking allowed aboard vessels.
DEVELOPMENTS: A new port is under construction with facilities to admit fishing vessels with 9 ft. maximum draft. No length, breadth or night restrictions. 600 metres of berths are under construction.
GANGWAY/DECK WATCHMEN: It is not necessary. Sometimes Masters require them.
OPENING/CLOSING HATCHES: This work is normally carried out by stevedores, but sometimes is carried out by crew in order to save time in loading or unloading.
CUSTOMS ALLOWANCES: Any quantity to be used on board is permitted.
IDENTIFICATION CARDS: Are needed for crew.
CONSULS: The Consular Offices are located in Merida, the capital of State of Yucatan (20 minutes from Progreso by taxi):

France	,, 1 60 13	USA	,, 1 60 30
Germany	,, 1 21 77		

REPAIRS: Small repairs can be carried out in shore shops. No dry docks available.
REPATRIATION: There are facilities for effecting crew changes and arranging necessary repatriation.
AIRPORT: International Airport in Merida, about 30 minutes from Progreso by taxi. Daily services to Miami, Fla., by Pan American World Airways and New Orleans La., every two days. Other flights to Central America, Jamaica, and Germany.
TIME: GMT minus 6 hours.
HOLIDAYS: January 1st; February 5th; March 21st; May 1st (Labour Day); September 16th (Independence Day); November 20th (Revolution Day); December 1st (every 6 years); December 25th; It is possible to work, paying 100% additional.
TELEPHONE: It is not possible to place telephones on board.
SHORE LEAVE: Crew members are allowed ashore.
AUTHORITY: Harbour Master (Captain of the Port) 31st Street, 157. Tel. 5 00 07.

AGENT: Representaciones Maritimas S.A., Fernando Patron Nicoli, c/o 27th Street No. 112, Progreso, Yucatan, Mexico. Cable "Patron". No Telex.

TAMPICO: 22.15 N. 96.51 W.

PORT LIMITS: Vessels at Mexican ports are usually considered as "arrived vessels" as soon as they are granted Free Pratique by the Port Authorities. Free Pratique will be granted alongside or at anchor midstream of river, and very seldom with only the very best weather to a vessel anchoring in the roads off Tampico.
DOCUMENTS:
1 Crew List visaed by Mexican Consul.
9 simple copies of Crew List.
1 Visaed Cargo Manifest from each loading port.
4 simple copies of Cargo Manifest.
1 Visaed Passenger List or visaed Statement to the effect of no passengers, and 5 simple copies.
2 copies of Store List.
2 copies of Personal Effects List.
Rat Exemption Certificate.
Valid Smallpox Vaccination Certificates for all crew and passengers.
Passports or Seaman's Books of all crew.
Clearance from Last Port of Call.

PILOTAGE: Pilot ordered by Agent who needs 24 hours ETA prior to vessels arrival. Pilots board vessels two miles off the breakwater. Vessels may anchor about two miles off the breakwater waiting for Pilot. Pilots have radio-telephone, frequency 2182.
ANCHORAGE: About 2 miles East of breakwater in 40–60 fathoms of water.
RESTRICTIONS: Vessels with max. draft 28 ft. 6 in. are only allowed to enter or sail on high tide. No restrictions on night movements.
MAX. SIZE: Maximum length 580 ft. overall, no beam restrictions. Maximum draft for tankers 31 ft.
For general cargo vessels maximum draft 27 ft., and for mineral bulk cargoes maximum draft 30 ft.
HEALTH: No radio pratique. Pratique granted after docking and presentation of documents to Port Authorities. In case of disease or fever on board, Master to give notice to Agent before arrival.
RADIO: Recommended to route messages through Lantana, Brownsville, Veracruz or Tampico Radio.
TUGS: Two Tugs, "Panuco" and "Tamesi," available, of about 350 h.p. each. They join vessel just before docking at respective berth and supply lines.
BERTHING: 5 berths available for tankers at Petroleos Mexicanos Oil Terminal, each with 31 ft. depth. 2 berths available at Metals Pier with 26 ft. depth alongside. 7 berths available at the Fiscal Wharf, with a length of 130 metres each, and all with 27 ft. depth.
SPECIALISED CARGO-HANDLING FACILITIES: About 4 miles up-river from Tampico. Private bulk cement-loading facilities of Anahuac, with 23 ft. draft and loading rate of blowers of about 500 tons per hour.
Almost at river mouth, private conveyor belt for loading of bulk manganese ore, berth depth of 31 ft. and loading rate of about 1,000 tons per hour.
STEVEDORES: No ETA advice necessary of Stowage Plans received in advance by Agent, otherwise ETA advice for gangs appreciated 48 hours prior to arrival. Stevedores general cargo discharging and loading rate about 10 tons per gang/hour. Mineral loading at Metals Pier about 125 tons per belt/hour (2 conveyor belts available to service both berths.
MEDICAL: Hospital facilities available. No advance notice required.

TANKERS: Five berths with depth 25 ft. 6 in. at Petroleos Mexicanos Oil Terminal. Diameter of hoses 6 and 8 in. Loading and discharging about 600 to 800 tons per hour. Tank washings are received ashore.
SALINITY: Average 1006.
FRESH WATER: Available at written request from Agent. Loaded by gravity at about 3 tons per hour. The fresh water is not recommended.
FUEL: Available only at the Petroleos Mexicanos Oil Terminal, i.e., vessels have to shift there. Available only by notice through usual contract suppliers at least one week ahead of arrival.
DEVELOPMENTS: Constant programmes for more berths, sheds, dredging and equipment are under way, but rather slow.
CUSTOMS ALLOWANCES: No allowances to be taken ashore, but reasonable amounts of tobacco and spirits are allowed to be taken out of bond, but to be kept on board for use of crew and passengers only.
CONSULS: Great Britain, Peru, Germany, Holland, Norway, Sweden, Italy, Uruguay and Lebanon.
REPAIRS/DRY DOCKS: No dry docks available, but small repairs can be done in shore repair shops.
GANGWAY/DECK WATCHMEN: No watchmen necessary. Customs guard keeps watch at gangway while vessel alongside.
REPATRIATION: Can be effected with difficulty but a bond of US $800 for each person usually required for one year.
AIRPORT: About 20 minutes car drive away. Regular flights to Mexico City with consequent connections in any direction.
TIME: 6 hours behind GMT.
HOLIDAYS: January 1st; February 5th; March 21st; May 1st; September 16th; November 20th; December 25th; December 1st every 6 years.
FIRE/AMBULANCE/POLICE: Fire Department 2 12 22; Red Cross 2 13 33; Police 2 11 57; Police (Jail) 2 10 32.
AUTHORITY: Capitaneria del Puerto.

AGENTS: Representaciones Maritimas, S.A., Edificio Luz – Piso 5 Despacho 523, Tampico, Tamps. Mexico. Tel. 2 34 77 and 2 46 62. Telex 01430. Cable: "Maritimex, Tampico."

Morocco

AGADIR: 30.25 N. 09.38 W.

DOCUMENTS:
Health Declaration.
4 Cargo Manifests.
6 Stores Lists.
6 Crew Lists.
6 Passenger Lists.
PILOTAGE: Compulsory. Pilot boards at port entrance. International code signals used.
ANCHORAGE: Good anchorage in open roadstead.
MAX. SIZE: Up to 29 ft. draft.
HEALTH: Pratique given immediately after berthing when port doctor boards.
TUGS: Two tugs available, one of 350 h.p., one of 1,275 h.p.
RADIO: Agadir Radio operates 24 hours a day.
BERTHING: Alongside pier: berth 475 metres long, 9 metres depth; berth 380 metres long, 6 metres depth.
MEDICAL: Doctors and hospital facilities available.
FRESH WATER: Available from pipe-line at berths.
FUEL: Fuel and gas oil available from pipe-lines at berths.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
STEVEDORES: ETA required 24 hours in advance to arrange gangs.
OPENING/CLOSING HATCHES: Performed by stevedores.
CUSTOMS ALLOWANCES: Crew allowed normal daily consumption of tobacco, wine and spirits.
IDENTIFICATION CARDS: Required.
CONSULS: France, Spain, Belgium and Portugal represented ocally.
REPAIRS: Small machinery and electronic repairs can be effected.
TIME: GMT plus one hour permanently.
POLICE/FIRE/AMBULANCE: Police, tel. 23–49; Fire, tel. 22–43; Ambulance, tel. 19.
HOLIDAYS: 1st January, 6th January, 19th March, Maundy Thursday, Good Friday, 1st May, Ascension Day, Corpus Christi, 29th June, 18th July, 25th July, 5th August, 15th August, 12th October, 1st November, 8th December, Christmas Day. Work may be arranged on all holidays except Good Friday.
SHORE LEAVE: Allowed.
AUTHORITY: Director del Puerto.

AGENT: Ernest Corcos, PO Box 54, Agadir. Tel. 24–55 and 33–31. Telex 810–18. Cables: Ercos Agadir.

CASABLANCA: 33.36 N. 07.37 W.

PORT LIMITS: Vessels considered as "arrived" when passing buoy CA 5 in position 33° 37′ 05″ N. 7° 35′ 02″ W.
DOCUMENTS:
Certificate of Registration.
Cargo Manifests.
Crew Lists.
Passenger Lists.
Customs Declaration.
Bill of Health.
Ship's Entry Declaration.
International Tonnage Certificate.
PILOTAGE: Compulsory for all merchant vessels of 100 tons and over, in the area between the meridians 7° 37′ 10″ W. (the root of jetée Moulay Youssef) and 7° 33′ 50″ W. (Table d'Oukacha) and South of the parallel 33° 37′ 40″ N. Pilotage is available day and night. The Pilot meets vessel at the CA5 buoy.

A red flag displayed at the signal station by day indicates that the Pilot cannot come out, on account of the sea, but vessels may enter the port at their own risk, and the Pilot will await them under the shelter of jetée Moulay Youssef. Should bad weather prevent the Pilot from coming out, a vessel should not attempt to enter the harbour at night. The Master may contact the pilot station for port radar service by VHF (Channel 12).
ANCHORAGE: The anchorage outside Casablanca harbour is partially protected from winds between S. and W. but a Westerly swell finds its way into the bay. With a heavy Westerly or Northwesterly swell the anchorage becomes dangerous.

The holding ground in most places outside the harbour is poor, but a berth with good holding ground may be obtained in a depth of 13 fathoms N. of jetée Moulay Youssef. There are numerous anchorage berths in the harbour, some at mooring buoys, in depths up to 12 m. 8 (42 ft.).
MAX. SIZE: Maximum length permissible, about 884 ft.; maximum breadth permissible, about 105 ft.; maximum draft permissible, about 32 ft., but normally 30 ft. for berthing alongside. Tankers: up to 33 ft. draft.
HEALTH: Masters must fill in the declaration of health and display the "Q" flag, to obtain pratique. In the event of any suspected disease or fever on board, Masters have to warn their Agent before the ship's arrival.
RADIO: The name of radio station for ETA cables to Agents, receivers, etc., is Casa Radio.
TUGS: There are 6 tugs of 800–1,500 h.p. 3 of them are sea-going tugs fitted with modern salvage apparatus. Normally tugs join the vessel at port entrance. To call them, 4 long blasts and 1 short for one tug, 4 long blasts and 2 short for 2 tugs, etc. Ship's lines are mostly used.
BERTHING: To arrange berth, ETA message should be given 24 hours before the ship's arrival.

Mooring. When making fast to the jetty by the stern, the anchor should be let go at a sufficient distance from the jetty to allow for a good scope of hawsers.

Vessels are recommended to secure with special 10-in. coir hawser tailed with wire. It is recommended to moor head to the swell, but in bad weather a vessel should be ready to leave at short notice.
CARGO HANDLING: Phosphate loading: up to 5,000 tons per hour. Depth alongside 32 to 26 ft.

Grain Handling: discharging 800 t.p.h., loading 400 t.p.h. Depth at silo berths 30 ft.

Containers: straddle carrier for handling up to 20 ft. containers.

Roll-on/roll-off: three berths for roll-on/roll-off vessels, depth 30 ft.
STEVEDORES: There are 13 stevedoring companies. Normal working days are in two shifts (from 0700 to 1500 and from 1500 to 2300). Ship's Agents arrange gangs in connection with stevedores. Two daily orders (at 1100 and 1600) are made to fix the number of gangs.
MEDICAL: It is necessary for Agent to receive advance notice of required medical attention. Hospital facilities available. Only smallpox vaccination certificates are required.
TANKERS: There are 4 tanker berths, (*a*) one for Import and Export of white products with maximum permitted draft 34 ft. (*b*) three berths for Import and Export of black products. These berths are situated inside the harbour, vessel's draft should not exceed 30 ft.
FIRE PRECAUTIONS: Two firemen remain on board tankers while vessel berthed alongside. One fireman is required for other vessels carrying dangerous cargo.
FRESH WATER: Numerous feeders along berths. Also delivery by barges is possible.
FUEL: All grades available. Ex-wharf or by barge.
CONSULS: The following countries are represented by consuls in Casablanca:

Austria	Norway	Belgium
Spain	Sweden	Denmark
Italy	Yugoslavia	France
Haiti	Brazil	Poland
Finland	Netherlands	Panama
Great Britain	Algeria	U.S.A.
Greece	Argentina	Portugal
Germany		

DEVELOPMENTS: New phosphate installations to be completed summer 1973.

New grain silo under construction for completion April 1973.
GANGWAY/DECK WATCHMEN: It is necessary to have watchmen on board. They are hired by the ship's Agent.
OPENING/CLOSING HATCHES: This work is normally carried out by stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes are permitted for each crew member to be held out of bond.
IDENTIFICATION CARDS: Needed.
REPAIRS: Only small repairs and dry docking works are carried out.
DRY DOCKS: One large dry dock, 152 metres long and 22 metres wide (lifting power 10,000 tons). Three slips for ships up to 700 tons.

REPATRIATION: Facilities exist for effecting crew change and arranging any necessary repatriations.
AIRPORT: Distance from airport, 25 miles. International connections.
TIME: Local time, GMT. No alterations made to clocks during the year.
POLICE/AMBULANCE/FIRE: Police, 210–74 or 19; Ambulance, 15; Fire, 15.
TELEPHONES: Only arrangements for placing telephones on board passenger ships are possible.
SHORE LEAVE: Crew members are allowed ashore.
AUTHORITY: Directeur du Port, Place Zallaga, Casablanca, Morocco. Tel. 759–81.

AGENT: Lasry Maroc, 61, Avenue de l'Armée Royale, Casablanca. Telex: 21949 – 21092. Tel.: 688–75 – 669–46. Cables: "Jolasry".

CEUTA: 32.54 N. 05.17 W. (Spanish)

DOCUMENTS:
Health Declaration.
2 Cargo Manifests.
2 Stores Lists.
4 Crew Lists.
5 Passenger Lists.
PILOTAGE: Radio Agent advising ETA 24 hours in advance. International code signals used to call Pilot, or give three long blasts. Sound signal used day and night. Pilot boards within one mile of the breakwater. Pilotage compulsory.
ANCHORAGE: N. W. of the harbour in depths from 10 to 12 fathoms, at about 2¼ cables off breakwater but vessels should leave this anchorage with strong winds from E. or W. The bottom off the N. W. side of Muelle de Poniente is mostly rocky. The existence of submarine cables is marked by a hemispherical buoy painted in white, moored at about 3¼ cables bearing 74° from the red light at the head of Muelle de Levante. No light is exhibited. For this reason, anchorage is prohibited to the North of a line extending from the root of Muelle de Levante bearing 298° to position of the buoy already mentioned.
MAX. SIZE: Length, 220 metres. Maximum draft, 33 ft. 6 in.
HEALTH: Pratique obtained immediately after berthing when vessel boarded by health officials.
RADIO: Tangier, or Cadiz Radio.
TUGS: Usually two available of 1,200 h.p. Tugs use ship's lines.
BERTHING: West Mole five berths for vessels up to 33 ft. 6 in. draft. East Mole: two berths for vessels up to 31 ft. draft. Dato wharf, 2 berths, up to 20 ft. draft.
STEVEDORES: Accurate advance notice of ETA necessary to order gangs required. Gangs are ordered at 0730, and 1630 hours. For Sundays and holidays, gangs ordered before 1730 previous day. Average cargo handling rates: General cargo, 7 tons per gang/hour; bagged cargo, 10 tons per gang/hour; drums, 13 tons per gang/hour. Overtime from 2000 hours, Sundays and holidays, 40% surcharge.
MEDICAL: Advance notice by radio preferred. Hospital facilities available.
DENSITY: About 3·64%.
FRESH WATER: Available, but may be some restriction in summer months.
FUEL: All grades available, to be ordered in advance.
GANGWAY/DECK WATCHMEN: Available but not essential.
OPENING/CLOSING HATCHES: Performed by stevedores.
CUSTOMS ALLOWANCES: Maximum 3 kilos tobacco for each crew member. Normal daily consumption of wine and spirits allowed.
IDENTIFICATION CARDS: Not required.
CONSULS:

Great Britain,	Tel. 512522	Denmark,	Tel. 512254
France	,, 512521	Italy	,, 511053
Belgium	,, 512521	Panama	,, 513431
Sweden	,, 511801	Portugal	,, 512990
Norway	,, 511700	Netherlands,	,, 511408

REPAIRS: Only minor repairs can be effected. Slipways for vessels up to 500 tons.
REPATRIATION: All facilities available.
Seamen's Books, in lieu of passports, accepted by Spanish Immigration Authority for Seamen of the following nationalities only:
Belgium, Federal Republic of Germany, France, Greece, Holland, Italy, Ireland, Luxembourg and Portugal.
Seamen of other nationalities will require valid passports and it is advisable to check with Agent regarding visas required in some cases.
AIRPORT: Nearest international airports at Tangier, 100 km. away, and at Malaga, 137 km. away.
TIME: GMT plus one hour permanent.
HOLIDAYS: New Year's Day, 6th January, 19th March, Holy Thursday (afternoon), Good Friday, 1st May, Ascension Day, Corpus Christi, 29th June, 18th July, 25th July, 5th August, 15th August, 12th October, 1st November, 8th December, Christmas Day. All holidays may be worked by voluntary labour.
POLICE/FIRE/AMBULANCE: Police, tel. 513324; Fire, tel. 513333; Ambulance, tel. 514509.
TELEPHONES: No arrangements for placing telephones on board.
AUTHORITY: Harbour Master, tel. 512900.

AGENT: Ybarrola, Depositos de Aceite Combustible, S.A. Avenida de Espana, 11. PO Box 46, Ceuta. Tel. 511800. Cables, Ybarrola Ceuta.

EL JADIDA (Mazagan): 33.15 N. 08.31 W.

DOCUMENTS: As for "Casablanca".
PILOTAGE: Arranged by Agent, basis vessels ETA given in advance. Pilot boards about 2 miles from the port entrance.
ANCHORAGE: About half a mile from head of North jetty in depths of 13 to 14 metres. Hard rock bottom covered in sand. Holding ground is fair only.
RESTRICTIONS: The port comprises an entrance channel 50 metres wide and an outer harbour area 7 hectares, partially dredged to 3 metres depth to make a waiting basin. In the Southern part of the outer harbour is a quay, called the barge quay. 120 metres long, dredged to 6 metres depth.
MAX. SIZE: No limitations for vessels anchoring. For entering harbour, maximum length 80 metres, draft 5 metres, entering at high water.
RADIO: No local radio station. Use Casa Radio for messages to Agent.
TUGS: Available. Normally join vessel 2 miles from port entrance.
MEDICAL: Hospital facilities available. Vaccinations can be arranged.
FRESH WATER: Available at the quay.
FUEL: Can be supplied subject to 24 hours notice.
WATCHMEN: Recommended to employ watchmen.
OPENING/CLOSING HATCHES: Work performed by ship's crew.
CONSULS: The only consular representatives are those of France and Portugal.
REPATRIATION: Can be arranged via Casablanca.
REPAIRS: Small repairs can be done on board, or parts sent to Casablanca. One small dry dock reserved for port authority vessels and fishing boats.
AIRPORT: Nearest commercial airport is Nouasseur. The airport at Camp Cazes, Casablanca, operates for internal flights only.
TIME: GMT, no alterations during the year.
HOLIDAYS: Sundays and holidays, except for National holidays, can be worked on payment of overtime.
POLICE/AMBULANCE/FIRE: Police, tel. 19; Ambulance, tel. 15; Fire, tel. 15.
TELEPHONES: Cannot be connected to vessel, but telephone situated on the quay.
AUTHORITY: Ingenieur des Travaux Publics, Avenue Fquih M'Hamed Errafi. Tel. 23–11.

AGENT: A. Adigard des Gautries, BP 52, El Jadida.

KENITRA: 34.17 N. 06.30 W.

Situated on the left bank of the Oued Sebou, 17 km. from the Atlantic.
PILOTAGE: Pilotage is compulsory for entering and leaving port. Vessels must wait outside the port entrance for the tide. It is possible to enter from two hours before until one hour after high water during the night, and from three hours before until two hours after high water during the day. The Pilot boards vessels at river mouth. The Pilot will be on station two hours before high water.
RESTRICTIONS: From the mouth of the river up to the port is a dredged channel. Depths are 4·20 m. during neap tides and 5·40 m. during spring tides. Height of tide during neap tide is 2·60 metres. Height of tide during spring tide is 3·80 metres. The constant is 1·60 metres.
During the winter it is recommended to stay outside the port in strong squalls. Ships are advised by Kenitra port radio of the possibilities for entering port.
Between November and April there is a total of 6 or 7 individual days when the port is closed to navigation, due to weather conditions.
RADIO: Messages to ship's Agent should be sent through Casablanca radio. In the ETA message to Agent, also advise vessels draft. There is a radio station at Kenitra for port use only. Watchkeeping hours are only during high water, on 2182 kHz.
TUGS: One tug of 500 h.p., one tug of 414 h.p., one tug of 225 h.p., 2 tugs of 180 h.p., and 3 launches, available to assist berthing.
BERTHING: The outer port used only by trawlers, and a mooring quay of 360 m. length belonging to the Royal Moroccan Navy. The length of main quay is 870 metres and includes 10 berths. In addition to the above there is a jetty for wine vessels, and a jetty for oil tankers.
FRESH WATER: Supplied alongside the quays.
FUEL: There are supplies of diesel oil, gas oil and petrol in the port. These products supplied by tanker lorry along the quay.
REPAIRS: There are workshops for small running repairs in the port. There is a slipway for ships up to 400 tons.
CONSULS: The Consular representatives at Kenitra are those of Belgium, France, Portugal.
AIRPORT: The nearest commercial airport is that of Rabat-Sale and there is a small airfield at Kenitra.
AUTHORITY: Directeur du Port, Boite Postale 23, Kenitra. Tel. 20–58; 20–59 and 31–31.

AGENT: Consortium Industriel Commercial Maritime, 19 Boulevard Imam Ali, Kenitra. Tel. 21 39, 28 37, 22 56. Telex: 31030 BOUTRANS 31966 INCOMAR. Cables: "Incomar Kenitra".

MELILLA: 35.18 N. 02.57 W.

DOCUMENTS:
Health Declaration.
4 Cargo Manifests.

2 Stores Lists.
5 Crew Lists.
5 Passenger Lists.

PILOTAGE: Compulsory for vessels over 500 tons. ETA to Agent required at least 10 hours before arrival to arrange Pilot. Pilot boards at anchorage near port entrance. International code signals used.
ANCHORAGE: Half a mile East of port entrance, in depths of 14 to 20 metres.
RESTRICTIONS: Entrance normally in day-light only. In case of emergency vessel may enter at night.
MAX. SIZE: Up to 32 ft. draft.
HEALTH: Pratique obtained immediately after berthing when vessel boarded by health officials.
TUGS: One tug of 550 h.p. available.
MEDICAL: Doctors and hospital facilities available. Vaccinations can be arranged.
TANKERS: One oil berth for tankers up to 32 ft. draft.
FRESH WATER: Available at all quays.
FUEL: Available subject to advance notice.
GANGWAY/DECK WATCHMEN: Available. Consignee Agents have their own watchmen for goods on the quay.
OPENING/CLOSING HATCHES: This work is carried out by stevedores.
CUSTOMS ALLOWANCES: Crew allowed normal daily consumption of tobacco, wine and spirits.
IDENTIFICATION CARDS: Required.
CONSULS: France and Italy are represented locally.
REPAIRS: All types of engine and hull repairs can be effected for smaller vessels.
REPATRIATION: All facilities available.
AIRPORT: Situated 1 km. from the city. 3 daily flights to Malaga, except on Sundays.
TIME: GMT plus one hour, permanently.
HOLIDAYS: 1st January, 6th January, 19th March, Maundy Thursday, Good Friday, 1st May, Ascension Day, Corpus Christi, 29th June, 17th July, 18th July, 25th July, 15th August, 12th October, 1st November, 8th December, Christmas Day. Work may be arranged on all holidays except Good Friday.
POLICE/FIRE/AMBULANCE: Police, tel. 1741 or 1744; Fire, tel. 1693; Ambulance, tel. 1441.
TELEPHONES: It is possible to arrange for a telephone to be placed on board.
SHORE LEAVE: Allowed.
AUTHORITY: Ingeniero Director del Puerto, Calle General Garcia Valino, 2. Tel 2396.

AGENT: Jose Salama & Co., BP 5, Melilla.

MOHAMMEDIA: 33.45 N. 07.22 W.

DOCUMENTS:
Bill of Health.
3 Crew Lists.
3 Passenger Lists.
3 Provisions Lists.
Manifests and Ship's Papers for Agent.

PILOTAGE: Compulsory for vessels entering or leaving the harbour or shifting berth. Pilot available for vessels arriving during night and wishing enter the basin when conditions are possible.
ANCHORAGE: Three good anchorages in depths of 11 to 6½ fathoms about a mile N.E. of the entrance, and N.W. and S.E. of the pipe-line area.
RESTRICTIONS: Vessels with a draft over 15 ft. wishing to berth in the basin, are obliged to wait for tide.
MAX. SIZE: Sea line installation: tankers up to 45,000 tons dwt.
Imodco Buoy Berth: tankers up to 100,000 tons dwt.
For the basin: max. length 150 metres, max. draft 25 ft.
HEALTH: Port sanitary control officer boards immediately after arrival for pratique delivery. In the event of any suspected disease or fever on board, it is necessary to advise by radio to Agent 24 hours before arrival. Pratique is automatic after calling at another port of Morocco.
RADIO: Casablanca radio station.
TUGS: There are no tugs but three pilot boats of 150 h.p. will assist vessels if necessary, or tugs can be ordered from Casablanca.
BERTHING: Vessels up to 150 metres in length and drawing up to 7·6 m. (25 ft.) can enter the harbour.
Quay No. 1 has a length of 70 metres with a depth of 8·50 m. (28 ft. alongside).
Quay No. 2 has a length of 170 metres with a depth of 5·50 m. (18 ft. alongside).
Quay No. 6 has a length of 60 metres with a depth of 6·00 m. (19 ft. 8 in. alongside).
TANKER BERTHS: Single buoy mooring located in position 33° 44′ 01″ North, 7° 23′ 02″ West in depth of water 70 ft. Diameter of swinging area: 850 metres. The buoy is marked by a white light flashing once every three seconds, also equipped with radar reflector and fog horn, which sounds once every twenty seconds.
Vessels may be berthed by day or night. Mooring is affected by two floating nylon ropes, each 40 metres long, made fast to the fore end of the vessel.
The buoy is connected to a floating crude oil line, 20 in. diameter, with two flexible hoses of 16 in. diameter. One flexible hose of 8 in. diameter is available for discharging refined products. There are no facilities for discharge of slops or dirty ballast.
There is also a conventional buoy berth, in depth of 50 ft. Diameter of discharge lines 14 in. No slop discharge facilities.
Smaller tankers may also berth at harbour quay No. 1.
STEVEDORES: The loading and discharging capacity of general cargo or timber is 400 tons per day. Gangs are arranged by the stevedore according to the cargo plan given by the consignee to the harbour authorities.
MEDICAL: There is the hospital in Mohammedia, and other hospitals and clinics in Casablanca (16 miles away).
DENSITY: 1025.
FRESH WATER: Water can be supplied at any time alongside the quays at the rate of 15 tons per hour. There is no fresh-water supply to the offshore tanker terminals.
FUEL: Fuel and diesel oil can be supplied alongside the quays by tanker truck.
FIRE PRECAUTIONS: All tankers are confined by gates and watched over by special firemen.
GANGWAY/DECK WATCHMEN: Services of watchmen are recommended.
OPENING/CLOSING HATCHES: This work is normally carried out by crew. When carried out by stevedores the cost is charged.
IDENTIFICATION CARDS: Passport required and police permit for leaving the harbour.
CONSULS: There is no consul in Mohammedia. All are in Casablanca.
AIRPORT: The nearest airport for international flights is Nouasseur. Casablanca Airport operates internal flights only.
TIME: Local time, GMT, and usually no alterations are made to clocks during the year.
HOLIDAYS: 1st January; 1st May; 3rd March; 18th November; and any other religious holidays which are not at regular dates. Only on two days (1st January and 1st May) no cargo work can be arranged.
POLICE/AMBULANCE/FIRE: Police, 21.51; Ambulance/Fire, 15.
SHORE LEAVE: Allowed.
AUTHORITY: RAPC, Port de Mohammedia, Maroc. Tel. 23.32 at Mohammedia.

AGENT: MARBAR S.A., BP 169, 81 Ave. Houmane, Elfatouaki, Casablanca. Tel. 607–21. Telex: 21 011, 21 012. Cables: "Barimer Casablanca".

SAFI: 32.19 N. 09.12 W.

DOCUMENTS: Clearance procedure is very simple. 3 Crew Lists, 1 Personal Effects List, 3 Passenger Lists and 1 Stores List only are required. Other documents are presented on berthing.
PILOTAGE: Arranged by vessel's Agent, to whom a correct ETA should be given. There is VHF radio contact with the pilot station and Harbour Master's office. The pilot boat is located inside the harbour and the Pilot boards in the anchorage. Pilot ladder only is required.
ANCHORAGE: Recommended anchorage is S.W. of harbour entrance. Safe holding ground for 25,000 dwt. vessels. Vessels should keep port entrance clear.
MAX. SIZE: Vessels with a draft of more than 26 ft. enter and sail at high water.
HEALTH: Health Officer boards shortly after berthing but Agent must be advised before arrival if suspected disease or fever on board. Health clearance in one Moroccan port holds good for the next.
RADIO: Casablanca Radio for normal traffic or Safi Radio for local R/T traffic. Harbour Radio VHF channel 16.
TUGS: Tugs stand by vessel inside breakwater and, usually, ship's lines are used.
BERTHING: Vessels berth in order of arrival. Port used for export of manganese and barytes. No night entry after 1900.
STEVEDORES: Gangs are arranged by vessel's Agent. Night work is possible from 18.00 to 22.00 hrs. and, very exceptionally, until 24.00 hrs.
MEDICAL: Advanced notice of required medical attendance is advisable but not essential. Modern hospital and clinic are available. Smallpox vaccination only is necessary except when vessels have called at cholera and yellow fever ports.
TANKERS: Only small tankers use this port. White products and gas oil imported; no export. Ammoniac tanker berth maximum draft high water 30 ft.
DENSITY: Density varies between 1.024 and 1.026.
FRESH WATER: Availability not limited, by hoses from quay.
FUEL: Limited supplies gas oil; diesel available but must be stemmed. Fuel oil and large quantities diesel, gas oil can be delivered by tanking lorry from Casablanca.
GANGWAY/DECK WATCHMEN: Watchmen necessary. One watchman day and night.
OPENING/CLOSING HATCHES: Normally done by crew but can be arranged by stevedores with advance notice.
CUSTOMS ALLOWANCES: 200 cigarettes, and one open bottle of spirits allowed each man. Bond is sealed and heavy fines are imposed by Customs for smuggling.
IDENTIFICATION CARDS: These are needed.
CONSULS:

Denmark,	Tel. 30.39	Portugal,	Tel. 23.58
Finland	,, 31.40	San Salvador,	,, 28.76
France,	,, 27.97	Sweden,	,, 29.06

REPAIRS: Major repairs not possible; small workshops only for repairing fishing boats.
REPATRIATION: Repatriation by air or sea through Casablanca, 150 miles away.
AIRPORT: Nearest at Novasseur, served by principal European airlines.

TIME: Local time is GMT.
HOLIDAYS: On the following holidays no work is possible: 1st January (New Year's Day); 3rd March (Coronation Day); 1st May (Labour Day); 18th November (Independence Day). Other Moslem and Christian holidays are subject to last minute decisions as far as tariff is concerned, but work can be arranged.
TELEPHONES: No telephones can be placed on board. Public telephone available on the quay during working hours only.
GENERAL: Masters are strongly advised to take local currency from their Agent. Landing of foreign currency encourages black market transactions and incurs confiscation and heavy fines as well as delays by the Customs authorities.
SHORE LEAVE: Police permits are required by Liberty men and are delivered by Immigration Authorities.
AUTHORITY: Capitainerie de Port, Safi. Tel. 27 33 and 27 42.
AGENT: Marbar S.A. Branch Office of Marbar, Casablanca.

TANGIER: 35.47 N. 05.48 W.

PORT LIMITS: Vessels considered to be an "arrived ship" subject to Charter Party terms, on passing the line joining Pointe de Malabata, 35° 48′ 53″ N. 05° 45′ 00″ W. and the mouth of l'Oued el Youd, 35° 47′ 26″ N. 05° 50′ 00″ W.
DOCUMENTS: Required on arrival:
Health Declaration.
2 Crew Lists.
7 Cargo Manifests.
5 Lists of Passengers Disembarking.
4 Lists of Passengers in Transit.
Required on departure:
5 Cargo Manifests.
5 Manifests of Passengers Embarking.
PILOTAGE: Pilotage is compulsory for ships of more than 50 GRT for entering, leaving and shifting in harbour. Vessels arriving during the night must anchor outside the port, and are boarded by the Pilot after 0600 hours the following morning.
ANCHORAGE: There are good anchorages to the East and South-east of the breakwater head in depths of 10–16 m.
RESTRICTIONS: The harbour area between the breakwater and the extremity of the main pier has a depth of 9 m. minimum. Maximum height of tide is 2·40 m., minimum height is 0·10 m. West to South-west winds from October to May. North-east to Easterly winds from May to October, often very strong (the Levante).
TUGS: The port owns three tugs, 500, 375 and 250 h.p. respectively. Two of these tugs are equipped with fire-fighting equipment.
BERTHING: The port is protected by a breakwater 1,300 m. long on which is a tanker terminal dredged to 9 m. depth, 290 m. of quay dredged to 9 m., 160 m. of quay dredged to 8·50 m. and 100 m. of quay dredged to 5 m. These last two berths, which are reserved for the Gibraltar and Algeciras ferries, are equipped with special ramps for disembarking vehicles.
In the South of the dock enclosed by the breakwater is a pier at which are two berths, one of 330 m. length dredged to 9 m. over 130 m. length and with 6 m. depth over 200 m. length. The other berth is dredged to 4 m. depth over 100 m. length and to 3·50 m. depth over 100 m. length.
In the Western part of the harbour there is a jetty of 100 m. length with berths on both sides each having depths of 6·50 m. This jetty is used by passenger ferries and is equipped to serve vessels discharging vehicles at the stern.
The port also includes a small jetty called the Yacht Jetty with depths varying from 2 m. at its foot to 3·50 m. at the jetty head. The small harbour inside the jetty includes the quays of the fishing port, the Yacht Club and barge berths.
FRESH WATER: Replenishment of fresh water can be made at all times alongside the quays at the rate of 30 tons per hour.
FUEL: There are no refuelling installations at the quays. Only very small quantities can be supplied by tanker lorries belonging to the oil companies.
STEVEDORES: Normal working hours are from 0800–1200 and from 1400–1800 hours. Ships may be loaded and discharged outside these hours on payment of overtime. Usual loading and discharging rates are as follows: 15–18 tons per hour goods in sacks; 12–15 tons per hour for bales; 10 tons per hour for general cargo; 7–8 tons per hour for cork.
REPAIRS: There are no facilities for repairs in the port.
AUTHORITY: Regie d'Aconage du Port de Tanger, 6 Rue du Portugal, BP 305, Tanger. Tel. 32400 and 37728 and 37681 and 39645.
AGENT: Lasry Maroc (Tangier), 4 rue de la Mediterrannée, Tangier. Telex: 33064. Tel. 335–75 – 325–76. Cables: "Jolasry".

Mozambique

BEIRA: 19.46 S. 34.50 E.

PORT LIMITS: Vessels are considered to be "arrived ships" when they enter the pilotage area, i.e. when they enter to within a radius of 5 miles from the pilot boat. The custom of the port is that vessels are in "free pratique" only when they have entered port and have been cleared by the Immigration Authorities. Immigration will only clear vessels in port.
DOCUMENTS:
Customs Clearance from last port and Port Clearance if last port was Portuguese.
Health Certificate.
6 Crew Lists.
6 Lists Passengers in Transit.
7 Lists Passengers Disembarking.
2 Stores Lists.
2 Lists Deck Stores.
2 Lists Cargo in Transit (main items of cargo only).
6 copies of Manifest of Beira Cargo.
PILOTAGE: Is compulsory for all ships other than naval vessels and Portuguese coasters. Ship's name, ETA and draft should be radioed via Beira Radio, call sign CRS, 24 hours in advance to Port Captain Beira and owner's Agent.
The pilot boat – black hull, grey upperworks, black funnel with white "P" – is stationed 19° 52′ 47″ S., 34° 57′ 21″ E. Pilot boat call sign CRL H – W/T: listens on 500 kc/s., replies on 480 kc/s. – R/T: listens on 2,182 kc/s., replies on 2,341 kc/s. – VHF: frequency 156·6 Mc/s. (Channel 12).
Unless instructed to the contrary by the pilot boat, vessels with a draft under 25 ft. anchor by "P" buoy, 19° 52′ 47·3″ S., 34° 57′ 21·1″ E., and vessels with draft over 25 ft. anchor between "P" and "A" buoys, 19° 56′ 20·1″ S., 35° 02′ 44″ E.
In bad weather pilot boat may leave above position and enter port. In such cases vessels should anchor as indicated above, weather permitting.
ANCHORAGES: At bar, "P" and "A" buoys as indicated above. There is anchorage for 4–6 ships, depending on size, in inner harbour off Cabedelo sand-pit.
RESTRICTIONS: Ships with draft 18 ft. and under can enter at any time. Ships with draft over 18 ft. generally enter two hours either side of high water.
MAX. SIZE: Maximum permissible length about 800 ft. Maximum permissible drafts between 35–37 ft. at springs, about 30 ft. at neap tides.
HEALTH: Vessel to radio "Sanidade Maritima", Beira, their ETA and "All Well" (or otherwise) even when coming from another Portuguese port. If "All Well", Health Certificate given by Pilot.
RADIO: Vessels to route messages through Beira Radio – call sign CRS. Agents radio ships through same station. Naval Radio Station – call sign CRX 3 – available for distress signals.
TUGS: Join incoming vessels at inner anchorage, about 1 mile distant from quays. Ship's lines used. Four tugs available, up to 3,200 h.p.
BERTHING: No night berthing done unless with prior consent of Chief Pilot, otherwise no specific requirements.
Cais do Pungue: length, 1,679 m.; depth, max. 17 m., min. 10 m.
Chiveve Cais: length, 446 m.; depth, max. 10 m., min. 3 m.
CARGO-HANDLING FACILITIES: There is a mechanical ore appliance used mainly for minerals like chrome, etc. This appliance has an average loading rate of 250/300 tons per hour. It is equipped with only one spout.
STEVEDORES: Ordered by Agent. Vessels should advise Agent their ETA at least 12 hours in advance (weekdays), 24 hours in advance (week-ends).
MEDICAL: No advance notice required for medical attention, unless urgent assistance necessary. Hospital facilities available. Crew members and passengers should be in possession of valid smallpox and yellow fever certificates (cholera certificate too if from cholera area) on international forms. Vaccination/fever inoculations and certificates may be obtained ashore if required.
TANKERS: Discharge lines white and black oils, 2×10-in. lines feeding into 12 and 14-in. lines leading to storage tanks. Also a 22-in. discharge line for crude oil. No slop discharge facilities. Two tanker berths, maximum permitted drafts about 32 ft.
DENSITY: In harbour area allow 3 to 4 in.
FRESH WATER: Available at all berths, pumping rate about 50 tons per hour. Also available from water barge.
FUEL: Fuel oil 1,000′ viscosity, marine diesel 43·1′, diesel 34·1′. 3–4 days advance notice required. Bunkers delivered when alongside, no bunkering barge available.
GANGWAY/DECK WATCHMEN: Compulsory to employ watchmen to prevent pilferage.
OPENING/CLOSING HATCHES: Can be done by either crew or stevedores. Often done by crew.
SHIP CERTIFICATES: Tonnage Certificate to be produced to Pilot, as certain port dues are based on vessel's registered tonnage.
CARGO GEAR: All gear supplied by stevedores except rope slings, rain tents, and spreaders for heavy lifts.
IDENTIFICATION CARDS: Required. Passport if possible, otherwise Seamen's Book.
CONSULS: British (Tel. 22032), Belgium (23284), France (24074), Greece (23898), Holland (23174), Italy (22197), Malawi (24312), Norway and Denmark (22091), Panama (271519), Rhodesia (24227), Swiss (23137), South Africa (271251).
REPAIRS: Most types of deck and engine repairs are possible, but major repair jobs are not undertaken.
DRY DOCKS: One dry dock 115×17×8·5 metres, suitable for ships up to 5,000 tons.
REPATRIATION: Facilities exist for nationals of those countries maintaining diplomatic relations with Portugal. A valid passport is necessary as immigration authorities do not recognise a Seamen's Book as being a valid travel document.
AIRPORT: Beira Airport situated 7 miles from sea port. Regular flights to all destinations.
TIME: Local time 2 hours ahead of GMT. No alterations made to clocks during year.
HOLIDAYS: New Year's Day (1st January); National Day of

Portugal (10th June); Corpus Christi (variable date); Assumption (15th August); Beira City Holiday (20th August); Republic Day (5th October); All Saints' Day (1st November); Restoration of Republic (1st December); Immaculate Conception (8th December); Christmas Day (25th December). No cargo work on 1st January and 25th December; on other holidays work continues normally in the port.

POLICE/AMBULANCE/FIRE: Port Police (Tel. 22920); Ambulance (22442); Fire (22222).

TELEPHONES: Can be placed on board. These telephones must only be used for local calls, not trunk calls.

GENERAL: Beira port works 24 hours per day, 7 days a week (except 1st January and 25th December) and overtime working is compulsory.

SERVICES: Services available for tank cleaning, compass adjusting, minor repairs to radar and radio.

SHORE LEAVE: Crew members are allowed ashore, excepting nationals of those countries not maintaining diplomatic relations with Portugal.

DELAYS: Generally no delays, but sometimes 24–48 hours delay following rain or bunching of arrivals.

AGENT: Allen, Wack & Shepherd, Lda., PO Boxes 270, 280 and 290, Beira, Mozambique. Tel. 22091 (5 lines). Cables "Thaine" or "Allenwack". Telex: 7332 Thain Mo.

Activities: Steamship Agents, Clearing and Forwarding Agents, Travel Agents, Bonded Warehousemen. Insurance Agents.

LOURENCO MARQUES: 25.59 S. 32.36 E.

DOCUMENTS:

6 Crew Lists.
1 Stores List.
6 Passenger Lists.
Last Port Customs and Port Clearance.
1 List of Ports of Call.
1 Health Declaration (given by Pilots on arrival).
1 Entrance Report (given by Pilot on arrival).
1 Customs Entrance (given by Agent on arrival).
1 Railway Statistics Form (given by Agent on arrival).

PILOTAGE: Compulsory. Channels in 24-hour use, but sailing after 2400 only by special arrangement with Immigration. Berthing only during day-light. Pilot station about 26 miles from Lourenco Marques wharf.

IMMIGRATION CLEARANCE: Inwards: 0600–1800 only inside harbour proper. Outwards: 0600–2400 except in special circumstances.

N.B. Vessels at the pilot station cannot obtain pratique because this includes Immigration clearance and can therefore be considered as not having arrived or not being in all respects ready to load.

ANCHORAGE: Inside harbour: One each for vessels drawing 32, 30 and 26 ft. respectively. Six for vessels between 17 and 19 ft. Vessels delayed in berthing are brought in from pilot station at port's convenience.

RESTRICTIONS: Berthing during day-light only. Unberthing 06.00 hrs. to 24.00 hrs. with exceptions of Matola piers where ships can only unberth during day-light. Vessels loading at Lourenco Marques Main Wharf normally sail two hours before high tide at any hour of the day or night. Vessels which load at Matola Ore Berth may only traverse the Matola Channel in day-light, and according to their draft, must leave Matola Wharf about 2 hours before high tide.

MAX. SIZE:

General Cargo Wharf	Length 750 ft.	Draft 34 ft.–37 ft.*
Matola Oil Pier	,, 750 ft.	,, 32 ft. 6 in.
Matola Ore Appliance	,, 820 ft.	,, 34 ft.–37 ft.*

* Maximum drafts published by Port Authorities. Approximately 34 ft. to 37 ft. depending on tide.

HEALTH: Pratique granted by Pilot unless disease prevalent on board when Masters should telegraph "Saude" Lourenco Marques.

RADIO: Advice of arrival to the Port Captain, Chief Pilot or Port Health should be sent through the station CRX (Naval), operating 24 hours on 500 kc/s., replying on 437 kc/s., also 2000 to 0500 hours GMT on 8356 to 8376 kc/s. (replying 3642 kc/s.) and 0800 to 2000 GMT on 12534 and 12564 kc/s. (replying 1299 kc/s.). All other non-official messages through station CRL, operating 0200–1800 GMT on 6 Mc/s. at even hours, 0400 to 1800 GMT on 4 Mc/s. at even hours plus 30 minutes (answering on 4259 kc/s.). Continues watch 0200–0400 GMT on 4 Mc/s. Radio telephone through CRL on 2132 kc/s. at even hours plus 45 minutes 0600–1700 GMT answering on 4415 kc/s.

VHF: Port Radio, calling channel 16, working channel 12, permanent service.

BERTHING: Carried out at all times except between 0000–0600 at the Main wharves. At Matola Ore berth vessels must berth only at permissible times according to tides.

Main Wharf: All facilities owned and operated by Caminhos de Ferro de Mocambique (CFM), belonging to the Portuguese Government, except stevedoring.

Dimensions: Wharf is in one uninterrupted line running roughly N.E./S.W., accommodating 12–15 vessels. Length: 3,033 metres.

For loading or discharging bulk grain there are two Buhler machines at a berth with 33 ft. depth of water LWOST. About 120 tons per hour. A recent vessel averaged 2,900 tons per day. For loading bulk sugar, there is a spout installation at the last berth on the wharf 40 ft. LWOST. Theoretical rate 750 tons per hour. Recent example 12,400 tons in 29 hours. For coal there is a fixed mechanical installation with adjustable chute and capstans for warping ships. Depth about 24 ft. LWOST. Maximum height of chute above wharf 6·20 metres minimum 3·80 metres, maximum length of vessel 600 ft. Theoretical rate 800 tons per hour, actual average 300 tons depending on trimming required. Maximum permissible draft 28 ft.

Depths alongside:

Berth A	30 ft.
,, B	32 ft.
,, C	30 ft.
,, D	31 ft.
,, D3	31 ft.
Coal Tip	33 ft.
Berth Frigo	30 ft.
,, G	33 ft.
,, H	33 ft.
Wharf extension	40ft .

Coal Mechanical Installation: depth about 33 ft. LWOST. Maximum height of chute above wharf 7·80 metres, minimum 4.80 metres; maximum permissible draft 33 ft.

LPG Carriers: berth at Matola Ore Berth.

TANKERS: Matola Mineral Wharf, 40 ft. LWOST, maximum length of vessel 820 ft. Matola Oil Jetty, 32 ft. 6 in. LWOST, maximum length of vessel 750 ft.

FRESH WATER: Available at all berths, Not available ex-barge.

FUEL: Vessels can be supplied from pipe-lines whilst working at all berths, including the Matola Appliance and Tanker Jetty, but excluding the new wharf extension, where pipes have been laid but the system is not yet ready for delivering bunkers. The rate of delivery varies between 300 to 500 tons per hour depending on the type of vessel taking bunkers. At present, supplies of gas oil and marine diesel oil are not in very plentiful supply, recommended to stem as far in advance as possible.

MEDICAL: No advance notice required for medical attention, unless urgent assistance necessary. Hospital facilities available. Crew members and passengers should be in possession of valid smallpox and yellow fever certificates (cholera certificate too if cholera area) on international forms. Vaccination/fever inoculations and certificates may be obtained ashore if required. Men for sick parade must first go through the port doctor whose hours are week-days 08.00–11.30 and 14.00–17.30; Saturdays 10.00–11.30, but always available on an emergency call.

REPAIRS: No dry dock except for small coasters. Facilities for most normal work, except underwater riveting, cutting and welding, and shaft balancing.

DEVELOPMENTS: Administration are considering the construction of a deep-sea port on the coast between Inhaca Island and the Natal border. This port will be mainly used by coal and iron-ore carriers and have a capacity of approximately 6 million tons per annum. Should this project materialise, the port will be operational by 1978.

CONSULS:

U.S.A.	Sweden	Rhodesia
U.K.	Switzerland	Brazil
France	Italy	Germany
Norway	South Africa	Spain

IDENTIFICATION CARDS: Crew and passengers are issued with Immigration Boarding Permits and they must be carried at all times. (Such permits to be returned to Immigration Officer prior to sailing.)

WATCHMEN: Strongly recommend employing services of a local watchman, who will also control visitors and labour passes.

OPENING/CLOSING HATCHES: Can be done by either crew or stevedores. Often done by crew.

CERTIFICATES: Tonnage Certificate to be produced to Pilot, as certain port dues are based on vessel's registered tonnage.

REPATRIATION: Facilities exist for nationals of those countries maintaining diplomatic relations with Portugal. A valid passport is necessary as immigration authorities do not recognise a Seaman's Book as being a valid travel document.

AIRPORT: About 5 miles from centre of town.

CUSTOMS ALLOWANCES: Bonded stores are usually not sealed.

HOLIDAYS: New Year's Day (1st January); National Day of Portugal (10th June); Corpus Christi (variable date); City Day (24th July); Assumption (15th August); Republic Day (5th October); All Saints' Day (1st November); Restoration of Republic (1st December); Immaculate Conception (8th December); Christmas Day (25th December). No cargo work on 1st January and 25th December, on other holidays, work continues normally in the port.

TIME: Local time 2 hours ahead of GMT. No alterations made to clocks during the year.

SHORE LEAVE: Crew members are allowed ashore, excepting nationals of those countries not maintaining diplomatic relations with Portugal.

TELEPHONES: A telephone will be placed on board the vessel.

GENERAL: Crew and passengers not to take photographs in the dock area. Permission through Agent required to lower any boats or gear overside into the water or on to the wharf.

Do not immobilize main engines or carry out engine trials at the wharf until permission has been obtained by the Agent as the Authorities require vessels to maintain sufficient steam for main engines to be used at 2 hours notice.

Customs guards to be supplied with meals and accommodation whilst at inner anchorage and alongside the LM wharf otherwise cost per guard will have to be paid by Agent on Owner's behalf.

AUTHORITY: Capitania do Porto de Lourenco Marques.

AGENTS: Rennies' Consolidated (LM) Lda., Avenida 18 de Mayo 36, POB 351 or 292. Tel. 3021. Cables: "Reniform Lourenco Marques".

MOZAMBIQUE: 14.58 S. 40.45 E.

DOCUMENTS:
Customs Clearance from last port.
Port Clearance if last port was Portuguese.
Health Certificate.
6 Crew Lists.
6 Passenger Lists in Transit.
7 Passenger Lists Disembarking.
2 Stores Lists.
2 Lists Deck Stores.
2 Lists Cargo in Transit (main items of cargo only).
6 copies of Manifest of Mozambique Cargo.

PILOTAGE: One Pilot available, 24 hours. Pilot boat is black and grey, with two flags on the mast (Portuguese flag and a blue flag with a white "P"), and at night, with conventional lights. Ships take Pilot near buoy No. 2 (Red Buoy) placed off Goa Island. At night ships should send Morse signals with Aldis lamp to the middle of Mozambique Island (location of Port Office). ETA should be given as soon as possible to Pilot station off Mozambique Island and/or to ship's Agent.

ANCHORAGES: When waiting for Pilot, or in reason of their draft (more than 30 ft.) ships may drop anchor off red buoy No. 2 (½ mile seawards). Depths between 60 and 90 ft. Bottom with sand and some broken coral; current from North to South, sometimes up to 4 knots.

MAX. SIZE: Only ships with drafts less than 30 ft. can cross the bar and enter the Port.

HEALTH: Quarantine flag should be flown, even after calling at other ports in this country. Health Certificate given by Pilot.

RADIO: Radio Mozambique call sign CRQ. Also available Lourenco Marques or Beira Radio Stations.

TUGS: Tugs are not necessary in this port.

BERTHING: No quay berths. Vessels work cargo at anchor.

STEVEDORES: All requirements on this purpose must be sent to the Agent.

MEDICAL: Medical assistance can be given at any time, even to vessels unable to cross the bar because of draft. Hospital with adequate facilities, and emergency services available.

FRESH WATER: Always available in any quantity. Supplied by barge of 40 tons capacity.

FUEL: No supply.

OPENING/CLOSING HATCHES: By stevedores.

CARGO GEAR: Vessels anchor in bay and load and discharge by lighters and barges.

IDENTIFICATION CARDS: Required.

CONSULS: No local representatives.

REPAIRS: Light repairs can be effected.

REPATRIATION: All facilities available.

AIRPORT: Situated about 7 km. from Mozambique. Connections to Beira and Lourenco Marques every day.

HOLIDAYS: 1st January; 2nd March; 1st and 10th June; 15th August; 5th October; 1st November; 1st December; 8th December; 25th December. Cargo handling can be arranged on these days.

POLICE/AMBULANCE/FIRE: Maritime Police, Customs and Agents will always be on board during stay.

TELEPHONES: No telephones, but walkie-talkies are available; arrange with Agent.

AUTHORITY: Capitania do Porto de Mocambique. Tel. 22 and 24. Cables "Capitaniamar Mocambique".

AGENT: Companhia Comercial João Ferreira dos Santos, SARL, Caixa Postal No. 1, Moçambique. Cables "Jorreirantos Moçambique".

NACALA: 14.32 S. 40.37 E.

Health Certificate.
6 Crew Lists.
6 Lists Passengers in Transit.
7 Lists Passengers Disembarking.
2 Stores Lists.
2 Lists Deck Stores.
2 Lists Cargo in Transit (main items of cargo only)
6 copies of Manifests of Nacala Cargo.
2 Lists of Dangerous Cargo.

PILOTAGE: Permanent and compulsory for entering harbour. Pilot boat situated at harbour entrance.

ANCHORAGE: Fine natural harbour. Entrance half a mile wide, depths up to 60 metres. Good anchorage for any size vessel. Sand and mud bottom.

MAX. SIZE: For anchoring, no restrictions. For berthing, up to 31 ft. draft.

RADIO: Radio Naval Nacala operates permanently on 2182 kHz.

HEALTH: Vessels to radio "Senidade Maritima", their ETA and "All Well" (or otherwise) even when coming from another Portuguese port. If "All Well", Health Certificate given by Pilot.

TUGS: None available and not required.

BERTHING: There is a pier with berths for four vessels. Two berths have depth of 10 metres alongside. Two berths with 7·5 metres depth.

STEVEDORES: Working hours 0700 to 1100, 1300 to 1700, 1900 to 0600. Two local stevedoring firms.

FRESH WATER: Available from hydrants on the quay.

FUEL: Available from connections on the quay.

MEDICAL: No advance notice required for medical attention, unless urgent assistance necessary. Hospital facilities available. Crew members and passengers should be in possession of valid smallpox and yellow-fever certificates (cholera certificate too if from cholera area) on international forms. Vaccination/fever inoculations and certificates may be obtained ashore if required.

GANGWAY/DECK WATCHMEN: Recommended to employ watchmen to prevent pilferage, but not compulsory.

OPENING/CLOSING HATCHES: Can be done by either crew or stevedores. Often done by crew.

CERTIFICATES: Tonnage Certificate to be produced to Pilot, as certain port dues are based on vessel's registered tonnage.

REPATRIATION: Facilities exist for nationals of those countries maintaining diplomatic relations with Portugal. A valid passport is necessary as immigration authorities do not recognise a Seaman's Book as being a valid travel document.

TIME: Local time 2 hours ahead of GMT. No alterations made to clocks during year.

SHORE LEAVE: Crew members are allowed ashore, excepting nationals of those countries not maintaining diplomatic relations with Portugal.

2 Sets non-negotiable Bills of Lading.
Clearance Documents from last port.

PILOTAGE: It is necessary to order by radio request to Agent 14 hours before arrival.

ANCHORAGE: Vessels may anchor South of the dock about 300 metres off. Other suitable anchorages will be indicated by the Pilot.

RESTRICTIONS: Vessels may enter with Pilot at any hour day or night.

MAX. SIZE: Draft up to 27 ft. 6 in. for berthing.

HEALTH: In case of contagious disease on board, the port Health Authorities must be advised in advance.

RADIO: Send messages through Beira Radio.

TUGS: None available.

BERTHING: One berth, length 182 metres, depth alongside 28 ft.

STEVEDORES: In ETA message to Agent, indicate number of gangs required and advise quantity and description of cargo for discharge.

MEDICAL: In case of urgency advise Agent by radio before arrival. Hospital facilities available. Vaccinations can be performed.

FRESH WATER: Not available.

FUEL: Not available.

GANGWAY/DECK WATCHMEN: Not necessary as there is a permanent guard on board.

OPENING/CLOSING HATCHES: Performed by stevedores.

CUSTOMS ALLOWANCES: Bond is not sealed and no restrictions made.

IDENTIFICATION CARDS: Required by police.

CONSULS: Only Germany is represented locally.

REPAIRS: No facilities available.

REPATRIATION: Can be arranged.

AIRPORT: Situated 7 km. away. Flights to Beira 5 times a week.

TIME: GMT plus 2 hours. No alterations during the year.

HOLIDAYS: No work performed from 1700 Christmas Eve until 0600 on 26th December; no work performed from 1700 New Year's Eve until 0600 on 2nd January. Work may be arranged on the following holidays: 10th June, 13th June, 15th August, 5th October, 1st November, 1st December, 8th December.

POLICE/FIRE/AMBULANCE: Police, tel. 39; Hospital, tel. 54.

SHORE LEAVE: Allowed. Except for nationals of countries not maintaining diplomatic relations with Portugal.

AUTHORITY: Capitao do Porto de Porto Amelia.

AGENT: Companhia Comercial João Ferreira dos Santos, SARL, POB 13, Porto Amelia. Cables: "Jorreirantos-Porto Amella".

Nauru Island

NAURU: 00.32 S. 166.56 E.

DOCUMENTS:
International Declaration of Health, 1 copy.
Clearance from last port.
Crew Lists, 2 copies.
Passenger Lists, if any, 2 copies.
Manifest, 1 copy.

PILOTAGE: Pilotage is available on request without charge; Masters are advised to avail themselves of this service. It is necessary that Masters, through Radio Nauru, inform telegraphic address Nauruphos Nauru of ETA 48 hours before arrival, confirming or altering this 12 hours before arrival. Nauruphos will reply through Radio Nauru on receipt of second message giving time for the vessel to close in to half mile West of loading plants, where pilot will board. In case of adverse weather or congestion, Masters will be notified by radio, or by VHF channel 16, 156·8 Mc/s with range of about 40 miles. Vessels are handled inwards in daylight only, and should fly flag when approaching island. A safe and clean pilot ladder should be provided, a good lee made for the pilot to embark.

ANCHORAGES: No anchorages are available owing to the extreme depths of water. Vessels waiting normally drift off and return at daybreak or when instructed to do so.

RESTRICTIONS: Tide and draft have no bearing on entry but it is normal not to handle vessels into berth in darkness. However, vessels are unmoored at all hours.

MAX. SIZE: Vessels have been handled up to an overall length of 630 ft. Beam should not exceed 90 ft., but there are no draft limitations.

HEALTH: Masters of vessels approaching Nauru are required to send a telegram addressed to the Quarantine Officer, Nauru within 24 hours of arrival. The telegram should state the name of last port, date, presence of any infectious disease. On receipt of telegram, the quarantine officer will send reply indicating whether or not pratique is granted. It is still necessary to fill out the International Declaration of Health and hand this to Boarding Officer after berthing.

RADIO: Nauru Radio station, call sign C2N. Should, through atmospheric conditions, difficulty be found in raising Nauru, it is suggested that the message be passed through Sydney or any other convenient coastal station. Port Radio VHF, calling channel 16, working channel 12, permanent service.

TUGS: No tugs available for berthing.

BERTHING: Such special requirements which relate to berthing in the port are contained in a Letter of Advice to Ship Masters issued by the BPC. Shore labour normally boards the vessel with the pilot to assist in mooring to the buoy system.

STEVEDORES: As stevedoring is carried out by Nauruphos, no separate advice is required. Loading rate of bulk phosphate is as high as 3,000 tons per hour.

MEDICAL: Medical treatment can be given on short notice. Limited hospital facilities are available, and emergency surgery can be carried out. Smallpox vaccination is required, and cholera if the vessel has come from an infected area.

TANKERS: Lengths and drafts as for bulk phosphate vessels. Eight inch discharge line to shore storage tanks.

DENSITY: Normal salt water all states of tide.

FRESH WATER: Island water is imported, and water will be supplied only in cases of emergency.

FUEL: Island stocks are imported for use in the phosphate industry, and only limited quantities of heavy fuel or diesel oil can be made available in cases of extreme urgency.

WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Carried out by crew.

SHIP CERTIFICATES: Deratisation certificate only.

CUSTOMS ALLOWANCE: No restrictions apply.

CARGO GEAR: Cargo gear should be up to the standard demanded in Australian ports.

CREW IDENTIFICATION CARDS: Some form of identification, passport, discharge book, or identity card should be carried by crew members.

CONSULS: An Australian Representative is resident on the Island.

REPAIRS: The phosphate industry requires good workshop facilities of various kinds for maintenance of their own heavy plant and such workshops are kept busy at all times. Small repairs such as welding, brazing, lathe work, etc., can be carried out, but only when essential to allow the vessel to proceed on its voyage. Main engines cannot be immobilised whilst the vessel is moored to any section of the buoy system.

REPATRIATION: Repatriation can be arranged. No facilities for crew changes.

AIRPORT: Two weekly services operated by:
(1) Fiji Airways to Nauru via the Gilbert and Ellice Islands Group to Fiji.
(2) Air Nauru to and from Australia.
Air Nauru operates a fortnightly service from the Marshall Islands to Nauru.

TIME: Local time is GMT plus 11½ hours. No alterations during the year.

HOLIDAYS: Christmas Day, New Year's Day, and Good Friday are normally closed holidays. Other National holidays occur during the year but normally work carries on, on these days.

POLICE/AMBULANCE/FIRE: All emergencies are handled by the Harbour Masters, one of whom remains aboard the vessel throughout the time the vessel is attached to the mooring system.

TELEPHONES: Telephones are put aboard for the use of island staff working the vessel.

SERVICES: No special services available.

SHORE LEAVE: This may be granted at the discretion of the Master but should in all cases terminate at 5 p.m.

PORT REGULATIONS: No vessel may immobilise main engines whilst moored to the buoy system. Main engines should be on instant readiness, deck power should be available at all times, and the vessel must proceed to sea when instructed to do so by the Harbour Master.

DELAYS: Normally no delays should be expected. Vessels could wait a day, or possibly two due to port congestion, but this seldom happens; delays can occur due to adverse weather, the duration of which is unpredictable.

PORT AUTHORITY: The Harbour Master, appointed by The Nauru Phosphate Corporation, Nauru. Telegraphic address Nauruphos Nauru.

Netherlands

AMSTERDAM: 52.22 N. 4.54 E.

PORT LIMITS: Notices of Readiness will only be accepted (subject to C/P terms) if vessel has actually arrived at Amsterdam, which means that vessels have to enter from sea and pass the locks at Ijmuiden, proceeding through the North Sea Canal to Amsterdam. There are various buoys and quays available where vessels can be moored waiting for final discharging berth.

DOCUMENTS:
Health Certificate. Forms obtainable from sea pilot.
Crew List in triplicate.
2 copies of Crew Manifest for cigarettes, cigars, spirits, etc., belonging to crew.
Passenger List in triplicate.
1 copy of Manifest.
1 copy of Bills of Lading.
Dangerous Cargo List.
Ship's Register.
1 copy Stores List.

PILOTAGE: Pilot vessel cruising at sea in vicinity of Ijmuiden between light whistle buoy and the Moles.

Masters required advise ETA not less than 4 hours in advance to "Loodswezen Ijmuiden". This advice must be amended if vessels ETA changes more than 2 hours from the original message. Text of message must contain:
(*a*) ETA Pilot in four-figure group, Local time.
(*b*) Vessels draft in feet.
(*c*) Port of destination.

The pilot station may be contacted by Scheveningen Radio or VHF Channel 12.

Strongly recommended to contact Harbour Master's office at Ijmuiden at least 2 hours before arrival by VHF Channel 11 to obtain information for safe navigation and rapid locking.

Possible to embark Pilot by helicopter if the launch service suspended due to weather conditions.

ANCHORAGE: Anchoring in Ijmuiden outer harbour, North Sea Canal and in harbour of Amsterdam is prohibited.

RESTRICTIONS: Entry possible at night. Official maximum draft is 43 ft. (salt water). By permission of Government Harbour Master at Ijmuiden it is possible to enter with maximum draft 45 ft. (s.w.). Such permission to be applied for at least 14 days prior to arrival.

MAX. SIZE: Vessels proceeding to Amsterdam have to pass locks at Ijmuiden, Dimensions of Northern lock (biggest): 1,312 ft. long, 164 ft. wide 49 ft. 2 in. deep.

RADIO: Cable Agents giving ETA draft, cash and other requirements via Scheveningen Radio/PCH.

RADAR/VHF: Harbour radar is installed at Ijmuiden. In bad visibility radar assistance will be given for incoming ships day and night. A radio portophone is provided by Pilot. Direct communication between incoming and outgoing ships and commanding post of locks is possible by means of VHF radio telephone, Channel 11. Government patrol boats are also equipped with VHF installations. The Radio-Radar Station (Redeplot) can also be contacted via VHF Channel 12 before approaching Ijmuiden.

TUGS: Sea-going tugs available between piers at Ijmuiden assisting vessels, into locks or outer harbour. Harbour tugs available in locks assisting vessels to Amsterdam. The rates include use of tug hawser.

BERTHING: Possible at night. If no berth available vessels may be moored on buoys.

BRIDGES: Vessels proceeding to Oil Harbour, Coen Harbour, Vlot Harbour and installations in Eastern part of port pass railway bridge over North Sea Canal at Zaandam. Notices indicating distance from bridge have been placed at 500 metres at either side and notices to stop at 150 metres at West side and 225 metres at East side. When bridge closed Masters must stop their ships and must on no account proceed unless signal is given that passage is allowed. Bridge is opened regularly in accordance with time-table of Netherlands Railway.

STEVEDORES: In order to enable agents to order gangs in time it is recommended to keep agents duly informed about ETA. No ETA to stevedores necessary.

MEDICAL: If immediate medical assistance will be required in the locks of Ijmuiden, Agents must receive advance notice.

BULK HANDLING FACILITIES: *Grain:* The Silo installation of

IGMA at Vlothaven depth alongside 49 ft. 3 in. has main jetty 1,200 ft. length to accommodate two vessels up to 80,000 tons dwt. Ships unloaded by four mobile pneumatic suckers, with capacity 400 tons per hour, and two floating elevators. Daily discharge capacity about 17,000 tons.

On discharging side maximum gear height above water line 92 ft. On loading side maximum gear height above water line 36 ft.

Ore, Coal, etc.: NV Overslagbedrijf Amsterdam in West harbour, quay 2,600 ft. length, depth 49 ft. alongside.

Discharging rate of gear up to 50,000 tons per 24 hours. Loading rate about 2,500 tons per hour.

Max. outreach of loading and discharging gear 147 ft.; max. height of loading discharging gear above water level 55 ft.

NV Havenbedrijf Rietlanden Quay length 2,500 ft. depth 35 ft. Capacity about 8,000 tons per day.

Phosphate: Albatross Fertiliser Works Jetty, depth alongside 31 ft. Two grab cranes with daily capacity of 7,000 tons.

Containers: Quay length 280 metres to be extended to 500 metres. Depth alongside 33 ft. to be increased to 40 ft.

Two container gantry cranes with lifting capacity of 50 tons.

The Container Terminal Amsterdam N.V., 2 cranes of 40 tons capacity each.

TANKERS: Diameter of pipelines:

Mobil Refinery	8 in. and 12 in.
In the Oil Harbour (Amatex)	4 in ,, 12 in.
Comos Tank	8 in. ,, 14 in.

Slop discharge facilities either by barge or into shore tanks of tankers cleaning installations.

Tanker berths:

Mobil Refinery	2, Maximum draft 44 ft. 6 in.
Amatex	5, Maximum draft 41 ft.
Cosmos Tank	1, Maximum draft 42 ft.
Smid & Hollander	1, Maximum draft 36 ft. 2 in.

BP, one berth, max. draft 42 ft.

Shell, one berth max. draft 32 ft.

DENSITY: Amsterdam is not a tidal port. The water is brackish to fresh.

FRESH WATER: Drinking and boiler water can be supplied by barge, or if connection available, from shore. Price depends on quantity ordered.

FUEL: All grades of fuel are available. Advance notice 48 hours.

FIRE PRECAUTIONS: No repair work to be carried out to tankers without permission of Harbour Authorities. Usual non-smoking precautions, etc.

GANGWAY/DECK WATCHMEN: Not required. Dependent on commodity of cargo.

OPENING/CLOSING HATCHES: Liner vessels by crew or by stevedores, payable per man per hour. Tramp vessels as per Charter Party.

CERTIFICATES:

Ship's Register.
Usual Cargo Certificate.
Safety Radio.
Safety Equipment Certificate.
Crew Roll.
All usual certificates required for navigation.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes per man or equivalent of tobacco or cigars. Wine and or Spirits: 5 litre of wine per man. Spirits: total 5 litre for the whole ship.

CARGO GEAR: Usual cargo gear certificate.

IDENTIFICATION CARDS: Not needed.

CONSULS: Nearly all countries have established consulates at Amsterdam.

REPAIRS: All types of deck and engine repairs are possible including gas-freeing and tank-cleaning.

DRY DOCKS: NDSM: Four dry docks, largest of which length 817 ft. breadth 120 ft., depth 28 ft.

ADM: Five floating docks largest of which length 620 ft. breadth 83 ft. 4 in., lifting capacity 28,000 tons dwt.

Other floating docks available for vessels up to 4,500 tons.

REPATRIATION: Facilities for repatriation of crew to any destination are available.

AIRPORT: Distance to Schiphol Airport (served by regular airlines) 15 km.

TIME: GMT plus 1 hour. No alterations during the year.

HOLIDAYS: New Year's Day; Easter Monday; Queen's Birthday (April 30th); Ascension Day; Whit Monday; Christmas Day and Boxing Day.

Cargo can be worked during these days subject to labour being available at premium rates.

POLICE/AMBULANCE/FIRE: Police 222222; Ambulance 355555; Fire 666666.

TELEPHONES: Telephone connections on board are only possible on certain quays (passenger ships). It is possible to rent portable mobilophones.

SERVICES: 2 Tank cleaning installations, compass adjusting/direction finder calibration, representatives of all leading radio installations, radar and other nautical instruments available.

SHORE LEAVE: Crew members allowed ashore.

DELAYS: Usually no congestion.

AUTHORITY: Dienst der Havens en Handelsinrichtingen, Havengebouw, 7, De Ruyterkade, Amsterdam.

AGENT: Wm. H. Muller & Co. (Amsterdam) n.v. Telegraphic address: Mineral Tel. 63456. Telex 12058, Liner, Stevedoring and Forwarding Departments, Tramp Agency Department.

DELFZIJL: 53.20 N. 6.54 E.

DOCUMENTS: See "Rotterdam".

PILOTAGE: Pilot boats normally cruise at Wester-Ems buoy. During bad weather they withdraw into estuary, but never further than Borkum Roads. Pilot boats listen on channel 14 VHF; distance from pilot station to Delfzijl 32 miles. Pilot service compulsory for all vessels drawing over 22 dm.

ANCHORAGE: Anchoring in harbour area prohibited. On roads, ships up to 4,000 dwt. anchor near buoy B.W. 14. Larger vessels should anchor in Doekegat.

RESTRICTIONS: Harbour accessible for ships with drafts up to 28 ft. 6 in. (At MHW in channel ships of this draft maintain a keel clearance of about 1 ft. under normal circumstances). These deep-loaded vessels should enter at H.W. only. Persisting easterly gales, may result in less water. No official restrictions regarding length and breadth of vessel. See "Developments".

TUGS: 1 tug of 900 h.p., 2 tugs of 800 h.p. and 2 tugs of 175 h.p. available. Tugs use ship's lines.

RADIO: Cable to Agents via Radio Scheveningen. PCH.

BRIDGES: Bridge to the 1st Inner Harbour may always be worked. Bridge to the Industrial Inner Harbour (Oosterhornkanaal) will be handled from Monday to Saturday. On Sunday bridge may be opened on special request.

CARGO HANDLING: Public quay is equipped with 14 cranes to work general cargo. Five of these may also be used to handle bulk cargoes (fertilisers, grain).

There is in the outer harbour a private facility to discharge alumina, a bulk salt-loading terminal and a deep sea berth to handle molasses.

DENSITY: Ranging between 1.007 and 1.020, depending on the tide.

FRESH WATER: Available along new quay in unlimited quantities.

FUEL: Fuels in limited quantities for coasters are always available. For bunkering of larger vessels, arrangements should be made in advance.

DEVELOPMENTS: Present harbour entrance will be closed in 1973. Outer harbour will be extended in an Easterly direction and a new entrance will be built opposite the village of Oterdum. New entrance will have bottom width of 200 metres. About 10 km. to the North of present port a new harbour will be constructed in the years 1969–75. It is expected that this harbour, which will be named "Eemshaven" will be operational in June 1973. This harbour will be able to receive ships up to 250 metres length and 36 ft. draft.

GANGWAY/DECK WATCHMEN: According to police regulations, Master has to keep watchmen on board.

OPENING/CLOSING HATCHES: Normally carried out by ship's crew.

CONSULS:

Denmark	tel. 05961–3333	Belgium	tel. 050–35441
Finland	,, 05961–6800	Germany	,, 050–26741
Sweden	,, 05961–3333	Spain	,, 050–37879
France	,, 05961–3778	Norway	,, 050–24941

REPAIRS: Most engine and deck repairs can be carried out by two local shipyards.

DRY DOCKS: Dry-docking is limited to ships up to 3.000 dwt. with a draft not exceeding 32 dm. For larger vessels, dry-docking facilities exist in the nearby port of Emden (Germany).

CERTIFICATES: The tonnage certificate should be shown to Harbour Master. on first call every year.

HEALTH, MEDICAL ATTENDANCE, HOLIDAYS, LOCAL TIME, CUSTOMS ALLOWANCES: see Rotterdam.

AUTHORITY: Port of Delfzijl Authority, Handelskade W 10, Delfzijl. Tel.: 05961–4966. Telex: 53229.

AGENTS: Maritima Shipping and Trading Company Ltd., Markstraat 1, P.O. Box 7, Delfzijl. Tel. 3741. After office hours: 3711, 3743 3742. Telegrams Maritima. Telex 53153.

DORDRECHT: 51.49 N. 4.40 E.

DOCUMENTS: See "Rotterdam".

PILOTAGE: Vessels have to enter New Waterway at Hook of Holland and proceed to Dordrecht via this New Waterway and the River Oude Maas. Masters of vessels bound for Dordrecht should state destination in ETA message as Pilots for Dordrecht embark from pilot cutter at roads. Deep-draughted vessels may have to exchange Pilots just inside breakwaters at Hook of Holland. (See Rotterdam "Ordering a Pilot").

ANCHORAGE: At sea off Hook of Holland (see Rotterdam). No anchorage between entrance to New Waterway and Dordrecht.

RADIO/RADAR/VHF: No radar service on river Oude Maas or Dordrecht.

RESTRICTIONS: Max. draft: 27 ft. 6 in. length: approx. 200 metres (656 ft.) breadth: 40 metres (131 ft.). For tankers minimum visibility 500 metres (1640 ft.). For dangerous cargoes, see Rotterdam.

TUGS: Tugboats ordered by Pilot when entering New Waterway. Tugs normally meet vessels at Dordrecht.

BRIDGES: Bridges across the River Oude Maas are opened day and night. Sea traffic has preference above shore traffic.

TANKERS: Oil installation of Gebr. Broere N.V. has seven tanker berths. There are other tanker berths for small tankers. No slop (residue) storage facilities.

REPAIRS: Yards of various capacities available for all types of repairs.

FRESH WATER: At oil installations fresh water can be supplied from shore. Or supply by waterboat.

CONSULS:
Denmark tel. 32177 Norway tel. 32177 France tel. 33231
Other consulates at Rotterdam at 20 km. distance.
POLICE/AMBULANCE/FIRE: Tel. Police 30333; Ambulance 32555; Fire 33333.
AIRPORT: Rotterdam and Amsterdam airports at a distance of 30 and 90 km. respectively served by regular airlines.
PILOT CUTTERS, HEALTH, MEDICAL ATTENDANCE, BUNKERS, CUSTOMS ALLOWANCES, HOLIDAYS: see Rotterdam.
TIME: GMT plus one hour.
AGENTS: Wm. H. Muller & Co. Scheepvaartagenturen (Rotterdam) N.V. Westerlaan 1, Tel. 010–36.43.00. Rotterdam. Telegr. Mineral. Telex. 21245, 46, 48, 32124. Shipbrokers. Liner Agents.

FLUSHING: 51.27 N. 03.35 E.

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
1 Store List.
1 Personal Effect List.
Ship's Register.
1 Manifest or Bill of Lading.
PILOTAGE: Entering by Northern entrance (Oostgat) in vicinity of MZ light buoy T (51° 39′ N. and 03° 20′ E.) Dutch pilot vessel has black hull and funnel, flying a blue flag with the letter L in white.
Entering by Southern entrance (Wielingen) from English channel past light vessels Sandettie Banks and Westhinder a Belgian pilot cutter is stationed in vicinity of Buoy A1 (51° 22′ N. and 02° 53′ E.). This motor pilot vessel has black hull with white number on bow, yellow funnel with black top, flies red flag with letter P in white.
Vessels required to give 4 hours advance notice to Pilot cutters advising ETA, draft, vessel's name. In case of delay, an amended ETA should be sent. Notice can be given by VHF Channel 6.
During bad weather, both pilot boats shift to Flushing roads.
ANCHORAGE: Flushing roads at not less than ¾ of mile from Northern Coast. Depths vary quickly from 33 to 85 ft.
MAX. SIZE: *Flushing East Harbour* – 36 ft. LWOST at the Container Berth.
Outer Harbour – 32 ft. LWOST.
Length and breadth in both harbours no restrictions. Max. draft 44 ft., provided vessel is able to berth at high tide and discharge immediately to reduce draft by the required amount at low water.
Total Refinery Terminal – see Developments.
HEALTH: No certificates required. In event of any disease or fever contact agents.
RADIO: All messages to Agents via Scheveningen Radio.
Flushing Radio can be reached by VHF Channel 14. Harbour tugboats and pilot cutters operate on VHF Channel 6.
RADAR/VHF: Port radar service, none. River service under consideration. Flushing Radio Channel 14. Every 5 min. each hour this station transmits information regarding visibility, water-level, hindrances, anchorages, etc. Harbour tugs Channel 6.
TUGS: Join vessels in Flushing roads. Vessel's lines usually used. No extra for tug lines. For contract holders 5% reduction.
BERTHING: *Outer Harbour* – West side, quay of 1,100 ft. long, depth of water 32 ft. LWOST. Quay height above sea level 2 metres at high tide and 7 metres at low tide. In Northern part of Outer Harbour a landing stage with length of 360 ft. Depth at low tide 20 ft.
Flushing East Harbour – Quay length 1,300 ft. Depth 36 ft. LWOST.
Inner docks: A double lock and sluice give access from Outer Harbour to inner docks and canal through Walcheren. Largest lock 455 ft. wide, depth on still LWOST of 17½ ft. The other lock is 213 ft. long, 25 ft. wide, and 10 ft. deep. Sluice 115 ft. wide, 28 ft. deep. Constant depth of water at quay 24 ft.
STEVEDORES: Provided by N. V. Haven Van Vlissingen (Port of Flushing Limited). Tel.: 01184–5070. Telex: 55137.
MECHANISED CARGO HANDLING: Quay length 1,300 ft. equipped with two portainers suitable for handling 20 up to 40 ft. containers.
Ro/Ro service between Flushing and Ramsgate. Daily service, later on probably twice a day. Vessels berth in the Inner Docks. At Flushing-East, Ro-Ro facilities for deep sea vessels.
TANKERS: Vessels carrying over 4,400 gallons of combustible liquids with a flash point up to 21° C., or over 22,000 gallons with flash point up to 55° C require Harbour Master's permission for entry.
Two discharging berths alongside the quay. Discharge lines three of 8 in. diameter with capacity of about 2,000 tons per hour.
MEDICAL: Two hospitals available.
DENSITY: About 1024.
FRESH WATER: Can be supplied either alongside the quay or by water boat. Possible to supply fresh water in Flushing roads weather permitting.
FUEL: All grades obtainable from major oil companies and supplied by barge only.
DEVELOPMENTS: In Flushing East the quay of 1,300 ft. length to be extended by 300 ft. with depth alongside 36 ft. LWOST. Total Refinery under construction with production planned to commence 1974. Project includes a jetty in the River Scheldt for 80,000 dwt tankers.
GANGWAY/DECK WATCHMEN: Available but not compulsory or necessary.
OPENING/CLOSING HATCHES: On liners by crew or stevedores, ship's option.
CERTIFICATES: On arrival, ship's register only.
CUSTOMS ALLOWANCES: 200 cigarettes for each member of crew and total on board out of bond 5 litres spirits and 100 litres wine.
CARGO GEAR: No additional requirements. Normally work with shore cranes.
IDENTIFICATION CARDS: Not required.
CONSULS:

Belgium	tel. 5151	Norway	tel. 2272
Denmark	,, 4520	Portugal	,, 2272
France	,, 2373	Sweden	,, 2353
Germany	,, 01188–1764		

REPAIRS: All repairs possible.
DRY DOCKS: Largest 705 ft. 5 in., width 98 ft. 4 in. and 4 smaller docks.
REPATRIATION: All facilities available for crew changes; good railway connections.
AIRPORT: Rotterdam (Zestienhoven) 125 km.; Brussels (Melsbroek) 150 km.; Amsterdam (Schiphol) 180 km.
TIME: GMT plus one hour.
HOLIDAYS: New Year's Day (January 1st); Easter Monday; Queen's Birthday (April 30); Ascension Day (May 15th); Whit Monday; Christmas Day (December 25th); Boxing Day (December 26th).
Work can be arranged on above days, however dependent upon permission of the Docker's Inspection.
POLICE/AMBULANCE/FIRE: Police 3333; Ambulance and Fire 2323.
TELEPHONES: Not possible to place telephones on board except for vessels berthing at the shipyard "De Schelde".
SERVICES: Compass Adjuster; Radio/radar services also calibration of the Direction Finder, Seamen's Home (Mission to Seamen); Lloyd's Sub-agents; Ship's Laundries.
SHORE LEAVE: After clearing inwards, crew members are allowed to go ashore without special permission.
AGENT: Wm. H. Muller & Co. Shipping Agencies (Rotterdam) N.V., Flushing. PO Box 81. Tel. 2171 (day and night). Telex 55068. Cables "Mineral".

IJMUIDEN: 52.28 N. 04.34 E.

Also refer to "Amsterdam".
DOCUMENTS:
2 Personal Effects Lists.
2 Stores Lists.
3 Crew Lists.
3 Passenger Lists.
Declaration of Health.
PILOTAGE: Compulsory. Pilot boat stationed off entrance to Ijmuiden. Vessels required to give 4 hours advance notice to "Loodswezen" Ijmuiden. The advice to be amended if vessel changes ETA more than 2 hours from the original message.
Notice can be given via Scheveningen Radio or by VHF Channel 12.
Harbour Master's office can be contacted by VHF Channel 11 to obtain information for safe navigation and rapid locking. In adverse weather vessels may receive radar assistance from Port Operations for entering harbour.
ANCHORAGE: Vessels may anchor off Ijmuiden outside the breakwaters.
MAX. SIZE: For North Sea Canal, entrance lock 1312 ft. long, 164 ft. wide, 49 ft. depth. Density: 1016.
Ijmuiden Outer Harbour: vessels up to 100,000 dwt. Max. draft 43 ft. or up to 45 ft. with prior permission.
HEALTH: Pratique granted automatically on arrival after completion of Maritime Declaration of Health. In case of suspected disease on board notify Agent by radio before arrival advising full details.
TUGS: Available. Meet vessel in harbour entrance if required.
BERTHING: Coal and ore cargoes discharged to Blast Furnace and Steel Works Company in Outer Harbour.
Quay 1: length of quay 1,148 ft., depth alongside 29 ft. 6 in. at LLWS, 34 ft. normal high water.
Quay 2: length of quay 1,800 ft. Depth alongside 48 ft. at LLWS.
Quay 3: length 480 ft. depth alongside 34 ft. LLWS.
Inner Harbour:
Used mainly for smaller vessels with draft between 13 ft. and 21 ft. 6 in.
BULK HANDLING FACILITIES: Normal capacity per 24 hours:
Quay 1: Iron ore 20,000 tons, coal 12,000 tons.
Quay 2: Iron ore 40,000 tons, coal 28,000 tons.
DEVELOPMENTS: Proposed new outer port to be built South of South Harbour Entrance Mole to accommodate vessels up to 62 ft. draft.
STEVEDORES: Work in shifts around the clock. Work normally stops 22.00 Saturday until 06.00 Monday unless arrangements made for overtime.
FRESH WATER: Available from quay.
FUEL: Available by barge.
MEDICAL: Doctors, hospital and all services available.
CUSTOMS ALLOWANCES: 200 cigarettes for each crew member; 5 litres spirits for whole ship.
CONSULS, REPAIRS: and all general information; refer to "Amsterdam".
AUTHORITY: Rijkswaterstaat Havnedienst, Ijmuiden.
AGENT: See "Amsterdam".

ROTTERDAM: 51.55 N. 4.24 E.

DOCUMENTS: Maritime Declaration of Health, obtainable from River Pilot. Crew list in duplicate on special Dutch forms, obtainable from agents. Ship's Register. Store list. Crew custom declaration showing quantity cigars, cigarettes, tobacco, spirits, wine, radios, cameras, etc., and souvenirs for each crew member.

Crew and passenger lists to show date of last vaccination against smallpox, for vessel coming from suspect zone within last 14 days.

DEEP SEA PILOTAGE: See Brixham or Cherbourg.

PILOTAGE: River pilotage compulsory from sea to harbour area and vice versa, except vessels in ballast drawing less than 7 ft. 3 in.

Harbour pilotage compulsory from fairway to berth in harbour area and vice versa, except for vessels under 475 GRT.

Pilot Cutters: Cruising continuously, day and night, off entrance to New Rotterdam Waterway, one North of line North Mole/Maasbuoy and one near Maasbuoy. Characteristic signals:

1. By day pilot flag, being a blue flag with white letter "L", displayed from main top mast.
2. At night, lights as prescribed by Regulations for Preventing Collisions at Sea.
3. During bad visibility the fog signal prescribed by rule 15 of these Regulations.

Ordering a Pilot:

1. Vessels bound for New Rotterdam Waterway should cable, at least four hours in advance, ETA pilot station and draft to:
   (*a*) Pilotage Hook of Holland via Coastal Station Scheveningen Radio (PCH) or
   (*b*) Coastal Station Maassluis Radio (Radio Dirkzwager) by VHF Channel 12 (Port operations) or
   (*c*) Pilot Station Maas at Hook of Holland by VHF Channel 20 and 18.
2. Vessels bound for Port of Dordrecht should also state their destination, as pilots for Dordrecht embark from pilot cutter on roads.
3. Vessels bound for Europoort should also adopt following procedure:
   (*a*) Vessels equipped with VHF should notify via Channel 12 or 14 their ETA pilot station at least 1 hour in advance to Maassluis Radio Dirkzwager.
   (*b*) Vessels not equipped with VHF should cable same information to Europoort Rotterdam via Scheveningen Radio (PCH).

On arrival at pilot station vessels requiring Pilot are to display following signals, separately or together:

1. *By day*, International code signal G. Pilot flag, viz., vessel's National Flag with white border from foremast.
2. *By night*, Morse signal G by flashlight. Blue lights at intervals of 15 minutes. A bright white light shown just above bulwark for one minute at short intervals.
3. *During bad visibility*. At least 3 seconds after the normal fog signal the international code signal G. Pilot vessel will answer: the normal fog signals, followed after at least 3 seconds by international code signal H (I have pilot on board).

Pilotage by Helicopter.

Helicopter pilotage for tankers drawing up to 65′ is regularly carried out now. However, smaller vessels can also benefit by such services which are rendered day and night.

Condition is that vessels have an obstacle free hoisting area on deck of min. 15 feet in diameter.

ANCHORAGES: Recommended anchorages:

51° 57′ N. 3° 53′ E. } max. draft
51° 59′ N. 3° 58′ E. } 52 ft.

for vessels with a deeper draft:

52° 01′ N. 3° 00′ E.
52° 05′ N. 3° 08′ E.

RESTRICTIONS: *Dangerous Cargoes:* (*a*) explosive cargoes in quantities of over 1,000 Kgs.; (*b*) gas in bulk; (*c*) poisonous liquids; (*d*) inflammable liquid with a flash point of less than 56° C., and of which the gas may form an explosive mixture with air.

Masters of vessels carrying dangerous cargoes have to report 4 hours before arrival at pilot station to "Pilot, Hook of Holland", via Scheveningen Radio, or to "Maassluis Radio Dirkzwager" on VHF Channel 12, stating draft, ETA and the code word "Imco".

Fog: Tankers will not be allowed to manoeuvre in fog, i.e. in visibility of less than 500 metres (1,640 ft.).

Entry times: Depend on prevailing circumstances, as follows:

Europoort:
Ore carriers – Any time.
Tankers:
50 ft. – 57 ft. SW draft – Any time except for Shell 102 and 103 for which see 57 ft. – 62 ft.
57 ft. – 62 ft. SW draft – Any time except between 5–2 hr. (Calandcanal) } before high tide at 5–1 hr. (Beercanal) } Hook of Holland
62 ft. – 65 ft. SW draft – 2 hours before until 2 hours after high water at Hook of Holland.

Vulcaanhaven Vlaardingen: Between 33 and 39 ft. at slack high tide only.

Botlek:
(*a*) Between 31 ft. and 37 ft. any time except between 4 hr. and 1 hr. before high water at Rotterdam.
(*b*) 38 ft. and 39 ft. at slack low or at slack high water, depending on circumstances.
(*c*) 39 ft. to 45 ft. only at slack high water.

Waalhaven:
Same as Botlek, but vessels with a draft of 39 ft. fresh water, which are over 800 ft. in length, must first discharge part cargo in Botlek from where, after draft has been reduced to 37 ft. fresh water, they can be shifted to Waalhaven.

Other basins: Any time.

MAX. SIZE: Europoort: Up to 65 ft. Seawater draft.
Botlek: up to 45 ft. Seawater draft.
Pernis: up to 40 ft. Freshwater draft.
Waalhaven: up to 39 ft. Freshwater draft.

HEALTH: Master has to fill in and sign Maritime Declaration of Health which is handed to him by Pilot. Vessels subject to medical inspection have to hoist flag signal ZV (at night two white lights horizontally placed).

RADIO: Recommended radio station: Scheveningen Radio, call sign PCH, via which station also Agents send messages to vessels.

RADAR/VHF: Chain of seven shore-based radar stations permits navigation during all weather conditions. Radio and radar station Pilot Maas, at Hook of Holland, communicates via Channel 20 of Hague Band or VHF Channel 20.

VHF range = about 15 miles.
Radar range = about 14 miles in S.W. to W. direction, and 10 miles in N. direction.

Captains are requested to call this station, especially during bad visibility, well in advance of arrival at pilot station. Pilot Maas provides vessels within range with nautical information and acts as a link with pilot cutters.

Radio and radar station, known as "Rijkshavendienst Waterway", located in Europoort now operates a 24-hour service. It acts as communication post for safety of shipping outside entrance to New Waterway and on Waterway. The station can be contacted by inward bound vessels, but must be contacted by vessels before departure from Europoort by VHF Channel 14, call-sign "RHD Waterway". Station also gives nautical information on situation on New Waterway every half hour via VHF Channel 14 in English.

MEDICAL: All medical facilities available. Advance notice only in emergency or if attendance required during week-end.

TUGBOATS: Tugs normally join vessel on river when nearing the basin where vessel will be accommodated. Vessel's towing lines used. On departure from Europoort the tow ropes, fastened to the stern, must be supplied by the tugs.

BRIDGES: New Waterway connects port of Rotterdam with North Sea, without any locks or bridges. Only to reach some shipyards, situated East of Rotterdam, vessels have to pass the "Maas-Bridges" (Koningshaven), which are on working days opened at regular times.

BULK HANDLING FACILITIES:

Europe Container Terminus (ECT): Situated in Prinses Margriethaven and in Prins Willem Alexanderhaven. Max. draft 39 ft.

Europoort CV: Quay length 600 metres for discharge, 550 metres for loading, depth alongside 55 ft. 9 in. Height of discharge gear above high water level, 78 ft.

Botlek NV: Quay length 500 metres, depth alongside 42 ft. 6 in., and 240 metres depth alongside 44 ft. Height of discharging gear above high water level, 69 ft.

Loading Section: Quay length 500 metres, depth alongside 29 ft.

Frans Swarttouw: Quay length 890 metres. Depth alongside 44 ft. Height of discharging gear above high water, 87 ft.

Quay length 100 metres, depth alongside 38 ft. 4 in., height of discharging gear above high water, 60 ft.

Loading Section: Quay length 180 metres, depth alongside 23 ft.

Vulcaanhaven/Vlaardingen: Quay length 640 metres, depth alongside 39 ft. Height of discharging gear above high water, 52 ft.

Gem/Botlek: Two berths alongside pier, each 245 metres long, depth alongside 44 ft. Height of discharging gear above high water, 69 ft.

Loading Section: Two berths, 142 metres long, depth alongside 32 ft.

Waalhaven: Pier 7, 400 metres long, depth alongside 37 ft. 3 in. Height of gear above high water, 62 ft.

Pier 5 (SHV): Quay length 345 metres, depth alongside 36 ft. Height of discharging gear above high water, 54 ft.

Europoort: Bunge Grain Installation: Main jetty length 230 metres, depth 52 ft. 6 in., to accommodate vessels up to 100,000 tons dwt. Installation equipped with two grain discharge towers, giving total max. discharging rate of 2,400 tons per hour.

TANKER BERTHS: All tanker berths in Europoort have facilities for discharge of dirty ballast.

Europoort: Shell No. 104, Beneluxhaven, max. draft 65 ft., four 16-in. hoses.

Shell No. 103, fourth Petroleumhaven, max. draft 57 ft., four 16-in. hoses.

Shell No. 102, fourth Petroleumhaven, max. draft 52 ft., four 12-in. hoses.

Shell No. 101, fourth Petroleumhaven, max. draft 46 ft., four 12-in. hoses.

Chevron/Esso, fourth Petroleumhaven, max. draft for two berths, 46 ft. 6 in., three-12 in. hoses.

Chevron/Esso, fifth Petroleumhaven, max. draft 65 ft., three 16-in. hoses.

Gulf, fifth Petroleumhaven, max. draft 53 ft., four 12-in. hoses.

Gulf, fifth Petroleumhaven, max. draft 47 ft., five 10-in. hoses.

B.P., sixth Petroleumhaven, two berths, max, draft 65 ft., four 12-in. hoses.

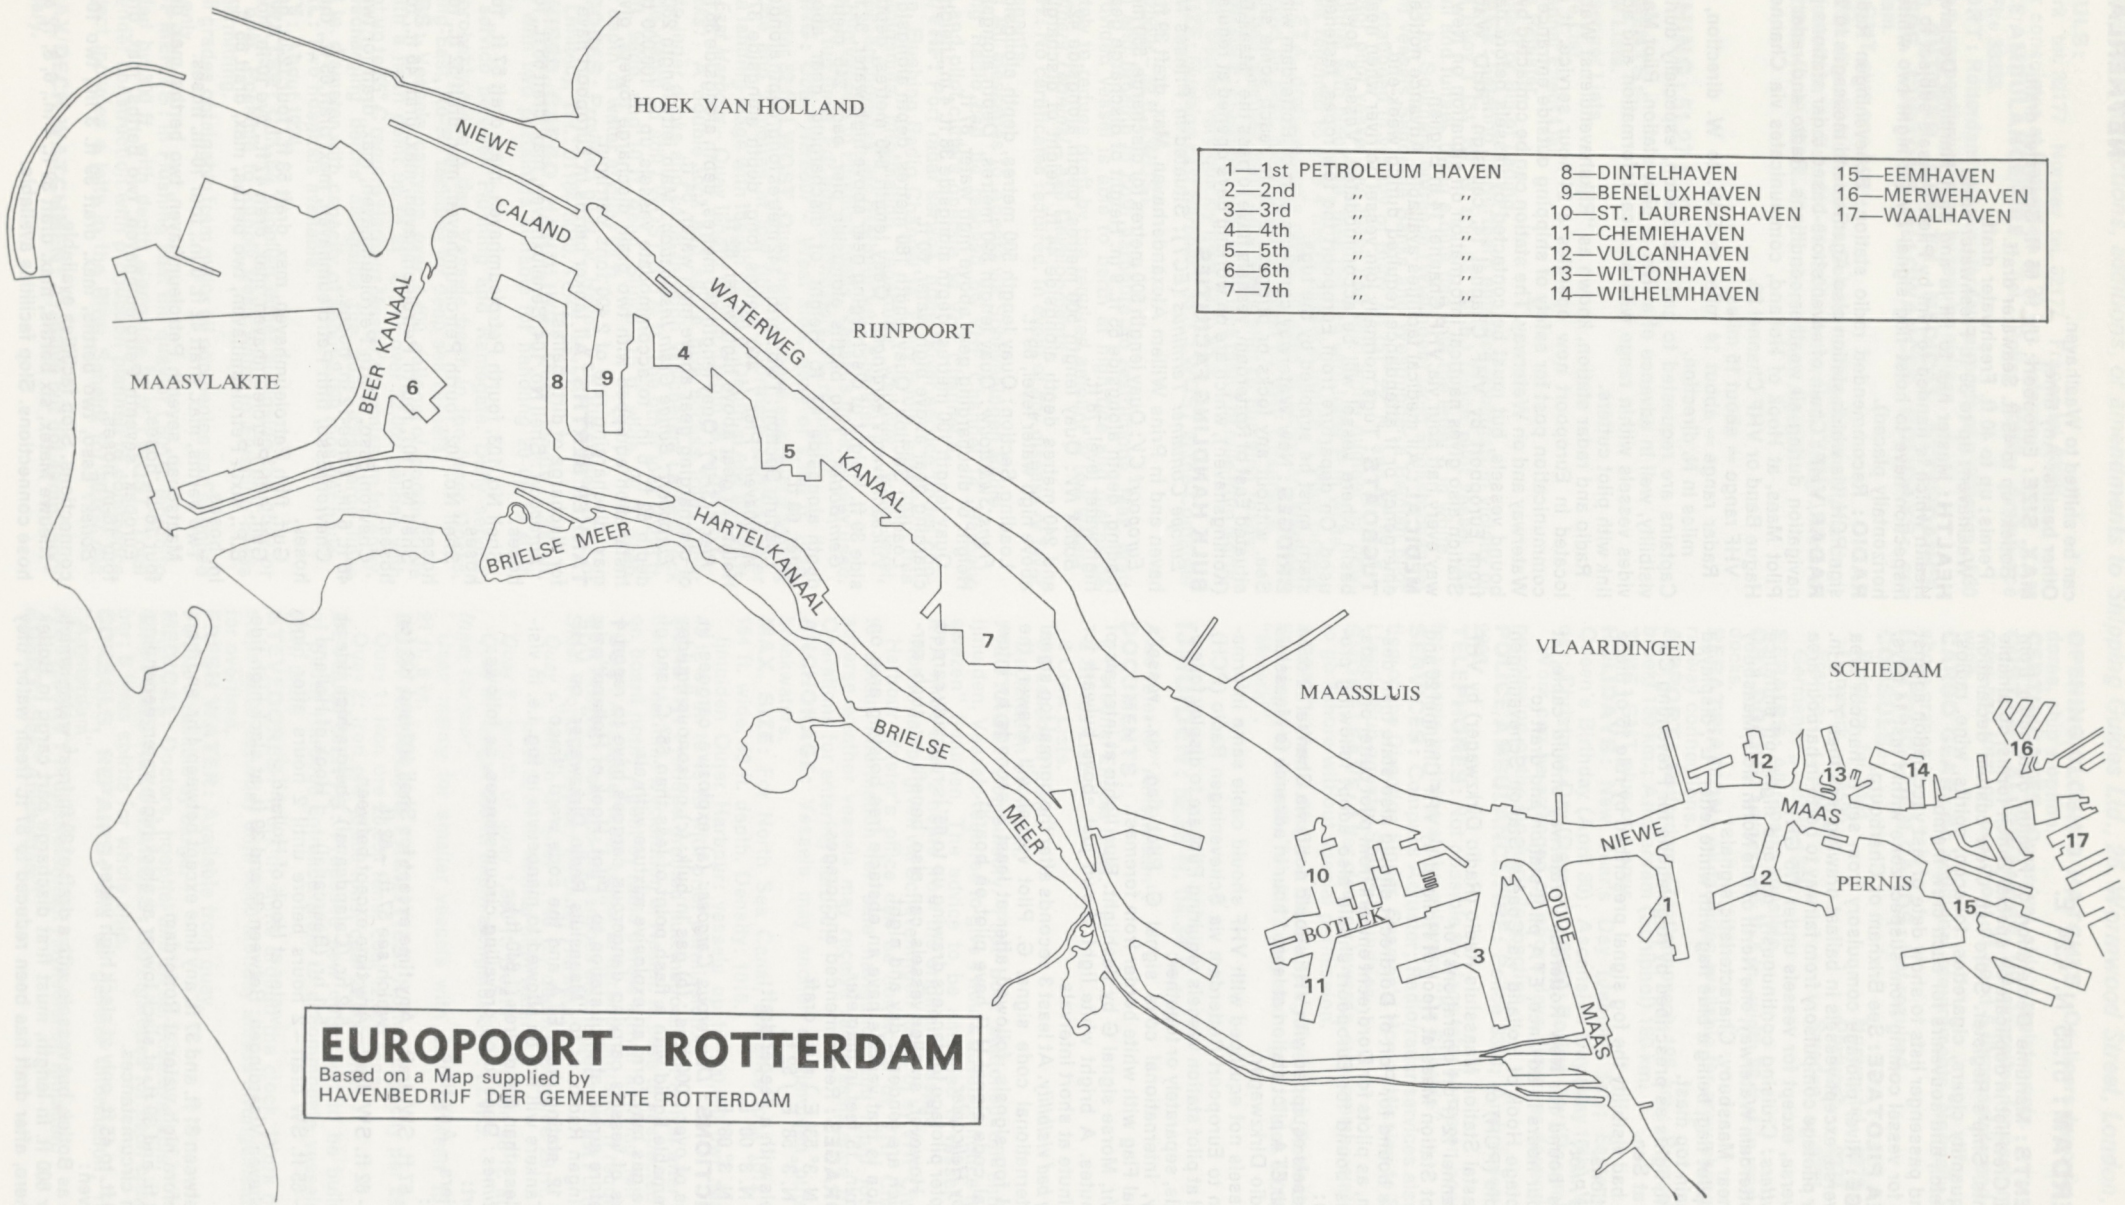
Two berths, max. draft 42 ft. 6 in., four 10-in. hoses.

Maatschap, seventh Petroleumhaven, two berths, max. draft 65 ft., four 16-in. hoses.

Europak: seventh Petroleumhaven, two berths, max. draft 65 ft., four 16-in. hoses.

Botlek: Esso, two berths, max. draft 39 ft. 3 in., two 10-in. hose connections. Slop facilities available.

Nieuwe Matex, six berths, max. draft 39 ft. 4 in., 6, 8, 12 and 16-in. hose connections. Slop facilities available.



EUROPOORT – ROTTERDAM

Based on a Map supplied by
HAVENBEDRIJF DER GEMEENTE ROTTERDAM

Pakhoed, 3 berths, max. draft 39 ft. 4 in., 8- and 14-in. hose connections. Facilities for dirty ballast discharge.

Pernis: Pakhoed, two berths, max. draft 34 ft., 8- and 10-in. hose connections. Facilities for dirty ballast discharge.

Shell, first Petroleumhaven, seven berths, max. draft 39 ft. 6 in., four 8-in. hoses. Slop facilities available.

Shell, second Petroleumhaven, seven berths, max. draft 35 ft. 6 in., four 8-in. hoses. Slop facilities available.

Chevron/Texaco, one berth, 35 ft., fresh water and one berth 32 ft., fresh-water, three 12 in. hoses. Slop facilities available.

Paktank: Two berths, max. draft 39 ft., 10-in. and 14-in. hose connections. Facilities for discharge of ballast.

Mobil Oil, one berth, max. draft 33 ft., 6- and 8-in. hose connections. No facilities for discharge of dirty ballast.

DENSITY: *Europoort* – At high water 1022; at low water 1010.

Botlek – At high water 1014; at low water 1001.

Waalhaven and other basins in the Rotterdam port area: At high water 1004; at low water 1000. All depending upon amount of fresh water carried down river.

STEVEDORES: Normal working hours:

1. *Bulk cargoes except grain:* Monday 07.30 – Saturday 14.00 hours uninterruptedly.
2. *Bulk grain:* Monday–Saturday dayshifts: 07.45–16.15 hours. Monday–Friday night shifts: 17.00–01.30 hours.
3. *General cargo:* Monday–Friday dayshifts 07.30–16.15 hours. Nightshifts: 17.00–01.30 hours.
4. *Oil:* Continuously, including week-ends, except the oil storage companies Pakhoed and Nieuwe Matex, which work from Monday till Friday during daytime only, unless overtime arrangements are made.

Agents should be kept closely advised of vessel's position. In view of ordering gangs for next morning/evening master's final ETA message is required before 14.00 hours. For work on Monday mornings a final ETA is required before Friday 14.00 hours.

OPENING/CLOSING HATCHES: On liners by stevedores. On tramp vessels by crew; stevedores lifting beams.

FRESH WATER: Can be supplied ex quay at many berths. Where no shore connections are available and at buoys: by waterboat.

BUNKERS: All types of oil bunkers can be supplied by means of barges or ex shore installations for tankers. Coasters can take bunkers ex installation during their inward or outward passage. Advance notice is required for vessels which are only 24 hours or less in port and for bunkering during week-ends.

FIRE PRECAUTIONS: No floating objects are allowed alongside tankers during discharge or loading of dangerous cargoes and during ballasting.

CUSTOMS ALLOWANCES: Spirits: first arrival each month, 5 litres per vessel plus one bottle per man. Otherwise, ¾ litre per man with a max. of 5 litres per vessel. Wine: 5 litres per man.

Each crew member permitted out of bond 200 cigarettes, or 25 cigars, or 500 gm. tobacco.

DEVELOPMENTS: On Maasvlakte a new bulk transhipment installation for ore and coal is planned, with two unloading cranes of 2,000 tons per hour each.

Future plans to accommodate container and roll on/roll off vessels in new basin "Rijnpoort", which will be situated between Hook of Holland and Maassluis, 5 miles from the entrance to the New Waterway.

GANGWAY/DECK WATCHMEN: Recommended.

CERTIFICATES: Ship's Register and Deratting Exemption Certificate.

REPAIRS: Yards of various capacities are available for new building, engineering and all types of repairs.

DRY DOCKS: Largest dry dock for vessels up to 500,000 tons dw. with tank cleaning installation for largest vessels.

REPATRIATION: All arrangements for crew changes and repatriation can be made.

AIRPORT: Rotterdam airport Zestienhoven (distance 6 km.) and Amsterdam airport Schiphol (distance 70 km.) are served by regular airlines.

TIME: During the whole year GMT plus one hour.

HOLIDAYS: New Year's Day; Easter Monday; Queen's Birthday (30th April); Ascension Day; Whit Monday; Christmas Day (25th December) no work; Boxing Day (26th December).

POLICE/AMBULANCE FIRE: Police Head office tel. 14.31.44; Alarm and accidents tel. 94; Ambulance tel. 13.50.00; Fire tel. 99.

TELEPHONES: At major shipyards, oil and grain terminals telephone is placed on board without extra charge.

AUTHORITY: Havenbedrijf der Gemeente, Rotterdam. Tel. Rotterdam 049133. Telex 23077.

AGENT: Wm. H. Muller & Co's Scheepvaartagenturen. (Rotterdam) N.V., Westerlaan 1, Rotterdam-2.

Shipbrokers – Liner Agents. Tel. 010–36.43.00. Telegrams: Mineral. Telex 21245,

TERNEUZEN: 51.20 N. 03.49 E.

DOCUMENTS: Also see "Rotterdam". Customs clearance takes place in the outer harbour or in the locks, by permission of the lock master. Clearing of ships comprises the production of a document signed by the Master, accompanied by the following documents in triplicate: Cargo and Crew Manifest, and Stores List. Masters are requested to have Crew List completed beforehand to avoid delay in the lock.

PILOTAGE: Compulsory for all vessels entering, leaving, and navigating inland waterways. Sea Pilot meets inward vessels at buoy A1, 51° 22.00′ N. 2° 53.24′ E. for ships entering by Wielingen channel; or at Middensteen Bank buoy, 51° 39.30′ N. 3° 19.00′ E. for ships entering by the Oostgat channel.

In Wielingen channel Belgian and Dutch Pilots available. In Oostgat channel a Dutch pilot cutter is stationed. Belgian pilot boat carries at the masthead a red flag with a white letter P, the Dutch pilot boat has a blue flag with a white letter L. Communicate with pilot cutter by VHF Channel 6.

Warning: In approaches Masters may encounter fishing boats steaming a parallel course about 300 ft. apart. The net is being towed between the two vessels. If there is danger of fouling the net, the fishing vessels will display by day International Code flag D, or by night a searchlight from each vessel.

ANCHORAGE: Vessels anchor outside fairway where depth is at least 49 ft. Mud bottom and good holding ground.

RESTRICTIONS: No restrictions on night entry.

MAX. SIZE: Controlling depth 31 ft. 4 in. Keel clearance 3 ft. 0 in. Height of tide 12 ft. to 15 ft. A vessel of maximum draft 40 ft. 6 in. can reach Terneuzen in most circumstances.

Ships not exceeding the following dimensions are allowed to pass through west lock and canal: length 230 m., breadth 31 m., draft in fresh water (canal) 11·75 m.

With special permission: length 245 m., breadth 32 m., draft in fresh water (canal) 12·25 m.

HEALTH: Arriving vessels are only subject to medical examination when arriving from countries where contagious diseases reported or when such cases suspected on board. Medical Officer will board in Terneuzen roads or Outer Harbour.

RADIO: Communicate via Flushing radio Channel 14, 156.70 MHz. 24-hour watch kept. From five minutes past every hour to ten minutes past the hour switch to Channel 16 for traffic list and navigation reports.

Communicate before entering the West outer harbour Terneuzen by VHF Channel 11 (156·55 kHz), 24 hours watch kept.

Each hour a weather bulletin, navigation reports and warnings are given.

TUGS: Towage not compulsory. Tugs can be ordered from Terneuzen tugboat company or Towage and Salvage Union Ltd. respectively by Channel 13, 156.65 MHz, and Channel 3, 156.15 MHz. Stations manned continuously for ordering tugs and general information.

MEDICAL: Two modern hospitals available.

FRESH WATER: Available from water barge.

FUEL: Fuel oil and lubricating oil available from lighter or tanker barge. Bunker coal not available.

GANGWAY/DECK WATCHMEN: Available. Tariff increase 100% on Sundays and holidays.

OPENING/CLOSING HATCHES: Can be effected by crew or stevedores.

CUSTOMS ALLOWANCES: See "Rotterdam".

IDENTIFICATION CARDS: Not required.

REPAIRS: Terneuzen Shipbuilding Yard situated at junction of East and West Canal branches. Able carry out hull and engine repairs. Floating cranes and diving equipment available.

DRY DOCKS: Dry-docking only possible for coasters, length 345 ft. width 39 ft. 6 in., draft 11 ft. 6 in.

TIME: GMT plus one hour.

HOLIDAYS: See "Rotterdam".

SERVICES: Repairs of radio radar, etc., can be effected.

SHORE LEAVE: Allowed.

DEVELOPMENTS: Plans made to widen and deepen Outer Harbour, also extension to southern Canal Harbour and Zevenaardok Harbour.

AGENT: Wm H. Müller & Co's Shipping Agencies (Rotterdam) N.V. – FLUSHING. P.O. Box 81 – Telephone 2171 – Telex 55068 Cables Mineral.

Netherlands Antilles

BARCADERA, Aruba:

The industrial harbour of Aruba, situated three miles South-east of Oranjestad.

DOCUMENTS: Documents and all general information, refer to "Oranjestad".
PILOTAGE: Compulsory.
RESTRICTIONS: Harbour open day and night. Depth of water in entrance and throughout harbour is 36 ft. Swinging basin width 1,000 ft.
MAX. SIZE: Up to 12,000 GRT.
TUGS: Available.
BERTHING: 1,150 ft. of dockside accommodation.
FRESH WATER: Not available.
FUEL: Can be supplied.
AUTHORITY: See "Oranjestad".

BULLENBAY, Curacao: 12.11 N. 69.01 W.

Bullenbay is an open bay on the South coast of Curaçao, 9 miles North-west of Willemstad.
DOCUMENTS: Documents and all General information, refer to "Willemstad".
PILOTAGE: There is a resident Pilot at the bay. Pilotage is compulsory and is rendered day and night.
ANCHORAGE: There is no anchorage in the bay.
MAX. SIZE: Length 800 ft., draft 36 ft.
BERTHING: There are two piers at the East side of the bay, naturally protected from prevailing wind and sea, T-shaped with mooring dolphins fore and aft. Vessels moor port-side alongside these piers. Pier No. 1, a wooden superstructure on iron piles has a depth alongside of 38 ft. Pier No. 2 is of concrete construction with a depth alongside of 41 ft. As the slope is steep, vessels held off the piers can load deeper.
FRESH WATER: Fresh water available at the piers.
FUEL: Bunker oil is available and can be taken simultaneous while loading cargo.
GENERAL: Other services, as tugboats, repairs, etc. are rendered from Willemsted.
AUTHORITY: Harbour Master of Curaçao.

CARACASBAY, Curacao: 12.04 N. 68.52 W.

Caracasbay is an open bay on the South coast of Curaçao, 5 miles South-east of Willemstad. This port, mainly used by tankers, bunker ships and big passenger liners, is specially fitted as an oil terminal.
DOCUMENTS: Documents and all general informations, refer to "Willemstad".
PILOTAGE: There is a resident Pilot at the bay. Pilot service is compulsory and rendered day and night.
ANCHORAGE: There is no anchorage in the bay.
MAX. SIZE: Vessels with a maximum overall length of 1,050 ft. and maximum draft of 47 ft. can be accommodated.
TUGS: Tugboats operate from Willemstad; they are at hand if desired.
BERTHING: Two piers owned by "Shell Curaçao Ltd." are built at the East side of the bay, naturally protected from prevailing wind and sea, with depths up to 47 ft. alongside. Vessels dock directly with their port-side along the piers. Pier No. 2, with a depth alongside of 47 ft., and pier No. 3, with a depth alongside of 47 ft., are newly built concrete piers/quays, modern and equipped for handling oil in bulk, with enough platform to serve also as passenger terminal. The biggest cruise ships moor along these piers regularly.

The oil is transported through pipe-lines from the refinery at Willemstad to the storage tanks at Caracasbay. Three ships can bunker simultaneously. New electrically-driven centrifugal pumps, metering and blending equipment at the bay stand for efficiency to reduce bunkering time. Subject only to the capacity of ships receiving connections, loading rates up to 2,000 tons per hour of bunker oil can readily be achieved.
FUEL: The piers are built as oil piers, modern and equipped to supply any kind of bunker or lubricating oil to any vessel.
FRESH WATER: Fresh water can be obtained via pipe-line on the wharves.
STEVEDORES: Lighters and longshoremen are supplied from Willemstad.
REPAIRS: Small repairs can be done at the bay through working barges alongside.
GENERAL: Clearance, port administration, port charges and regulations are the same as at Willemstad.
AUTHORITY: Harbour Master, Curaçao.

FUIKBAY, Curaçao: 12.03 N. 68.50 W.

Fuikbay, on the South coast of Curaçao, 7 miles South-east of Willemstad, is an inland bay with a 147 ft. wide navigable entrance. The depth of this harbour is 26 ft.
DOCUMENTS: Documents and general information, refer to "Wilemstad".
PILOTAGE: Pilotage is compulsory.
RESTRICTIONS: As a rule vessels only enter this port during daylight. Sailing can take place day and night.
ANCHORAGE: There is an anchorage area in the West side of the bay.
MAX. SIZE: Vessels can enter and leave with a maximum draft of 24 ft. and a maximum length of 360 ft.
BERTHING: This bay is mainly used as a loading terminal of the "Mining Company Curaçao" for export of phosphate rock mined out of the "Tafelberg". There is one berth under the conveyor which transports the phosphate rocks from shore into the holds of the vessel alongside. Depth alongside is 28 ft. There is also a 84 ft. berth available for handling explosives or other cargo, usually named Westwerf. Only small vessels with a maximum draft of 8½ ft. can come alongside. Vessels with more draft can moor with the help of floats between ship and quay.

The piers are privately owned by "Mining Company Curaçao" situated on private territory of this company.
FUEL: This port has no bunker facilities, so vessels bound for this port must take bunkers in Caracasbay or Willemstad before or after calling at this port if bunkers are desired.
GENERAL: Other services such as tugboats, repairs, power, etc. are rendered from Willemstad.
AUTHORITY: Harbour Master, Curaçao.

KRALENDIJK, Bonaire: 12.15 N. 68.20 W.

DOCUMENTS: Two Passenger, Crew and Provision Lists to be handed on arrival. Ship's clearance to be paid on departure.
PILOTAGE: Pilot service is available and mandatory in Bonaire. In case a Pilot is desired, the authorities should be notified in advance so that a qualified Pilot from Curacao can be called in at the expense of the ship.
ANCHORAGES: Unlimited. Depth 30 ft. and over.
RESTRICTIONS: Notify the Agent at least 24 hours in advance. No tide.
MAX. SIZE: Length 1200 ft., draft 35 ft.
INWARD CLEARANCE: Inward clearance is effected on board immediately on docking. Immigration Officer arrives on board immediately after docking. Passengers disembarking at Bonaire must present themselves for document check.

Customs Officer boards immediately after docking and together with a representative of the Agency's Shipping Department the inward clearance document of the vessel (in ballast or with cargo in transit, as the case may be) is prepared and signed. This document must be signed by the Master. Occasionally the Customs Officer may insist that the Master sign in his presence. Only upon completion of the above formalities, usually carried out in a very short time, the vessel is declared free and passengers and crew may go ashore. It is recommended that one of the public rooms be made available for the purpose of inward clearance in order to avoid congestion in the purser's office.
HEALTH: No health formalities.
RADIO STATION: A Government Radio Station operates daily from 7.00 a.m. to 9.30 p.m. In case of emergency Bonaire Radio can be contacted by telephone. Vessels bound for Bonaire should route their messages for Bonaire through Curaçao Radio (PJC). The Government Radio and Telephone Station maintains daily telephonic communication with Curaçao, also with the United States, Europe, etc.
TUGS: To be available in 1973.
BERTHING: A new concrete pier was recently built and inaugurated at Kralendijk. It has 400 ft. of berthing space, with a depth of 35 ft. alongside at LW. The pier front is provided with wooden fendering.

Vessels of maximum 30,000 GRT or a maximum length of 1200 ft. are allowed to berth alongside. Maximum permitted load factor on the pier is 2,000 kilos per m².

For the mooring and unmooring at the pier shore labourers are engaged by Agents at the expense of the shipping line. Motor-boats are available for running lines.
CARGO HANDLING: The pier has a special berthing place for ferrys, containers and roll-on/roll-off traffic.

About 5 miles South of Kralendijk there is a special pier for bulk handling of salt.
STEVEDORES: There are no regular stevedores (longshoremen) available in Bonaire. For cargo handling operations ordinary labourers are engaged by the Agent for account and risk of the ship.
MEDICAL: Modern facilities are available for medical and dental treatment. A "Medical Service Request" form must be signed by the Master or other authorised officer for crew members requiring medical or dental treatment. In case of crew members having to be left behind at Bonaire for hospitalisation or otherwise, Master must sign an authorisation guaranteeing expense of treatment and repatriation.
FRESH WATER: Sufficient quantities of fresh water from the Government Water distillation and power plant can be supplied at the pier.
BUNKERS: On advance request, bunkers are delivered by craft at rates comparable to those in Curaçao or Aruba.
DEVELOPMENTS: Bunker facilities are in study.
GANGWAY/DECK WATCHMEN: Watchmen are not necessary but recommended; Overtime as usual.
OPENING/CLOSING HATCHES: This work is normally carried out by crew.
IDENTIFICATION CARDS: Passengers. No landing cards required, but some ships carrying a large number of passengers furnish landing cards to passengers for their own control of passengers returning on board. Crew. No landing cards required.
REPAIRS: There are no facilities for carrying out major repairs.
HOLIDAYS: The following are the official holidays observed in Bonaire: New Year's Day (Jan. 1st); Good Friday; Easter Monday; Queen's Birthday (April 30th); Labour Day (May 1st); Ascension Day; Whit Monday; Kingdom Day (December 15th); Christmas Day (December 25th); Second Christmas Day (December 26th). Religious holidays: August 15th (Assumption Day); November 1st (All Saint's Day).

TIME: 4 hours slow of GMT. No summer time kept.
AIR SERVICES: There is a good daily airplane service between Bonaire and Curaçao. Three or four flights a day with good connections at Curaçao with the international services to and from many parts of the world.
CUSTOM OFFICERS ON BOARD: One or two Customs Officers will remain on board during the vessel's stay in port. Such officer(s) must be furnished meals at regular meal hours in the Officers' Mess or in first-class dining-room.
TELEPHONES: Telephone connection can be placed on board ships at the pier.
POLICE/AMBULANCE/FIRE: Police, tel. 8250; Ambulance, 8250; Fire, tel. 8222.
AUTHORITY: Harbour Master, appointed by the Island Government of Bonaire.

ORANJESTAD, Aruba: 12.31 N. 70.02 W.

DOCUMENTS:
Clearance from last port.
Deratisation Exemption Certificate.
Ship's Register.
Manifest of Cargo (or ballast), or Bills of Lading for import goods and transit goods separately.
Crew List (four copies).
List of Stores on Board (two copies).
Consignee Mail (if cargo for discharge).
Passenger List (if any passengers).

The passenger list must carry full names, ages, sex, nationality and occupation of passengers landing at Aruba. The ultimate destination of in-transit passengers must also be shown on the passenger list.

Deratisation Exemption Certificates can be renewed at Oranjestad, Barcadera and St. Nicholas.

Outward clearance, cargo documents and list of outgoing passengers are delivered on board by the Agent's representative, thereby making it unnecessary for Masters to visit the Customs Office to obtain outward clearance.

PILOTAGE: Masters are requested to advise Agents of their expected time of arrival at least 48 hours in advance. Arrival messages should include advice regarding cash or other requirements. This information is particularly necessary in order to give prompt attention to vessel's requirements and to avoid delay after arrival.

Pilots are government employees and pilotage is compulsory for vessels from 50 GRT upward entering or leaving the harbour. Pilots board inbound vessels within two miles of shore. The Agent's representative will arrange for Pilots to board vessels as necessary. Inbound vessels should close the West entrance of the harbour as near as prudently possible and make a lee to facilitate the Pilot's boarding.

Every vessel arriving or departing must provide and properly secure a pilot ladder which conforms with the standards of construction normally accepted by international safety standards. Failure to provide such a ladder may result in the Pilot's refusal to board a vessel.

ANCHORAGE: Anchorages, suitable even for deepest draft vessels, are located outside the protecting reef along the whole length of the Western and South-western coast. The depth of water ranges from 10 to 35 fathoms. Because of the sharply shelving nature of the bottom in this area, it is recommended that the services of a Pilot be obtained in taking up an anchorage. Ships are anchored only during daylight hours.

TUGS: A tugboat of 1,000 h.p. is available for assisting vessels to and from the docks. The tug-boat is fitted out with radio-telephone which is open on 2182 Mc. while tug is in operation.

MAX. SIZE: The harbour itself has a depth of 36 ft. at MLW. The safe salt water draft approved for entering and leaving is 33 ft. Vessels normally enter via the West channel and depart via the East channel.

HEALTH: The port doctor will visit an arriving ship only if there is a case of quarantinable disease on board, if the ship has no clean bill of health or if one of the preceding ports of call has been declared to harbour a quarantinable disease. The Netherland Antilles bill of health is free of charge.

RADIO: Shore station for R/T communication with 24-hour service. VHF Channel 16, 156·80 mHz (calling); Channel 11, 156·55 kHz (working channel).

BERTHING: In total there are 4,070 ft. of dock length available to accommodate ocean-going vessels and 1,090 ft. of dock for small craft, of which:

1,720 ft. with 36 ft. of water alongside
2,350 ,, ,, 34 ,, ,, ,, ,,
460 ,, ,, 16 ,, ,, ,, ,,
230 ,, ,, 10 ,, ,, ,, ,,
400 ,, ,, 6 ,, ,, ,, ,,

STEVEDORES: Stevedoring is performed at a fairly fast rate compared with other ports in the Caribbean area. All cargo has to be handled with ship's tackle, while on the docks and in the warehouses fork-lift trucks are used for transportation of merchandise. General cargo is handled at an average of 8 tons per gang per hour.

MEDICAL: Excellent medical and dental attention is available at any hour of the day or night to crew members of all vessels.

FRESH WATER: Boiler and drinking water of purest quality is supplied by hose from the docks at a rate of 200 tons per hour (in special cases 400 tons per hour)

FUEL: The port of Oranjestad is an official Esso bunker station. All grades of bunker fuels can be supplied from shore tanks at a rate of 1,500 barrels an hour. A minimum of 48 hours advance notice is required.

REPAIRS: There are no facilities at Aruba for major ship repairs. Local workshops can do repairs of minor nature. Preliminary advice regarding such minor repairs should be included in ETA messages and work requisitions for repairs should be prepared for handling to the Agent's representative immediately upon arrival.

Radar, radio and gyro repairs can be carried out. However, it is important that Masters radio in their requirements as early as possible and give a brief reference as to the nature of the breakdown or fault of the equipment concerned.

While alongside vessels must be prepared to move at one hour's notice. Engine repairs to the effect of demobilizing the vessel may only be carried out with special permission.

BALLAST: Vessels must arrive with sufficient ballast to permit safe handling. All vessels should enter port with clean ballast that can be pumped over board when alongside, as it is prohibited to pump dirty ballast into the harbour.

WATCHMEN: An efficient and continuous watch must be maintained on deck and in the engine-room of all ships while in port, and a sufficient number of men must be on board at all times to move vessels either for harbour operations purposes or in emergency situations.

OPENING/CLOSING HATCHES: This work is normally carried out by the crew.

AIRPORT: The port of Oranjestad – the commercial and tourist harbour of Aruba – is only 5 miles by road from the jet airport. The connection by air with the U.S.A. and Europe are very good and rather frequent (TCA, KLM, VIASA); other airlines operating in Aruba are: ALM, LAV, Aerocondor, and Caribbair.

POLICE/AMBULANCE/FIRE: Police, Oranjestad, tel. 1000; Ambulance, Oranjestad, tel. 2010/1234; Fire Alarm, tel. 00.

CONSULS: The following countries have consular representatives at Aruba:

Brazil
Chile
Colombia
Costa Rica
Denmark
Dominican Republic
Great Britain
Guatemala
Haiti
Italy
Lebanon
Liberia
Nicaragua
Norway
Panama
Peru
Portugal
San Salvador
Spain
Sweden
Switzerland
Venezuela
West Germany

Necessary for Masters of Panamanian and Italian flag vessels to visit Consulates at Oranjestad to present documents and receive despatches. Other Consulates have similar requirements. Masters may check with Agent for clarification.

DEVELOPMENTS: Landing stage for roll on/roll off vessels with depth alongside 33 ft. under construction near Harbour Office.

TIME: Local time is four hours slow of GMT. Vessels are requested to use local time in ETA messages and when dealing with their Agents.

CUSTOMS GUARDS: Local authorities assign one or more Customs guards to each vessel during its stay in port; the charges for guarding are for the account of the vessel. These officials must be provided with meals on board at regular meal hours.

SHORE LEAVE: Under normal circumstances no restrictions are imposed by the Government Immigration Authorities on shore liberty. Masters are requested to endeavour to have all crew members on board prior to departure time, so that the ship will have no delay in sailing.

AUTHORITY: Eilandgebied Aruba, Haven en Loods Dienst.

ST. NICHOLAS, Aruba: 12.26 N. 69.55 W.

DOCUMENTS/HEALTH and all General Information, refer to "Oranjestad".

PILOTAGE: Pilotage is compulsory. Pilot boards off west Entrance within two miles of the shore. Inbound vessels are expected to approach the entrance as near as prudently possible and make a lee to assist Pilot boarding.

RESTRICTIONS: The port is open for day and night navigation, allowing vessels to enter and leave at any hour. The harbour has a depth of 42 ft., while the East and West channels are 45 ft. deep. The safe salt water draft approved for entering is 39 ft., for leaving – 41ft. Vessels normally enter via the West channel and depart via the East channel.

RADIO: A lookout tower and signal station is remotely controlled by close circuit TV and is operated by Lago. This tower is located immediately above the Marine Office building. The signal station maintains 24-hour service. Radio-telephonic communication is possible on wavelengths of 156.70 and 156.80 MC/VHF (Channels 14 and 16).

TUGS: Two diesel-powered tugs are used for berthing and unberthing.

MAX. SIZE: Tankers up to 120,000 dwt. acceptable at Sea Berth.

BERTHING: All port facilities are controlled by Lago Oil and Transport Company. There are eight tanker loading berths, two of

which accommodate vessels up to 80,000 dwt. Sea berth for up to 120,000 dwt.

Name	*Length*	*Sailing draft*
No. 1 South	745 ft.	39 ft.
No. 1 North	740 ft.	39 ft.
No. 2 South	800 ft.	40 ft.
No. 2 North	780 ft.	40 ft.
No. 3 South	900 ft.	41 ft.
No. 3 North	850 ft.	40 ft.
West Pier	650 ft.	36 ft.
EDS Pier	500 ft.	32 ft.
Sea Berth	915 ft.	65 ft.

FRESH WATER: Fresh water can be supplied ex-wharf.
FUEL: All grades of bunkers available.
REPAIRS: A local workshop can do minor repairs.
PORT FIRE PROTECTION: The port of St. Nicolas is very well equipped with modern equipments for fire-fighting and fire prevention.
BALLAST: Tankers must arrive with clean ballast only. Clean ballast will be discharged overboard after docking. Only slops can be discharged to the disposal facilities ashore.
SPECIAL REGULATIONS: Strict compliance with Harbour Safety Regulations is mandatory. Stringent regulations prohibit the transportation of alcoholic beverages through Lago refinery and harbour area. No liquor or beer may be taken on board or removed from vessels except only bonded stores ordered by the Master.
SHORE LEAVE: As all ship's personnel when going ashore have to walk over the docks and the company's concession, nobody is allowed to leave the docks without a proper pass. Passes which are valid for the day of issue and the following day only, entitle personnel to proceed from the dock at which their ship is berthed to the main refinery gate and vice versa. Shore passes are not valid for the refinery area.
POLICE/AMBULANCE/FIRE: Police, 5000; Ambulance, 5050; Fire, 00.
AUTHORITY: Lago Oil and Transport Co.

SINT MICHIELSBAY, Curacao:

Sint Michielsbay, on the South coast of Curaçao, 5 miles North-west of Willemstad, is an open bay, naturally protected from prevailing winds and sea.
ANCHORAGE: In the bay 650 ft. out of the coast in 130 ft. water is laid a mooring buoy, which gives a good anchorage to vessels which, because of dangerous cargo, quarantine or because of a defect cannot enter another port of Curaçao.
REPAIRS: Repairs or handling cargo can be carried out by way of barges. A landing jetty for barges is available.
PILOTAGE: Compulsory.

Vessels are moored with their stern to the buoy and their bow anchors are heaved out to hold the foreship from the coast.

Other services as tugboats, lighterage, stevedoring, etc. are rendered from Willemstad.
AUTHORITY: Harbour Master, Curaçao.

WILLEMSTAD/EMMASTAD, Curacao: 12.06 N. 68.56 W.

DOCUMENTS:
For Immigration.
2 copies of Crew List.
2 copies of List of Passengers Landing at Curaçao (if any).
2 copies of List of Passengers in Transit (if any).
For Customs:
1 copy List of Stores (deck, engine and steward department).
Manifest of Cargo for Curaçao, if any, in duplicate, on special form called "Vrachtlist".
Manifest of Cargo for Curaçao, in transit, for trans-shipment to other ports, if any, in duplicate.
Manifest of Cargo on Board, in transit, if any, in duplicate.
2 copies of Tally Books of Cargo for discharge at Curaçao, if any.
If the ship is in ballast only the store-list is required.
1 copy Crew List.
1 copy Passenger List landing at Curaçao.
PILOTAGE: Pilotage is compulsory. Rendered day and night. Pilots are government officials and are stationed at Willemstad, Caracasbay and Bullenbay. The Harbour Master is also the head of the Pilot Service.

Vessels bound for Curaçao should proceed to Willemstad harbour except when they have specified orders for another bay. Vessels in sight of Willemstad will be contacted by the signal station at Fort Nassau for further orders. From this same station lights are shown to direct the traffic in port. Vessels should stay ¾ miles off shore West of the harbour entrance to await Pilot. The pilot motor boat is identified by a blue flag with the letter "L" at daytime and a red light above a white at night time.
ANCHORAGE: As a rule there is no anchorage area in the harbour of Willemstad, but in the Eastern part of the Schottegat there is one pair of mooring buoys available to await berth or orders for limited time subject to permission and conditions from the Harbour Master.

Two vessels alongside each other can be safely moored at buoys. Depth: 47 ft.; distance between the buoys from 1,000 ft.
RESTRICTIONS: The harbour of Willemstad consists of a 1,400 yd. long and minimum 270 ft. broad channel, the St. Annabay, with depths from 49 to 79 ft. and an adjacent inner bay, the Schottegat, a 150-acre body of water with a depth of more than 10 ft. and a maximum of 79 ft.

The navigable portion of the entrance of the port is 865 ft. wide, marked on either side by a light-buoy, and the minimum depth is 49 ft.
BRIDGES: The St. Annabay is crossed by a pontoon (floating) bridge, about 1¾ cables within the entrance. The width of the navigable portion of passage between the bridge heads by open bridge is 295 ft.

The bridge opens day and night for in and outgoing vessels.

A fixed bridge crossing the St. Annabay from Punda to Otrabanda has a clearance of 105 ft. above water level.
MAX. SIZE: Length 1000 ft., draft 45 ft.
RADIO: Port Operations Station (Operated by Harbour Authorities): Location, Fort Nassau. Call sign, Fort Nassau. Frequencies, international Channels 16 (156·80 Mc/s), calling and safety; 12 (156·60 Mc/s), working, first choice; 14 (156·70 Mc/s). Watchkeeping, 24 hours on Channel 16. Type of operation, Simplex, Frequency modulated. Range, 20 to 25 miles.

Main Private Station (Operated by Shell Curaçao N.V.): Location, on the Zwarteberg. Call sign, Shell Curaçao. Frequency, international Channel 25 (receiving, 157·25 Mc/s); transmitting, 161·85 Mc/s). Type of operation, Duplex working, frequency modulated; operated by remote control from Shell's telephone exchange; ask operator for connection with party desired. Range, 20 miles. Watch-keeping, 24 hours on Channel 25; normal daily business, 07.30 till 24.00 hours; urgent business only, 24.00 till 07.30 hours.
HEALTH: The port doctor will visit only if there is a case of quarantinable disease on board. The Netherlands Antilles Bill of Health is free of charge.
TUGS: Compulsory for all tankers longer than 700 ft. and dry cargo longer than 750 ft.

L. Smit & Co. International Tug Service has a permanent ocean towage and salvage base in the port of Willemstad. There is always a powerful salvage tug at the station which has been especially equipped to deal with casualties and a harbour tug of 1350 h.p.

Shell Curaçao has stationed here three sea-going motor-tugs, 1,250 h.p. and 2,250 h.p.

The Curaçao Dry Dock Company has a motor-tug of 300 h.p. and one of 150 h.p.

There are a few harbour tugs available varying from 60 to 300 h.p. and about 80 lighters to receive the cargo or to bring the cargo alongside a vessel varying from 60 to 250 ton capacity.
BERTHING: There are berths on either side of the St. Annabay North of the pontoon bridge, with depths varying from 18 to 33 ft. alongside, generally used for bunker, cargo and passengerships.

On the Eastern side 4 wharves: the Handelskade, depth 18 ft.; the Kleine wharf, depth 24 ft.; Grote wharf, depth 24 ft,; and Salazar, depth 17 ft.

On the Western side 6 wharves: the Matheywerf, depth 23 ft.; Westwerf South, 25 ft.; Westwerf North, 39 ft.; Nieuwe werf, 33 ft.; Motetwerf, 33 ft.; Oranjewerf, 19 ft.

In the Schottegat there are seven more berths, generally used for bunker, cargo or passenger ships.

Prins Hendrikwerf which closes the Western corner St. Annabay/Schottegat, has a depth of 34 ft.; however, ships with a draft of more than 34 ft. can be moored by way of placing rafts of 10 ft. width between vessel and the quay.

At the Eastern part of the Schottegat are the Admiraal Brionwerven, which has 3,000 ft. docking space available with 34 ft. depth alongside.

In the Schottegat on the peninsula of Asiento are situated the 15 piers owned by Shell Curaçao Ltd. which are mostly used by tankers; however, other vessels are enabled to use these wharves for bunker facilities. Valentijnpier No. 5 may be used for general cargo.

The names and depths alongside these piers from West to East are: Valentijn V 32 ft.; Valentijn III (two berths) 34 ft.; Valentijn IV 40 ft.; F-werf 45 ft.; Julianapier 40 ft.; Wilhelminapier 34 ft.; A Pier 34 ft.; Ocean Pier 47 ft.; Margrietpier (two berths) 35 ft.; Bernhardpier 36 ft.; Irenepier II 34 ft.; Irenepier I 20 ft.

Also in the Schottegat are quays available for repairs. The names of wharves and depths alongside are Beatrix I, 21 ft.; Beatrix II, 22 ft.; Meerpalen North, 24 ft.; Beatrix III, 20 ft.; Beatrix IV, 30 ft.; Beatrix V, 34 ft.; Beatrix VI, 34 ft. Further in the Bay of Versali, Parera No. 2, draft of vessel, (fore) 18 ft., (aft) 20½ ft.; Parera No. 3, (fore) 15 ft., (aft) 25 ft.; Parera Nos. 4 and 5, (fore) 16 ft., (aft) 16 ft.; Parera Veesteiger, 17 ft.

In the Schottegat is a special berth, Bernhardkraan, with fixed sheerlegs for the purpose to discharge or to load heavy lifts up to 100,000 k/gs. Depth alongside this berth is 30 ft.
SLOP RECEPTION FACILITIES: Available at all Shell Terminals.
FRESH WATER: Fresh water for drinking purposes and use in boilers is available day and night in sufficient quantities at all wharves. Fresh water is also delivered alongside by means of water barges.
FUEL: There are three bunkering installations, namely the Admiraal Brion wharves, comprising of 6 berths, the Motet bunkering installation comprising of 6 berths, and deWestwerf bunkering installation comprising of 3 berths. Bunkers available at all tanker piers.
REPAIRS: The Curacao Drydock Company Inc. has repair yards, two graving docks and one floating dock laid out in the Schottegat.

The largest graving dock is 919 ft. long, width of entrance between wheel fenders 152 ft. and a depth of water over sill of 27 ft. 10 in. Suitable for up to 120,000 dwt. Movable cranes of 25 and 75 tons lifting capacity are fitted alongside the dock.

The Curacao Drydock Company Inc. has 2,200 ft. of repair wharf with varying depths up to 30 ft. Cranes alongside up to 75 tons

lifting capacity. A floating crane with capacity of 30 tons and a mobile truck crane of 140 tons also available.
STEVEDORES: Gangs must be engaged between 06.00 and 06.30 for the day, on week-days and Saturdays. For work on Sundays and holidays, gangs must be ordered between 06.00 and 06.30 on Saturday or the workday preceding the holiday. Masters of vessels carrying out cargo operations are consequently recommended to advise Agents their ETA well in advance of above deadlines.
TIME: Curaçao time 4 hours slow of Greenwich time.
HOLIDAYS: New Year's Day, Good Friday, Easter Monday, Queen's Birthday, Labour Day, Ascention Day, Whit Monday, Kingdom Day, Christmas Day, Second Christmas Day. "No work" holidays for cargo operations: New Year's Day, Good Friday, Labour Day and Christmas Day.
GENERAL: Customs Officers remain on board on duty during the vessel's stay in port. They must be fed by the ship and are entitled to the equivalent of officers mess or first-class dining saloon.
AUTHORITY: The Harbour Master.

AGENT: SEL Maduro & Sons Inc., Emancipatieboulevard, POB 304, Willemstad, Curaçao, Netherlands Antilles. Tel. 37900. Telex: 1092 Selms NA. Cables: "Maduroship".

New Caledonia

NOUMEA: 22.16 S. 166.27 E.

DOCUMENTS:
Ship's Register.
Safety Certificates.
Cargo Manifests.
List of Dangerous Cargo.
Passenger List.
Crew List.
Crew Personal Effects List.
Bonded Stores List.

PILOTAGE: Compulsory for vessels over 60 metres LOA. ETA to Port Captain and Pilots required 24 hours in advance. The two access channels to Noumea are Boulari channel (Amadée light) and Havannah channel. Pilot boats are wooden launches about 15 metres long equipped with VHF.
Boulari Channel: Pilot boards one mile off, on the alignment of the Amadée high and low lights.
Havannah Channel: Pilot boards off Goro light on the alignment of the leading lights on Cap N'Dua.
In bad weather, pilot launches will remain on these leading lines, but as close as possible to the channel entrances.
ANCHORAGES: Available in the outer and inner roads of Noumea, as indicated by the Pilot. Prohibited zones are marked on the chart.
RESTRICTIONS: Vessels may enter and anchor at any time, mooring may be effected at night.
MAX. SIZE: Tanker buoy berths designed for 20,000 dwt., and 45,000 dwt. Draft limited to 13 metres by a bar between the reef and the port.
HEALTH: Unless vessels have signalled that there is suspected disease or fever on board, free pratique is given automatically by radio request to the Capitaine du Port or by the Pilot.
RADIO: All messages by coast station Noumea, call sign FJP. Harbour Master's office equipped with VHF, Channels 16, 12 and 14, operated during normal working hours.
TUGS: Tug's service is compulsory. One tug of 1,200 h.p. and one of 500 h.p. available to assist.
BERTHING: At old Port Authority quay, draft limited to 7·50 metres. Quays under construction to accept vessels up to 10·0 metres draft and over 200 metres length. Private berths of Nickel Company are dredged to accommodate 9 metres draft.
STEVEDORES: Service provided by three private companies. Two or three days' notice required to arrange work.
MEDICAL: Doctors, hospital, and three private clinics available. Smallpox vaccinations are compulsory.
TANKERS: Buoy berth, max. draft 40 ft. Shell berth (at Nickel Company), max. draft 9 metres at HW.
DENSITY: 1026.
FRESH WATER: Supplied by pipe-line at the quays; rate, 40 tons per hour.
FUEL: Several grades available from Shell and Mobil.
GANGWAY/DECK WATCHMEN: Recommended, but not compulsory.
OPENING/CLOSING HATCHES: Can be performed by stevedores if required.
CUSTOMS ALLOWANCES: 200 cigarettes per man. Additional allowance can be made after 10 days. Max. 3 bottles spirits per man. Wines and beer not limited.
IDENTIFICATION CARDS: Recommended that crew carry Seamen's Books.
CONSULS: Australia, Belgium, Indonesia, Italy and Norway, are represented locally.
REPAIRS: Many engine, hull and electronic repairs can be effected. Slipway for small vessels.
REPATRIATION: All facilities available for crew change and repatriation.
AIRPORT: Tantouta Airport situated 50 km. from Noumea. Several connections a week to all parts of the world.
TIME: GMT plus 11 hours. No alterations during the year.
HOLIDAYS: 1st January, Easter Monday, 1st May, Ascension Day, Whit Monday, 14th July, 15th August, 1st November, 11th November, 25th December. Work may be arranged on Sundays and holidays.
POLICE/AMBULANCE/FIRE: Police, tel. 17; Fire, tel. 18; Ambulance, tel. 721.21.
TELEPHONES: Can be connected on board passenger vessels. The apparatus belongs to the Compagnie des Messageries Maritimes.
SHORE LEAVE: Allowed.
AUTHORITY: Port Autonome de Noumea, Quai des Volontaires, BP 14, Noumea. Tel. 759–66.

New Zealand

AUCKLAND: 36.51 S. 174.49 E.

DOCUMENTS:
6 Crew Lists.
1 Search List.
3 Under-bond stores list, including statements of poisons and narcotics in medical locker and cargo.
Statement of all cargo and bunkers in unregistered spaces.
10 Passenger Lists.
8 Cargo Manifests.
List of Prohibited Immigrants.
List of Previous Ports.

PILOTAGE: Vessel approaching port to give 24 hours notice by radio. A second notice confirming or amending first to be sent 4 hours before expected time. Signal Station on Mt. Victoria, call sign ZLEA, calling frequency 2182 kc/s, working frequency 2012 kc/s. VHF, call sign "Auckland Port Control", Channel 12 and 16. Continuous listening watch on Channel 16.
Pilot launch is 64 ft. long, single mast, painted white. Name is *Akarana*. Standard flag and lights are shown. Word "Pilot" painted in black on white above cabin. Pilots board anywhere South of Tiri Tiri Island. Good pilot ladder with manrope required to within 5 ft. of water-line with proper lighting at night. Heaving lines will be needed for mail and for portable radio.
ANCHORAGE: For vessels waiting Pilot: Gulf Anchorage No. 1 bearing 000° distance two miles; No. 2 bearing 006° distance 2·5 miles; No. 3 bearing 012° distance 3 miles. Bearings and distances from Rangitoto Beacon.
All inner anchorages in pilotage area can be indicated by Pilot. All anchorages are in 6 to 15 fathoms with good holding ground.
RESTRICTIONS: Ships may enter harbour at any time of day or night. Main channel has least depth of 36 ft. chart datum. Vessels with greater draft must wait for tide to make and enter at Harbour Master's orders. Tankers not berthing immediately on arrival anchor as directed at one of gulf anchorages.
MAX. SIZE: No limits, within reason, on the length or breadth. Controlling depth at chart datum: entrance 36 ft.; Rangitoto Channel 36 ft.; anchorages 32 to 60 ft.; berths 20 to 40 ft.
HEALTH: 24 hours before arrival time, despatch message to Port Health, Auckland. Message to state ETA, last port, number of crew, number of passengers and state of health. 12 hours before arrival confirm ETA.
Doctor boards by way of vessel's shipside gangway (not pilot ladder) when in harbour. This gangway to be ready immediately on arrival in order to avoid any delay. A responsible person should meet doctor at head of gangway and conduct him to appropriate person.
Papers required:
Completed Maritime Declaration of Health.
De-ratting Certificate.
Complete Crew List with dates of last smallpox vaccination.
Complete Passenger List with dates of last smallpox vaccination.
N.B. Crew and Passenger Lists to be certified as being correct by the Master.
List of Addresses of Disembarking Passengers.
List of Dangerous Cargo on board.
Pratique is granted initially, and covers all subsequent coastal movements in New Zealand for that voyage. Radio pratique can be granted only after prior approval from New Zealand Health Department.
Vessels requesting pratique should exhibit appropriate International Code Signals by day and night until pratique is granted.
RADIO: Station for routing traffic to the Auckland area is Auckland Radio, Call sign ZLD. Working both W/T and R/T on continuous watches.
RADAR: Radar station with range of 45 miles located on Mt. Victoria 36° 49′ 42″ South, 174° 47′ 57″ E. Masters may call on radio telephone and request particulars of their bearing and range as shown on radar screen. Responsibility for the use of this information rests entirely with Master of vessel.
TUGS: Four tugs available. Tugs join vessel East of Eastern Tide Wall. Tugs supply lines at no extra charge.
BERTHING: Tankers berthing at Eastern Tide Wall, BP Depot, must berth in accordance with weather and tidal conditions. Tank-

ers must arrive at Pilot station not later than half an hour before sunset, otherwise berthing will be postponed until following morning.

BRIDGES: No particular time to pass under Auckland Harbour Bridge. Navigation span is 138 ft. to 131 ft. above MHWS for 250 ft. each side of centre.

STEVEDORES: Labour commences at 0730. In order to ensure labour for this time ETA should be received at Agent's office before 3 p.m. previous day, or before 3 p.m. previous Friday for a Monday start. Delays on radio messages may be up to 3 hours.

MEDICAL: In case of urgent medical attention being required, Agents can arrange for doctor to board in stream at any notice. Hospital and ambulance services available 24 hours. If any smallpox vaccinations have expired this must be included in ETA advice.

TANKERS: There are three tanker berths, two with 35 ft. depth LWST suitable for tankers up to 600 ft. LOA. One berth in depth 27 ft. LWST for vessels up to 560 ft. LOA.

Any size pipe-lines can be used, oil companies have all reducing pieces needed.

No facilities for slop discharge.

DENSITY: Always 1025.

FRESH WATER: Fresh water always available. Delivery rate 100 tons per hour, through canvas hoses. AHB supplies all equipment.

FUEL: Light fuel oil, diesel, gas oil and heavy fuel are available. To be ordered in ETA notice.

FIRE PRECAUTIONS: In addition to usual precautions, Class I tankers are under extra security with a nightwatchman from Harbour Master's staff in addition to the normal tanker guard.

BULK HANDLING FACILITIES: Fergusson Wharf Complex at Eastern end of port includes roll on/roll off sections and 1,500ft. of berthage for container vessels. Water depth maintained at 40 ft. LWST.

GANGWAY/DECK WATCHMEN: Watchmen are necessary. Best to use crew.

OPENING/CLOSING HATCHES: Crew can open completely mechanical hatches only. All other hatches opened by waterside workers.

CERTIFICATES: Register, De-ratisation, Load Line, Safety Equipment, Safety Radio, Articles of Agreement, are main Certificates required.

CUSTOMS ALLOWANCES: Tobacco allowance is 200 cigarettes or ½ lb. tobacco on arrival and every 10 days. Wine and spirits allowance is one broached bottle of spirits and a reasonable amount of beer for each person.

CARGO GEAR: Preventer guys must be entirely wire. All blocks and shackles must be moused. Safety strops on all heel blocks. All wires, ropes, chains and blocks to have Certificate of Test.

IDENTIFICATION CARDS: Not required.

CONSULS:

Belgium	Netherlands
Denmark	Norway
France	Panama
West Germany	Philippines
Greece	Sweden
Italy	U.S.A.
Japan	

REPAIRS: Any ship repairs can be carried out. A slipway can take vessels of 600 tons displacement and up to 211 ft. LOA.

DRY DOCKS: Maximum size of vessel that can be accommodated in Calliope dry dock is 595 ft. LOA and 65 ft. beam. Water on sill at MHWS 33 ft.

REPATRIATION: All facilities exist for repatriation.

AIRPORT: 8 miles from harbour to airport. Served by all major international airlines.

TIME: Local time is GMT plus 12 hours throughout the year.

HOLIDAYS: No work is done on these days: New Year's Day (1st January); Good Friday; Easter Monday; Anzac Day (25th April); Queen's Birthday (first Monday in June); Labour Day (fourth Monday in October); Christmas Day; Boxing Day. In addition, each Province has an Anniversary Day and a Waterside Workers' Picnic Day. In Auckland these are in last half January.

POLICE/AMBULANCE/FIRE: All emergency services are called through one telephone number. Dial 111 and state service required.

TELEPHONES: Telephones at all berths. Cost is $01.34 fee phone per day, plus the cost of any overtime incurred in connecting or disconnecting any such telephone.

GENERAL: *Refuse Disposal:*

It is important that no refuse be allowed to pass into tidal waters either directly or indirectly. This is covered by strict Government Regulation.

Masters should ensure that refuse is lowered into refuse boat "Manui" and not thrown into boat from any great height.

No refuse will be collected from stern of vessel as this is hazardous for collection craft. A suitable site in way of the flat side of the vessel on off shore side should be chosen.

SERVICES: Services include tank cleaning, compass adjusting, all cargo surveying, average adjusting, etc. Tank washings may be pumped to road tankers.

SHORE LEAVE: Crew members may go ashore.

PORT REGULATIONS: All guests aboard vessel in the evening must have passes signed by the Master. All visitors' passes expire at 11 p.m. All ships in port are subject to the Rules and Regulations contained in the Harbours Act 1950, and the By-laws of the Auckland Harbour Board.

AUTHORITY: Auckland Harbour Board, PO Box 1259, Auckland. Tel. 74–610. Cable address "Haboard N.Z."

BLUFF: 46.37 S. 168.22 E.

DOCUMENTS:

Clearance from Last Port of Call.
1 Search List.
1 Stores List.
3 Crew Lists.
1 Poison List.
3 Passenger Lists.
1 Livestock and Bird List.
1 Firearms List.

PILOTAGE: Pilotage is compulsory. Pilots board vessels from a launch within a 3-mile radius of signal station on Stirling Point, and always well to seaward of 6 fathom line. Arrangements regarding boarding will be made by radio-telephony, wireless-telegraphy, or visual signals from signal station.

Vessels, other than those which are exempt from pilotage, must not proceed inside Bluff Foreshore Light without a Pilot.

Pilots do not usually board vessels between sunset and sunrise, except in reasonable weather.

Caution: Vessels stopping to pick up a Pilot are particularly warned not to approach entrance shoal too closely, especially during flood stream as stream sets strongly on to entrance shoal, Northeastward.

Coastal Pilots: Coastal Pilots are available on 24 hours notice for piloting service from Tairoa Head to Milford Sound.

ANCHORAGE:

Southward of Stirling Point: In fine weather vessels missing tide may anchor in 10 to 12 fathoms with Stirling Point lighthouse bearing about 356° and Dog Island lighthouse bearing about 108°.

Eastward of Dog Island: A good anchorage for vessels delayed longer than six hours awaiting to enter Bluff is situated 5 miles East of Dog Island.

RESTRICTIONS: The safest time to enter the harbour is at slack water. Strict attention should be paid to signals passed from the signal station on Stirling Point. No vessel should attempt to enter without a Pilot, unless possessing local knowledge.

Least depth in fairway is 23 ft. on Northern edge of Channel Rocks; 24½ ft. on Mararoa Rock; also 25 ft. (about 1 cable West North-westward of the tidal stream indicator beacon).

Entering by North channel least depth is 20 ft. off Northern end of Davey Bank.

MAX. SIZE: Length, 620 ft., overall beam, no limit. Maximum draft permissible in approach channel: 30 ft. 0 in. at HW, 21 ft. 6 in. at LW.

HEALTH: Inspector boards in quarantine anchorage. In the open roadstead within navigable area enclosed by a circle having a radius of 3 nautical miles from the flagstaff on Stirling Point.

RADIO: A signal station is situated on Stirling Point and is connected by telephone with harbour officials. A continuous watch is maintained and vessels can communicate by the International Code of Signals or the Morse Code. There is a radio-telephone at signal station. Call sign is ZLRW, calling frequency is 2,182 kc/s, and the working frequency is 2,012 kc/s. VHF radio having Channels 16 and 12. Watches are maintained from 33 to 40 minues past the hour, every hour. After radio-telephone contact has been established further listening watches can be made by mutual agreement.

TUGS: Two tugs are available. A twin-screw vessel of 1,500 i.h.p. and 14·7 tons static pull. A twin-propulsion Voith Schneider vessel of 1,200 i.h.p. and 15·3 tons static pull. Both vessels are equipped for fire fighting and deep sea salvage work.

BERTHING: Old wharf: No. 11 Eastern berth, 29 ft. 6 in.; No. 12 Middle berth, 27 ft. 6 in.; No. 14 Western berth, 24 ft. 6 in.

Ferry wharf: 21 ft. 6 in. Vessels over 350 ft. overall with drafts of up to 18 ft. are berthed at this wharf only at HW in reasonable weather.

Berthing is generally carried out at HW slack tide or LW slack tide.

All vessels over 21 ft. 6 in. draft enter the South channel at the top of high water.

Islands Berth: No. 1, depth alongside 24 ft.
No. 2, ,, ,, 24 ft.
No. 3, ,, ,, 30 ft.
No. 3a, ,, ,, 30 ft.
No. 4, ,, ,, 30 ft.
No. 5, ,, ,, 30 ft.

Tiwai Wharf: depth alongside 30 ft.

STEVEDORES: Agents require ETA in advance to arrange labour for cargo handling.

MEDICAL: Port doctor available through Agents. Nearest hospital is at Invercargill City, 16 miles from Bluff. Medical service whilst at sea; through Awarua radio.

TANKERS: Tankers are berthed at No. 11 berth only, main wharf. Side connections are to be used. Only one pipe-line connection on wharf.

It is not permitted to commence the discharge of oil cargoes during the hours of darkness. No vessel carrying a cargo of motor spirit or having discharged such cargo will be handled during the hours of darkness.

DENSITY: 1025.

FRESH WATER: Available alongside all berths.

FUEL: Bunkering facilities are available. Boiler fuel is supplied by 8 in. diameter pipe-line located at No. 11 berth, old wharf. Delivery rate 240 tons per hour. Limited quantities of coal, light diesel oil and lubricating oil can be arranged for delivery by road or rail to the wharves.

GANGWAY/DECK WATCHMEN: Available.

OPENING CLOSING HATCHES: Usually carried out by stevedores, unless automatic then by crew.
CUSTOMS ALLOWANCE: Tobacco – 200 cigarettes or ½ lb. tobacco. Wine/spirits – one bottle of spirits/wine in use; total quantities to be declared. Excess will be placed under seal.
IDENTIFICATION CARDS: Not required.
REPAIRS: Major repair work can be undertaken by the following: Two small machine shops at Bluff; a foundry at Invercargill; a slipway for vessels of up to 500 tons displacement at Bluff. A diver is available for underwater inspections.
REPATRIATION: Facilities exist.
AIRPORT: Internal air services from City Airport, Invercargill, 16, miles by road. Connecting with international airports of Christchurch Wellington and Auckland.
TIME: GMT plus 12 hours. No change.
HOLIDAYS: Christmas Day; Boxing Day; New Years's Day; Second of January; Watersiders' Picnic Day (4th Monday, January); Good Friday; Easter Saturday (except by special arrangement); Easter Monday; Easter Tuesday; Labour Day; Anzac Day; Reigning Sovereign's Birthday.
POLICE/AMBULANCE/FIRE:

	Tel. (*Emergency*)	(*Other*)
Ambulance	Bluff 111	Ingrill 4119
Police	Bluff 111	8844
Fire Brigade	Bluff 111	

TELEPHONES: By arrangement, all vessels can be connected with telephone system.
SERVICES: Compass adjusting, refuse collection daily.
SHORE LEAVE: Allowed.
AUTHORITY: Southland Harbour Board, the Secretary-Manager, PO Box 1 Bluff.

GISBORNE: 38.42 S. 178.02 E.

PORT LIMITS: All of Poverty Bay within a line from the Northern point of Young Nick's Head to Tuaheni Point.
DOCUMENTS: For vessels arriving direct from overseas.
6 Crew and Passenger Lists.
3 copies of Cargo Manifest.
1 Health Report.
2 copies of Customs Search List.
4 copies of Stores List.
PILOTAGE: Telegraphic address – Harbour Master, Gisborne. Advance notice – 24 hours of ETA and further confirmed at 4 hours of ETA. VHF Channel 12.
Pilot boat is painted white, 45 ft. in length; exhibits pilot flag or lights. Pilot boards on line of leads (332°) 2 miles from breakwater light.
ANCHORAGE: Vessels awaiting Pilot and berth anchor with Tuaheni Light bearing 084° 3·2 miles in 10 fms. of water.
RESTRICTIONS: Vessels may be berthed at night according to size, draft and weather conditions.
MAX. SIZE: Maximum length, 560 ft. OA. Beam, No restriction. Draft, 29 ft. at HW, 25 ft. at LW; there can be slight variations according to heights of tide and weather conditions.
HEALTH: Same procedure as "Auckland".
RADIO: Auckland Radio ZLD, Wellington ZLW.
RADAR/VHF: Radar service available – arrangements can be made through Signal Station by means of VHF Channel 12.
TUGS: Tug joins vessel in channel outside breakwater. Normally use ship's lines; if tug's lines used, no extra charge.
BERTHING: 700 ft. at 32 ft. depth LW; 1,400 ft. at 18 to 20 ft. depth LW.
SPECIALISED CARGO FACILITIES: Two 1,000 tons for bulk grain etc. silos behind No. 7 berth and a conveyor for loading grain etc. in ships.
STEVEDORES: Advice of ETA and particulars of stowage required in order that required number of gangs can be ordered. Hours of work, Monday to Friday, 7 a.m. – noon, 1 p.m. – 6 p.m.; Saturday, 7 a.m. – noon.
MEDICAL: No advance advice required for medical attention. Full hospital facilities available.
DENSITY: 1025 at all stages of tide.
FRESH WATER: Available by 2½″ hoses at approximately 40 tons per hour per hose.
FUEL: Fuel is at present only available by rail tanker and should be ordered through ship's Agent in advance. It is expected that tankers should be discharging here in about 2 years.
DEVELOPMENTS: It is expected that present overseas berth will be increased from 700 ft. to 1,300 ft. within about 3 years.
GANGWAY/DECK WATCHMEN: Ships at present provide own watchmen.
OPENING/CLOSING HATCHES: Stevedores normally carry out this work.
IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: Normal maintenance repairs.
DRY DOCKS: One 400 ton slipway.
REPATRIATION: Full facilities available for effecting crew changes and repatriation. However, no seaman's pool operating at Gisborne. Replacement crew must be obtained from either Auckland or Wellington.
AIRPORT: 3½ miles. Regular internal service.
TIME: Standard Time is related to the meridian of 180° *East*, i.e. 12 hours ahead of GMT.
AUTHORITY: Gisborne Harbour Board.

LYTTELTON: 43.35 S. 172.42 E.

PORT LIMITS: All those tidal waters of the Port of Lyttelton comprised within the area enclosed by the arc of a circle having a radius of 3 nautical miles from the Northernmost point of Adderley Head.
DOCUMENTS: Customs procedure. Overseas vessels, on arrival in New Zealand, should have following papers ready to produce to Customs Officers:
Register.
Names of Owners and Agents.
Crew List.
Passenger List.
List of Prohibited or Restricted Immigrants.
Search List.
Stores List.
List of any stock or birds on board.
List of Poisons.
List of Firearms.
Statement of excess Tonnage of Cargo.
Statement of quantity of Fuel Oil in double bottoms.
Declarations by Passengers arriving in New Zealand.
Baggage Declarations by Passengers for duty purposes.
On departure for overseas, Master or his Agent is required to produce:
Manifest of Cargo.
Stores List.
Crew List.
Passenger List (if any).
Clearance from the Marine Department (if a British ship).
A home trade vessel under *transire* is required to produce her cargo book to Collector of Customs and such particulars as to passengers, crew, and cargo as the Collector may at any time demand. Cargo book shall contain name and port of registry of ship, Name of Master, and date of arrival at, and departure from each port. Particulars as to dates of arrival and departure must be entered not later than 24 hours after time of such arrivals and departures.
PILOTAGE: Masters requiring services of a Pilot must notify Harbour Master of their estimated time of arrival and maximum draft not later than 1600 hours on day prior to arrival (Monday to Friday). If estimated time of arrival is on a Saturday, Sunday or any public holiday which falls on a Monday, notification must be given before 1600 hours on previous Friday. International Code of Signals or Morse Code used for communicating with signal station. Station also equipped with radio telephone. Call sign is ZLHL, calling frequencies are 2182 and 2045 kc/s and working frequencies are 2012 and 2162 kc/s, a continuous listening watch being maintained. Radio telephone equipment also installed in the tug, pilot cutter and Harbour Master's office, and same call signs, frequencies and watches are employed. VHF in operation on International Channels 12, 14 and 16.
Pilot vessel is 54 ft. in length. Equipped with radar, radio telephone and echo sounder. The pilot vessel is located at the tug wharf in inner harbour and any vessel awaiting arrival of the Pilot, should anchor about 1½ miles to seaward of Godley Heads, in a depth of 9 to 10 fathoms and await instructions.
The limit of pilotage is a line joining Godley and Adderley Heads.
Every facility must be provided to ensure safe boarding of the Pilot.
ANCHORAGES: Anchoring in or near entrance of the dredged channel is not permitted. Vessels not awaiting pratique or a Pilot should anchor within navigable portion of water Westward of Camp Bay and within an area bounded by a line bearing 345° from rear anchorage beacon in Camp Bay and a line bearing 022° from flagstaff on Ripapa Islet situated about 2 miles Westward of Camp Bay, and clear of dredged channel. Anchorage is prohibited in the vicinity of a telephone cable laid across the port about 4 cables within entrance. Inner limit of the position of this cable is marked by two white patches painted on cliffs, one on the northern side and one on the southern side of the port.
RESTRICTIONS: Cargo vessels not berthed during hours of darkness, except at Cashin Quay and Gladstone Pier East.
Tankers are berthed during hours of darkness at the discretion of the Harbour Master. All vessels can depart from their berths during hours of darkness. Vessels holding pilotage exemptions may also enter or depart during the hours of darkness.
The following are the controlling depths at mean low water springs, mud bottom in each case;
entrance to port 48 ft.
dredged channel 36 ft.
inside anchorage 26 ft.
approaches to berth 33 ft.
alongside berths 28 ft. to 38 ft.
MAX. SIZE: Max. draft permissible for entering or leaving: 34 ft. at high water, at discretion of harbour master, and 29 ft. 6 in. at low water. Vessels drawing less than 29 ft. can enter at any state of the tide. Max. size permissible for entry: length 850 ft. at Cashin Quay, 750 ft. at Inner Harbour. No limit on vessel's beam.
HEALTH: Master of every ship about to enter a New Zealand port

shall, not later than 12 hours and not earlier than 24 hours before expected time of arrival at that port, inform Port Health Officer by radio of last port of call, date of departure therefrom, and state of health of vessel.

Arrival of vessels. On arrival, vessel showing International Code quarantine signal, should proceed to inspection to await arrival of Port Health Officer. Inspections are normally carried out at berth.

Radio pratique. Certain ships may be granted pratique by radio and hence need not be visited by a Port Health Officer, provided that medical officer carried as part of ship's complement.

Maritime Declaration of Health. Masters of all vessels arriving in New Zealand from any port beyond New Zealand shall complete and deliver to Port Health Officer a maritime declaration of health countersigned by the ship's medical officer, if carried.

Crew List and Passenger List. Master of every ship liable to quarantine should be prepared to furnish Port Health Officer a list of all passengers, showing in respect of each passenger, name, sex, race, age, and port of embarkation; and a list of crew giving the name, race, and rating of each member.

RADIO: Wellington Radio, call sign ZLW; Awarua, call sign ZLB; or Auckland, call sign ZLO.

TUGS: Normally join vessel at Parsons Rock Beacon. Tug lines are used, charge for which is included in the overall hire rate for tug. Two tugs required for vessels over 20,000 tons.

BERTHING: Requirements for berthing at berths 2, 3, 4, 5, 6 and 7 for vessels over 1,000 tons net are; bow out, the anchor to be used and gangway turned in.

STEVEDORES: Waterside labour can be ordered after arrival of ship at 6.30 a.m. up to 9 a.m. For work on Saturdays orders must be placed by 9 a.m. Friday. Saturday afternoon work to be ordered by 10.30 a.m. Saturday.

For supplementary hours labour must be requisitioned by 3 p.m. previous Friday and confirmed by 7 a.m. Monday and daily.

SPECIALISED CARGO HANDLING FACILITIES:

No. 1 Breastwork, Inner Harbour: Grain Silos. 2,000 tons capacity, 250 tons per hour loading rate for coastal shipments.

No. 1 Cashin Quay: Bulk Loading Facilities: Woodchips, grain, etc. (under construction – due completion early 1974).

Gladstone Pier, East: Bulk cargo discharges: 5, 5 ton electric cranes, 3, 100 ton mobile bulk hoppers.

Gladstone Pier, West: Roll-on/Roll-off Coastal and Trans-Tasman Cargo Terminal.

No. 2 Jetty west, Inner Harbour: Roll-on/Roll-off Inter-Island Passenger and Cargo Terminal.

MEDICAL: Hospital facilities are available at Christchurch, 9 miles from port, and international regulations apply in regard to inoculations, vaccinations, etc. Agents can be notified at any time of medical allocation required, preferably with 24 hours notice.

TANKERS: All tankers berth alongside oil wharf in Inner Harbour. One berth only is available with a max. draft of 33 ft. 6 in. A 10 in. line is used for discharging and loading with suitable fittings for reduction to 8 in. Slop or oily residue facilities are not available. Lyttelton is considered to be a discharge port for fuel oils only.

Oil hoses can be connected and disconnected during hours of darkness. Side connections are connected to discharging arms situated at the middle of the oil wharf.

Berthing is generally starboard to, head out.

DENSITY: 1025, salt water.

FRESH WATER: Available at all berths delivered by hose at a discharge rate of 20 tons per hour.

FUEL: Bunkering facilities available: Oiler fuel oil, supplied by 4 in. and 6 in. diameter bunker hose connected to an 8 in. diameter pipeline, located on the oil wharf.

FIRE PRECAUTIONS: Tankers are not permitted to immobilise engines at the oil wharf. Repairs may be carried out at other wharves with Harbour Master's permission. Boiler and galley fires are not required to be extinguished when loading or discharging. All scuppers are to be plugged and cemented in case of spillages.

DEVELOPMENTS: Plans are at present being prepared for the modernisation of the Inner Harbour and the development of bulk handling facilities at Cashin Quay and adjoining stock pile area.

GANGWAY/DECK WATCHMEN: All ships must be provided with a watchman whilst at oil wharf; a shore watchman is also required. Watchmen can be ordered at any time by contacting Seamen's Union at Lyttelton

OPENING/CLOSING HATCHES: This work is carried out by waterside labour.

CUSTOMS ALLOWANCES: ½ lb. and/or 200 cigarettes per man. 1 bottle of wine and/or 1 bottle of spirits per man.

IDENTIFICATION CARDS: Passes are necessary at oil wharf but not required otherwise.

CONSULS: At Christchurch.

Australia	66–221	Belgium	77–905
Denmark	899–099	France	60–085
Italy	62–799	Japan	60–446
Netherlands	65–669	Norway	65–079
Sweden	65–179	U.S.A.	65–864

REPAIRS: Major work can be undertaken at Lyttelton where a machine shop and foundry are available.

DRY DOCKS: A graving dock is available for vessels up to 6,500 tons gross, and dimensions of dock are floor length 450 ft., top length 481 ft. 6 in., top width 82 ft., entrance width 62 ft., width in way of ships bilge 54 ft. 6in., sill depth at MHWS 23 ft. A patent slip is also available for vessels up to 240 tons gross.

REPATRIATION: Facilities are available.

AIRPORT: Distance from Christchurch – 6 miles, served by regular airlines.

TIME: Local time is 12 hours ahead of GMT, no alteration to clocks.

HOLIDAYS: Holidays throughout year shall be New Year's Day; Anzac Day; Provincial Anniversary Day; Good Friday; Easter Monday; Labour Day; Birthday of Reigning Sovereign; Christmas Day; Boxing Day; and the Harbour Board's employees picnic day (to be held on same day as the Waterside Workers' Union picnic day. No cargo work is carried out on these days.)

POLICE/AMBULANCE/FIRE: For emergency calls from ships telephones, dial 111 and ask the operator for service required. For other than emergency calls dial 8079 and ask for service you require.

TELEPHONES: Arrangements can be made with Harbour Master for telephones to be placed on board.

SERVICES: Tank-cleaning and tank-washing facilities are available as well as a compass adjuster.

SHORE LEAVE: Crew members are allowed ashore.

PORT AUTHORITY: Lyttelton Harbour Board, Christchurch.

MOUNT MAUNGANUI: 37.39 S. 176.11 E.

PORT LIMITS: The port of Tauranga outward sea limits are bounded by a right line bearing 093° from North Rock Light 2 nautical miles distant from Trig A Mount Maunganui, then by an arc of 2 nautical miles radius centred on Trig A extending in an anti-clockwise direction to MHW mark at Matakana Island.

DOCUMENTS:

3 Crew Lists.
1 Passenger List.
1 Search List.
2 Bonded Store Lists.
1 Gift List.
1 Excess Cargo or Oil in D.B.
1 Declaration by Master of Restricted Immigrants.
1 Maritime Declaration of Health.
4 Cargo Manifests.
1 Pratique.
1 De-Rat.
1 Clearance, last port.
1 Livestock on Board.
1 Poisons on Board.
1 Firearms on Board.
1 Ship's Papers.

PILOTAGE:

Pilotage is compulsory for merchant vessels of over 100 tons net tonnage; Pilot boards vessel about 1 mile North Eastward of North Rock light structure. If, due to adverse weather conditions, the Pilot is unable to embark, the pilot launch will lead the vessel into smoother waters and embark abreast No. 2 light buoy. All vessels inward bound must give 24 hours notice by radio of their expected time of arrival off the port limits. If bound from Auckland or near ports, vessels send their expected time of arrival immediately on departure from that port; a vessel requiring the services of a Pilot requests this in the same message.

A second message confirming or amending the first is sent four hours before the expected time of arrival as given in her first message. In the event of a vessel expecting to arrive earlier, the four-hour notice is sent four hours before the new expected time of arrival.

Communications are addressed "Harbour Master Tauranga" and are attended to at all hours of the day or night.

Pilot launch is 50 ft. long, is painted white and equipped with R/T, 2182 kc/s., 2162 kc/s. and 2012 kc/s.; VHF Channels 16, 12, 14, 8 and 6, and radar.

Vessels awaiting Pilots may anchor in pilot boarding position.

ANCHORAGES: Three sheltered anchorages are situated in Western channel of Tauranga Harbour and are available for vessels of up to 500 ft. long with a maximum draft of 22 ft. 6 in.

RESTRICTIONS: Vessels may enter, berth, unberth, or depart during hours of darkness in fine weather. Tankers are handled during daylight only. Vessels over 300 ft. generally enter or depart on HW or LW slack.

MAX. SIZE: Max. length permissible is 615 ft., no restrictions on beam. Max. arrival draft at high water is 30 ft.; at low water is 25 ft. 6 in.

HEALTH: Radio notification to be sent to "Port Health Tauranga", regarding state of health of crew and ETA 24 hours before arrival.

Pratique is granted by Port Health Officer on arrival. Notification should be made by radio to Port Health in case of suspected disease or fever on board.

Pratique is automatic if vessel has been previously cleared at another New Zealand port. Radio pratique may be granted in case of passenger vessels or such vessels as carry a doctor on board.

RADIO: Nearest coastal radio station to Port of Tauranga is "Auckland Radio" – call sign ZLD.

RADAR/VHF: Radar is fitted to Harbour Board pilot launch and one tug. VHF is fitted to Harbour Board Watch Office, Main Office, both tugs, pilot launch and work launch. Channels 16, 14, 12, 8 and 6 available. Contact should be made through Channel 16 where continuous listening is maintained. Harbour Board Watch Office is also fitted with R/T, call sign ZLDQ Tauranga. A listening watch is kept on 2182 kc/s.

TUGS: Two tugs are available. Usually join vessels in vicinity of entrance. Tugs lines are normally used, for which there is no extra charge. A third tug planned for delivery in 1973.

BERTHING: Berthing normally takes place 30 minutes after

negotiating harbour entrance at HW or LW slack. Wharves are quay type of concrete construction with wooden spring fendering and rubber buffers. At present 5,700 ft. of wharf is available.
STEVEDORES: ETA to stevedoring companies is usually worked in conjunction with ETA to Harbour Master.
MEDICAL: Unless specifically required for arrival, Agents do not require advice. Local medical practioners are consulted and services of one public and one private hospital are utilised. Smallpox certificates are required.
TANKERS: Discharge of black and white products is done through a single 10 in. discharge line. Flexible connection between these lines and ship is 8 in. No slop facilities. Two tanker discharge points with a maximum permissable draft of 28 ft. at No. 5 Berth and 30 ft. at No. 9 Berth.
DENSITY: Salt water, 1025.
FRESH WATER: Unlimited supply by pipe-line. Good quality, 15 tons per hour.
FUEL: Light bunker fuel oil 200 secs. Redwood No. 1. Heavy bunker fuel oil 1,000 secs. Redwood No. 1. 24 hours – minimum notice. Availability up to 1,000 tons.
FIRE PRECAUTIONS: A fence is erected around tankers to prevent unauthorised access to berth. Both tugs are equipped for fire-fighting.
DEVELOPMENTS: An increase of draft to 32 ft. could be undertaken on completion of channel realignment.
GANGWAY/DECK WATCHMEN: Ship's watchmen are usually employed by overseas ships.
OPENING/CLOSING HATCHES: Usually performed by stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes or ½ lb. tobacco. 1 part bottle of wine or spirits.
IDENTIFICATION CARDS: Not required.
REPAIRS: All types of engine and deck repairs are possible with exception of docking and associated bottom repairs.
REPATRIATION: Repatriation no problem.
AIRPORT: Airport is situated 1 mile from wharves and is served with regular flights from internal airlines to overseas airports at larger centres.
TIME: GMT plus 12 hours.
HOLIDAYS: New Year's Day (1st and 2nd January); Good Friday (end of March); Easter Monday (end of March); Anzac Day (25th April); Queen Elizabeth II Birthday (1st June); Labour Day (26th October); Christmas Day (25th December); Boxing Day (26th December); Port Picnic Day (end of January). Cargo work does not take place on public holidays.
POLICE/AMBULANCE/FIRE: All connected through automatic exchange, Emergency No. 111.
TELEPHONES: Telephones are placed on board all ships by Harbour Board.
SERVICES: No facilities for discharge of tank washings exist. Compass adjusters can be arranged from other ports. Local provendors cater for most domestic supplies. Fumigation can be arranged.
SHORE LEAVE: Crew are permitted ashore at Master's discretion.
PORT AUTHORITY: Bay of Plenty Harbour Board, Private Bag, Mount Maunganui. Tel. 53–039. Telegram "Harboard".
AGENT: Russell & Somers (Bay of Plenty) Limited, 118 Maunganui Road, POB 5087, Mount Maunganui. Tel. 53059. Telex: 2942 "Lumberco".

NAPIER: 39.29 S. 176. 54 E.

DOCUMENTS:
Outward Clearance, last port.
Passenger List (if any), 4 copies.
Crew List, 4 copies.
Prohibited List (Lab. Imm. 290).
Poison List.
Search List (Reg. Form 2).
Stores List (Reg. Form 3).
List of Loading Ports and Dates.
List of Animals and Birds.
List of Fire Arms.
Health Certificate (Lab. Imm. 293), supplied and completed by port doctor.
PILOTAGE: Vessels should advise ETA and draft to Harbour Master Napier 24 hours prior to arrival, ETA to be confirmed or amended 4 hours before original ETA or 4 hours before arrival, whichever first.
VHF pilot boat and watchtower. Listen Channel 16. Work Channel 12.
Pilot boat 65 ft. long, painted white, funnel yellow with black top. Pilot boards inward vessels on main leads 1 mile East of roadstead buoy.
ANCHORAGES: Anchorage 1 mile East of roadstead buoy. 9 fathoms. Bottom sand and mud.
RESTRICTIONS: Vessels are berthed between 5 a.m. and sunset. Vessels up to 25 ft. draft may berth at any state of tide.
MAX. SIZE: Max. length OA 620 ft.; beam, no limit; draft, 28 ft.
Tanker and bulk carriers berthed at 29 ft. draft. Subject to prevailing swell conditions and being able to commence discharge immediately on arrival.
HEALTH: Cable port health Napier 24 hours before arrival. Doctor will board on arrival.
RADIO: Cables should be routed through Wellington Radio ZLW. Radio telephone – Napier Watchtower listens 2182 kc/s for 15 mins. at following times: 0400, 0800 1200, 1600, 2000, 2400 and by arrangement. Working frequency is 2162 kc/s. VHF listening watch as above for R/T and continuous during office hours.
TUGS: Two tugs take ship's line inside breakwater.
BERTHING: Vessels at max. draft limited to HW. Vessels normally berth "Port side to" all berths but will berth starboard side to on request. Notification must be received before 1600 hours on Friday for any shipping movement over weekend and 1600 hours on day preceeding public holidays.
STEVEDORES: ETA required for discharge ships 24 hours before arrival. Loading ships 48 hours before arrival with proposed stowages and vacant spaces. Advice number of gangs able to work. All work done by ship's tackles.
MEDICAL: No prior notice required for medical attention. Hospital facilities available. Advice would be needed of any contagious disease on board in advance.
TANKERS: Standard size discharge lines. All connections supplied by oil companies. Five berths, max. draft 29 ft.
DENSITY: 1025.
FRESH WATER: Available all berths 20T per hour per hose.
FUEL: 220 and 1,000 p/sec. Oil available ex-pipe-line at 110 tons per hour L/Marine diesel and gas oil ex-road tanker. All at immediate notice. Lubricating oil available. 1 weeks notice. No residue service available.
FIRE PRECAUTIONS: Watchman supplied on wharf at ship's expense when tankers discharging.
DEVELOPMENTS: Higgins wharf West 1st 800 ft. extension estimated early 1973.
GANGWAY/DECK WATCHMEN: Cargo watchmen supplied on request at current award rates.
OPENING/CLOSING HATCHES: Hatches normally opened and closed by stevedores unless automatic type.
CERTIFICATES:
Ship's Register,
Health Certificate,
Cargo Safety Certificate,
Radio Safety Certificate,
Load Line Certificate,
CUSTOMS ALLOWANCES: 200 cigarettes or ½ lb. tobacco. 1 bottle spirits in use or 1 bottle wine in use.
IDENTIFICATION CARDS: Not required.
REPAIRS: First class service available.
REPATRIATION: On arrangement with Customs and vessel's Agents.
AIRPORT: Hawke's Bay Airport, served by internal airline 3 miles from port.
TIME: GMT plus 12 hours.
HOLIDAYS: New Year's Day; 2nd January; Picnic Day (last Wednesday in January) (vessels berthed but cargo not worked on any of these holidays); Good Friday; Easter Monday; Anzac Day (25th April); Queen's Birthday (1st Monday in June); Labour Day (nearest Monday 25th October); Christmas Day; Boxing Day.
POLICE/AMBULANCE/FIRE: Emergency telephone 111.
TELEPHONES: Connection all berths.
GENERAL: Due to open port and swell, ship's engines to be kept at 12 hours notice of readiness.
SHORE LEAVE: No restrictions.
AUTHORITY: Napier Harbour Board, PO Box 166, Napier, New Zealand. Tel. 58684.

NELSON: 41.17 S. 173.17 E.

PORT LIMITS: Within 3 miles radius of Nelson Lighthouse.
DOCUMENTS:
4 Crew Lists.
4 Passenger Lists.
1 Search List.
1 Pratique Certificate.
2 Inward Custom Manifests.
1 Store List.
2 Returns for Light Dues.
1 Derat Certificate.
1 List of Prohibited Immigrants.
Articles of Agreement with Crew.
Official Log.
Ship's Register.
PILOTAGE: If possible 24 hours notice of ETA to Harbour Master. Confirm ETA before 1600 Friday if arriving during weekend or public holiday.
Radio telephone 2182 kc/s. and 2162 kc/s., call sign ZLED. Listening watch 10 minutes every 4 hours commencing at 0000 hrs. After contact has been estabilised a further listening schedule can be arranged.
VHF on Channel 16 listening and Channel 12 working. Pilots board inward-bound vessels about 1½ to 2 miles to seaward of main entrance.
Anchorage awaiting Pilot in depth about 30 ft., mud, with Boulder Bank lighthouse bearing 130° distance 8 cables. Pilot vessel 36 ft. double-ended flush-decked vessel painted white.
ANCHORAGES: Anchorage as indicated in pilotage or further seaward according to weather conditions, draft and length of stay at anchor.
RESTRICTIONS: Vessels may enter, berth, unberth, or leave

during hours of darkness. Overseas vessels (over approx. 380 ft.) enter port on flood tide and usually swing and berth port side to.
MAX. SIZE: Maximum permissible length 580 ft. Beam no limit. Draft limits 28 ft.
HEALTH: Doctor clears vessel after berthing. Pratique automatic after clearance at first port. If suspected disease or fever on board advise Medical Officer of Health, Nelson, by radio and await instructions.
RADIO: ZLW Wellington Radio; ZLB Awarua Radio; ZLD Auckland Radio.
TUGS: One tug available, joins vessel inside harbour. Tug's own line used on berthing.
BERTHING: Vessels should endeavour to make their arrival as early on flood tide as possible.
SPECIALISED CARGO-HANDLING FACILITIES: Facilities are available at one general cargo berth for discharging motor spirits and oil. Another berth is used for loading wood chips pneumatically (the loading equipment is owned by Nelson Pine Forest Limited, Nelson).
STEVEDORES: Labour ordered 0700 for weekday work; 0900 Friday for Saturday work. ETA should be received by Agents before these times.
MEDICAL: Yes. Advise Agents of any medical attention required, giving up to 24 hours notice. Hospital facilities are obtainable. Smallpox vaccination certificates are required.
TANKERS: Diameter of discharge pipe, 10 in. white products; 8 in. black oil. No slop discharge facilities. Oil tanker berth, one only. Maximum draft at berth 27 ft.
DENSITY: Average sea water, 1025.
FRESH WATER: Obtainable at any time. Approximately 20 tons per hour delivery rate.
FUEL: Marine fuel oil, gas oil. Notice required, 24 hours.
GANGWAY/DECK WATCHMAN: Watchman necessary but usually provided by ship's crew. Shore watchman can be engaged if requested by vessel. Cost in accordance with national award.
OPENING/CLOSING HATCHES: Usually by stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes or ½ lb. tobacco per man per 10 days. 1 part bottle wine/spirits.
IDENTIFICATION CARDS: Not required.
REPAIRS: Deck and engine repairs are possible. (No underwater damage repaired.)
DRY DOCKS: Slipway available for up to 1,500 ton vessels.
REPATRIATION: Facilities exist.
AIRPORT: Distance 3 miles. Served by internal airline only.
TIME: GMT plus 12 hours. No alteration made during year.
HOLIDAYS: New Year's Day (1st Jan.); 2nd Jan.; Picnic Day (usually near end Jan.); Anniversary Day (1st Monday in Feb.); Good Friday; Easter Monday; Queen Elizabeth II Day (1st Monday in June); Labour Day (4th Monday in October); Christmas Day; Boxing Day. No cargo work on these days.
POLICE/AMBULANCE/FIRE: Police 5309; Ambulance 5299; Fire 81589; Emergency calls, dial 111.
TELEPHONES: Can be connected on board.
SHORE LEAVE: Allowed.
AUTHORITY: The Nelson Harbour Board, PO Box 1003, Port Nelson. Tel. 5264 Nelson. Telegram "Nelharbour".

NEW PLYMOUTH, Port Taranaki: 39.03 S. 174.03 E.

PORT LIMITS: All waters contained within the area of a circle with radius 2½ nautical miles whose centre is the trig station on Mount Moturoa in position 39° 03′ 56.8″ S. 174° 01′ 44.9″ E.
DOCUMENTS:
4 Crew Lists.
4 Passenger Lists.
1 Customs Search List.
1 Maritime Declaration of Health Pratique Certificate issued by Port Health Officer after inspection.
2 copies Port Manifest.
2 Copies other N.Z. Ports Manifest.
Clearance from previous port
Ship's Register.
PILOTAGE: Compulsory. Telegraphic address "Harbour Master, New Plymouth". 3 days notice preferable with 1 day confirmation. VHF Channel 16. R/T 2182 kc/s.
Pilot boat white with buff deckhouse, either "Rawinia" or "Pilot" in black on side. Pilot taken on board about 1½ miles due North of Main Breakwater Head.
ANCHORAGE: Vessels can anchor to the West of a line due North from the Main Breakwater head seaward of the 10 fathom line. Good holding on sandy bottom. Not recommended in Northerly weather conditions.
RESTRICTIONS: Ships not berthed during hours of darkness although permitted to sail. Draft maximum 29 ft. 6 in. may be exceeded after prior consultation with Harbour Master. Ships under 21 ft. not affected by state of tide. In range 21 ft. to 29 ft. 6 in. time of berthing relevant to high tide.
MAX. SIZE: Maximum size 700 ft. overall, breadth no limit.
HEALTH: Port doctor boards on arrival at berth. In event of suspected disease on board, will board in pilotage area. Radio Port Health 24 hrs. before arrival requesting Pratique.
RADIO: Radio telephone system operates watches for 15 minutes every 4 hours from midnight. Call sign ZLNE, call frequency 2182 kc/s. Working frequency 2012 and 2162 kc/s. VHF station operates on Channel 16 after notice given by telegraph or R/T. ETA cables generally received through Wellington Radio. All outward messages routed through Wellington Radio.
TUGS: One tug available.
BERTHING: In general all ships are swung in basin coming alongside berth stern first.
STEVEDORES: Labour must be engaged between 0700–0900 Monday to Friday. Agents should be advised ETA at least 24 hours, preferably 72 hours, in order arrange cargo if vessel loading.
MEDICAL: Hospital services available.
TANKERS: Black oils 10 in. pipe-line; white oils 8 in. pipe-line. 3 of 4 berths available for tankers, maximum draft 29 ft. 6 in. Small deballasting tank available.
DENSITY: Sea water.
FRESH WATER: Available all berths from main supply at about 10 tons per hour.
FUEL: Light fuel oil and gas oil pipe-line connected all berths. Gravity fed at about 100 tons per hour. Can be arranged at 24 hours notice.
FIRE PRECAUTIONS: Tanker berths closed to public with Harbour Board watchman in attendance.
DEVELOPMENTS: New reclamation scheme provides for further 2 overseas vessels, berths being available mid-1973.
GANGWAY/DECK WATCHMEN: Not available and not necessary.
OPENING/CLOSING HATCHES: Stevedores must carry out this work.
CERTIFICATES:
Normal Safety Certificates. Ship's Register.
CUSTOMS ALLOWANCES: 200 cigarettes per man. Only officers may have 1 bottle spirits; ratings 2 bottles beer.
IDENTIFICATION CARDS: Not required.
CONSULS: None available locally.
REPAIRS: All repairs except underwater work of a major nature.
REPATRIATION: Facilities exist.
AIRPORT: Is 7 miles from city, 10 miles from port. Served by domestic service only, 2 flights northbound and southbound each daily.
TIME: 12 hours ahead of GMT. No adjustment made.
HOLIDAYS: Normal cargo working hours Monday–Friday 0700–noon, 1300–1700. Saturday 0700–noon. No work on Sundays; New Year's Day; Stevedores Picnic (4th Wednesday January); Provincial Anniversary Day (2nd Monday March); Good Friday; Easter Monday; Anzac Day (25th April); Queen's Birthday (1st Monday June); Labour Day (4th Monday October); Christmas Day; Boxing Day.
POLICE/FIRE/AMBULANCE: Telephone numbers respectively, 5448, 5505, 5439. All services emergency number 111.
TELEPHONES: Can be connected on board.
GENERAL: Ship's garbage must be in covered containers supplied by Harbour Board and removed daily. Any meats on board vessel on arrival which have been supplied from other than Australia or New Zealand will be sealed off and fresh supplies obtained.
SHORE LEAVE: No restriction.
AUTHORITY: Harbour Master, Taranaki Harbours Board.
AGENT: Newton King Ltd., Shipping Department, 15–17 Currie Street, (PO Box 244), New Plymouth, New Zealand. Telegrams, "Kingship". Tel. 5719 (10 lines) Business, 83174 Residence. Telex, N.Z. 3275, Answerback "Newking".

OTAGO: 45.46 S. 170.43 E.

Includes Dunedin, Port Chalmers and Ravensbourne
DOCUMENTS:
Ship's Register and Clearance from previous port.
Inward Cargo Manifests, in duplicate for each port of discharge separately.
Search List (crew's declarable items).
Passenger Manifest (4 copies airmailed forward from previous port).
Poisons Declaration (typewritten list detailing any poisons on board, or declaring nil on board).
Agents will produce N.Z. Customs Stores List for Master to complete on arrival.
PILOTAGE: Address "Harbour Master, Dunedin. Through coastal radio stations ZLW (Wellington) or ZLB (Awarua) giving ship's name, draft, and ETA. First message 72 hours out, revise 24 hours out: if from another New Zealand port (coastwise) similar message as soon as possible after leaving that port. Subsequent contact with port private radio station ZLES Taiaroa Heads on 2182 kc/s. or VHF Channel 16. Pilot boat is 55 ft., white launch, also fitted with same frequencies, which meets vessels as required but does not remain on station otherwise. Boarding position is with Taiaroa Head Lighthouse bearing 170° distant 2 miles; good anchorage in same position, depth 12 fathoms. Pilots can always board in this vicinity provided Master has ship under way at slow speed and obeys Pilot's instructions. Vessels arriving to work general cargo should endeavour to embark Pilot by 5 a.m. in order to be alongside berth ready to take labour on board at normal commencing hour of 7 a.m.
ANCHORAGES: With Taiaroa Heads Lighthouse bearing 170° distant 2 miles, good holding ground in all weathers, safe except in very strong Easterly gales which are extremely rare. If this position is already occupied by another vessel, there is ample room close Westward, Northwestward, and Northward. Depths 12 to 16 fathoms.
RESTRICTIONS: Tankers proceeding to or from the oil jetty at

Dunedin make passage of the upper harbour in daylight hours only. Otherwise ships are not boarded between midnight and 5 a.m. as no working time is gained by so doing.

MAX. SIZE: For berthing at *Port Chalmers:* Maximum draft 34 ft. at high water, 29 ft. at low tide. Channel is worked as required by circumstances; it is not restricted to slackwater. Maximum size of ship dependent on displacement; largest to date, length 702 ft. but vessels with displacement up to 35,000 tons may safely berth and larger vessels will be considered individually. For berthing in the upper harbour at *Dunedin* or *Ravensbourne,* maximum draft 26 ft. high water, 21 ft. zero tide; maximum length 585 ft.

HEALTH: Master to radio to Port Health Officer (entry port in N.Z. only) 24 hours before ETA requesting free pratique or declaring adverse state of health. Agents will advise Port Health Officer and Health Department inspectors who will board vessel on arrival, alongside actual wharf if free pratique requested. N.Z. regulations will require sealing of domestic meat chambers and purchase of local meats for use coastwise.

RADIO: Through Awarua Radio ZLB or Wellington Radio ZLW.

RADAR/VHF: Port radio station at entrance Taiaroa Head (ZLES) maintains 24-hour watch on R/T 2182 kc/s. and VHF Channel 16. Radar operated at station on request has range in excess of 20 miles to North and East.

TUGS: Tug used in vicinity of wharves turning, berthing and unberthing, etc. Tug's lines used without charge.

BERTHING: Some restrictions for larger vessels berthing with flood tide at Beach St. Wharf Port Chalmers.

STEVEDORES: Labour for Saturday work must be ordered by 8.30 a.m. Fridays, otherwise by 1430 for following day. Advise Agents of firm ETA in time to judge this. Evening shift work to 2300 can be arranged when labour available.

MEDICAL: Emergency medical services and full hospital services always available at short notice. Emergency advice by radio available. Top priority given to arrangements for landing urgent cases for medical treatment.

TANKERS: Diameter of lines 8 in.; minor slop facilities only; one tanker discharge berth 700 ft. long, 28 ft. depth alongside at low water. Maximum size ship 585 ft. long; draft for channel transit 26 ft.

DENSITY: Harbour density 1024 all states of tide.

FRESH WATER: Fresh water available all berths, approx. delivery rate 20 tons per hour.

FUEL: Bunkers available at oil berth; all grades up to 1,000 secs. Redwood.

DEVELOPMENTS: New Beach St. Wharf Port Chalmers 1200 ft. long, 35 ft. depth at low water alongside, for container ships.

GANGWAY/DECK WATCHMEN: Shore watchman not normally required except at entry to oil jetty, such watchman arranged for by oil company. Ships required to maintain own gangway surveillance.

OPENING/CLOSING HATCHES: Automatic hatch gear may be operated by ship's personnel. Manual hatches by shore labour only.

CERTIFICATES: Normal cargo gear and equipment certificates as required for British ports; also Fumigation (Rats) or Exemption Certificate.

CUSTOMS ALLOWANCES: 200 cigarettes or 50 cigars or 8 oz. tobacco. One opened quart bottle any spirits or wine.

IDENTIFICATION CARDS: Not required for British subjects. Alien identification cards to be retained on board in case of need.

CONSULS: Consular agencies France, Norway, Denmark, Sweden, Germany, Italy, Netherlands, Portugal.

REPAIRS: All types deck and engine repairs possible; good machine shops, etc.

DRY DOCKS: Otago dock takes ships up to 520 ft. but beam limit 65 to 66 ft.; maximum draft entry 19 ft.

REPATRIATION: Repatriation arrangements can be made.

AIRPORT: Dunedin is served by all internal main airlines with connections to overseas via Christchurch, Wellington and Auckland. Airport 35 minutes from Dunedin City by car.

TIME: N.Z. Standard Time throughout year is GMT plus 12 hours.

HOLIDAYS: As for all N.Z. ports, i.e. January 1st and 2nd; Good Friday and Easter Monday; Anzac Day (April 25th); 1st Monday in June; Labour Day (Monday, nearest October 24th); Christmas Day and Boxing Day; Waterside Picnic day (Wednesday at end January). Where New Year and Christmas holidays coincide with Saturdays and/or Sundays, holidays are taken following Monday and/or Tuesday. General cargo not worked on these days nor on Sundays: tankers discharge 365 days: ships arrive and depart regardless of holidays. Container ships worked all days except Good Friday and Anzac Day.

POLICE/AMBULANCE/FIRE: Police 76012; Ambulance 77111; Fire Brigade 79111; Hospital 76740; Emergency (serious) dial 111 and ask for any service needed.

TELEPHONES: Slot telephones can be put on board with all local calls free, others by cash in slot.

GENERAL: No special moorings are required. Harbour, though tidal, is landlocked and there is no surge at any berth. Tide rise averages 6 ft. above datum (extremes 5 ft. and 8 ft.).

SERVICES: Radar and gyro compass technicians available. Good shop and providore facilities. Compass adjuster usually available.

SHORE LEAVE: Crew members not restricted ashore.

REGULATIONS: No special local regulations, but all N.Z. ports have very strict rules for garbage collection and disposal, etc. and against oil spillage.

DELAYS: Ample berths normally available. Occasional delays for labour shortage or wet weather (rainfall average 30 in. per year). Small quantities bunkers available ex-tank wagons at any berth. Larger quantities obtainable by shifting to oil jetty outside cargo work hours or as otherwise convenient.

AUTHORITY: Otago Harbour Board, PO Box 1, Dunedin, New Zealand. Tel. 77881. Telegraphic address "Koputai", Dunedin.

PICTON: 41.17 S. 174.02 E.

PORT LIMITS: A straight line drawn in a 303° direction from Paparoa Point on Arapawa Island to the opposite shore of the mainland.

DOCUMENTS: Ship's Agents will advise on all matters of documentation before arrival re the number of Crew Lists, Passenger Lists, Customs Documents, Health Documents, Manifests, Bills of Lading, Ship's Papers, etc.

PILOTAGE: Compulsory. Pilot will board vessels between Long Island and Motuara Island provided he is notified at least four hours before estimated time of arrival of a vessel off these islands.

Pilot boat 48 ft. in length equipped with VHF radio. International signals are carried by pilot boat and are used to call Pilot.

ANCHORAGE: Except during strong North-west winds, there is a good anchorage Northward of Mabel Island in 16 fathoms for vessels of all sizes.

Quarantine Anchorage. Within the navigable area to Westward of Mable Island enclosed between the foreshore and a line from Kaipupu Point 047° to the Western extremity of Mabel Island, thence 349° to Wedge Point. Vessels not in quarantine can use this anchorage.

RESTRICTIONS: Controlling depth in approaches to anchorage is 44 ft. MLWOS.

MAX. SIZE: Max. length 620 ft. Draft, fore 30 ft., aft 36 ft. Vessels of this size can berth at any state of the tide. Longer vessels may be accommodated by arrangement with the Harbour Master.

HEALTH: First entry at a New Zealand port pratique is granted after vessel berths provided she has a clean bill of health from her last port, otherwise vessel would anchor in the quarantine anchorage, where port Health Officer would board. Once clear at the first port in New Zealand no further pratique is required.

RADIO: Port is equipped with medium frequency and VHF, call sign ZLVH, calling frequency 2182 kilocycles. Watch is maintained Monday to Friday, 0900 to 0933, 1140 to 1203, 1540 to 1603 daily and at other times by arrangement.

BERTHING: One overseas wharf 700 ft. length with accommodation for two vessels. Depth at wharf up to 38 ft.

A road/rail ferry berth 500 ft. long with modern terminal facilities for roll-on/roll-off traffic. A second road/rail ferry berth is under construction.

TUGS: None.

STEVEDORES: Agents will provide gangs and other facilities provided Master gives prior notice of his requirements.

MEDICAL: It is necessary for Master to give his Agent as much advance notice as possible. Two doctors reside in the port. Hospital at the port and the main hospital at Blenheim, 17 miles by road. Ambulance service available.

DENSITY: 1025.

FRESH WATER: Unlimited supplies available.

FUEL: By tank wagon only.

GANGWAY/DECK WATCHMEN: Required by general harbour regulations and is generally carried out by ship's deck hands.

OPENING/CLOSING HATCHES: Performed by stevedores.

CUSTOMS ALLOWANCES: Tobacco. ½ lb. tobacco or 200 cigarettes per man per 10 days. Wine/Spirits. 1 quart bottle of wine or spirits per man per 10 days; 1 bottle of beer or two 12 oz. cans of beer per man per day.

CARGO GEAR: Marine Department control this and regulations are issued accordingly. These regulations are very similar to those in the United Kingdom.

IDENTIFICATION CARDS: Not required.

CONSULS: These are stationed at Wellington. (See "Wellington".)

REPAIRS: Small repairs undertaken by three companies.

REPATRIATION: Crew changes can be made.

AIRPORT: Woodbourne – 22 miles by road from Picton, served by feeder services to Wellington – Christchurch.

TIME: GMT plus 12 hours, no change.

HOLIDAYS: New Year's Day, Anniversary Day, Good Friday, Easter Monday, Labour Day, Sovereign's Birthday, Christmas Day, Boxing Day, Anzac Day, Watersiders' Workers Picnic Day.

POLICE/AMBULANCE/FIRE: Police, tel. 439M; Ambulance, through doctor or in case of emergency tel. 160; Fire, ring exchange operator.

TELEPHONE: Facilities exist to place telephones on board.

SHORE LEAVE: Allowed.

AUTHORITY: Marlborough Harbour Board, PO Box 84, Picton. Tel. 270.

TIMARU: 44.24 S. 171.19 E.

DOCUMENTS: On arrival from overseas, HM Customs require:
Crew List with Master's Declaration.
2 copies Stores List.
List of Prohibited or Restricted Immigrants.
Slop List from Chief Steward.
List of Firearms.
List of Poisons, or Certificate that none are on board.
List of Animals on board.
List of all Passengers.
Search List.
Excess Tonnage Form.

PILOTAGE: Pilotage is compulsory, and Pilots are available day and night. A vessel requiring a Pilot should remain 1 mile seaward of Eastern Extension Mole, and should not proceed Northward of line of leading lights on Benvenue Cliff.
ANCHORAGES: A vessel should anchor in a depth of not less than 7 fathoms, sand, and Eastward of harbour light structure, and not within 1 mile of Eastern Extension Mole.
RESTRICTIONS: Tidal conditions may affect the time of entering harbour.
MAX. SIZE: Length, 700 ft.; beam, 90 ft.; draft 27 ft. 6 ins. Time of berthing vessels of over 21 ft. draft. will be dependent on tidal conditions at Harbour Master's discretion.
HEALTH: Due to exposed nature of anchorage, incoming vessels are examined and pratique is granted after a vessel berths. In event that vessel is quarantined, she will be required to return to anchorage without any contact being made with shore.
RADIO: Timaru Harbour Board has a radio telephone station equipped with both medium frequency and VHF installations.

Call sign ZLSD, calling frequency 2182 kc/s., working frequency 2162 kc/s. Fixed watches maintained for a period of 15 minutes every 4 hours, e.g.: 0345–0400, 0745–0800, 1145–1200, 1545–1600, 1945–2000, 2345–2400 (New Zealand Standard Time) and at other times mutually arranged. VHF call sign is Timaru Harbour, Channels 6, 12, 16.
RADAR/VHF: Port radar set is located at the Old Lighthouse immediately behind harbour, and is available to assist vessels arriving and entering port in poor visibility.
TUGS: One tug, 1100 h.p. and pilot launch/tug, 200 h.p. available.
BERTHING: Moorings supplied at all berths.
SPECIALISED CARGO-HANDLING FACILITIES: *All weather mechanical loaders:* Four all-weather mechanical meat loaders. Each machine is capable of loading 720 units per hour, to a maximum of 2,500 units per hour. Also butter, cheese, frozen vegetables can be handled.

Bulk Handling: A modern bulk-handling installation capable of handling grain, lucerne and certain types of minerals. Intake rates: grain 120 tons per hour; lucerne 100 tons per hour. Ship's loading rate: grain 800 tons per hour; lucerne 680 tons per hour. Ship loader equipped with belt weigher. Wharf conveyor has maximum belt rate of 1,000 tons per hour. Total silo storage at present available 6,000 tons grain. Inert gas protection provided for lucerne.
STEVEDORES: Gangs must be ordered before 7 a.m. weekdays, and before 9 a.m. Friday for Saturday work.
MEDICAL: Full medical facilities are available as required, including an excellent public hospital.
TANKERS: One tanker berth, discharge through 8-in. hoses.
DENSITY: Specific gravity 1.025 at all states of tide.
FRESH WATER: Available at all berths, delivered at up to 25 ton/hour.
FUEL: Bunkers available, heavy and medium fuel oil. 24 hours advance notice required.
FIRE PRECAUTIONS: When tankers are discharging, access to wharf is prohibited except to those holding passes. Fire-fighting equipment is placed in readiness on wharf.
DEVELOPMENT: Main consideration in future planning is increasing the depth of water in the entrance channel and in the port.
GANGWAY/DECK WATCHMEN: Available if required.
OPENING/CLOSING HATCHES: Carried out by stevedores.
CUSTOMS ALLOWANCES: Half lb. tobacco, or 200 cigarettes, per 10 days, first issue on day of arrival. Two gallons spirits per 10 days per vessel.
IDENTIFICATION CARDS: Not required.
REPAIRS: Most deck and engine repairs can be undertaken.
REPATRIATION: Facilities exist for effecting crew changes and arranging necessary repatriations.
AIRPORT: Situated about 7 miles from city, and there is one flight per day to and from Christchurch International Airport.
TIME: New Zealand Standard Time (GMT plus 12).
HOLIDAYS: New Year's Day; 2nd January; Picnic Day (port holiday, last Wednesday in January); Good Friday; Easter Monday; Anzac Day (25th April); Queen's Birthday (first Monday in June); Dominion Day (third Monday in September); Labour Day (last Monday in October); Christmas Eve (work ceases midday); Christmas Day; Boxing Day. Work can be arranged only by private negotiation on a voluntary basis.
POLICE/AMBULANCE/FIRE: Emergency No. 111 and ask operator for service required. Other than emergency calls: Police, 84–199 Timaru; Ambulance, 5253 Timaru; Fire Brigade, 7089 Timaru.
TELEPHONES: Can be supplied to vessels at all berths.
SHORE LEAVE: Alowed.
PORT AUTHORITY: Timaru Harbour Board, PO Box 76, Timaru. Tel. 4199

WANGANUI: 39.56 S. 175.04 E.

PORT LIMITS: Arc of a circle of 3 nautical miles radius centred at the flagstaff at Castlecliff, sited 39° 56′ 49″ S. 174° 59′ 23″ E.
DOCUMENTS: See "Auckland".
PILOTAGE: If Wanganui is first N.Z. port, initial application for Pilot and vessel's ETA should be passed to local Agent by radio through one of three Post Office radio stations. If not first N.Z. port, this information should be given to local Agent by Agent at previous port. Final details settled when R/T contact made between pilot station and ship.

Pilot launch "Karere", 41 ft. OA, painted white, high midship wheelhouse. Pilot boards at anchorage position. International signals for Pilot should be used if no R/T contact made.
ANCHORAGES: One anchorage for vessels awaiting to enter.
RESTRICTIONS: Port worked day or night at high water when bar conditions are suitable.
MAX. SIZE: Length 350 ft., beam no limit, draft dependent on bar depths at particular time but usually 15 ft. maximum at high water springs. No installations outside main port area.
HEALTH: See "Auckland".
RADIO: Wellington Radio ZLW. No radar or VHF. R/T frequencies 2182, 2162, 2012.
TUGS: No tug available. Pilot launch used for swinging.
BERTHING: Berthing takes place at high water slack.
SPECIALISED CARGO-HANDLING FACILITIES: *No. 6 Berth:* pipe-line for bulk cement connecting wharf with adjacent silos.
No. 1 Wharf: direct handling into cool store for fruit.

Portable hoppers used for bulk cargoes to load directly into railway wagons.

There are no facilities for containers, roll-on/roll-off traffic, liquid chemicals or LPG carriers.
STEVEDORES: Requirements for labour should be given with ETA and request for Pilot. At least 24 hours notice required.
MEDICAL: 24 hours notice required if possible. Hospital facilities available. Inoculations, certificates, etc.
DENSITY: 1020 at HW. 1005 at LW. These figures vary greatly according to amount of freshwater in river.
FRESH WATER: Plentiful supply through wharf hose connections. Rate of delivery depends on height of ship's filling pipe above wharf level.
FUEL: All grades available but ship has to pump out of road tankers. Amount of notice depends on grade required.
DEVELOPMENTS: Development plan in course of preparation but as yet no details of size of any possible new installations or draft increases.
GANGWAY/DECK WATCHMEN: Watchman necessary, either crew member or shore watchman.
OPENING/CLOSING HATCHES: Carried out by stevedores.
IDENTIFICATION CARDS: Not required.
REPAIRS: Minor deck and engine repairs possible.
REPATRIATION: Facilities exist but more easily accomplished at a main port.
AIRPORT: About 6 miles. Airport caters for internal services only.
TIME: N.Z. Standard Time (12 hours in advance of GMT) is kept throughout year.
HOLIDAYS: As Auckland, except Anniversary Day holiday which is that held in Wellington Province. No cargo is worked on these days.
POLICE/AMBULANCE/FIRE: Ambulance, 8909; Police, 4488; Fire Brigade, Wanganui, 8185; Fire Brigade, Emergency 111.
TELEPHONES: Arrangements can be made for placing telephones on board.
SHORE LEAVE: Allowed.
DELAYS: Fresh onshore winds could make entrance unworkable for a vessel waiting to enter. Cargo work stops in rain and in unusually strong wind. Bunkering would be slow if large amount of bunkers required.
AUTHORITY: Wanganui Harbour Board, Box 8001, Castlecliff, Wanganui, N.Z. Tel. 35137 Wanganui. Telegraph Harborbord, Wanganui.

WAVERLEY HARBOUR, North Island: 39.50 S. 174.37 E.

LOCATION: Waverley Harbour is located on the West coast of the North Island of New Zealand in the Northern end of the Taranaki Bight.
PORT LIMITS: Waverley harbour is defined as being all that area of water bounded by the line of mean high water spring tides, and having as its seaward limit the arc of a circle of 2 nautical miles radius centred at 39° 49·6 S. 174° 36·5 E, near the mouth of the Wairoa Stream.
DOCUMENTS: Besides the Port Health Doctor, other Government personnel boarding the vessel by helicopter for inward clearance are: 1 Port Health Officer, 1 Customs Department Officer, 1 Agriculture Department Officer.

Port Health Officer will inspect Deratisation Certificate and (possibly with Agriculture Officer) inspect food store rooms, refrigerated spaces, galley, pantry, etc.

Customs Officer: The Customs Boarding Officer acts for the Immigration Department and the Marine Department and will inspect the following ship's documents: Register, Loadline Certificates, Safety Equipment Certificates, Radio Certificates.

The following documentation is required on Inward Clearance:
Last Port Clearance.
List of Prohibited Immigrants (Form Lab. Imm. 290).
4 Crew Lists.
Inward Manifest/Nil Declaration.

Search List (Reg. Form 2) Crew.
Stores List.
Poisons Lists.
Firearms List.
2 copies of List covering birds, animals, and fish on board (certified by Master).
Passenger List (if any).

For Outward Clearance (Customs):
2 copies of Special Red Printed Outward Manifest (front page) with attached Ship Printed Manifest.
2 copies of Stores List.
2 copies of Crew List.
5 copies of Embarking Passenger List.
2 copies of Transit Passenger List.
1 Passenger Arrival Card (Lab. Imm. 290) for any crew of passenger leaving vessel.

Agriculture Officer: on arrival:
2 copies of Ship's Meat Locker.
Reg. 1966 Agl. 36.

The Boarding Officer will inspect the vessel's meat locker and inspect the garbage containers.

Australia, United States, Canada and New Zealand meat not loaded in the place of origin, and Japanese meat will be sealed up if the vessel is in port in excess of three days; however, a 12-hour extension of this period could be given.

At sailing time, the Agriculture Officer may attend to check on garbage, sealed lockers, etc., together with the Customs Officer, who issues the Port Clearance, to check if all crew are aboard, and that the Bonded Stores Seal is intact.

NAVIGATION AIDS: SBM – radar reflector, white flashing light, one flash every 9 second, range 6 miles.

Leading Lights: In transit bearing 355° 33′.

Range Lights: In line bearing 312° 03′.

All four light towers are of louvred timber construction, painted white with vertical centre line painted red.

The pumphouse building immediately to the West of the two leading lights is prominent with a radar visibility to 15 miles.

PILOTAGE: Pilotage is compulsory for Waverley Harbour and under control of the Waverley Harbour Master.

It has become customary for vessels to await the Pilot in a position 2 miles South of the SBM. Vessels equipped with VHF will be contacted accordingly when within range. Information on weather conditions and time of Pilot boarding will be advised through this media.

Due to the nature of the coastline adjacent to Waverley Harbour and the weather conditions experienced, the transportation of the Pilot (and other port official personnel) is effected by helicopter, from a pad adjacent to the Administration Building. It must be ensured that radio antennas running respectively from foremast to bridge and bridge to aft, as the case may be, are lowered clear in good time prior to the arrival of the helicopter, and the landing area cleared of loose gear and portable foam fire equipment properly charged, available for immediate use at the landing area.

Berthing to the SBM is effected day and night but dependent on weather conditions being favourable for placing the floating mooring hawsers on the buoy, and visibility and flying conditions being acceptable to the helicopter pilot and in concurrence with the Master of the vessel.

For night flying a wind sock will be erected for the helicopter pilot's observation of wind direction, and vessel is to be floodlit overall.

ANCHORAGE: The recommended anchorage off the port is a rectangular area 0·75 miles East and West, and 1 mile North and South of a position 3 miles South of the SBM. The bottom is sandy in 11 to 12 fathoms and the holding ground is reported fair.

A safe anchorage for vessels having to leave the buoy and/or to await suitable weather to moor to the buoy is recommended in Golden Bay. Distance is approximately 90 miles S.W. of Waverley, the approaches are clear and the lights on Farewell Spit and Separation Point, of 15 miles and 12 miles respectively, most reliable. The holding ground is good and depth of water 15 to 16 fathoms.

WEATHER: The Harbour and SBM is exposed to the West through South to South-east. The swell conditions caused by Westerley and South-westerley weather are considerably reduced by the shallow ground to the Westward, but Southerly swell rolls in unhindered. Very sudden changes of weather are experienced on this coast with the rapid movements Eastward of cold fronts over the Tasman Sea.

PRATIQUE: Port Health Doctor boards the vessel on arrival with the Pilot. All crew members should hold valid International Certificates for smallpox. These cards will be inspected by the Port Health Doctor, who requires one copy of the Crew List which should include date of expiry of Health Certificates held.

The doctor will supply on arrival N.Z. Maritime Declaration of Health Form H-Q2 for completion by the vessel. It is customary to procure an additional form for the following voyage to facilitate easy inward health clearance thereafter.

RADIO: There is no Government Radio Station at Waverley. Vessels trading to Waverley use ZLD Auckland Radio, ZDB Awarua Radio, or ZLW Wellington Radio.

Advice of Arrival: Vessels to radio ETA to "Wavermarine" Waverley on departure from last port, and 48 hours and 24 hours prior to arrival.

Vessels are also to radio "Health" Wanganui, 24 hours before arrival Waverley, advising number of passengers and crew, and "All Healthy" or state any suspected diseases.

In addition to the vessel's ETA to "Wavermarine", arrival draft and details of the hatch loading plans should be advised.

Vessels equipped with VHF should listen in on Channel 14 (156·7 mHz) when in range of Waverley Harbour.

Base Station is at the Shiploading Pump Station, on board the tender vessel *Margaret J*, and a remote control unit is fitted in the main administration building. Mobile units are also employed during the loading operation.

Bast Station Channels are:
Channel 6 – 156·3 mHz Intership.
Channel 9 – 156·45 mHz Private and Loading
Channel 14 – 156·7 mHz Port Operations/Docking.
Channel 16 – 156·8 mHz Safety.

Meteorological information for shipping is broadcast by the Coast Radio Stations ZLW, ZLB and ZLD at frequent scheduled times. ZLW broadcast by radio telegraph on 417·5 kHz, ZLD 487·5 kHz.

BERTH DESCRIPTION: The single point mooring buoy of 11 metres diameter is moored in 62 ft. at low water, 1·5 miles from the shore in position 39° 51′ 02.2″ S. 174° 35′ 52.14″. E.

BERTHING: The tender vessel *Margaret J* when the carrier approaches the buoy will receive a 50 m.m. messenger rope with suitable shackle from the vessel and run out and shackle to a small strop on the eye of the first 18-in. floating mooring hawser. When fast, the vessels will heave all aboard, and when the spliced eye is at a suitable distance inside the bull nose a bight of the vessels 9-in. or similar mooring rope will be passed through the eye of the 18-in. hawser and brought back to the bitts and the working end turned up on said bitts. This will give four parts of the vessels mooring ropes to one 18-in. floating hawser.

Alternatively, two ends of a vessels mooring rope could be used to one hawser and turned up to two sets of bitts, also giving four parts of mooring rope to each hawser. Similar method to be used for the second 18-in. hawser from the other side and both 18-in. hawsers to be set up with equal tension on each. Conveyor belt rubber is employed on each hawser where it passes through the bull nose. A good supply of heavy grease should be available for application to the rubber belt to reduce chafing.

It is essential that two or three good heaving lines be available with the messenger rope in the first instance to pass to the tender vessel, to avoid any delays in mooring.

HOSES: The floating loading hose string comprises ten 35-ft. lengths of hose, with the shipboard end supported by a steel buoy. After mooring is completed the tender vessel will tow around the floating hose underneath the pick-up derrick, plumbed over the manifold connection on the port side of the foredeck abaft the forecastle head. The pick-up buoy of the hose-end will have shackled into it a 30-ft. length of polypropylene, of 7 in. circumference, to which is attached a 100-ft. length of 2¼ in. circumference for passing to the vessel. The 7-in. polyprop is hove up to the rail and hooked into the vessel's cargo hook. The flange elbow with attached camlock coupling is then hove up and connected to the vessel's deck hose manifold. The hose is presently supported on the ship's derrick and stayed fore and aft after coupling up has been completed.

It has been estimated that after the iron sand slurry has been loaded, and the excess water decanted from the surface of the cargo, that the bulk density of the iron sand should be 190 lb. to the cubic foot.

LOADING: All compartments to be loaded should be clean with all drain sumps and double bottom butterworth hole filter places clear.

If weather conditions permit, the vessel should arrive with the after hatch lid of each hold open to facilitate visual inspections of the hold decanting eductors.

FRESH WATER/FUEL: Not available.

REPAIRS: Emergency repairs can be arranged, including radio.

MEDICAL: The Port Health Doctor is a qualified doctor of medicine and can be acquainted of any medical problems affecting any crew member; the necessary arrangements can then be made for treatment aboard or ashore, as convenient.

CONSULS: There are no consular representatives at the port of Waverley.

REPATRIATION: Lists of personal effects, accounts of wages, etc., of any vessels' personnel left ashore, hospitalised or deserted, should be available to Agent as early as possible.

A letter of authorisation is required if the Agent is to provide accommodation, meals, medical attention, transportation or travel expenses, and/or cash advances for account of vessel.

SHORE LEAVE: Shore leave for vessel's personnel is not practicable.

GENERAL: No Port Authority personnel remain on the vessel during the loading period at the SPM Buoy.

The Marine Department require that all vessels, while moored, "shall at times be kept in readiness to proceed to sea".

The Pilot who is the loading master for Waipipi Iron Sands Limited will accept the Notice of Readiness for the vessel, and acts as Agent for all the vessels requirements. It is customary for the Pilot/Loading Master/Agent to be accommodated on board the vessel during her period on the buoy.

Whistle signals in an emergency may be used for medical, police, etc., as required.

Due to limited means of communicating with vessels while at the loading facilities, Masters are advised that no storing will be accomplished at this port.

No garbage is to be thrown over the side of the vessel whilst she is on the New Zealand coast and moored to the buoy. Garbage must be retained on board and not dumped until the vessel is one day's steaming clear of the Northern point of New Zealand.

AUTHORITY: Waipipi Iron Sands Limited, POB 143, Waverley, North Island, New Zealand.

WELLINGTON: 41.18 S. 174.46 E.

PORT LIMITS: All the waters comprised within the harbour of Wellington having as their outward seaward limit the arc of a circle running from the land ward boundary of the foreshore at Fitzroy Bay and thence into Cook Strait and thence to the landward boundary of the foreshore at Island Bay, such arc being an arc of a circle 3 nautical miles radius and having its centre at a point on the Outer Rock in the harbour of Wellington.

DOCUMENTS:

Port Health Authorities.

Maritime Declaration of Health (1 copy).
Crew List, stating name, rank, sex, nationality and date of smallpox vaccination (1 copy).
Port Health Officer will also wish to sight each member of crew's smallpox Vaccination Certificate.
Current International derating Exemption Certificate.

Customs Authorities.

Outward clearance papers from last port of call before arriving at a N.Z. port (2 copies, 1st N.Z. port of call.)*
Bills of Health (see Port Health).
Passenger List (3 copies).
Transit Passenger List (3 copies).
Stores List, completed by Master (1 copy).
Crew List, stating name and occupation of each member of crew (3 copies required).
Search List to be completed by each member of crew (1 copy).
List of Prohibited or Restricted Immigrants (1 copy).
List of Fuel Oil carried in Double Bottom Tanks only (1 copy).
List of Animals or Birds (1 copy).
Manifests typed, or written in ink, together with declaration of cargo form, signed by Master (2 copies).
List of Poisons in Cargo and where stored (1 copy).
List of Cargo carried in unregistered spaces and or on deck (1 copy).

**Note:* It is not necessary for vessel to produce any documents when departing finally or transversing between New Zealand ports as it is the responsibility of Agent to supply Authorities with these documents.

Agent.

Crew List, stating name, occupation, rank, sex and nationality (1 copy).
Freight Manifest (3 copies).

Note: Manifests should be airmailed by loading port to arrive in New Zealand at least one week prior to vessels arrival.

Stowage Plan, airmailed same as Manifest (2 copies).

Agricultural Authorities.

Port Agriculture Inspection Instructions – Ship's Meat Locker Regulations 1966.

PILOTAGE: Compulsory. Pilot vessel is not normally on station outside entrance, and all vessels requiring a Pilot are required to give 24 hours notice by radio of their expected time of arrival off port limits. A second notice confirming or amending the first is to be sent 4 hours before expected time of arrival. In event of a ship expecting to arrive earlier than the time given in 24-hour message, 4-hour message shall be sent 4 hours before the new expected time of arrival. Should vessel expect to arrive later than her 24-hour message, her 4-hour message shall be sent 4 hours before expected time of arrival given in her original 24-hour message. All communications which should be addressed "Harbour Master, Wellington", will be attended to at all hours of the day or night.

Should it not be possible to give previous notice of arrival it may be up to 1½ hours after a vessel is sighted by signal station on Beacon Hill before a Pilot can board.

Pilots normally embark or disembark South of Pencarrow Head, but in the event of heavy Southerly weather, it may be necessary to embark or disembark Pilot in smooth water at or near the compulsory limit.

ANCHORAGES: Depth in anchorages up to 60 ft.

Fairway. Within portion of harbour lying inshore and to Westward of a line drawn from Easternmost point of Oriental Bay, in a 344° direction, to Kaiwharawhara Shore.

Inner Anchorage. Within portion of harbour laying between the Eastern boundary of fairway anchorage and a line drawn from Point Jerningham, in a 354° direction to Kaiwharawhara Shore.

Outer Anchorage. Within portion of harbour Eastward of inner anchorage.

Note: Vessels anchoring in outer anchorage should take up a position well up towards Kaiwharawhara.

Explosives Anchorage. Within portion of harbour contained in an area 4 cables square with sides 000°, 090°, 180°, and 270°. Centre of area lies approximately 1·45 miles due North of Point Halswell light beacon.

Caution: It is advisable when anchoring (especially when in light draft) to drop two anchors in an Easterly and Westerly direction, veering from 75 to 90 fathoms of cable, as it frequently blows hard with heavy gusts of wind off the high land that surrounds harbour, causing a vessel to sheer about. In very strong winds a ship will lie much easier by having both anchors down. A strict watch should be kept.

Prohibited Anchorages. Anchorage is prohibited within 500 ft. of the jetty situated on the North-eastern side of Somes Island.

RESTRICTIONS: Controlling channel depth is 37 ft. below chart datum. All vessels may enter, berth, unberth, or depart during the hours of darkness. Tankers do not usually berth or depart during hours of darkness. Berthing is carried out at any state of the tide.

MAX. SIZE: Maximum draft 35 ft. LW with no swell. Size no limit.

HEALTH: *Health Officer's Examination Ground.* Within portion of harbour contained in an area 3 cables square, North-western corner of which is at the intersection of a line drawn from Point Jerningham in a 354° direction, towards Kaiwharawhara shore, and with a line drawn from tower on the Government Life Insurance Building (adjacent to the General Post Office) in a 055° direction, which line is the Northern boundary of the examination ground. Until pratique has been granted vessels arriving from ports beyond New Zealand must not proceed inwards beyond the limits of this area.

RADIO: Medium frequency: Call sign is ZLEG, calling frequency only 2182 kHz, working frequency 2012 kHz. Vessels working on the port and calling 2182 kHz should listen for reply on 2012 kHz. A continuous watch is maintained on 2182 kHz.

VHF: Call sign "Wellington Harbour Control", on Channel 16, Working Channel 12 and Channel 14. A continuous watch is maintained on Channel 16.

Port operations. Vessels equipped with radio-telephone when within harbour limits must maintain a listening watch on 2182 kHz or Channel 16 to ensure immediate contact if required. Only calls for information on harbour conditions, berthing or safety of navigation will be accepted.

When a vessel is notified by radio-telephone or Morse lamp of berth allotted she must confirm this with Pipitea Wharf signal station prior to berthing.

Note: Pipitea Wharf signal station and pilot launches are equipped with both medium frequency and VHF radio-telephone. Harbour Master's Office and Union Steam Ship Co. of New Zealand Ltd. tugs are equipped with VHF radio-telephone.

TUGS: Two tugs owned by Union Steam Ship Co., of New Zealand Ltd., are available. (Tapuhi, 850 i.h.p., and Taioma, 900 i.h.p.) Two new Voith Schneider twin-tractor propulsion tugs each of 2,700 h.p. owned by Harbour Board.

CONTAINERS: Thorndon Container Wharf, situated South of the Aotea Quay breastwork, consists of a pre-stressed pile and reinforced concrete structure 84 ft. wide extending for 1,900 ft. which provides two container berths each 950 ft. in length, with a depth of water alongside of 40 to 45 ft.

The Board operates a 45-ton twin-lift quayside container crane with 115 ft. waterside outreach and 35 ft. landside outreach to serve the 1,900 ft. quay frontage.

Berth II or Common User Terminal has been leased to a terminal operating consortium on behalf of certain shipping lines.

Adjacent to the Terminals, the New Zealand Government Railways are providing a 32½-ton rail/road Goliath transfer crane, together with six rail tracks, 700 ft. in length, and will control the transfer of all refrigerated and general containers between rail and road, or terminal transport.

DEVELOPMENTS: Container handling facilities: Thorndon Wharf Development – 38 acre reclamation, depths of water in excess of 40 ft. MLWS, two berths 950 ft. long, working area behind berths of potentially 22 and 24 acres respectively. It is also anticipated to dredge harbour entrance another 2 ft.

Taranaki Street Terminals: roll-on, roll-off berth 500 ft. long, stern bridge ramp, with sectional roadway able to be varied up to 20 ft. Other berth for conventional shipping 680 ft. long. New oil berth and mole, Point Howard.

TANKERS: Tankers can berth alongside Point Howard Wharf,

Aotea Quay and Miramar Wharves. Side connections are to be used at all wharves. During hours of darkness pipe-line must not be disconnected without first obtaining permission from Harbour Master. All precautions must be taken to avoid oil pollution of Harbour. Scuppers must be plugged and sawdust kept at hand in case of spillage.

Point Howard Wharf is exposed to weather and in the event of a Southerly gale special attention must be paid to vessel's moorings.

No facilities are provided for discharge of tank washings other than when a vessel is on the floating dock.

DENSITY: 1.025.

FUEL: Available at tanker discharging wharves.

FRESH WATER: Available at all wharves, delivered by hose (4 hoses per vessel max.), 50 tons per hour.

DRY DOCKS:

Floating Dock. A floating dock capable of lifting vessel of 17,000 tons displacement is available.

Floating Crane. Harbour board has an 80-ton revolving and self-propelling floating steam crane of sufficient radius and height to serve the largest vessels when floating in light draft conditions.

REPAIRS: Major repairs can be undertaken. There are machine shops and foundries. Diving equipment and the services of trained divers are available for underwater inspections and repairs.

GANGWAY/DECK WATCHMEN: Shore watchmen available.

OPENING/CLOSING HATCHES: Work normally carried out by stevedores. Only time crew are to open and close top hatches is when advised by stevedore. In case of hydraulic hatches in tween-decks, crew are to open and close, not stevedores.

STEVEDORES: Available. No particular ETA advice required except as normally sent by Master.

CERTIFICATES: Customs Department require Ship's Register on arrival. Marine Department require:

Load Line Certificate.
Tonage Certificate.
Certificate of Registry.
Convention Certificates, i.e.
Safety Equipment Certificate.
Safety Radio-telegraphy Certificate.
Safety Construction Certificate.
Exemption Certificate (if any).
If passenger ship, Passenger and Safety Certificate.
Cargo Gear Register.
Certificates for all Cargo Gear, i.e. runners, spans, shackles, swivels, etc.
De-Ratification Certificate.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes, or ½ lb. tobacco, or 50 cigars permitted for each crew member. Wine and/or spirits: One opened bottle spirits or wine for each crew member.

IDENTIFICATION CARDS: Not required.

CONSULS: United Kingdom and the Commonwealth Countries of Canada, Australia, India, Singapore and Malaysia have High Commissioners in New Zealand with Headquarters in Wellington.

Foreign Representatives: Argentina, Austria, Belgium, Bulgaria, China, Czechoslovakia, Denmark, Ecuador, Finland, France, Germany, Greece, Indonesia, Ireland, Italy, Japan, Netherlands, Norway, Poland, Portugal, South Africa, Sweden, Switzerland, Thailand, U.S.A., U.S.S.R., Yugoslavia.

REPATRIATION: Facilities are available for crew changes and arranging any necessary repatriations.

SHORE LEAVE: Crew members are allowed shore leave at all times.

AIRPORT: Situated 4½ miles South-East of City Wharves by road; regular internal and Australian services.

TIME: Local time is GMT plus 12 hours throughout the year.

HOLIDAYS: New Year's Day (1st January); Wellington Province Anniversary Day (22nd January); Waterside Workers Union Picnic Day (18th January); Good Friday; Easter Monday; Anzac Day (25th April); Sovereign's Birthday Observance (first Monday in June); Labour Day (fourth Monday in October); Christmas Day (25th December); Boxing Day (26th December).

MEDICAL: Four hour's notice is sufficient for Agent to mobilise the service concerned. For minor attention it is sufficient that Master advises Agent on arrival. Hospital facilities are available. Current International Certificates of Vaccination against smallpox are required by the Authorities.

POLICE/AMBULANCE/FIRE:

	Routine	*Emergency*
Wharf Police	547–000	Dial 111 and ask operator for service required
Ambulance	555–999	
Fire Brigade	50–188	

TELEPHONES: Vessels may be connected to telephone system at city berths by application to the Harbour Master.

AUTHORITY: Wellington Harbour Board, PO Box 893, Wellington, Queen's Wharf, Jervois Quay, Wellington.

WHANGAREI: 35. 45 S. 174. 21 E.

DOCUMENTS: See "Wellington".

PILOTAGE: Compulsory. Pilots embark on the line of leads 141°/321° at the seaward extremity of Pilotage District, i.e. up to 1½ miles South-eastward of the Fairway Buoy. In heavy Easterly weather, it may be necessary for pilot vessel to lead ship in through the Outer Channel and embark in the lee of Frenchman Island.

Pilots are available all hours day and night subject to prior minimum notice of 24 hours being received during normal week-day working hours. Second notice confirming or amending first to be sent four hours before expected arrival. The Pilot supplies a set of Harbour bylaws. Pratique, agriculture and customs clearance is normally undertaken on arrival at berth.

Pilot boat is equipped with VHF. Working frequency is Channel 12, but Channels 6, 8 and 16 are also fitted. Pilot vessel *Manaia* – call sign ZM3830; pilot vessel *Ngapuhi* – call sign ZM2146. Range approximately 20 miles.

ANCHORAGE: Is situated 5 to 10 cables Eastward of the Fairway Buoy in 12 to 20 fathoms of water in the section enclosed by the Fairway Buoy bearing 225° T to 315° T. Holding ground good in fine sand, but exposed to Easterly weather.

Harbour Anchorage. At Marsden Point, 2 cables West of Passage Island light, in 5 fathoms of water. Max. draft 24 ft. Good holding ground, sand and shell bottom.

RESTRICTIONS: Controlling depth in entrance channel 50 ft. MLWS. Depth in upper harbour channel maintained at 28 ft. MLWS.

MAX. SIZE: Marsden Point: Oil Refinery dolphin berths, LOA 1,000 ft., draft 50 ft., Cargo berth LOA 600 ft., draft 28 ft.

Port Whangarei: LOA 600 ft., draft 31 ft.

HEALTH: All vessels examined by Health Officer on arrival.

RADIO: The station is Marsden Point, Whangarei. Call sign ZLKW Continuous 24-hour watch is maintained on VHF Channels 16 and 12, range 40 miles. Medium frequency, listening watch on 2182 kc/s., working frequency 2012 kc/s., range 200 miles.

TUGS: Available. Tugs equipped with VHF. Tugs usually secure to vessels entering in vicinity of Frenchman Island. Numbers of tugs normally used are 1 tug for vessels up to 25,000 tons dwt., 2 tugs for vessels up to 45,000 tons dwt., 3 tugs for vessels up to 65,000 dwt. 4 tugs over 65,000 dwt. Unberthing: one tug is normally required for vessels under 25,000 dwt., and two tugs for all other vessels, subject weather conditions.

BERTHING: Marsden Point Oil Berths (2) – operated by the New Zealand Refining Company, Marsden Point. LOA 1,000 ft., maximum draft 50 ft.

Marsden Point Cargo Berth (1), LOA 600 ft., maximum draft 28 ft.

Port Whangarei berths (3), LOA 600 ft., maximum draft 31 ft.

Portland berths (3), bulk cement berth LOA 270 ft., maximum draft 18½ ft.; bagged cement berth LOA 210 ft., maximum draft 12½ ft.; cargo berth LOA 350 ft., maximum draft 18½ ft.

STEVEDORES: Confirmation of arrival time four hours before ETA or revised ETA, whichever is earlier is required. Notice of arrival during a week-end or public holiday must be given not later than 1400 hours on the last working day preceeding arrival.

MEDICAL: Hospital and dental services available.

TANKERS: Are berthed at all hours day and night. Vessels of 30,000 tons dwt. and upwards are usually berthed portside to berth at slack water, and should position ship's gangway 20 ft. upstream of hose connections prior to arrival.

Slop reception facilities are available.

DENSITY: 1025.

FRESH WATER: Available at all berths. If required at the Oil Refinery, supply is limited and arranged by Refinery.

FUEL: Available from berths.

OPENING/CLOSING HATCHES: Usually carried out by stevedores.

CUSTOMS ALLOWANCE: Tobacco: 200 cigarettes or ½ lb. tobacco or 50 cigars permitted each crew member. Wine/spirit: one opened bottle wine/spirits for each crew member.

IDENTIFICATION CARDS: Refinery passes are required when berthed at the Refinery wharves. Passes are brought on board by Agent.

CONSULS: None.

REPAIRS: Most repairs undertaken.

DRY DOCKS: None. One slipway capable of receiving vessels up to 1,500 tons dwt.

REPATRIATION: Facilities exist.

TIME: GMT plus 12 hours. No change.

HOLIDAYS: As for Wellington except Waitangi Day (February 6th), instead of Anniversary Day and Waterside Workers' Picnic Day (second Statutory in December).

POLICE/AMBULANCE/FIRE: Telephone 111 for emergency, and ask for service required.

TELEPHONES: Available at wharves.

SHORE LEAVE: Allowed.

AUTHORITY: Northland Harbour Board, PO Box 141 and 269, Whangarei.

Nicaragua

CORINTO: 12.28 N. 87.11 W.

DOCUMENTS:

Clearance	1 visaed			
Crew List	3	,,	6	unvisaed
Store List	3	,,	6	,,
Passenger List	3	,,	6	,,
Cargo Manifest	3	,,	17	,,
Ballast Manifest	2	,,	6	,,
Health Declaration	—	—	1	,,
Passenger in Transit	—	—	8	,,

Mail List	—	—	9	,,
Bills of Ladings			1 complete set	
Voyage Memorandum	—	—	9	,, sets
No Passenger List	—	—	9	,, ,,
Cargo Tally Books			18 books	

Note: Documents must be legalised at the last port of call before proceeding to Corinto.

PILOTAGE: The Port Authority must receive in writing from Agents advice regarding vessels ETA 72 hours prior to vessels arrival and a confirmation 12 hours. There is no VHF apparatus in use, therefore all advice must be sent through Agents by cable via Balboa or Limon station. Pilotage is compulsory on all vessels exceeding 500 gross registered tons or exceeding 7 ft. draft. Pilot boards 1 mile off Isla de El Cardon.

RESTRICTIONS: The port is open 24 hrs.; however, entry is restricted in accordance with tide and vessels draft. If draft exceeds 24 ft. entry has to be with the high tide. Due allowance should be made for heavy swell if necessary. Speed limit 8 knots in Corinto Bay, and 5 knots in the vicinity of berths or other craft.

MAX. SIZE: Maximum permissible length 650 ft., 80 ft. beam. Draft controlled by depth of water in approach channel and state of swell up to maximum of 29 ft.

HEALTH: After entry and vessel has berthed or anchored, three long blasts are given requesting free pratique; after these blasts the Authorities board the vessel together with the Agent's representative and proceed with distribution of the documentation. In the event of any suspected disease on board, the action to be taken will be given by the Representative of the Health Department. There is no automatic pratique even though vessel is proceeding from another port in the same country.

RADIO: ETA cables are generally routed via NBA Balboa Station or TIM Limon Station, and received through Tropical Radio & Telegraph or All America Cable.

TUGS: Compulsory for berthing and unberthing. The tug joins vessel just after vessel passes Buoy No. 7. Tug's lines are generally used: however, at times ship's lines are used. There is no charge for use of tug's lines.

BERTHING: There is no preferential berthing, and berthing is indicated by the Port Authority. Vessels are attended to in the manner "first come first served".

STEVEDORES: Working hours 0700–1200, 1300–1800, 1900–2330, Monday to Saturday. Outside these times, overtime is charged. The deadline for ordering gangs is 21:30 hours; therefore if a vessel intends working overtime the Port Authority must be advised regarding vessels ETA and number of gangs required prior to ship's arrival.

MEDICAL: There are several doctors in the port and most of the Agents have a particular doctor to their service. Hospital facilities are also available. No particular inoculation is required.

TANKERS: The only tankers which frequent this port are those of Esso Standard, Parcel Tankers and the Athel Line. There is only one tanker berth and each of the above-mentioned companies have their particular load/discharge lines.

The Esso tankers only discharge oils, the Athel tankers load out molasses, the Parcel tankers discharge solvents and occasionally others load out cotton seed oil.

DENSITY: 1025.

FRESH WATER: Fresh water is available and is supplied from connections on the pier, by gravity at a rate of approximately 10 tons per hour.

FUEL: The only fuel available at this port is diesel.

DEVELOPMENTS: Projected installation of bulk handling plant, additional warehouses and extension of pier 1,500 ft. with 2 transit sheds, new administration building, stevedores shed, equipment shed and repair shops; redesigning of range lights and buoys and increasing amount of same, also area for Industrial Park.

GANGWAY/DECK WATCHMEN: After entering, 2 Custom Officers are placed on board all vessels and their meals must be furnished on board.

OPENING/CLOSING HATCHES: If vessel is equipped with regular hatch boards or pontoons, stevedores open and close hatches as well as swing out booms. However, if covers are of the McGregor type or mechanical, the crew has to do the job.

CERTIFICATES: Ship's Registry Certificate is required from ships making their first call at the port.

CUSTOMS ALLOWANCE: There is no limit on tobacco allowance to be held out of Bond but crew members are only permitted to take two packages of 20 cigarettes ashore. Crew not permitted to take any alcohol ashore. Anyone trying to do so will be subjected to heavy fines.

IDENTIFICATION CARDS: All crew members except Officers are requested to submit to the gangway watchman, proper identification with a photograph such as seaman book or passport.

CONSULS:

Denmark	Costa Rica
France	Panama
Mexico	Colombia
El Salvador	Venezuela
Guatemala	Ecuador

REPAIRS: There are no repair shops available only for minor welding jobs.

AIRPORT: The airport is approximately 160 kilometres from the port and served by regular airlines with daily flights.

REPATRIATION: Yes, repatriation can be effected.

TIME: Local time is Central Standard Time, GMT minus 6 hours. There are no alterations during the year.

HOLIDAYS: January 1st; Holy Thursday; Good Friday; 1st & 3rd May; 14th & 15th September; October 12th; December 25th. Cargo work can be arranged on these days.

POLICE/AMBULANCE/FIRE: Police 269; Ambulance 313; Fire 421.

SHORE LEAVE: Crew members are allowed shore leave.

AUTHORITY: Autoridad Portuaria de Corinto, Apartado Postal No. 11, Corinto, Nicaragua, C.A. Tel. 211/215. Telex 27. Cable Address: Portuaria.

PUERTO CABEZAS: 14.01 N. 83.23 W.

DOCUMENTS:

1 Clearance from Last Port.
10 Voyage Memorandums.
11 Crew Lists.
10 Passenger Lists.
10 Stores Lists.
1 Bill of Health.
12 Ballast Manifests.
13 Manifests of Cargo.
4 Bills of Lading.
10 sets Tally Books.

PILOTAGE: ETA required 24 hours before arrival at the port. The Pilot uses a boat with an outboard motor and boards about one mile off the port. Agent advises the Pilot the date of arrival, he goes out when he sees vessel.

ANCHORAGE: Vessels can anchor about half mile South of the wharf. Depths in anchorage 20–22 ft.

MAX. SIZE: Maximum length, 400 ft. Draft 19 ft. 6 in. Difference between high and low tide is 18 in.

HEALTH: The inspection takes place on arrival. It is not necessary when the vessel comes from some other port in Nicaragua.

RADIO: The Nipco has a radiophone for personal use, but they make contacts with vessels. The frequency is 2738. It is better to use or send radiogram via Radio Tropical in Managua.

TUGS: There is no tug service.

BERTHING: There is wreck in front of the wharf. The location is: 14° 0′ 57″ North, 82° 22′ 4″ West, 1,200 yd. from wharf end.

STEVEDORES: The Agent advises stevedores arrival of vessel. They discharge 8 tons of general cargo each hatch (one gang) per hour.

MEDICAL: Not necessary to advise the need of a doctor, only for emergencies. One hospital and two other doctors, apart from the official doctor of the port.

TANKERS: There are two pipes of 6 in. diameter on the wharf. There is no special berth for oil tankers.

DENSITY: 1025.

FRESH WATER: The fresh water is carried to the wharf by truck or from one pipe on the wharf. The boiler water gets to the vessel by the pipe on the wharf.

FUEL: Gasoline, diesel oil and lubricants are supplied by Texaco. Arrangements are made at the arrival of the vessel.

DEVELOPMENTS: A hydrographic survey is being performed in the port zone and surrounding area to establish the best place for future port facilities or whether expansion should be made to the existing port. This survey is being effected in view of projected installation of paper and pulp industry and forthcoming development of agricultural and mineral products which could be exported through the port.

WATCHMEN: It is not obligatory. It is customary to have two custom guards in the gangway.

OPENING/CLOSING HATCHES: The opening and closing of hatches is done together by the crew of the vessel and the stevedores.

CUSTOMS ALLOWANCES: Each of the crew can take 2 packs of cigarettes with the seal broken, and one bottle of wine or liquor opened.

IDENTIFICATION CARDS: Not needed, just passport or seaman's book.

CONSULS: Only consul of Panama available locally.

REPAIRS: Minor repairs only can be effected.

REPATRIATION: It is possible and only a passport needed. Necessary to go to the capital by air, thence to any part of the world.

AIRPORT: Distance of airport from wharf is about 2 kilometres. Service every day to the capital except Sundays and holidays. The name of the only airline is Lineas Aereas de Nicaragua (Lanica).

TIME: Local time is Central Standard Time, GMT minus 6 hours.

HOLIDAYS: Holidays are 1st January; Holy Thursday; Good Friday; 1st May; 14th July; 14th and 15th of September; 12th October and the 25th December.

SHORE LEAVES: The crew is allowed to go ashore after the vessel is received by the Authorities.

DELAYS: Delays in berthing can be expected from bad weather.

AUTHORITY: Autoridad Portuaria de Puerto Cabezas.

PUERTO SOMOZA: 12.12 N. 86.46 W.

DOCUMENTS:

Clearance from previous Port.
6 copies Voyage Memorandum.
6 Stores Lists.
6 Passenger Lists or negative declaration, 3 to be visaed.

6 Crew Lists.
8 Cargo Manifests, 3 to be visaed.
8 Tally books.
6 Lists of Mail, Explosives or Drugs if carried.

Nine crew lists and six store lists should be despatched by the Nicaragua Consul at loading port if possible, otherwise they are forwarded by Agents from the Panama Canal.

PILOTAGE: Optional by local Pilots. Leading lights are installed, at the entrance to the port, prominently sited on a hill. Several buoys indicate exact anchorage positions.

Tannkers: A Pilot is provided by the oil company in agreement with the Panama Canal Authority. Pilot boards about half a mile West of the sea berth.

ANCHORAGE: About one and three quarter miles off port entrance, depth is 30 ft. at low water, and about 45 ft. at high water.

RESTRICTIONS: Port is open day and night without exception.

MAX SIZE: Tankers at Sea Line Terminal up to 850 ft. length and 41 ft. draft.

HEALTH: Port Health inspector boards all vessels on arrival.

RADIO: There is a radiotelephone installation at the Customs office. No VHF.

TUGS: Not available for manoeuvring vessels. Five small tugs employed for shifting lighters.

BERTHING: No quays for ocean-going vessels. Vessels work cargo to lighters at the anchorage.

STEVEDORES: Port has four gangs of forty men each for boarding vessels.

TANKERS: *Sealine Terminal.* The sea berth is situated in approximate location 12° 10′ N. 86° 49′ W., about two miles off shore in a depth of 47 ft. There are five mooring buoys, two at the bows and three at the stern of the vessel. The first lines to the buoys should each consist of two good ropes lashed end to end to effect the length required. Five lines are normally used at each end of the vessel.

Strong winds may delay berthing or cause vessel to vacate the berth once moored. Sailing at night is not recommended for safety reasons. The discharge hose is lifted on the port side by ship's crew.

MEDICAL: Doctor available in case of emergency. Nearest hospital at Leon, 35 km. away.

FRESH WATER: Not available for supply to ships.

FUEL: Not available for supply to ships.

OPENING/CLOSING HATCHES: Normally performed by stevedores. Mechanically operated hatches are opened by ship's crew.

CUSTOMS ALLOWANCES: Each crewman allowed two packets of cigarettes. No wine/spirits allowed to be taken ashore.

IDENTIFICATION CARDS: Seaman's Book required for going ashore.

CONSULS: Nearest at Leon, 35 km. distant.

REPAIRS: Small items for repair can be sent to Leon, 35 km. away.

REPATRIATION: No facilities for crew changes. If crew member left behind, Agents are responsible for his repatriation at vessel's expense.

AIRPORT: Las Mercedes international airport at Managua, 75 km. away.

TIME: Central standard time, GMT minus 6 hours. No alterations.

HOLIDAYS: All holidays can be worked.

POLICE/FIRE/AMBULANCE: Police available locally. Nearest fire and ambulance stations are at Leon, 35 km. away.

AUTHORITY: Administracion de Aduana. Puerto Somoza.

Nigeria

BONNY: 04.25 N. 07.13 E.

DOCUMENTS:
9 Crew Lists.
9 Passengers Lists.
6 Arms and Ammunition Lists.
6 Livestock Lists.
7 Ports of Call Lists.
2 Bonded Store List.
3 Vaccination Lists.
10 Manifests.
2 Bills of Lading.
2 Crew Declaration (Special List).

PILOTAGE: Pilot station at Bonny, 15 miles from Fairway Buoy. Harbour Master listening on VHF Channels 14 and 16 as well as 2182 kHz from 0700 to 1800 hours. Pilot boards at Fairway Buoy, pilot cutter green hull, stone colour superstructure. Pilot ladder with manropes essential. Shell/BP Terminal listening on VHF Channel 14, call "Tankfarm".

Position of Fairway Buoy 4° 12′ 56″ N. 7° 00′ 28″ E.

ANCHORAGES: West of Fairway Buoy: depth 8–9 fathoms.

RESTRICTIONS: Berthing now allowed by day or night. Sailing is restricted by a depth of 37 ft. 6 in. in the channel. The height of tide is 3–6 ft., but local pilots require an under-keel clearance of 2 ft. 6 in. to 4 ft. depending on seasonal weather conditions. At the berth the water depth is over 48 ft., density about 1015.

MAX SIZE: Max. length 1060 ft., beam no restriction, draft up to about 39 ft. depending on tide and keel clearance.

HEALTH: Q-flag to be shown on arrival, except if from another Nigerian port, Yellow fever and small-pox inoculations compulsory. In case of suspected disease on board, advance notice to Agent advisory.

RADIO: Lagos Radio.

TUGS: Not available.

BERTHING: Four buoy berths for tankers. No slop discharge facilities.

Vessels berth on flood tide using the starboard anchor. 5 in. wires are taken from three buoys aft and two forward. The port derrick must be used for hose handling. An accommodation ladder is required on the port side.

Crude oil is loaded via 32-in. submarine line with two 12 in. hose connections to the ship. Loading rates up to 6,500 tph.

MEDICAL: No hospital at Bonny, nearest at Port Harcourt.

DENSITY: Channel 1020; berth 1015.

FRESH WATER: Available by barge at rate of 15 tons per hour. 48 hours advance notice required as barge comes from Port Harcourt.

FUEL: Available only by barge from Port Harcourt.

CUSTOMS ALLOWANCES: 200 cigarettes per man per 7 days. 1 wine or 1 btl spirit per officer per 7 days.

IDENTIFICATION CARDS: Crew to carry passport or seaman's book whilst ashore.

CONSULS: Nil.

REPAIRS: Nil.

REPATRIATION: Possible via Port Harcourt and Lagos.

AIRPORT: 28 miles by river, to Port Harcourt, then 7 miles by road, twice daily to Lagos, no international flights.

TIME: GMT plus 1, no change.

POLICE/AMBULANCE/FIRE: Contact Via Harbour Master or Shell/BP, VHF 14 or 16.

SHORE LEAVE: No restrictions.

SPECIAL PRECAUTIONS: Masters are recommended to maintain extra watches by ships personnel to prevent pilfering. Masters should pay particular attention to any special instructions advised by the Agents.

Topping off cargo outside the channel. Terminal operations will advise procedure if required.

AUTHORITY: Nigerian Ports Authority.

AGENT: Scanship (Nigeria) Ltd., 26 Creek Road Apapa. POB 266, Apapa. Tel. 47 776/9. Telex 21 244. Cables: "Scanship Lagos".

BURUTU (incl. Warri): 05.21 N. 05.31 E.

DOCUMENTS:
7 Ports of Call Lists.
5 Crew Lists.
5 Kroo boy Lists.
2 Animal Lists.
2 Arms and Ammunition Lists.
9 Manifests.
2 Summaries.
1 extra Manifest for transshipment cargo.
3 Stores Lists.
2 Crew Declarations.
2 Inward Reports.
2 NPA Master's Declaration.
2 NPA ship's particulars.
1 Customs Clearance.
1 Declaration of Health.
1 Vaccination List.

PILOTAGE: No compulsory pilotage, local pilots or rather river guides, available at Escravos. No communication is possible with these guides from Burutu.

ANCHORAGES: One anchorage known as "the pool", opposite Okorodudu Town; maximum draft for pool anchorage 14 ft. MLWS. Further anchorage at Forcados for vessels waiting to proceed to Burutu or Warri.

MAX. SIZE: Restricted only by draft. Official depth 21 ft. MLWS, governed by actual depth on Escravos bar which does vary from time to time. Latest information always available from Nigerian Ports Authority, Lagos.

HEALTH: International pratique regulations prevail. Pratique *not* necessary when coming from another port in Nigeria.

RADIO: Station, Port Burutu. Watch kept from 0730–1200, 1400–1700 on week-days and 0730–1200 on Saturdays on 2182 kc/s R/T and channel 16 VHF.

TUGS: No tugs available.

BERTHING: No specific requirements to berthing. Berth number is hoisted on flagpole situated on No 4 berth. Ships berthed in order of arrival.

Warri		*length*	*draft*
1	Buoys Fore and Aft	525 ft.	21 ft.
2	Buoys Fore and Aft	525 ft.	21 ft.
3	Single Buoy	No limit	21 ft.
4	Holt's Wharf Private	525 ft.	21 ft.

Burutu

Two vessels normally berth alongside the wharves. The main wharf being some 750 feet in length and a smaller wharf of some 300 feet. There is plenty of water alongside these berths and the depth that a vessel can load to is controlled by the Burutu flats which is 13 feet.

STEVEDORES: Advice given on radio during transit Escravos–Burutu is quite adequate. Normal rates approximately 13/15 ton per hook hour.

MEDICAL: Fully equipped hospital under supervision of resident European medical officer situated at Burutu.
TANKERS: Only small coastal tankers use Burutu to periodically replenish bulk tanks, which have capacity for 1,800 tons gas oil and 900 tons fuel oil, used primarily for consumption by local vessels.
DENSITY: Fresh water.
FRESH WATER: Limited amount available in wet season from shore line at rate of 4 tons per hour.
FUEL: No fuel available.
FIRE PRECAUTIONS: Small fire station situated in port area. No specific fire precautions required.
GANGWAY/DECK WATCHMEN: Considered advisable have gangway/deck watchmen.
OPENING/CLOSING HATCHES: Normally carried out by stevedores, except in ships fitted with Mcgregor hatches.
TOBACCO/WINE ALLOWANCE: 200 cigarettes; part bottle.
IDENTIFICATION CARDS: Either discharge books, or passports advisable.
CONSULS: No consulates at Burutu.
REPAIRS: Dockyard has four slipways which can accommodate most creek and river vessels up to tonnage of 600 tons. Management of dockyard in hands of qualified European engineers who are able carry out afloat, hull and/or machinery surveys as required. Limited deck, hull and engine repairs can be carried out.
REPATRIATION: Facilities exist for individuals but not for crew changes.
AIRPORT: Small airstrip one and a half hours away by launch, where daily scheduled flights by small twin-engined aircraft operate to Lagos.
TIME: GMT plus 1.
HOLIDAYS: January 1/2, March 9/10, April 12/15, June 8, October 1, December 25/26. Cargo may be worked on all these holidays except Christmas Day.
POLICE/AMBULANCE/FIRE: No telephone numbers – all these services available in port area.
TELEPHONES: Facility available for connecting telephones on board.
SHORE LEAVE: Crew members allowed ashore.
PORT AUTHORITY: Nigerian Ports Authority, Burutu.
AGENT: Scanship (Nigeria) Ltd. 9 Roberts Road, POB 374, Warri. Tel. Warri 341. Telex via Lagos 21.244.

CALABAR: 04.57 N. 08.27 E.

Situated on right bank of Calabar River, 42 miles from sea.
DOCUMENTS, and all general information, refer to "Lagos".
PILOTAGE: Not compulsory, but the services of the Harbour Master can be requested for pilotage duties.
MAX. SIZE: The maximum recommended draft for vessels using the port of Calabar is 19 ft. 6 in., which is, at present, governed by a depth of water on Duke Town Crossing of 12 ft.
BERTHING:
(*a*) Pool Anchorage, 3 ocean going vessels.
(*b*) Millerio Wharf, 1 ocean going vessel.
(*c*) Cement Wharf, 1 ocean going vessel.
(*d*) Ivy Wharf, 1 coaster vessel. This wharf has been damaged seriously and is not in use at present.
Moorings: One mooring berth is available for main line ships Pilot Service.
AIRPORT: At Calabar.
AUTHORITY: Nigerian Ports Authority.

ESCRAVOS: 05.30 N. 05.00 E.

DOCUMENTS: Required and brought out by Pilot:
4 Nigerian Ports Authority/Masters Declaration.
2 Customs and Excise (Form C 13).
4 Ship's Report (Gulf) } on behalf of Agent.
2 Requests for Service }
The sailing clearance will be completed after B/L figure of cargo loaded is available, and will be delivered to the ship before sailing.
NAVIGATION AIDS: Berth Operations Platform is a conspicuous steel structure 85 ft. high and is approx. 1 mile from Berth No. 2, between the berth and the shore. On top of this structure is a heliport, which at night is surrounded by red lights. In the event of a power failure a green intermittent light will be shown from one corner of the seaward side of the platform.
A RACON reflector is mounted on this platform for easy identification of the Gulf Sea loading area. Radar transmission from the incoming vessel triggers the RACON Unit which responds with the Morse Code letter "G" (– – .), followed by a solid tail. This signal is observed visually on the ship's radar screen and appears very close to the point where the radar echo of the berth operations platform itself should appear.
ANCHORAGE: Vessels required to anchor on arrival will anchor in position approx. 3 miles West-North-Westward of the berth operations platform, i.e. in a position Lat. 05° 31′ 00″ N., Long. 04° 57′ 30″ E., or as otherwise instructed.
On approaching the terminal, VHF contact can be established with the Mooring Master on Channel 16 and the vessel will be advised of which berth has been nominated for her cargo. At the same time, the vessel will be advised where the Mooring Master will board. In cases where VHF contact is not made, the vessels will remain in the anchorage area until such time as contact is made by radio or the pilot boat. Vessels are advised to anchor only in the stated area due to the existence of submarine pipe-lines in other areas.
Anchorage is forbidden in the mooring area.
RESTRICTIONS: Mooring and unmooring operations will be undertaken by day and by night under normal weather conditions.
Notice of Readiness will be accepted by the Company representative on arrival providing that the ship is in all respects ready to load.
MAX. SIZE: The Escravos Terminal consists of two Single Buoy Mooring Berths Nos. 2 and 3 only, the conventional Sea Berth (Berth No. 1) having now been de-commissioned.
The location of the Sea Terminal Berth No. 2 (SBM) for vessels up to 100,000 dwt is off the North of the Escravos River in a position Lat. 5° 30′ 37″ N., Long. 4° 59′ 25″ E., and has a minimum depth of water of 72 ft. at LWS.
Berth No. 3 (SBM) for 350,000 dwt, vessels is situated 4·25 miles West-South-Westward of No. 2 berth in a position Lat. 5° 29′ 29″ N., Long. 4° 55′ 54″ E., and has a minimum depth of 105 ft. at LWS.
RADIO: Vessels bound for Escravos must advise their ETA to Gocon, Lagos, 72 hours and 24 hours before arrival – the message to contain the vessel's name, ETA, Master's name. A 24-hour watch is maintained on VHF Channel 16, in the Senior Mooring Master's Office, and ships are usually able to make contact on this Channel at a distance of 20 to 30 miles on the seaward side of the Berth Operations Platform. Channel 10 is used for internal traffic and ship berthing operations.
MOORING: Before arrival at the pilot boarding area, it will be necessary to ensure that the following moorings are ready for use on arrival at the berths:
Four mooring ropes – buoyant lines if possible, e.g. polypropylene, on the forecastle head.
A mooring line must be available aft, secured to the bitts and of sufficient length to enable a tug-boat to pick up the eye and two on it to realign the vessel if necessary. If available, a buoyant line is also preferred in this position.
CARGO: Nigerian Light Crude – API 36° approx. Temperature 85° F. (fairly steady throughout the year).
HOSES: Lifting, connecting, disconnecting, lowering and other handling of hoses will be performed by the ship's crew, as advised by the Company representative, and where possible the Company will provide a pipe-line gang to assist the ship's crew. At all times handling of hoses will be performed by the ship's crew, as advised a deck officer must be in attendance.
Both derricks must be rigged and ready for use on arrival and vessels are cautioned that the weight of each hose is at least 3 tons under favourable conditions. Where possible, it is requested that the derrick runner is on one winch and the topping lift on another, as this will make the hose-handling operation much smoother and faster. In any case, members of the ship's crew will be required to operate the winch or winches.
BALLAST: Vessels proceeding to Escravos to load must arrive with sufficient clean ballast for safe manoeuvring. A vessel arriving with dirty ballast will incur costly delays as it is not permitted to discharge dirty ballast to the sea. The "load on top" system is accepted at this port and vessels are requested to arrive with the slop tank "settled out" as far as possible, and so avoid any chance of pollution of the terminal waters from this particular tank.
The Nigerian Government has very strong views on pollution and vessels are warned that a very careful watch is kept at all times to ensure that pollution does not take place, or that if pollution should occur it is controlled as quickly as possible. Masters are advised that it is against the law to pollute the waters, and the coast of this country and severe penalties are imposed for such offences.
In order to reduce the turn around time at this terminal, but with close attention to safety, vessels will be permitted to load cargo and discharge ballast simultaneously provided that no contamination of cargo or pollution of the sea can occur. Vessels desirous of adopting this method of loading can do so but will be required to advise the company in writing, stating that the vessel accepts full responsibility if this method of loading results in contamination of cargo and/or pollution of the terminal waters.
REPAIRS: No facilities of any kind are available at this port. Under no circumstances are engine repairs or the immobilisation of main engines permitted within the port limits.
REPATRIATION: Not permitted except in grave emergency and then only if the person concerned holds all the necessary valid certificates and documents, e.g. valid Smallpox, Cholera and Yellow Fever Certificates.
TIME: Local time is GMT plus one hour throughout the year.
SHORE LEAVE: In view of the isolated positions of the buoy moorings (approx. 15 and 19 miles from the shore) Masters are strongly advised not to grant shore leave. The weather and swell conditions could result in persons being injured either embarking or disembarking from the vessel, and in addition the boat journey will take approx. 2–2½ hours. Should the weather deteriorate, it could mean delay to the vessel as outward clearance would not be granted until all the crew were on board the vessel. As the terminal does not own any suitable boats, it would be necessary for the vessel to charter one for shore leave purposes.
In view of the foregoing, the terminal does not recommend shore leave being granted.
AUTHORITY: Gulf Oil Company (Nigeria) Limited, Private Mail Bag 2469, Lagos, Nigeria. Cables: GOCON – LAGOS.

FORCADOS: 05.22 N. 05.26 E.

DOCUMENTS:
Last Port Clearance.
Ship's Register.
4 Copies Crew List.
3 copies Vaccination and Innoculation List (Smallpox/Yellow Fever).
2 copies Passenger Lists.
3 copies Stores List (Company printed form).
2 copies Arms and Ammunition Lists.
2 copies Livestock List.
3 copies List of Ports of Call during previous six weeks.
2 copies Crew Manifest.
Other documents (printed forms) will be presented for signing by the boarding party.

APPROACHES: An efficient sounding machine and a high definition radar will assist in making the terminal for the first time. A heavy cluster of radar echoes from the Escravos area may be recorded on passing the 100-fathom line. On making the 20-fathom line, it is reported that the coastline from North Point to Moore Point and from South Point to Ajamabri shows on the radar screen with good chart comparison.

Once the vessel's position is ascertained and the course for Forcados adopted, the first and most obvious sighting, at night, will be that of the control tower, which is marked with numerous fixed lights at several levels. The control tower, which also serves as a helicopter platform, is in close proximity to the two SBM's.

PILOTAGE: Pilot can be contacted by VHF, call sign "Forcados Pilot", calling Channel 16, working Channel 14. The Pilot/Loading Master boards about 2 miles to the seaward of the berths. The pilot launch also brings equipment for connecting moorings and hoses.

RESTRICTIONS: Vessels berth at any state of tide, night or day.

MAX. SIZE: Maximum length overall, 1,100 ft. Maximum draft, 65 ft. Maximum summer dwt, 250,000 tons. This allows 7 ft. under-keel clearance in the channel and 10 ft. under-keel clearance at the berth.

PRATIQUE: Health and Customs Officers board at a convenient hour and come from Forcados, 20 miles distant from the buoys. Normally travel by high-speed launch, but may occasionally use helicopter.

RADIO: ETA to be given via Lagos Radio, 72 hours before arrival.

TUGS: No tugs required and none available.

BERTHS: Vessel moors at one of two single-buoy moorings, situated about 20 miles offshore. Berthing area at each SBM is a circle of 3,500 ft. radius from the buoy.

MOORING: Ship required to have ready upon arrival: Port derrick topped and doubled up, a 75-fathom 3 or 3½ in. messenger on fo'c'sle head, and accommodation ladder, rigged on starboard side with pilot ladder at foot.

On approaching the SBM, the ship's messenger will be attached to the port SBM mooring line first, which is a 10-in. polypropylene. The full length of the 10-in. line is heaved aboard until a monkey face and short length of 1-in. studded chain comes up to the ship's roller fairlead. With the shackle provided, the monkey face is shackled to the 4-in. wire snotter, one end of which is turned up on the bitts. The studded chain is kept in the roller fairlead to avoid chafing. Outboard of the chain and secured to the buoy is a 14-in. nylon cable The same procedure then follows for the starboard mooring line.

HOSES: The two 16-in. hoses are of the buoyant type, which on being raised and hung off are connected to the ship's manifold amidships by means of the sixteen 12-inch reducers provided. Hose connecting is carried out by ship personnel under the supervision of the loading master.

Vessel's derrick capacity required to be at least 7 tons.

LOADING: Maximum loading rate 9,000 tons per hour. Sample specification of Nigerian crude oil as loaded, SG 0·8720 at 60° F.

BALLAST: No facilities for disposal of slops or dirty ballast. Vessel must arrive with clean ballast only.

MEDICAL: No facilities for medical attendance but assistance may be given only on an emergency basis.

FUEL: Not available.

FRESH WATER: Not available.

TERMINAL OPERATOR: Shell Nigeria Limited.

LAGOS (including Apapa): 06·27 N. 03·25 E.

DOCUMENTS: See Burutu.

PILOTAGE: Compulsory. Hoist "G" flag. Agent to give notice of ETA to Harbour Master as early as possible. Contact Pilot by VHF Channel 16. No pilot boat stationed outside.

ANCHORAGES:

	Length	*Draft*
Pool 1	480 ft.	24 ft.
Pool 2	600 ft.	28 ft.
Pool 3	450 ft.	26 ft.
Pool 4	450 ft.	26 ft.
Pool Buoy 5	320 ft.	18 ft.
Badagry Creek	380 ft.	16 ft.

RESTRICTIONS: Draft only.

MAX. SIZE:

	Length	*Draft*
Marina Buoys	750 ft.	24 ft.
Container Berth	720 ft.	27 ft.
Pool	600 ft.	28 ft.
APQs	600 ft.	27 ft.
Customs	520 ft.	23 ft.
PWA	580 ft.	25 ft.
BOP	500 ft.	26 ft.
Ijora	420 ft.	19 ft. 6 in.

HEALTH: Port Health Officer boards vessel on arrival. ETAs must be advised by ship or Agent direct to Port Health. Pratique automatic when from Nigerian port.

RADIO: Messages routed through Lagos Radio.

Continuous VHF watch on Channel 16 maintained in Harbour Master's office. Contact Signal Station by VHF Channel 16.

TUGS: No specific joining position, depending on tide and on Pilot's request, otherwise close to berth. Normally tug's line used. 2 tugs available 1,280 HP. 24 hour service available.

BERTHING: Cargo for Apapa and Lagos should be stowed separately on all liner ships as the Apapa wharves have rail connections to the North, and the customs wharf only receives cargo for Lagos locally.

No specific arrival time is required for berths, except for Petroleum Wharf where tankers need high water. Berthing on ebb tide required for Fish Wharf and Ikjora Wharf.

There are three berths at the Customs Jetty, 1, 2 and 3. The depths alongside are 22 ft. 6 in.; 21 ft. 6 in.; 19 ft. 6 in. respectively. Each berth can accommodate a vessel of maximum 500 ft. in length.

Lighter Berth, length 380 ft., draft 16 ft.
Fish Wharf, length 280 ft., draft 19 ft.
Marina Dolphin, length 250 ft., draft 19 ft.
Iddo Pool Buoy No. 1, length 300 ft., draft 15 ft.
Iddo Pool Buoy No. 2, for naval vessels.
Iddo Pool Buoy No. 3, for naval vessels.
Iddo Pool Buoy No. 4, length 400 ft., draft 17 ft.

STEVEDORES: Available.

MEDICAL: Agents to be given advance notice of medical attention required as early as possible. Hospital facilities available. International Certificates of smallpox and yellow fever required.

TANKERS: Length 580 ft. Draft 25 ft. (FW).

DENSITY: 1012.

FRESH WATER: Delivery by barges at between 20 to 40 tons per hour. Advance notification needed.

FUEL: Fuel oil available, coal bunkers obtained from Ijora Wharf.

FIRE PRECAUTIONS: Tankers and vessels with explosives: fire-boat always in attendance with fire-control depot ashore working in conjunction with the Harbour Master on VHF Channel 16. Port area tugboats also equipped for fire fighting.

GANGWAY/DECK WATCHMEN: Advisable, available if required.

OPENING/CLOSING HATCHES: Stevedores/crew.

CUSTOMS ALLOWANCES: Tobacco allowance: 200 cigarettes per person reissue after 8 days. Wine/Spirit: One part bottle reissue to officers after 4 days.

IDENTIFICATION CARDS: Passports or identity cards.

CONSULS: Most countries maintain Embassies/High Commissions or Consuls.

REPAIRS: Major repairs available.

DRY DOCKS: Authority maintains large well-equipped dockyard which primarily for maintenance of Authority's own fleet, provides facilities to commercial interest. In installation is modern floating dock which has lifting capacity of 4,000 tons. Max. draft 18 ft. Slipways also available for use of small craft.

In addition to facilities offered by Authority's dockyard, major shipping agencies in port maintain dockyard installations, including slipways for raking smaller vessels and lighters; can provide first-aid repair for main line vessels.

REPATRIATION: Facilities available for effecting crew changes and arranging any necessary repatriations.

AIRPORT: 8 miles from harbour, served by regular airlines.

TIME: GMT plus 1 hour.

HOLIDAYS: Fixed: New Year Day (1st January); National Day (1st October); Christmas Day (25th December); Boxing Day (26th December). Variable: Good Friday; Easter Monday; Eid-El-Fitir Festival; Eid-El-Kebir Festival; Maolud Nabiyyi (Mohammed's Birthday).

POLICE/AMBULANCE/FIRE: Police Apapa 45798, Lagos Custom 20030; Ambulance Apapa 41341/227; Fire Apapa 41741, Lagos Custom 20777, General Emergencies 199.

TELEPHONES: No arrangements for telephones on board.

GENERAL: 2 floating cranes 1×50 ton capacity, 1×100 ton capacity.

SERVICES: Small services available.

SHORE LEAVE: Crew members allowed ashore after clearance by Port Health and Immigration Authorities.

PORT AUTHORITY: Nigerian Ports Authority, 26–28 Marina, PMB 12588, Lagos. Tel. 26471.

AGENT: Scanship (Nigeria) Ltd., 38 Warehouse Rd., Apapa. POB 266, Apapa. Tel. 47 776/9. Telex. 21 244. Cables: "Scanship Lagos".

PENNINGTON TERMINAL: 04.37 N. 05.26 E.

All vessels required fly Nigerian Ensign on foremast during daylight hours.

OPERATORS: Texaco Overseas (Nigeria) Petroleum Company.

LOCATION: Pennington Marine Terminal located in 65 ft. of water in latitude 4° 37′ 20″ N., longitude 5° 26′ 10″ E., bearing approximately 210°, distance 5,300 ft. from "Special Purpose Vessel 367001" (which has been fabricated from the forebodies of two tank vessels, and is approximately 740 ft. in length).

APPROACHES: The berth should be approached from a Westerly direction to a point not less than 2 miles seaward of "Special Purpose Vessel". At this location, Mooring Master will board vessel.

DOCUMENTS: Following documents required on arrival:
Last Port Clearance.

Register.
4 copies Passenger Manifests.
4 copies Crew Lists.
2 copies Stores Lists.
2 copies Bonded Stores Lists.
2 copies Arms and Ammunition List.
2 copies Livestock List.
1 copy Vaccination List, showing date of last smallpox and yellow fever inoculations of all crew members.
2 copies of Master's Declaration to Nigerian Ports Authority.
These forms will be supplied when Authorities board the ship.

PILOTAGE (see "Approaches"): Mooring Master, together with Custom Officials will board incoming vessel about two miles seaward of the "SPV 367001". Vessel's Master will be advised on approach to the berth details in respect of mooring, unmooring, connecting and disconnecting hoses, and all other operations within the berthing area.

Vessels requested to have pilot ladder safely and securely rigged for immediate use, and long enough to reach Mooring Master's launch. A light line should be ready to take on board the Mooring Master's radio and/or briefcase.

Mooring Master will remain on board during loading operations and he will be in direct control of all ship communications while in Terminal area.

TUGS: 3,200 h.p. tugboat and a mooring launch to assist in mooring and unmooring. A flat charge is made for use of tugboat and mooring launch.

MAX. SIZE: Maximum draft approximately 45 ft. depending on sea conditions. Maximum capacity 50,000 dwt.

RADIO: All vessels to be loaded at the Terminal must cable ETA to "Topcon, Lagos", 96 hours and 24 hours prior arrival. The Company, Lagos, will then notify Senior Mooring Master on board Special Purpose Vessel.

Ship to "SPV 367001" communication, while ships are in mooring, will be by portable VHF radio-telephone units, provided by Terminal. Mooring Master will advise ship's Master regarding emergency whistle signals set up for use in event radio-telephone units become inoperative. Use of ship's radio station and/or battery charging is prohibited while loading is in progress.

READINESS: The Company will make every effort to load vessels upon arrival, or as promptly as berth is available, weather permitting.

"Notice of Readiness" will be accepted as at time of arrival, provided vessel is in all respects ready to load. Arrival time will be considered as at time Mooring Master boards vessel, or time vessel anchors off the terminal, which ever occurs first.

Mooring Master may reject a vessel if in his judgment she is not properly equipped or suitably manned, or if, upon inspection, he deems her to have dirty ballast or tanks unsuitable for cargo. However, Company will not issue any certificate or representation purporting to state that vessel's tanks, pipes and pumps and appurtenances are clean or acceptable for receiving cargo nor will the company assume any responsibility for "contamination of cargo aboard ship caused by condition of ship's tanks, pipes, pumps or appurtenances."

Vessels shall have in readiness:

1. Windlass and both bower anchors, each with not less than 150 fathoms of chain.
2. At least 14 good mooring lines, each no less than 120 fathoms in length, with eyes and tailropes spliced into each end.
3. Suitable stoppers for all manila lines and chain stoppers for use with wires.

Vessels must be adequately equipped with blocks, tackle and booms to hoist submarine hoses, a 5-ton lift from seabed to ship's rail, in a safe, efficient and expeditious manner. Vessels must also have an adequate supply of nuts, bolts, gaskets and wrenches to connect cargo hoses.

BALLAST: ABSOLUTELY NO PROVISION IS MADE FOR DIRTY BALLAST. VESSELS WITH DIRTY BALLAST WILL BE REJECTED AND ALL COSTS THEREFROM WILL BE TO THE VESSEL'S ACCOUNT.

As soon as practicable after arrival, and prior acceptance for loading, all vessel's tanks will be inspected for evidence of oil in ballast, and during discharge of ballast, similar inspections will continue. If evidence of oil appears at these inspections, the vessel may have to vacate berth and proceed to sea to dispose of oil ballast. Upon return, vessel will be obliged to tender new "Notice of Readiness".

If, during first inspection or during progress of loading it is revealed that vessel's tanks are not oil-tight, she will be rejected, or refused further loading.

In addition to lights usually displayed, vessels discharging ballast or loading cargo during darkness will illuminate area around the ship to satisfaction of Mooring Master, in order that any oil on the surface of sea may readily be detected and appropriate action taken. Vessels unable to illuminate sea satisfactorily may not discharge ballast during darkness. Vessels should provide suitable floodlights for working on deck during night operations.

Vessels properly equipped will be encouraged to discharge clean ballast and load simultaneously.

MOORING: Weather and other circumstances permitting, vessels are moored, loaded and unmoored during daylight hours only.

Signals displayed on Special Purpose Vessel:

(*a*) By day, on offshore end of vessel, three shapes in vertical line; the upper and lower shapes globular and red; the middle shape diamond and white.

(*b*) By night, three lights in vertical line; the upper and lower in red; the middle white.

The permanent mooring consists of 7 steel buoys. All buoys fitted with quick-release hook to which vessel's mooring lines are attached by Company Mooring launch. Berth is laid out so that vessels will head 210° true when moored. Vessels mooring use both bower anchors and 14 ropes to respective mooring buoys.

Each buoy is fitted with $1\frac{3}{4}$-in. diameter preventer wire, one end of which is secured to mooring buoy. When Mooring Master considers it required, the other end is brought on board vessel after moored in position. Preventer wires are supplemental to vessel's regular mooring lines and intended assist holding vessel in moorings during adverse conditions. Vessels should have chain stoppers for handling these wires.

All manoeuvring within loading berth area is to be done only in accordance with advice of Company Mooring Masters, subject to understanding that in all cases and circumstances Master of vessel being manoeuvred shall remain solely responsible for safety and proper manoeuvring. Vessel's Master or a qualified Deck Officer must be on bridge at all times during manoeuvring.

Winds and swells mostly from South-westerly direction. From March through November, the unfavourable weather period, extra mooring lines will be required. Currents are irregular and at times strong, and Mooring Master will provide Master with this information when boarding.

LOADING: During loading, the International Code Flag "B" shall be displayed from top-mast signal halyard during daylight hours. During hours of darkness, a red light shall be displayed, visible at a distance of at least one mile, and showing unbroken light all around the horizon.

Raising, connecting, disconnecting and lowering of submarine hoses will be performed by vessel's crew under direction and supervision of an appropriate vessel's Officer as advised by the Mooring Master, who will remain on board while the vessel is in moorings.

After vessel securely moored, two 12-in. submarine loading hoses will be lifted to rail amidships. Weight of each lift approximately 5 tons. Hoses lifted with vessel's gear on port side. Mooring Master advises vessel's personnel in the lifting, connecting, disconnecting and also when lowering the hoses, when mooring launch may be used to avoid bends or kinks in the hoses. A vessel's Deck Officer must be present, and direct the crew in all hose handling. There must be sufficient crew on deck to perform this work.

Master is responsible for own vessel at all times. The maximum loading rate is about 20,000 bbls. per hour and Company Mooring Master will advise in respect to loading pressures and hazards, but will not direct loading except as may be necessary to protect Terminal facilities. Manipulation of vessel's valves is direct responsibility of vessel's personnel.

Prior commencement loading, Chief Officer will assure Mooring Master that sea suction valves are *closed* and he will make note to that effect in Mooring Master's log before cargo loading started. Final ullaging and computation of cargo will be done by an Officer of the vessel who will hand this information to Mooring Master for transmittal to officer in charge on board "SPV 367001" for use in comparing metred-out cargo.

Caution.—The incoming oil stream is controlled on board the "SPV 367001" and it is extremely dangerous to close a cargo valve against the incoming stream. Such a procedure creates excessive pressure, which may damage hoses, piping or Terminal facilities. Vessels will be held liable for damages resulting from failure to observe this precaution.

Emergency Signal.—When normal ship-to-shore communications fail, the emergency signal to stop the flow of oil will be a continuous blast on the whistle until oil ceases to flow. Steam or air should never be shut off from the whistle during loading. Whenever emergency whistle signal is used, all loading operations will be shut down until communications can be re-established.

Shore Stops.—Request for Terminal to stop the flow of cargo at a predetermined tonnage must be made in writing. Requests must include statements that the Company will not be held responsible for any error and in case of overloading, the excess cargo cannot be pumped back to the "SPV 367001". Some delays are always incurred when such a shore stop request is made.

SAFETY: Pennington Terminal considered an open roadstead, and under no circumstances may engines be shut down for repairs while a vessel is moored in the submarine berth. Vessel must be able to depart from berth immediately on instructions to do so.

Vessel's personnel responsible for safety of vessel, and must take all necessary precautions whether or not so advised by Mooring Master. Any safety precautions imposed by Company Mooring Master and so disregarded by ship's Officers or crew, will be considered just cause for rejection of vessel and all expenses and liabilities related thereto will be for account of the tanker.

Not less than one Deck Officer and three seamen shall be available on deck at all times while vessel in moorings.

Power must be available at all times on deck winches and windlass while vessel in moorings.

Presence of unauthorized craft alongside is extremely hazardous and Masters are requested to require all unauthorized craft to clear vessel's side prior ballast pumping and cargo loading.

Mooring Masters are authorized to shut down loading operations during severe electrical storms, if another vessel or craft of any description comes alongside the loading vessel, and under any other circumstance which imperil loading operations.

MEDICAL: Medical assistance on an emergency basis only.

FRESH WATER/FUEL: Not available.

AGENCY: General Agency functions to perform services necessary to document and clear vessel and export cargo will be handled

at Pennington Terminal by Palm Line Agencies. The Company will provide transportation of Customs and Agency personnel to and from the S.P.V. where they will be available to assist vessels in such Customs and Agency requirements as necessary.

PORT HARCOURT (incl. Okrika): 04.46 N. 07.01 E.

DOCUMENTS:
9 Crew Lists.
9 Passengers Lists.
6 Arms and Ammunition Lists.
6 Livestock Lists.
7 Ports of Call Lists.
2 Bonded Store List.
3 Vaccination Lists.
10 Manifests.
2 Bills of Lading.
2 Crew Declaration (Special Lists).

PILOTAGE: The Pilot Station for Port Harcourt is at Bonny, 15 miles from Fairway Buoy, 28 miles from Port Harcourt. The Harbour Master keeps watch on VHF Channels 16 and 14 and on 2182 from 0700 to 1800. As there presently is no radio station at Port Harcourt Masters should cable their Lagos Agent with a 48 hours ETA asking the Lagos Agent to pass the information to Port Harcourt. Pilot boards at Fairway Buoy from pilot-cutter green hull, stone colour superstructure.

Position of Fairway Buoy: 4° 12′ 56″ N., 7° 00′ 28″ E.

It should be noted that Bonny is an Oil Terminal and as such heavy traffic of tankers is continuous. In extreme circumstances vessels may be requested by Harbour Master to pass the channel from Fairway Buoy at Bonny, and anchor at Bonny without a Pilot, in which case latest Notices to Mariners should be studied in order not to damage oil pipe-lines in prohibited anchorage areas.

ANCHORAGES: Position West of Fairway Buoy, depths 8–9 fathoms.

RESTRICTIONS: Night pilotage expected resume end 1972.

MAX. SIZE: Maximum draft is 25 ft. at high water, minimum depth in approaches 18 ft. datum. Max. length 600 ft. no restrictions on beam. Ebb tide reaches a max. of 3 knots off the berths and 2½ knots in the river, flood tide 2½ knots off berths and in the river.

HEALTH: Q-flag to be shown on arrival, except if from another Nigerian port, Yellow fever and small-pox inoculations compulsory. In case of suspected disease on board, advance notice to Agent advisory.

TUGS: Not available.

BERTHING: *Main Quay:* The main Quay is 3,459 ft. long and capable of berthing seven vessels, with drafts from 24 ft. to 26 ft.

The old quays at Port Harcourt have been completely reconditioned to enable them handle bigger ships. Dredging in front of these quays is in progress and when completed ships with drafts of up to 29 ft. will be able to use these berths.

B.O.P. Berth. This berth lies outside the Quay area, and is for the loading of palm oil by means of a direct pipe line from the installation of Bulk Oil Plants (Nigeria) Limited. It consists of a central "T" jetty with dolphins and is capable of berthing vessels up to 480 ft. in length. It is also used for the discharge of explosives as such cargo is not permitted to be handled across the general cargo Quay.

Oil is supplied by a 6-in. diameter pipe at a maximum rate of 250 tons per hour.

Okrika Oil Refinery: Okrika lies on the Bonny River, some 35 miles from Bonny Fairway Buoy. The approach is by a buoyed channel some 8 miles in length, dredged to a depth of 38 ft. chart datum. The river from Bonny to Okrika has been dredged as necessary and least depths are 29 ft. chart datum. Jetty at the oil refinery suitable for berthing coastal and ocean tankers up to 33,000 tons deadweight. The jetty is "L" shaped with a square dolphin at the end of the arm. Ocean tankers secure on the outside of the jetty making fast to two sets of mooring dolphins each end. The coastal vessels and barges are berthed on the inside of the jetty. Oil is supplied via gantry hoses on either side.

STEVEDORES: Gang requirements and hatch distribution should be included in 48-hours ETA cable to Agent. Discharging general cargo 8 tons per gang/hour, cement 15 tons per gang/hour, bagged cargo 20 tons per gang/hour, loading produce 15–20 tons gang/hour.

MEDICAL: Doctors available 24 hours, but limited supply of medicaments. Yellow fever, cholera and smallpox vaccination required.

DENSITY: Appx. 1015 oz.

FRESH WATER: No restriction, from barge (15 ton/hour). From quay low pressure, max. 8 ton/hour.

FUEL: Most standard lubricants available, fuel available by barge only. Requirements by 48-hours ETA cable.

GANGWAY/DECK WATCHMEN: Recommended.

OPENING/CLOSING HATCHES: Normally by crew.

CUSTOMS ALLOWANCES: 200 cigarettes per man per 7 days. 1 wine or 1 btl spirits per officer per 7 days.

IDENTIFICATION CARDS: Crew to carry passport or seaman's book whilst ashore.

REPAIRS: Only very minor repairs available, no spares.

REPATRIATION: Possible via Lagos.

AIRPORT: 7 miles away, twice daily flights to Lagos, no international flights.

TIME: GMT plus 1 hour, no changes during the year.

HOLIDAYS: New Year (Jan. 1st); Id-El-Kabir (Feb. 16–17th); Good Friday and Easter Monday; National Day (Oct. 1st); Fasting Period (October 31st); Id-El-Fitri (Nov. 29–30th); Christmas Day (Dec. 25th); Boxing Day (Dec. 26th). The Muhamadan holidays are subject to changes. The port does not work on Dec. 25 and Good Friday, other days on overtime.

POLICE/AMBULANCE/FIRE: All can be contacted by tel. 999.

SHORE LEAVE: Allowed provided crew carry passport or seaman's book.

AUTHORITY: Nigerian Ports Authority.

AGENT: Scanship (Nigeria) Limited, PO Box 432, Port Harcourt, tel. 8053. Telex Scanship Lagos 21244 attention—Port Harcourt.

QUE IBOE: 04.20 N. 07.59 E.

DOCUMENTS:
Port of Call List and clearance from previous port.
Crew Lists with passports and Certificates of Vaccinations available for inspection.
Stores List.
Crew Personal Effects List.
Manifest of Cargo.
Arms and Ammunition List.

PILOTAGE: An 80,000 dwt. storage tanker *MOBIL JAPAN* is moored in position 4° 20′ N. 7° 59·5′ E. Notice of arrival should be given five, three and one days before arrival to "Mobiloil Lagos" and to the storage tanker, call sign 62JG. A company mooring master will board approximately 2 miles South of the storage tanker.

RADIO: Storage tanker, call sign 62JG keeps 24-hour watch on VHF Channel 16. Listens on MW 425 kHz between 1600 and 1700 GMT, and on HF 12350 to 12710 kHz between 1730 and 1800 GMT.

BERTHING: Loading berth is seven point conventional buoy mooring. Sea-line hoses are lifted on the starboard side, total weight of lift, 6 tons.

BALLAST: No facilities for reception of dirty ballast. Tankers must arrive with clean ballast only.

FRESH WATER: Not available.

FUEL: Not available.

REPATRIATION: There are no facilities for repatriation or crew changes.

SHORE LEAVE: Not possible.

AUTHORITY: Mobiloil Lagos.

SAPELE (incl. Koko): 05.55 N. 05.42 E.

DOCUMENTS:
Crew List.
Port of Call List.
Passenger List.
List of Arms and Ammunition.

These documents required by following Government Departments: Collector of Customs, Customs Preventive Service, Ports Health Authority, Police Authority/Immigration, Nigerian Produce Marketing Co., Nigerian Ports Authority NPA also require Inward and Outward Masters Declarations and all other documents such as Manifests and Bill of Lading, etc.

PILOTAGE: None.

ANCHORAGES: No laid-down areas.

RESTRICTIONS: None under normal conditions.

MAX. SIZE: Average length 400/450 ft., draft 16½ ft. plus tide for the day, minus Master's underkeel clearance.

HEALTH: Normal International Regulations, but between ports in Nigeria nothing required.

RADIO: ETA and ETD best passed via Lagos Radio to Lagos Agents who in turn advise local Agents. Port Authority operate VHF Channels 16, 14, 13, 12, 11 and 9.

TUGS: None available.

BERTHING: Berthing/unberthing normally done in daylight hours.

Sapele:

Berths	*Type*	*Berth length*	*Depth*
1	Anchorage and stern to buoy	No limit	21 ft.
2	Buoys fore and aft	550 ft.	22 ft.
3	do.	800 ft.	21 ft.
4	do.	675 ft.	20 ft.

Dangerous Cargo List.

PILOTAGE: Compulsory. Main entrance to port at Marsteinen Lighthouse (pilot station) 60° 24′ N. 5° 18′ 50″ E. 24 nautical miles from town, but vessels from South may enter at Skudesnes (88 nautical miles) and from North at Fedje pilot station (32 nautical miles). VHF Channel 16. Practically no tide. Port free of ice throughout whole winter and well sheltered from all winds. Sound signals for pilot, three long and one short. Harbour pilotage not compulsory but advisable.
ANCHORAGE: Puddefiord. Good holding grounds. Depth 10 to 50 fathoms of water.
RESTRICTIONS: Vessels can enter day and night.
MAX. SIZE: Max. draft 35 ft. Vessels up to 50,000 tons have been berthed at Dokkeskyærsquay. Oil installation up to 30,000 tons d.w.
HEALTH: See "Documents". If vessel carries quarantine flag on contagious diseases, radio communication should be sent to Agents for instructions, otherwise no special regulation.
RADIO: Communication to Agent should be sent through Rogaland Radio or Bergen Radio.
TUGS: Two tugs, each 1,000 h.p. available. Ship's lines to be used, contractors Bergen Steamship Co. Tugs normally join vessel at Puddefiord or subject to requirements.
BERTHING: Berthing instructions from Harbour authorities through Agent's office.
BRIDGES: A bridge between Knarrevik and Drotningvik is under construction. Height of bridge from the water will be 50 metres at mean water level. Bridge position will be 5 miles from harbour in the entrance to port from South.
STEVEDORES: Stevedoring arranged by Agents subject to requirements. 24 hours notice, important obtain in good time accurate ETA. Ordinary working hours at port 0730–1600. Saturdays until 1300.
MEDICAL: Masters to advise by radio prior arrival if medical attendance required on board. Hospital facilities available.
TANKERS: Discharge lines usually 6 and 8 in. No slop (residues)

discharge facilities. Numbers of tanker berths 5: Shell, Esso, Fina, Mobil Oil, and BP. Max. drafts 30 ft.
DENSITY: Salt water.
FRESH WATER: From all quays and wharves with exception of some oil berths where water barge necessary.
FUEL: All grades of diesel, fuel and gas oil including lubricating oil available at all wharves in main entrance. Supplies also from barge subject reasonable notice.
FIRE PRECAUTIONS: No special precautions. Special harbour fire-fighting boat. As usual no smoking permitted during discharge operation.
GANGWAY/DECK WATCHMEN: Obtainable subject inquiry for 12 hours watch from 1900 to 0700 hours.
OPENING/CLOSING HATCHES: Crew allowed to open and close hatches.
SHIP'S CERTIFICATES: All certificates to be on board. Ship's tonnage certificate to be produced to Custom authorities upon arrival.
CUSTOMS ALLOWANCE: Tobacco, 20 cigarettes per day or 20 gramme tobacco per crew member. Wine and/or Spirit, 1 bottle spirit or wine for consumption on board allowed per crew member.
IDENTIFICATION CARDS: Not required.

DRAMMEN: 59.45 N. 10.13 E.

DOCUMENTS:
Bill of Health.
2 Crew Lists.
2 Passenger Lists.
2 Customs Lists for crew members and passengers.
Bills of Lading.
3 Manifests for every port of discharge.

PILOTAGE: Give 6 hours notice by R/T 2182 kc/s or VHF Channel 16 to "Færder Pilot". Coast stations "Tjøme Radio" LGT or "Farsund Radio" LGZ can also be used. Harbour Pilots ordered through ship's Agents.
ANCHORAGES: Pilot service supplies information regarding anchorages.
RESTRICTIONS: Svelvikstrommen Channel, depth 10 metres, equipped with beacons and radar reflectors for safe navigation.
During ice-breaker season, which may last from end-December, to middle-March, ice breaker is in radio contact with port and with ships needing assistance.
MAX. SIZE: Max. draft for main harbour 26 ft. (7·92 metres), otherwise no restrictions.
BERTHING: *Main Harbour.*
Tangen Quays

Tollbukaia	length	328 ft.
Kranbrygga	,,	660 ,,
Myrakaia	,,	478 ,,
Langbrygga	,,	837 ,,
Tjomekaia	,,	526 ,,

Max. draught 26.2 ft./8 metres.
Holmen Ost (Holmen East)
Havnelagerkai, length 100 metres, max. draught 26.2 ft./8 metres. Roll-on/roll-off quay length 60 metres, max. draught 19.7 ft./6 metres.
Holmen Syd (Holmen South)
Quay length 421 metres. Max. draught 29.5 ft./9 metres. Within port area are several private quays mostly used by coastal shipping. For tanker berths, see "Tankers".
HEALTH: International procedure followed to obtain pratique. In case of suspected diseases or fever inform Port Authorities, tel. 831085. When arriving from a Norwegian port pratique automatic.
RADIO: Tjøme Radio, call sign "LGT" Farsund Radio, call sign "LGZ". Oslo Radio, call sign "LGO". R/T 2182 kc/s or VHF Channel 16 can also be used.
Port Authority maintains 24 hour VHF radio-telephone watch, call sign "Drammenhavne Radio". Channels 16 and 11.
TUGS: Under normal conditions not necessary except for large vessels, but available on request. Normally ship's hawsers or lines used for towing. Tugs ordered through Agent.
STEVEDORES: Labour must be ordered latest 1530 hours day before arrival. Saturdays before 1230 hours. Working hours: Monday to Friday from 0700 to 1600 with breaks from 0900 to 0930 and 1300 to 1330.
Saturday from 0700 to 1300 with break from 0900 to 0930.
Overtime can be arranged through Agent.
MEDICAL: In case of emergency, notice regarding required medical treatment must be given as soon as possible. First class hospital facilities available. No special inoculation or fever certificates necessary, except those according to international health regulations.
TANKERS:
Tronstad Berth
Wooden quay 92 metres long, max. draught 32,81 ft./10 metres. Fresh water available.
Pipeline connections: Gas oil 8 in.; light fuel oils 9 in.; asphalt 8 in.
Holmen South Berth
Concrete quay, max. draught 29,53 ft./9 metres. Fresh water available.
Pipeline connections: Gas oil 8 in.; light fuel oils 8 in.; paraffin 6 in. heavy fuel oil 4 in.
B.P. Berth, Solumstrand
9 metres wide quay at end of pier, max. draught 16,4 ft./5 metres.
Pipeline connections: Light gas oil 6 in.; petroleum 4 in.; white-spirit 3 in.; propane 2 in.
Bakketomta Berth, Lierstranda
Concrete quay, 23 metres long, max. draught 16 ft./4,88 metres.
Pipeline connections: Super petroleum 8 in.; petroleum 8 in.; light fuel oil 8 in.; gas oil-paraffin 6 in.; white spirit 4 in.
Esso Berth, Solumstrand
Concrete quay, 23 metres long, max. draught 16 ft./4,88 metres.
Pipeline connections: Light fuel oil 6 in. and 4 in.; gas oil 6 in.; Petroleum 6 in. and 4 in.
DEPTHS: Chart depths vary only slightly owing tidal fluctuations. Exceptional conditions, such as snow melting in spring, heavy rainfall and prevailing strong southerly or northerly winds will cause stronger currents and a variation in water levels.
FRESH WATER: Delivery by hose available anywhere at any time.
FUEL: Tronstad berth: gas oil 200 sec. Holmen S.: fuel 2000 sec., marine diesel 200 sec. Bakketomta Lierstrand: Bunkering by tank-lorry possible if necessary. Esso Solumstrand: gas oil visc. 1,2 at 20 degrees cel.; diesel visc. 1,7 at 20 degrees cel. Lubricating greases and oils available.
FIRE PRECAUTIONS: International danger signals and precautions practised. Wires for towing must be ready for immediate use. In case of fire on board or in vicinity, vessel must leave quay and harbour as soon as possible.
DEVELOPMENTS: Increase of max. draught in main harbour to 10 metres/32.8 ft.
Planning of new roll-on/roll-off berths being carried out.
Latest developments in loading and discharging techniques under close observation.
GANGWAY/DECK WATCHMEN: Watchmen recommended.
OPENING/CLOSING HATCHES: If necessary hatches can be opened or closed by stevedores, but usually by crew.
CERTIFICATES: Usual ship's certificates according to international regulations.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes/100 grams of tobacco allowed weekly. Wine or Spirits, 1 bottle wine or spirits usual weekly allowance.
CARGO GEAR: International Safety Regulations followed.
IDENTIFICATION CARDS: Not required.
CONSULS:

Belgium	tel. 831485
Denmark	,, 834380
Finland	,, 832985
France	,, 833590
Germany	,, 832480

FLORO: 61.31 N. 05.02 E.

DOCUMENTS:
2 Manifests.
Crew List.
Provisions List.
Health Document.
Passenger List.

PILOTAGE: Nearest station Fedje (60′ 51′ N., 04′ 37′ E.). Distance to Florø harbour about 52 nautical miles. Pilotboat a white-painted cruiser-type marked "LOS" on both sides of bow.
Fixed watch on Fedje island covers both Holmengrå and Hellesøy. VHF Channels 8, 12 and 16 on M. wave. Listening first 10 minutes of every hour. ETA 24 hours before arrival. Telegram" Feielos". If bad weather, Pilot to be picked up on Eastern side of Fedje island.
ANCHORAGE: No anchorages close to pilot station. Florø harbour: space of about 1 square kilometre, depths from 15 to 30 fathoms.
RESTRICTIONS: Tide difference about 1·5 metres. Max. draft *entering* Florø harbour 36 ft.
MAX. SIZE: Entering Florø harbour: No restrictions in main harbour concerning length and breadth. Max. draft *berthing:* "Ankerløkken Ship Yard" 13 to 25 ft. in a length of 100 metres. "Fugleskjærkaia" 16 to 18 ft. in a length of 150 metres. "Gunhildvågen" (herring-factory) 25 ft. in a length of 120 metres.
NB. – "Gunhildvågen" lies outside main harbour, and has narrow entrance. Weather permitting, ships of 100 metres length and breadth 20 metres can pass.
STEVEDORES: ETA before 4 p.m. for gangs required next morning.
MEDICAL: Hospital close to harbour, and available any time.
TANKERS: Harbour is only used by small tankers, about 500 to 1,000 reg. tons.
FRESH WATER: Only available alongside berth. Delivery 6 tons per hour.
FUEL: Ordinary fuel. Diesel and gas oil delivered by truck. Ships up to about 1,000 reg. tons receive oil-bunkers directly by berthing bunker station.
DEVELOPMENTS: In connection with harbour-works "Fugleskjærkai", to be built deep-sea pier (draft 30 ft.) length of about 105 metres and an area of about 9,000 square metres. Completion, earliest 1975.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Mostly done by crew.
CREW IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: Most repairs possible.
DRYDOCKS: None.
AIRPORT: Harbour served by regular air transport (seaplanes twice a day).
TIME: GMT plus 1 hour.
HOLIDAYS: Cargo work can be arranged any time, holidays included.
POLICE/AMBULANCE/FIRE: Police 2101; Ambulance 2521 Fire 2600.
TELEPHONES: Can be arranged on board alongside wharf.
SHORE LEAVE: Permitted.
SERVICES: Servicing for all kinds of ships navigation instruments can be arranged, except adjusting radio bearings.
AUTHORITY: Harbourmaster's office tel. 2438, priv. 2602.

AGENT: K. Jansen, Shipping Agent, Stevedore, Shipbroker. Telephones: 2580–2303 A.O. 2222. Cable: Shipping. PO Box 15.

FREDRIKSTAD 59.12 N. 10.57 E.

DOCUMENTS:
Bill of Health.
2 Crew Lists.
2 Passenger Lists.
2 Custom Lists for Crew Members and Passengers.
Bill of Lading.
3 Manifests for each port of discharge.

PILOTAGE: Compulsory. Pilot boarding at Faerder Lighthouse, 59.2 N. 10.32 E. Agents report vessel's ETA to pilot station and vessel to give a couple of hours' notice by R/T 2182; kc/s. or VHF Channel 16 to Faerder Pilot. Coast station Tjome Radio LGT or Farsund Radio LGZ can also be used. Harbour Pilot and tugs, when necessary, will be arranged by Agents to meet at Belgen.
ANCHORAGES: Safe anchorage for larger vessels Belgen, East entrance. For smaller vessels anchorage to be pointed out by Pilot or Harbour Master.
RESTRICTIONS: Maximum draft, East entrance 36 ft.; West entrance, 17 ft. Otherwise no restrictions.
HEALTH: See "Documents".
If vessel carries Quarantine Flag for contagious diseases, radio communication should be sent to Agent for instructions, otherwise no special regulations.
RADIO: Communication to Agent through Tjøme Radio or Rogaland Radio.
TUGS: Three tugs, 750 h.p. and 1,200 h.p. Stronger tugs can be ordered from Oslo if necessary.
BERTHING: As instructed by Harbour Master through Agent, depending on vessel's draft and size.
STEVEDORES: To be arranged by Agent subject to requirements. Twenty-hour hours notice important to obtain in good time accurate ETA.
Ordinary working hours 0700 to 1530; Saturday until 1230. Bulk cargoes are usually discharged in shifts until Saturday 2200, in the extent stevedores available.
MEDICAL: Master to advise by radio prior arrival if medical attendance required on board. Hospital facilities available.
TANKERS: Discharge pipe-lines usually 6 and 8 in. No slop (residues) discharge facilities. Tanker berths are at BP and Denofa/Lilleborg.
BERTHS (East River):
Orea Quay:
Southern part, max. draft 36 ft.
Northern part, max. draft 33 ft.
Denofa Lilleborg Quay:
Max. draft 33 ft., 5 metres, off the quay.
DENSITY: Brackish water, 2·7% salt water.
FRESH WATER: From shore or by barge.
FUEL: All grades available. For larger quantities, delivery arranged by barge.
GANGWAY/DECK WATCHMEN: Obtainable.
OPENING/CLOSING HATCHES: Crew members allowed to open and close hatches.
SHIP'S CERTIFICATES: To be produced to Customs Authorities on arrival.
CUSTOMS ALLOWANCES: *Tobacco:* Twenty cigarettes or 20 grs. tobacco per man, per day. *Wines/Spirits:* One bottle of spirits or wine for consumption on board per crew member.
IDENTIFICATION CARDS: Not required, except at the quay of Defona/Lilleborg, when Master, upon arrival, will receive a sufficient number of cards for filling-in for each crew member, to be shown when passing the gate.
CONSULATES: Danish, French, Finnish, Dutch, Swedish.
REPAIRS: All repairs possible.
DRY/FLOATING DOCKS:
A/s Fredrikstad mek Verksted: Dry dock, 945 ft. length, 126 ft. breadth, 25 ft. draft when docking. Floating dock, 900 tons, 181·6 ft. length, 52·6 ft. breadth, 14 ft. draft when docking.

STAVANGER: 58.58 N. 05.44 E.

DOCUMENTS:
Declaration of Health, one copy.
List of Goods, including stores, one copy.
Crews List of Goods liable to duty, one copy.
List of Goods, two copies for each port of discharge. All bills of lading to be entered with marks, numbers, weight and quantity.
General List of Goods, one copy.
A form for entering ports of call where discharging will take place.
PILOTAGE: Vessels approaching from sea and desiring a Pilot should order at least 24 hours notice in so far as possible and confirm arrival at pilot station at 2 hours notice. Advance order can be sent in following manners:
(*a*) From ships at sea over radio direct to sea pilot watch (calling frequency 2182 kc/s, from two minutes past until ten minutes past each full hour, or over VHF radio-telephone calling, frequency 156.80 mc/s; Channel 16).
(*b*) From ships at sea over coastal radio station to pilot station or pilot office.
(*c*) From broker or shipowner over telephone to sea pilot station or to any pilot office which will immediately convey report to sea pilot station.
Vessels lying in port and desiring Pilot will order Pilot from nearest pilot office during its office hours and if possible at four hours notice.
Vessels approaching from sea as well as vessels lying in port shall when making an advance order state name and destination of vessel and whether one or two Pilots are desired.
Pilot will be despatched to ships in accordance with advance orders, and vessels are therefore requested to comply with foregoing rules as far as possible in order to avoid having to wait for Pilot.
International provisions for summoning Pilots by signal flags or blue lights, etc., are still in force, but should in future be used as a supplement to radio communications or as sole communication in emergencies.
Pilots are taken on board at:
A Feistein Lighthouse, 19 miles South of Stavanger, or in bad weather 6 miles North of lighthouse under the lee of Rott.
B Skudefjorden, 18 miles North-west of Stavanger. In bad weather under the lee of Karmøy or Kvitsøy, as weather permits.
Pilot boats are stationed at Tananger and Skudesneshavn. No boats are out cruising.
RADAR/VHF: Radar service for inner harbour. At Kvitsøy pilot station radar service may be obtained over VHF Channel 16.
ANCHORAGE: Found in the Byfjord, 3 nautical miles North of Stavanger. Harbour pilots recommended when anchoring.
MAX. SIZE: Largest depth alongside goods and passenger quays is 30 ft. Depth alongside oil refinery 16·5 metres. Maximum draft for tankers, 48 ft.
TUGS: Normally not used.
BERTHING: The coasting and the foreign trade is located in the Western harbour, comprising the two main quays, namely the Skagen Quay and the Strand Quay. These quays measure 1,600 m. with depths alongside 24 to 30 ft.
The quays are equipped with one 6-ton crane and eight 3-ton cranes. A floating crane with a lifting capacity of 65 tons available.
Grain: Rogaland Felleskjøp: Capacity for storing 72,000 tons, quay length 190 meters, depth alongside 24 to 30 ft. Discharging capacity 200 tons per hour. Stavanger Havnesilo: Storing capacity 140,000 tons, quay length 170 metres, depth alongside 51 ft. Discharging capacity 500 tons/hour.
Roll-on/roll-off: Traffic is offered by a ferry berth constructed for ships up to 5,000 g.r.t., depth alongside 26 ft.
STEVEDORES: No particular ETA advices required.
MEDICAL: Agents should get advance notice to secure speedy service. Hospital facilities available.
TANKERS: Discharge at Sola refinery terminal where there are 3 berths, depth alongside up to 16,5 metres. It is intended to enlarge these facilities to accommodate 200,000 dwt. vessels with restricted draft.
Esso Norske: 3 nautical miles South of central harbour, depth alongside 45 ft.
Norske Shell A/S: 14 nautical miles South West of central harbour, depth alongside 38 ft.
Norske Braendselolje A/S: 7 nautical miles South of the central harbour.
Texaco Oil: 1 nautical mile from central harbour, depth alongside 25 ft.
A/S Kulimport: Coal and coke. Length of wharf 116 m., depth alongside 27 ft.
DENSITY: 1.025, no change in relation to state of tide.
FRESH WATER: Delivered from quay or from water boat.
FUEL: Normal grades available without advance notice.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Usually carried out by crew.
CUSTOMS ALLOWANCE: Tobacco: 20 cigarettes per day. Wine and/or Spirit: Two bottles of wine or one bottle of brandy.

MEDICAL: Hospital facilities available.
FRESH WATER: Available, delivered from berth.
FUEL: No fuel supplies available. Nearest port for such supplies is Trondheim.
GANGWAY/DECK WATCHMEN: Not compulsory, and this service is left to the discretion of the Master.
OPENING/CLOSING HATCHES: By crew.
CERTIFICATES: Ship's Register.
CUSTOMS ALLOWANCES: Each crew member allowed 20 cigarettes on shore. When leaving ship, 200 cigarettes and 1 bottle of wine or 1 bottle of spirit permitted.
IDENTIFICATION CARDS: Not required.
CONSULS: Nearest consul available in Trondheim.
REPAIRS: Only small repairs can be carried out.
DRY DOCKS: None.
AIRPORT: Nearest airport, Vaernes, 62 miles N.E. Served by regular airlines with several flights per day.
TIME: GMT plus 1 hour. Permanent.
HOLIDAYS: January 1st; Easter Holidays; Ascension Day; Whit Monday; 1st and 17th of May; December 25th and 26th.
POLICE/AMBULANCE/FIRE: All mentioned services obtained through Agent or by contacting local telephone exchange.
TELEPHONES: No facilities for placing telephones on board ships.
SERVICES: Provisions available.
SHORE LEAVE: Permitted.
AGENT: Rederi- A/S Orkla, 7340 Lökken Verk, Norway, tel. (074) 86848 Lökken Verk or Orkanger No. 80400. Telegrams "Transport", Lökken Verk. Telex 55109.

TONSBERG: 59.16 N. 10.25 E.

DOCUMENTS:
Ship's Register.
Crew Lists.
Customs Manifest for each crew member (cigarettes, spirits, etc.).
Store List. Cargo Papers. Health Certificate.

PILOTAGE: Sea pilots obtainable from Ferder pilot station. Pilots normally take vessels to berth; also harbour pilot on the spot.
ANCHORAGES: Good anchorages at Byfjorden and Traela; anchorages for large vessels are found in Narverødbukten and Husøyflaker.
MAX. SIZE: 18 ft. draft for East entrance and 21 ft. draft for West entrance. Up to 30,000 tons in ballast.
RADIO: Cable ETA via Tjøme Radio prior arrival.
TUGS: Are available.
BRIDGE: One bascule bridge over East entrance. Working days open 0600 to 2200 hours, holidays 0900 to 1300 and 1400 to 1700 hours. Signal 1 long and 2 short to open bridge. Opening can also be arranged during night time. Horizontal clearance 88 ft., depth 22 ft.
MEDICAL: Medical, dental and hopital facilities available.
DENSITY: Occasionally brackish.
FRESH WATER: Available from hydrants at quays.
FUEL: Delivered by lorry.
GANGWAY/DECK WATCHMEN: Available on request.
CUSTOMS ALLOWANCE: 200 cigarettes or tobacco and one bottle spirits, for each man.
CONSULS: Britain, France, Netherlands, Finland, Denmark, Sweden and Spain. All vice-consuls.
REPAIRS: All types of repairs available.
DRY DOCKS: At Kaldnesmek, a shipyard for total length of 515 ft. The shipyard is building ships up to about 50,000 dwt.
REPATRIATION: Available by train from Tønsberg, plane and passenger lines from Oslo (about 100 kilometres from Tønsberg). Fairly good hotel accommodation in Tønsberg).
TIME: GMT plus 1 hour.
HOLIDAYS: New Year's Day; Maunday Thursday; Good Friday; Easter Monday; Labour Day (1st May); 17th Ascension Day; Whit Monday, Christmas (25th and 26th December). Mostly no working.
POLICE/AMBULANCE/FIRE: Police 13355; Ambulance 13370; Fire 11656.
TELEPHONE: No line available on board vessel.
SERVICE: Mostly all services or equipments available from Tønsberg or Oslo. Inform prior arrival.
SHORE LEAVE: Crew members allowed to go ashore.
DELAYS: Ice during January and February, but port kept open by ice breakers.
AUTHORITY: Harbour Master, Tonsberg Havnekontor.

AGENT: Sev. Dahl A/S, Storgt, 15, PO Box 128, 3101 Tønsberg. Ship & Insurance brokers. Lloyd's agent. Chartering, Sale & Purchase of tankers and motorships. Tel. 14027 – 14028 – 14194. Telex 11557, Backanswer "Sdahl".

TROMSO: 69.39 N. 18.58 E.

DOCUMENTS:
Crew Lists.
Passenger Lists.
Ship's Register.

Stores Lists.
Health Certificates.

PILOTAGE: Telegraphic address of pilot station is "Tromso Pilot Station". Order latest 12 hours before arrival.
ANCHORAGE: Depth at anchorage is 15–25 metres.
RESTRICTIONS: No restrictions on night entry.
RADIO: Tromso Radio VHF Channel 16–26. Harbour Office Channel 16. 15–20 miles from town.
TUGS: If necessary, join vessel North or South end of harbour.
BERTHING: Ships 10,000 tons gross can berth at Town Quay, 24 ft. deep. Esso pier (20,000 brt.) 31 ft. deep. Town Quay, 1200 metres length, equipped for container handling.
BRIDGES: Tromso Bridge. 60 m. wide, 36.5 m. high.
STEVEDORES: Ordered by Agent. No ETA to stevedores necessary.
MEDICAL: Master to advise by Radio prior to arrival if medical attention required aboard.
TANKERS: There are three oil berths:
B.P.–20 ft. depth.
Esso–31 ft. depth.
Shell–30 ft. depth.
FRESH WATER: Most berths supplied by pipeline.
FUEL: All grades available.
FIRE PRECAUTIONS: When tankers discharging, smoking allowed only in saloon, and messroom.
DEVELOPMENTS: New pier North of bridge for ships up to 20,000 brt. Depth 31 ft. Completion end 1973 earliest.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: Crew allowed to open and close.
CERTIFICATES: Tonnage Certificate.
CUSTOMS ALLOWANCE: Crew members 100 cigarettes or 20 cigars or 100 grams tobacco, and 1 bottle spirits.
IDENTIFICATION CARDS: Not required.
CONSULS:

Belgium	81074–82417	Sweden	85090–81336

VADSO: 70.04 N. 29.45 E.

DOCUMENTS:
Trade Certificate.
Tonnage Certificate.
Certificate of Nationality.
Number of Crew and Passenger Lists.
Customs and Health Documents.
Manifests and Bills of Lading.

PILOTAGE: Vessels approaching from sea and desiring Pilot should order at 24 hours notice and confirm arrival at Pilot Office, Vadso, at 2 hours notice. The advance order can be sent over coastal radio station to Pilot Office, the Harbour Master, Vadso, tel. Vadso 51235 or 51143. Harbour Pilot has to be taken on board in position Lat. 70° 45′ N. Long. 29° 41′ E.
ANCHORAGES: Anchorage for vessels up to 400 tons in basin, with depths varying between 14 and 21 ft. Larger vessels anchor W. of the mole in 16 to 20 m. Outer harbour inside breakwater, inner harbour, further to East. Entrance to inner harbour is by buoyed and lighted channel 1,560 ft. long and 115 ft. wide, this has been extended by the addition of a fishery basin 750 ft. long 800 ft. wide. Outer harbour is 1,000 ft. long, 700 ft. wide, depths 15 to 30 ft.
MAX. SIZE: Maximum length of vessel 300 ft. and breadth 45 ft. Draft 16 ft. Ship about 3,000 gross reg. tons.
HEALTH: Health documents necessary.
RADIO: Call Vardo Coastal Radio Station, through which contact by telephone Agent or Harbour Master or Vadso Harbour.
STEVEDORES: Stevedores arranged. Agent telephone 51395 Vadso.
TANKERS: Only small tankers can discharge. Discharging berth only for 500 gross reg. tons tankers, draft 13 ft.
FUEL: Gas and diesel oil. Water available on all quays.
GANGWAY/DECK WATCHMEN: Watchmen necessary. Master can use ship's crew as gangway and deck watchmen. Not necessary to use watchmen from the Watchmen Service.
CUSTOMS ALLOWANCE: Tobacco: Wine/Spirit: For 10 days, each crew 200 cigarettes, or 200 grams tobacco. ¼ litre spirit, for each crew member.
CONSULS: Finland, tel. 51225 Vadso.
REPAIRS: Only smaller types of deck and engine repairs are possible.
AIRPORT: Distance to airport by sea 24 miles. By bus 160 km. Airport served by regular airlines; SAS two flights per day.
TIME: Local time, GMT plus 1 hour.
POLICE/AMBULANCE/FIRE: Police 51271 or 51593 Vadso; Ambulance 51845 or 51691 Vadso; Fire 51122 or 51554 Vadso.
AUTHORITY: Harbour Authority, Harbour Master, tel. 51235 or 51143.

Ocean Island

OCEAN ISLAND: 00.52 S. 169.35 E.

DOCUMENTS:
Clearance from last overseas port.
2 Crew Lists.
4 Passenger Lists.
Bonded Stores List including Narcotics List (in duplicate).
Crew Store List (sometimes called search list or curio list).
4 Manifests.
1 International Health Declaration.
Documents to be completed when ship arrives Ocean Island:
List of unmanifested cargo; Passenger's Baggage Declaration, if any, 1 copy per passenger.

PILOTAGE: Pilotage available on request without charge and Masters advised avail themselves this service. Necessary that Masters, through Ocean Island Radio, inform telegraphic address "Phoscom Ocean" of ETA 48 hours before arrival, confirming or altering this 12 hours before arrival. Phoscom reply through Ocean Island Radio on receipt of second message giving time for vessel to close in to a half mile West of loading plants, where pilot will board. In case of adverse weather or congestion, Masters notified by radio or by VHF channel 16, 156·8 Mcs, with range of about 40 miles. Vessels handled inwards in daylight only, and should fly G flag when approaching island. A safe and clean pilot ladder should be provided, and a good lee made for pilot to embark.
ANCHORAGES: No anchorages available owing to extreme depths

of water. Vessels waiting normally drift off and return at daybreak or when instructed to do so.

RESTRICTIONS: Tide and draft have no bearing on entry but normal not to handle vessels into berth in darkness. However, vessels are unmoored at all hours.

MAX. SIZE: Vessels have been handled up to overall length of 575 ft. Beam should not exceed 75 ft., draft limitations 34 ft. 6 in.

HEALTH: Masters of vessels approaching Ocean Island required to send telegram addressed "Quarantine Officer, Ocean Island" within 24 hours of arrival. Telegrams should state name of last port, date, presence of any infectious disease. On receipt quarantine officer will send reply indicating whether or not pratique granted. It is still necessary to fill out International Declaration of Health and hand to Boarding Officer after berthing.

RADIO: Ocean Island Radio station call sign VQK. Daylight range not great but traffic may be passed through C2N Nauru. No radar at Ocean Island. VHF Channel 16 156·8 Mc/s.

TUGS: No tugs required for berthing.

BERTHING: Such special requirements which relate to berthing are contained in a Letter of Advice to Ship Masters issued by the BPC.

STEVEDORES: As stevedoring is carried out by Phoscom, no separate advice required. Loading rate of bulk phosphate is as high as 1,300 tons per hour.

MEDICAL: Medical treatment can be given on short notice. Limited hospital facilities available, and emergency surgery can be carried out. Smallpox vaccination required, and cholera if vessel from infected area.

TANKERS: Maximum length 600 ft., no draft restrictions. Eight-inch discharge line to shore storage tanks.

DENSITY: Normal salt water all states of tides.

FRESH WATER: Island water imported, and water will be supplied only in emergency.

FUEL: Island stocks are imported for use in phosphate industry, and only limited quantities of heavy fuel or diesel oil available in extreme urgency.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Carried out by crew.

CERTIFICATES: Deratisation certificate only.

CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes or ½ lb. tobacco or 50 cigars for use on board; 25 cigarettes or 1 oz. of tobacco may be taken ashore for own personal consumption. Wine/Spirit, 1 bottle only for use on board; No bottles may be taken ashore.

CARGO GEAR: Cargo gear should be up to standard demanded in Australian ports.

IDENTIFICATION CARDS: Some form of identification, passport, discharge book, or identity card should be carried by crew members.

CONSULS: None.

REPAIRS: Small repairs such as welding, brazing, lathe work, etc., can be carried out, but only when essential to allow vessel to proceed on voyage. Main engines cannot be immobilised whilst the vessel moored to any section of buoy system.

DRY DOCKS: None.

REPATRIATION: Repatriation can be arranged. No facilities for crew changes.

AIRPORT: No airport at Ocean Island.

TIME: GMT plus 11½ hours.

HOLIDAYS: Christmas Day, New Year's Day, and Good Friday normally closed holidays. Other National holidays occur during year but normally work carries on, on these days.

POLICE/AMBULANCE/FIRE: All emergencies handled by Harbour Masters, one of whom remains aboard vessel throughout time vessel attached to mooring system.

TELEPHONES: Telephones are put aboard for use of island staff working vessel.

GENERAL: Shore labour normally boards vessel with pilot to assist in mooring to buoy system.

SERVICES: No special services available.

SHORE LEAVE: This may be granted at discretion of Master, but should in all cases terminate at 5 p.m.

PORT REGULATIONS: No vessel may immobilise main engines whilst moored to buoy system. Main engines should be on instant readiness, deck power should be available at all times, and vessel must proceed to sea when instructed to do so by Harbour Master.

DELAYS: Normally no delays expected. Vessels could wait a day, or possibly two due to port congestion, but this seldom happens, delays can occur due to adverse weather, duration of which unpredictable.

AUTHORITY: The Harbour Master, appointed by The British Phosphate Commissioners, Ocean Island. Telegraphic address Phoscom Ocean Island.

Oman, (Sultanate of)

MINA-AL-FAHAL: 23.39 N. 58.32 E.

DOCUMENTS:

2 copies Crew Lists.
2 copies Medical Attendance Forms required for ship's crews visiting doctor.
1 copy Arrival Report form (supplied by Berthing Master).
2 copies Maritime Declaration of Health.
3 copies Mail Lists.

PILOTAGE: The Berthing Master will board incoming tankers in a position with Fahal Island lighthouse bearing 285° from seaward distance 2 miles. Tanker should arrive at this position, make a good port lee, and take way off.

Harbour steaming is deemed to start at this point. The port side derrick should be rigged and crew standing by at the derrick ready to lift the mooring equipment from the launch when the Berthing Master comes on board.

The pilot access should be in good condition, clean and ready on the port side. Tankers of 70,000 tons summer deadweight and above in ballast or partly loaded condition should have either a pilot hoist or a combination of accommodation ladder and pilot ladder rigged.

ANCHORAGE: If a tanker is required to anchor this information will be passed on the VHF radio. The normal anchorage position for tankers is 1 mile E.S.E. of Fahal Island. A prohibited area is enclosed by the parallel, 23° 40′ N., and the coastline and the meridians 58° 30.8′ E., and 58° 32.2′ E. This area should not be entered unless a Berthing Master is on board.

RESTRICTIONS: Open sea approaches.

MAX. SIZE: No length limitation. Draft up to 72 ft. Tankers up to 280,000 dwt. can be accommodated.

HEALTH: When advising ETA, include in message whether any sickness on board.

RADIO: ETA messages should be sent to Petro Muscat via Muscat Radio. If no contact can be established with Muscat Radio, the message should be sent through an alternative coast station such as Bahrain Radio.

The message should contain the following information.

(*a*) ETA in local time and date in plain language to avoid mutilation.
(*b*) Whether there is any sickness on board.
(*c*) Whether any crew require medical treatment and very briefly the nature of the complaint.

VHF communications should be established as early as possible with station, call sign Fahal Control on Channel 16. The range of the station is approximately 50 miles but may be reduced to 20 miles when approaching from the Eastwards, due to screening effect of the mountains. A 24-hour watch is maintained by this station which uses Channel 20 as a working frequency, which can also be used for telephone link calls.

The mooring launches are equipped with Channel 16 and a Working Channel 6, call sign Fahal Pilot.

TUGS: None available and not required.

BERTH DESCRIPTION: Three single buoy moorings with floating hose strings.

SBM Nos. 1 and 2. Two by 810 ft., 20-in. crude oil hoses, reduced to 16 in. at manifold connection; two by 840 ft., 8-in. bunker fuel hoses terminating in single hose for manifold connection.

SBM No. 3. Two by 720 ft., 8-in. hoses terminating in a single hose for manifold connection.

Loading Rates. Crude oil loading is by gravity only. Bunker fuel delivered by pumps. Max. crude loading rates up to 9,000 t.p.h. Bunker fuel discharging rate up to 3,000 t.p.h. at Berth No. 1. Bunker fuel loading rate up to 500 t.p.h. at all berths.

BERTHING: Vessels berth head on to buoy. Two 12 in. 110 ft. (150 ft. at SBM No. 1) nylon lines from buoy are secured on forecastle head, using equipment provided by Terminal. A suitable messenger rope should be ready for use (provided by the ship). No moorings aft. Berthing Master will advise mooring procedure.

HOSE CONNECTIONS: Amidships. Derrick must plumb over manifold and have minimum SWL 5 tons with equipment in good condition. Any reducers required will be supplied by Terminal. Connecting and disconnecting by ship's personnel with advice from Berthing Master's Assistant.

BALLAST: No facilities for reception of dirty ballast.

Tankers should arrive with clean ballast, lines and pumps and no oil should be released into the sea.

MEDICAL: Medical treatment can be given by Petroleum Development (Oman) Ltd.'s medical staff to crews of ships on Time Charter to Shell International Marine on ships using P.D. (O) Ltd.'s tanker agency facilities. A charge of R.S. 25 is made per round trip for launch hire and transport facilities. No dentist is available. Emergency treatment only can be carried out at the P.D. (O) Ltd. Hospital.

REPAIRS: It is not permitted to immobilise main engines whilst moored to the SBM's; under no circumstances should the propeller be turned in the ahead direction.

DENSITY: Approximately 1026.

FRESH WATER: Not available.

FUEL: Fuel oil only available. Lubricants, quantity limited, supplied in drums only.

REPATRIATION: Crew changes and repatriation are not practicable at this port owing to complicated visa formalities.

TIME: GMT plus 4 hours all year round.

SHORE LEAVE: Not possible.

GENERAL: *Liquor.* Trading in liquor strictly prohibited and no alcoholic drink should be offered to Arab nationals.

Cargo Ships. Will anchor in one of following positions: (*a*) Fahal Island bearing 340 degrees (True) distance two miles. Water depth 42 ft. (*b*) Fahal Island bearing 350 degrees (True) distance 1¾ miles. Water depth 42 ft. (*c*) Fahal Island bearing 340 degrees (True) distance 1½ miles. Water depth 57 ft. The Portmaster will allocate an anchorage to incoming vessels.

AUTHORITY: Petroleum Development (Oman) Limited, PO Box 81, Muscat, Sultanate of Oman. Cables: "Petro Muscat". Telex: Muscat Petro MB212.

AGENT: Petroleum Development (Oman) Ltd., will act as Agent. Also see "Muscat".

MUSCAT: 23.37 N. 58.36 E.

DOCUMENTS:
Required on Arrival:
2 Copies Crew List.
1 Copy Maritime Health Declaration form with ports of call from commencement of voyage.
1 Copy Vaccination List.
3 Copies Passenger List.
3 Copies in transit Passenger List.
2 Copies Cargo Manifest.
3 Copies Hatch List.
To be airmailed in advance:
7 Copies Cargo Manifest.
1 Copy Freight Manifest.
1 Stowage Plan.
PILOTAGE: None available.
ANCHORAGE: In Muscat bay with Lighthouse (Fl. every 6 sec.) bearing 90° true.

Leading line is formed by a red light on a flagstaff and a white light, situated at a wall behind this flagstaff. The wall is built in a V shaped opening in the mountain. Both flagstaff and wall can be easily spotted.

It is not advisable for a large ship to proceed further into the bay. Ships, anchored in the above-mentioned position, are well sheltered from all winds, except those from Northerly direction.
RADIO: Muscat Radio keeps a listening watch on the international R/T call frequency of 2182 KHz. This service is available during the period 08.00–14.00 and 15.30–18.00 local time, Saturday/Thursday and 08.00–14.00 on Friday. Range 200 miles.
TUGS: None available.
BERTHING: All the import cargo is discharged at anchorage. Vessels anchor at the entrance of the bay ½ mile off shore.
STEVEDORES: The labour position is fair, except in the date-picking season June to August.

Total of 9 barges are available for landing cargo ex vessels. Landing rates Bagged cargo: 4/600 tons per day; general: 200 tons per day; timber 100/150 tons per day during fair weather provided no congestion on jetty or in the bay and if cargo stowed in more than three hatches.
Working Hours: From sunrise to sunset.
FRESHWATER: Not available.
FUEL: Heavy fuel oil is available at Mina Al Fahal but for tankers only, stem should be made through Shell London. However, this facility in emergency cases is made available to dry cargo vessels provided that the vessel is able to go alongside the buoy by herself. Lub. oil and gasoil drums are available to all vessels.
WATCHMEN: A Customs watchman will be present on board throughout the stay of the vessel in port, and the vessel must provide him with food and accommodation during the stay. The same is applicable in the case of tally staff.
MEDICAL: There are already three hospitals in Mutrah/Muscat fairly equipped and employing foreign qualified doctors.
CUSTOMS ALLOWANCES: As per rules, vessels calling Muscat or Mina Al Fahal will not entertain any visitor on board with alcoholic drinks irrespective of his nationality or status. Also prohibited is the use of alcoholic drinks by the officers and crew in the open. However, they are allowed to do so in their cabins.
SHORE LEAVE: Not allowed.
REPATRIATION: Crew changes and repatriation not practicable at this port owing to complicated visa formalities.
TIME: GMT plus 4 hours all year round.
AUTHORITY: Director General of Customs, Muscat.

AGENT: Gulf Agency Co. (Oman) Limited, POB 1033. Mutrah, Sultanate of Oman. Tel. 401 or 221. Telex: Muscat MB–220, Cables: Confidence Muscat. VHF Radio Channel 6, call sign "Bhacker".

MUTRAH (Mina Qaboos):

Port under construction.

DOCUMENTS, and all general information, refer to 'Muscat'.
DEVELOPMENTS: The first stage provided for the construction of two lighter berths of 1,000 ft. total length, with 14 ft. depth at LWS; a rock armoured breakwater approximately 1,500 ft. long for the protection of the lighter berths two transit sheds 250 ft.×80 ft. Administration Building, Passenger Building, Police and Dock Harbour Office and Ancillary Services. This is now complete.

The second stage will include the construction of a 2,300 ft. long rubble mound breakwater, armoured with 15 ton concrete armouring units on the seaward side; eight berths of a total length of 5,000 ft. with a water depth varying from 24 ft. (min) to 48 ft. (max), which includes a berth 750 ft. long with a 33 ft. average depth with open handling facilities suitable for large pipes and other bulky cargoes, this berth could also be developed for handling container traffic.

The new port will come into operation fully in second half of 1974, but ocean going vessels should be able to berth from the latter part of 1973.

AGENT: See Muscat.

Pakistan

KARACHI: 24.52 N. 67.00 E.

DOCUMENTS: *Required before vessel's arrival:*
2 copies Freight Manifest.
2 sets Bills of Loading.
3 copies Stowage Plan.
2 copies Passenger manifests.
3 copies Cargo Manifest.
3 copies Hatch Lists.
1 copy Exception Lists.
6 copies Passenger Lists.
With vessel:
2 copies Cargo manifest.
Last Port Clearance Certificate.
6 copies each Passenger List, disembarking and transit.
2 copies List of favour parcels.

The following special Pakistan forms are brought on board by Agent for completion on arrival:
2 Customs Arrival Reports.
2 Opium and Dangerous Cargo Certificates.
2 Ship's Currency Lists.
6 Deck Cargo Certificates.
1 Company's Arrival Report.
1 Ship's Crew Advance (if required).
1 Expiry date of Ship's Certificate.
1 Same Bottom or Intransit Cargo.
1 Water Indent.
*10 Crew Lists.
3 Stores Lists.
3 Property Lists.
7 Cargo Gear Information Forms.
* If this is ready prior to arrival, please attach to this form.

PILOTAGE: Pilotage is compulsory for ship of 200 nrt and upwards. Pilot boards at the Outer Anchorage.

Vessels are piloted day and night, subject to tides, length and draft, to berths lying on the East and West of the fairway, which is 4·27 miles long. Pilotage distance is about 5 to 6 miles.
ANCHORAGE: Outer Anchorage where ships await berth safe except during the S.W. monsoon from mid-May to September. During monsoon no anchorage is recommended. Vessels should anchor a safe distance outside the breakwater within Lighthouse bearings 045 and 025. Depth of water at the anchorage is about 9 fathoms.
RESTRICTIONS: Datum depth is 27 ft. A draft over 32 ft. is not recommended due to varying depths at berths, and siltation in the ship channel.

Berthing at any time, except vessels with bridge aft which permitted daylight only.

Sailings permitted during flood tide only. Tankers with LOA over 525 ft. Permitted to sail on flood tide during daylight hours only. Vessels with bridge aft permitted to sail on flood tide during daylight hours only.
MAX. SIZE:

	Length	*Draft*
Bulk carriers and general cargo (dry cargo)	945 ft.	32 ft.
Bulk oil tankers, white oil product	525 ft.	32 ft.
Bulk oil tankers, black oils.	650 ft.	32 ft.

PRATIQUE: The Port Health Authorities give automatic clearance on receipt of a "clean" standard quarantine message and this will be conveyed by the Pilot. However, ships from Yellow Fever areas must be cleared during daylight hours by the Port Health Officer on arrival alongside. On sailing to ports outside India and Pakistan, a medical inspection takes place on the day before sailing. It is, in theory, necessary for a members of the crew to be present at this inspection, although usually the inspection is only a formality. All vessels required obtain Immigration Clearance on arrival.

All vessels which have touched any port or ports between Port Sudan and Durban, on the East Coast of Africa, including these ports, are considered "suspected" vessels on account of yellow fever and jigger and may not have communication with the shore till cleared at berth by the Port Health Office, who attends only between sunrise and sunset, except in special circumstances. The incubation period for yellow fever under the rules is given as 9 days, but vessels arriving later than 9 days are still not free from quarantine because there is no incubation period for jigger.
RADIO: Port Authorities equipped with VHF radio-telephone, calling Channel 16, working Channel 12. Control Station call sign "Manora Pilot Control".

Vessels should establish radio contact with control station as soon as they are within VHF range.

Use of Channel 12 is restricted to the following: Ships while entering harbour are to maintain watch on Channel 12 as soon as pilot boards. Ships in harbour scheduled to sail are to keep a listening watch half an hour before sailing till their clearance from the port.
TUGS: Towage is rendered by Port Trust tugs on signal from Pilot. Towage is not provided outside the breakwater except in very special circumstances at the direction of the Deputy Conservator. There are 7 diesel tugs, all owned by the Port Trust.
BERTHING: *East Wharf:* Seventeen berths, total quayage 8622 ft. Berth Nos. 5 to 17 are on a concrete quay wall of the latest type. All berths are rail-served. Berth lengths vary from 430 ft. to 550 ft. and depths from 26 ft. to 32 ft.

West Wharf: Seven berths on a concrete quay wall. There are

three berths of 575 ft. and one of 600 ft. Depths vary from 31 ft. to 32 ft.

Bulk Oil Pier and Extension: Three berths, 403 ft., 664 ft. and 1,000 ft. with depths of 29 ft. 3 in., 31 ft. 0 in., and 36 ft. 0 in. respectively. Berths lie in a North-South direction on the Eastern edge of the channel.

Lighterage Berths: Two lighterage berths of 600 ft. length each. These berths have depths of 24 ft. alongside, and can easily accommodate small medium draft sea-going ships.

STEVEDORES: Working Hours: Monday through Thursday and Saturday, day shift: 0730–1130 and 1230–1630. On Fridays day shift: 0730–1230 and 1400–1630. Mondays through Saturday, night shift: 1900–2300 and 2300 to 0330 next day.

Overtime periods: 0330–0630, 1130–1230, 1630–1830.

TANKERS: Mineral oils discharged at the Bulk Oil Pier, three berths, and at West Wharf berth 20. Heavy grades may be discharged at the steamer wharves but dangerous petroleum only at the Oil Pier.

Vegetable oils are handled at both the terminals mentioned above, and at East Wharf berth 9.

Slop reception facilities: Not available.

FRESH WATER: Available ex-wharf or by barge.

FUEL: In addition to coal, three grades of petroleum are available-furnace oil, light diesel oil and high speed diesel oil. Furnace oil can be supplied by pipeline at all berths Light diesel only at berths 1 to 4 At other berths supply is made by tank wagons and lorries. Large quantities can be supplied by pipeline at the Bulk Oil Pier only.

REPAIRS: Repairs can be carried out at the anchorage except in the monsoon season. Two ship repair jetties are available in the port. In addition, Karachi Shipyard and Engineering Works Ltd. provide all kinds of repair and ship-building facilities.

DEVELOPMENTS: 1. Dredging and widening and deepening of channel to 34 ft. below datum.

The scheme for the provision of 4 medium draft berths in continuation of the lighterage berth and 4 more berths in line with the Oil Pier is under construction.

HOLIDAYS: Eid-ul-Azha; Muharram; Defence of Pakistan Day (23rd March); Eid e Miland un Nabi; Independence Day (14th August) Defense of Pakistan Day (6th September); Jamat-ul-Wida; Eid-ul-Fitr; Anniversary of Death of Quaid-e-Azam; Christmas Day (25th December).

TIME: GMT plus 4½ hours all year round.

AIRPORT: Karachi Airport, seven miles from city. International connections to all parts of the world.

SHORE LEAVE: Shore passes are granted by Immigration Authorities when they first go on board and must be returned on departure of the vessel. These passes permit entry/exit to the docks until 11 pm. This latter regulation is not strictly enforced.

Indian crew are not allowed ashore except in emergency. An Immigration policeman will remain on board in port where Indian crew are carried. This policeman will ask for some sort of accommodation. This need only be given if it does not cause inconvenience to the ship.

AUTHORITY: Karachi Port Trust, POB 4725. Cables: "Porttrust Karachi".

Panama

ALMIRANTE (Chiriqui): 09.17 N. 82.23 W.

DOCUMENTS:

Clearance from Last Port.
Health Declaration.
1 Vaccination List.
10 Crew Lists.
6 Passengers Lists (or negative).
6 Ship's Provisions Lists.
6 Cargo Manifests (or Manifest of Ballast).
(Crew Personal Effects declaration is not required.)

PILOTAGE: Pilots are stationed at Boca del Toro town. There are three Pilots, working on daylight only. Pilotage service is compulsory, and arranged by the Agent. Three long blasts to call the Pilot on arrival. Pilot ladder on port side. The small pilot launch meets vessels off Cape Toro. This launch is white wooden hull, with a "P" on her bows. Speed limitations from Cape Toro to Mangrove Pt. due to depth. Pilot will remain on board until vessel leaves.

ANCHORAGE: It is recommended with Cape Toro bearing from 150 to 180 degrees and eight cables off.

RESTRICTIONS: Draft up to 22 ft. Minimum depths between buoys "A" and "B", 28 to 29 ft. Normal head swell about 5 ft.

HEALTH: Pratique given by doctor who boards on arrival. In case suspected disease on board, radio Agent in advance, advising details.

RADIO: Cables to and from Agent, via stations operated by Tropical Radio Telegraph Co., preferably Ojus Radio/WAX or WNU. VHF – not available.

TUGS: Not available.

BERTHING: One banana pier, 650 ft., with four elevators. One general cargo pier, 350 ft. Starboard side alongside. Maximum draft alongside these piers 32 ft., but draft limited to 26 ft. at the entrance (Boca del Toro).

STEVEDORES: Agent has responsibility of making all arrangements for loading and unloading, stevedores working around the clock.

FRESH WATER: Fresh water is limited. It is restricted from December to April. Loading rate from the quay 2 tons per hour.

FUEL: Not available.

REPAIRS: No repairs can be carried out.

FRESH PROVISIONS: It is almost impossible to get them.

TIME: GMT minus 5 hours.

CONSULS: The following countries are represented: Costa Rica, El Salvador, Honduras and Nicaragua.

MEDICAL: All facilities available.

CUSTOMS ALLOWANCES: No restrictions as far as nothing is taken out the vessel.

TELEPHONES: Not available.

OPENING/CLOSING HATCHES: Performed by ship's crew or stevedores if required.

GANGWAY/DECK WATCHMEN: Available from shore if required.

DENSITY: About 1005.

SHORE LEAVE: Allowed, no restrictions.

POLICE/AMBULANCE/FIRE: Telephone on the quay, connected to the exchange.

REPATRIATION: Can be arranged without difficulty.

AIRPORT: Domestic flights airport about 20 km. distance.

AUTHORITY: Capitania del Puerto.

BALBOA: Canal Zone, 08.58 N. 79.34 W.

(N.B. For items not listed below, see "Panama Canal".)

RESTRICTIONS: Port open throughout 24 hours.

MAX. SIZE: Harbour limitations generally unrestricted as to length and beam. Depth about 40 ft. low water. Vessels in excess of 38 ft. 6 in. draft not handled during period 2·5 hours before and 2 hours after low water.

Tankers working cargo restricted to 700 ft. length and 36 ft. salt water draft.

TUGS: Available and assigned for berthing by Pilot. Tug's lines used at no extra charge.

BERTHING: No specific requirements as to arrival times. Nine berths available.

(Pleasure yachts under 65 ft. length, may be permitted to dock at Panama Canal Yacht Club or Balboa Yacht Club after clearance by boarding officer and after Master has received permission from Port Captain, Customs authoririte and Yacht Club officials concerned. Chief Customs Inspector shall have authority to grant or deny such permission at his discretion.)

Rodman Naval Station: Piers can accommodate vessels of 700 ft. length and up to 39 ft. draft for oil discharge, bunkers or stores.

Panama Canal Co. Dock

Dock	*Usable length*	*Maximum S.W. draft*
4	492 ft.	30 ft.
6	742 ft.	36 ft.
7	1,058 ft.	34 ft.
8	470 ft.	26 ft.
14	775 ft.	36 ft.
15	1,146 ft.	40 ft.
16	742 ft.	38 ft.
18	500 ft.	39 ft.
18	500 ft.	35 ft.
18	1,000 ft.	40 ft.

STEVEDORES: Endeavour arrange arrival to avoid cost of "stand by" as Agent arranges gangs for 07.00 or 17.00 commencement.

TANKERS: One berth for vessels up to 40 ft. draft.

FRESH WATER: Available.

FUEL: Bunker "C", diesel, light fuel and light diesel available at Government wharves from commercial companies. Rate of delivery 2,000 bbls. per hour.

REPAIRS: Emergency repairs possible.

DRY DOCK: Length 1044 ft., generally reserved for Canal Company vessels, but arrangements may be made for emergency dry-docking.

POLICE/AMBULANCE/FIRE: Emergency tel. 110; routine Police business 2–1277.

TELEPHONES: May be placed aboard through arrangement with Port Captain.

SHORE LEAVE: Generally permitted.

CUSTOMS: Customs and Immigration Inspection Service available Monday to Saturday from 07.00 to 17.00. Charges for such service after hours and on Sundays and holidays set forth in Panama Canal Tariff. Number of inspectors required will be determined by Chief Customs and Immigration Inspector of port.

DELAYS: Delays in berthing, load or discharge or bunkering are minimal and infrequent. Eight hours is considered excessive.

AUTHORITY: Panama Canal Company, Balboa Hts., Canal Zone. Cable "Pancanco". Captain of the Port (Balboa): tel. 2–2631.

AGENT: C. Fernie & Co., Inc. PO Box 212. Cable Address: "Fernie–Balboa". Also VHF. Telephone Nos.: Balboa 1657–1371. After office hours telephone numbers: Panama 24–9091, Panama 24–9803.

All correspondence should be addressed to Cristobal, Canal Zone.

COLON: Canal Zone 09.21 N. 79.54 E.

DOCUMENTS, and all general information, refer to "Panama Canal".

MAX. SIZE: Colon Harbour restricted to vessels with draft of 31 ft. or less. Draft 30 ft. if vessel's LOA exceeds 650 ft.

FUEL: Delivered by barge from Refineria Panama.

CRISTOBAL: Canal Zone, 09.21 N. 79.54 W.

(N.B. For items not listed below, see "Panama Canal".)

PORT LIMITS: Ship's arrival time is normally determined by their passage between the breakwater lights. Those that anchor outside the breakwater by arrangement with the Port Captain are timed as arrived when they drop anchor.

PILOTAGE (also see "Panama Canal"): Pilotage into Cristobal not compulsory, although services of Pilot outside breakwater are available on request.

Vessels arriving outside Cristobal Breakwater who have requested an outside Pilot are required to *heave to and make a good lee.*

A pilot ladder rigged with appropriate spreaders and well illuminated at night to be provided by vessel. Accommodation ladders not acceptable for embarking Pilots outside breakwater.

ANCHORAGE: Vessels will ordinarily proceed to anchorage area according to length and draft unless otherwise directed. Arriving vessels expected anchor as far to South and inward from main channel in their anchorage area as is consistent with safety. Vessels anchoring in non-designated areas may be required to move.

Anchorage Area "A". For all ships with a deep salt-water draft of not less than 34 ft. and not in excess of 39 ft. Minimum charted depth is 40 ft.

This area starting at Lat. 9° 23′ 21″ N., Long. 79° 55′ 21″W.,
thence to Lat. 9° 22′ 48″ N., Long. 79° 56′ 15″ W.,
thence to Lat. 9° 22′ 14″ N., Long. 79° 56′ 15″ W.,
thence to Lat. 9° 21′ 56″ N., Long. 79° 55′ 48″ W.,
thence to Lat. 9° 21′ 25″ N., Long. 79° 55′ 48″ W.,
thence to Lat. 9° 21′ 25″ N., Long. 79° 55′ 21″ W.,
thence due North to starting-point. However, restricted area North and East of Buoy 2, as charted, must be observed. Explosive sector charted in this area to be avoided whenever possible.

Anchorage Area "B". For all ships with salt-water draft under 32 ft. Minimum depth is 29 ft. Explosive sector restricted to vessels carrying explosives or specially designated vessels. All ships of such length as to under no circumstances swing into Anchorage Area "A".

This area starting at Lat. 9° 22′ 48″ N., Long. 79° 56′ 15″ W.,
thence to Lat. 9° 22′ 32″ N., Long. 79° 56′ 41″ W.,
thence to Lat. 9° 21′ 42″ N., Long. 79° 56′ 41″ W.,
thence to Lat. 9° 21′ 52″ N., Long. 79° 56′ 00″ W.,
thence to Lat. 9° 21′ 25″ N., Long. 79° 56′ 00″ W.,
thence to Lat. 9° 21′ 25″ N., Long. 79° 55′ 48″ W.,
thence to Lat. 9° 21′ 56″ N., Long. 79° 55′ 48″ W.,
thence to Lat. 9° 22′ 14″ N., Long. 79° 56′ 15″ W.,
thence due North to starting-point.

Anchorage Area "C". Required pilotage waters for inbound vessels.

This area starting at Lat. 9° 21′ 25″ N., Long. 79° 55′ 21″ W.,
thence to Lat. 9° 21′ 25″ N., Long. 79° 56′ 00″ W.,
thence to Lat. 9° 20′ 48″ N., Long. 79° 55′ 57″ W.,
thence to Lat. 9° 20′ 27″ N., Long. 79° 55′ 21″ W.,
thence due North to starting-point. Restricted area East and South of Buoy 2, as charted, must be observed.

Anchorage Area "D". For all ships of over 350 ft. in length and a deep salt-water draft of less than 35 ft. except where minimum charted depth is 32 ft.

This area starting at Lat. 9° 23′ 19″ N., Long. 79° 55′ 15″ W.,
thence to Lat. 9° 22′ 55″ N., Long. 79° 54′ 21″ W.,
thence to Lat. 9° 22′ 22″ N., Long. 79° 54′ 21″ W.,
thence to Lat. 9° 22′ 02″ N., Long. 79° 54′ 55″ W.,
thence to Lat. 9° 22′ 02″ N., Long. 79° 55′ 15″ W.,
thence due North to starting-point.

Anchorage Area "E". For all ships less than 350 ft. and small craft. Minimum charted depth of water is 24 ft.

This area starting at Lat. 9° 22′ 55″ N., Long. 79° 54′ 21″ W.,
thence to Lat. 9° 22′ 27″ N., Long. 79° 53′ 54″ W.,
thence to Lat. 9° 22′ 22″ N., Long. 79° 53′ 54″ W.,
thence to Lat. 9° 22′ 22″ N., Long. 79° 54′ 21″ W.,
thence due North to starting-point.

Anchorage Area "F". For small craft and yachts. Pilotage for this area will be decided by Cristobal Port Captain, based on merit of each individual case. Under no circumstances may a vessel proceed to this area prior to being cleared by Boarding Officials. (Bounded by Channel Buoy "3" by a direct line through Buoys "A," "B," "C," "L4," "L2" and return to Buoy "3".)

Prohibited Anchorage. Eastern side of channel, Canal Zone waters South of Lat. 9° 22′ 02″ N. to Mole Buoy in order to give clear access to Colon Harbor. Also, no vessel or craft may proceed south of Lat. 9° 21′ 25″ N. prior to being cleared by Boarding Officials. No vessel may anchor with any part of the vessel in the main channel or closer than 300 yards to either East or West breakwater lights.

In cases due to harbour congestion, any vessel may be directed to anchor to Westward outside breakwater entrance and given an order as to the time it is to pass through the breakwater entrance.

RESTRICTIONS: Port open throughout 24 hours.

MAX. SIZE: Harbour limitations generally unrestricted as to length and beam. Draft 40 ft.

RADIO: The Port Captain may be contacted via VHF Channel 12. Commercial telephone calls and messages to Agents may be made via Panama Radio, VHF Channel 16.

TUGS: Available and assigned for berthing by Pilot. Tug's lines used at no extra charge.

BERTHING: No specific requirements as to arrival times. Fifteen cargo and bunkering berths.

STEVEDORES: Endeavour arrange arrival to avoid cost of "stand by" as Agent arranges gangs for 07.00 or 17.00 commencement.

TANKERS: Four berths available.

FRESH WATER: Available from piers.

FUEL: Bunker "C", diesel, light fuel and light diesel available at Government wharves from commercial companies. Rate of delivery 2,000 bbls. per hour.

The Southern part of Anchorage C, Cristobal Harbour, has been designated a limited bunkering area for vessels whose draft is too great to use the East breakwater bunkering area.

A large mooring buoy has been placed there. Vessels will anchor and use the buoy as a stern mooring.

Pilotage is compulsory out and into this area for vessels and bunkering barges.

REPAIRS: Emergency repairs possible.

DRY DOCK: Length 386 ft., breadth 60 ft., depth over blocks 20 ft. 6 in. MLW.

POLICE/AMBULANCE/FIRE: Emergency number 110. Routine Police business 3–2111.

TELEPHONES: May be placed aboard through arrangement with Agent.

SHORE LEAVE: Generally permitted.

CUSTOMS: Customs and Immigration Inspection Service available Monday to Saturday from 07.00 to 17.00. Charges for such service after hours and on Sundays and holidays set forth in Panama Canal Tariff. Number of inspectors required will be determined by Chief Customs and Immigration Inspector of port.

DELAYS: Delays in berthing, load or discharge or bunkering are minimal and infrequent. Eight hours is considered excessive.

AUTHORITY: Panama Canal Company, Balboa Heights, Canal Zone. Captain of the Port (Cristobal), tel. 3–1639.

AGENT: C. Fernie & Co., Inc. PO Box 5042, Cable address: "Fernie-Cristobal". Telephone Nos.: Cristobal 1772–1295–2914–2128. Telex Nos.: ITT–3482020, TR–9211 "Fernie Pa". Also VHF. After office hours telephone numbers. Cristobal 2468, Cristobal 2568.

PANAMA CANAL (entering **Cristobal** or **Balboa**)

BOARDING OFFICER: Arriving vessels will be boarded upon arrival inside the breakwater at the Atlantic entrance or off the seaward end of the dredged channel at the Pacific entrance by a Canal boarding officer in accordance with procedures and boarding hours established for the boarding of vessels at the respective ports by the Canal authorities.

Vessels shall be entered at Canal Zone port of arrival by boarding officer and it is not necessary for masters to come ashore for that purpose. A transiting vessel entered at Balboa is required to clear from Cristobal, and vice versa.

Anchoring to await boarding officer: When a vessel is not boarded immediately on arrival, it shall anchor in the appropriate, designated anchorage area and await the boarding officer. See "Anchorages".

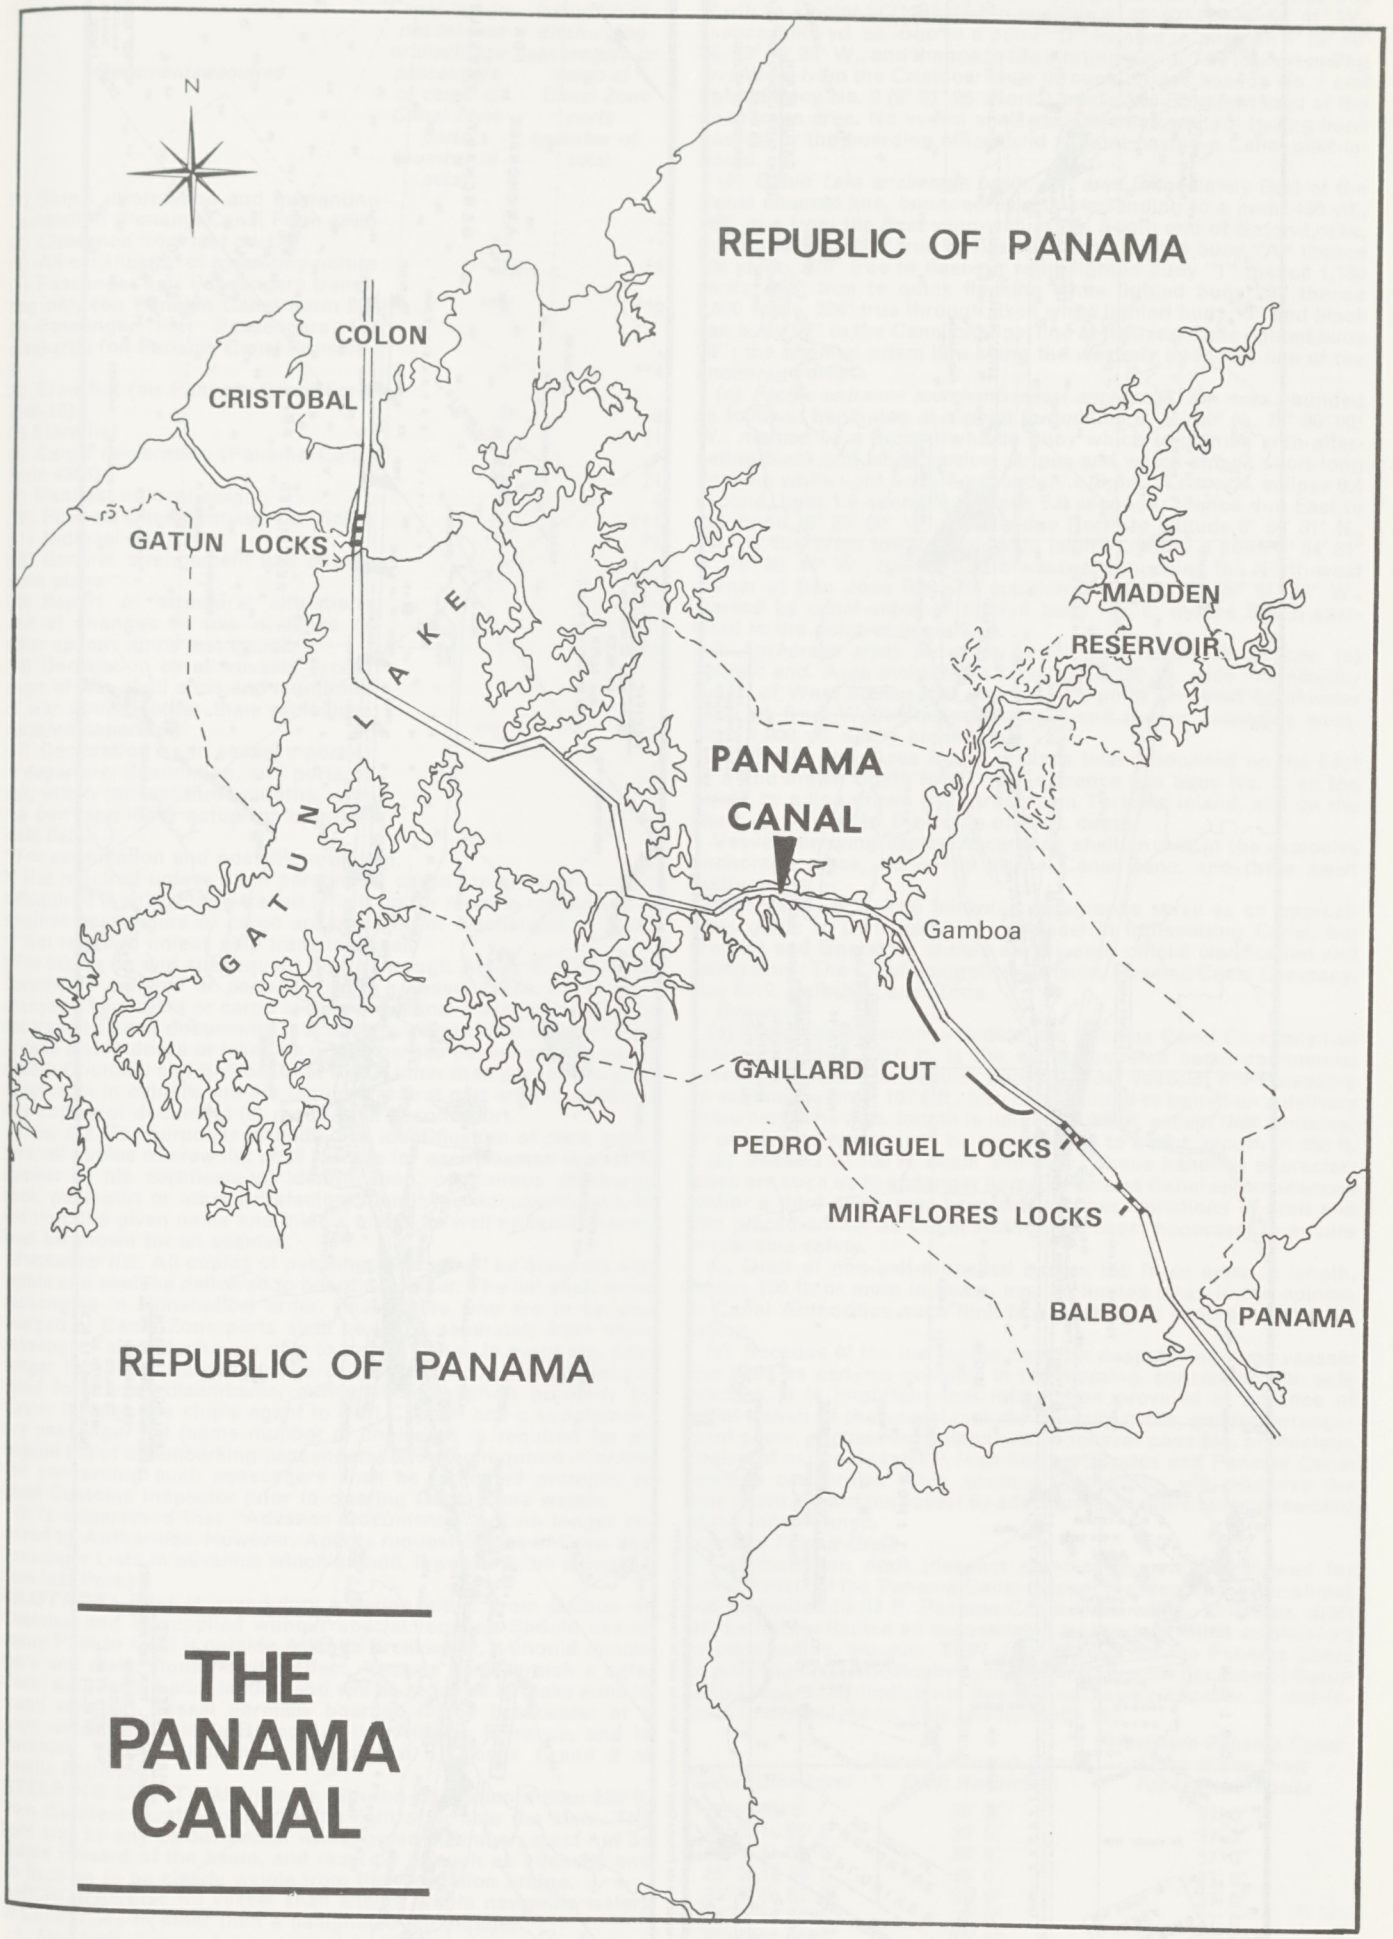
VESSEL'S IDENTIFICATION: Every vessel shall hoist its signal letters when approaching and entering a terminal port, and those arriving at night shall promptly signal their names by flashing light to the signal station. This communication of the vessel's name by signal letters or flashing light is mandatory even though the vessel communicates by voice radio. (Also see "Radio".)

OIL POLLUTION: Every vessel subject to the Federal Maritime Commission's oil pollution financial responsibility requirements must maintain on board and make available to Panama Canal Company boarding Officers the original or copy of its certificate. Any vessel that does not have the necessary certificate on board will not be permitted to transit the Panama Canal.

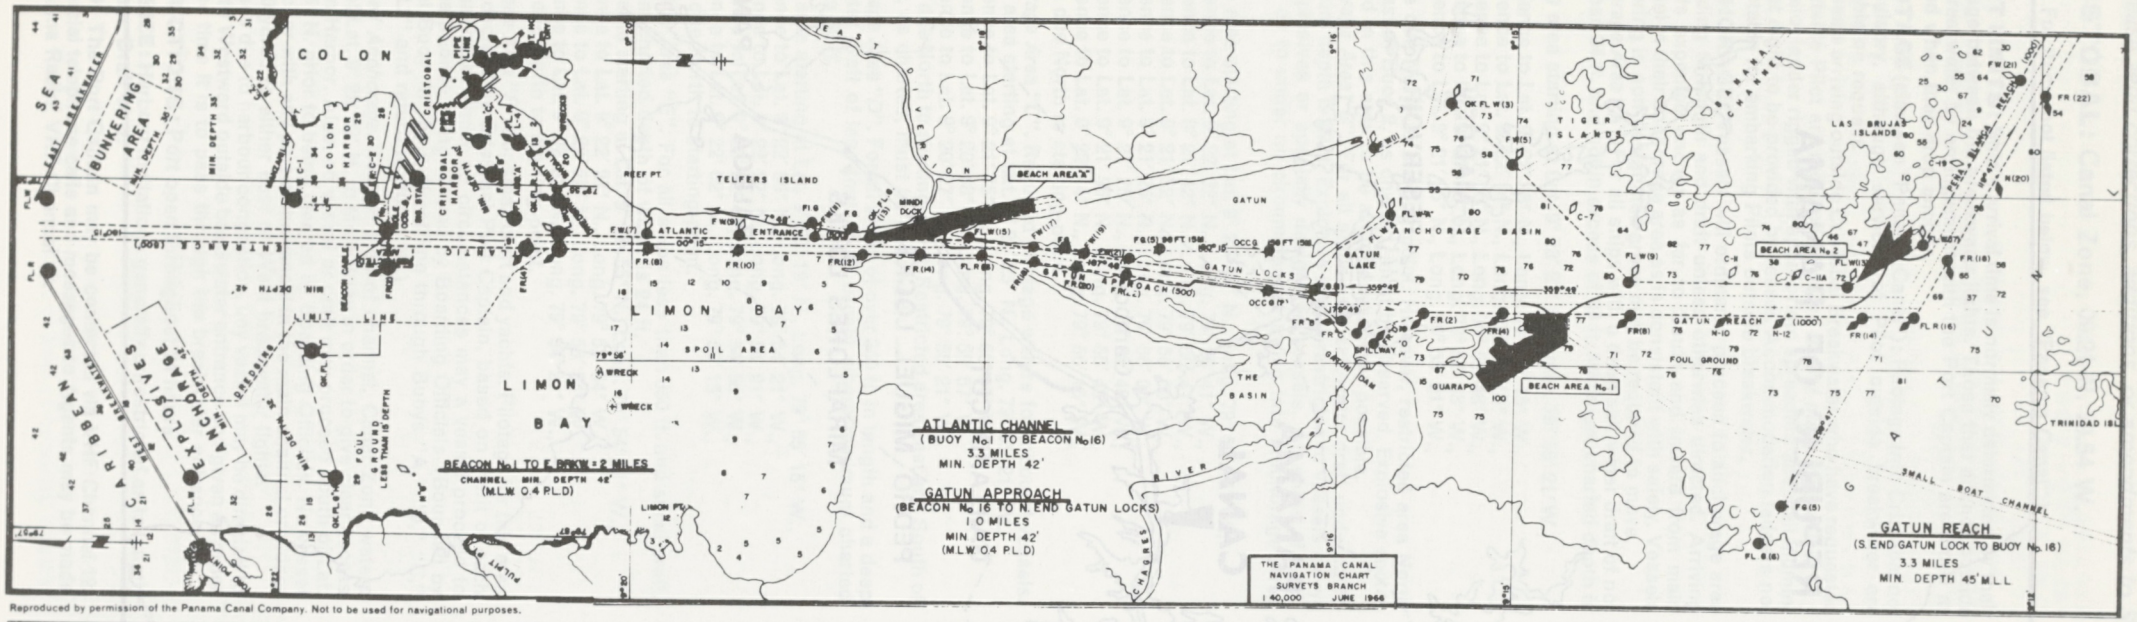
ORDER OF TRANSIT: Canal authorities may dispatch vessels through Canal in any order and at any time they may see fit. Priority of arrival at a terminal does not give any vessel the right to pass through the Canal ahead of another that may arrive later, although order of arrival will be a consideration in determining order of passage.

N.B. A vessel in excess of 150 ft. in length that is not equipped with properly operating rudder-angle and engine-revolution indicators so located as to be readily visible to a pilot on the bridge, will be subject to delay in transiting to the extent the Canal authorities deem necessary or appropriate in order to minimize, in the light of the type and volume of Canal traffic and of other factors relating to the safety of Canal operations, the increased hazards of navigation resulting from failure of the vessel to be so equipped. (In practice this regulation is thought to require that the indicators should be located on wings of bridge as well as inside wheelhouse for vessels over 80 ft. beam.)

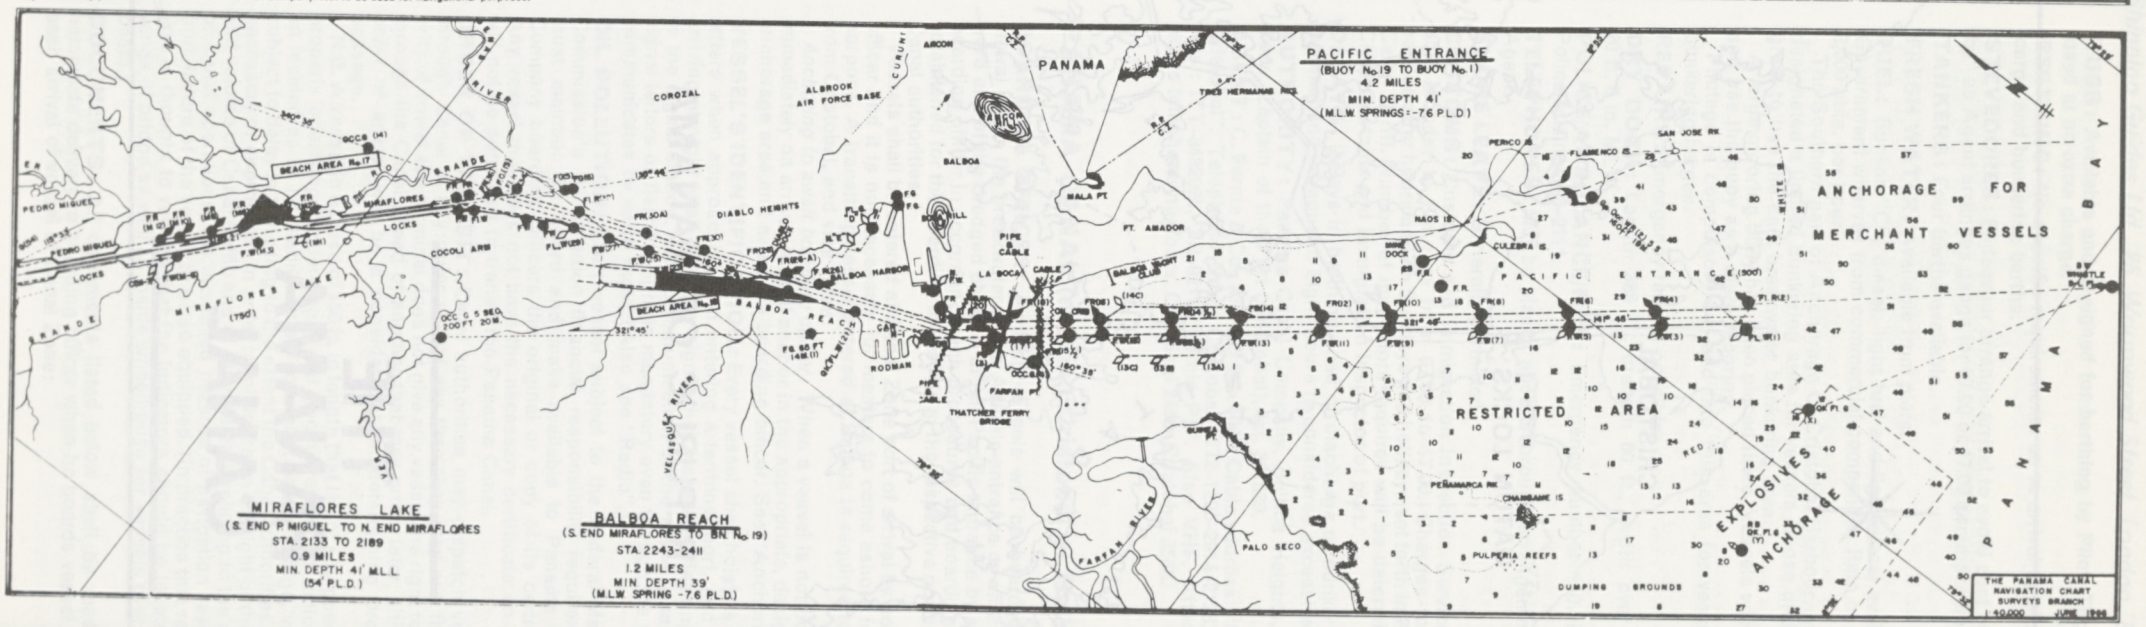
DOCUMENTS: All documents listed below shall be ready for immediate delivery to boarding officer when he boards vessel upon each arrival of vessel in Canal Zone:



THE PANAMA CANAL



Reproduced by permission of the Panama Canal Company. Not to be used for navigational purposes.



Documents required	From ships which transit Canal but do not take on or discharge passengers or cargo at Canal Zone ports (number of sets)	From ships taking on or discharging passengers or cargo at Canal Zone ports (number of sets)
(1) Ship's information and quarantine declaration (Panama Canal Form 4398)	1	1
(2) Clearance from last port	*1	*1
(3) All certificates of a sanitary nature	*1	*1
(4) Passenger list: Passengers transiting only (on Panama Canal Form 20)	**2	**2
(5) Passenger list: Passengers for discharge (on Panama Canal Form 18–9)	0	**4
(6) Crew list (on Panama Canal Form 1509–10)	2	2
(7) Store list	†1	†1
(8) Cargo declaration (Panama Canal Form 4363)	1	‡1
(9) Manifest of local cargo	0	4
(10) Panama Canal tonnage certificate	1	††1
(11) National register	*1	*1
(12) General arrangement and engine room plans	‡1	††1
(13) Report of structural alterations and of changes in use of tanks or other spaces since last transit	1	††1
(14) Declaration by all vessels except ships of war of all arms and munitions of war aboard other than explosives declared separately	**2	**2
(15) Declaration as to vessel's port(s) of departure, destination, and ports of call, within the last three months, with the corresponding actual or approximate dates	1	1

* For examination and possible retention.
** Not required unless such persons or cargo are carried.
† Required if ship during transit is laid up for repairs, regardless of whether passengers or cargo are taken on or discharged.
†† Not required unless ship transits Canal.
‡ For taking up and subsequent return through Agent or otherwise.

Documents required at ports. In case a vessel takes on or discharges passengers or cargo at only one Canal Zone port and does not transit Canal, documents indicated in column two are required. In case a ship docks or takes on or discharges passengers or cargo at both Cristobal and Balboa, or at a port other then port of entry, all documents in column two are required at first port and, in addition, four copies of document (9) required at second port.

Crew list. For purposes of additional identification of crew members, all copies of crew list shall include for each seaman the serial number of his certificate of identification, continuous discharge book, pass-port or other satisfactory identifying documentation. In addition, the given name and middle initial, as well as family name, shall be shown for all seamen.

Passenger list. All copies of passenger lists shall be accurate and legible and shall be delivered to boarding officer. The list shall show passengers in alphabetical order. Passengers who are to be discharged at Canal Zone ports shall be listed separately from other passengers aboard who are only to transit Canal. In event any passenger listed for discharge fails to disembark, or any passenger listed for transit disembarks, notice shall be given promptly by Master through his ship's agent to Port Captain and a supplementary passenger list (same number of copies as is required for an original list of disembarking passengers) showing required information concerning such passengers shall be furnished promptly to Chief Customs Inspector prior to clearing Canal Zone waters.

(It is understood that "Advance Documents" are no longer required by Authorities. However, Agents request copies of Crew and Passenger Lists in advance, which should, if possible, be airmailed from last Port.)

PILOTAGE: Pilot is mandatory entering either from Balboa or Cristobal and is supplied without special request. Should vessel desire Pilot to meet it outside Atlantic Breakwater, it should remain there and make signal to that effect. Vessels shall furnish a safe, clean, well-lighted pilot ladder, and will be required to make a lee in rough weather. Vessel normally boarded inside breakwater at a point north of the Mole Beacon at the Atlantic Entrance, and in Merchant Vessel Anchorage to seaward of Buoys 1 and 2 at Pacific Entrance.

STEERING LIGHT: All vessels with the bridge more than 250 ft. from the stem must have a steering light at or near the stem. The light may be any colour except white, green or amber, must not be visible forward of the beam, and must be of such an intensity and so fixed as to be clearly visible from the navigation bridge.

ANCHORAGES: No vessel shall anchor within navigable waters of Canal Zone in other than a designated anchorage.

1. *Merchant Vessel Anchorages.* (a) *Atlantic entrance merchant-vessel anchorage.* An area to the west of the Canal channel bounded as follows: Starting at a point "A", located in position 9° 21′ 25″ N., 79° 55′ 31″ W., and marked by gas buoy No. 2, thence 900 yd. 270° true to a point "B" located in position 9° 21′ 25″ N., 79° 55′ 58″ W., thence to lighted buoy "I", thence to lighted buoy "H", thence due North to a point "C" located in position 9° 22′ 07″ N., 79° 56′ 41″ W., thence 2,800 yd. 59° true to a point "D" located in position 9° 22′ 50″ N., 79° 55′ 29″ W., and thence to the starting-point. The line extending due West from the Cristobal Mole through lighted beacon No. 1 and lighted buoy No. 2 (9° 21′ 25″ North) marks the Southern limit of the anchorage area. No vessel shall pass this line without having been passed by the boarding officer and without having a Canal pilot on board.

(*b*) *Gatun Lake anchorage basin.* An area immediately East of the Canal channel line, bounded by a line extending to a point 450 yd., 120° true from the East wing-wall at the South end of Gatun Locks, thence 690 yd., 148° true to flashing white lighted buoy "A" thence 700 yards, 070° true to flashing white lighted buoy "1" thence 1,130 yards, 148° true to quick flashing white lighted buoy "3" thence 2,800 yards, 224° true through fixed white lighted buoy "5" and black can buoy "7" to the Canal channel line at flashing white lighted buoy "9"; the channel prism line being the westerly boundary line of the anchorage area.

(c) *Pacific entrance merchant-vessel anchorage.* An area bounded as follows: beginning at a point in position 8° 51′ 50″ N., 79° 30′ 00″ W., marked by a lighted whistle buoy which is painted with alternating black and white vertical stripes and which shows short-long flashing white light every 8 seconds, i.e. light 0.4 second, eclipse 0.4 second, light 1.6 seconds, eclipse 5.6 seconds; thence due East to longitude 79° 28′ 00″ W.; thence due North to latitude 8° 54′ 31″ N., thence due West toward Flamenco Island Light to a point 8° 54′ 31″ N., 79° 30′ 46″ W.; thence South-westward touching the North-west corner of San Jose Rock to position 8° 53′ 27″ N., 79° 31′ 23″ W., marked by canal-entrance lighted buoy No. 2; thence South-eastward to the point of beginning.

2. *Anchorage areas for ships loaded with hazardous cargoes.* (a) *Atlantic end.* Area included in rectangle 1,000 yd. wide immediately South of West breakwater, starting at a point on West breakwater 1,000 yd. from West Breakwater Light and thence extending westward 2,000 yd. along breakwater.

(b) *Pacific end.* Area South of Naos Island bounded on the East by a line drawn South (true) from entrance gas buoy No. 1; on the South by a line drawn east (true) from Tortolita Island, and on the North and West by the curve of 30-ft. depth.

Vessels carrying explosive cargoes shall anchor in the explosive anchorage areas, on arrival at the Canal Zone, and there await instructions.

MAX. SIZE: N.B. The following paragraphs serve as an approximate guide to permitted size of vessel in transmitting Canal, but Owners and Operators should always seek official clarification and ruling from: The Chief Navigation Division, Panama Canal Company, Box 5012, Balboa, Canal Zone.

1. *General*

(*a*) Based on experience to date, the Panama Canal Company has determined that 106·0 ft. is the widest extreme beam commercial vessel acceptable for regular transit. Wider vessels, not exceeding an extreme beam of 107·0 ft., may be permitted to transit on a delivery basis only. The max. length is limited to 900 ft. except that container or passenger vessels will be accepted up to a max. length of 950 ft.

(*b*) Vessels of 100 ft. beam and over, whose handling characteristics are such as to endanger herself, Panama Canal appurtenances and/or a third party, may have such further limitations of draft and trim placed on her as Canal Authorities deem necessary to ensure reasonable safety.

(*c*) Draft of non-self-propelled barges 550 ft. or more in length, and/or 100 ft. or more in beam, may be limited when in the opinion of Canal Authorities such limit is necessary to ensure reasonable safety.

(*d*) Because of the increasing need for despatching large vessels and tows as early as possible in the morning, consistent with safe practice, it is important that information provided in advance of initial transit of the vessel include capacity plans, general arrangement plans, engine-room plans and, whenever possible, photostatic copies of national register, load-line certificates and Panama Canal tonnage certificates. This advance information will minimise the time spent aboard the vessel by admeasurers before commencement of the initial transit.

2. *Initial Transit Draft*

The maximum draft (deepest point of immersion) allowed for initial transit of the Panama Canal (except for identical sister-ships) will be limited to 37 ft. Panama Canal fresh water. This max. draft will be further limited as necessitated by the draft limits established by bilge radius, the max. TFW draft allowed for the Panama Canal as promulgated periodically by the Marine Director because of Gatun Lake Level, or by limitations deemed necessary because of restrictions in the waterway. This will normally be:

Gatun Lake Level	Normal Panama Canal Draft Restriction	Maximum Panama Canal Fresh Water Draft For Initial Transits
Over 86′ 6″	39′ 6″	37′ 0″
86′ 0″ to 86′ 6″	39′ 0″	37′ 0″
85′ 6″ to 86′ 6″	38′ 6″	37′ 0″
85′ 0″ to 85′ 6″	38′ 0″	37′ 0″
84′ 6″ to 85′ 0″	37′ 6″	37′ 0″
84′ 0″ to 84′ 6″	37′ 0″	37′ 0″
83′ 6″ to 84′ 0″	36′ 6″	36′ 6″
83′ 0″ to 83′ 6″	36′ 0″	33′ 0″

3. *Maximum transit draft.* After initial transit made at, or less than, authorised initial transit draft, maximum draft for succeeding transits

will be maximum allowable Panama Canal fresh water draft for particular vessel, based on all relevant factors. After initial transit, Owners, Operators or Agents will request authorised maximum draft from the Chief, Navigation Division. This request will be returned with approved maximum Panama Canal fresh water draft stamped thereon.

4. *Transit drafts for sister-ships.* Identical sisters are not limited to initial transit draft established in paragraph 2. Transits of such vessels will be permitted at maximum Panama Canal fresh water draft authorised an identical sister, lake level permitting.

5. *Procedure to obtain initial transit draft allowances.* Shipowners, Operators or Agents who desire arrange initial transits in excess of 34 ft. Panama Canal fresh water draft must correspond with the Chief, Navigation Division, Panama Canal Company, Box 5012, Balboa, Canal Zone, not later than two weeks prior to loading vessel in order receive designated initial Panama Canal fresh water transit draft.

6. *Increased allowances for vessels with limited bilge radii.* A vessel whose Panama Canal fresh water transit draft allowance is restricted by her bilge radius, may install permanent fendering to keep vessel from touching lock-wall batters when alongside lock walls, providing maximum beam, including fendering, does not exceed 100 ft.

7. *Release from liability.* Masters of vessels will be required to execute a form, undertaking to release Panama Canal Company from liability in case of accident and to indemnify Company for damages sustained in following instances (because of additional draft allowances granted to transiting vessel, these releases are required, generally, on a one-time basis):

(a) When *maximum* tropical fresh water draft during an initial transit (not to exceed 37 ft.) is within 1 ft. 6 in. of authorised mean tropical fresh water load line of transiting vessel;

(b) When initial transit is being made by an identical sister ship at a maximum draft in excess of 37 ft.;

(c) When transiting vessel is equipped with permanent fenders to breast her off the lock-wall batters, until trial transits have proven permanent fenders satisfactory;

(d) When vessel permitted transit at draft greater than her allowed Panama Canal fresh water draft or her mean authorised TFW load line. Vessels over draft will be subject to denial of transit or delay to extent Panama Canal authorities deem necessary in light of traffic conditions and safety of Canal operations;

(e) When a vessel transits at less than the minimum drafts specified below:

Over 425′ up to 475′	8′ fwd. 14′ aft
Over 475′ up to 525′	18′ fwd. 20′ aft
Over 525′ up to 580′	20′ fwd. 22′ aft
Over 580′ up to 625′	22′ fwd. 24′ aft
Over 625′	24′ fwd. 26′ aft

HEALTH (also see "Radio"): 1. *Radio pratique.* The quarantine officer in charge may grant pratique by radio to a vessel upon basis of information regarding vessel, its cargo and persons aboard, received prior to arrival, when in his judgment, and in accordance with instructions by the Chief, Division of Preventive Medicine and Quarantine, entry of vessel will not result in introduction, transmission or spread of communicable diseases.

2. *Disease on board.* Master shall report promptly by radio to quarantine officer in charge at port of entry in Canal Zone, and wherever practicable not less than four hours before expected arrival, the occurrence or suspected occurrence of any communicable diseases:

3. *Quarantine declaration.* On arrival the master shall complete a maritime quarantine declaration on Canal Zone Government Quarantine Declaration form. The completed form shall be delivered to quarantine officer at time quarantine inspection is begun. Declaration shall also be signed by ship's surgeon if one is carried.

RADIO: Balboa Naval Radio NBA.

1. *Signal stations.* (a) Visual-signal stations established for communication on arrival Canal approaches by International Code and/or flashing light, at seaward end of Pier 6 Cristobal, and on Flamenco Island at Pacific entrance.

(b) Flamenco Island also contactable on VHF Channel 12 frequency 156·6 Mgs., and R/T 2182, 2638 and 2846 kc/s. – call letters WHC.

(c) Vessels of 85 ft. beam and above awaiting transit at Balboa anchorage should keep VHF radio watch on Channel 12 for transit orders.

(d) Arriving ships may communicate with Port Captain's Office, Cristobal through Cristobal Signal Station Radio communication is maintained on international maritime VHF Channel 12 (156·6 Mc/s.) through "Cristobal Radio".

2. *Advance information required by radio from vessels approaching Canal.* Vessels approaching Canal shall communicate by radio to the Port Captain, through Balboa Radio Station, call letters NBA, at least 48 hours in advance of arrival in Canal Zone, the information required below. If radio communication can be established earlier than 48 hours in advance of arrival, required information should be furnished at time such communication is first practicable.

(*a*) All items of information listed below, unless previously communicated through agents or otherwise to Canal authorities, shall be transmitted to Port Captain using phonetic alphabet letters to identify items, as follows:

ALFA – If Canal transit is desired.
BRAVO – 48-hour advance estimate of time of arrival.
CHARLIE – Fore and aft draft, of vessel. Warships should include displacement.
DELTA – Last port of call.
ECHO – If there is any communicable disease aboard and, if s identify such disease or diseases.
FOXTROT – Number, kind and origin of animals aboard, if any.
GOLF – Number of landing passengers, if any.
HOTEL – Number and origin of stowaways aboard, if any.
INDIA – If any structural changes, or changes in use of tanks, ha been made since the vessel's last transit.
JULIET – Number of smallpox vaccinations required by crew mem bers and passengers.

In addition to the above, tankers shall report:

KILO – The grades of cargo carried, if any. Give name of cargo other then petroleum products.
LIMA – The grade of cargo last carried in each empty tank that is n gas free. Give name if other than petroleum products.

Vessels carrying explosives of any nature, whether for transit docking, shall also report:

MIKE – The grades of such explosives.
NOVEMBER – The quantity in tons of each grade of such explosive

(*b*) Following additional information shall be transmitted v radio to Port Captain from *all* vessels as applicable:

(1) Vessels approaching from Pacific shall report actual time passing Cape Mala, or latitude of Cape Mala, and vessel's speed.

(2) Vessels approaching from Atlantic shall report 12 hours pri to arrival at Cristobal any change of one hour or more in expecte time of arrival.

(3) Any other matters of importance and interest.

(*c*) Timely receipt of above information will facilitate transit docking of arriving vessels. Failure to comply with these reportin requirements may subject a vessel to delay.

DENSITY: On several occasions vessels arriving for transit ha been found to be over authorised draft after entering Gatun Lak Overdrafts in these instances have been caused, it is believed, b assuming fresh water densities different from what actually exis in Canal.

Using distilled water as 1·000, water densities have been dete mined to be as follows:

	Density	
Location	*Gm./cc 85°F*	*Lbs./ft³ 85°F*
(*a*) Gatun Lake*	0·9954	62·21
(*b*) Miraflores Lake†	0·9971	62·32
(*c*) Balboa Anchorage‡	1·0219	63·87
(*d*) Cristobal‡	1·0212	63·76

*Fresh water.
†Brackish water.
‡Salt water.

BOILER WATER: May be taken without charge from Gatun Lak subject Pilot's Permission and draft.

FRESH WATER: Available Balboa on Cristobal cost about cents per 100 c.ft.

CERTIFICATES: see "Documents". (*a*) If a valid Deratting Cert ficate or Deratting Exemption Certificate is not produced wit respect to any arriving vessel the quarantine officer shall:

(1) If he is satisfied that vessel is free of rodents or is kept in suc a condition that number of rodents on board is negligible, issue Deratting Exemption Certificate; or

(2) If he is satisfied that a Deratting Exemption Certificate shoul not be issued with respect to such vessel, require deratting of vesse

(*b*) When, pursuant to paragraph (*a*) (2) of this section, deratti has been completed to satisfaction of quarantine officer, he sha issue a Deratting Certificate.

CUSTOMS: 1. *Hours.* The regular hours for the customs inspectio of baggage of landing passengers and for the customs supervisio of landing passengers are from 7 a.m. to 5 p.m. daily, excludin Sundays, and holidays. Such customs services may be furnishe during other hours, or on Sundays and holidays, only upon th request of the Master or authorised agent.

2. *Marine Protests.* Marine notes of protest may be made an extended by Masters of American vessels before customs officer without charge.

3. *Allowances.* Tobacco, Wine and/or Spirits at Master's discre tion sufficient for immdeiate consumption. Alcohol not permitted t be taken ashore.

CONSULS:

Great Britain: British Consulate, Colon Office 38–7–7060;

Norway: Royal Norwegian Consulate General: Consul Genera for Panama, R. P., Terence O. Ford, Office: 28–25–2347. Residence: 28–24–1884.
Norwegian Consul, Cristobal, G. R. Morland, Fenton Bldg 3–2819.
Norwegian Consul for Pacific Side, Canal Zone, Arne Hauge Office 2–1965.

Republic of South Africa: Consul for the Republic of Sout Africa, Henry I. Darlington, Office: 28–23–0834. Residence: 28–23–6779.

Sweden: Royal Swedish Consulate General, Edificio Melinda Via Argentina, Panama 28–23–9694.

Denmark: Royal Danish Consulate General, Consul General fo Panama and Canal Zone, W. Ishoy, Office: 28–25–0524. Residence: 28–24–1537.
Royal Danish Consulate for Colon and Canal Zone, George R Downing, Office: 38–7–1870. Residence: 3–2361.

Finland: Finnish Vice-Counsel, Cristobal/Colon, Donald Francey Fenton Bldg. 3–1781.

REPATRIATION: Crew members, of vessels other than vessels o United States registry or enrolment signed on before a shipping commissioner, may be discharged in Canal Zone only with consen

of the Immigration Service. Before such consent may be given, the Chief Immigration Inspector at port concerned shall be furnished a memorandum in triplicate showing name, age, nationality, and rating of the crew members proposed to be discharged.

When crew members are signed on a vessel, other than crew members signed on a vessel of United States registry or enrolment by a shipping commissioner in the Canal Zone, a memorandum in triplicate showing name, age, nationality, and rating of crew members signed on shall be furnished to Chief Immigration Inspector at the port concerned.

Arriving crew members and particularly visiting Superintendents should if possible possess Panamanian visas.

AIRPORT: Tocumen International Airport located outside Panama City, 18 miles from Balboa; 48 miles from Cristobal, served by all major scheduled international airlines operating in Southern hemisphere.

HOLIDAYS: Sunday, January 1; February 22, Good Friday; May 30; July 4; First Monday in September; November 3; November 11; Thanksgiving Day; December 25; and such other days as may, pursuant to law, be declared to be holidays.

TIME: EST. No alterations to clocks necessary throughout the year.

LOCKS: Gatun Locks (Atlantic side) raise and lower vessels 85 ft., Miraflores (nearest to Pacific) 54 ft. and Pedro Miguel (Pacific side) 31 ft.

AUTHORITY: The Chief, Navigation Division, Panama Canal Company, Box 5012, Balboa, Canal Zone.

AGENT: See "Cristobal".

PUERTO LAS MINAS (Payardi): 09.24 N. 79.50 W.

DOCUMENTS:
5 Crew Lists.
5 Passenger Lists.
5 Stores Lists.

Vessels arriving at Las Minas Bay for cargo operations must have on board Panamanian Consular despatches, obtained at the previous port. Vessels arriving without despatches will be charged with twice the cost of these documents on arrival.

PILOTAGE: Refinery Pilot boards at the sea buoy in approximate position 9° 25′ 40″ N. 79° 49′ 42″ W.

ANCHORAGE: Vessels waiting for Pilot should anchor in the vicinity of the sea buoy in the approximate position given above.

APPROACHES: Las Minas Bay is situated approx. 6 miles East of Cristobal. The approach channel is 1 mile long, 1,000 ft. wide, with a minimum depth of 47 ft. Leading lights covering approach channel on bearing 171°.

The inner harbour channel is 1 mile long, 300 ft. wide, dredged to a depth of 40 ft. up to the tanker berth. Leading lights covering the inner harbour channel are on a bearing of 148° 45″.

MAX. SIZE: Length 800 ft. LOA, draft 37 ft. 6 in. at tanker berth.

RADIO: See Panama Canal.

BERTHING FACILITIES: One tanker berth with a depth of 40 ft. alongside. Dry cargo berth, depth of 28 ft. alongside. This berth can accommodate vessels up to 530 ft. LOA.

Barge Dock, with depth of 20 ft. alongside. Can accommodate vessels up to 250 ft. LOA.

FRESH WATER: Drinking water may be taken on directly from the tanker berth while discharging or loading cargo.

FUEL: Bunkering at the tanker berth is available only to vessels working cargo. Vessels under 250 ft. length can be bunkered at the barge dock. Vessels at the dry cargo pier are bunkered by barge. Vessels calling for bunkers only are refuelled by barge at the anchorage in vicinity of the Sea Buoy No. 1.

From the storage tanks of Refineria Panama, marine fuels are loaded on barges and transported to Cristobal and Balboa and also to Colon Harbour and Taboga Island for delivery to vessels by barge. The refinery produces all types of marine fuels, Bunker C, light and heavy diesel, kerosene, etc.

When a vessel is stemmed for bunkers and cannot be supplied by barge due to rough weather or technical difficulties, she is docked at Cristobal, where she bunkers for the account of the suppliers (Refineria/Golden Eagle). The supplier then absorbs any docking charges in excess of the barging fee, plus Panamanian Authorities usual fees.

AUTHORITY: Refineria Panama S.A.

Papua and New Guinea

KAVIENG: 02.34 S. 150.48 E.

DOCUMENTS: See "Lae".

PILOTAGE: The Administration does not maintain a Pilot at Kavieng. Arrangements may be made with the Harbour Master at Rabaul; and a private Pilot can be contacted by the Agent.

HEALTH: See "Lae".

RADIO: Call through VJZ.

TUGS: None available.

BERTHING: Main Wharf. Length 330 ft.; width 40 ft. Minimum depth at LW 32·5 ft. (N.B. channel restriction 26 ft.)

FRESH WATER: None available.

FUEL: Diesel fuel and distillate are available. Supply is by road tanker.

CUSTOMS ALLOWANCE: Tobacco: 1 lb. per person, 400 cigarettes deemed equivalent to 1 lb. Wine/spirit: Not in excess of three quarts per person.

REPAIRS: No facilities.

AIRPORT: Distance from port 2 miles by road, served by regular airlines.

TIME: GMT plus 10 hours. No change.

AUTHORITY: Collector of Customs, Postal Address: Box 137. Tel. Office 58. Telegraphic address: "Portman, Kavieng".

AGENT: See "Rabaul".

LAE: 06.48 S. 147.11 E.

PORT LIMITS: From a position Lat. 6° 44′ 12″ S. Long. 146° 59′ 52″ E. 175° T. for 2·2 cables, thence 270° T for 9·3 cables, thence 017° T to the shore. Time of arrival at Sugarloaf Anchorage, if berth is not immediately available, is accepted as time of arrrival in port.

DOCUMENTS: First port of call in Papua New Guinea the following inward Customs documents are required to be handed to Customs Department within 24 hours of ship's arrival:
3 copies Inward Passenger List.
7 copies Inward Customs Manifest.
3 copies List of Crew.
3 copies Articles in Private Possession of Officers and Crew – Form 5.
3 copies Stores List.
2 copies Immigration Restriction Ordinance List (Form 6) being complete list of passengers disembarking and in transit.

If other than first port of call:
3 copies Inward Passenger List.
7 copies Inward Customs Manifest.
Outward Customs Clearance from last port of call.

PILOTAGE: The Administration's Harbour Master acts as Pilot if required. Pilot will board vessel 3 miles from Overseas wharf, from a 25 ft. fibreglass blue and white cabin cruiser.

Telegrams requesting a Pilot should be addressed to Lyle Lae through Lae Radio on 50 kc/s between 2200 GMT and 0830 GMT any day. VHF station, call sign Lae Harbour, Channel 16.

ANCHORAGES: Safe anchorage is available about 5 miles from main wharf, in the Huon Gulf area, called Sugarloaf Anchorage, at approximately one and a half miles offshore between beacons: Northern Beacon lat. 6 deg. 47′ 10″ S., long. 146 deg. 57′ 20″ E. Southern Beacon lat. 6 deg. 48′ 20″ S., long. 146 deg. 57′ 6″ E.

Holding ground is good and 11 fathoms is found just South of the line with Northern Beacon bearing West true one and a half miles distant. The depth varies within a fathom or two in seasons on account of the soft bottom.

Medium-sized vessels up to 450 ft. LOA may find safe anchorage 1½ cables from N.W. end of the Overseas wharf in position 6° 44′ 03″ S., 156° 48′ 48″ E. Depth of water 30 ft.

RESTRICTIONS: The port works 0600–2400, 7 days a week, except on Christmas Day and Good Friday.

Except for LPG and fuel, vessels berth and sail any time of the day or night, depending on availability of berths and number of vessels waiting for a berth.

MAX. SIZE: The Overseas wharf is 810 ft. long, with a minimum depth alongside of 31 ft. Normally two vessels, max. draft 30 ft., are berthed simultaneously, each overhanging the ends of the wharf.

HEALTH: (*a*) Vessels Arriving Directly from Australia. Pratique is given by radio to vessels which voyage directly from Australia to a Territory port. Master of vessel notifies Quarantine Officer at the port of entry to which he is proceeding of ETA, the number of passengers and crew and whether there is any sickness aboard. This notification from Master is sent not longer than 24 hours and not less than 12 hours of the ETA. If there is no sickness aboard a reply is sent stating that pratique is granted, and when a vessel arrives the actual pratique form is delivered to Master of vessel or to Collector of Customs to hand to Master. Full pratique is given.

(*b*) Vessels Arriving from a Foreign Port. All vessels which arrive from a foreign port must anchor in the designated position and await arrival of a Quarantine Officer who boards the vessel by himself – no other person (except a Pilot) is to be allowed on board vessel until pratique has been granted. If a Pilot is on board he must remain on board until pratique is granted.

Smallpox. All passengers and crew are required to be in possession of a valid International Certificate of Vaccination against smallpox on arrival in the Territory. *Cholera.* All passengers and crew are required to be inoculated against cholera if the vessel is expected to arrive at a port in the Territory within seven days of leaving an area where cholera is either endemic or is present.

RADIO: Radio contact is made through Lae Radio on 500 kc/s and station call sign is VIL. Telegraphic address for radio contact is Lyle Lae.

TUGS: None available. Two 21-ft. steel work-boats are available for running lines to wharf and shore bollards.

BERTHING: Vessels berth either port or starboard side to at the direction of the Port Manager. Provided anchorage in Milford Haven Bay is clear, ample swinging room is available off the North-western end of the wharf.

STEVEDORES: There are three stevedoring companies in port of Lae. Information required by the stevedores is approximately 72 hours' notice of the number of gangs required, hatch tonnages and information of any particular heavy lifts or awkward cargo.

MEDICAL: Maximum possible notice should be given so that full arrangements can be made with regard to hospitalisation, etc. Full

hospital facilities are available approximately two and a half miles from the wharf.
TANKERS: Tankers berth on the wharf, maximum permissible draft 31 ft. and only one tanker can berth at a time. Tankers must be coupled up to the shore pipe-line and pumping commenced at least one hour before sunset.
DENSITY: Due to proximity of Markham River, fresh water extending approximately one and a half miles from the wharf.
FRESH WATER: Fresh water is available in unlimited quantity at a rate of 40 tons per hour.
FUEL: Only light grade fuels are available such as dieseline and distillate.
GANGWAY/DECK WATCHMEN: Watchmen are not required.
OPENING/CLOSING HATCHES: Normally carried out by stevedores.
CERTIFICATES: Certificates of Registration, and Standard Articles. If a ship remains in port over 24 hrs., Articles must be stamped by Harbour Master. Certificate of Registry and Port Dues Certificate must be produced to Port Manager if requested.
CUSTOMS ALLOWANCES: A duty-free issue of 200 cigarettes or the equivalent weight in tobacco is issued by Customs every ten days. No wines or spirits allowance to crew members.
CARGO GEAR: All cargo gear necessary for discharging and loading is carried by stevedoring company.
